CORRESPONDENCE

School officials who are looking for teachers may obtain full and confidential information in regard to the qualifications, character, and experience of former students who are candidates for positions in their schools.

Former students who wish teaching positions may register their names with the chairman of the appointment committee.

Bulletins published by the college are sent upon request.

STATE OF ILLINOIS
DEPARTMENT OF REGISTRATION AND EDUCATION
THE NORMAL SCHOOL BOARD

EX-OFFICIO MEMBERS

MICHAEL F. WALSH, *Director of Registration and Education,*
Springfield, *Chairman*

FRANCIS G. BLAIR, *Superintendent of Public Instruction,*
Springfield, *Secretary*

APPOINTED MEMBERS

1925-1931

Frank M. Hewitt, Carbondale
N. M. Mason, Oglesby
Miss Harriett A. McIntyre, Mendota

1927-1933

Edgar B. Still, DeKalb
Mrs. M. K. Northam, Evanston
Charles E. McMorris, Marshall

1930-1936

Mrs. G. W. T. Reynolds, East St. Louis
Albert E. Bailey, Macomb

Under the provisions of the Civil Administrative Code for the consolidation of State agencies under the direction of the Governor, the five State Normal Schools of Illinois are controlled by a single board consisting of eleven members: the Director of Registration and Education, who is *ex-officio* chairman, the Superintendent of Public Instruction, who is *ex-officio* secretary, and nine members appointed by the Governor for terms of six years.

PART I

GENERAL INFORMATION

The Eastern Illinois State Teachers College is a TEACHERS COLLEGE, Class A, in the American Association of Teachers Colleges, and a COLLEGE, First List, in the North Central Association of Colleges and Secondary Schools.

EASTERN ILLINOIS STATE TEACHERS COLLEGE

LOCATION

The Eastern Illinois State Teachers College is located at Charleston, the county seat of Coles County, Charleston is on the Big Four and Nickel Plate railroads and is connected with the Illinois Central Railroad at Mattoon and with Kansas and Paris by a motor bus line.

HISTORY

To provide more adequate facilities for the training of teachers for the public schools of the state the legislature by an act approved May 22, 1895, established the Eastern Illinois State Normal School. This by an act of legislature in 1921 became "The Eastern Illinois State Teachers College at Charleston." On September 7, 1895, the five trustees provided for in the act selected a beautiful forty-acre tract of land three-quarters of a mile south of the public square of Charleston. The citizens of Charleston bought the land and presented it to the state. The building was erected at a cost of \$180,000. The grounds have a good elevation and are shaded by many fine old trees.

December 2, 1895, the contract was made for the erection of the building. The cornerstone was laid on the afternoon of May 27, 1896. The building and grounds were dedicated August 29, 1899, and on September 12, 1899, the institution was opened to students.

During the first year there were nineteen members of the faculty and two hundred forty students. At the end of the first year, June, 1900, four students were granted the diploma of the school upon completion of the course of study. In 1930, eighty-three students were graduated from the Junior College and thirty-five from the Senior College.

During the summer of 1901, a six weeks' session was offered for teachers. Beginning with the summer of 1920, the college has offered a twelve weeks' summer quarter. A mid-spring session of six weeks was offered from 1922 to 1929.

In 1907 the state legislature appropriated one hundred thousand dollars for a woman's building. This building was completed and occupied in January, 1909. It has proved to be a distinct

addition to the cultural value of the institution. In addition to providing a beautiful home for one hundred young women during their residence in Charleston, it has had a marked influence in establishing good standards of living, and has come to be the social center of college life.

In 1911 the state legislature appropriated seventy-five thousand dollars for a training school building which was completed in 1913 with the exception of the assembly room which it still lacks.

In 1907 the power of conferring degrees was granted to the institution by the state legislature. Courses leading to the degree of Bachelor of Education (B. Ed.) were announced in 1920.

In 1925 the state legislature appropriated one hundred seventy thousand dollars for a Practical Arts Building. This building completed in 1929 is used for home economics (Smith-Hughes) and for manual and industrial arts.

The institution has always stood for sound scholarship and has striven to inculcate in the minds of its students a sincere love for truth. One of the gratifying evidences that it is in a measure fulfilling its mission is the fact that so many of its students have gone on to higher institutions of learning the better to equip themselves for service.

PURPOSE

The function of the state in education extends of necessity to the training of teachers. A rational system of public education implies provision for securing efficiency in the teaching office. State Teachers Colleges are the natural outgrowth of a policy of public education. The state is the only agency competent to meet the demands for qualified teachers imposed by its own attitude toward the instruction of its people. The object of a State Teachers College is not to extend the earning power of one class of persons at the public charge. It is to give a culture and learning dedicated in a special way to the general welfare. It exists primarily not for the benefit of its students but for the benefit of the whole people. Such a conception is fundamental and determines questions of organization, courses of study, and methods of instruction in the State Teachers Colleges.

EQUIPMENT

GROUNDS.—The grounds comprise forty acres, including the campus proper, the forest plantation, and the athletic field. These grounds, laid out by Mr. Walter Griffin, one of the most

skillful landscape gardeners in the country, are justly considered exceptionally beautiful. A natural grove and other fine trees, a pond, a wide stretch of green, many borders of shrubbery and perennials in the natural style present a succession of pictures throughout the year. In the main grounds are the tennis courts, the children's playgrounds, the athletic field for girls, and the school garden. The forest plantation, planted during the early years of the institution, now includes several acres of thrifty trees, much used in botanical and zoölogical studies. In the adjoining athletic field, one of the best among those of the small colleges of the state, are the baseball diamond, the football field, and the quarter-mile cinder track.

MAIN BUILDING.—The main building is a three-story structure, three hundred twenty-three feet in length, built of rough Bedford stone. It is in the Norman style, with a tower which is the neighborhood landmark. In this building are offices, the library, the assembly room, music and art rooms, class rooms, and laboratories.

TRAINING SCHOOL BUILDING.—The training school building of smooth Bedford stone was completed (except the assembly room) in 1913 at a cost of seventy-five thousand dollars. It is placed conveniently near the main building, and besides the rooms for the elementary school it contains class rooms and a laboratory for high school agriculture.

PEMBERTON HALL.—The legislature of 1907 appropriated one hundred thousand dollars for a woman's building and gymnasium—the first appropriation for a woman's building ever made in the state of Illinois. A fine stone structure was finished and occupied January 4, 1909. The building has met the fondest hopes of its most ardent advocates, and its value as a social center in the college and in setting good standards of living is well established.

Room, including heat and light, with table board and privileges of laundry, costs \$7.50 a week. For table board, \$5.50 a week is charged. Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. Reservation is made by sending to the Teachers College an application blank with the \$5.00 deposit. Application blanks will be sent at the request of students.

The deposit is credited to the student as part of the first month's payment, but forfeited if the student cancels the reservation too late to have it used by someone else.

PRACTICAL ARTS BUILDING.—The Practical Arts Building, completed in 1929, furnishes excellent facilities for students who wish to specialize in manual arts and home economics for grade and high school positions and for the preparation of teachers in

these subjects for the Smith-Hughes Vocational Schools. Shops are provided for practice in all kinds of hand and machine wood-work, metal machine shops and automobile repair, sheet metal work, general metal, electrical construction and installation, printing, and mechanical drawing. These shops are all well lighted and on the first floor of the building. The basement consists of class rooms, storage rooms, and locker rooms.

The home economics department occupies the entire second floor of this building. Here are food laboratories, sewing rooms, fitting rooms, a lecture room, a dining room, a unit kitchen, a foods class room and teachers' room, all arranged for the greatest convenience and efficiency in teaching.

There is floor space of approximately 27,500 square feet in the building. The first floor occupies 12,700 square feet, the second floor 7,400 square feet, and the basement a similar amount.

MUSIC BUILDING.—The small Manual Arts building, south of the power house, is now used for the band and orchestra. Lessons are given here in band and orchestra instruments.

LIBRARY.—The library now contains about 36,000 books and pamphlets. The reference books, bound periodicals, and reserve books are shelved in the reading room. Here are also found the current numbers of almost two hundred periodicals, including, in addition to those of general interest, many devoted to special subjects. The books for general circulation are kept in the stack room to which all students of the Teachers College and of the High School, and pupils of the seventh and eighth grades are admitted. For grades lower than the seventh, schoolroom libraries are provided. The library has a dictionary card catalogue and the books are classified according to the Dewey decimal system. There is a large collection of classified pictures for use in all departments. Three librarians are in charge, giving necessary aid and instruction to students in the use of books. Lessons in the use of the library are required in all curriculums as explained in the Description of Courses.

SCHOOL GARDEN AND GREENHOUSE.—An opportunity is given for seeing the work done by pupils of the Training School in elementary agriculture. Small plots of ground are planted and cared for by the pupils under the direction of the teacher of agriculture and the teachers of the Training School. Connected with the students' garden is a model vegetable garden, a rose garden, and a garden for experimentation and exhibition purposes. All of these divisions are used for demonstrating the proper care of plants, the methods of propagation, crop rotation, and some of the principles of plant breeding.

An excellent four-room greenhouse contains many plants of unusual interest and serves as an important adjunct to the botanical laboratories.

Additional facilities for field observation and for obtaining laboratory materials are offered by a small lake and a forest plantation of six thousand trees within five minutes' walk of the biological laboratories.

LABORATORIES.—The botanical laboratories are well equipped for the training of teachers for high schools.

The laboratory tables are so equipped that each student has a light at his desk. The plant collections include numerous specimens of all kinds of plants so that each student may have his own material for study and may become well acquainted with plants.

The mechanical equipment consists of about three thousand microscopic slides that are of the best workmanship; compound microscopes of modern construction; a good projection lantern with several hundred lantern slides of plants and their structures; numerous pieces of apparatus for the demonstration of the physiological processes occurring in plants; and microtomes for the cutting of sections of plant tissues for the preparation of microscopic slides.

The zoölogy and physiology laboratory has sufficient equipment so that forty-four students may work at the same time, each being supplied with a compound microscope, a simple microscope, and other equipment necessary for examining specimens. There are many preserved specimens of both local and foreign fauna, including marine animals. The accession numbers of these now run over 16,000. Most of these are preserved in formalin and alcohol, but there are nearly two hundred mounted birds and mammals and over three hundred skins of these types of animals. There are also many shells, corals, and thousands of mounted insects, and other dried specimens. There are ample facilities for keeping live animals. Many models and skeletons are used and also about sixty-five of the best charts obtainable. Over twenty-five hundred lantern slides are available for illustrative purposes.

The chemistry laboratory is well equipped with all apparatus needed for demonstration and for laboratory experiments. The tables are modern and give places for thirty-two students to work. An ample supply of analytic balances is provided.

The physics laboratory is equipped for experiments in all subjects of physics. It is well wired for electrical work. Wall galvanometers are provided for electrical measurements. Gas,

water, and compressed air are available. A dark room is included for photometry and various studies in light. The equipment provides for both demonstration and laboratory work in all courses.

The agriculture laboratory is supplied with tables, a set of apparatus for testing milk and its products, and apparatus for soil studies.

EXPENSES

Tuition is free to college students who are to teach in the public schools of Illinois for a period equal to the time spent in this school. Others in the college pay tuition at the rate of \$25.00 a quarter (twelve weeks).

At Pemberton Hall, room, including heat and light, with table board and privileges of laundry, costs \$7.50 a week, payable monthly in advance (\$30.00 at the beginning of each month). For table board, \$5.50 a week is charged, payable monthly in advance (\$22.00 at the beginning of each month). Students are not required to furnish anything.

Fees for college students for each quarter (12 weeks) are \$11.25 and for high school students \$10.25, distributed as follows:

Registration	\$ 5.00	
Book rent.....	1.50	
Recreation fee.....	1.00	
Athletic Association.....	2.15	(\$1.15 for high school)
Warbler75	(.50 for high school)
College News.....	.50	
Band35	

Total, College..... \$11.25

Total, High School..... \$10.00

For piano or voice lessons a fee of \$5.00 a quarter is paid. Two lessons are given each week.

Lessons in violin, clarinet, cornet, or other instrument—one or two students in a period—are \$5.00 a quarter, two lessons a week (equivalent to one fifty-minute period a week).

Class work in these instruments is free.

A maximum fee of \$5.00 a quarter is charged for the rental of the instrument.

PENALTIES

An additional fee of \$1.00 is charged if a student fails to complete his registration on the day or days appointed for registration. An additional fee of \$1.00 is charged if a change in programme is made after the third day of the quarter.

An additional fee of \$1.00 is charged if the student's record at the textbook library is not clear at the close of each quarter.

The original transcript of a student's record, including one carbon copy, will be mailed upon request without cost to the student; but a charge of \$1.00 is made for additional copies of this transcript sent later.

PLEDGE

"In consideration of free tuition in the Eastern Illinois State Teachers College, I pledge to teach in the public schools of Illinois for a period equal to that covered by my attendance at the Eastern Illinois State Teachers College; and I agree to report annually to the president of the college the number of months taught in Illinois until this pledge is fulfilled. If I do not teach the required time in the public schools of Illinois within five years after leaving college, I promise to pay to the Eastern Illinois State Teachers College at the end of that period tuition at the rate of \$25.00 for each quarter (twelve weeks)."

BOARD AND ROOM

Board and room can be obtained in private families for from \$7.00 to \$7.50 a week. Students renting rooms and keeping house can materially reduce this amount. Room without board can be obtained for from \$2.00 to \$3.00 a week; board alone, \$5.00 a week.

At Pemberton Hall, room, including heat and light, with table board and privileges of laundry, costs \$7.50 a week, payable monthly in advance (\$30.00 at the beginning of each month). For table board, \$5.50 a week is charged, payable monthly in advance (\$22.00 at the beginning of each month). Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. Reservation is made by sending to the Teachers College an application blank with the \$5.00 deposit. Application blanks will be sent at the request of students.

The deposit is credited to the student as part of the first month's payment, but forfeited if the student cancels the reservation too late to have it used by someone else.

The college maintains a Housing Bureau in order to assist students in finding the best rooms obtainable. Householders who have rooms to rent to students are registered with the bureau; the rooms are inspected and when approved are put on the list

of available rooms. Students may obtain this list by writing to the Housing Bureau or may come for consultation on arrival at the college.

SCHOLARSHIPS

ARMY AND NAVY SCHOLARSHIPS.—Men who served in the United States Army or Navy in the Great War and who were residents of Illinois at the time of entering the service are exempt from the payment of tuition, registration fee, book rent, and the special fee for piano, voice, or instrument lessons.

LINDLEY SCHOLARSHIPS.—"In order to equalize the advantages of the State Normal Schools," encourage attendance and thereby increase their usefulness, the state legislature passed the Lindley Bill in 1905. This act provides that "there shall be awarded annually to each school township or fractional township a scholarship which shall entitle the holder thereof to gratuitous instruction in any State Normal School for a period of four years."

ALUMNI SCHOLARSHIPS.—The Alumni Association of the Teachers College awards when it is possible four fifty-dollar scholarships to graduates of four-year high schools on the basis of scholarship and general excellence. Half of the award is paid on November 1, and the remainder on January 1. The Association took this action with a view to influencing well-qualified high school graduates to come here for teacher training. No awards were made for the years 1927-1931. The receivers of the awards are members of the freshman class of the year for which the award is made.

THE FLORENCE VANE SKEFFINGTON SCHOLARSHIP.—In memory of Florence Vane Skeffington, whose rare abilities and personality gave character to the English work of this school for seventeen years, the Florence Vane Skeffington Scholarship of one hundred dollars is awarded annually to a student whose gifts and attainments promise distinction in the teaching of English. The award for 1931-1932 goes to Ruth Corley.

THE TEACHERS COLLEGE HIGH SCHOOL SCHOLARSHIP PRIZE.—The 1927 graduating class of the Teachers College High School established a fund of \$125.00, the interest from which is used each year for a scholarship prize to be given to the member of the graduating class of that year who has maintained the highest standard of scholarship throughout his or her four years in the Teachers College High School.

The fourth award was made to of the high school graduating class of 1931.

LOAN FUNDS

THE STUDENTS' LOAN FUND.—The Students' Loan Fund of the Eastern Illinois State Teachers College makes it possible for a deserving student in the second half of the course to borrow, at a low rate of interest on a personal note, a sum of money that will help him to remain in college and complete the course. Students find such temporary assistance of great advantage. The foundation of this fund was secured from admission fees to the Senior Class play and to the Training School entertainment, given during commencement week.

Under the will of the late Dr. W. D. Morgan, of Charleston, there is given to the Students' Loan Fund the annual income from about six thousand dollars, which is one-seventh of the estate. An additional amount will be received at the death of certain heirs.

THE ADELIA CAROTHERS FUND.—A fund known as "The Adelia Carothers Fund" has been established by Mrs. Ida Carothers Merriam and Mr. Charles G. Carothers in memory of their mother. This fund is to be loaned to young women students of high character and scholarship during the last half of their course. The student to whom this loan is made is distinctly honored.

SOCIAL ACTIVITIES

ENTERTAINMENT COURSE.—For several years the college has maintained during the regular year an entertainment course in order to bring to the students entertainments of genuine interest and merit. The course is supported by the students' activities fee and by the sale to others of single admission tickets. Under the auspices of this course such attractions as the following have been presented: United States Marine Band, Cleveland Symphony Orchestra, Flonzaley Quartette, Coburn Players, Stratford Players, Tony Sarg's Marionettes, Carl Sandburg.

The entertainment course for 1930-31 included the Kedroffs, foremost male quartette in Europe and America; Franklyn B. Snyder, instructor in English, Northwestern University; Ralph Dennis, Dean of the School of Speech, Northwestern University; and Cornelia Otis Skinner, talented actress.

DRAMATICS.—A Director of Dramatics supervises all dramatic work for public presentation. Under the plan adopted, the high school and the college constitute two dramatic organizations, with elected student officers. The college organization is called "The Players." The major production of the year for each is the commencement play. Other programmes are presented during

the year if suitable talent is available. The high school organization is called "The Footlights Club."

The ends in view under this plan are as follows:

1. To make possible the development of dramatic talent through a period of years rather than through the period of rehearsal for one play.
2. To attempt to maintain as nearly uniform standards as possible and to build up higher aims as progress is noted.
3. To encourage familiar acquaintance with the artists of the theatre of all times.
4. To establish a fund for permanent equipment.

THE TEACHERS COLLEGE NEWS.—An eight-page weekly, "The Teachers College News," published by a board of student editors with a faculty adviser, is issued on Tuesdays. It is supported by the students' activities fee. In addition to announcements, reports of games, local news, and alumni notes, it contains editorials of high value in influencing college spirit as well as student spirit. Some class work of merit appears occasionally in this paper. It deserves the support of students, teachers, and alumni.

The class of 1924 left, as a class memorial, equipment for a room devoted to the uses of "The News" and the "Warbler."

RECREATION.—A committee consisting of five members of the faculty and a student from each Teachers College class has charge of student recreations which are not solely class affairs. The latter are under the supervision of the faculty advisers of each class. The students are permitted to have parties Saturday or Monday evenings in the gymnasium. In the spring and fall, there are picnics in the neighboring woods. These activities are chaperoned by members of the faculty.

DOMAFIAN ART CLUB.—The Domafian Art Club is a students' organization for those whose major subject is home economics, manual arts, or fine arts, and for those in other curriculums who are interested in the work of the club. The purpose is to learn more about each special field than can be learned in the class room. Exhibitions, lectures, and visits to studios, museums, and art galleries are a part of the work of the club.

MATHEMATICS CLUB.—The Mathematics Club was organized in the fall quarter of 1927-1928 to further interest in that field of knowledge and to make it possible for students to discuss some of the phases of mathematics which are not included in regular classes. Any one who is interested and has had one year of algebra and one of geometry is eligible to membership. During the first year the club held eight meetings, one of which was an old-

time ciphering contest. The club has a membership of forty-eight students and teachers.

E. I. VARSITY CLUB.—The E. I. Varsity Club was organized in the fall quarter, 1927, by the letter men of the college for the purpose of promoting in all possible ways the betterment of athletics at E. I. Meetings are called by the president. Any student in the college who has earned an E. I. monogram is eligible to belong to the club as an active member and any student who has earned the E. I. monogram, but is not in college, is eligible to join the club as an associate member. All members must first be initiated into the club before becoming regular members. The initiation for new members is held during the spring quarter of each school year.

THE FORUM.—The Forum is a discussion group of students and faculty members who are especially interested in current economic, political, and social problems. Meetings are held bi-weekly throughout the college year; active membership is limited to those who have prepared and presented a paper of merit on some related topic.

PHI SIGMA EPSILON.—The Beta Chapter of Delta Lambda Sigma, organized in the winter quarter of 1927-1928, has been incorporated in Phi Sigma Epsilon, a national fraternity for Teachers Colleges.

The purpose of the organization is to maintain a high standard of scholarship, to promote school spirit, and to coöperate actively with the school in every possible way.

The fraternity has a house in which the members may live and enjoy with one another a true feeling of fellowship.

KAPPA DELTA PI.—Beta Psi Chapter of Kappa Delta Pi, an international honor society in education, was installed on January 2, 1931. Kappa Delta Pi, founded at the University of Illinois in 1911 under the leadership of William Chandler Bagley, has chapters in seventy-one colleges and universities. Students are elected to membership primarily upon the basis of high scholarship, good character, and promise of success in teaching. Election to membership in this organization is one of the highest honors that can be bestowed upon a student.

LE CERCLE FRANCAIS.—Le Cercle Francais was organized November 6, 1930. Membership is open to students who have had two or more years of high school French or two quarters of college French.

The purpose of the club is to promote the interests of French in the school, to improve the conversational ability of the stu-

dents, and to add to their information concerning French customs, life, and literature.

Meetings are held on alternate Thursday evenings. The programmes include papers prepared by the students, short plays given in French, and French games and songs.

SCIENCE CLUB.—The Science Club was organized in the fall quarter, 1930, by students in the botany, zoölogy, physics, chemistry, and geography departments in order that all may know something of the work in other scientific fields. Papers are presented and time is allowed for questions and for discussion. The membership is not limited to these departments. Anyone interested in science may belong. Meetings are held bi-monthly throughout the year.

WRITERS' CLUB.—The Writers' Club was formed in order that those who enjoy writing might be encouraged and given an opportunity for helpful criticism. Probationary membership is made up of college students and faculty members whose manuscripts have been accepted.

THE MEN'S UNION.—All men students of the college, upon registration, automatically become members of the Union. Membership entitles the holder to attendance at and voting in all business meetings, privileges at the house, and attendance at any social function sponsored by the Union. After graduation a member is entitled to an alumni membership which gives him club house privileges, attendance at all social functions, and any other privileges granted by the Union.

The purposes of the Union are to create a feeling of unity among the men of the college, and to promote all activities which concern them.

The officers of the Union are the president, elected by the entire organization in a general election, and the executive board consisting of eight men of the college. The four class presidents are members of the board and the men of each class elect one member of their class to represent them on the board.

The Lair is maintained by the Men's Union and is open to all men of the college. The rules governing this club house are made by the executive board of the Men's Union and a resident house manager sees that they are observed.

THE WOMEN'S LEAGUE.—Every woman upon matriculation in the college becomes automatically a member of the Women's League. Membership in the League entitles the holder to attendance at and voting in all business meetings and attendance at any social functions sponsored by the League.

The object of the League is to promote solidarity among the women of the college by uniting them for social purposes and for constructive effort.

The governing power of the League is vested in an executive council of nine members known as the "Council of Nine." The president is elected from the League at large and may be from any class. Each class elects two of its members to represent them in the Council.

ATHLETICS.—All athletic activities are conducted by the Athletic Council. This council is composed of two members of the faculty, appointed by the president; two students, elected by the students; and the athletic coach. An athletic fee is charged each college student and each high school student as part of the students' activities fee. This fee is payable at the beginning of each quarter. It entitles the student to free admission to all athletic contests in which Teachers College or High School teams take part on the home grounds, and also a vote for the student representative on the Athletic Council. The Teachers College and the High School have separate teams and play independent schedules. The Eastern Illinois State Teachers College is a member of the Illinois Intercollegiate Athletic Conference, and the High School is a member of the Illinois High School Athletic Association.

ATTENDANCE AT CHURCH.—Each student is expected to attend regularly the church of his choice, or that which meets the approval of his parents. The pastors and members of the different churches have made the students at home in the churches and Sunday schools. The teachers of the Teachers College encourage the students to form and sustain intimate relations with the churches.

THE STUDENT COUNCIL.—The Student Board of Control was merged with the old Student Council in the fall quarter of the year 1928-1929. The new Student Council was organized as a means of communication between the faculty and students and a way by which the students may aid in school discipline and in the general control of college affairs.

The Council now consists of eleven members: four from the senior class, three from the junior class, two from the sophomore class, and two from the freshman class. The term of office is one year. Elections take place in the respective classes at the second class meeting of the regular school year. The constitution provides for a president, vice president, secretary, treasurer, and historian.

ALUMNI CLUB

The Charleston Club of Chicago is an organization of former students. This club meets occasionally in a very pleasant way, and all former students or teachers, living in or near Chicago, will be notified of these meetings if they send their names to the president, Mr. Oliver C. Hostetler, '09, 1726 Ridge Ave., Evanston, Illinois.

THE ALUMNI ASSOCIATION

The Saturday preceding commencement is Alumni Day with morning exercises at ten o'clock.

The officers for 1930 to 1931 are: Mr. Errett Warner, '25, President and Chairman of the Executive Committee; Mr. William H. Green, '27, Vice-President; Miss Antha Endsley, '12, Secretary and Treasurer.

Executive Committee

Mr. Herbert Maurice Sullivan (term expires in 1931).
Miss Gwendolyn Cleo Jeffries (term expires in 1931).
Mr. Wayne E. Isley (term expires in 1932).
Mr. Bruce Corzine (term expires in 1932).
Mr. Herbert Wayne Cooper (term expires in 1933).
Miss Ruby M. Harris (term expires in 1933).

Social Committee

Mr. George Rankin (term expires in 1931).
Mr. A. O. Bainbridge (term expires in 1931).
Miss Mary Linder (term expires in 1932).
Mrs. Roscoe Farrar (term expires in 1932).
Miss Leah Todd (term expires in 1933).
Mr. Marsdon Grubb (term expires in 1933).

TEACHERS' APPOINTMENT COMMITTEE

To assist school officers in securing capable teachers and to help graduates in securing desirable positions the Eastern Illinois State Teachers College has an appointment committee. Its services are free both to teachers and to school officers. It is very desirable that graduates of the college keep the committee informed of their location and position, so that the committee may make intelligent recommendations to superintendents desiring experienced teachers.

⁶ Life certificate may be obtained by successful examination and preparation of thesis if applicant fails in slight measure to meet hours of training required for exchange of limited certificate.

PART II

INSTRUCTION

ORGANIZATION

The Eastern Illinois State Teachers College includes:

The Teachers College—

The Senior College.

The Junior College.

The Training School—

The High School, Grades IX, XI, XII.

The Elementary School, Grades I-VIII.

DIVISION OF THE YEAR

The regular college year consists of three quarters of twelve weeks each. Monday is taken as the weekly holiday. This plan gives teachers who have no school on Saturday opportunity to visit the Teachers College and promotes closer relations between the college and the teachers of the districts.

A summer quarter of twelve weeks gives teachers and students an opportunity to study during the summer vacation. The summer quarter of 1932 begins on Saturday, June 11, and closes on Friday September 2. It consists of two sessions of six weeks each, the first closing Friday, July 22. Students may attend either or both sessions.

The subjects offered are designed to meet the needs of:

1. Teachers of experience who wish to advance their professional or academic knowledge.
2. Supervisors and department teachers.
3. Those who are preparing to teach in schools that follow the Illinois Course of Study.
4. Those who wish to take regular work with a view to graduation from the Junior College with a diploma or from the College with a degree.

ADMISSION REQUIREMENTS

1. *To the Senior College:* Graduation from the two-year curriculum of a recognized Teachers College or of the Junior College of a recognized college or university.

2. *To the Junior College:* Graduation from a recognized four-year high school.

3. *To the High School:* Graduation from the eighth grade admits a student to the ninth year which is the first year of the high school. High school students enter the year which the units they have already earned give them the right to enter.

4. *High school records must be sent to the Registrar. A student with high school or other record should have a complete copy of the record sent by the principal of the school to the Registrar of the Teachers College. This should be done at least two weeks before the date of entering. A registration permit is filed at the office when the record has been checked and filed.*

Township scholarships are presented at the cashier's office on registration day.

GRADUATION

The degree of Bachelor of Education (B. Ed.) is conferred upon those who complete a four-year curriculum; a diploma is granted to those who complete the two-year curriculum for preparation of teachers for the grades. A two-year diploma is granted in English and manual arts. Four-year curriculums prepare teachers for high school, for special grade work, and for positions as principals, supervisors, and teachers of special subjects. *A year's resident work is required for a diploma or degree.*

Ninety-six quarter hours are required for a diploma and one hundred nine-two for a degree. Credit earned in physical education, library use, dramatics, College News, glee club, quartette, orchestra, or band is in excess of the total required for graduation.

For the degree, one-third of the student's credit toward graduation must be in courses not open to freshmen and sophomores. This requirement is in accordance with the standard of the American Association of Teachers Colleges.

The University of Illinois admits to full graduate standing all graduates of the Teachers College who present twenty semester hours of content courses in one major academic subject in addition to education and not less than one year of college work in Greek, Latin, French, or German.

Students planning to do graduate work at the University of Illinois should see that their records satisfy the foreign language requirement.

Students planning to teach in high schools should see that their records satisfy the requirements of the Illinois Examining Board and of the North Central Association.

The records of those who expect to complete a curriculum in a current year are checked at the beginning of each quarter and on April 1. A statement of the courses necessary for the completion of his work is given to each of these students in the fall quarter and is used by him in making his programmes for succeeding quarters. The list of candidates for graduation is based on the checking of April 1. A student who is not more than

sixteen quarter hours behind the class at that time may participate in commencement exercises with the class and receive his diploma or degree at the close of the summer quarter if he completes the work by that time. It is possible to earn sixteen quarter hours in the summer quarter.

SCHOLARSHIP

I. Grades are expressed in letters as follows:

A, Excellent	3 grade points
B, Good	2 grade points
C, Fair	1 grade point
D, Poor, but passing*..	0 grade points
E, Condition	0 grade points
(incomplete work)	
F, Failure	—1 grade point

* Passing, but not accepted toward graduation or toward admission to practice teaching if more than one-fourth of the student's courses receive a grade of D.

II. For graduation and for admission to practice teaching not more than one-fourth of a student's credits may have a grade of D; that is, three-fourths of his grades must be C or above. This means that he must have a minimum of nine grade points in his freshman year in order to be admitted to practice teaching in the sophomore year; a minimum of eighteen grade points for graduation from the Junior College; and a minimum of thirty-six grade points for the degree.

III. Graduation with high honors requires that a student receive a grade of A in three-fourths of his work and B average in the rest.

Graduation with honors requires a grade of A in one-half of the student's work; B or higher in one-fourth of his work; and C average in the rest.

Graduation honors are noted on the diploma, announced at commencement and published in the next issue of the annual catalogue.

IV. Scholarship honors on the same basis as graduation honors are announced for each quarter in the month after the beginning of the next regular quarter; in December for the fall quarter; in March for the winter quarter; in October for the spring quarter and for the preceding year.

The announcement is posted on the bulletin board and printed in the "Teachers College News."

V. The grade F (failure) is recorded against a student who drops, after the first month, a course in which he is failing; but

this does not apply to a student who is taking work to the amount of twenty quarter hours.

VI. A student whose class work is very poor or who is frequently absent may be excluded from the privilege of taking the final examination. A grade of F (failure) is recorded against him.

VII. A student failing in three courses, twelve quarter hours, in any quarter or in one-half of his work, eight quarter hours in each of two consecutive quarters is dropped from the college.

VIII. No freshman in a four-year curriculum may register for extra work in his first quarter.

No sophomore may register for extra work in the first quarter in which he is taking practice teaching.

No student whose average is below B in the preceding quarter may register for extra work.

EXTENSION WORK

The Teachers College is glad to offer such extension work as its facilities permit. It is especially urged that such aid be sought as the college may be able to give in improving present teaching in the elementary schools. A skillful teacher in visiting schools and in talking with teachers is able to be of great assistance to those of less experience. This suggestion contemplates giving help in those subjects that make up the greater part of the elementary school curriculum, namely: reading, language and grammar, arithmetic, geography, history, drawing, and music.

No extension work is offered for credit toward graduation.

GRADUATION HONORS FOR 1930

CURRICULUMS

For graduates of recognized four-year high schools, the following curriculums are offered:

I. Two-year Curriculums, 96 quarter hours each, leading to a diploma:

1. For a preparation of teachers for the grades. This diploma entitles the holder to a limited elementary school certificate without examination. The completion of the first year's work admits the student to an examination for a limited elementary certificate.
2. For preparation of special teachers of manual arts. This diploma entitles the holder to a special certificate in this subject and to a limited elementary certificate provided his record satisfies the social science requirement. The completion of the first year of work admits the student to an examination for a limited elementary certificate.
3. For the preparation of department teachers of English in the upper grades. It is open to students well-prepared in English, especially those who have had some experience in teaching. This diploma entitles the holder to a limited elementary school certificate without examination. The completion of the first year's work admits him to an examination for a limited elementary certificate.

II. Four-Year Curriculums, 192 quarter hours each, for preparation of the following:

1. Elementary Grade Teachers.
2. High School Teachers and Teachers of Special Subjects:
 - A. Art and Design
 - B. English
 - C. Foreign Language
 - D. Geography
 - E. History and Social Science
 - F. Home Economics (Smith-Hughes)

- G. Manual Arts
- H. Mathematics
- I. Science (Biological: Botany, or Zoölogy, or both)
- J. Science (Physical: Physics or Chemistry or both)

CREDIT

The unit of measure, beginning with the year 1929-30, is the quarter hour, representing one hour a week of prepared work for twelve weeks when the student load of prepared work is sixteen hours a week. It is equivalent to two-thirds of a semester hour.

A year's work is equivalent to 48 quarter hours (32 semester hours) of prepared work. A year's work in one subject is equivalent to 12 quarter hours (eight semester hours).

Instrumental music or voice work may be used for elective credit to the extent of 12 quarter hours (two years' work). No student may count toward graduation more than 12 quarter hours of instrumental or voice work.

Credit is allowed for physical education, coaching theory (33, 34, 35, 36, 37, 38), and for Library 20 at the rate of one quarter hour for each quarter's work.

Credit is allowed for dramatics, College News, glee club, quartette, orchestra, and band at the rate of one quarter hour to those reported to the office for such credit at the close of each quarter by the directors of these organizations who decide the conditions under which credit is allowed or withheld in each case.

Credit earned in physical education, library use, dramatics, College News, glee club, quartette, orchestra, or band is in excess of the 96 quarter hours required for a diploma and of the 192 quarter hours required for a degree.

The credit is recorded on the student's permanent record card and may play an important part when he is an applicant for a position.

A statement of the amount of credit is included in the description of each course.

NUMBERING OF COURSES

Courses numbered 1-19 are for credit below the Junior College; courses numbered 20-29 are (with a few exceptions) required in a curriculum in the Junior College; courses numbered 30-39 are elective courses for those in the Junior College; courses numbered 40 or above are Senior College courses. Courses numbered 1-19 do not count in the College.

MAJOR AND MINOR SUBJECTS

In four-year curriculums for graduates of four-year high schools, a student in a special curriculum takes 48 quarter hours of work in a major subject and 24 quarter hours in a minor subject, in some cases specified by the department of the major subject and in other cases left to the student's choice, but the courses in the minor subject must constitute two years' work in some one department and the courses chosen must be satisfactory to that department and to the department of the major subject. Students will consult the department of the major subject as to choice of minor subjects and of electives.

Students taking mathematics as the minor subject take Algebra 31, 32, 36, Trigonometry 33, Analytics 34, 35.

In music only public school music may be used as the minor subject, the courses required being Music 32, 33, 34, 35, 36, 37.

In English, English 30, 31, 34, 35, 36 (or 43), 37 (or 39) may be used as the minor subject. English 46, 47, 48 may be used by Juniors or Seniors for credit toward the English for minor subject.

ELECTIVES

There are three groups of electives: one for those in the Senior College, numbered 43 or above; one for those in the Junior College, numbered 30-39; the third for those below the Junior College, numbered 1-19, and not counting in the college. Students should consult the department of the major subject as to choice of electives and of minor subject.

Two years' work in piano, violin, or voice may be used for elective credit (12 quarter hours), but not more than 12 quarter hours in these courses may be offered by a student for credit toward graduation.

Music 32, 33, 34 or Music 35, 36, 37 may be used for elective credit.

DESCRIPTION OF CURRICULUMS

I. TWO-YEAR CURRICULUMS

96 quarter hours

1. FOR PREPARATION OF TEACHERS FOR THE GRADES

FRESHMAN YEAR

Education 20, 21, 22	Geography 20
English 20, 21, 27 or 24 or 22	Reading 24
Arithmetic 20, 21	Drawing 24
Botany 20 or Zoölogy 20	Penmanship 20
	Library 20
	Physical Education

SOPHOMORE YEAR

Education 23, 24	Geography 21 and English 26
Teaching 20, 21, 22	or English 34 and
History (two consecutive courses)	Education 25
Music 24	Hygiene 20
Manual Arts 24, or 25 (or Art 36 or Art 37)	Physical Education

Notes: 1. The completion of the work of the freshman year admits to examination for a limited elementary certificate.

The completion of the sophomore year in this curriculum entitles the student to the diploma of the Junior College and to a limited elementary certificate.

2. Each subject has four fifty-minute periods a week unless otherwise indicated by a number in parenthesis; but laboratory sciences have six or eight fifty-minute periods; art, manual arts, and home economics require eight periods a week for full credit.

MANUAL ARTS

See Section VIII for the freshman year and Section IV for the sophomore year.

Note: Graduates of the two-year curriculum in manual arts who have had two years or more of trade experience beyond the apprenticeship period are qualified to teach in Smith-Hughes schools in Illinois. In most places the apprenticeship period is waived.

II. FOUR-YEAR CURRICULUMS

192 Quarter Hours

<i>Required</i>		<i>Elective</i>	
Education	40 to 48	Major Subject.....	48
English	16 to 24	Minor Subject.....	24
Laboratory Science.....	12	Elective	40 to 24
Social Science.....	8		
Hygiene	4		

Total.....192 quarter hours

Note: The requirement of 192 quarter hours is exclusive of credit earned in physical education, library use, music (except public school music used as the minor subject), and additional hours earned in Teaching 20, 21, 22, or in laboratory science.

JUNIOR COLLEGE

Freshman Year

Note: Numbers identify the course in the description of courses. Numbers in parenthesis after Physical Education and Library 20 indicate the number of periods a week.

II. 1. FOR PREPARATION OF TEACHERS FOR ELEMENTARY GRADES

JUNIOR COLLEGE

Freshman Year

Follow Section I, II, III, or IV of the freshman year in the two-year curriculum for preparation of teachers for the grades.

Sophomore Year

Follow Section I (lower grades) of the sophomore year in the two-year curriculum for preparation of teachers for the grades.

SENIOR COLLEGE

Junior and Senior Years

Major subject.....	36 quarter hours
Minor subject.....	24 or 16*
Laboratory Science.....	12 or 8*
English 43, 44, 45	12
Education 44, 49, 47.....	12
Practice Teaching 41G-48G.....	8
Elective	0 or 4*
<hr/>	
104 or 96*	

* If the science is botany or zoology, Botany 21 and 22 or Zoology 21 and 22 complete the requirement.
If history is the minor subject, eight quarter hours of sophomore history count toward this requirement.

II, 2, A. ART AND DESIGN

(With manual arts as the minor subject. Other minor subjects are permitted.)

II, 2, I. SCIENCE (BIOLOGICAL)

Note: The botany and zoology curriculums are so arranged that the student may not only have four years of work in botany or zoology (including one year of methods and practice teaching), but that he may also have three minor subjects (of six quarters each) which qualify him to teach four different subjects in accredited high schools. The student is also equipped to do graduate work. If one year of elective credit is used for college foreign language (Latin, Greek, French or German), he may enter the graduate school of the University of Illinois without condition.

TRAINING SCHOOL

ORGANIZATION AND ADMISSION.—The Training School consists of the Elementary School of eight grades, and the High School of four grades. Below the ninth grade the number of pupils who can be admitted is limited. Pupils desiring admission are registered, then admitted in order of registration when vacancies occur.

Pupils once admitted to the school for the regular school year retain their places until completing the course unless they are unreasonably irregular in attendance or fail to appear on the opening day of the school year without notice to the director of their intention to appear later.

In grades below the ninth, a fee of seventy-five cents is charged on the opening day of each of the three terms of the year.

THE HIGH SCHOOL.—The Teachers College High School is recognized by the State Department of Education and is accredited by the University of Illinois and by the North Central Association of Colleges and Secondary Schools. Those who have completed the eighth grade may enter the ninth grade which is the first year of a four-year high school. Full credit is allowed to students entering from other accredited high schools. Sixteen units are required for graduation. Graduates of The Teachers College High School are admitted to the freshman class of the College.

HIGH SCHOOL CURRICULUM

16 Units

Ninth Year

FALL	WINTER	SPRING
Algebra 1	Algebra 2	Algebra 3
English 1	English 2	English 3

Twelfth Year

Physics 1 (or Chemistry 1)	Physics 2 (or Chemistry 2)	Physics 3 (or Chemistry 3)
Government 1	Government 2a	Economics 2
	Economics 1a	

Choose two from the following:

<i>English</i> 10, 11, 12	<i>Agriculture</i> 1, 2, 3 (or 4, 5, 6)
<i>Latin</i> 1, 2, 3 (or 4, 5, 6, or 7, 8, 9, or 10, 11, 12)	<i>Art</i> 1, 2, 3
<i>French</i> 1, 2, 3 (or 4, 5, 6)	<i>Clothing</i> 4, 5, 6
<i>Algebra</i> 4, 5, <i>Geometry</i> 4	<i>Foods</i> 4, 5, 6
<i>History</i> 7, 8, 9 (or 1, 2, 3)	<i>Manual Arts</i> 1, 2, 3; 4, 5, 6 (or 7, 8, 9)
<i>Geography</i> 1, 2, 3	<i>Music</i> 1, 2, 3
<i>Zoology</i> 1, 2, 3; <i>Botany</i> 1, 2, 3	

Electives

The high school curriculum includes ten required and six elective units. One unit of physical science is required. Those who wish to have both physics and chemistry take one in the eleventh year and the other in the twelfth year.

Electives are in two groups. All electives may be chosen from Group I; not more than four units may be chosen from Group II.

GROUP I

Language
 English (1)
 French (2)
 Latin (4)
 Mathematics (1)
 Science
 Geography (1)
 Physical Science (1)
 Zoology (1) or Botany (1)
 Social Science
 Ancient History (1)
 American History (1)

GROUP II

(Not more than four units may be chosen from this group)
 Agriculture (2)
 Art (1)
 Home Economics (2)
 Manual Arts (2)
 High School Music (1)

TRAINING TEACHERS.—In the first nine grades the immediate direction of the work of each grade and the responsibility for its progress is with the training teacher of the grade. The training teachers, with the director, plan the work of their grades, discuss with the student teacher their plans for teaching the different subjects, do enough of the teaching to keep the progress of the pupils at least up to the standard of city schools of the same type, and teach special lessons for the observation of Teachers College classes in method of teaching the special subjects. The character of the work of the training teacher determines almost entirely the success of the Training School in accomplishing its purpose.

In the seventh, eighth, and ninth grades, each of the teachers has department work in the three grades. A training teacher for history has charge of that work in grades five to eight inclusive. A training teacher for music has charge of the music in grades one to eight. A training teacher for drawing has charge of the drawing in grades one to eight. The teachers in other departments of the Teachers College have in all cases an advisory relation to the Training School and in some cases a supervisory relation. Senior College students have two quarters of practice teaching in the College High School which is a training school for teaching in high school.

PURPOSE.—The purpose of the Teachers College in maintaining a Training School is twofold. It needs a pedagogical laboratory in which students and members of the faculty may test the methods of instruction and the pedagogical theories taught in the Teachers College. And to develop in the students craftsmanship in teaching they must have opportunity to observe expert work and to develop skill by actual experience in teaching.

The results, however, cannot be secured unless the Training School itself is aiming at the best possible education for the boys and girls who are pupils in the school. If the Training School is not securing for its pupils results up to the standard of good schools of the usual type, it is not best adapted to its purpose as an experiment school, and if it is not at least equal to other elementary schools it is certainly not adapted to secure the best results as a school of observation and practice.

PRACTICE TEACHING.—All students graduating from the Teachers College in the two-year curriculum are required to take throughout their second year a course in practice teaching. The first quarter the student is assigned to teach in the lower four grades or in the upper four grades as he chooses; the second quarter, in the group of grades not chosen for the first quarter; and the third quarter, in the grade, if possible, in which he thinks his future teaching is to be done.

Student teachers are assigned to training teachers by the director and are assigned by the training teacher to particular teaching duties for one fifty-minute period each day. In the beginning of the first quarter the student makes plans for teaching the lessons in his assigned subject after discussing the subject matter and the procedure with the training teacher, but for one or two weeks the teaching is done by the training teacher, the student observing. Gradually the teaching is turned over to the student, the training teacher observing and discussing the lessons and lesson plans before and after the student teaches the lesson. Each training teacher holds one general meeting each week with her group of students, besides special conferences with individuals. She also does as much of the teaching as seems necessary to keep the class up to standard and to furnish the student opportunity to observe expert teaching.

Students taking a four-year curriculum take one quarter of practice teaching in the Elementary Training School in their second year. Two quarters of teaching, one in the major subject and one in the major or minor subject, are required of them in the Senior College. The College High School is the Training School for those who are preparing to teach in high schools.

OBSERVATION AND PARTICIPATION.—In the first year all students are required to take work in observation in the Training School. The work is designed to prepare them to meet the problems of teaching which they must meet in their course in practice teaching, to enable them to see the application of their course in psychology, and to assist them in selecting the group of grades in which they wish to teach. Opportunity is given to observe both the room management and the teaching of the training teacher. Some opportunity is offered to assist in the management and in the planning of lessons.

DESCRIPTION OF COURSES

AGRICULTURE

High School

1. FARM CROPS. A study of our principal farm crops, culture requirements and methods, harvesting, seed selection, storage, and the identification of weeds, insects, and seed.

Elective. Five hours a week. One-third of a unit. Fall quarter, even years.

2. SOILS. The classification, distribution, and productivity of the principal soil types; principles of soil management, crop rotations, fertilizers, and the maintenance of soil fertility.

Elective. Five hours a week. One-third of a unit. Winter quarter, even years.

3. HORTICULTURE. The planting, care, and management of the orchard and garden; insects and diseases of fruit, trees, and vegetables; methods of control of these diseases.

Elective. Five hours a week. One-third of a unit. Spring quarter, even years.

4. LIVESTOCK. An introductory study of types and breeds of farm animals, principles of judging, and elementary problems of livestock management.

Elective. Five hours a week. One-third of a unit. Fall quarter, odd years.

5. FEEDS AND FEEDING. An elementary study of the principles involved in animal feeding, requirements of farm animals, balanced rations, composition and value of feeds, and feeding for the economic production of livestock products.

Elective. Five hours a week. One-third of a unit. Winter quarter, odd years.

6. GENETICS. An elementary study of genetics in its relation to the improvement of plants and animals.

Elective. Five hours a week. One-third of a unit. Spring quarter, odd years.

ART AND DESIGN

High School

1, 2, 3. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color. Study of

principles of design, problems involving principles of rhythm, balance, and harmony. Application of design to pottery and other materials.

Prerequisite: Art 1 to Art 2; Art 2 to 3. Elective. Five hours a week with an equal amount of outside work. One unit. Art 1, fall quarter, Art 2, winter quarter, Art 3, spring quarter.

College

20. PRACTICE TEACHING IN DRAWING.

Required in the sophomore year in the four-year curriculum in art. Five hours a week. Four quarter hours. Fall, winter, or spring quarter.

24. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color.

Eight hours a week. Four quarter hours. Every quarter.

25. METHOD IN DRAWING, GRADES I-IV. The course includes a discussion of the value of art education; its relation to other subjects and to industries; methods of teaching drawing in the lower grades; the ordering of supplies; the planning of lessons.

Four hours a week. Four quarter hours. Spring quarter.

26. METHOD IN DRAWING, GRADES V-VIII. A study of the subject matter to be taught in the upper grades.

Four hours a week. Four quarter hours. Fall quarter.

27. HISTORY OF ORNAMENT AND OF ARCHITECTURE.

Four hours a week. Four quarter hours. Winter quarter, odd years.

28. HISTORY OF PAINTING. A study of the history of the different periods, the great artists and sculptors, and their work.

Four hours a week. Four quarter hours. Winter quarter, even years.

29. ADVANCED PERSPECTIVE.

Four hours a week. Four quarter hours. Spring quarter.

30. REPRESENTATION. Section I for Art students. The study of the essentials of perspective and their application to still life groups in charcoal, crayon, water color, and ink.

PERSPECTIVE. Section II for Home Economics students. The study of the essentials of perspective and their application to simple objects. The Roman alphabet and the principles of color.

Eight hours a week. Four quarter hours. Fall quarter.

31. POSTER WORK. Section I for Art students. The study of lettering for commercial and educational uses and for application to book making, bulletins, and posters. The principles of design and color. "Art in Every Day Life" by Goldstein is the text used.

DESIGN I. Section II for Home Economics students. The study of the principles of design and their application to Home Economics. The same text is used as for Section I.

Eight hours a week. Four quarter hours. Winter quarter.

32. DESIGN I. Section I for Art students. Decorative applications of the principles of design.

DESIGN II. Section II for Home Economics students. The application of the principles of design and color to various materials.

Eight hours a week. Four quarter hours. Spring quarter.

33. DESIGN II. Plants, animals, and birds in decoration and the application of these forms to the making of patterns. Color theory, leather tooling, wood block printing, and batik work.

Eight hours a week. Four quarter hours. Fall quarter.

34. JEWELRY. Design as applied to metal work and to jewelry.

Eight hours a week. Four quarter hours. Winter quarter.

35. POTTERY. The application of the principles of design to pottery.

Eight hours a week. Four quarter hours. Spring quarter.

36. INDUSTRIAL ARTS FOR THE LOWER GRADES. Paper work, weaving, woodwork, simple basketry, knotting, clay, and other mediums used in the lower grades.

Required in the freshman year of the art curriculum and equivalent to Manual Arts 24. Eight hours a week. Four quarter hours. Fall and spring quarters.

37. INDUSTRIAL ARTS FOR THE UPPER GRADES. More advanced work in woodworking, basketry, clay, and other mediums.

Required in the freshmen year of the art curriculum and equivalent to Manual Arts 25. Eight hours a week. Four quarter hours. Winter quarter.

40. THE TEACHING OF DRAWING. A course in method in drawing with special reference to drawing in high school.

Required in the senior year of those whose major subject is art. Four hours a week. Four quarter hours. Fall quarter.

41. PRACTICE TEACHING IN DRAWING.

Five hours a week. Four quarter hours. Winter quarter.

42. PRACTICE TEACHING IN DRAWING, continued.

Five hours a week. Four quarter hours. Spring quarter.

43. STILL LIFE I. Studies in charcoal, water color, and oil.

Eight hours a week. Four quarter hours. Fall quarter, even years.

44. INTERIOR DECORATION. A thorough and practical course in the fundamentals of interior decoration. Emphasis is placed

on good color harmony, and the application of the principles of design. The course includes the study of periods and styles of furniture and of materials used in interiors.

Eight hours a week. Four quarter hours. Winter quarter, even years.

45. DESIGN III. The application of the principles of design and color to house plans, wall elevations, and rooms in perspective.

Eight hours a week. Four quarter hours. Spring quarter, even years.

46, 47. LIFE SKETCH. Drawing from a model. Study of general anatomical facts.

Eight hours each a week. Eight quarter hours. Fall and winter quarters, odd years.

48. ILLUSTRATION. Study of applied composition in connection with work from life.

Eight hours a week. Four quarter hours. Spring quarter, odd years.

49. COMMERCIAL DESIGN. Decorative composition and lettering. Application to high school annual and to other school publications.

Eight hours a week. Four quarter hours. Fall quarter.

50. STILL LIFE II. More advanced work in still life, using oil paints.

Eight hours a week. Four quarter hours. Winter quarter.

51. ART APPRECIATION. The history of ornament, architecture, sculpture, and painting.

Elective (except in the art curriculum) for juniors and seniors; a recommended elective for juniors in the English curriculum. Four hours a week with preparation. Four quarter hours. Spring quarter.

EDUCATION AND TEACHING

I. EDUCATION

College

Note: Beginning with the fall quarter, 1928-29, a change was made in the content of the three courses in education required of freshmen and called "Psychology 20, 21, 22." The new courses are now listed as Education 20, 21, 22.

Those who have had the old "Psychology 20" should complete the year's work by taking the new Education 20 and 22. Those who have had the old "Psychology 20, 21" complete the year's work by taking Education 22.

Students who have not had the old "Psychology 20, 21, 22" take the new courses in education listed here as "Education 20, 21, 22."

20. AN INTRODUCTION TO EDUCATION. This course is intended to provide the student with a general view of the more important phases of a teacher's work. The meaning and the interrelation of the following matters form the subject matter of the course: the organization of public education; the teacher's relation to other school officials; school property; the materials of education; methods of using school material; the learning process; qualifications of teachers; the purpose of public education. The succeeding courses in education deal in greater detail with the several topics introduced in this beginning course.

Four hours a week. Four quarter hours. Fall, winter, and summer quarters.

21. AN INTRODUCTION TO EDUCATIONAL PSYCHOLOGY. This course uses the discussion on the learning process of the preceding course as its point of departure and introduces the student to the forms of student behavior by which man adapts himself to the world. The material of the course includes: the physical basis of behavior; the instinctive equipment of man; the emotions; the laws of learning and their economical application; the organization of experiences into percepts and ideas; transfer of training; individual differences; intelligence; the interrelation of various forms of behavior.

Four hours a week. Four quarter hours. Every quarter.

22. THE PSYCHOLOGY OF ELEMENTARY SCHOOL SUBJECTS. This course makes an analysis of the material used in elementary education with a view to understanding the learning problems involved. The special psychology of the following subjects is considered: reading, arithmetic, handwriting, spelling, history, geography, nature study, music, drawing. Some attention will be given to the diagnosis of special difficulties in these subjects and the appropriate remedial measures.

Four hours a week. Four quarter hours. Spring and summer quarters.

23. PRINCIPLES OF EDUCATION. Through discussion of the nature and aims of education, foundations are laid for notions of educational values, selection of the curriculum, methods of teaching and the school management course which follows.

Four hours a week. Four quarter hours. Every quarter.

24. SCHOOL MANAGEMENT. This course accompanies the course in practice teaching and interprets the management of the Training School. Classroom social relations, routine, the daily

programme, discipline, and the technique of teaching are discussed.

Four hours a week. Four quarter hours. Every quarter.

25. PRIMARY EDUCATION. The course deals with reading, number, dramatization, story telling, games and other activities belonging to a primary school.

Four hours a week. Four quarter hours. Spring quarter.

40. METHODS IN THE MAJOR SUBJECT.

Prerequisite: Three years of work in the major subject. Required in four-year curriculums. Four hours a week. Four quarter hours. Fall quarter.

41, 42. HIGH SCHOOL PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT. See Teaching 41, 42.

44. EDUCATIONAL MEASUREMENTS. The aim of this course is to introduce the student to the application of the statistical method to the solution of educational problems; to acquaint him with standardized and proposed tests for measurements of general mental ability and with scales for the measurement of progress of the child in school subjects and for the determination of efficiency of teaching. Opportunity is given for the development through practice of some skill in the application of tests and the employment of scales.

Required or elective. Four hours a week. Four quarter hours. Summer quarter and fall quarter.

45. THE PSYCHOLOGY OF SECONDARY EDUCATION. The purpose of this course is to trace the psychological principles which are basic to the teaching of high school subjects. General types of learning are discussed, such as: motor learning, association learning, problem-solving, habit-formation. High school subjects are analyzed and the relations of the general types of learning to particular subjects are pointed out. The general organization of the high school as it is determined by the nature of the adolescent student is touched upon.

Required. Four hours a week. Four quarter hours. Winter quarter.

46. EDUCATIONAL PSYCHOLOGY WITH SPECIAL REFERENCE TO CHILD PSYCHOLOGY. *Omitted 1931-1932.*

47. SOCIAL PSYCHOLOGY. The chief factors which condition and make possible the life of man in groups; the effect of various types of human association on the mental processes of the individual; the products of the interaction between minds, as in language, art, morals, and social institutions; the differences of important social groups, such as the mob, the gang, clubs, classes,

sects, nations, are studied with reference to their bearing upon education.

Required or elective in the junior year. Four hours a week. Four quarter hours. Spring quarter.

48. SCHOOL ORGANIZATION AND ADMINISTRATION. This is an introductory course for students who desire a knowledge of problems in educational organization, administration, and supervision in the nation, the state, and local units. The first half of the course gives an understanding of the problems of administration to enable all members of an organization to coöperate with those in final administrative authority in the formulation of policies. The second half of the course presents the problems of the elementary and high school principal in organizing and administering schools. School law and finance as well as current educational problems receive attention in this course.

Required or elective in the junior year. Four hours a week. Four quarter hours. Summer quarter.

49. PHILOSOPHY OF EDUCATION.

Required or elective in the junior year. Four hours a week. Four quarter hours. Omitted 1931-1932.

50. ELEMENTARY EDUCATION. This course is intended to acquaint students with some of the major problems of the elementary school. Among the topics included are: the scope of elementary education—its origins and functions; the elementary school curriculum; evaluation of certain techniques and procedures employed in progressive schools; some problems of administration; the training of the elementary school teacher.

Required in the four-year curriculum for the preparation of teachers for elementary grade schools. Four hours a week. Four quarter hours. Omitted 1931-1932.

58. HISTORY OF INDUSTRIAL EDUCATION.

Required in the junior year of the curriculums in home economics and manual arts. Four hours a week. Four quarter hours. Spring quarter.

II. TEACHING

College

A detailed description of the courses in practice teaching and of the course in observation may be found under the head, Training School.

20. PRACTICE TEACHING IN THE GRADES.

Required in the Junior College in all curriculums. Five hours a week. Four quarter hours. Every quarter except the second half of the summer quarter.

21, 22. PRACTICE TEACHING IN THE GRADES.

Required in the second year of the two-year curriculum for preparation of teachers for the grades. Five hours a week. Four quarter hours for each course. Every quarter except the second half of the summer quarter.

41, 42. PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT.

Two quarters of practice teaching are required in the Senior College. At least one of these quarters must be in the major subject. These courses are listed under the same numbers (41, 42) in the description of courses in each department.

Required in the senior College. Five hours a week. Four quarter hours. Fall, winter, and spring quarters.

41G to 48G. PRACTICE TEACHING AND SUPERVISION IN ELEMENTARY GRADES.

Required in the Senior College in the curriculum for preparation of elementary grade teachers. Five hours a week. Four quarter hours. Fall, winter, and spring quarters.

ENGLISH*High School*

1, 2, 3. ELEMENTS OF ENGLISH. Elementary composition, with grammar review. Emphasis on practical composition, letter-writing, oral and written recitations in other subjects, and the qualities of all good speech. Several good books are read and studied.

Prerequisite: English 1 to English 2; English 2 to English 3. Required in the ninth year. Five hours a week. One unit. English 1, fall quarter; English 2, winter quarter; English 3, spring quarter.

4, 5, 6. RHETORIC. Chiefly description, narration, and exposition, both oral and written. Grammar review continued. Several classics studied.

Prerequisite: English 4 to English 5; English 5 to English 6. Required in the tenth year. Five hours a week. One unit. English 4, fall quarter; English 5, winter quarter; English 6, spring quarter.

Students entering the High School unable to carry English 4 are required to take one or more terms of English 1, 2, 3, without credit.

7, 8, 9. ENGLISH LITERATURE FROM SHAKESPEARE TO SCOTT.

Although the students are expected to get a fair idea of the history of this period of literature, the class work is devoted mainly to the literature itself. In making the selections for study,

the instructor is guided by the capacity of the class and the usual demands of an introductory course in literature. Composition and grammar work are continued.

Prerequisite: English 7 to English 8; English 8 to English 9. Required in the eleventh year. Five hours a week. One unit. English 7, fall quarter; English 8, winter quarter; English 9, spring quarter.

10, 11, 12. A STUDY OF TYPES OF LITERATURE.

This course is open to all twelfth year students, but is designed especially for those students who have done creditable work in their previous English classes and desire an additional high school course. The class spends the first half of the year with poetry, narrative, lyric, and dramatic; and the second half with prose, emphasizing the essay and the novel. Regular composition work, both oral and written, is required.

Prerequisite: English 7, 8, 9; and English 10 to English 11; English 11 to English 12. Elective in the twelfth year. Five hours a week. One unit. No credit for less than the year's work. English 10, fall quarter; English 11, winter quarter; English 12, spring quarter.

College

20, 21. COMPOSITION. A course in the fundamentals of good speaking and writing. Creditable work in English 20, 21 is a prerequisite to teaching in the Training School. Credit for English 20, 21 may be earned in one, two, or more quarters according to individual progress. Students who complete English 21 when registered for English 20 may substitute another English credit for English 20, being counted excused from English 20.

Required in the freshman year in all curriculums. Four hours a week. Four quarter hours for each course. Every quarter.

22. LITERATURE IN THE GRADES. Emphasizes chiefly wide acquaintance with the great bodies of world literature—myth, legend, etc.—and with the best poetry suitable for children.

Required in the first year of the two-year curriculum unless English 24 or 27 is taken. Four hours a week. Four quarter hours. Spring and summer quarters.

24. TEACHING OF ENGLISH. The teaching of composition in the grades is covered as fully as time permits, including discussion of materials, purposes, standards, theme-topics, correcting of compositions, literature in the grades, and methods of teaching. This course is especially recommended to students interested in intermediate, upper grade, or junior high school work.

Prerequisite: English 20 and 21. Required in the first year of the two-year curriculum (unless English 22 or 27 is taken) and

accepted for English 25 by students in a four-year curriculum with English as the major subject. Four hours a week. Four quarter hours. Spring and summer quarters.

25. INTRODUCTION TO LITERATURE. Designed to give the student an acquaintance with the most common types of English literature, including narrative and lyric poetry, biography and letters, the short story, and the essay.

Prerequisite: English 20 and 21. Required in all special two-year curriculums and in the four-year curriculum. Four hours a week. Four quarter hours. Spring quarter.

26. GRAMMAR. A course for those preparing to teach in the upper grades or in junior high school.

Required in the upper grade sections, sophomore year, of the two-year curriculum and in the two-year English curriculum. Four hours a week. Four quarter hours. Every quarter.

27. LITERATURE IN THE GRADES. This course is equivalent to English 22, except that the literature for intermediate and upper grades is emphasized.

Required in the two-year English curriculum; elective in other curriculums; and alternative with English 22. Four hours a week. Four quarter hours. Summer quarter.

30, 31. NINETEENTH CENTURY PROSE FICTION. The primary aim is to arouse the student's interest in the best fiction, and the secondary, to furnish him with standards of judgment.

Prerequisite: English 30, to 31. Four hours a week. Eight quarter hours. English 30, fall quarter; English 31, winter quarter. Summer quarter.

32. ADVANCED COMPOSITION. An elective course in writing for those interested in this form of art. Essays, stories, plays, and poems may be attempted, according to individual or class decision. It may be substituted for any elective English course.

Prerequisite: English 20 and 21. Elective. Four hours a week. Four quarter hours. Spring quarter.

34. AMERICAN LITERATURE. A survey of American literature from the beginning to the present.

Four hours a week. Four quarter hours. Spring and summer quarters.

35. GREEK DRAMA. Origins and development of classical drama; Aeschylus, Sophocles, Euripides.

Prerequisite: English 30, 31, 34. Four hours a week. Four quarter hours. Fall quarter.

36. SHAKESPEARE AND THE ELIZABETHAN DRAMA. A study of Shakespeare's most important plays, and of their place in the development of English drama. Some attention is given to the chief dramatists contemporary with Shakespeare.

Four hours a week. Four quarter hours. Winter and summer quarters.

37. MODERN DRAMA. The purpose of this course is to familiarize the student with what is best in modern drama.

Four hours a week. Four quarter hours. Spring and summer quarters.

38. JOURNALISM. A study of the present-day news sheet combined with practice writing.

Elective. Two hours a week. Time to be arranged with the instructor. One to four quarter hours, according to the amount of work done. The course continues through the college year.

40. THE TEACHING OF ENGLISH IN THE HIGH SCHOOL.

Important topics connected with English in the high school are covered as fully as time permits.

Required in the senior year of those whose major subject is English. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN ENGLISH IN THE HIGH SCHOOL.

Five hours a week. English 41, four quarter hours; English 42, four quarter hours. English 41, winter quarter; English 42, spring quarter.

43. CONTEMPORARY LITERATURE. Extensive reading in current literature introduces the student to the best that is being written today, and provides him with some standards of judgment with the hope of stimulating his enthusiasm for good books.

Required or elective in the junior year in all curriculums. Four hours a week. Four quarter hours. Fall and summer quarters.

44. ADVANCED RHETORIC. Chiefly written composition, applying the principles of organization and effective expression to somewhat more extended material than do English 20 and 21. The course is intended to give both an introduction to the methods of research, and opportunity for original work.

Prerequisite: Junior College required English. Required or elective in the junior year in all curriculums. Four hours a week. Four quarter hours. Winter and summer quarters.

45. ORAL ENGLISH. Through prepared talks and discussions this course gives training in the effective expression of genuine ideas and opinions. Sincerity, adequate development of thought, the proper use of facts and evidence, and also the principles and practice of good delivery are stressed.

Prerequisite: Junior College required English. Required or alternative with English 44 in the junior year in all curriculums.

Four hours a week. Four quarter hours. Spring and summer quarters.

46, 47, 48. MODERN ENGLISH POETRY. Appreciation of the art of poetry, and a study of some of the chief English poets, as they illustrate this art.

Required in the English curriculum; elective in others. Four hours a week. English 46, four quarter hours; English 47, four quarter hours; English 48, four quarter hours. Fall, winter, and spring quarters. Summer quarter.

49, 50. MODERN ENGLISH PROSE. The development of English prose in types other than the novel, chiefly the essay and the short story.

Four hours a week. Eight quarter hours. Fall and winter quarters.

51. HISTORY OF THE ENGLISH LANGUAGE AND ADVANCED GRAMMAR.

Four hours a week. Four quarter hours. Spring quarter.

FOREIGN LANGUAGE

FRENCH

High School

1, 2, 3. FIRST YEAR FRENCH. *The Phonetic Chardenal*. A careful study of grammatical rules and of pronunciation. *Petits Contes de France: Sans Famille: La Tache du Petit Pierre*. Sight reading of easy French prose. Conversation.

Prerequisite: French 1 to French 2, French 2 to French 3. Elective. Five hours a week. One unit. French 1, fall quarter; French 2, winter quarter; French 3, spring quarter.

4, 5, 6. SECOND YEAR FRENCH. *The Phonetic Chardenal. L'Abbe Constantin. Le Voyage de M. Perrichon. Colomba*. Sight reading; conversation; oral themes; memorizing of French poems.

Prerequisite: French 1, 2, 3 or equivalent. Elective. Five hours a week. One unit. French 4, fall quarter; French 5, winter quarter; French 6, spring quarter.

College

30, 31, 32. FIRST YEAR FRENCH. A careful study of the principles of grammar. Special attention is paid to pronunciation and drill in rhythm and intonation. Study of phonetics as an aid to pronunciation. Reading of simple French texts.

Elective. Four hours a week. Twelve quarter hours, no credit toward graduation for less than a year's work. Course 30,

fall quarter; Course 31, winter quarter; Course 32, spring quarter.

33, 34, 35. **ADVANCED FRENCH.** Rapid review of grammatical forms and idioms. Reading of moderately difficult texts. Moliere: Reading and discussion of several of his comedies; written reports on his life, works, and influence on French literature. All recitations are, as far as possible, conducted in French.

Prerequisite: Two years of high school French or one year of college French. Elective. Four hours a week. Twelve quarter hours. French 33, fall quarter; French 34, winter quarter; French 35, spring quarter.

43, 44, 45. **ADVANCED FRENCH.** Dramas of Marivaux and Hugo. Modern poetry. Reading of moderately difficult texts. Frequent reports on suggested topics. Oral themes. Conversation.

Prerequisite: Two years of college French. Elective. Four hours a week. Twelve quarter hours. French 43, fall quarter; French 44, winter quarter; French 45, spring quarter.

GERMAN

College

30, 31, 32. **FIRST YEAR GERMAN.**

Elective. Four hours a week. Twelve quarter hours, no credit toward graduation for less than a year's work. German 30, fall quarter; German 31, winter quarter; German 32, spring quarter.

33, 34, 35. **SECOND YEAR GERMAN.** Review of grammar. Reading of German short story classics. Shorter German poetry and folk-songs.

Prerequisite: German, 30, 31, 32, or the equivalent. Elective. Four hours a week. Twelve quarter hours. German 33, fall quarter; German 34, winter quarter; German 35, spring quarter.

43, 44, 45. **THIRD YEAR GERMAN.** Longer and more advanced German stories and a few plays by standard authors. German 38 stresses prose composition.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. Four hours a week. Twelve quarter hours. Omitted 1931-1932.

LATIN

High School

1, 2, 3. **FIRST YEAR LATIN.** A careful study of inflection, syntax, vocabulary, and translation.

Prerequisite: Latin 1 to Latin 2; Latin 2 to Latin 3. Elective. Five hours a week. One unit. Latin 1, fall quarter; Latin 2, winter quarter; Latin 3, spring quarter.

4, 5, 6. SECOND YEAR LATIN. Caesar and selected readings. Latin grammar and composition.

Prerequisite: Latin 1, 2, 3. Five hours a week. One unit. Latin 4, fall quarter; Latin 5, winter quarter; Latin 6, spring quarter.

7, 8, 9. THIRD YEAR LATIN. Cicero, six orations and selections from the letters. Latin grammar and composition. The Latin element in English. Figures of speech. The reckoning of time. Sight translation. The memorizing of selected passages.

Prerequisite: Latin 4, 5, 6. Elective. Five hours a week. One unit. Fall, winter, and spring quarters, even years.

10, 11, 12. FOURTH YEAR LATIN. Virgil's Aeneid, Books I-VI Greek and Roman mythology, poetical construction, figures, prosody, Virgil's debt to Homer, the memorizing of selected lines and passages, sight translation.

Prerequisite: Latin 4, 5, 6. Elective. Five hours a week. One unit. Fall, winter, and spring quarters, odd years.

College

30. LIVY SELECTIONS FROM BOOKS I, XXI, AND XXII.

Prerequisite: Four years of high school Latin. Four hours a week. Four quarter hours. Fall quarter, odd years.

31. CICERO, DE AMICITIA, DE SENECTUTE, AND DE OFFICIIS.

Prerequisite: Course 30. Four hours a week. Four quarter hours. Winter quarter, odd years.

32. HORACE, ODES AND EPODES.

Prerequisite: Course 31. Four hours a week. Four quarter hours. Spring quarter, odd years.

33. VIRGIL, AENEID, BOOKS VII-XII.

Prerequisite: Four years of high school Latin. Four hours a week. Four quarter hours. Fall quarter, even years.

34. HORACE, SATIRES AND EPISTLES.

Prerequisite: Course 33. Four hours a week. Four quarter hours. Winter quarter, even years.

35. PLAUTUS, MENAECHMI, MOSTELLARIA, AND CAPTIVI.

Prerequisite: Course 34. Four hours a week. Four quarter hours. Spring quarter, even years.

40. THE TEACHING OF LATIN.

Prerequisite: Three years of college Latin. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN LATIN.

Prerequisite: Latin 40. Five hours a week. Eight quarter hours. Winter and spring quarters.

43. OVID, METAMORPHOSES.

Four hours a week. Four quarter hours. Fall quarter, even years.

44. PLINY, LETTERS.

Four hours a week. Four quarter hours. Winter quarter, even years.

45. LATIN WRITING.

Four hours a week. Four quarter hours. Spring quarter, even years.

46. TACITUS, GERMANIA, AGRICOLA, AND SELECTIONS FROM THE ANNALS AND HISTORIES.

Four hours a week. Four quarter hours. Fall quarter, odd years.

47. LATIN POETRY. Selections from Catullus and Martial, and from Virgil's Eclogues and Georgics.

Four hours a week. Four quarter hours. Winter quarter, odd years.

48. LATIN DRAMA. Seneca, Medea; Terence, Phormio and Andria.

Four hours a week. Four quarter hours. Spring quarter, odd years.

GEOGRAPHY

High School

1. PHYSIOGRAPHY. Land forms and their development, atmosphere and climate, and influence of physical conditions upon modes of living, industries, institutions, and distribution of peoples.

Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit. Fall quarter.

2. PHYSIOGRAPHY AND COMMERCIAL GEOGRAPHY. The first half of this quarter's work is a continuation of Geography I. The second half begins the work in Commercial Geography.

Prerequisite: Course 1. Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit. Winter quarter.

3. COMMERCIAL GEOGRAPHY, continued.

Prerequisite: Course 2. Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit. Spring quarter.

College

20. PRINCIPLES OF HUMAN GEOGRAPHY.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades, and in

the two-year English curriculum. Elective for all others. Four hours a week. Four quarter hours. Every quarter.

21. CLIMATOLOGY. A study of climate and its influence upon form and distribution of plant and animal life and upon the distribution and advancement of man.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades, and in the two-year English curriculum. Elective for others. Four hours a week. Four quarter hours. Every quarter.

30. GEOGRAPHY OF NORTH AMERICA.

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Fall and summer quarters.

31. GEOGRAPHY OF SOUTH AMERICA.

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Winter and summer quarters.

32. GEOGRAPHY OF EUROPE.

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Spring and summer quarters.

36. GEOLOGY.

Four hours a week. Four quarter hours. Winter, spring and summer quarters.

40. THE TEACHING OF GEOGRAPHY.

Required in the senior year of those whose major subject is geography. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN GEOGRAPHY.

Required in the senior year of those whose major subject is geography. Five hours a week. Eight quarter hours. Winter and spring quarters.

43. PHYSIOGRAPHY.

Prerequisite: Junior or senior classification. Four hours a week. Four quarter hours. Spring quarter, 1931-32; fall quarter in other years.

44. TRANSPORTATION.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours. Spring quarter, odd years, beginning 1932-33.

45. GEOGRAPHY OF ASIA.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours. Fall quarter, 1931-32; winter quarter, other years.

46. URBAN GEOGRAPHY.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours. Winter quarter, 1931-32; thereafter, spring quarter even years beginning 1933-1934.

HISTORY, SOCIOLOGY, GOVERNMENT,
AND ECONOMICS

HISTORY

High School

1. ANCIENT HISTORY TO THE RISE OF GREEK CIVILIZATION.

Elective in the tenth year. Five hours a week. One-third of a unit. Fall quarter.

2. THE GREEKS AND GREEK CIVILIZATION.

Elective in the tenth year. Five hours a week. One-third of a unit. Winter quarter.

3. THE ROMAN REPUBLIC AND EMPIRE AND THE BARBARIAN INVASIONS.

Elective in the tenth year. Five hours a week. One-third of a unit. Spring quarter.

4. THE HISTORY OF ENGLAND TO 1400.

Required in the eleventh year. Five hours a week. One-third of a unit. Fall quarter.

5. THE HISTORY OF ENGLAND, 1400-1715.

Required in the eleventh year. Five hours a week. One-third of a unit. Winter quarter.

6. THE HISTORY OF ENGLAND AND THE BRITISH EMPIRE, 1715 TO THE PRESENT.

Required in the eleventh year. Five hours a week. One-third of a unit. Spring quarter.

7. AMERICAN HISTORY TO 1800.

Elective in the twelfth year. Five hours a week. One-third of a unit. Fall quarter.

8. THE HISTORY OF THE UNITED STATES, 1800-1865.

Elective in the twelfth year. Five hours a week. One-third of a unit. Winter quarter.

9. THE HISTORY OF THE UNITED STATES, 1865 TO THE PRESENT.

Elective in the twelfth year. Five hours a week. One-third of a unit. Spring quarter.

College

The history requirement in the Junior College may be fulfilled by selecting any two consecutive terms of either European or American history or Ancient history.

33. AMERICAN POLITICAL AND INSTITUTIONAL HISTORY TO 1800.

Four hours a week. Four quarter hours. Fall quarter.

34. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES 1800-1865.

Four hours a week. Four quarter hours. Winter quarter.

35. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1865 TO THE PRESENT.

Four hours a week. Four quarter hours. Spring quarter.

37. ANCIENT HISTORY TO ABOUT 500 B. C.

Four hours a week. Four quarter hours. Fall quarter.

38. HISTORY OF GREEK CIVILIZATION.

Four hours a week. Four quarter hours. Winter quarter.

39. POLITICAL AND INSTITUTIONAL HISTORY OF ROME.

Four hours a week. Four quarter hours. Spring quarter.

40. THE TEACHING OF HISTORY.

Required in the senior year of those whose major subject is history. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HISTORY.

Required. Five hours a week. Four quarter hours. Course 41, winter quarter; Course 42, spring quarter.

43, 44, 45. ENGLISH HISTORY. A fundamental course in the political and social institutions of England.

Four hours a week. Twelve quarter hours. Fall, winter, and spring quarters.

46. THE HISTORY OF WESTERN EUROPE FROM THE CLOSE OF THE FOURTH CENTURY TO 1500.

Four hours a week. Four quarter hours. Fall quarter.

47. THE HISTORY OF EUROPE, 1500-1815.

Four hours a week. Four quarter hours. Winter quarter.

48. THE HISTORY OF EUROPE, 1815 TO THE PRESENT.

Four hours a week. Four quarter hours. Spring quarter.

SOCIOLOGY

College

43, 44, 45. SOCIOLOGY.

Four hours a week. Twelve quarter hours. Summer quarter (Course 43).

GOVERNMENT

High School

1. STATE AND LOCAL CIVIL GOVERNMENT.

Required in the twelfth year. Five hours a week. One-third of a unit. Fall quarter.

2a. THE NATIONAL GOVERNMENT.

Required in the twelfth year. Five hours a week. One-sixth of a unit. First half of the winter quarter.

College

43. STATE AND LOCAL GOVERNMENT.

Four hours a week. Four quarter hours. Fall and summer quarters.

44. THE NATIONAL GOVERNMENT.

Four hours a week. Four quarter hours. Winter and summer quarters.

45. MODERN GOVERNMENTS OF EUROPE AND AMERICA.

Prerequisite: Course 44. Four hours a week. Four quarter hours. Spring and summer quarters.

ECONOMICS

High School

1a, 2. ECONOMICS. Economics 1a, second half of the winter quarter and Economics 2, spring quarter complete the year's work of which Government 1, 2a forms the first half year's work for high school seniors.

Required in the twelfth year. One-half unit. Economics 1a, second half of the winter quarter; Economics 2, spring quarter.

College

20. THE ECONOMIC HISTORY OF THE UNITED STATES.

The natural resources, their extent, geographical distribution, and relation to industrial life; the development of agriculture, industry, commerce, and transportation; the changes in methods of production and distribution and their relation to present economic problems.

Required in the two-year curriculum in Manual Arts. Four hours a week. Four quarter hours. Spring quarter.

44. THE PRINCIPLES OF ECONOMICS.

Elective. Four hours a week. Four quarter hours. Fall quarter.

45. THE PRINCIPLES OF ECONOMICS AND THEIR APPLICATION TO PRESENT-DAY ECONOMIC PROBLEMS.

Prerequisite: Course 44. Elective. Four hours a week. Four quarter hours. Winter quarter.

46. MONEY AND BANKING.

Prerequisite: Courses 44 and 45. Elective. Four hours a week. Four quarter hours. Spring quarter.

HOME ECONOMICS

High School

I. CLOTHING.

4. CLOTHING. Problems: Undergarments. Elementary textile study. Budgeting. Related art.

Elective. Eight hours a week. One-third of a unit. Fall quarter, odd years.

5. CLOTHING. Problems: Simple cotton dress and child's garment. Clothing selection. House planning.

Prerequisite: Clothing 4. Elective. Eight hours a week. One-third of a unit. Winter quarter, odd years.

6. CLOTHING. Problem: Afternoon dress. Care and repair of clothing. Home furnishing. Personal improvement.

Prerequisite: Clothing 5. Elective. Eight hours a week. One-third of a unit. Spring quarter, odd years.

High School

II. FOODS AND NUTRITION

4. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Health and breakfast units.

Elective. Eight hours a week. One-third of a unit. Fall quarter, even years.

5. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Luncheon and tea unit. Christmas candies.

Prerequisite: Foods 4. Elective. Eight hours a week. One-third of a unit. Winter quarter, even years.

6. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Dinner unit. Home management and child care and training units.

Prerequisite: Foods 5. Elective. Eight hours a week. One-third of a unit. Spring quarter, even years.

College

Note: The four-year curriculum in home economics (See Curriculum II, 2F) is designed to cover the needs of teachers who wish to teach home economics in high schools which receive Federal Aid under the Smith-Hughes Law. It has been approved by the State Supervisor of Home Economics.

I. CLOTHING

30. ELEMENTARY CLOTHING. Textile study. Problems: Undergarments. The developing of illustrative material for teaching.

Elective. Eight hours a week. Four quarter hours. Fall and summer quarters.

31. CLOTHING. Problem: A smock. Decorative stitches. Clothing economics, study of clothing budgets.

Prerequisite: Clothing 30. Elective. Eight hours a week. Four quarter hours. Winter and summer quarters.

32. CLOTHING. Problem: Simple afternoon dress. Elementary clothing selection.

Prerequisite: Clothing 31. Elective. Eight hours a week. Four quarter hours. Spring and summer quarters.

43. CLOTHING. Problem: Wool dress or its equivalent. Advanced clothing selection.

Prerequisite: Clothing 32. Elective. Eight hours a week. Four quarter hours. Fall quarter, even years.

44. CHILDREN'S CLOTHING. Emphasis on selection, make-over, and construction.

Prerequisite: Clothing 43. Elective. Eight hours a week. Four quarter hours. Winter quarters, even years.

45. CLOTHING. Problem: Silk dress or its equivalent. Renovation, care, and repair of clothing.

Prerequisite: Clothing 44. Elective. Eight hours a week. Four quarter hours. Spring quarter, even years.

II. FOODS AND NUTRITION

30. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Relation of health to food study. Breakfast.

Prerequisite: Chemistry 30, 31, 32, unless the student is registered for Chemistry 30. Eight hours a week. Four quarter hours. Fall quarter.

31. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Luncheons. Christmas candies.

Prerequisite: Foods 30. Eight hours a week. Four quarter hours. Winter quarter.

32. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Teas. Dinners.

Prerequisite: Foods 31. Eight hours a week. Four quarter hours. Spring quarter.

43. FOODS AND NUTRITION. Experimental Cookery. Conventional methods in cookery studied experimentally. Recipes analyzed and effects of various proportions studied.

Prerequisite: Foods 32 and Chemistry 43, 44, 45, unless the student is registered for Chemistry 43. Eight hours a week. Four quarter hours. Fall quarter, odd years (1932-33 and alternate years).

44. FOODS AND NUTRITION. Dietetics. Principles of normal human nutrition. Application of practical feeding problems of the individual. Calculation and preparation of dietaries.

Prerequisite: Foods 43. Eight hours a week. Four quarter hours. Winter quarter, odd years (1932-33 and alternate years).

45. FOODS AND NUTRITION. Meal planning and serving. Individual planning and preparation of meals for family groups including adaptation to needs of child. Aesthetic phase and social opportunities in meals emphasized.

Prerequisite: Foods 44. Eight hours a week. Four quarter hours. Spring quarter, odd years (1932-33, and alternate years).

III. HOME ECONOMICS

40. ADMINISTRATION AND METHODS IN HOME ECONOMICS.

Prerequisite: Junior standing in the home economics curriculum. Four hours a week. Fall quarter.

41C, 42C. PRACTICE TEACHING IN CLOTHING AND RELATED SUBJECTS.

Prerequisite: Home Economics 40. Five hours a week. Eight quarter hours. Winter and spring quarter, odd years (1932-33 and alternate years).

41F, 42F. PRACTICE TEACHING IN FOODS AND NUTRITION.

Prerequisite: Home Economics 40. Five hours a week. Eight quarter hours. Winter and Spring quarter, even years (1931-32 and alternate years).

Note: Three of these four courses in practice teaching (Clothing 41, 42 and Foods 41, 42) are required. There is no credit toward graduation for more than three.

43. HOUSEHOLD PHYSICS. A study of labor saving devices and other equipment in the home with relation to its purchase, care, and use.

Four hours a week. Four quarter hours. Fall quarter, odd years (1932-33 and alternate years).

44. HOUSE PLANNING AND FURNISHING. See Art 44.

Prerequisite: Junior standing in the home economics or art curriculum. Four hours a week. Four quarter hours. Winter quarter, even years (1931-32 and alternate years).

45. HOME MANAGEMENT. The business problems of the home are studied; budget making and ways of meeting problems of the home.

Four hours a week. Four quarter hours. Winter quarter, odd years, (1932-33 and alternate years).

46. HOME NURSING. 1. Physical care and training of the infant and pre-school age child. 2. A study of the factors to be used in the training and development of children in the home.

Four hours a week. Four quarter hours. Spring quarter, odd years (1932-33 and alternate years).

47. INDUSTRIAL HISTORY. See Manual Arts 58.

Prerequisite: Junior standing in the home economics or manual arts curriculum. Four hours a week. Four quarter hours. Spring quarter.

THE USE OF THE LIBRARY

Certain courses offered in the College require considerable work in the library, including reading, and looking up references, and assigned topics. To do this work with the wisest expenditure of time and effort, students should know how to use the card catalogue, magazine indexes, and some common reference books. Lessons, required of all students, are given in the eleventh year of the high school and freshman year of the college. An effort is made to have these lessons prepare for library work required of student in other courses.

XI. THE USE OF THE LIBRARY. Elementary Course.

Required in the eleventh year. One hour a week. Fall and winter quarters.

20. THE USE OF THE LIBRARY.

Freshmen who have completed Library XI are excused from all but the last four lessons of Library 20. They should register for Library 20 (XI), given in the first four weeks of the winter quarter.

Required in the freshman year. One hour a week. One quarter hour. Every quarter.

MANUAL ARTS

High School

1. MECHANICAL DRAWING. This course consists of the making of seven mechanical drawing plates. The size of each plate is to be approximately ten inches by fifteen inches on the trim line. Each plate is to be finished with India ink. The work begins with plane geometrical figures and develops into one and two view working drawings. One plate of freehand letters is made.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

2. MECHANICAL DRAWING. A continuation of Manual Arts 1. Seven plates are considered a quarter's work. Two and three view working drawings are the emphasis in this course. Orthographic projection is used in each case. One plate of instrumental letters is done.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

3. MECHANICAL DRAWING. Eight plates are required this quarter. These are working drawings, and mechanical perspective with one plate of instrumental letters.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

4. WOODWORK. Beginning woodwork based upon Griffith's *Essentials of Woodworking*. A choice of several problems to be made entirely with hand tools is given the pupil. A study of woods, tools, and processes is made.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

5. WOODWORK. A study of the mortise and tenon joint is made and a project is developed using this joint. Particular attention is paid to the development of appreciation for pleasing lines and work which is neatly and accurately done.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

6. BENCH METAL WORK. The elements of sheet metal work are taken up in this course. Pupils make several sheet metal problems. Mild steel or wrought iron articles also are made.

Elective. Five hours a week. One-sixth of a unit. Spring quarter.

7. MACHINE WOODWORK. Beginning machine woodworking processes. A simple piece of furniture is made with as little handwork as possible. A study of the machines is made with attention paid to safety in operating and care for them.

Prerequisite: Course 3 and Course 6. Elective. Ten hours a week. One-third of a unit. Fall quarter.

8. MACHINE WOODWORK, continued. Some study is made of pleasing design and of wood finishes. A piece of furniture is begun which has some originality in design (approved by the teacher). Especial attention is given technique and design.

Prerequisite: Course 7. Elective. Ten hours a week. One-third of a unit. Winter quarter.

9. MACHINE WOODWORK, continued. The piece of furniture started in the winter quarter is completed in workmanlike style. Wood turning is studied and a desk lamp developed. This includes the making of a wire shade frame.

Prerequisite: Course 7. Elective. Ten hours a week. One-third of a unit. Spring quarter.

Courses 1, 2, and 3 with Courses 4, 5, and 6 constitute the first year's work and are taken together. Courses 7, 8, and 9 are the second year's work.

College

20, 21, 22. PRACTICE TEACHING IN MANUAL ARTS.

Required in the sophomore year in the curriculum in Manual Arts. Five hours a week. Twelve quarter hours. Fall, winter, and spring quarters.

23. THE TEACHING OF MANUAL ARTS.

Required in the curriculums in Manual Arts. Four hours a week. Four quarter hours. Winter quarter.

24. PRIMARY GRADE HANDWORK. A course for primary teachers and for supervisors of primary schools. Paper folding, paper weaving, cardboard construction, book binding, woodwork, basketry (reed and raffia), clay work.

Required in the two-year curriculum unless Manual Arts 25 Art 36 or Art 37 is taken. Four hours a week with outside work. Four quarter hours. Summer quarter.

25. INTERMEDIATE GRADE HANDWORK.

Required in the two-year curriculum unless Manual Arts 24 or Art 36 or Art 37 is taken. Four hours a week with outside work. Four quarter hours. Fall and summer quarters.

30. ELEMENTARY MECHANICAL DRAWING. A thorough and practical course in the fundamentals of mechanical drawing. Emphasis is placed on good technique, accuracy, and speed. Lettering, orthographic projection, geometrical construction, sectional views. The common conventions of commercial practice.

Manual Arts 30 and 31 are taken for credit in Mathematics 29 (descriptive geometry). Four hours a week. Two quarter hours. Every quarter.

31, 32. MECHANICAL DRAWING. Problems in isometric, oblique, and sheet metal drawing; machine design. Lectures, demonstrations, and applications, supplemented by textbook work.

Prerequisite: Course 30, also Course 31 to Course 32. Four hours a week. Two quarter hours for each course. Every quarter.

33. ELEMENTARY WOODWORK. Instruction in the care and use of woodworking tools. Construction of tools. Lectures, demonstrations, and applications, supplemented by textbook work.

Prerequisite: Course 30, unless the student is taking Course 30. Four hours a week. Two quarter hours. Every quarter.

34. JOINERY AND ADVANCED WOODWORK. A study of various types of joints used in furniture construction. Application in type problems. Study of varieties of wood. Lectures, demonstrations, and applications.

Prerequisite: Course 33. Four hours a week. Two quarter hours. Every quarter.

35. BENCH METAL WORK. Work in wrought iron, mild steel, and sheet metal.

Prerequisite: Course 34. Four hours a week. Two quarter hours. Spring quarter.

36, 37. FURNITURE AND CABINET CONSTRUCTION. The commercial method of production. Use of power machinery. Study of periods and styles of furniture. Applied design. Pieces are designed and one or more made in the shop. Outside reading and reports in class, covering the development and distinguishing characteristics of period furniture. Students pay for material used and are allowed to take the furniture home at the end of the College year.

Prerequisite: Course 35. Eight hours a week. Eight quarter hours for the two courses. Winter, spring, and summer quarters.

39. HOUSEHOLD MECHANICS. The purpose of this course is to train teachers for Junior High Schools in all kinds of household mechanical work. The first half of it, or 39a, consists in the refinishing and repair of worn and broken furniture and simple carpentry and masonry repair. The remainder of the course consists of a study of the installation and repair of plumbing and electrical apparatus in the home and the care and use of soldering coppers.

Required of all students whose major subject is Manual Arts and accepted for Home Economics 43 in the Smith-Hughes home economics curriculum.

Eight hours a week. Four quarter hours. Fall and summer quarters.

40. THE TEACHING OF INDUSTRIAL AND VOCATIONAL ARTS. See Manual Arts 23.

41, 42. PRACTICE TEACHING IN INDUSTRIAL ARTS. See Manual Arts 21, 22.

43. SHEET METAL WORK.

Eight hours a week. Four quarter hours. Fall quarter.

44. ELECTRICAL CONSTRUCTION.

Eight hours a week. Four quarter hours. Spring quarter.

46. PATTERN MAKING.

Eight hours a week. Four quarter hours. Fall quarter.

47. GENERAL METAL WORK, INCLUDING FORGING.

Eight hours a week. Four quarter hours. Fall and winter quarters.

48. MACHINE SHOP.

Eight hours a week. Four quarter hours. Every quarter.

49, 50. ARCHITECTURAL DRAWING.

Four hours a week. Two quarter hours for each course. Every quarter.

51, 52. ADVANCED MECHANICAL DRAWING.

Four hours a week. Two quarter hours for each course. Every quarter.

53. AUTOMOBILE INSTRUCTION AND REPAIR I.

Eight hours a week. Four quarter hours. Winter and spring quarters.

54. ADVANCED MACHINE SHOP.

Eight hours a week. Four quarter hours. Every quarter.

55, 56. CARPENTRY.

Eight hours a week. Eight quarter hours for two courses. Carpentry 55, winter quarter; Carpentry 56, spring quarter.

57. AUTOMOBILE REPAIRS II.

Eight hours a week. Four quarter hours. Spring quarter.

58. HISTORY OF INDUSTRIAL EDUCATION.

Four hours a week. Four quarter hours. Spring quarter.

59, 60, 61. PRINTING I, II AND III.

Eight hours a week. Four quarter hours for each course. Printing I, every quarter; Printing II, winter and spring quarters; Printing III, spring quarter.

MATHEMATICS

High School

1. ALGEBRA 1. This is a beginning course in algebra and covers algebraic notation, substitution and evaluation, the fundamental operations, the use of formulas, and introduction to graphs, and begins the study of equations of the first degree in one unknown.

Required in the ninth year. Five hours a week. One-third of a unit. Fall quarter.

2. ALGEBRA 2. Important type products, factoring, highest common factor, lowest common multiple; fractions; simple equations in one unknown; ratio; proportion and variation; graphs.

Prerequisite: Algebra 1. Required in the ninth year. Five hours a week. One-third of a unit. Winter quarter.

3. ALGEBRA 3. Simple equations in two or more unknowns; square root and its application; radicals and exponents; quadratic equations.

Prerequisite: Algebra 2. Required in the ninth year. Five hours a week. One-third of a unit. Spring quarter.

4. GEOMETRY 1. Plane Geometry. Stone and Millis' texts are used in all courses in geometry. Chapters I, II, III, and IV.

Prerequisite: Algebra 3. Required in the tenth year. Five hours a week. One-third of a unit. Fall quarter.

5. GEOMETRY 2. Chapters V, VI, VII and VIII.

Prerequisite: Geometry 1. Required in the tenth year. Five hours a week. One-third of a unit. Winter quarter.

6. GEOMETRY 3. Chapters IX, X, and XI.

Prerequisite: Geometry 2. Required in the tenth year. Five hours a week. One-third of a unit. Spring quarter.

7. SOLID GEOMETRY 4a, 5. Chapters XII, XVI. Solid Geometry is begun in the second half of Mathematics 9 (Algebra 5a; Geometry 4a). The year's work (Algebra 4, 5a; Geometry 4a, 5) gives credit for one-half of a unit each in algebra and solid geometry.

Prerequisite: Geometry 3 and Algebra 5a. Five hours a week. One-half of a unit. Winter quarter, second half (Geometry 4a) and spring quarter (Geometry 5).

8. ALGEBRA 4. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number systems to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Elective. Five hours a week. One-third of a unit. Fall quarter.

9. ALGEBRA 5a; GEOMETRY 4a. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability. In the second half of this quarter, Solid Geometry is begun. See Mathematics 7 (Geometry 4a, 5).

Prerequisite: Algebra 4. Elective. Five hours a week. One-third of a unit. Winter quarter.

College

20. ARITHMETIC. This course includes notation and numeration, the fundamental operations with integers and with common and decimal fractions, factors and multiples, English and metric measures, involution and evolution, and simple problems in the measurement of surfaces and solids. The course covers the topics taken up in the first six grades as outlined in the Illinois State Course of Study. Special attention is given to the teaching of these topics in the lower grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. Four quarter hours. Every quarter.

21. **ARITHMETIC.** The primary object of this course is to prepare for the teaching of arithmetic in the seventh and eighth grades. The principal topics discussed are percentage and its application to practical business problems, ratio and proportion, graphs, formulas, intuitive geometry, square root, and the mensuration of surfaces and solids. It is the aim of the class room instructor to familiarize the students with methods of instruction that can be readily adapted to the seventh and eighth grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. Four quarter hours. Winter, spring, and summer quarters.

28. **COLLEGE GEOMETRY.** The objects of this course are to improve and extend the student's knowledge of the content and methods of Euclidian geometry and to give an introduction to modern geometry.

Prerequisite: One year of high school algebra and plane geometry. Required of those whose major subject is mathematics and who have had solid geometry in high school. Four hours a week. Four quarter hours. Spring quarter.

29. **DESCRIPTIVE GEOMETRY.** The course includes the line, point, and plane, and their relation to each other; the intersection of surfaces, penetration and development, and conic sections.

Students take Manual Arts 30, 31 for credit in Mathematics 29.

Recommended for those whose major subject is mathematics. Four hours a week for two quarters. Four quarter hours, for Manual Arts 30, 13. Every quarter.

30. **SOLID GEOMETRY.** Chapters XII-XVI. Students who have had solid geometry in high school take Arithmetic 20, Mathematics 29, Geometry 28. Those who have not had Geometry 30 take Geometry 30, Arithmetic 20, and Geometry 28 in the freshman year.

Prerequisite: Geometry 3. Four hours a week. Four quarter hours. Fall quarter.

31. **ALGEBRA.** Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number system to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Four hours a week. Four quarter hours. Fall quarter.

32. ALGEBRA. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 31 or the equivalent. Four hours a week. Four quarter hours. Winter quarter.

33. PLANE TRIGONOMETRY. Definitions and properties of trigonometric functions, the deduction of important trigonometric formulas, the use of tables of logarithms, the solution of plane triangles, and various practical applications.

Four hours a week. Four quarter hours. Fall quarter.

34. PLANE ANALYTIC GEOMETRY. A beginning course in analytic geometry.

Prerequisite: Plane trigonometry. Four hours a week. Four quarter hours. Winter quarter.

35. PLANE ANALYTIC GEOMETRY. Continuation of the preceding course.

Prerequisite: Course 34. Four hours a week. Four quarter hours. Spring quarter.

36. ALGEBRA. Theory of equations including elementary transformation, location of roots, and the solution of the cubic and biquadratic equations; limits, elementary properties of series.

Prerequisite: Course 32. Elective. Four hours a week. Four quarter hours. Spring quarter.

40. THE TEACHING OF HIGH SCHOOL MATHEMATICS.

Required in the senior year of those whose major subject is mathematics. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL MATHEMATICS.

Required of those whose major subject is mathematics. Five hours a week. Eight quarter hours. Winter and spring quarters.

43, 44, 45. DIFFERENTIAL AND INTEGRAL CALCULUS.

Prerequisite: Course 35; also Course 43 to Course 44 and Course 44 to Course 45. Four hours a week. Twelve quarter hours. Course 43, fall quarter; Course 44, winter quarter; Course 45, Spring quarter.

46, 47, 48. DIFFERENTIAL EQUATIONS. Mechanics.

I. DIFFERENTIAL EQUATIONS. An introduction to the study of ordinary and partial differential equations with applications to geometry and mechanics. First half year.

II. MECHANICS. States of a particle; kinematics of plane motion; fundamental principles of dynamics. Second half year.

Prerequisite: Mathematics 43 and 44. Four hours a week. Twelve quarter hours. Course 46, fall quarter; Course 47, winter quarter; Course 48, spring quarter.

MUSIC

I. Musical Organizations

THE COLLEGE CHORUS. This chorus is composed of one hundred fifty or two hundred students who meet at half past nine on Wednesdays to learn something about correct singing habits and to study choral numbers for a concert.

THE COLLEGE MEN'S GLEE CLUB. During the first weeks of the College year, College men may try for a place in this club. The club meets twice a week and appears in public several times during the year, giving the annual concert in March.

THE COLLEGE WOMAN'S GLEE CLUB. This club is open to all College women. There is one rehearsal a week. The club gives an annual concert.

THE COLLEGE ORCHESTRA. The orchestra consists of eighteen or twenty pieces. It rehearses once a week and plays at morning exercises occasionally as well as at other public gatherings.

THE BAND. The band is open to all students who show sufficient ability on any band instrument. The band owns instruments available for student use. Application to play one of these should be made in writing to the director of the band. The student should state what instrument he plays, how long he has played, and with what organizations.

II. Music Lessons: Fees

PIANO AND VOICE LESSONS. A fee of \$5.00 a quarter is paid for each. Two lessons are given each week in piano and two in voice.

INSTRUMENT WORK (Violin, Clarinet, Cornet or Other Instrument). Lessons on these instruments—one or two students in a period—are \$5.00 a quarter, two lessons a week (equivalent to one fifty-minute period).

CLASS WORK IN THESE INSTRUMENTS IS FREE. Classes meet twice a week for one period.

A maximum fee of \$5.00 a quarter is charged for the rental of an instrument.

III. High School Music

1, 2, 3. The object of this course is to train pupils inexperienced in music how to listen to and enjoy good music. The victrola and piano are used. Pupils learn to know by ear about fifty standard musical compositions—the title, the composer, and the outstanding characteristics of the form of composition. They learn the instruments of the symphony orchestra by name,

sound, and sight. Half of the time is devoted to sight singing according to the ability of the class. There are daily assignments requiring forty minutes' preparation.

Elective in the tenth, eleventh, or twelfth years. Five hours a week. One unit. No credit for less than the whole year's work.

Notes.—1. The high school girls' glee club is composed of thirty-five girls chosen from the high school, and meeting twice a week.

2. Chorus, twice a week, is required in the ninth year.

IV. Public School Music

Note.—Students who wish to make Public School Music a minor subjects should take Music 32, 33, 34, 35, 36, 37.

20. PRACTICE TEACHING IN MUSIC. This course is devoted to a detailed study of the material and methods of teaching music in the elementary school with practice teaching in two grades.

Prerequisite: Music 24 (or the equivalent) and recommendation of the supervisor of public school music and of the director of the Elementary Training School. Five hours a week. Four quarter hours. Fall, winter, and spring quarters.

24. PUBLIC SCHOOL MUSIC. Elementary sight singing and lower grade methods. The second half of the quarter is devoted to methods of teaching music in the first six grades with observation in the Training School.

Required in the sophomore year in the two-year curriculum for the preparation of teachers of the grades. Four hours a week. Four quarter hours. Fall, winter, and summer quarters.

32. SIGHT SINGING. Sight singing of one- and two-part songs in both modes using intermediate tones and fairly complicated rhythmic combinations.

Required in the first year of the two-year curriculum in public school music and substituted for Music 24 by those who have had the equivalent of Music 24. Four hours a week. Four quarter hours. Fall quarter.

33. SIGHT SINGING AND ELEMENTARY THEORY. Two, three, and four-part singing. Major, minor, and chromatic scales with some original composition.

Prerequisite: Music 32 (or the equivalent). Four hours a week. Four quarter hours. Winter quarter.

34. PRIMARY MUSIC METHODS. The teaching of rote songs. How to help monotones. The development and care of the child voice. Repertoire of children's songs. The work of the first three grades is studied intensively.

Prerequisite: Music 33 or the equivalent. Four hours a week. Four quarter hours. Spring and summer quarters.

35. UPPER GRADE METHODS. Methods of teaching sight singing, music appreciation, and original composition in grades four to eight inclusive.

Prerequisite: Music 34. Four hours a week. Four quarter hours. Fall and summer quarters.

36. ELEMENTARY HARMONY. This course includes a review of scales. Intervals; triads; simple four-part writing.

Prerequisite: Music 33. Four hours a week. Four quarter hours. Winter quarter.

37. MUSIC APPRECIATION. The course aims to acquaint the student with some of the best music—piano, vocal, and orchestral. It is organized around the study of the varying forms into which musical compositions are cast—from the folk songs to the symphony. While some knowledge of music is an advantage to members of the class, such knowledge is not a prerequisite.

Four hours a week. Four quarter hours. Spring quarter.

V. INSTRUMENTAL MUSIC

1. PIANO

In piano instruction, two or three students are assigned to each fifty minute period.

Elective credit to the extent of twelve quarter hours in piano, voice, or violin training may be used toward graduation.

College

30, 31, 32. PIANO, FIRST YEAR.

Elective. Two lessons a week. Six quarter hours for the year's work. Every quarter.

33, 34, 35. PIANO, SECOND YEAR.

Prerequisite: Courses 30, 31, 32, or the equivalent. Elective. Two lessons a week. Six quarter hours for the year's work. Every quarter.

43, 44, 45. PIANO, THIRD YEAR.

Prerequisite: Courses 33, 34, 35, or the equivalent. Elective. Two lessons a week. Six quarter hours. Every quarter.

46, 47, 48. PIANO, FOURTH YEAR.

Prerequisite: Courses 43, 44, 45, or the equivalent. Elective. Two lessons a week. Six quarter hours. Every quarter.

2. VIOLIN

Elective credit to the extent of twelve quarter hours in piano, voice or violin training may be used for credit toward graduation.

College

30, 31, 32. VIOLIN, FIRST YEAR.

Elective. Two lessons a week. Six quarter hours for the year's work. Every quarter.

33, 34, 35. VIOLIN, SECOND YEAR.

Prerequisite: Courses 30, 31, 32, or the equivalent. Elective. Two lessons a week. Six quarter hours for the year's work. Every quarter.

VI. VOICE TRAINING

Elective credit to the extent of twelve quarter hours in piano, voice, or violin training may be used for credit toward graduation.

College

30, 31, 32. VOICE TRAINING, FIRST YEAR.

Elective. Two lessons a week. Six quarter hours for the year's work. Every quarter.

33, 34, 35. VOICE TRAINING, SECOND YEAR.

Prerequisite: Courses 30, 31, 32, or the equivalent. Elective. Two lessons a week. Six quarter hours. Every quarter.

43, 44, 45. VOICE TRAINING, THIRD YEAR.

Prerequisite: Courses 33, 34, 35, or the equivalent. Elective. Two lessons a week. Six quarter hours. Every quarter.

46, 47, 48. VOICE TRAINING, FOURTH YEAR.

Prerequisite: Courses 43, 44, 45, or the equivalent. Elective. Two lessons a week. Six quarter hours. Every quarter.

PENMANSHIP

College

20. This course aims to improve the student's writing and to make him familiar with a system of plain business writing and methods of presenting it to pupils in the grades.

The course includes correct position, muscular movement exercises, business forms of capital letters, small letters, figures, sentences, and page writing. Emphasis is placed upon blackboard writing.

Four hours a week. One quarter hour. Every quarter.

PHYSICAL EDUCATION FOR MEN

High School

First Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Free developing exercises, marching, tumbling, apparatus work, and games.

Required in the first year. Two hours a week. Every quarter.

Second Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Advanced work on the horse and parallel bars, advanced steps and games. During the spring and fall the work is on the athletic field and consists of games and track work. The course includes lectures on hygiene and kinesiology.

Required in the second year. Two hours a week. Every quarter.

College

Note: Credit earned in physical education or in Coaching 33, 34, 35; 36, 37, 38 is in addition to the 96 quarter hours required for a diploma and the 192 quarter hours required for a degree.

First Year's Work. See above.

One quarter hour for each quarter's work, but not counted toward graduation total.

Second Year's Work. See above.

33, 34, 35. ATHLETIC COACHING. First Year.

36, 37, 38. ATHLETIC COACHING. Second Year.

Elective. One quarter hour for each quarter's work to which one hour a week is given. Fall, winter, and spring quarters.

41, 42, 43, 44. PRACTICE COACHING IN THE HIGH SCHOOL. Football, Coaching 41; basketball, Coaching 42; baseball, Coaching 43; track, Coaching 44.

Prerequisite: Coaching 33, 34, 35, 36, 37, 38, at least two years of experience as a player in the branch of athletics in which he is going to coach, and Senior College classification. Registration for one of these courses is made only upon the written recommendation of the director of physical education and the written consent of the teacher of the student's major subject if it is to be substituted for practice teaching in the major subject. One or more of these courses may be used for elective credit.

Elective. Ten hours a week. Four quarter hours for each of the courses.

PHYSICAL EDUCATION FOR WOMEN

Physical education, two hours a week for two years, is required both in the high school and in the college. A thorough physical examination is given at the beginning of each year. Physical defects, abnormalities, and weaknesses are noted, and the examining physician prescribes exercise to fit the student's individual needs. A resident health director follows up all cases in need of medical attention.

Note: Credit earned in these courses is in addition to the 96 quarter hours required for a diploma and the 192 quarter hours required for a degree.

Hockey, archery, soccer and tennis are offered in the fall and spring quarters; gymnastics and individual work in the winter quarter. College students may take folk dancing or clog dancing in the winter quarter instead of gymnastics.

HOCKEY I. Lectures on playing, coaching, and refereeing the game and practice in playing. At the end of the spring quarter there is an interclass tournament. Only students who are physically fit are admitted to this course.

Two hours a week. One quarter hour for each quarter's work. Fall and spring quarters.

HOCKEY II. Lectures and practice in refereeing and coaching as well as in playing the game.

Prerequisite: Hockey I. Two hours a week. One quarter hour for each quarter's work. Fall and spring quarters.

ARCHERY. Lectures and practice in target shooting. Students who are not physically fit to do regular work take this course. At the end of the spring quarter there is an interclass tournament.

Two hours a week. One quarter hour for each quarter's work. Fall and spring quarters.

GYMNASTICS I. Marching, floor work, and apparatus work. For apparatus work, the class is divided into squads, and each squad elects a leader to direct its activities.

Students who took archery in the fall quarter take a restricted type of gymnastics in the winter quarter.

Two hours a week. One quarter hour for each quarter's work. Winter quarter.

GYMNASTICS II.

Prerequisite: Gymnastics I. Two hours a week. One quarter hour. Winter quarter.

FOLK DANCING. Folk dances, singing games, and rhythm play are taught for use in the grades and high school. College students who are physically fit may elect this course in the winter quarter.

Two hours a week. One quarter hour. Winter quarter.

CLOG DANCING. Clog and character dances are taught for use in the upper grades and high school. College students who are physically fit may elect this course in the winter quarter.

Two hours a week. One quarter hour. Winter quarter.

INDIVIDUAL WORK. This course deals with the correction of abnormal conditions such as faults of posture, lateral curvature of the spine, round shoulders, ptosis, weak and flat feet.

Two hours a week. One quarter hour for each quarter's work. Winter quarter.

READING

College

24. Designed both to improve the oral and silent reading of the pupils and to give them definite standards by which they may intelligently judge the reading of others. Some attention is given to methods of teaching reading in the grades.

Required in the two-year curriculum. Four hours a week with preparation. Four quarter hours. Every quarter.

BIOLOGICAL SCIENCE

I. HUMAN PHYSIOLOGY

High School

1, 2. Life processes of the human body and the functions of its more important organs and tissues. The minimum amount of anatomy for the understanding of these activities and functions is given. An application of the facts and principles is made to show ways of improving the body as a working machine and of keeping it in health; hence the subject of hygiene is included.

Required in the ninth year (See Science 5, 6). Five hours a week. Two-thirds of a unit. Winter and spring quarters.

College

20. HYGIENE AND SANITATION

Required in all curriculums. Four hours a week. Four quarter hours. Every quarter.

43. ELEMENTARY PHYSIOLOGY. The fundamental principles of animal physiology, including the chemical and physical structure of animate matter; the reactions involved in animals, including the human body, in responding to environmental conditions; the formation, structure, and functions of blood and lymph; and the fundamental structure of the nervous system with particular emphasis on reflex actions. A survey of the conditions determining the activities of living forms.

Elective. Six hours a week. Four quarter hours. Winter and summer quarters.

44. ELEMENTARY PHYSIOLOGY. A study of respiration, foods, digestion, metabolism, and excretion.

Prerequisite: Physiology 43. Elective. Six hours a week. Four quarter hours. Summer quarter, even years.

45. **ELEMENTARY PHYSIOLOGY.** A study of circulation, the organs of internal secretion, the central nervous system, and the special senses.

Prerequisite: Physiology 43. Elective. Six hours a week. Four quarter hours. Summer quarter, odd years.

II. BOTANY

The botany department is well equipped for the training of teachers of botany in high schools, general biology, nature study in the grades, and general science; and those who complete the four-year botany curriculum are equipped to do graduate work in other institutions. The sequence of courses offered by this department has been carefully arranged for the teaching of botany. These courses with the equipment of the laboratory train the student for skillful laboratory teaching and may train him to enter other occupations in the field of science such as technicians in various laboratories.

The campus affords excellent opportunity for the study of trees, shrubs, and herbaceous plants. There are over two hundred different kinds of trees and shrubs on the campus and numerous herbaceous flowering plants as well as numerous specimens of the other groups of plants.

High School

1, 2, 3. **GENERAL BOTANY.** This is a course in general botany for high school students. It is organized in such a way that the students may obtain exact information about the life processes of plants that may be applied to plant culture. Students have the opportunity of learning to know a large number of plants at sight, and to understand something of their physical and chemical structure.

Required in the tenth year unless Zoölogy 1, 2, 3 is substituted. Five sixty-minute periods a week. One unit. Botany 1, fall quarter; Botany 2, winter quarter; Botany 3, spring quarter.

College

20. **COLLEGE BOTANY.** A course designed to give the student a knowledge of the fundamental physiological processes concerned in the growth of plants, and of the external and internal structures which are concerned in these processes in leaves, stems, and roots. It includes also the effects of environment factors on these processes and structures.

Required in the two-year curriculum, unless Zoölogy 20 or Botany 21 or 22 is taken. Elective in other curriculums. Six hours a week. Four quarter hours. Every quarter.

21. COLLEGE BOTANY. A study of the reproduction of flowering plants, the development of fruit and seeds from the parts of the flower, the mechanism of heredity, and a brief study of the great groups of plants.

Prerequisite: Botany 20, Elective. Six hours a week. Four quarter hours. Winter and summer quarters.

22. GENERAL LOCAL FLORA. The identification of trees in winter and summer condition, of the common fresh water algae, liverworts, mosses and ferns, and of flowering plants as the season advances; and with a study of structures which is necessary for the recognition of these forms. The course is designed especially for those who expect to teach biological science in secondary schools.

Prerequisite: Botany 20 and 21 or permission of the instructor. Elective. Six hours a week. Four quarter hours. Spring and summer quarters.

23. DENDROLOGY AND WOOD ANATOMY. This course includes a study of the chemical and physical processes concerned in the formation of cell walls in plants; the development of various types of stems, the distribution of commercial woods; trees in winter and summer condition; the microscopic study of the woods used in the manual arts.

Required in the sophomore year of the Manual Arts curriculum. Six hours a week. Four quarter hours. Spring quarter.

30. THE MORPHOLOGY OF GREEN PLANTS. A study of the vegetative and reproductive structures of the green plants and a comparative study of the typical life histories of the great groups. The course consists mostly of laboratory work.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Fall quarter.

31. INTRODUCTION TO FUNGI AND PLANT DISEASES. The structure, life histories, and physiology of the groups of fungi and their relation to decay, fermentation, and the important plant diseases.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Winter quarter.

32. ECONOMIC BOTANY. The relation of vegetation centers to crop centers; the effect of environmental factors on the production of carbohydrates, fats, fibers, and other plant products; the value of microorganisms in the important economic practices carried on by their use.

Prerequisite: Botany 20 and 21. Elective. Four hours a week. Four quarter hours. Spring quarter. Omitted 1931-32.

40. METHOD IN HIGH SCHOOL BOTANY. The course includes methods of teaching high school botany and also the collection and preparation of material for demonstration and laboratory in high school botany.

Prerequisite: Two years' work in college botany. Required in the senior year in the four-year curriculum in botany. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL BOTANY.

Prerequisite: Botany 40. Required in the senior year in the four-year curriculum in botany unless Zoölogy 41 is substituted. Five hours a week. Course 41, four quarter hours; Course 42, four quarter hours. Winter and spring quarters.

43. MICROTECHNIC. A course designed for the purpose of giving the student a knowledge of the preparation of botanical material for class use and for the making of microscopic slides. It is desirable that students in this course shall have had a year of chemistry.

Prerequisite: Botany 20, 21, 22, and 30, or the equivalent. *Elective.* Six hours a week. Four quarter hours. Spring quarter, 1931-1932.

44. EXPERIMENTAL PLANT PHYSIOLOGY. A qualitative and quantitative study of the experiments demonstrating the chemical and physical processes that result in the growth of plants and the application of this knowledge in solving problems in the growth of plants.

Prerequisite: One year of chemistry and Botany 20 and 21. *Elective.* Six hours a week. Four quarter hours. Winter quarter.

45. ADVANCED BOTANY. This is designed to meet the needs of individual students who wish to do advanced work in some special field of botany. The student may choose the work he wishes to do, but is required to consult the instructor before registering.

Prerequisite: Botany 20, 21, 22, 30, and 43. *Elective.* Six hours a week. Four quarter hours. Every quarter.

III. ZOÖLOGY

High School

1. ELEMENTARY INVERTEBRATE ZOÖLOGY. Important groups of invertebrates are considered, as far as possible, in their evolutionary order. Particular emphasis is given to life processes, behavior, relation to surroundings, geographical distribution, and importance to man.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit. Fall quarter.

2. **ELEMENTARY VERTEBRATE ZOÖLOGY.** Classes of vertebrates are studied somewhat in detail, but special attention is given to fishes, birds and mammals. Considerable identification work is done by the use of keys. Methods of collecting and preserving material and of caring for live animals are taught.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit. Winter quarter.

3. **FIELD ZOÖLOGY.** Life histories, relations to surroundings, and economic importance of common animals in the principal animal habitats found in the Charleston region which are (1) the open field or prairie, (2) the forest, (3) stream or pond, and (4) household and home premises. Methods of collecting and preserving material, both living and non-living, are emphasized. The course gives a foundation for elementary science teaching in graded schools, where animal materials are used.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit. Spring quarter.

College

20, 21, 22. **ELEMENTARY ZOÖLOGY.**

Elective. Six hours a week. Twelve quarter hours. Course 20, fall quarter; Course 21, winter quarter; Course 22, spring quarter; also summer quarters.

30, 31, 32. **ADVANCED ZOÖLOGY AND SPECIAL METHODS.** A study of fresh-water animals and their environment. Much attention is given to the common and important species of aquatic vertebrates with a view to familiarize students with taxonomic and research methods; and opportunities for students carrying on some independent investigations are provided. It prepares for teaching biological science in upper grades or high school.

Prerequisite: Zoölogy 20, 21, or 1, 2. Elective. Six hours a week. Twelve quarter hours. Course 30, fall quarter; Course 31, winter quarter; Course 32, spring quarter, even years.

40. **METHOD IN HIGH SCHOOL ZOÖLOGY.** The course includes methods of teaching zoölogy and also the collection and preparation of material for demonstration and laboratory in high school zoölogy.

Prerequisite: Two years' work in college zoölogy. Required in the senior year in the four-year curriculum in zoölogy. Four hours a week. Four quarter hours. Fall quarter.

41, 42. **PRACTICE TEACHING IN HIGH SCHOOL ZOÖLOGY.**

Prerequisite: Zoölogy 40. Required in the senior year in the four-year curriculum in zoölogy unless Botany 41 is substituted.

Five hours a week. Course 41, four quarter hours; Course 42, four quarter hours. Winter and spring quarters.

43, 44, 45. **ADVANCED ZOÖLOGY.** A study of insects. Deals with the classification and ecology of this large and important class. Methods of collection and preparation of specimens are studied. It prepares for teaching biological science in the upper grades or high school.

Prerequisite: Zoölogy 20, 21, or 1, 2. Elective. Six hours a week. Twelve quarter hours. Course 43, fall quarter; Course 44, winter quarter; Course 45, spring quarter, odd years.

46, 47, 48. **ADVANCED ZOÖLOGY.** This course is arranged to meet the desires and attainments of the individual student. Considerable latitude is given in the choice of a problem, the aim being to encourage and develop ability to pursue original investigations. Frequent conferences with the instructor are held to discuss methods of approach and results.

Prerequisites: Two years of work in Zoölogy and permission of the instructor. Six hours a week (to be arranged with the instructor). Four quarter hours for each quarter's work. Course 46, fall quarter; Course 47, winter quarter; Course 48, spring quarter.

PHYSICAL SCIENCE

GENERAL SCIENCE

High School

4. INTRODUCTION TO CHEMISTRY.

Required in the ninth year. Five periods a week. One-third of a unit. Fall quarter.

5, 6. **PHYSIOLOGY AND HYGIENE.** See Human Physiology, Courses 1 and 2.

PHYSICS

High School

1, 2, 3. **ELEMENTARY PHYSICS,** Physics 1, mechanics and heat; Physics 2, magnetism and electricity; Physics 3, sound and light.

Prerequisite: Geometry 1, 2, 3. Required or elective in the twelfth year. Seven hours a week. One unit. Course 1, fall quarter; Course 2, winter quarter; Course 3, spring quarter.

College

20, 21. **COLLEGE PHYSICS FOR MANUAL ARTS STUDENTS.** The topics studied in Physics 20 are mechanics and heat; in Physics 21, magnetism and electricity. These courses include the same essential principles as Physics 30, 31, but with the difference that

where it is possible the applications and problems as well as the laboratory work are related to manual arts.

Required in manual arts curriculums. Six hours a week. Four quarter hours for each course. Physics 20, fall quarter; Physics 21, winter quarter.

30, 31, 32. FIRST YEAR OF COLLEGE PHYSICS. Physics 30, mechanics and heat; Physics 31, magnetism and electricity; Physics 32, light and sound.

Seven hours a week. Four quarter hours for each course. Physics 30, fall quarter; Physics 31, winter quarter; Physics 32, spring quarter.

33, 34, 35. SECOND YEAR OF COLLEGE PHYSICS. Physics 33, mechanics and heat; Physics 34, light and sound; Physics 35, magnetism and electricity.

Prerequisite: Physics 30, 31, 32. Four hours a week. Four quarter hours for each course. Physics 33, fall quarter; Physics 34, winter quarter; Physics 35, spring quarter.

40. THE TEACHING OF PHYSICS.

Required in the senior year in the four-year curriculum in physics. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN PHYSICS.

Required in the senior year in the four-year curriculum in physics. Five hours a week. Four quarter hours for each course. Winter and spring quarters.

43. RADIO. A study is made of the principles underlying radio communication. The course includes a study of some typical circuits used in receiving sets and a detailed study of the function of inductance, capacitance, and resistance in electric circuits. Types of vacuum tubes are discussed.

In the laboratory, electrical measurements of parts and assembled units are made. This includes taking characteristic curves of vacuum tubes.

Prerequisite: Physics 21 or 31. Six hours a week. Four quarter hours. Summer quarter.

44. ELECTRICAL MEASUREMENTS.

Prerequisite: Physics 21 or 31. Eight hours a week. Four quarter hours. Spring quarter.

45, 46, 47. THIRD YEAR OF COLLEGE PHYSICS. Physics 45, mechanics and heat; Physics 46, light and sound; Physics 47, magnetism and electricity.

Prerequisite: Physics 30, 31, 32. Eight hours a week. Four quarter hours for each course. Physics 45, fall quarter; Physics 46, winter quarter; Physics 47, spring quarter.

CHEMISTRY

High School

1, 2, 3. ELEMENTARY INORGANIC CHEMISTRY.

Required or elective in the eleventh or twelfth year. Seven hours a week. One unit. Chemistry 1, fall quarter; Chemistry 2, winter quarter; Chemistry 3, spring quarter.

College

30, 31. GENERAL INORGANIC CHEMISTRY. Non-metals.

Elective. Eight hours a week. Five quarter hours for each course. Chemistry 30, fall quarter; Chemistry 31, winter quarter.

32. METALS AND INTRODUCTION TO QUALITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31. Eight hours a week. Five quarter hours. Spring quarter.

33. QUALITATIVE ANALYSIS, Continued.

Prerequisite: Chemistry 30, 31, 32. Eight hours a week. Five quarter hours. Fall quarter, even years.

34, 35. QUANTITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31, 32. Eight hours a week. Five quarter hours for each course. Chemistry 34, winter quarter; Chemistry 35, spring quarter, even years.

40. THE TEACHING OF CHEMISTRY.

Required in the senior year in the four-year curriculum in chemistry. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN CHEMISTRY.

Required in the senior year in the four-year curriculum in chemistry. Five hours a week. Four quarter hours for each course. Winter and spring quarters.

43, 44. ORGANIC CHEMISTRY.

Prerequisite: Chemistry 30, 31, 32. Eight hours a week. Five quarter hours for each course. Chemistry 43, fall quarter; Chemistry 44, winter quarter, odd years.

45. FOOD AND PHYSIOLOGICAL CHEMISTRY.

Prerequisite: Chemistry 43, 44. Eight hours a week. Five quarter hours. Spring quarter, odd years.

PART III

LISTS

THE TEACHERS COLLEGE BULLETIN

The Teachers College Bulletin, a sixteen-page monograph, devoted to educational topics, is issued quarterly and distributed in the immediate territory of the College free of charge. The numbers issued, exclusive of summer school bulletins and annual catalogues, are:

1. A Suggestion for Teaching Shakespeare's Dramas, *by Thomas H. Briggs, Jr., A. B.*
2. Method of Teaching, *by Francis G. Blair, B. S.*
3. The Causal Idea of History, *by Roswell C. McCrea, Ph. D.*
4. Some of the Objects of Studying English Grammar, *by W. M. Evans, Litt. D.*
5. The School Garden, *by Otis W. Caldwell, Ph. D.*
6. Manual Training, *by Caroline A. Forbes.*
7. The School Library, *by Florence M. Beck, B. L. S.*
8. Graphic Arithmetic, *by E. H. Taylor, B. S.*
9. Reading in the Grades, *by Katharine Gill.*
10. The Relation of the Home and School, *by Charlotte May Slocum.*
11. Bird Study in the Rural School, *by Thomas L. Hankinson, B. S.*
12. Bird Study in the Rural School (Second Edition), *by Thomas L. Hankinson, B. S.*
13. Physics in the High School, *by Albert B. Crowe, A. M.*
14. Some Suggestions for the Teaching of Geography in the Grades, *by Annie L. Weller, B. S.*
15. Fourth Year Geography in the Illinois Course of Study—Topic: The Work of Water, *by Clara M. Snell.*
16. English Composition in Secondary Schools—Topic: Correct English, *by Florence V. Skeffington, A. B.*
17. The Study of Literature in the Upper Grades, *by Isabel McKinney, A. M.*
20. The School Garden II, *by Otis W. Caldwell, Ph. D.*
23. Some Problems in Education, *by John M. Coulter, Ph. D.*
26. Education and Utility, *by W. C. Bagley, Ph. D.*
29. Eastern Illinois Teachers' Association—Thirteenth Annual Meeting.
30. Reading in the Grades (Second Edition), *by Katharine Gill.*
32. The Annual Invitation Athletic and Oratorical Meet, held at the Eastern Illinois State Normal School.
34. Schoolroom Gymnastics and Graded Games, *by Alice M. Christiansen.*
37. Views of the Buildings and Grounds.

38. Arguments for Vocational Guidance, *by E. E. Lewis, A. M.*
41. English Literature in Secondary Schools: The Rise of the Drama in England; Outlines for the Study of Literature, *by DeWitt C. Sprague, Ph. B.*
44. Alumni Register, 1900-1913.
46. Material on Geography (which may be obtained free or at small cost), *by Mary Josephine Booth, A. B., B. L. S.*
50. Lists of Material (which may be obtained free or at small cost), *by Mary Josephine Booth, A. B., B. L. S.*
53. Bird Study in the Rural School, *by Thomas L. Hankinson, B. S.*
54. Material on Geography (which may be obtained free or at small cost), Revised Edition, *by Mary Josephine Booth, A. B., B. L. S.*
57. An Outline for the Teaching of Agriculture in the Seventh and Eighth Grades, *by Carl Colvin, B. S.*
58. An Inquiry into the Methods by Which the State Normal Schools Are Controlled, *by Clifford Chesley Hubbard, A. M.*
61. Reading Aloud: War-Time Suggestions, *by John M. Clapp, A. M.*
62. Campus Reflections.
65. New Poetry and the Composition Class, *by Earl R. K. Daniels, A. B.*
66. Training Departments in State Normal Schools in the United States, *by Lester M. Wilson, Ph. D.*
69. Material on Geography (which may be obtained free or at small cost), Second Revised Edition, *by Mary J. Booth, A. B., B. L. S.*
70. Report of Committee of Fifteen.
73. List of Books for the First Six Grades, *by Mary J. Booth.*
74. Course of Study in English for the First Six Grades, *by Isabel McKinney, A. M.*
77. Alumni Register, 1900-1921.
78. Material on Geography (which may be obtained free or at small cost), Third Revised Edition, *by Mary J. Booth, A. B., B. L. S.*
81. Material on Geography, Second Printing of the Third Revised Edition.
82. Twenty-fifth Anniversary Letter to Alumni.
85. Teaching Children to Read, *by Anna Holden Morse.*
86. Lincoln-Douglas Debate at Charleston, *by S. E. Thomas, A. M.*
89. Trees and Shrubs of the Campus, *by Ernest L. Stover, Ph. D.*

90. The Story of Charleston, A Bulletin by a Tenth Grade English Class.
93. An Analysis of the Student Body for the Year 1925-1926, *by Ralph Haefner.*
94. The Use of Modern Poetry with Children, *by Florence E. Gardiner.*
97. Second Printing of Bulletin No. 94.
98. The Training of Teachers at the Eastern Illinois State Teachers College, *by Fiske Allen.*
101. Arithmetic Teachers in the Making, *by E. H. Taylor.*
102. Opportunities for High School Graduates in Public School Teaching in Illinois, *by a Committee of the Illinois Schoolmasters Club.*
105. Thirtieth Anniversary Bulletin, *compiled by Grace Geddes and Anna H. Morse.*
106. Alumni Register, 1900 to 1929, *compiled by Ruth Carman.*
109. Practical Arts at the Eastern Illinois State Teachers College, *by L. F. Ashley.*
110. A Mesophytic Ravine, "Rocky Branch," *by E. L. Stover.*

CORRESPONDENCE

School officials who are looking for teachers may obtain full and confidential information in regard to the qualifications, character, and experience of former students who are candidates for positions in their schools.

Former students who wish teaching positions may register their names with the chairman of the appointment committee.

Bulletins published by the college are sent upon request.

PART I

GENERAL INFORMATION

The Eastern Illinois State Teachers College is a
TEACHERS COLLEGE in the American Association of
Teachers Colleges, and a COLLEGE in the North Central
Association of Colleges and Secondary Schools.

EASTERN ILLINOIS STATE TEACHERS COLLEGE

LOCATION

The Eastern Illinois State Teachers College is located at Charleston, the county seat of Coles County. Charleston is on the Big Four and Nickel Plate railroads and is connected with the Illinois Central Railroad at Mattoon and with Kansas and Paris by a motor bus line.

HISTORY

To provide more adequate facilities for the training of teachers for the public schools of the state the legislature by an act approved May 22, 1895, established the Eastern Illinois State Normal School. This by an act of legislature in 1921 became "The Eastern Illinois State Teachers College at Charleston." On September 7, 1895, the five trustees provided for in the act selected a beautiful forty-acre tract of land three-quarters of a mile south of the public square of Charleston. The citizens of Charleston bought the land and presented it to the state. The building was erected at a cost of \$180,000. The grounds have a good elevation and are shaded by many fine old trees.

December 2, 1895, the contract was made for the erection of the building. The cornerstone was laid on the afternoon of May 27, 1896. The building and grounds were dedicated August 29, 1899, and on September 12, 1899, the institution was opened to students.

During the first year there were nineteen members of the faculty and two hundred forty students. At the end of the first year, June, 1900, four students were granted the diploma of the school upon completion of the course of study. In 1931, fifty-eight students were graduated from the Junior College and fifty-nine from the Senior College.

During the summer of 1901, a six weeks' session was offered for teachers. Beginning with the summer of 1920, the college has offered a twelve weeks' summer quarter. A mid-spring session of six weeks was offered from 1922 to 1929.

In 1907 the state legislature appropriated one hundred thousand dollars for a woman's building. This building was completed and occupied in January, 1909. It has proved to be a distinct

addition to the cultural value of the institution. In addition to providing a beautiful home for one hundred young women during their residence in Charleston, it has had a marked influence in establishing good standards of living, and has come to be the social center of college life.

In 1911 the state legislature appropriated seventy-five thousand dollars for a training school building which was completed in 1913 with the exception of the assembly room which it still lacks.

In 1907 the power of conferring degrees was granted to the institution by the state legislature. Courses leading to the degree of Bachelor of Education (B. Ed.) were announced in 1920.

In 1925 the state legislature appropriated one hundred seventy thousand dollars for a Practical Arts Building. This building completed in 1929 is used for home economics (Smith-Hughes) and for manual and industrial arts.

The institution has always stood for sound scholarship and has striven to inculcate in the minds of its students a sincere love for truth. One of the gratifying evidences that it is in a measure fulfilling its mission is the fact that so many of its students have gone on to higher institutions of learning the better to equip themselves for service.

PURPOSE

The function of the state in education extends of necessity to the training of teachers. A rational system of public education implies provision for securing efficiency in the teaching office. State Teachers Colleges are the natural outgrowth of a policy of public education. The state is the only agency competent to meet the demands for qualified teachers imposed by its own attitude toward the instruction of its people. The object of a State Teachers College is not to extend the earning power of one class of persons at the public charge. It is to give a culture and learning dedicated in a special way to the general welfare. It exists primarily not for the benefit of its students but for the benefit of the whole people. Such a conception is fundamental and determines questions of organization, courses of study, and methods of instruction in the State Teachers Colleges.

EQUIPMENT

GROUNDS.—The grounds comprise forty acres, including the campus proper, the forest plantation, and the athletic field. These grounds, laid out by Mr. Walter Griffin, one of the most

skillful landscape gardeners in the country, are justly considered exceptionally beautiful. A natural grove and other fine trees, a pond, a wide stretch of green, many borders of shrubbery and perennials in the natural style present a succession of pictures throughout the year. In the main grounds are the tennis courts, the children's playgrounds, the athletic field for girls, and the school garden. The forest plantation, planted during the early years of the institution, now includes several acres of thrifty trees, much used in botanical and zoölogical studies. In the adjoining athletic field, one of the best among those of the small colleges of the state, are the baseball diamond, the football field, and the quarter-mile cinder track.

A seventy-two acre tract of land was added to the campus in 1931 through an appropriation of \$21,600 made by the 57th General Assembly. It is used for athletics and physical education. The house is used as a club house by the Men's Union.

MAIN BUILDING.—The main building is a three-story structure, three hundred twenty-three feet in length, built of rough Bedford stone. It is in the Norman style, with a tower which is the neighborhood landmark. In this building are offices, the library, the assembly room, music and art rooms, classrooms, and laboratories.

TRAINING SCHOOL BUILDING.—The training school building of smooth Bedford stone was completed (except the assembly room) in 1913 at a cost of seventy-five thousand dollars. It is placed conveniently near the main building, and besides the rooms for the elementary school it contains classrooms and a laboratory for high school agriculture.

PEMBERTON HALL.—The legislature of 1907 appropriated one hundred thousand dollars for a woman's building and gymnasium—the first appropriation for a woman's building ever made in the state of Illinois. A fine stone structure was finished and occupied January 4, 1909. The building has met the fondest hopes of its most ardent advocates, and its value as a social center in the college and in setting good standards of living is well established.

Room, including heat and light, with table board and privileges of laundry, costs \$7.50 a week. For table board, \$5.50 a week is charged. Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. Reservation is filed at the Hall when deposit is received and credited at the business office. Application blanks will be sent at the request of students.

The deposit is credited to the student as part of the first month's payment, but forfeited if the student cancels the reservation too late to have it used by someone else.

PRACTICAL ARTS BUILDING.—The Practical Arts Building, completed in 1929, at a cost of \$135,000 for the building and \$40,000 for new equipment, furnishes excellent facilities for students who wish to specialize in manual arts and home economics for grade and high school positions and for the preparation of teachers in these subjects for the Smith-Hughes Vocational Schools. Shops are provided for practice in all kinds of hand and machine woodwork, metal machine shops and automobile repair, sheet metal work, general metal, electrical construction and installation, printing, and mechanical drawing. These shops are all well lighted and on the first floor of the building. The basement consists of classrooms, storage rooms, and locker rooms.

The home economics department occupies the entire second floor of this building. Here are food laboratories, sewing rooms, fitting rooms, a lecture room, a dining room, a unit kitchen, a foods classroom and teachers' room, all arranged for the greatest convenience and efficiency in teaching.

There is floor space of approximately 27,500 square feet in the building. The first floor occupies 12,700 square feet, the second floor 7,400 square feet, and the basement a similar amount.

MUSIC BUILDING.—The small Manual Arts building, south of the power house, is now used for the band and orchestra. Lessons are given here in band and orchestra instruments.

LIBRARY.—The library now contains about 38,000 books and pamphlets. The reference books, bound periodicals, and reserve books are shelved in the reading room. Here are also found the current numbers of almost two hundred periodicals, including, in addition to those of general interest, many devoted to special subjects. The books for general circulation are kept in the stack room to which all students of the Teachers College and of the High School, and pupils of the seventh and eighth grades are admitted. For grades lower than the seventh, schoolroom libraries are provided. The library has a dictionary card catalogue and the books are classified according to the Dewey decimal system. There is a large collection of classified pictures for use in all departments. Three librarians are in charge, giving necessary aid and instruction to students in the use of books. Lessons in the use of the library are required in all curricula as explained in the Description of Courses.

SCHOOL GARDEN AND GREENHOUSE.—An opportunity is given for seeing the work done by pupils of the Training School in elementary agriculture. Small plots of ground are planted and cared for by the pupils under the direction of the teacher of agriculture and the teachers of the Training School. Connected with the students' garden is a model vegetable garden, a rose garden,

and a garden for experimentation and exhibition purposes. All of these divisions are used for demonstrating the proper care of plants, the methods of propagation, crop rotation, and some of the principles of plant breeding.

An excellent four-room greenhouse contains many plants of unusual interest and serves as an important adjunct to the botanical laboratories.

Additional facilities for field observation and for obtaining laboratory materials are offered by a small lake and a forest plantation of six thousand trees within five minutes' walk of the biological laboratories.

LABORATORIES.—The botanical laboratories are well equipped for the training of teachers for high schools.

The laboratory tables are so equipped that each student has a light at his desk. The plant collections include numerous specimens of all kinds of plants so that each student may have his own material for study and may become well acquainted with plants.

The mechanical equipment consists of about three thousand microscopic slides that are of the best workmanship; compound microscopes of modern construction; a good projection lantern with several hundred lantern slides of plants and their structures; numerous pieces of apparatus for the demonstration of the physiological processes occurring in plants; and microtomes for the cutting of sections of plant tissues for the preparation of microscopic slides.

The zoölogy and physiology laboratory has sufficient equipment so that forty-four students may work at the same time, each being supplied with a compound microscope, a simple microscope, and other equipment necessary for examining specimens. There are many preserved specimens of both local and foreign fauna, including marine animals. The accession numbers of these now run over 16,000. Most of these are preserved in formalin and alcohol, but there are nearly two hundred mounted birds and mammals and over three hundred skins of these types of animals. There are also many shells, corals, and thousands of mounted insects, and other dried specimens. There are ample facilities for keeping live animals. Many models and skeletons are used and also about sixty-five of the best charts obtainable. Over twenty-five hundred lantern slides are available for illustrative purposes.

The chemistry laboratory is well equipped with all apparatus needed for demonstration and for laboratory experiments. The tables are modern and give places for thirty-two students to work. An ample supply of analytic balances is provided.

The physics laboratory is equipped for experiments in all subjects of physics. It is well wired for electrical work. Wall galvanometers are provided for electrical measurements. Gas, water, and compressed air are available. A dark room is included for photometry and various studies in light. The equipment provides for both demonstration and laboratory work in all courses.

The agriculture laboratory is supplied with tables, a set of apparatus for testing milk and its products, and apparatus for soil studies.

EXPENSES

Tuition is free to college students who are to teach in the public schools of Illinois for a period equal to the time spent in this school. Others in the college pay tuition at the rate of \$25.00 a quarter (twelve weeks).

At Pemberton Hall, room, including heat and light, with table board and privileges of laundry, costs \$7.50 a week, payable monthly in advance (\$30.00 at the beginning of each month). For table board, \$5.50 a week is charged, payable monthly in advance (\$22.00 at the beginning of each month). Students are not required to furnish anything.

Fees for college students for each quarter (12 weeks) are \$11.50, distributed as follows:

Registration	\$5.00
Book rent	1.50
Recreation fee	1.00
Athletic Association	2.15
Warbler75
College News75
Band35

Total, College \$11.50

For piano or voice lessons a fee of \$5.00 a quarter is paid. Two lessons are given each week.

Lessons in violin, clarinet, cornet, or other instrument—one or two students in a period—are \$5.00 a quarter, two lessons a week (equivalent to one fifty-minute period a week).

Class work in these instruments is free.

A maximum fee of \$5.00 a quarter is charged for the rental of the instrument.

Holders of Lindley Scholarships do not pay the registration fee (\$5.00), nor the book rent (\$1.50), nor fees for music lessons. Regular quarterly fees for Lindley Scholarship students are \$5.00 in the college and \$3.00 in the high school.

Fees for high school students for each quarter (12 weeks) are \$7.00, distributed as follows:

Registration	\$3.00
Book rent	1.00
Recreation fee	1.00
Athletic Association	1.00
Warbler50
College News25
Band25

Total \$7.00

Lindley Scholarship students in the high school pay only the activities fees amounting to \$3.00. They do not pay the registration fee (\$3.00) nor the book rent (\$1.00) and are exempt from fees for special music lessons.

PENALTIES

An additional fee of \$1.00 is charged if a student fails to complete his registration on the day or days appointed for registration. An additional fee of \$1.00 is charged if a change in programme is made after the third day of the quarter.

An additional fee of \$1.00 is charged if the student's record at the textbook library is not clear at the close of each quarter.

The original transcript of a student's record, including one carbon copy, will be mailed upon request without cost to the student; but a charge of \$1.00 is made for additional copies of this transcript sent later.

PLEDGE

"In consideration of free tuition in the Eastern Illinois State Teachers College, I pledge to teach in the public schools of Illinois for a period equal to that covered by my attendance at the Eastern Illinois State Teachers College; and I agree to report annually to the president of the college the number of months taught in Illinois until this pledge is fulfilled. If I do not teach the required time in the public schools of Illinois within five years after leaving college, I promise to pay to the Eastern Illinois State Teachers College at the end of that period tuition at the rate of \$25.00 for each quarter (twelve weeks)."

BOARD AND ROOM

Board and room can be obtained in private families for from \$7.00 to \$7.50 a week. Students renting rooms and keeping house

can materially reduce this amount. Room without board can be obtained for from \$2.00 to \$3.00 a week; board alone, \$5.00 a week.

At Pemberton Hall, room, including heat and light, with table board and privileges of laundry, costs \$7.50 a week, payable monthly in advance (\$30.00 at the beginning of each month). For table board, \$5.50 a week is charged, payable monthly in advance (\$22.00 at the beginning of each month). Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. Reservation is filed at the hall when deposit is received and credited at the business office. Application blanks will be sent at the request of students.

The deposit is credited to the student as part of the first month's payment, but forfeited if the student cancels the reservation too late to have it used by someone else.

The college maintains a Housing Bureau in order to assist students in finding the best rooms obtainable. Householders who have rooms to rent to students are registered with the bureau; the rooms are inspected and when approved are put on the list of available rooms. Students may obtain this list by writing to the Housing Bureau or may come for consultation on arrival at the college.

SCHOLARSHIPS

ARMY AND NAVY SCHOLARSHIPS.—Men who served in the United States Army or Navy in the Great War and who were residents of Illinois at the time of entering the service are exempt from the payment of tuition, registration fee, book rent, and the special fee for piano, voice, or instrument lessons.

LINDLEY SCHOLARSHIPS.—“In order to equalize the advantages of the State Normal Schools,” encourage attendance and thereby increase their usefulness, the state legislature passed the Lindley Bill in 1905. This act provides that “there shall be awarded annually to each school township or fractional township a scholarship which shall entitle the holder thereof to gratuitous instruction in any State Normal School for a period of four years.”

Holders of Lindley Scholarships do not pay the registration fee (\$5.00), nor the book rent (\$1.50), nor fees for music lessons. Regular quarterly fees for Lindley Scholarship students are \$5.00 in the college and \$3.00 in the high school.

ALUMNI SCHOLARSHIPS.—The Alumni Association of the Teachers College awards, when it is possible, four fifty-dollar scholarships to graduates of four-year high schools on the basis of scholarship and general excellence. Half of the award is paid

on November 1, and the remainder on January 1. The Association took this action with a view to influencing well-qualified high school graduates to come here for teacher training. No awards were made for the years 1927-1932. The receivers of the awards are members of the freshman class of the year for which the award is made.

THE FLORENCE VANE SKEFFINGTON SCHOLARSHIP.—In memory of Florence Vane Skeffington, whose rare abilities and personality gave character to the English work of this school for seventeen years, the Florence Vane Skeffington Scholarship of one hundred dollars is awarded annually to a student whose gifts and attainments promise distinction in the teaching of English. The award for 1931-1932 went to Ruth Corley. The award for 1932-1933 will be announced at commencement, 1932.

THE TEACHERS COLLEGE HIGH SCHOOL SCHOLARSHIP PRIZE.—The 1927 graduating class of the Teachers College High School established a fund of \$125.00, the interest from which is used each year for a scholarship prize to be given to the member of the graduating class of that year who has maintained the highest standard of scholarship throughout his or her four years in the Teachers College High School.

The fourth award was made to William Byron Bails of the high school graduating class of 1931. The award for 1932 will be announced at the high school graduation exercises of the class of 1932.

LOAN FUNDS

THE STUDENTS' LOAN FUND.—The Students' Loan Fund of the Eastern Illinois State Teachers College makes it possible for a deserving student in the second half of the course to borrow, at a low rate of interest on a personal note, a sum of money that will help him to remain in college and complete the course. Students find such temporary assistance of great advantage. The foundation of this fund was secured from admission fees to the Senior Class play and to the Training School entertainment, given during commencement week.

Under the will of the late Dr. W. D. Morgan, of Charleston, there is given to the Students' Loan Fund the annual income from about six thousand dollars, which is one-seventh of the estate. An additional amount will be received at the death of certain heirs.

THE ADELIA CAROTHERS FUND.—A fund known as "The Adelia Carothers Fund" has been established by Mrs. Ida Carothers

Merriam and Mr. Charles G. Carothers in memory of their mother. This fund is to be loaned to young women students of high character and scholarship during the last half of their course. The student to whom this loan is made is distinctly honored.

SOCIAL ACTIVITIES

ENTERTAINMENT COURSE.—For several years the college has maintained during the regular year an entertainment course in order to bring to the students entertainments of genuine interest and merit. The course is supported by the students' activities fee and by the sale to others of single admission tickets. Under the auspices of this course such attractions as the following have been presented: United States Marine Band, Cleveland Symphony Orchestra, Flonzaley Quartette, Coburn Players, Stratford Players, Tony Sarg's Marionettes, Carl Sandburg.

The entertainment course for 1931-1932 included Doris Kenyon in "Lyric Silhouettes"; Dr. Edward Steiner, lecturer on international peace; Giesecking, world-famous pianist; and the Kreutzberg dancers.

"The Beggars Opera" was presented with a small admission fee.

DRAMATICS.—A Director of Dramatics supervises all dramatic work for public presentation. Under the plan adopted, the high school and the college constitute two dramatic organizations, with elected student officers. The college organization is called "The Players." The major production of the year for each is the commencement play. Other programmes are presented during the year if suitable talent is available. The high school organization is called "The Footlights Club."

The ends in view under this plan are as follows:

1. To make possible the development of dramatic talent through a period of years rather than through the period of rehearsal for one play.
2. To attempt to maintain as nearly uniform standards as possible and to build up higher aims as progress is noted.
3. To encourage familiar acquaintance with the artists of the theatre of all times.
4. To establish a fund for permanent equipment.

THE TEACHERS COLLEGE NEWS.—An eight-page weekly, "The Teachers College News," published by a board of student editors with a faculty adviser, is issued on Tuesdays. It is supported by the students' activities fee. In addition to announcements, reports of games, local news, and alumni notes, it contains editorials of

high value in influencing college spirit as well as student spirit. Some class work of merit appears occasionally in this paper. It deserves the support of students, teachers, and alumni.

The class of 1924 left, as a class memorial, equipment for a room devoted to the uses of "The News" and the "Warbler."

RECREATION.—A student recreation committee has charge of student recreations which are not solely class affairs. This committee consists of the presidents of the Student Council, the Women's League, and the Men's Union, with a faculty member appointed by the president of the college on the recommendation of these presidents. Other members of the committee may be chosen by this committee as they may see fit.

Class affairs are under the supervision of the faculty advisers of each class. The students are permitted to have parties Saturday or Monday evenings in the gymnasium. In the spring and fall, there are picnics in the neighboring woods. These activities are chaperoned by members of the faculty.

DOMAFIAN ART CLUB.—The Domafian Art Club is a students' organization for those whose major subject is home economics, manual arts, or fine arts, and for those in other curricula who are interested in the work of the club. The purpose is to learn more about each special field than can be learned in the classroom. Exhibitions, lectures, and visits to studios, museums, and art galleries are a part of the work of the club.

MATHEMATICS CLUB.—The Mathematics Club was organized in the fall quarter of 1927-1928 to further interest in that field of knowledge and to make it possible for students to discuss some of the phases of mathematics which are not included in regular classes. Any one who is interested and has had one year of algebra and one of geometry is eligible to membership. During the first year the club held eight meetings, one of which was an old-time ciphering contest. The club has a membership of about fifty students and teachers.

E. I. VARSITY CLUB.—The E. I. Varsity Club was organized in the fall quarter, 1927, by the letter men of the college for the purpose of promoting in all possible ways the betterment of athletics at E. I. Meetings are called by the president. Any student in the college who has earned an E. I. monogram is eligible to belong to the club as an active member and any student who has earned the E. I. monogram, but is not in college, is eligible to join the club as an associate member. All members must first be initiated into the club before becoming regular members. The initiation for new members is held during the spring quarter of each school year.

THE FORUM.—The Forum is a discussion group of students and faculty members who are especially interested in current economic, political, and social problems. Meetings are held bi-weekly throughout the college year; active membership is limited to those who have prepared and presented a paper of merit on some related topic.

PHI SIGMA EPSILON.—The Beta Chapter of Delta Lambda Sigma, organized in the winter quarter of 1927-1928, has been incorporated in Phi Sigma Epsilon, a national fraternity for Teachers Colleges.

The purpose of the organization is to maintain a high standard of scholarship, to promote school spirit, and to cooperate actively with the college in every possible way.

The fraternity has a house in which the members may live and enjoy with one another a true feeling of fellowship.

KAPPA DELTA PI.—Beta Psi Chapter of Kappa Delta Pi, an international honor society in education, was installed on January 2, 1931. Kappa Delta Pi, founded at the University of Illinois in 1911 under the leadership of William Chandler Bagley, has chapters in seventy-one colleges and universities. Students are elected to membership primarily upon the basis of high scholarship, good character, and promise of success in teaching. Election to membership in this organization is one of the highest honors that can be bestowed upon a student.

LE CERCLE FRANCAIS.—Le Cercle Francais was organized November 6, 1930. Membership is open to students who have had two or more years of high school French or two quarters of college French.

The purpose of the club is to promote the interests of French in the school, to improve the conversational ability of the students, and to add to their information concerning French customs, life, and literature.

Meetings are held on alternate Thursday evenings. The programmes include papers prepared by the students, short plays given in French, and French games and songs.

SCIENCE CLUB.—The Science Club was organized in the fall quarter, 1930, by students in the botany, zoölogy, physics, chemistry, and geography departments in order that all may know something of the work in other scientific fields. Papers are presented and time is allowed for questions and for discussion. The membership is not limited to these departments. Anyone interested in science may belong. Meetings are held bi-monthly throughout the year.

WRITERS' CLUB.—The Writers' Club, now including Sigma Tau Delta, was organized in 1930-1931 for students interested in writing. Members are admitted on the basis of manuscripts submitted in "try-outs" announced from time to time. This club was installed on February 15, 1932, as Omicron Gamma Chapter of Sigma Tau Delta, the national professional writers' society. Only honor students in English may become active members of this chapter, which is limited by national constitution to twelve members; but associate and local members are chosen from any candidates who show marked ability in written expression.

SIGMA DELTA.—This is a local journalistic club. Meetings are held bi-weekly. The organization is interested in the stimulation of student opinion through the columns of *The Teachers College News*. Membership is elective and is limited to those on the *News* staff who have displayed an active and constructive interest in student problems.

THE MEN'S UNION.—All men students of the college, upon registration, automatically become members of the Union. Membership entitles the holder to attendance at and voting in all business meetings, privileges at the house, and attendance at any social function sponsored by the Union. After graduation a member is entitled to an alumni membership which gives him club house privileges, attendance at all social functions, and any other privileges granted by the Union.

The purposes of the Union are to create a feeling of unity among the men of the college, and to promote all activities which concern them.

The officers of the Union are the president, elected by the entire organization in a general election, and the executive board consisting of eight men of the college. The four class presidents are members of the board and the men of each class elect one member of their class to represent them on the board.

The Lair is maintained by the Men's Union and is open to all men of the college. The rules governing this club house are made by the executive board of the Men's Union and a resident house manager sees that they are observed.

THE WOMEN'S LEAGUE.—Every woman upon matriculation in the college becomes automatically a member of the Women's League. Membership in the League entitles the holder to attendance at and voting in all business meetings and attendance at any social functions sponsored by the League.

The object of the League is to promote solidarity among the women of the college by uniting them for social purposes and for constructive effort.

The governing power of the League is vested in an executive council of nine members known as the "Council of Nine." The president is elected from the League at large and may be from any class. Each class elects two of its members to represent them in the Council.

STUDENT PUBLICATIONS.—Student publications are in charge of a committee consisting of the president of the Student Council, the advisers and editors of the "Warbler" and of the "College News" with a faculty member appointed by the president of the college as chairman.

ATHLETICS.—All athletic activities are conducted by the Athletic Council. This council is composed of two members of the faculty, appointed by the president; two students, elected by the students; and the athletic coach. An athletic fee is charged each college student and each high school student as part of the students' activities fee. This fee is payable at the beginning of each quarter. It entitles the student to free admission to all athletic contests in which Teachers College or High School teams take part on the home grounds, and also a vote for the student representative on the Athletic Council. The Teachers College and the High School have separate teams and play independent schedules. The Eastern Illinois State Teachers College is a member of the Illinois Intercollegiate Athletic Conference, and the High School is a member of the Illinois High School Athletic Association.

ATTENDANCE AT CHURCH.—Each student is expected to attend regularly the church of his choice, or that which meets the approval of his parents. The pastors and members of the different churches have made the students at home in the churches and Sunday schools. The Teachers College encourages the students to form and sustain intimate relations with the churches.

THE STUDENT COUNCIL.—The Student Council was organized in the spring quarter of the year 1919-1920 as a means of communication between the faculty and students and a way by which the students may aid in school discipline and in the general control of college affairs.

The Council consists of eleven members: four from the senior class, three from the junior class, two from the sophomore class, and two from the freshman class. The term of office is one year. Elections take place in the respective classes at the second class meeting of the regular school year. The constitution provides for a president, vice president, secretary, treasurer, and historian.

A student board of control, established in the spring quarter of the year 1925-1926, was merged with the Student Council in the fall quarter, 1928-1929.

ALUMNI CLUB

The Charleston Club of Chicago is an organization of former students. This club meets occasionally in a very pleasant way, and all former students or teachers, living in or near Chicago, will be notified of these meetings if they send their names to the president, Mr. Oliver C. Hostetler, '09, 1726 Ridge Ave., Evanston, Illinois.

THE ALUMNI ASSOCIATION

The Saturday preceding commencement is Alumni Day with morning exercises at ten o'clock.

The officers for 1931 to 1932 are: Mr. Roscoe Farrar, '03, President and Chairman of the Executive Committee; Miss Ruth Hostetler, '08, Vice-President; Mrs. Opal Bensley Stanberry, '16, Secretary and Treasurer.

Executive Committee

Mr. Wayne E. Isley (term expires in 1932).
Mr. Bruce Corzine (term expires in 1932).
Mr. Herbert Wayne Cooper (term expires in 1933).
Miss Ruby M. Harris (term expires in 1933).
Mr. Ernest N. Freeman (term expires in 1934).
Mr. Ferdinand Homann (term expires in 1934).

Social Committee

Miss Mary Linder (term expires in 1932).
Mrs. Roscoe Farrar (term expires in 1932).
Miss Leah Todd (term expires in 1933).
Mr. Marsdon Grubb (term expires in 1933).
Mr. Walden Dunn (term expires in 1934).
Miss Blanche Huddleston (term expires 1934).

TEACHERS' APPOINTMENT COMMITTEE

To assist school officers in securing capable teachers and to help graduates in securing desirable positions the Eastern Illinois State Teachers College has an appointment committee. Its services are free both to teachers and to school officers. It is very desirable that graduates of the college keep the committee informed of their location and position, so that the committee may make intelligent recommendations to superintendents desiring experienced teachers.

THE CERTIFICATING LAW

I. The completion of the freshman year in any curriculum admits the student to examination for a limited elementary certificate.

II. The completion of the two-year grade curriculum gives a limited elementary certificate.

III. The completion of the first two years in any curriculum gives a limited elementary certificate provided the student's credits include two quarters of work each in practice teaching, history (or social science), and mathematics (or natural science).

IV. Graduation with the degree gives a high school certificate.

If the student has taught successfully for four years, he may have also a supervisory certificate.

V. Certification and graduation both require that not more than one-fourth of the student's grades shall be D.

PART II

INSTRUCTION

ORGANIZATION

The Eastern Illinois State Teachers College includes:

The Teachers College—

The Senior College.

The Junior College.

The Training School—

The High School, Grades IX, X, XI, XII.

The Elementary School, Grades I-VIII.

DIVISION OF THE YEAR

The regular college year consists of three quarters of twelve weeks each. Monday is taken as the weekly holiday. This plan gives teachers who have no school on Saturday opportunity to visit the Teachers College and promotes closer relations between the college and the teachers of the districts.

A summer quarter of twelve weeks gives teachers and students an opportunity to study during the summer vacation. The summer quarter of 1933 begins on Saturday, June 10, and closes on Friday, September 1. It consists of two sessions of six weeks each, the first closing Friday, July 21. Students may attend either or both sessions.

The subjects offered are designed to meet the needs of:

1. Teachers of experience who wish to advance their professional or academic knowledge.
2. Supervisors and department teachers.
3. Those who are preparing to teach in schools that follow the Illinois Course of Study.
4. Those who wish to take regular work with a view to graduation from the Junior College with a diploma or from the College with a degree.

ADMISSION REQUIREMENTS

1. *To the Senior College:* Graduation from the two-year curriculum of a recognized Teachers College or of the Junior College of a recognized college or university.

2. *To the Junior College:* Graduation from a recognized four-year high school.

3. *To the High School:* Graduation from the eighth grade admits a student to the ninth year which is the first year of the high school. High school students enter the year which the units they have already earned give them the right to enter.

4. *High school records must be sent to the Registrar. A student with high school or other record should have a complete copy of the record sent by the principal of the school to the Registrar of the Teachers College. This should be done at least two weeks before the date of entering. No student will be classified until his record is received. A registration permit is filed at the office when the record has been checked and filed.*

Township scholarships are presented at the cashier's office on registration day.

GRADUATION

The degree of Bachelor of Education (B. Ed.) is conferred upon those who complete a four-year curriculum; a diploma is granted to those who complete the two-year curriculum for preparation of teachers for the grades. Four-year curricula prepare teachers for high school, for special grade work, and for positions as principals, supervisors, and teachers of special subjects. *A year's resident work is required for a diploma or degree.*

Ninety-six quarter hours are required for a diploma and one hundred ninety-two for a degree. Credit earned in physical education, library use, dramatics, glee club, quartette, orchestra, or band is in excess of the total required for graduation.

For the degree, one-third of the student's credit toward graduation must be in courses not open to freshmen and sophomores. This requirement is in accordance with the standard of the American Association of Teachers Colleges.

The University of Illinois admits to full graduate standing all graduates of the Teachers College who present twenty semester hours of content courses in one major academic subject in addition to education and not less than one year of college work in Greek, Latin, French, or German.

Students planning to do graduate work at the University of Illinois should see that their records satisfy the foreign language requirement.

Students planning to teach in high schools should see that their records satisfy the requirements of the Illinois Examining Board and of the North Central Association.

The records of those who expect to complete a curriculum in a current year are checked at the beginning of each quarter and on April 1. A statement of the courses necessary for the completion of his work is given to each of these students in the fall quarter and is used by him in making his programmes for succeeding quarters. The list of candidates for graduation is based on the checking of April 1. A student who is not more than

sixteen quarter hours behind the class at that time may participate in commencement exercises with the class and receive his diploma or degree at the close of the summer quarter if he completes the work by that time. It is possible to earn sixteen quarter hours in the summer quarter.

SCHOLARSHIP

I. Grades are expressed in letters as follows:

A, Excellent	3 grade points
B, Good	2 grade points
C, Fair	1 grade point
D, Poor, but passing*...	0 grade points
E, Condition	0 grade points
(incomplete work)	
F, Failure	—1 grade point

*Passing, but not accepted toward graduation or toward admission to practice teaching if more than one-fourth of the student's courses receive a grade of D.

II. For graduation and for admission to practice teaching not more than one-fourth of a student's credits may have a grade of D; that is, three-fourths of his grades must be C or above. This means that he must have a minimum of nine grade points in his freshman year in order to be admitted to practice teaching in the sophomore year; a minimum of eighteen grade points for graduation from the Junior College; and a minimum of thirty-six grade points for the degree.

III. Graduation with high honors requires that a student receive a grade of A in three-fourths of his work and B average in the rest.

Graduation with honors requires a grade of A in one-half of the student's work; B or higher in one-fourth of his work; and C average in the rest.

Graduation honors are noted on the diploma, announced at commencement, and published in the next issue of the annual catalogue.

IV. Scholarship honors on the same basis as graduation honors are announced for each quarter in the month after the beginning of the next regular quarter; in December for the fall quarter; in March for the winter quarter; in October for the spring quarter and for the preceding year.

The announcement is posted on the bulletin board and printed in the "Teachers College News."

V. The grade F (failure) is recorded against a student who drops, after the first month, a course in which he is failing; but

this does not apply to a student who is taking work to the amount of twenty quarter hours.

VI. A student whose class work is very poor or who is frequently absent may be excluded from the privilege of taking the final examination. A grade of F (failure) is recorded against him.

VII. A student failing in three courses, twelve quarter hours, in any quarter or in one-half of his work, eight quarter hours, in each of two consecutive quarters, is dropped from the college.

VIII. No freshman in a four-year curriculum may register for extra work in his first quarter.

No sophomore may register for extra work in the first quarter in which he is taking practice teaching.

No student whose average is below B in the preceding quarter may register for extra work.

EXTENSION WORK

The Teachers College is glad to offer such extension work as its facilities permit. It is especially urged that such aid be sought as the college may be able to give in improving present teaching in the elementary schools. A skillful teacher in visiting schools and in talking with teachers is able to be of great assistance to those of less experience. This suggestion contemplates giving help in those subjects that make up the greater part of the elementary school curriculum, namely: reading, language and grammar, arithmetic, geography, history, drawing, and music.

No extension work is offered for credit toward graduation.

CURRICULA

For graduates of recognized four-year high schools, the following curricula are offered:

I. A Two-Year Curriculum, 96 quarter hours, leading to a diploma and planned for preparation of teachers for the grades. The diploma entitles the holder to a limited elementary school certificate without examination. The completion of the first year's work admits the student to an examination for a limited elementary certificate.

II. Four-Year Curricula, 192 quarter hours each, for preparation of the following:

1. Elementary Grade Teachers.
2. High School Teachers and Teachers of Special Subjects:
 - A. Art and Design
 - B. English
 - C. Foreign Language
 - D. Geography
 - E. History and Social Science
 - F. Home Economics (Smith-Hughes)
 - G. Industrial and Manual Arts.
 - H. Mathematics
 - I. Music (Public School)
 - J. Science (Biological: Botany or Zoölogy or both)
 - K. Science (Physical: Physics or Chemistry or both)

CREDIT

The unit of measure, beginning with the year 1929-30, is the quarter hour, representing one hour a week of prepared work for twelve weeks when the student load of prepared work is sixteen hours a week. It is equivalent to two-thirds of a semester hour.

A year's work is equivalent to 48 quarter hours (32 semester hours) of prepared work. A year's work in one subject is equivalent to 12 quarter hours (eight semester hours).

Instrumental music or voice work may be used for elective credit to the extent of 12 quarter hours (four years of work) in not more than two forms of applied music with a minimum of 6 quarter hours in any one form. No student may count toward graduation more than 12 quarter hours of instrumental or voice work.

Credit is allowed for physical education, coaching theory (33, 34, 35, 36, 37, 38), and for Library 20 at the rate of one quarter hour for each quarter's work.

Credit is allowed for dramatics, glee club, quartette, orchestra, and band at the rate of one quarter hour to those reported to the office for such credit at the close of each quarter by the directors of these organizations who decide the conditions under which credit is allowed or withheld in each case.

Credit earned in physical education, library use, dramatics, glee club, quartette, orchestra, or band is in excess of the 96 quarter hours required for a diploma and of the 192 quarter hours required for a degree. The credit is recorded on the student's permanent record card and may play an important part when he is an applicant for a position.

A statement of the amount of credit is included in the description of each course.

NUMBERING OF COURSES

Courses numbered 1-19 are for credit below the Junior College; courses numbered 20-29 are (with a few exceptions) required in a curriculum in the Junior College; courses numbered 30-39 are elective courses for those in the Junior College; courses numbered 40 or above are Senior College courses. Courses numbered 1-19 do not count in the College.

MAJOR AND MINOR SUBJECTS

In four-year curricula for graduates of four-year high schools, a student in a special curriculum takes 48 quarter hours of work in a major subject and 24 quarter hours in a minor subject, in some cases specified by the department of the major subject and in other cases left to the student's choice, but the courses in the minor subject must constitute two years' work in some one department and the courses chosen must be satisfactory to that department and to the department of the major subject. Students will consult the department of the major subject as to choice of minor subjects and of electives.

Students taking mathematics as the minor subject take Algebra 31, 32, 36, Trigonometry 33, Analytics 34, 35.

In music only public school music may be used as the minor subject, the courses required being Music 30, 31, 32, 33, 34, 35.

In English, English 30, 31, 34, 35, 36 (or 43), 37 (or 39) may be used as the minor subject. English 46, 47, 48 may be used by Juniors or Seniors for credit toward the English for minor subject.

ELECTIVES

There are three groups of electives; one for those in the Senior College, numbered 43 or above; one for those in the Junior College, numbered 30-39; the third for those below the Junior College, numbered 1-19, and not counting in the college. Students

should consult the department of the major subject as to choice of electives and of minor subjects.

Two years' work in piano, violin, or voice may be used for elective credit (12 quarter hours), but not more than 12 quarter hours in these courses may be offered by a student for credit toward graduation.

Music 30, 31, 32 or Music 33, 34, 35 may be used for elective credit.

DESCRIPTION OF CURRICULA

I. TWO-YEAR CURRICULUM

96 quarter hours

FOR PREPARATION OF TEACHERS FOR THE GRADES

FRESHMAN YEAR

Education 20, 21, 22	Geography 20
English 20, 21, 27 or 24 or 22	Reading 24
Arithmetic 20, 21	Drawing 24
Botany 20 or Zoölogy 23	Penmanship 20
	Library 20
	Physical Education

SOPHOMORE YEAR

Education 23, 24	Geography 21 and English 26
Teaching 20, 21, 22	or English 34 and
History (two consecutive courses)	Education 25
Music 24 or 23	Hygiene 20
Manual Arts 24 or 25 (or Art 36 or 37)	Physical Education

Notes: 1. The completion of the work of the freshman year admits to examination for a limited elementary certificate.

The completion of the sophomore year in this curriculum entitles the student to the diploma of the Junior College and to a limited elementary certificate.

2. Each subject has four fifty-minute periods a week unless otherwise indicated by a number in parenthesis; but Botany 20 and Zoology 23 have six fifty-minute periods; Art and Manual Arts require eight periods a week for full credit.

II. 1. FOR PREPARATION OF TEACHERS FOR ELEMENTARY GRADES

JUNIOR COLLEGE

Freshman Year

Follow Section I, II, III, IV, or V of the freshman year in the two-year curriculum for preparation of teachers for the grades.

Sophomore Year

Follow Section I (lower grades) or II or III (upper grades) of the sophomore year in the two-year curriculum for preparation of teachers for the grades.

SENIOR COLLEGE

Junior and Senior Years

Major subject	36 quarter hours
Minor subject	24 or 16*
Laboratory Science	12 or 8*
English 43, 44, 45.....	12
Education 44, 49, 47.....	12
Practice Teaching 41G-48G.....	8
Elective	0 or 4*

 104 or 96*

* If the science is botany or zoology, Botany 21 and 22 or Zoology 21 and 22 complete the requirement, but Zoology 20, 21 must be taken if the student had Zoology 23 in the Junior College.

If history is the minor subject, eight quarter hours of sophomore history count toward this requirement.

SENIOR COLLEGE

A special bulletin of a prospective curriculum for Senior College will be sent on request.

II, 2, J. SCIENCE (BIOLOGICAL)

Note: The botany and zoology curricula are so arranged that the student may not only have four years of work in botany or zoology (including one year of methods and practice teaching), but that he may also have three minor subjects (of six quarters each) which qualify him to teach four different subjects in accredited high schools. The student is also equipped to do graduate work. If one year of elective credit is used for college foreign language (Latin, Greek, French or German) he may enter the graduate school, University of Illinois, without condition.

TRAINING SCHOOL

ORGANIZATION AND ADMISSION.—The Training School consists of the Elementary School of eight grades, and the High School of four grades. Below the ninth grade the number of pupils who can be admitted is limited. Pupils desiring admission are registered, then admitted in order of registration when vacancies occur.

Pupils once admitted to the school for the regular school year retain their places until completing the course unless they are unreasonably irregular in attendance or fail to appear on the opening day of the school year without notice to the director of their intention to appear later.

In grades below the ninth, a fee of seventy-five cents is charged on the opening day of each of the three terms of the year.

THE HIGH SCHOOL.—The Teachers College High School is recognized by the State Department of Education and is accredited by the University of Illinois and by the North Central Association of Colleges and Secondary Schools. Those who have completed the eighth grade may enter the ninth grade which is the first year of a four-year high school. Full credit is allowed to students entering from other accredited high schools. Sixteen units are required for graduation. Graduates of The Teachers College High School are admitted to the freshman class of the College.

Electives

The high school curriculum includes ten required and six elective units. One unit of physical science is required. Those who wish to have both physics and chemistry take one in the eleventh year and the other in the twelfth year.

Electives are in two groups. All electives may be chosen from Group I; not more than four units may be chosen from Group II.

GROUP I

Language

 American History (1)

GROUP II

(Not more than four units may be
 chosen from this group)
Agriculture (2)
Art (1)
Home Economics (2)
Manual Arts (2)
High School Music (1)

TRAINING TEACHERS.—In the first nine grades the immediate direction of the work of each grade and the responsibility for its progress is with the training teacher of the grade. The training teachers, with the director, plan the work of their grades, discuss with the student teacher their plans for teaching the different subjects, do enough of the teaching to keep the progress of the pupils at least up to the standard of city schools of the same type, and teach special lessons for the observation of Teachers College classes in method of teaching the special subjects. The character of the work of the training teacher determines almost entirely the success of the Training School in accomplishing its purpose.

A training teacher for history has charge of that work in grades five to eight inclusive. Training teachers for geography, drawing, music, penmanship, and physical education have charge of these subjects in grades one to eight. The teachers in other departments of the Teachers College have in all cases an advisory relation to the Training School and in some cases a supervisory relation. Senior College students have two quarters of practice teaching in the College High School which is a training school for teaching in high school.

PURPOSE.—The purpose of the Teachers College in maintaining a Training School is twofold. It needs a pedagogical laboratory in which students and members of the faculty may test the methods of instruction and the pedagogical theories taught in the Teachers College. And to develop in the students craftsmanship in teaching they must have opportunity to observe expert work and to develop skill by actual experience in teaching.

The results, however, cannot be secured unless the Training School itself is aiming at the best possible education for the boys and girls who are pupils in the school. If the Training School is not securing for its pupils results up to the standard of good schools of the usual type, it is not best adapted to its purpose as an experiment school, and if it is not at least equal to other elementary schools it is certainly not adapted to secure the best results as a school of observation and practice.

PRACTICE TEACHING.—All students graduating from the Teachers College in the two-year curriculum are required to take throughout their second year a course in practice teaching. The first quarter the student is assigned to teach in the lower four grades or in the upper four grades as he chooses; the second quarter, in the group of grades not chosen for the first quarter; and the third quarter, in the grade, if possible, in which he thinks his future teaching is to be done.

Student teachers are assigned to training teachers by the director and are assigned by the training teacher to particular teaching duties for one fifty-minute period each day. In the beginning of the first quarter the student makes plans for teaching the lessons in his assigned subject after discussing the subject matter and the procedure with the training teacher, but for one or two weeks the teaching is done by the training teacher, the student observing. Gradually the teaching is turned over to the student, the training teacher observing and discussing the lessons and lesson plans before and after the student teaches the lesson. Each training teacher holds one general meeting each week with her group of students, besides special conferences with individuals. She also does as much of the teaching as seems necessary to keep the class up to standard and to furnish the student opportunity to observe expert teaching.

Students taking a four-year curriculum, with the exception of those in art, public school music, home economics, or manual arts, take one quarter of practice teaching in the Elementary Training School in their second year. Two quarters of teaching, one in the major subject and one in the major or minor subject, are required of them in the senior year and are taken in the Teachers College High School.

OBSERVATION AND PARTICIPATION.—In the first year all students are required to take work in observation in the Training School. The work is designed to prepare them to meet the problems of teaching which they must meet in their course in practice teaching, to enable them to see the application of their course in psychology, and to assist them in selecting the group of grades in which they wish to teach. Opportunity is given to observe both the room management and the teaching of the training teacher. Some opportunity is offered to assist in the management and in the planning of lessons.

JUNIOR COLLEGE								
NOTES—Roman numerals preceding a subject indicate the section of the class; Arabic numerals following a dash indicate the days of the week beginning with Monday. Morning exercises at nine o'clock; but class meetings on alternate Wednesdays, beginning with the second Wednesday of each quarter. Chorus practice, Wednesday at 9:30. R, means room; T, Training School; P, Practical Arts Building; G, Gymnasium. There are three quarters of twelve weeks each. College courses have four periods a week. Laboratory sciences have six or seven periods; art, manual arts, and home economics require eight periods a week for full credit. College courses have free periods as follows unless otherwise indicated: Tuesdays for 11:20 courses. Wednesdays for 9:30 courses. Thursdays for 10:25 courses. Fridays for 7:25 and 8:10 courses. Saturdays for afternoon courses. DESCRIPTION OF COURSES

AGRICULTURE

High School

1. FARM CROPS. A study of our principal farm crops, culture requirements and methods, harvesting, seed selection, storage, and the identification of weeds, insects, and seed.

Elective. Five hours a week. One-third of a unit. Fall quarter, even years.

2. SOILS. The classification, distribution, and productivity of the principal soil types; principles of soil management, crop rotations, fertilizers, and the maintenance of soil fertility.

Elective. Five hours a week. One-third of a unit. Winter quarter, even years.

3. HORTICULTURE. The planting, care, and management of the orchard and garden; insects and diseases of fruit, trees, and vegetables; methods of control of these diseases.

Elective. Five hours a week. One-third of a unit. Spring quarter, even years.

4. LIVESTOCK. An introductory study of types and breeds of farm animals, principles of judging, and elementary problems of livestock management.

Elective. Five hours a week. One-third of a unit. Fall quarter, odd years.

5. FEEDS AND FEEDING. An elementary study of the principles involved in animal feeding, requirements of farm animals, balanced rations, composition and value of feeds, and feeding for the economic production of livestock products.

Elective. Five hours a week. One-third of a unit. Winter quarter, odd years.

6. GENETICS. An elementary study of genetics in its relation to the improvement of plants and animals.

Elective. Five hours a week. One-third of a unit. Spring quarter, odd years.

ART AND DESIGN

High School

1, 2, 3. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color. Study of

principles of design, problems involving principles of rhythm, balance, and harmony. Application of design to pottery and other materials.

Prerequisite: Art 1 to Art 2; Art 2 to Art 3. Elective. Five hours a week with an equal amount of outside work. One unit. Art 1, fall quarter; Art 2, winter quarter; Art 3, spring quarter.

College

20. PRACTICE TEACHING IN DRAWING.

Required in the sophomore year in the four-year curriculum in art. Five hours a week. Four quarter hours. Fall, winter, or spring quarters.

24. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color.

Eight hours a week. Four quarter hours. Every quarter.

25. ELEMENTARY WATER COLOR. Painting in water color from still life.

Eight hours a week. Four quarter hours. Spring quarter.

26. APPLIED ART. Crafts; weaving, gesso, enamel, and leather work.

Eight hours a week. Four quarter hours. Fall quarter.

27. HISTORY OF ORNAMENT AND OF ARCHITECTURE.

Four hours a week. Four quarter hours. Winter quarter, odd years.

28. HISTORY OF PAINTING. A study of the history of the different periods, the great artists and sculptors, and their work.

Four hours a week. Four quarter hours. Winter quarter, even years.

29. ADVANCED PERSPECTIVE.

Eight hours a week. Four quarter hours. Winter quarter.

30. REPRESENTATION. Section I for Art students. The study of the essentials of perspective and their application to still life groups in charcoal, crayon, water color, and ink.

PERSPECTIVE. Section II for Home Economics students. The study of the essentials of perspective and their application to simple objects. The Roman alphabet and the principles of color.

Eight hours a week. Four quarter hours. Fall quarter.

31. POSTER WORK. Section I for Art students. The study of lettering for commercial and educational uses and for application to book making, bulletins, and posters. The principles of design and color. "Art in Every Day Life" by Goldstein is the text used.

DESIGN I. Section II for Home Economics students. The study of the principles of design and their application to Home Economics. The same text is used as for Section I.

Eight hours a week. Four quarter hours. Winter quarter.

32. DESIGN I. Section I for Art students. Decorative applications of the principles of design.

DESIGN II. Section II for Home Economics students. The application of the principles of design and color to various materials.

Eight hours a week. Four quarter hours. Spring quarter.

33. DESIGN II. Plants, animals, and birds in decoration and the application of these forms to the making of patterns. Color theory, leather tooling, wood block printing, and batik work.

Eight hours a week. Four quarter hours. Fall quarter.

34. JEWELRY. Design as applied to metal work and to jewelry.

Eight hours a week. Four quarter hours. Spring quarter.

35. POTTERY. The application of the principles of design to pottery.

Eight hours a week. Four quarter hours. Winter quarter.

36. INDUSTRIAL ARTS FOR THE LOWER GRADES. Paper work, weaving, woodwork, simple basketry, knotting, clay, and other mediums used in the lower grades.

Required in the freshman year of the art curriculum and equivalent to Manual Arts 24. Eight hours a week. Four quarter hours. Fall and spring quarters.

37. INDUSTRIAL ARTS FOR THE UPPER GRADES. More advanced work in woodworking, basketry, clay, and other mediums.

Required in the freshman year of the art curriculum and equivalent to Manual Arts 25. Eight hours a week. Four quarter hours. Winter quarter.

40. THE TEACHING OF DRAWING. A course in method in drawing with special reference to drawing in high school.

Required in the senior year of those whose major subject is art. Four hours a week. Four quarter hours. Fall quarter.

41. PRACTICE TEACHING IN DRAWING.

Five hours a week. Four quarter hours. Winter quarter.

42. PRACTICE TEACHING IN DRAWING, continued.

Five hours a week. Four quarter hours. Spring quarter.

43. STILL LIFE I. Studies in charcoal, water color, and oil.

Eight hours a week. Four quarter hours. Fall quarter, even years.

44. INTERIOR DECORATION. A thorough and practical course in the fundamentals of interior decoration. Emphasis is placed

on good color harmony, and the application of the principles of design. The course includes the study of periods and styles of furniture and of materials used in interiors.

Eight hours a week. Four quarter hours. Winter quarter, even years.

45. DESIGN III. The application of the principles of design and color to house plans, wall elevations, and rooms in perspective.

Eight hours a week. Four quarter hours. Spring quarter, even years.

46, 47. LIFE SKETCH. Drawing from a model. Study of general anatomical facts.

Eight hours each a week. Eight quarter hours. Fall and winter quarters, odd years.

48. ILLUSTRATION. Study of applied composition in connection with work from life.

Eight hours a week. Four quarter hours. Spring quarter, odd years.

49. COMMERCIAL DESIGN. Decorative composition and lettering. Application to high school annual and to other school publications.

Eight hours a week. Four quarter hours. Fall quarter.

50. STILL LIFE II. More advanced work in still life, using oil paints and water colors.

Eight hours a week. Four quarter hours. Winter quarter.

51. ART APPRECIATION. The history of ornament, architecture, sculpture, and painting.

Elective (except in the art curriculum) for juniors and seniors; a recommended elective for juniors in the English curriculum. Four hours a week with preparation. Four quarter hours. Winter quarter.

EDUCATION AND TEACHING

I. EDUCATION

College

Note: Beginning with the fall quarter, 1928-29, a change was made in the content of the three courses in education required of freshmen and called "Psychology 20, 21, 22." The new courses are now listed as Education 20, 21, 22.

Those who have had the old "Psychology 20" should complete the year's work by taking the new Education 20 and 22. Those who have had the old "Psychology 20, 21" complete the year's work by taking Education 22.

Students who have not had the old "Psychology 20, 21, 22" take the new courses in education listed here as "Education 20, 21, 22."

20. AN INTRODUCTION TO EDUCATION. This course is intended to provide the student with a general view of the more important phases of a teacher's work. The meaning and the interrelation of the following matters form the subject matter of the course: the organization of public education; the teacher's relation to other school officials; school property; the materials of education; methods of using school material; the learning process; qualifications of teachers; the purpose of public education. The succeeding courses in education deal in greater detail with the several topics introduced in this beginning course.

Four hours a week. Four quarter hours. Fall, winter, and summer quarters.

21. AN INTRODUCTION TO EDUCATIONAL PSYCHOLOGY. This course uses the discussion on the learning process of the preceding course as its point of departure and introduces the student to the forms of student behavior by which man adapts himself to the world. The material of the course includes: the physical basis of behavior; the instinctive equipment of man; the emotions; the laws of learning and their economical application; the organization of experiences into percepts and ideas; transfer of training; individual differences; intelligence; the interrelation of various forms of behavior.

Four hours a week. Four quarter hours. Every quarter.

22. THE PSYCHOLOGY OF ELEMENTARY SCHOOL SUBJECTS. This course makes an analysis of the material used in elementary education with a view to understanding the learning problems involved. The special psychology of the following subjects is considered: reading, arithmetic, handwriting, spelling, history, geography, nature study, music, drawing. Some attention will be given to the diagnosis of special difficulties in these subjects and the appropriate remedial measures.

Four hours a week. Four quarter hours. Spring and summer quarters.

23. PRINCIPLES OF EDUCATION. Through discussion of the nature and aims of education, foundations are laid for notions of educational values, selection of the curriculum, methods of teaching, and the school management course which follows.

Four hours a week. Four quarter hours. Every quarter.

24. SCHOOL MANAGEMENT. This course accompanies the course in practice teaching and interprets the management of the Training School. Classroom social relations, routine, the daily

programme, discipline and the technique of teaching are discussed.

Four hours a week. Four quarter hours. Every quarter.

25. PRIMARY EDUCATION. The course deals with reading, number, dramatization, story telling, games and other activities belonging to a primary school.

Four hours a week. Four quarter hours. Spring quarter.

40. METHODS IN THE MAJOR SUBJECT.

Prerequisite: Three years of work in the major subject. Required in four-year curricula. Four hours a week. Four quarter hours. Fall quarter.

41, 42. HIGH SCHOOL PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT. See Teaching 41, 42.

44. EDUCATIONAL MEASUREMENTS. The aim of this course is to introduce the student to the application of the statistical method to the solution of educational problems; to acquaint him with standardized and proposed tests for measurements of general mental ability and with scales for the measurement of progress of the child in school subjects and for the determination of efficiency of teaching. Opportunity is given for the development through practice of some skill in the application of tests and the employment of scales.

Required in the art, manual arts, home economics, and grade curricula and elective in other curricula. Four hours a week. Four quarter hours. Fall and summer quarters.

45. THE PSYCHOLOGY OF SECONDARY EDUCATION. The purpose of this course is to trace the psychological principles which are basic to the teaching of high school subjects. General types of learning are discussed, such as: motor learning, association learning, problem-solving, habit-formation. High school subjects are analyzed and the relations of the general types of learning to particular subjects are pointed out. The general organization of the high school as it is determined by the nature of the adolescent student is touched upon.

Required. Four hours a week. Four quarter hours. Winter and summer quarters.

46. EDUCATIONAL PSYCHOLOGY WITH SPECIAL REFERENCE TO CHILD PSYCHOLOGY. *Omitted 1932-1933.*

47. SOCIAL PSYCHOLOGY. The chief factors which condition and make possible the life of man in groups; the effect of various types of human association on the mental processes of the individual; the products of the interaction between minds, as in language, art, morals, and social institutions; the differences of important social groups, such as the mob, the gang, clubs, classes,

sects, nations, are studied with reference to their bearing upon education.

Required or elective in the junior year. Four hours a week. Four quarter hours. Spring quarter.

48. SCHOOL ORGANIZATION AND ADMINISTRATION. This is an introductory course for students who desire a knowledge of problems in educational organization, administration, and supervision in the nation, the state, and local units. The first half of the course gives an understanding of the problems of administration to enable all members of an organization to coöperate with those in final administrative authority in the formulation of policies. The second half of the course presents the problems of the elementary and high school principal in organizing and administering schools. School law and finance as well as current educational problems receive attention in this course.

Elective in the junior and senior years. Four hours a week. Four quarter hours. Summer quarter.

49. ELEMENTARY EDUCATION. This course is intended to acquaint students with some of the major problems of the elementary school. Among the topics included are: the scope of elementary education—its origins and functions; the elementary school curriculum; evaluation of certain techniques and procedures employed in progressive schools; some problems of administration; the training of the elementary school teacher.

Required in the four-year curriculum for the preparation of teachers for elementary grade schools. Four hours a week. Four quarter hours. Summer quarter.

50. PHILOSOPHY OF EDUCATION.

Elective in the junior and senior years. Four hours a week. Four quarter hours. Omitted 1932-1933.

51. PROBLEMS OF PHILOSOPHY. An introduction to the world's great thinkers.

Elective in the junior and senior years. Four hours a week. Four quarter hours. Omitted 1932-1933.

58. HISTORY OF INDUSTRIAL EDUCATION.

Required in the junior year of the curricula in home economics and manual arts. Four hours a week. Four quarter hours. Spring quarter.

II. TEACHING.

College

A detailed description of the courses in practice teaching and of the course in observation may be found under the head, Training School.

20. PRACTICE TEACHING IN THE GRADES.

Required in the Junior College in all curricula except art, public school music, home economics, and manual arts. Five hours a week. Four quarter hours. Every quarter except the second half of the summer quarter.

21, 22. PRACTICE TEACHING IN THE GRADES.

Required in the second year of the two-year curriculum for preparation of teachers for the grades. Five hours a week. Four quarter hours for each course. Every quarter except the second half of the summer quarter.

41, 42. PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT.

Two quarters of practice teaching are required in the Senior College. At least one of these quarters must be in the major subject. These courses are listed under the same numbers (41, 42) in the description of courses in each department.

Required in the Senior College. Five hours a week. Four quarter hours. Winter and spring quarters.

41G to 48G. PRACTICE TEACHING AND SUPERVISION IN ELEMENTARY GRADES.

Required in the Senior College in the curriculum for preparation of elementary grade teachers. Five hours a week. Four quarter hours. Fall, winter, and spring quarters.

ENGLISH

High School

1, 2, 3. ELEMENTS OF ENGLISH. Elementary composition, with grammar review. Emphasis on practical composition, letter-writing, oral and written recitations in other subjects, and the qualities of all good speech. Several good books are read and studied.

Prerequisite: English 1 to English 2; English 2 to English 3. Required in the ninth year. Five hours a week. One unit. English 1, fall quarter; English 2, winter quarter; English 3, spring quarter.

4, 5, 6. RHETORIC. Chiefly description, narration, and exposition, both oral and written. Grammar review continued. Several classics studied.

Prerequisite: English 4 to English 5; English 5 to English 6. Required in the tenth year. Five hours a week. One unit. English 4, fall quarter; English 5, winter quarter; English 6, spring quarter.

Students entering the High School unable to carry English 4 are required to take one or more terms of English 1, 2, 3, without credit.

7, 8, 9. ENGLISH LITERATURE FROM SHAKESPEARE TO SCOTT.

Although the students are expected to get a fair idea of the history of this period of literature, the class work is devoted mainly to the literature itself. In making the selections for study, the instructor is guided by the capacity of the class and the usual demands of an introductory course in literature. Composition and grammar work are continued.

Prerequisite: English 7 to English 8; English 8 to English 9. Required in the eleventh year. Five hours a week. One unit, English 7, fall quarter; English 8, winter quarter; English 9, spring quarter.

10, 11, 12. A STUDY OF TYPES OF LITERATURE.

This course is open to all twelfth year students, but is designed especially for those students who have done creditable work in their previous English classes and desire an additional high school course. The class spends the first half of the year with poetry, narrative, lyric, and dramatic; and the second half with prose, emphasizing the essay and the novel. Regular composition work, both oral and written, is required.

Prerequisite: English 7, 8, 9; and English 10 to English 11; English 11 to English 12. Elective in the twelfth year. Five hours a week. One unit. No credit for less than the year's work. English 10, fall quarter; English 11, winter quarter; English 12, spring quarter.

College

20, 21. COMPOSITION. A course in the fundamentals of good speaking and writing. Creditable work in English 20, 21 is a prerequisite to teaching in the Training School. Credit for English 20, 21 may be earned in one, two, or more quarters according to individual progress. Students who complete English 21 when registered for English 20 may substitute another English credit for English 20, being counted excused from English 20.

Required in the freshman year in all curricula. Four hours a week. Four quarter hours for each course. Every quarter.

22. LITERATURE IN THE GRADES. Emphasizes chiefly wide acquaintance with the great bodies of world literature—myth, legend, etc.—and with the best poetry suitable for children.

Required in the first year of the two-year curriculum unless English 24 or 27 is taken. Four hours a week. Four quarter hours. Spring and summer quarters.

24. TEACHING OF ENGLISH. The teaching of composition in the grades is covered as fully as time permits, including discussion of materials, purposes, standards, theme-topics, correcting of compositions, literature in the grades, and methods of teach-

ing. This course is especially recommended to students interested in intermediate, upper grade, or junior high school work.

Prerequisite: English 20 and 21. Required in the first year of the two-year curriculum (unless English 22 or 27 is taken) and required instead of English 25 of students in the four-year English curriculum. Four hours a week. Four quarter hours. Spring and summer quarters.

25. INTRODUCTION TO LITERATURE. Designed to give the student an acquaintance with the most common types of English literature, including narrative and lyric poetry, biography and letters, the short story, and the essay.

Prerequisite: English 20 and 21. Required in four-year curricula, except the English curriculum. Four hours a week. Four quarter hours. Spring quarter.

26. GRAMMAR. A course for those preparing to teach in the upper grades or in junior high school.

Required in the upper grade sections, sophomore year, of the two-year curriculum. Four hours a week. Four quarter hours. Every quarter.

27. LITERATURE IN THE GRADES. This course is equivalent to English 22, except that the literature for intermediate and upper grades is emphasized.

Accepted for English 22 or 24 in the two-year grade curriculum. Four hours a week. Four quarter hours. Omitted 1932-1933.

30, 31. NINETEENTH CENTURY PROSE FICTION. The primary aim is to arouse the student's interest in the best fiction, and the secondary, to furnish him with standards of judgment.

Prerequisite: English 30 to English 31. Four hours a week. Eight quarter hours. English 30, fall quarter; English 31, winter quarter. Summer quarter.

32. ADVANCED COMPOSITION. An elective course in writing for those interested in this form of art. Essays, stories, plays, and poems may be attempted, according to individual or class decision. It may be substituted for any elective English course.

Prerequisite: English 20 and 21. Elective. Four hours a week. Four quarter hours. Omitted 1932-1933.

34. AMERICAN LITERATURE. A survey of American literature from the beginning to the present.

Four hours a week. Four quarter hours. Spring and summer quarters.

35. GREEK DRAMA. Origins and development of classical drama; Aeschylus, Sophocles, Euripides.

Prerequisite: English 30, 31, 34. Four hours a week. Four quarter hours. Fall and summer quarters.

36. SHAKESPEARE AND THE ELIZABETHAN DRAMA. A study of Shakespeare's most important plays, and of their place in the development of English drama. Some attention is given to the chief dramatists contemporary with Shakespeare.

Four hours a week. Four quarter hours. Winter and summer quarters.

37. MODERN DRAMA. The purpose of this course is to familiarize the student with what is best in modern drama.

Four hours a week. Four quarter hours. Spring and summer quarters.

38. JOURNALISM. See 44J, 44J2.

39. DRAMATICS. A study of the presentation of plays, including the reading of contemporary dramas, the production of at least one play, and the dramatization of an episode or a short story. Some instruction in the coaching of plays is given. Accepted for English 37.

Four hours a week. Four quarter hours. Summer quarter.

40. THE TEACHING OF ENGLISH IN THE HIGH SCHOOL.

Important topics connected with English in the high school are covered as fully as time permits.

Required in the senior year of those whose major subject is English. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN ENGLISH IN THE HIGH SCHOOL.

Five hours a week. Four quarter hours for each course. Winter and spring quarters.

43. CONTEMPORARY LITERATURE. Extensive reading in current literature introduces the student to the best that is being written today, and provides him with some standards of judgment with the hope of stimulating his enthusiasm for good books.

Required or elective in the junior year in all curricula. Four hours a week. Four quarter hours. Fall and summer quarters.

44. ADVANCED RHETORIC. Chiefly written composition, applying the principles of organization and effective expression to somewhat more extended material than do English 20 and 21. The course is intended to give both an introduction to the methods of research and opportunity for original work.

Prerequisite: Junior College required English. Required or elective in the junior year in all curricula. Four hours a week. Four quarter hours. Winter and summer quarters.

44J, J2. ADVANCED COMPOSITION. The course emphasizes editorial and news-writing. It is designed to train students in the effective expression of problems related to student life. *The Teachers College News* is sponsored by this class, and part of the class work appears regularly in the columns of this paper.

Prerequisite: Junior College required English. Four hours a week. Four quarter hours for each course (44J and 44J2). Every quarter.

45. ORAL ENGLISH. Through prepared talks and discussions this course gives training in the effective expression of genuine ideas and opinions. Sincerity, adequate development of thought, the proper use of facts and evidence, and also the principles and practice of good delivery are stressed.

Prerequisite: Junior College required English. Required or alternative with English 44 in the junior year in all curricula. Four hours a week. Four quarter hours. Spring and summer quarters.

46, 47, 48. MODERN ENGLISH POETRY. Appreciation of the art of poetry, and a study of some of the chief English poets, as they illustrate this art. Beowulf to Chaucer; Milton to Burns; Nineteenth Century Poetry.

Required in the English curriculum; elective in others. Four hours a week. Four quarter hours for each course. English 46, fall quarter; English 47, winter quarter; English 48, spring quarter. Summer quarter.

49. THE ESSAY. This course traces the development of the essay in English, with special attention to style.

Required in the senior year of the English curriculum and elective for juniors and seniors in any curriculum. Four hours a week. Four quarter hours. Fall quarter.

50, 51. HISTORY OF THE ENGLISH LANGUAGE AND LITERATURE. The development of the English language from Anglo-Saxon to the language of today is traced concurrently with the history of English literature.

Required in the senior year of the English curriculum. Not open as elective in other curricula except by special permission of the head of the English department. Four hours a week. Eight quarter hours for the two courses. Winter and spring quarters.

FOREIGN LANGUAGE

FRENCH

High School

1, 2, 3. FIRST YEAR FRENCH. *The Phonetic Chardenal*. A careful study of grammatical rules and of pronunciation. *Petits Contes de France: Sans Famille: La Tache du Petit Pierre*. Sight reading of easy French prose. Conversation.

Prerequisite: French 1 to French 2, French 2 to French 3. Elective. Five hours a week. One unit. French 1, fall quarter; French 2, winter quarter; French 3, spring quarter.

4, 5, 6. SECOND YEAR FRENCH. *The Phonetic Chardenal. L'Abbe Constantin. Le Voyage de M. Perrichon. Colomba.* Sight reading; conversation; oral themes; memorizing of French poems.

Prerequisite: French 1, 2, 3 or equivalent. Elective. Five hours a week. One unit. French 4, fall quarter; French 5, winter quarter; French 6, spring quarter.

College

30, 31, 32. FIRST YEAR FRENCH. A careful study of the principles of grammar. Special attention is paid to pronunciation and drill in rhythm and intonation. Study of phonetics as an aid to pronunciation. Reading of simple French texts.

Elective. Four hours a week. Twelve quarter hours, no credit toward graduation for less than a year's work. French 30, fall quarter; French 31, winter quarter; French 32, spring quarter.

33, 34, 35. ADVANCED FRENCH. Rapid review of grammatical forms and idioms. Reading of moderately difficult texts. Moliere: Reading and discussion of several of his comedies; written reports on his life, works, and influence on French literature. All recitations are, as far as possible, conducted in French.

Prerequisite: Two years of high school French or one year of college French. Elective. Four hours a week. Twelve quarter hours. French 33, fall quarter; French 34, winter quarter; French 35, spring quarter.

43, 44, 45. ADVANCED FRENCH. Dramas of Marivaux and Hugo. Modern poetry. Reading of moderately difficult texts. Frequent reports on suggested topics. Oral themes. Conversation.

Prerequisite: Two years of college French. Elective. Four hours a week. Twelve quarter hours. French 43, fall quarter; French 44, winter quarter; French 45, spring quarter.

GERMAN

College

30, 31, 32. FIRST YEAR GERMAN.

Elective. Four hours a week. Twelve quarter hours, no credit toward graduation for less than a year's work. German 30, fall quarter; German 31, winter quarter; German 32, spring quarter.

33, 34, 35. SECOND YEAR GERMAN. Review of grammar. Reading of German short story classics. Shorter German poetry and folk-songs.

Prerequisite: German 30, 31, 32, or the equivalent. *Elective.* Four hours a week. Twelve quarter hours. German 33, fall quarter; German 34, winter quarter; German 35, spring quarter.

43, 44, 45. THIRD YEAR GERMAN. Longer and more advanced German stories and plays by standard authors. German 45 stresses prose composition.

Prerequisite: German 30, 31, 32, or the equivalent. *Elective.* Four hours a week. Twelve quarter hours. Omitted 1932-1933.

LATIN

High School

1, 2, 3. FIRST YEAR LATIN. A careful study of inflection, syntax, vocabulary, and translation.

Prerequisite: Latin 1 to Latin 2; Latin 2 to Latin 3. *Elective.* Five hours a week. One unit. Latin 1, full quarter; Latin 2, winter quarter; Latin 3, spring quarter.

4, 5, 6. SECOND YEAR LATIN. Caesar and selected readings. Latin grammar and composition.

Prerequisite: Latin 1, 2, 3. Five hours a week. One unit. Latin 4, fall quarter; Latin 5, winter quarter; Latin 6, spring quarter.

7, 8, 9. THIRD YEAR LATIN. Cicero, six orations and selections from the letters. Latin grammar and composition. The Latin element in English. Figures of speech. The reckoning of time. Sight translation. The memorizing of selected passages.

Prerequisite: Latin 4, 5, 6. *Elective.* Five hours a week. One unit. Fall, winter, and spring quarters, even years.

10, 11, 12. FOURTH YEAR LATIN. Virgil's Aeneid, Books I-VI. Greek and Roman mythology, poetical construction, figures, prosody, Virgil's debt to Homer, the memorizing of selected lines and passages, sight translation.

Prerequisite: Latin 4, 5, 6. *Elective.* Five hours a week. One unit. Fall, winter, and spring quarters, odd years.

College

30. LIVY, SELECTIONS FROM BOOKS I, XXI, AND XXII.

Prerequisite: Four years of high school Latin. Four hours a week. Four quarter hours. Fall quarter, odd years.

31. CICERO, DE AMICITIA, DE SENECTUTE, AND DE OFFICIIS.

Prerequisite: Latin 30. Four hours a week. Four quarter hours. Winter quarter, odd years.

32. HORACE, ODES AND EPODES.

Prerequisite: Latin 31. Four hours a week. Four quarter hours. Spring quarter, odd years.

33. VIRGIL, AENEID, BOOKS VII-XII.

Prerequisite: Four years of high school Latin. Four hours a week. Four quarter hours. Fall quarter, even years.

34. HORACE, SATIRES AND EPISTLES.

Prerequisite: Latin 33. Four hours a week. Four quarter hours. Winter quarter, even years.

35. PLAUTUS, MENAECHMI, MOSTELLARIA, AND CAPTIVI.

Prerequisite: Latin 34. Four hours a week. Four quarter hours. Spring quarter, even years.

40. THE TEACHING OF LATIN.

Prerequisite: Three years of college Latin. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN LATIN.

Prerequisite: Latin 40. Five hours a week. Eight quarter hours. Winter and spring quarters.

43. OVID, METAMORPHOSES.

Four hours a week. Four quarter hours. Fall quarter, even years.

44. PLINY, LETTERS.

Four hours a week. Four quarter hours. Winter quarter, even years.

45. LATIN WRITING.

Four hours a week. Four quarter hours. Spring quarter, even years.

46. TACITUS, GERMANIA, AGRICOLA, AND SELECTIONS FROM THE ANNALS AND HISTORIES.

Four hours a week. Four quarter hours. Fall quarter, odd years.

47. LATIN POETRY. Selections from Catullus and Martial, and from Virgil's Eclogues and Georgics.

Four hours a week. Four quarter hours. Winter quarter, odd years.

48. LATIN DRAMA. Seneca, Medea; Terence, Phormio and Andria.

Four hours a week. Four quarter hours. Spring quarter, odd years.

51. OUR DEBT TO GREECE AND ROME. The classical background of civilization is considered—language, law, thought, ethics, aesthetics, religion. It is a lecture course. A term paper on the topic of his choice is required of each student. No knowledge of the Latin language is required.

Prerequisite: Senior College classification. Elective in any curriculum. Required in the four-year Latin curriculum. Four hours a week. Four quarter hours. Fall quarter.

GEOGRAPHY

High School

1. **PHYSIOGRAPHY.** Land forms and their development, atmosphere and climate, and influence of physical conditions upon modes of living, industries, institutions, and distribution of peoples.

Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit. Fall quarter.

2. **PHYSIOGRAPHY AND COMMERCIAL GEOGRAPHY.** The first half of this quarter's work is a continuation of Geography I. The second half begins the work in Commercial Geography.

Prerequisite: Course 1. Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit. Winter quarter.

3. **COMMERCIAL GEOGRAPHY,** continued.

Prerequisite: Course 2. Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit. Spring quarter.

College

20. **PRINCIPLES OF HUMAN GEOGRAPHY.**

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades. Elective for all others. Four hours a week. Four quarter hours. Every quarter.

21. **CLIMATOLOGY.** A study of climate and its influence upon form and distribution of plant and animal life and upon the distribution and advancement of man.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades. Elective for others. Four hours a week. Four quarter hours. Every quarter.

30. **GEOGRAPHY OF NORTH AMERICA.**

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Fall and summer quarters.

31. **GEOGRAPHY OF SOUTH AMERICA.**

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Winter and summer quarters.

32. **GEOGRAPHY OF EUROPE.**

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Spring and summer quarters.

36. **GEOLOGY.**

Four hours a week. Four quarter hours. Spring and summer quarters.

40. THE TEACHING OF GEOGRAPHY.

Required in the senior year of those whose major subject is geography. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN GEOGRAPHY.

Required in the senior year of those whose major subject is geography. Five hours a week. Eight quarter hours. Winter and spring quarters.

43. PHYSIOGRAPHY.

Prerequisite: Junior or senior classification. Four hours a week. Four quarter hours. Fall quarter.

44. TRANSPORTATION.

Prerequisite: Geography 20, 21. Four hours a week. Four quarter hours. Spring quarter, odd years.

45. GEOGRAPHY OF ASIA.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours. Winter quarter.

46. URBAN GEOGRAPHY.

Prerequisite: Geography 20, 21. Four hours a week. Four quarter hours. Spring quarter, even years, beginning 1933-1934.

HISTORY, SOCIOLOGY, GOVERNMENT, AND ECONOMICS

HISTORY

High School

1. ANCIENT HISTORY TO 479 B. C.

Elective in the tenth year. Five hours a week. One-third of a unit. Fall quarter.

2. ANCIENT HISTORY FROM 479-31 B. C.

Elective in the tenth year. Five hours a week. One-third of a unit. Winter quarter.

3. ANCIENT HISTORY FROM 31 B. C.-800 A. D.

Elective in the tenth year. Five hours a week. One-third of a unit. Spring quarter.

4. THE HISTORY OF ENGLAND TO 1558.

Required in the eleventh year. Five hours a week. One-third of a unit. Fall quarter.

5. THE HISTORY OF ENGLAND, 1558-1763.

Required in the eleventh year. Five hours a week. One-third of a unit. Winter quarter.

6. THE HISTORY OF ENGLAND AND THE BRITISH EMPIRE, 1763 TO THE PRESENT.

Required in the eleventh year. Five hours a week. One-third of a unit. Spring quarter.

7. AMERICAN HISTORY TO 1825.

Elective in the twelfth year. Five hours a week. One-third of a unit. Fall quarter.

8. THE HISTORY OF THE UNITED STATES, 1825-1876.

Elective in the twelfth year. Five hours a week. One-third of a unit. Winter quarter.

9. THE HISTORY OF THE UNITED STATES, 1876 TO THE PRESENT.

Elective in the twelfth year. Five hours a week. One-third of a unit. Spring quarter.

College

The history requirement in the Junior College may be fulfilled by selecting any two consecutive quarters of American history or ancient history.

33. AMERICAN POLITICAL AND INSTITUTIONAL HISTORY TO 1825.

Four hours a week. Four quarter hours. Fall quarter.

34. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES 1825-1876.

Four hours a week. Four quarter hours. Winter quarter.

35. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1876 TO THE PRESENT.

Four hours a week. Four quarter hours. Spring quarter.

37. ANCIENT HISTORY TO ABOUT 500 B. C.

Four hours a week. Four quarter hours. Fall quarter.

38. HISTORY OF GREEK CIVILIZATION.

Four hours a week. Four quarter hours. Winter quarter.

39. POLITICAL AND INSTITUTIONAL HISTORY OF ROME.

Four hours a week. Four quarter hours. Spring quarter.

40. THE TEACHING OF HISTORY.

Required in the senior year of those whose major subject is history. Four hours a week. Four-quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HISTORY.

Required. Five hours a week. Four quarter hours. Every quarter.

43, 44, 45. ENGLISH HISTORY. A fundamental course in the political and social institutions of England.

Four hours a week. Twelve quarter hours. Fall, winter, and spring quarters.

46. THE HISTORY OF WESTERN EUROPE FROM THE CLOSE OF THE FOURTH CENTURY TO 1500.

Four hours a week. Four quarter hours. Fall quarter.

47. THE HISTORY OF EUROPE, 1500-1815.

Four hours a week. Four quarter hours. Winter quarter.

48. THE HISTORY OF EUROPE, 1815 TO THE PRESENT.

Four hours a week. Four quarter hours. Spring quarter.

SOCIOLOGY

College

43, 44, 45. SOCIOLOGY.

Four hours a week. Twelve quarter hours. Summer quarter (Course 43).

GOVERNMENT

High School

1. STATE AND LOCAL CIVIL GOVERNMENT.

Required in the twelfth year. Five hours a week. One-third of a unit. Fall quarter.

2a. THE NATIONAL GOVERNMENT.

Required in the twelfth year. Five hours a week. One-sixth of a unit. First half of the winter quarter.

College

43. STATE AND LOCAL GOVERNMENT.

Four hours a week. Four quarter hours. Fall and summer quarters.

44. THE NATIONAL GOVERNMENT.

Four hours a week. Four quarter hours. Winter and summer quarters.

45. MODERN GOVERNMENTS OF EUROPE AND AMERICA.

Prerequisite: Course 44. Four hours a week. Four quarter hours. Spring and summer quarters.

ECONOMICS

High School

1a, 2. ECONOMICS. Economics 1a, second half of the winter quarter and Economics 2, spring quarter, complete the year's work of which Government 1, 2a forms the first half year's work for high school seniors.

Required in the twelfth year. One-half unit. Economics 1a, second half of the winter quarter; Economics 2, spring quarter.

College

20. THE ECONOMIC HISTORY OF THE UNITED STATES.

The natural resources, their extent, geographical distribution, and relation to industrial life; the development of agriculture, industry, commerce, and transportation; the changes in methods

of production and distribution and their relation to present economic problems.

Required in the curriculum in Manual Arts. Four hours a week. Four quarter hours. Spring quarter.

44. THE PRINCIPLES OF ECONOMICS.

Elective. Four hours a week. Four quarter hours. Fall quarter.

45. THE PRINCIPLES OF ECONOMICS AND THEIR APPLICATION TO PRESENT-DAY ECONOMIC PROBLEMS.

Prerequisite: Course 44. Elective. Four hours a week. Four quarter hours. Winter quarter.

46. MONEY AND BANKING.

Prerequisite: Courses 44 and 45. Elective. Four hours a week. Four quarter hours. Spring quarter.

HOME ECONOMICS

High School

I. CLOTHING

4. CLOTHING. Problems: Undergarments. Elementary textile study. Budgeting. Related art.

Elective. Eight hours a week. One-third of a unit. Fall quarter, odd years.

5. CLOTHING. Problems: Simple cotton dress and child's garment. Clothing selection. House planning.

Prerequisite: Clothing 4. Elective. Eight hours a week. One-third of a unit. Winter quarter, odd years.

6. CLOTHING. Problem: Afternoon dress. Care and repair of clothing. Home furnishing. Personal improvement.

Prerequisite: Clothing 5. Elective. Eight hours a week. One-third of a unit. Spring quarter, odd years.

High School

II. FOODS AND NUTRITION

4. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Health and breakfast units.

Elective. Eight hours a week. One-third of a unit. Fall quarter, even years.

5. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Luncheon and tea unit. Christmas candies.

Prerequisite: Foods 4. Elective. Eight hours a week. One-third of a unit. Winter quarter, even years.

6. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Dinner unit. Home management and child care and training units.

Prerequisite: Foods 5. Elective. Eight hours a week. One-third of a unit. Spring quarter, even years.

College

Note: The four-year curriculum in home economics (See Curriculum II, 2F) is designed to cover the needs of teachers who wish to teach home economics in high schools which receive Federal Aid under the Smith-Hughes Law. It has been approved by the State Supervisor of Home Economics.

I. CLOTHING

30. ELEMENTARY CLOTHING. Textile study. Problems: Undergarments. The developing of illustrative material for teaching.

Elective. Eight hours a week. Four quarter hours. Fall and summer quarters.

31. CLOTHING. Problem: A smock. Decorative stitches. clothing economics, study of clothing budgets.

Prerequisite: Clothing 30. Elective. Eight hours a week. Four quarter hours. Winter and summer quarters.

32. CLOTHING. Problem: Simple afternoon dress. Elementary clothing selection.

Prerequisite: Clothing 31. Elective. Eight hours a week. Four quarter hours. Spring and summer quarters.

43. CLOTHING. Problem: Wool dress or its equivalent. Advanced clothing selection.

Prerequisite: Clothing 32. Elective. Eight hours a week. Four quarter hours. Fall quarter, even years.

44. CHILDREN'S CLOTHING. Emphasis on selection, make-over, and construction.

Prerequisite: Clothing 43. Elective. Eight hours a week. Four quarter hours. Winter quarter, even years.

45. CLOTHING. Problem: A silk dress or the equivalent. Renovation, care, and repair of clothing.

Prerequisite: Clothing 44. Elective. Eight hours a week. Four quarter hours. Spring quarter, even years.

II. FOODS AND NUTRITION

30. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Relation of health to food study. Breakfast.

Prerequisite: Chemistry 30, 31, 32, unless the student is registered for Chemistry 30. Eight hours a week. Four quarter hours. Fall quarter.

31. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Luncheons. Christmas candies.

Prerequisite: Foods 30. Eight hours a week. Four quarter hours. Winter quarter.

32. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Teas. Dinners.

Prerequisite: Foods 31. Eight hours a week. Four quarter hours. Spring quarter.

43. FOODS AND NUTRITION. Experimental Cookery. Conventional methods in cookery studied experimentally. Recipes analyzed and effects of various proportions studied.

Prerequisite: Foods 32 and Chemistry 43, 44, 45, unless the student is registered for Chemistry 43. Eight hours a week. Four quarter hours. Fall quarter, odd years (1932-33 and alternate years).

44. FOODS AND NUTRITION. Dietetics. Principles of normal human nutrition. Application of practical feeding problems to the individual. Calculation and preparation of dietaries.

Prerequisite: Foods 43. Eight hours a week. Four quarter hours. Winter quarter, odd years (1932-33 and alternate years).

45. FOODS AND NUTRITION. Meal planning and serving. Individual planning and preparation of meals for family groups including adaptation to needs of child. Aesthetic phase and social opportunities in meals emphasized.

Prerequisite: Foods 44. Eight hours a week. Four quarter hours. Spring quarter, odd years (1932-33, and alternate years).

III. HOME ECONOMICS

40. ADMINISTRATION AND METHODS IN HOME ECONOMICS.

Prerequisite: Junior standing in the home economics curriculum. Four hours a week. Fall quarter.

41C, 42C. PRACTICE TEACHING IN CLOTHING AND RELATED SUBJECTS.

Prerequisite: Home Economics 40. Five hours a week. Eight quarter hours. Winter and spring quarter, odd years (1932-33 and alternate years).

41F, 42F. PRACTICE TEACHING IN FOODS AND NUTRITION.

Prerequisite: Home Economics 40. Five hours a week. Eight quarter hours. Winter and spring quarter, even years (1931-32 and alternate years).

Note: Three of these four courses in practice teaching (Clothing 41, 42 and Foods 41, 42) are required. There is no credit toward graduation for more than three.

43. **HOUSEHOLD PHYSICS.** A study of labor saving devices and other equipment in the home with relation to its purchase, care, and use.

Four hours a week. Four quarter hours. Fall quarter, odd years (1932-33 and alternate years).

44. **HOUSE PLANNING AND FURNISHING.** See Art 44.

Prerequisite: Junior standing in the home economics or art curriculum. Four hours a week. Four quarter hours. Winter quarter, even years (1931-32 and alternate years).

45. **HOME MANAGEMENT.** The business problems of the home are studied; budget making and ways of meeting problems of the home.

Four hours a week. Four quarter hours. Winter quarter, odd years (1932-33 and alternate years).

46. **HOME NURSING.** 1. Physical care and training of the infant and pre-school age child. 2. A study of the factors to be used in the training and development of children in the home.

Four hours a week. Four quarter hours. Spring quarter, odd years (1932-33 and alternate years).

47. **INDUSTRIAL HISTORY.** See Manual Arts 58.

Prerequisite: Junior standing in the home economics or manual arts curriculum. Four hours a week. Four quarter hours. Spring quarter.

THE USE OF THE LIBRARY

Certain courses offered in the College require considerable work in the library, including reading, and looking up references, and assigned topics. To do this work with the wisest expenditure of time and effort, students should know how to use the card catalogue, magazine indexes, and some common reference books. Lessons, required of all students, are given in the eleventh year of the high school and freshman year of the college. An effort is made to have these lessons prepare for library work required of students in other courses.

XI. THE USE OF THE LIBRARY. Elementary Course.

Required in the eleventh year. One hour a week. Fall and winter quarters.

20. THE USE OF THE LIBRARY.

Freshmen who have completed Library XI are excused from all but the last four lessons of Library 20. They should register for Library 20 (XI), given in the first four weeks of the winter quarter.

Required in the freshman year. One hour a week. One quarter hour. Every quarter.

MANUAL ARTS

High School

1. MECHANICAL DRAWING. This course consists of the making of seven mechanical drawing plates. The size of each plate is to be approximately ten inches by fifteen inches on the trim line. Each plate is to be finished with India ink. The work begins with plane geometrical figures and develops into one and two view working drawings. One plate of freehand letters is made.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

2. MECHANICAL DRAWING. A continuation of Manual Arts 1. Seven plates are considered a quarter's work. Two and three view working drawings are the emphasis in this course. Orthographic projection is used in each case. One plate of instrumental letters is done.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

3. MECHANICAL DRAWING. Eight plates are required this quarter. These are working drawings, and mechanical perspective with one plate of instrumental letters.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

4. WOODWORK. Beginning woodwork based upon Griffith's *Essentials of Woodworking*. A choice of several problems to be made entirely with hand tools is given the pupil. A study of woods, tools, and processes is made.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

5. WOODWORK. A study of the mortise and tenon joint is made and a project is developed using this joint. Particular attention is paid to the development of appreciation for pleasing lines and work which is neatly and accurately done.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

6. BENCH METAL WORK. The elements of sheet metal work are taken up in this course. Pupils make several sheet metal problems. Mild steel or wrought iron articles also are made.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

7. MACHINE WOODWORK. Beginning machine woodworking processes. A simple piece of furniture is made with as little handwork as possible. A study of the machines is made with attention paid to safety in operating and care for them.

Prerequisite: Manual Arts 3 and 6. Elective. Ten hours a week. One-third of a unit. Fall quarter.

8. MACHINE WOODWORK, continued. Some study is made of pleasing design and of wood finishes. A piece of furniture is begun which has some originality in design (approved by the teacher). Especial attention is given technique and design.

Prerequisite: Manual Arts 7. Elective. Ten hours a week. One-third of a unit. Winter quarter.

9. MACHINE WOODWORK, continued. The piece of furniture started in the winter quarter is completed in workmanlike style. Wood turning is studied and a desk lamp developed. This includes the making of a wire shade frame.

Prerequisite: Manual Arts 7. Elective. Ten hours a week. One-third of a unit. Spring quarter.

Courses 1, 2, and 3 with Courses 4, 5, and 6 constitute the first year's work and are taken together. Courses 7, 8, and 9 are the second year's work.

College

20. PRACTICE TEACHING IN MANUAL ARTS.

Required in the sophomore year in the curriculum in Manual Arts. Five hours a week. Four quarter hours. Fall, winter, or spring quarters.

24. PRIMARY AND INTERMEDIATE GRADE HANDWORK. A course for primary teachers and for supervisors of primary schools. Paper folding, paper weaving, cardboard construction, book binding, woodwork, basketry (reed and raffia), clay work.

Required in the two-year curriculum unless Manual Arts 25 or Art 36 or 37 is taken. Four hours a week with outside work. Four quarter hours. Summer quarter.

25. INTERMEDIATE GRADE HANDWORK.

Required in the two-year curriculum unless Manual Arts 24 or Art 36 or Art 37 is taken. Four hours a week with outside work. Four quarter hours. Fall quarter.

30. ELEMENTARY MECHANICAL DRAWING. A thorough and practical course in the fundamentals of mechanical drawing. Emphasis is placed on good technique, accuracy, and speed. Lettering, orthographic projection, geometrical construction, sectional views. The common conventions of commercial practice.

Manual Arts 30 and 31 are taken for credit in Mathematics 29 (descriptive geometry). Four hours a week. Two quarter hours. Every quarter.

31, 32. MECHANICAL DRAWING. Problems in isometric, oblique, and sheet metal drawing; machine design. Lectures, demonstrations, and applications, supplemented by textbook work.

Prerequisite: Course 30, also Course 31 to Course 32. Four hours a week. Two quarter hours for each course. Every quarter.

33. ELEMENTARY WOODWORK. Instruction in the care and use of woodworking tools. Construction of tools. Lectures, demonstrations, and applications, supplemented by textbook work.

Prerequisite: Course 30, unless the student is taking Course 30. Four hours a week. Two quarter hours. Every quarter.

34. JOINERY AND ADVANCED WOODWORK. A study of various types of joints used in furniture construction. Application in type problems. Study of varieties of wood. Lectures, demonstrations, and applications.

Prerequisite: Course 33. Four hours a week. Two quarter hours. Every quarter.

35. BENCH METAL WORK. Work in wrought iron, mild steel, and sheet metal.

Prerequisite: Manual Arts 30. Four hours a week. Two quarter hours. Fall quarter.

36, 37. FURNITURE AND CABINET CONSTRUCTION. The commercial method of production. Use of power machinery. Study of periods and styles of furniture. Applied design. Pieces are designed and one or more made in the shop. Outside reading and reports in class, covering the development and distinguishing characteristics of period furniture. Students pay for material used and are allowed to take the furniture home at the end of the College year.

Prerequisite: Manual Arts 35. Eight hours a week. Eight quarter hours for the two courses. Winter, spring, and summer quarters.

39. HOUSEHOLD MECHANICS. The purpose of this course is to train teachers for Junior High Schools in all kinds of household mechanical work. The first half of it, or 39a, consists of the refinishing and repair of worn and broken furniture and simple carpentry and masonry repair. The remainder of the course consists of a study of the installation and repair of plumbing and electrical apparatus in the home and the care and use of soldering coppers.

Required of those whose major subject is Manual Arts and accepted for Home Economics 43 in the Smith-Hughes home economics curriculum.

Eight hours a week. Four quarter hours. Fall and summer quarters.

40. THE TEACHING OF INDUSTRIAL AND VOCATIONAL ARTS.

Required in the Manual Arts curriculum. Four hours a week. Four quarter hours. Winter quarter.

41, 42. PRACTICE TEACHING IN INDUSTRIAL ARTS.

Required in the senior year of the Manual Arts curriculum. Five hours a week. Four quarter hours for each course. Every quarter.

43. SHEET METAL WORK.

Eight hours a week. Four quarter hours. Fall quarter.

44. ELECTRICAL CONSTRUCTION.

Eight hours a week. Four quarter hours. Spring quarter.

46. PATTERN MAKING.

Eight hours a week. Four quarter hours. Fall quarter.

47. GENERAL METAL WORK, INCLUDING FORGING.

Eight hours a week. Four quarter hours. Fall and winter quarters.

48. MACHINE SHOP.

Eight hours a week. Four quarter hours. Every quarter.

49, 50. ARCHITECTURAL DRAWING.

Four hours a week. Two quarter hours for each course. Every quarter.

51, 52. ADVANCED MECHANICAL DRAWING.

Four hours a week. Two quarter hours for each course. Every quarter.

53. AUTOMOBILE INSTRUCTION AND REPAIR I.

Eight hours a week. Four quarter hours. Fall and summer quarters.

54. ADVANCED MACHINE SHOP.

Eight hours a week. Four quarter hours. Every quarter.

55, 56. CARPENTRY.

Eight hours a week. Eight quarter hours for two courses. Carpentry 55, winter quarter; Carpentry 56, spring quarter.

57. AUTOMOBILE REPAIR II.

Eight hours a week. Four quarter hours. Fall and summer quarters.

58. HISTORY OF INDUSTRIAL EDUCATION.

Four hours a week. Four quarter hours. Spring quarter.

59, 60, 61. PRINTING I, II AND III.

Eight hours a week. Four quarter hours for each course. Winter, spring, and summer quarters.

MATHEMATICS

High School

1. ALGEBRA I. This is a beginning course in algebra and covers algebraic notation, substitution and evaluation, the fundamental operations, the use of formulas, and introduction to graphs, and begins the study of equations of the first degree in one unknown.

Required in the ninth year. Five hours a week. One-third of a unit. Fall quarter.

2. ALGEBRA 2. Important type products, factoring, highest common factor, lowest common multiple; fractions; simple equations in one unknown; ratio; proportion and variation; graphs.

Prerequisite: Algebra 1. Required in the ninth year. Five hours a week. One-third of a unit. Winter quarter.

3. ALGEBRA 3. Simple equations in two or more unknowns; square root and its application; radicals and exponents; quadratic equations.

Prerequisite: Algebra 2. Required in the ninth year. Five hours a week. One-third of a unit. Spring quarter.

4. GEOMETRY 1. Plane Geometry. Stone and Millis' texts are used in all courses in geometry. Chapters I, II, III, and IV.

Prerequisite: Algebra 3. Required in the tenth year. Five hours a week. One-third of a unit. Fall quarter.

5. GEOMETRY 2. Chapters V, VI, VII and VIII.

Prerequisite: Geometry 1. Required in the tenth year. Five hours a week. One-third of a unit. Winter quarter.

6. GEOMETRY 3. Chapters IX, X, and XI.

Prerequisite: Geometry 2. Required in the tenth year. Five hours a week. One-third of a unit. Spring quarter.

7. SOLID GEOMETRY 4a, 5. Chapters XII-XVI. Solid Geometry is begun in the second half of Mathematics 9 (Algebra 5a; Geometry 4a). The year's work (Algebra 4, 5a; Geometry 4a, 5) gives credit for one-half of a unit each in algebra and solid geometry.

Prerequisite: Geometry 3 and Algebra 5a. Five hours a week. One-half of a unit. Winter quarter, second half (Geometry 4a) and spring quarter (Geometry 5).

8. ALGEBRA 4. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number systems to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Elective. Five hours a week. One-third of a unit. Fall quarter.

9. ALGEBRA 5a; GEOMETRY 4a. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability. In the second half of this quarter, Solid Geometry is begun. See Mathematics 7 (Geometry 4a, 5).

Prerequisite: Algebra 4. Elective. Five hours a week. One-third of a unit. Winter quarter.

College

20. ARITHMETIC. This course includes notation and numeration, the fundamental operations with integers and with common and decimal fractions, factors and multiples, English and metric measures, involution and evolution, and simple problems in the measurement of surfaces and solids. The course covers the topics taken up in the first six grades as outlined in the Illinois State Course of Study. Special attention is given to the teaching of these topics in the lower grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. Four quarter hours. Every quarter.

21. ARITHMETIC. The primary object of this course is to prepare for the teaching of arithmetic in the seventh and eighth grades. The principal topics discussed are percentage and its application to practical business problems, ratio and proportion, graphs, formulas, intuitive geometry, square root, and the mensuration of surfaces and solids. It is the aim of the class room instructor to familiarize the students with methods of instruction that can be readily adapted to the seventh and eighth grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. Four quarter hours. Winter, spring, and summer quarters.

28. COLLEGE GEOMETRY. The objects of this course are to improve and extend the student's knowledge of the content and methods of Euclidian geometry and to give an introduction to modern geometry.

Required in the sophomore year of those whose major subject is mathematics. Four hours a week. Four quarter hours. Spring quarter.

29. DESCRIPTIVE GEOMETRY. The course includes the line, point, and plane, and their relation to each other; the intersection of surfaces, penetration and development, and conic sections.

Students take Manual Arts 30, 31 for credit in Mathematics 29.

Recommended for those whose major subject is mathematics. Four hours a week for two quarters. Four quarter hours for Manual Arts 30, 31. Winter and spring quarters.

30. SOLID GEOMETRY. Chapters XII-XVI. Students who have had solid geometry in high school take Arithmetic 20, Mathematics 29, Trigonometry 33. Those who have not had Geometry 30

take Geometry 30, Arithmetic 20, and Trigonometry 33 in the freshman year.

Prerequisite: Geometry 3. Four hours a week. Four quarter hours. Fall quarter.

31. ALGEBRA. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number system to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Four hours a week. Four quarter hours. Fall quarter.

32. ALGEBRA. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 31 or the equivalent. Four hours a week. Four quarter hours. Winter quarter.

33. PLANE TRIGONOMETRY. Definitions and properties of trigonometric functions, the deduction of important trigonometric formulas, the use of tables of logarithms, the solution of plane triangles, and various practical applications.

Four hours a week. Four quarter hours. Spring quarter.

34. PLANE ANALYTIC GEOMETRY. A beginning course in analytic geometry.

Prerequisite: Plane trigonometry. Four hours a week. Four quarter hours. Fall quarter.

35. PLANE ANALYTIC GEOMETRY. Continuation of the preceding course.

Prerequisite: Mathematics 34. Four hours a week. Four quarter hours. Winter quarter.

36. ALGEBRA. Theory of equations including elementary transformation, location of roots, and the solution of the cubic and biquadratic equations; limits, elementary properties of series.

Prerequisite: Course 32. Elective. Four hours a week. Four quarter hours. Spring quarter.

40. THE TEACHING OF HIGH SCHOOL MATHEMATICS.

Required in the senior year of those whose major subject is mathematics. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL MATHEMATICS.

Required of those whose major subject is mathematics. Five hours a week. Eight quarter hours. Winter and spring quarters.

43, 44, 45. DIFFERENTIAL AND INTEGRAL CALCULUS.

Prerequisite: Course 35; also Course 43 to Course 44 and Course 44 to Course 45. Four hours a week. Twelve quarter

hours. Course 43, fall quarter; Course 44, winter quarter; Course 45, spring quarter.

46, 47, 48. DIFFERENTIAL EQUATIONS. ADVANCED CALCULUS.

I. DIFFERENTIAL EQUATIONS. An introduction to the study of ordinary and partial differential equations with applications to geometry and mechanics. First half year.

II. ADVANCED CALCULUS. Second half year.

Prerequisite: Calculus 43 and 44. Four hours a week. Twelve quarter hours. Course 46, fall quarter; Course 47, winter quarter; Course 48, spring quarter. (Omitted 1932-33.)

MUSIC

I. Musical Organizations

THE COLLEGE MEN'S GLEE CLUB. During the first weeks of the college year, college men may try for a place in this club. The club meets twice a week and appears in public several times during the year, giving the annual concert in March.

THE COLLEGE WOMEN'S GLEE CLUB. Membership in this club is open to all college women who meet the vocal and reading requirements in the preliminary rehearsals. The club meets for two one-hour rehearsals a week in the evening and makes many local appearances during the year. They present one formal concert in the spring.

RECITALS. Opportunity is given to students of voice, piano, and violin to appear in informal recitals at least once every quarter.

BAND. Three bands are organized each year, the high school band, the college band, and the concert band. The concert band membership is made up of the best players from the other two bands. There are from fifty to sixty musicians in each of these bands.

The college band plays for home football and basketball games and in the fall sometimes goes to two out-of-town games with the team. This is the marching band. One or two rehearsals are held weekly.

The concert band gives concerts during the year and plays for special occasions. Both bands are fully uniformed. There are two rehearsals weekly.

ORCHESTRA. There are two orchestras, one for beginners, or young players, and the other for advanced players. Some players practice with both organizations. Each organization rehearses once a week. The advanced orchestra numbers about thirty pieces and gives one or two concerts a year.

II. Music Lessons and Fees

PIANO AND VOICE LESSONS. A fee of \$5.00 a quarter is paid for each. Two lessons are given each week in piano and one in voice.

INSTRUMENT WORK (Violin, Clarinet, Cornet or Other Instrument). Lessons on these instruments—one or two students in a period—are \$5.00 a quarter, two lessons a week (equivalent to one fifty-minute period).

CLASS WORK IN THESE INSTRUMENTS IS FREE. Classes meet twice a week for one period.

A maximum fee of \$5.00 a quarter is charged for the rental of an instrument.

III. High School Music

1, 2, 3. The object of this course is to train pupils inexperienced in music how to listen to and enjoy good music. The victrola and piano are used. Pupils learn to know by ear about fifty standard musical compositions—the title, the composer, and the outstanding characteristics of the form of composition. They learn the instruments of the symphony orchestra by name, sound, and sight. Half of the time is devoted to sight singing according to the ability of the class. There are daily assignments requiring forty minutes' preparation.

Elective in the tenth, eleventh, or twelfth years. Five hours a week. One unit. No credit for less than the whole year's work.

Notes.—1. The high school girls' glee club is composed of thirty-five girls chosen from the high school, and meeting twice a week.

2. Chorus, twice a week, is required in the ninth year.

3. The high school has also a mixed chorus.

IV. Public School Music

(1) *Bachelor of Education Degree in Public School Music.*—The four-year curriculum, leading to the degree of Bachelor of Education in Public School Music, is designed primarily to prepare college students to teach music in the elementary grades and in the high school.

(2) *Entrance Requirements.*—Those choosing public school music as the major subject are required before registration to take examinations in pitch and rhythm. They should have a minimum third grade proficiency in piano. In order to meet the requirements students may register in preparatory courses, Piano 1, 2, 3. Those who, at entrance, have completed the piano requirements in this curriculum (Piano 30, 31, 32 and 33, 34, 35)

may be exempt from further study of piano. Exemption is determined by examination or presentation of twelve quarter hours of credit in piano work from a recognized institution.

(3) *Minor Subject.*—Students who wish to make music a minor subject may take Music 30, 31, 32, 33, 34, 35 (or 20).

Those registered in the public school music curriculum are advised to select, as a minor subject and for elective credit, courses in art, foreign language, English, and history. A year of foreign language is recommended as one of the electives in the music curriculum.

(4) *Description of Courses.*—

20. PRACTICE TEACHING IN MUSIC. This course is devoted to a detailed study of the material and methods of teaching music in the elementary school with practice teaching in two grades.

Prerequisite: Music 24 (or the equivalent) and recommendation of the supervisor of public school music and of the director of the Elementary Training School. Five hours a week. Four quarter hours. Fall, winter, and spring quarters.

23. THEORY AND SIGHT READING. The fundamentals of music, including ear training and sight reading for students in the two-year grade curriculum who have never studied music. Students registering for Music 24 are transferred to Music 23 if they have not the prerequisite for Music 24.

Music 23 is accepted for Music 24 for credit toward graduation, but students who do not have Music 24 are not recommended for positions in which they will be required to teach music.

Music 24 may be taken in the winter, spring, or summer quarters, after Music 23 has been completed.

Required in the sophomore year of the two-year grade curriculum if Music 24 is not taken. Four hours a week. Four quarter hours. Fall and winter quarters.

24. PUBLIC SCHOOL MUSIC. Elementary sight singing and lower grade methods. The second half of the quarter is devoted to methods of teaching music in the first six grades with observation in the Training School.

Required in the sophomore year in the two-year curriculum for the preparation of teachers of the grades. Four hours a week. Four quarter hours. Every quarter.

30. ELEMENTARY THEORY. A course designed to give a thorough ground work in the melodic, harmonic, and rhythmic elements of music. Scales, intervals, chords, and cadences are studied in singing, writing, playing, and dictation.

Required in the freshman year of the music curriculum. Four hours a week. Four quarter hours. Fall quarter.

31. **ELEMENTARY THEORY.** A continuation of the work in the fall quarter, with the inclusion of key relation and modulation. Sight reading of two-part music and more complicated rhythms. Emphasis is placed continually on ear training.

Required in the freshman year of the music curriculum. Prerequisite, Music 30. Four hours a week. Four quarter hours. Winter quarter.

32. **ELEMENTARY THEORY.** Rhythmic, melodic, harmonic dictation with thorough practice in sight reading in two-, three-, and four-part music. Transposition and reading of clefs.

Required in the freshman year of the music curriculum. Prerequisite, Music 31. Four hours a week. Four quarter hours. Spring quarter.

33. **HARMONY.** Music composition in the elementary forms with a complete study of the necessary harmonic equipment which includes primary and secondary triads with inversions.

Required in the sophomore year of the music curriculum. Prerequisite, Music 32. Four hours a week. Four quarter hours. Fall quarter.

34. **HARMONY.** Continued writing and playing from dictation of the chords learned in the fall quarter. Introduction and use of seventh chords. Composition and study of small forms.

Required in the sophomore year of the music curriculum. Prerequisite, Music 33. Four hours a week. Four quarter hours. Winter quarter.

35. **HARMONY.** Composition of a three-part song form with further use of the harmonic materials studied in the fall and winter quarters. Introduction to elementary counterpoint.

Required in the sophomore year of the music curriculum. Prerequisite, Music 34. Four hours a week. Four quarter hours. Spring quarter.

Note.—A booklet giving description of proposed courses for Senior College work in the public school music curriculum will be sent on request.

V. *Instrumental Music*

(1) Piano

In piano instruction two or three students are assigned to each fifty minute period.

Elective credit to the extent of twelve quarter hours in piano, voice, or violin training, or six quarter hours in any two of these, may be used for credit toward graduation.

Students must have a minimum of third grade proficiency in piano in order to be admitted to the four-year curriculum in public school music. In order to meet the requirements students

may register in the preparatory non-credit courses, Piano, 1, 2, 3.

Entering students who have completed the piano requirements of the public school music curriculum (Piano 30, 31, 32, 33, 34, 35) may be exempt from further study of piano if they so desire.

Exemption is determined by examination of the applicant or by his presentation of twelve quarter hours of credit earned in a recognized institution.

1, 2, 3. PIANO, ELEMENTARY COURSE.

Required in the public school music curriculum as preparation for Piano 30, 31, 32. Elective. Two lessons a week. Every quarter. No credit.

30, 31, 32. PIANO, FIRST YEAR. Major and minor scales in four speeds. Studies of Hanon, Czerny, and Heller, or equivalents. Easier Sonatas of Haydn and Mozart. Bach's Two-Part Inventions. A development of technique and sight-reading for an artistic interpretation of the lighter compositions of Mendelssohn, Grieg, Schumann, and MacDowell.

Prerequisite: Piano 1, 2, 3, or the equivalent. Required in the first year of the public school music curriculum. Elective in other curricula. No credit toward graduation for less than twelve quarter hours unless six quarter hours are offered with six quarter hours of another kind of applied music. Two lessons a week. One quarter hour for each course (30, 31, or 32).

33, 34, 35. PIANO, SECOND YEAR. A continuation of technical exercises, arpeggios in dominant and diminished chords; scales in thirds and sixths. Bach's Three-Part Inventions. Easier Sonatas of Beethoven. Selections by standard composers such as Chopin (Waltzes), Schumann (Romances), Debussy (Clair de Lune).

Prerequisite: Piano 30, 31, 32, or the equivalent. Required in the public school music curriculum. Elective in other curricula. No credit toward graduation for less than twelve quarter hours unless six quarter hours are offered with six quarter hours of some other kind of applied music. Two lessons a week. One quarter hour for each course (33, 34, 35).

43, 44, 45. PIANO, THIRD YEAR. Continuation of Piano 33, 34, 35.

Prerequisite: Piano 33, 34, 35, or the equivalent. Elective. No credit toward graduation for less than twelve quarter hours unless six quarter hours are offered with six quarter hours of some other kind of applied music. Two lessons a week. One quarter hour for each course (43, 44, 45).

46, 47, 48. PIANO, FOURTH YEAR. Continuation of Piano 43, 44, 45.

Prerequisite: Piano 43, 44, 45, or the equivalent. Elective. No credit toward graduation for less than twelve quarter hours unless six quarter hours are offered with six quarter hours of some other kind of applied music. Two lessons a week. One quarter hour for each course (46, 47, 48).

(2) Violin

Elective credit to the extent of twelve quarter hours in piano, violin, or voice training or six quarter hours in each of any two of these may be used for credit toward graduation.

30, 31, 32. VIOLIN, FIRST YEAR.

Elective. Two lessons a week. Three quarter hours for the year's work.

33, 34, 35. VIOLIN, SECOND YEAR.

Prerequisite: Violin 30, 31, 32, or the equivalent. Elective. Two lessons a week. Three quarter hours for the year's work.

VI. Voice Training

Elective credit to the extent of twelve quarter hours in piano, violin, or voice training or six quarter hours in each of any two of these may be used for credit toward graduation.

One student is assigned to each fifty-minute period.

30, 31, 32. VOICE, FIRST YEAR. Fundamental principles of voice building, correct posture, and proper breathing. Vocal technique, vowel articulation, Concone studies, modern English songs.

Required in the first year of the public school music curriculum. Elective in other curricula. One lesson a week. Three quarter hours for the year's work.

33, 34, 35. VOICE, SECOND YEAR. Advanced vocalization exercises for legato and staccato, studies by Concone, Bordoni, and others. Song classics.

Required or elective in the second or fourth year of the public school music curriculum. Elective in other curricula. One lesson a week. Three quarter hours for the year's work.

43, 44, 45. VOICE, THIRD YEAR. Art of vocalization, studies of Bordoni, Vacai, and Lamberti. Songs in Italian, German, and English.

Prerequisite: Voice 33, 34, 35, or the equivalent. Elective. One lesson a week. Three quarter hours for the year's work.

46, 47, 48. VOICE, FOURTH YEAR. Advanced song interpretation. Studies in technique by Lütgen and Lamberti. Songs and arias in Italian, German, French, and English.

Prerequisite: Voice 43, 44, 45. Elective. One lesson a week. Three quarter hours for the year's work.

PENMANSHIP

College

20. This course aims to improve the student's writing and to make him familiar with a system of plain business writing and methods of presenting it to pupils in the grades.

The course includes correct position, muscular movement exercises, business forms of capital letters, small letters, figures, sentences, and page writing. Emphasis is placed upon blackboard writing.

Four hours a week. One quarter hour. Every quarter.

PHYSICAL EDUCATION FOR MEN

High School

First Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Free developing exercises, marching, tumbling, apparatus work, and games.

Required in the first year. Two hours a week. Every quarter.

Second Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Advanced work on the horse and parallel bars, advanced steps and games. During the spring and fall the work is on the athletic field and consists of games and track work. The course includes lectures on hygiene and kinesiology.

Required in the second year. Two hours a week. Every quarter.

College

Note.—Credit earned in physical education or in Coaching 33, 34, 35; 36, 37, 38 is in addition to the 96 quarter hours required for a diploma and the 192 quarter hours required for a degree.

First Year's Work. See above.

One quarter hour for each quarter's work, but not counted toward graduation total.

Second Year's Work. See above.

33, 34, 35. ATHLETIC COACHING. First Year.

36, 37, 38. ATHLETIC COACHING. Second Year.

Elective. One quarter hour for each quarter's work to which one hour a week is given. Fall, winter, and spring quarters.

41, 42, 43, 44. PRACTICE COACHING IN THE HIGH SCHOOL. Football, Coaching 41; basketball, Coaching 42; baseball, Coaching 43; track, Coaching 44.

Prerequisite: Coaching 33, 34, 35, 36, 37, 38, at least two years of experience as a player in the branch of athletics in which he is going to coach, and Senior College classification. Registra-

tion for one of these courses is made only upon the written recommendation of the director of physical education and the written consent of the teacher of the student's major subject if it is to be substituted for practice teaching in the major subject. One or more of these courses may be used for elective credit.

Elective. Ten hours a week. Four quarter hours for each of the courses.

PHYSICAL EDUCATION FOR WOMEN

Physical education, two hours a week for two years, is required both in the high school and in the college. A thorough physical examination is given at the beginning of each year. Physical defects, abnormalities, and weaknesses are noted, and the examining physician prescribes exercise to fit the student's individual needs. A resident health director follows up all cases in need of medical attention.

Note.—Credit earned in these courses is in addition to the 96 quarter hours required for a diploma and the 192 quarter hours required for a degree.

Hockey, archery, soccer and tennis are offered in the fall and spring quarters; gymnastics and individual work in the winter quarter. College students may take folk dancing or clog dancing in the winter quarter instead of gymnastics.

HOCKEY I. Lectures on playing, coaching, and refereeing the game and practice in playing. At the end of the spring quarter there is an interclass tournament. Only students who are physically fit are admitted to this course.

Two hours a week. One quarter hour for each quarter's work. Fall and spring quarters.

HOCKEY II. Lectures and practice in refereeing and coaching as well as in playing the game.

Prerequisite: Hockey I. Two hours a week One quarter hour for each quarter's work. Fall and spring quarters.

ARCHERY. Lectures and practice in target shooting. Students who are not physically fit to do regular work take this course. At the end of the spring quarter there is an interclass tournament.

Two hours a week. One quarter hour for each quarter's work. Fall and spring quarters.

GYMNASTICS I. Marching, floor work, and apparatus work. For apparatus work, the class is divided into squads, and each squad elects a leader to direct its activities.

Students who took archery in the fall quarter take a restricted type of gymnastics in the winter quarter.

Two hours a week. One quarter hour for each quarter's work. Winter quarter.

GYMNASTICS II.

Prerequisite: Gymnastics I. Two hours a week. One quarter hour. Winter quarter.

FOLK DANCING. Folk dances, singing games, and rhythm plays are taught for use in the grades and high school. College students who are physically fit may elect this course in the winter quarter.

Two hours a week. One quarter hour. Winter quarter.

CLOG DANCING. Clog and character dances are taught for use in the upper grades and high school. College students who are physically fit may elect this course in the winter quarter.

Two hours a week. One quarter hour. Winter quarter.

INDIVIDUAL WORK. This course deals with the correction of abnormal conditions such as faults of posture, lateral curvature of the spine, round shoulders, ptosis, weak and flat feet.

Two hours a week. One quarter hour for each quarter's work. Winter quarter.

READING

College

24. Designed both to improve the oral and silent reading of the pupils and to give them definite standards by which they may intelligently judge the reading of others. Some attention is given to methods of teaching reading in the grades.

Required in the two-year curriculum. Four hours a week with preparation. Four quarter hours. Every quarter.

BIOLOGICAL SCIENCE

I. HUMAN PHYSIOLOGY

High School

1, 2. Life processes of the human body and the functions of its more important organs and tissues. The minimum amount of anatomy for the understanding of these activities and functions is given. An application of the facts and principles is made to show ways of improving the body as a working machine and of keeping it in health; hence the subject of hygiene is included.

Required in the ninth year (See Science 5, 6). Five hours a week. Two-thirds of a unit. Winter and spring quarters.

20. **HYGIENE AND SANITATION.** The first half of the course considers health factors (environment, living habits, heredity),

nutrition, the muscular, excretory, and nervous systems, and the ductless glands.

The second part takes up bacteria and the resistance of the body to them, immunity to disease, water and water purification, sewage disposal, ventilation, food preservation, and health departments.

Required in all curricula. Four hours a week. Four quarter hours. Every quarter.

43. ELEMENTARY PHYSIOLOGY. The fundamental principles of animal physiology, including the chemical and physical structure of animate matter; the reactions involved in animals, including the human body, in responding to environmental conditions; the formation, structure, and functions of blood and lymph; and the fundamental structure of the nervous system with particular emphasis on reflex actions. A survey of the conditions determining the activities of living forms.

Elective. Six hours a week. Four quarter hours. Summer quarter.

44. ELEMENTARY PHYSIOLOGY. A study of respiration, foods, digestion, metabolism, and excretion.

Prerequisite: Physiology 43. Elective. Six hours a week. Four quarter hours. Summer quarter, even years.

45. ELEMENTARY PHYSIOLOGY. A study of circulation, the organs of internal secretion, the central nervous system, and the special senses.

Prerequisite: Physiology 43. Elective. Six hours a week. Four quarter hours. Summer quarter, odd years.

II. BOTANY

The botany department is well equipped for the training of teachers of botany in high schools, general biology, nature study in the grades, and general science; and those who complete the four-year botany curriculum are equipped to do graduate work in other institutions. The sequence of courses offered by this department has been carefully arranged for the teaching of botany. These courses with the equipment of the laboratory train the student for skillful laboratory teaching and may train him to enter other occupations in the field of science such as technicians in various laboratories.

The campus affords excellent opportunity for the study of trees, shrubs, and herbaceous plants. There are over two hundred different kinds of trees and shrubs on the campus and numerous herbaceous flowering plants as well as many specimens of the other groups of plants.

High School

1, 2, 3. GENERAL BOTANY. This is a course in general botany for high school students. It is organized in such a way that the students may obtain exact information about the life processes of plants that may be applied to plant culture. Students have the opportunity of learning to know a large number of plants at sight, and to understand something of their physical and chemical structure.

Required in the tenth year unless Zoölogy 1, 2, 3 is substituted. Five sixty-minute periods a week. One unit. Botany 1, fall quarter; Botany 2, winter quarter; Botany 3, spring quarter.

College

20. COLLEGE BOTANY. A course designed to give the student a knowledge of the fundamental physiological processes concerned in the growth of plants, and of the external and internal structures which are concerned in these processes in leaves, stems, and roots. It includes also the effects of environment on these processes and structures.

Required in the two-year curriculum, unless Zoölogy 23 (or 20) or Botany 21 or 22 is taken. Elective in other curricula. Six hours a week. Four quarter hours. Every quarter.

21. COLLEGE BOTANY. A study of the reproduction of flowering plants, the development of fruit and seeds from the parts of the flower, the mechanism of heredity, and a brief study of the great groups of plants.

Prerequisite: Botany 20. Elective. Six hours a week. Four quarter hours. Winter and summer quarters.

22. GENERAL LOCAL FLORA. The identification of trees in winter and summer condition, of the common fresh water algae, liverworts, mosses and ferns, and of flowering plants as the season advances; and with a study of structures which is necessary for the recognition of these forms. The course is designed especially for those who expect to teach biological science in secondary schools.

Prerequisite: Botany 20 and 21 or permission of the instructor. Elective. Six hours a week. Four quarter hours. Spring and summer quarters.

23. DENDROLOGY AND WOOD ANATOMY. This course includes a study of the chemical and physical processes concerned in the formation of cell walls in plants; the development of various types of stems, the distribution of commercial woods; trees in winter and summer condition; the microscopic study of the woods used in the manual arts.

Required in the sophomore year of the Manual Arts curriculum. Six hours a week. Four quarter hours. Spring quarter.

30. THE MORPHOLOGY OF GREEN PLANTS. A study of the vegetative and reproductive structures of the green plants and a comparative study of the typical life histories of the great groups. The course consists mostly of laboratory work.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Fall quarter.

31. INTRODUCTION TO FUNGI AND PLANT DISEASES. The structure, life histories, and physiology of the groups of fungi and their relation to decay, fermentation, and the important plant diseases.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Winter quarter.

32. ECONOMIC BOTANY. The relation of vegetation centers to crop centers; the effect of environmental factors on the production of carbohydrates, fats, fibers, and other plant products; the value of microorganisms in the important economic practices carried on by their use.

Prerequisite: Botany 20 and 21. Elective. Four hours a week. Four quarter hours. Spring quarter, beginning 1931-32.

40. METHOD IN HIGH SCHOOL BOTANY. The course includes methods of teaching high school botany and also the collection and preparation of material for demonstration and laboratory in high school botany.

Prerequisite: Two years' work in college botany. Required in the senior year in the four-year curriculum in botany. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL BOTANY.

Prerequisite: Botany 40. Required in the senior year in the four-year curriculum in botany unless Zoölogy 41 is substituted. Five hours a week. Course 41, four quarter hours; Course 42, four quarter hours. Winter and spring quarters.

43. MICROTECHNIC. A course designed for the purpose of giving the student a knowledge of the preparation of botanical material for class use and for the making of microscopic slides. It is desirable that students in this course shall have had a year of chemistry.

Prerequisite: Botany 20, 21, 22, and 30, or the equivalent. Elective. Six hours a week. Four quarter hours. Fall quarter, beginning 1932-33.

44. EXPERIMENTAL PLANT PHYSIOLOGY. A qualitative and quantitative study of the experiments demonstrating the chemical and physical processes that result in the growth of plants and

the application of this knowledge in solving problems in the growth of plants.

Prerequisite: One year of chemistry and Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Winter quarter.

45. ADVANCED BOTANY. This is designed to meet the needs of individual students who wish to do advanced work in some special field of botany. The student may choose the work he wishes to do, but is required to consult the instructor before registering.

Prerequisite: Botany 20, 21, 22, 30, and 43. Elective. Six hours a week. Four quarter hours. Any quarter, by permission.

III. ZOÖLOGY

High School

1. ELEMENTARY INVERTEBRATE ZOÖLOGY. Important groups of invertebrates are considered, as far as possible, in their evolutionary order. Particular emphasis is given to life processes, behavior, relation to surroundings, geographical distribution, and importance to man.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit. Fall quarter.

2. ELEMENTARY VERTEBRATE ZOÖLOGY. Classes of vertebrates are studied somewhat in detail, but special attention is given to fishes, birds and mammals. Considerable identification work is done by the use of keys. Methods of collecting and preserving material and of caring for live animals are taught.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit. Winter quarter.

3. FIELD ZOÖLOGY. Life histories, relations to surroundings, and economic importance of common animals in the principal animal habitats found in the Charleston region which are (1) the open field or prairie, (2) the forest, (3) stream or pond, and (4) household and home premises. Methods of collecting and preserving material, both living and non-living, are emphasized. The course gives a foundation for elementary science teaching in graded schools, where animal materials are used.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit. Spring quarter.

College

20, 21, 22. ELEMENTARY ZOÖLOGY.

Elective. Six hours a week. Twelve quarter hours. Course 20, fall quarter; Course 21, winter quarter; Course 22, spring quarter; also summer quarters.

23. NATURE STUDY. This course is designed to meet the biology requirement of the two-year curriculum. Its aim is to give a background for the teaching of nature study in the grades. It replaces the former requirement of Zoölogy 20. The course includes a study of the fundamental life processes and of the identification of birds and insects. It is not accepted for Zoölogy 20 or 21 toward a laboratory science requirement.

Required in the freshman year of the two-year curriculum unless Botany 20 is taken. Six hours a week. Four quarter hours. Fall, winter, and spring quarters.

30, 31, 32. ADVANCED ZOÖLOGY AND SPECIAL METHODS. A study of fresh-water animals and their environment. Much attention is given to the common and important species of aquatic vertebrates with a view to familiarize students with taxonomic and research methods; and opportunities for students carrying on some independent investigations are provided. It prepares for teaching biological science in upper grades or high school.

Prerequisite: Zoölogy 20, 21, or 1, 2. Elective. Six hours a week. Twelve quarter hours. Course 30, fall quarter; Course 31, winter quarter; Course 32, spring quarter, even years.

40. METHOD IN HIGH SCHOOL ZOÖLOGY. The course includes methods of teaching zoölogy and also the collection and preparation of material for demonstration and laboratory in high school zoölogy.

Prerequisite: Two years' work in college zoölogy. Required in the senior year in the four-year curriculum in zoölogy. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL ZOÖLOGY.

Prerequisite: Zoölogy 40. Required in the senior year in the four-year curriculum in zoölogy unless Botany 41 is substituted. Five hours a week. Course 41, four quarter hours; Course 42, four quarter hours. Winter and spring quarters.

43, 44, 45. ADVANCED ZOÖLOGY. A study of insects. Deals with the classification and ecology of this large and important class. Methods of collection and preparation of specimens are studied. It prepares for teaching biological science in the upper grades or high school.

Prerequisite: Zoölogy 20, 21, or 1, 2. Elective. Six hours a week. Twelve quarter hours. Zoölogy 43, fall quarter; Zoölogy 44, winter quarter; Zoölogy 45, spring quarter, odd years.

46, 47, 48. ADVANCED ZOÖLOGY. This course is arranged to meet the desires and attainments of the individual student. Considerable latitude is given in the choice of a problem, the aim being to encourage and develop ability to pursue original investi-

gations. Frequent conferences with the instructor are held to discuss methods of approach and results.

Prerequisites: Two years of work in zoölogy and permission of the instructor. Six hours a week (to be arranged with the instructor). Four quarter hours for each quarter's work. By permission; any quarter.

PHYSICAL SCIENCE

GENERAL SCIENCE

High School

4. INTRODUCTION TO CHEMISTRY.

Required in the ninth year. Five periods a week. One-third of a unit. Fall quarter.

5, 6. PHYSIOLOGY AND HYGIENE. See Human Physiology, Courses 1 and 2.

PHYSICS

High School

1, 2, 3. ELEMENTARY PHYSICS. Physics 1, mechanics and heat; Physics 2, magnetism and electricity; Physics 3, sound and light.

Prerequisite: Geometry 1, 2, 3. *Required or elective in the eleventh or twelfth year. Seven hours a week. One unit. Physics 1, fall quarter; Physics 2, winter quarter; Physics 3, spring quarter.*

College

30, 31, 32. FIRST YEAR OF COLLEGE PHYSICS. Physics 30, mechanics and heat; Physics 31, magnetism and electricity; Physics 32, light and sound.

Seven hours a week. Four quarter hours for each course. Physics 30, fall quarter; Physics 31, winter quarter; Physics 32, spring quarter.

33, 34, 35. SECOND YEAR OF COLLEGE PHYSICS. Physics 33, mechanics and heat; Physics 34, light and sound; Physics 35, magnetism and electricity.

Prerequisite: Physics 30, 31, 32. *Four hours a week. Four quarter hours for each course. Physics 33, fall quarter; Physics 34, winter quarter; Physics 35, spring quarter.*

40. THE TEACHING OF PHYSICS.

Required in the senior year in the four-year curriculum in physics. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN PHYSICS.

Required in the senior year in the four-year curriculum in physics. Five hours a week. Four quarter hours for each course. Winter and spring quarters.

43. RADIO. A study is made of the principles underlying radio communication. The course includes a study of some typical circuits used in receiving sets and a detailed study of the function of inductance, capacitance, and resistance in electric circuits. Types of vacuum tubes are discussed.

In the laboratory, electrical measurements of parts and assembled units are made. This includes taking characteristic curves of vacuum tubes.

Prerequisite: Physics 31. Six hours a week. Four quarter hours. Summer quarter.

44. ELECTRICAL MEASUREMENTS.

Prerequisite: Physics 31. Eight hours a week. Four quarter hours. Summer quarter.

45, 46, 47. THIRD YEAR OF COLLEGE PHYSICS. Physics 45, mechanics and heat; Physics 46, light and sound; Physics 47, magnetism and electricity.

Prerequisite: Physics 30, 31, 32. Eight hours a week. Four quarter hours for each course. Physics 45, fall quarter; Physics 46, winter quarter; Physics 47, spring quarter.

CHEMISTRY

High School

1, 2, 3. ELEMENTARY INORGANIC CHEMISTRY.

Required or elective in the eleventh or twelfth year. Seven hours a week. One unit. Chemistry 1, fall quarter; Chemistry 2, winter quarter; Chemistry 3, spring quarter.

College

Note.—Four year-sequences are offered: 1. General inorganic chemistry and introduction to qualitative analysis (30, 31, 32). 2. Qualitative and quantitative analysis (33, 34, 35). 3. Organic chemistry (43, 44, 45). 4. Physical chemistry (46, 47, 48).

Those for whom chemistry is the minor subject should take Chemistry 33, 34, 35 for the second year's work if they expect to teach high school chemistry.

It is best also to have Chemistry 33, 34, 35 before Chemistry 46, 47, 48.

The student's major subject will sometimes decide which of the three year-sequences he should take after the first if he is to have but one more.

30, 31. GENERAL INORGANIC CHEMISTRY. Non-metals.

Elective. Seven hours a week. Five quarter hours for each course. Chemistry 30, fall quarter; Chemistry 31, winter quarter.

32. METALS AND INTRODUCTION TO QUALITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31. Seven hours a week. Five quarter hours. Spring quarter.

33. QUALITATIVE ANALYSIS, Continued.

Prerequisite: Chemistry 30, 31, 32. Seven hours a week. Five quarter hours. Fall quarter, even years.

34, 35. QUANTITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31, 32. Seven hours a week. Five quarter hours for each course. Chemistry 34, winter quarter; Chemistry 35, spring quarter, even years.

40. THE TEACHING OF CHEMISTRY.

Required in the senior year in the four-year curriculum in chemistry. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN CHEMISTRY.

Required in the senior year in the four-year curriculum in chemistry. Five hours a week. Four quarter hours for each course. Winter and spring quarters.

43, 44. ORGANIC CHEMISTRY.

Prerequisite: Chemistry 30, 31, 32. Six hours a week. Four quarter hours for each course. Chemistry 43, fall quarter; Chemistry 44, winter quarter, every year, beginning 1932-33.

45. FOOD AND PHYSIOLOGICAL CHEMISTRY.

Prerequisite: Chemistry 43, 44. Six hours a week. Four quarter hours. Spring quarter, every year, beginning 1932-33.

46. PHYSICAL CHEMISTRY. A study of the fundamental principles of chemistry. Solutions and colloids are considered.

Prerequisite: Chemistry 30, 31, 32 and Mathematics 31, 32, 36. Six hours a week. Four quarter hours. Fall quarter, odd years, alternating with Chemistry 33, 34, 35.

47, 48. PHYSICAL CHEMISTRY. Chemical crystallography, electrochemistry, chemical kinetics, and atomic structure are considered.

Prerequisite: Chemistry 46 and Chemistry 33, 34, 35 if possible. Six hours a week. Four quarter hours. Winter and spring quarters, odd years, alternating with Chemistry 33, 34, 35.

PART III

LISTS

THE TEACHERS COLLEGE BULLETIN

The Teachers College Bulletin, a sixteen-page monograph, devoted to educational topics, is issued quarterly and distributed in the immediate territory of the College free of charge. The numbers issued, exclusive of summer school bulletins and annual catalogues, are:

1. A Suggestion for Teaching Shakespeare's Dramas, *by Thomas H. Briggs, Jr., A. B.*
2. Method of Teaching, *by Francis G. Blair, B. S.*
3. The Causal Idea of History, *by Roswell C. McCrea, Ph. D.*
4. Some of the Objects of Studying English Grammar, *by W. M. Evans, Litt. D.*
5. The School Garden, *by Otis W. Caldwell, Ph. D.*
6. Manual Training, *by Caroline A. Forbes.*
7. The School Library, *by Florence M. Beck, B. L. S.*
8. Graphic Arithmetic, *by E. H. Taylor, B. S.*
9. Reading in the Grades, *by Katharine Gill.*
10. The Relation of the Home and School, *by Charlotte May Slocum.*
11. Bird Study in the Rural School, *by Thomas L. Hankinson, B. S.*
12. Bird Study in the Rural School (Second Edition), *by Thomas L. Hankinson, B. S.*
13. Physics in the High School, *by Albert B. Crowe, A. M.*
14. Some Suggestions for the Teaching of Geography in the Grades, *by Annie L. Weller, B. S.*
15. Fourth Year Geography in the Illinois Course of Study—Topic: The Work of Water, *by Clara M. Snell.*
16. English Composition in Secondary Schools—Topic: Correct English, *by Florence V. Skeffington, A. B.*
17. The Study of Literature in the Upper Grades, *by Isabel McKinney, A. M.*
20. The School Garden II, *by Otis W. Caldwell, Ph. D.*
23. Some Problems in Education, *by John M. Coulter, Ph. D.*
26. Education and Utility, *by W. C. Bagley, Ph. D.*
29. Eastern Illinois Teachers' Association—Thirteenth Annual Meeting.
30. Reading in the Grades (Second Edition), *by Katharine Gill.*
32. The Annual Invitation Athletic and Oratorical Meet, held at the Eastern Illinois State Normal School.
34. Schoolroom Gymnastics and Graded Games, *by Alice M. Christiansen.*
37. Views of the Buildings and Grounds.

38. Arguments for Vocational Guidance, *by E. E. Lewis, A. M.*

41. English Literature in Secondary Schools: The Rise of the Drama in England; Outlines for the Study of Literature, *by DeWitt C. Sprague, Ph. B.*

44. Alumni Register, 1900-1913.

46. Material on Geography (which may be obtained free or at small cost), *by Mary Josephine Booth, A. B., B. L. S.*

50. Lists of Material (which may be obtained free or at small cost), *by Mary Josephine Booth, A. B., B. L. S.*

53. Bird Study in the Rural School, *by Thomas L. Hankinson, B. S.*

54. Material on Geography (which may be obtained free or at small cost), Revised Edition, *by Mary Josephine Booth, A. B., B. L. S.*

57. An Outline for the Teaching of Agriculture in the Seventh and Eighth Grades, *by Carl Colvin, B. S.*

58. An Inquiry into the Methods by Which the State Normal Schools Are Controlled, *by Clifford Chesley Hubbard, A. M.*

61. Reading Aloud: War-Time Suggestions, *by John M. Clapp, A. M.*

62. Campus Reflections.

65. New Poetry and the Composition Class, *by Earl R. K. Daniels, A. B.*

66. Training Departments in State Normal Schools in the United States, *by Lester M. Wilson, Ph. D.*

69. Material on Geography (which may be obtained free or at small cost), Second Revised Edition, *by Mary J. Booth, A. B., B. L. S.*

70. Report of Committee of Fifteen.

73. List of Books for the First Six Grades, *by Mary J. Booth.*

74. Course of Study in English for the First Six Grades, *by Isabel McKinney, A. M.*

77. Alumni Register, 1920-1921.

78. Material on Geography (which may be obtained free or at small cost), Third Revised Edition, *by Mary J. Booth, A. B., B. L. S.*

81. Material on Geography, Second Printing of the Third Revised Edition.

82. Twenty-fifth Anniversary Letter to Alumni.

85. Teaching Children to Read, *by Anna Holden Morse.* (Reprinted 1931.)

86. Lincoln-Douglas Debate at Charleston, *by S. E. Thomas, A. M.*

89. Trees and Shrubs of the Campus, *by Ernest L. Stover, Ph. D.*
90. The Story of Charleston, A Bulletin by a Tenth Grade English Class.
93. An Analysis of the Student Body for the Year 1925-1926, *by Ralph Haefner.*
94. The Use of Modern Poetry with Children, *by Florence E. Gardiner.*
97. Second Printing of Bulletin No. 94.
98. The Training of Teachers at the Eastern Illinois State Teachers College, *by Fiske Allen.*
101. Arithmetic Teachers in the Making, *by E. H. Taylor.*
102. Opportunities for High School Graduates in Public School Teaching in Illinois, *by a Committee of the Illinois Schoolmasters Club.*
105. Thirtieth Anniversary Bulletin, *compiled by Grace Geddes and Anna H. Morse.*
106. Alumni Register, 1900 to 1929, *compiled by Ruth Carman.*
109. Practical Arts at the Eastern Illinois State Teachers College, *by L. F. Ashley.*
110. A Mesophytic Ravine, "Rocky Branch," *by E. L. Stover.*
113. The Junior High School, An Annotated Bibliography, *by F. A. Beu.*
114. The Training of Public School Art Teachers, *by Grace E. Messer.*

CORRESPONDENCE

School officials who are looking for teachers may obtain full and confidential information in regard to the qualifications, character, and experience of former students who are candidates for positions in their schools.

Former students who wish teaching positions may register their names with the chairman of the appointment committee.

Bulletins published by the college are sent upon request.

For the motto of an educational theory meet for the needs of democracy in an increasingly industrialized civilization, I propose the phrase,

"Through Discipline to Freedom."

WILLIAM CHANDLER BAGLEY

THE COLLEGE CALENDAR, 1933-1934

PART I

GENERAL INFORMATION

The Eastern Illinois State Teachers College is a
TEACHERS COLLEGE in the American Association of
Teachers Colleges, and a COLLEGE in the North Central
Association of Colleges and Secondary Schools.

EASTERN ILLINOIS STATE TEACHERS COLLEGE

LOCATION

The Eastern Illinois State Teachers College is located at Charleston, the county seat of Coles County. Charleston is on the Big Four and Nickel Plate railroads and is connected with the Illinois Central Railroad at Mattoon and with Kansas and Paris by a motor bus line.

HISTORY

To provide more adequate facilities for the training of teachers for the public schools of the state the legislature by an act approved May 22, 1895, established the Eastern Illinois State Normal School. This by an act of legislature in 1921 became "The Eastern Illinois State Teachers College at Charleston." On September 7, 1895, the five trustees provided for in the act selected a beautiful forty-acre tract of land three-quarters of a mile south of the public square of Charleston. The citizens of Charleston bought the land and presented it to the state. The building was erected at a cost of \$180,000. The grounds have a good elevation and are shaded by many fine old trees.

December 2, 1895, the contract was made for the erection of the building. The cornerstone was laid on the afternoon of May 27, 1896. The building and grounds were dedicated August 29, 1899, and on September 12, 1899, the institution was opened to students.

During the first year there were nineteen members of the faculty and two hundred forty students. At the end of the first year, June, 1900, four students were granted the diploma of the school upon completion of the course of study. In 1932, sixty-seven students were graduated from the Junior College and sixty-six from the Senior College.

During the summer of 1901, a six weeks session was offered for teachers. From 1920-1932, the college offered a twelve weeks summer quarter. A mid-spring session of six weeks was offered from 1922 to 1929.

In 1907 the state legislature appropriated one hundred thousand dollars for a woman's building. This building was completed and occupied in January, 1909. It has proved to be a distinct

addition to the cultural value of the institution. In addition to providing a beautiful home for one hundred young women during their residence in Charleston, it has had a marked influence in establishing good standards of living, and has come to be the social center of college life.

In 1911 the state legislature appropriated seventy-five thousand dollars for a training school building which was completed in 1913 with the exception of the assembly room which it still lacks.

In 1907 the power of conferring degrees was granted to the institution by the state legislature. Courses leading to the degree of Bachelor of Education (B. Ed.) were announced in 1920.

In 1925 the state legislature appropriated one hundred seventy thousand dollars for a Practical Arts Building. This building, completed in 1929, is used for home economics (Smith-Hughes) and for industrial arts.

In 1931, a seventy-two acre tract of land was added to the campus through an appropriation of \$21,600 made by the Fifty-seventh General Assembly.

The institution has always stood for sound scholarship and has striven to inculcate in the minds of its students a sincere love for truth. One of the gratifying evidences that it is in a measure fulfilling its mission is the fact that so many of its students have gone on to higher institutions of learning the better to equip themselves for service.

PURPOSE

The function of the state in education extends of necessity to the training of teachers. A rational system of public education implies provision for securing efficiency in the teaching office. State Teachers Colleges are the natural outgrowth of a policy of public education. The state is the only agency competent to meet the demands for qualified teachers imposed by its own attitude toward the instruction of its people. The object of a State Teachers College is not to extend the earning power of one class of persons at the public charge. It is to give a culture and learning dedicated in a special way to the general welfare. It exists primarily not for the benefit of its students but for the benefit of the whole people. Such a conception is fundamental and determines questions of organization, courses of study, and methods of instruction in the State Teachers Colleges.

EQUIPMENT

GROUNDS.—The grounds comprise forty acres, including the campus proper, the forest plantation, and the athletic field. These grounds, laid out by Mr. Walter Griffin, one of the most skillful landscape gardeners in the country, are justly considered exceptionally beautiful. A natural grove and other fine trees, a pond, a wide stretch of green, many borders of shrubbery and perennials in the natural style present a succession of pictures throughout the year. In the main grounds are the tennis courts, the children's playgrounds, the athletic field for girls, and the school garden. The forest plantation, planted during the early years of the institution, now includes several acres of thrifty trees, much used in botanical and zoölogical studies. In the adjoining athletic field, one of the best among those of the small colleges of the state, are the baseball diamond, the football field, and the quarter-mile cinder track.

A seventy-two acre tract of land was added to the campus in 1931 through an appropriation of \$21,600 made by the 57th General Assembly. It is used for athletics and physical education. The house is used as a club house by the Men's Union.

MAIN BUILDING.—The main building is a three-story structure, three hundred twenty-three feet in length, built of rough Bedford stone. It is in the Norman style, with a tower which is the neighborhood landmark. In this building are offices, the library, the assembly room, music and art rooms, classrooms, and laboratories.

TRAINING SCHOOL BUILDING.—The training school building of smooth Bedford stone was completed (except the assembly room) in 1913 at a cost of seventy-five thousand dollars. It is placed conveniently near the main building, and besides the rooms for the elementary school it contains classrooms, a children's library, and a laboratory for high school agriculture.

PEMBERTON HALL.—The legislature of 1907 appropriated one hundred thousand dollars for a woman's building and gymnasium—the first appropriation for a woman's building ever made in the state of Illinois. A fine stone structure was finished and occupied January 4, 1909. The building has met the fondest hopes of its most ardent advocates, and its value as a social center in the college and in setting good standards of living is well established.

Room, including heat and light, with table board and privileges of laundry, costs \$5.75 a week. For table board, \$4.00 a week is charged. Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. Reservation is filed at the Hall when deposit is received

and credited at the business office. Application blanks will be sent at the request of students.

The deposit is credited to the student as part of the first month's payment, but forfeited if the student cancels the reservation too late to have it used by someone else.

PRACTICAL ARTS BUILDING.—The Practical Arts Building, completed in 1929, at a cost of \$135,000 for the building and \$40,000 for new equipment, furnishes excellent facilities for students who wish to specialize in industrial arts and home economics for grade and high school positions and for the preparation of teachers in these subjects for the Smith-Hughes Vocational Schools. Shops are provided for practice in all kinds of hand and machine woodwork, metal machine shops and automobile repair, sheet metal work, general metal, electrical construction and installation, printing, and mechanical drawing. These shops are all well lighted and on the first floor of the building. The basement consists of classrooms, storage rooms, and locker rooms.

The home economics department occupies the entire second floor of this building. Here are food laboratories, sewing rooms, fitting rooms, a lecture room, a dining room, a unit kitchen, a foods classroom, offices, and reception room, all arranged for the greatest convenience and efficiency in teaching.

There is floor space of approximately 27,500 square feet in the building. The first floor occupies 12,700 square feet, the second floor 7,400 square feet, and the basement a similar amount.

MUSIC BUILDING.—The small Manual Arts building, south of the power house, is now used for the band and orchestra. Lessons are given here in band and orchestra instruments.

LIBRARY.—The library now contains about 39,000 books and pamphlets. The reference books, bound periodicals, and reserve books are shelved in the reading room. Here are also found the current numbers of almost two hundred periodicals, including, in addition to those of general interest, many devoted to special subjects. The books for general circulation are kept in the stack room. For grades lower than the seventh, schoolroom libraries are provided. The library has a dictionary card catalogue and the books are classified according to the Dewey decimal system. There is a large collection of classified pictures for use in all departments. Three librarians are in charge, giving necessary aid and instruction to students in the use of books. Lessons in the use of the library are required in all curricula as explained in the Description of Courses.

SCHOOL GARDEN AND GREENHOUSE.—An opportunity is given for seeing the work done by pupils of the Training School in elementary agriculture. Small plots of ground are planted and

cared for by the pupils under the direction of the teacher of agriculture and the teachers of the Training School. Connected with the children's garden are a model vegetable garden, a rose garden, and a garden for experimentation and exhibition purposes. All of these divisions are used for demonstrating the proper care of plants, the methods of propagation, crop rotation, and some of the principles of plant breeding.

An excellent four-room greenhouse contains many plants of unusual interest and serves as an important adjunct to the botanical laboratories.

Additional facilities for field observation and for obtaining laboratory materials are offered by a small lake and a forest plantation of six thousand trees within five minutes' walk of the biological laboratories.

LABORATORIES.—The botanical laboratories are well equipped for the training of teachers for high schools.

The laboratory tables are so equipped that each student has a light at his desk. The plant collections include numerous specimens of all kinds of plants so that each student may have his own material for study and may become well acquainted with plants.

The mechanical equipment consists of about three thousand microscopic slides that are of the best workmanship; compound microscopes of modern construction; a good projection lantern with several hundred lantern slides of plants and their structures; numerous pieces of apparatus for the demonstration of the physiological processes occurring in plants; and microtomes for the cutting of sections of plant tissues for the preparation of microscopic slides.

The zoölogy and physiology laboratory has sufficient equipment so that forty-four students may work at the same time, each being supplied with a compound microscope, a simple microscope, and other equipment necessary for examining specimens. There are many preserved specimens of both local and foreign fauna, including marine animals. The accession numbers of these now run over 16,000. Most of these are preserved in formalin and alcohol, but there are nearly two hundred mounted birds and mammals and over three hundred skins of these types of animals. There are also many shells, corals, and thousands of mounted insects, and other dried specimens. There are ample facilities for keeping live animals. Many models and skeletons are used and also about sixty-five of the best charts obtainable. Over twenty-five hundred lantern slides are available for illustrative purposes.

The chemistry laboratory is well equipped with all apparatus needed for demonstration and for laboratory experiments. The tables are modern and give places for thirty-two students to work. An ample supply of analytic balances is provided.

The physics laboratory is equipped for experiments in all subjects of physics. It is well wired for electrical work. Wall galvanometers are provided for electrical measurements. Gas, water, and compressed air are available. A dark room is included for photometry and various studies in light. The equipment provides for both demonstration and laboratory work in all courses.

The high school agriculture laboratory is supplied with tables, a set of apparatus for testing milk and its products, and apparatus for soil studies.

EXPENSES

Tuition is free to college students who are to teach in the public schools of Illinois for a period equal to the time spent in this school. Others in the college pay tuition at the rate of \$25.00 a quarter (twelve weeks).

At Pemberton Hall, room, including heat and light, with table board and privileges of laundry, costs \$5.75 a week, payable monthly in advance (\$23.00 at the beginning of each month). For table board, \$4.00 a week is charged, payable monthly in advance (\$16.00 at the beginning of each month). Students are not required to furnish anything.

Fees for college students for each quarter (12 weeks) are \$11.50, distributed as follows:

Registration	\$5.00
Book rent	1.50
Recreation fee	1.00
Athletic Association	2.15
Warbler75
College News75
Band35

Total, College \$11.50

For piano or voice lessons a fee of \$5.00 a quarter is paid. Two lessons are given each week.

Lessons in violin, clarinet, cornet, or other instrument—one or two students in a period—are \$5.00 a quarter, two lessons a week (equivalent to one fifty-minute period a week).

Class work in these instruments is free.

A maximum fee of \$5.00 a quarter is charged for the rental of the instrument.

Holders of Lindly Scholarships do not pay the registration fee (\$5.00), nor the book rent (\$1.50), nor fees for music lessons. Regular quarterly fees for Lindly Scholarship students are \$5.00 in the college and \$3.00 in the high school.

The student must present the Lindly Scholarship at the time the fees are paid in order to be exempt from the payment of the registration fee, book rent, and music fees.

Fees for high school students for each quarter (12 weeks) are \$7.00, distributed as follows:

Registration	\$3.00
Book rent	1.00
Recreation fee	1.00
Athletic Association	1.00
Warbler50
College News25
Band25

Total \$7.00

Lindly Scholarship students in the high school pay only the activities fees amounting to \$3.00. They do not pay the registration fee (\$3.00) nor the book rent (\$1.00) and are exempt from fees for special music lessons.

PENALTIES

An additional fee of \$1.00 is charged if a student fails to complete his registration on the day or days appointed for registration. An additional fee of \$1.00 is charged if a change in programme is made after the third day of the quarter.

An additional fee of \$1.00 is charged if the student's record at the textbook library is not clear at the close of each quarter.

The original transcript of a student's record with one carbon copy will be mailed upon request without cost to the student; but a charge of \$1.00 is made for additional copies of this transcript sent later.

PLEDGE

"In consideration of free tuition in the Eastern Illinois State Teachers College, I pledge to teach in the public schools of Illinois for a period equal to that covered by my attendance at the Eastern Illinois State Teachers College; and I agree to report annually to the president of the college the number of months taught in Illinois until this pledge is fulfilled. If I do not teach

the required time in the public schools of Illinois within five years after leaving college, I promise to pay to the Eastern Illinois State Teachers College at the end of that period tuition at the rate of \$25.00 for each quarter (twelve weeks)."

BOARD AND ROOM

Board and room can be obtained in private families for from \$5.00 to \$6.00 a week. Room without board can be obtained for from \$1.50 to \$2.25 a week for each student (two students sharing the room).

At Pemberton Hall, room, including heat and light, with table board and privileges of laundry, costs \$5.75 a week, payable monthly in advance (\$23.00 at the beginning of each month). For table board, \$4.00 a week is charged, payable monthly in advance (\$16.00 at the beginning of each month). Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. Reservation is filed at the hall when deposit is received and credited at the business office. Application blanks will be sent at the request of students.

The deposit is credited to the student as part of the first month's payment, but forfeited if the student cancels the reservation too late to have it used by someone else.

The college maintains a Housing Bureau in order to assist students in finding the best rooms obtainable. Householders who have rooms to rent to students are registered with the bureau; the rooms are inspected and when approved are put on the list of available rooms. Students may obtain this list by writing to the Housing Bureau or may come for consultation on arrival at the college.

SCHOLARSHIPS

ARMY AND NAVY SCHOLARSHIPS—Men who served in the United States Army or Navy in the Great War and who were residents of Illinois at the time of entering the service are exempt from the payment of tuition, registration fee, book rent, and the special fee for piano, voice, or instrument lessons.

LINDLY SCHOLARSHIPS—"In order to equalize the advantages of the State Normal Schools" encourage attendance and thereby increase their usefulness, the state legislature passed the Lindly Bill in 1905. This act provides that "there shall be awarded annually to each school township or fractional township a scholarship which shall entitle the holder thereof to gratuitous instruction in any State Normal School for a period of four years."

Holders of Lindly Scholarships do not pay the registration fee (\$5.00), nor the book rent (\$1.50), nor fees for music lessons. Regular quarterly fees for Lindly Scholarship students are \$5.00 in the college and \$3.00 in the high school.

ALUMNI SCHOLARSHIPS—The Alumni Association of the Teachers College awards, when it is possible, four fifty-dollar scholarships to graduates of four-year high schools on the basis of scholarship and general excellence. Half of the award is paid on November 1, and the remainder on January 1. The Association took this action with a view to influencing well-qualified high school graduates to come here for teacher training. No awards were made for the years 1927-1933. The receivers of the awards are members of the freshman class of the year for which the award is made.

THE FLORENCE VANE SKEFFINGTON SCHOLARSHIP.—In memory of Florence Vane Skeffington, whose rare abilities and personality gave character to the English work of this school for seventeen years, the Florence Vane Skeffington Scholarship of one hundred dollars is awarded annually to a student whose gifts and attainments promise distinction in the teaching of English. No new award was made for 1932-1933, as it was expected that Miss Helen Mayfield, the student honored in 1931, would be here 1932-33.

THE TEACHERS COLLEGE HIGH SCHOOL SCHOLARSHIP PRIZE.—The 1927 graduating class of the Teachers College High School established a fund of \$125.00, the interest from which is used each year for a scholarship prize to be given to the member of the graduating class of that year who has maintained the highest standard of scholarship throughout his or her four years in the Teachers College High School.

The fifth award was made to Florence Elizabeth Wood of the high school graduating class of 1932. The award for 1933 will be announced at the high school graduation exercises of the class of 1933.

LOAN FUNDS

THE STUDENT LOAN FUND.—The Student Loan Fund of the Eastern Illinois State Teachers College makes it possible for a deserving student in the second half of the course to borrow, at a low rate of interest on a personal note, a sum of money that will help him to remain in college and complete the course. Students find such temporary assistance of great advantage. The foundation of this fund was secured from admission fees to the Senior Class play and to the Training School entertainment, given during commencement week.

Under the will of the late Dr. W. D. Morgan, of Charleston, there is given to the Student Loan Fund the annual income from about six thousand dollars, which is one-seventh of the estate. An additional amount will be received at the death of certain heirs.

THE ADELIA CAROTHERS FUND.—A fund known as "The Adelia Carothers Fund" has been established by Mrs. Ida Carothers Merriam and Mr. Charles G. Carothers in memory of their mother. This fund is to be loaned to young women students of high character and scholarship during the last half of their course. The student to whom this loan is made is distinctly honored.

STUDENT ACTIVITIES

ENTERTAINMENT COURSE.—For several years the college has maintained during the regular year an entertainment course in order to bring to the students entertainments of genuine interest and merit. The course is supported by the students' activities fee and by the sale to others of single admission tickets. The presidents of the Student Council, the Men's Union, and the Women's League are *ex-officio* members of the Entertainment Course Committee.

Under the auspices of this course such attractions as the following have been presented: United States Marine Band, Minneapolis Symphony Orchestra, Cleveland Symphony Orchestra, St. Louis Symphony Orchestra, Flonzaley Quartette, Coburn Players, Ben Greet Players, Tony Sarg Marionettes, Kreutzberg Dancers, Carl Sandburg.

The entertainment course for 1932-1933 was as follows: Stuart Chase—Lecture on *A New Deal for America*; Vienna Saenger-Knaben; Dr. Clyde Fisher—Lecture on *Earth and Neighbor Worlds*; Dr. Eugene Hegy—Lecture and recital on the *Ether-space Theremin and the Ether-wave Cello*; The Merry Widow—a comic opera produced under the direction of the department of music by students and assisting artists; Tony Sarg Marionettes; Dr. Harlan Tarbell, magician—*Magic through the Ages*.

DRAMATICS.—A Director of Dramatics supervises all dramatic work for public presentation. Under the plan adopted, the high school and the college constitute two dramatic organizations, with elected student officers. The college organization is called "The Players." This organization studies the drama as it appears on the modern stage and experiments with the production of plays. Try-outs for the major productions for public performance are open to all students of the college. Other pro-

grammes are presented during the year if suitable talent is available. The high school organization is called "The Footlights Club."

The ends in view under this plan are as follows:

1. To make possible the development of dramatic talent through a period of years rather than through the period of rehearsal for one play.

2. To attempt to maintain as nearly uniform standards as possible and to build up higher aims as progress is noted.

3. To encourage familiar acquaintance with the artists of the theatre of all times.

4. To establish a fund for permanent equipment.

THE TEACHERS COLLEGE NEWS.—An eight-page weekly, "The Teachers College News," published by a board of student editors with a faculty adviser, is issued on Tuesdays. It is supported by the students' activities fee. In addition to announcements, reports of games, local news, and alumni notes, it contains editorials of high value in influencing college spirit as well as student spirit. Some class work of merit appears occasionally in this paper. It deserves the support of students, teachers, and alumni.

The class of 1924 left, as a class memorial, equipment for a room devoted to the uses of "The News" and the "Warbler."

RECREATION.—A student recreation committee has charge of student recreations which are not solely class affairs. This committee consists of the presidents of the Student Council, the Women's League, and the Men's Union, with a faculty member appointed by the president of the college on the recommendation of these presidents. Other members of the committee may be chosen by this committee as they may see fit.

Class affairs are under the supervision of the faculty advisers of each class. The students are permitted to have parties Saturday or Monday evenings in the gymnasium. In the spring and fall, there are picnics in the neighboring woods. These activities are chaperoned by members of the faculty.

MATHEMATICS CLUB.—The Mathematics Club was organized in the fall quarter of 1927-1928 to further interest in that field of knowledge and to make it possible for students to discuss some of the phases of mathematics which are not included in regular classes. Any one who is interested and has had one year of algebra and one of geometry is eligible to membership. During the first year the club held eight meetings, one of which was an old-time ciphering contest. The club has a membership of about fifty students and teachers.

E. I. VARSITY CLUB.—The E. I. Varsity Club was organized in the fall quarter, 1927, by the letter men of the college for the

purpose of promoting in all possible ways the betterment of athletics at E. I. Meetings are called by the president. Any student in the college who has earned an E. I. monogram is eligible to belong to the club as an active member and any student who has earned the E. I. monogram, but is not in college, is eligible to join the club as an associate member. All members must first be initiated into the club before becoming regular members. The initiation for new members is held during the spring quarter of each school year.

WOMEN'S ATHLETIC ASSOCIATION.—The Women's Athletic Association was organized in the spring, 1932, by the women of the college. Its motto is: "A girl for every sport and a sport for every girl." Any student in the college who has passed a satisfactory physical examination is eligible to membership in the association. The initiation for new members is held at the beginning of each quarter. A girl may join as many clubs as her time permits. Clubs have been formed in archery, basketball, fencing, hiking, hockey, rifle, tennis, and volley ball. Very definite requirements must be met in a sport as well as in scholarship to earn the college or club insignia. Letters are awarded at the annual banquet of the association in the spring quarter.

THE FORUM.—The Forum is a discussion group of students and faculty members who are especially interested in current economic, political, and social problems. Meetings are held bi-weekly throughout the college year; active membership is limited to those who have prepared and presented a paper of merit on some related topic.

PHI SIGMA EPSILON.—The Beta Chapter of Delta Lambda Sigma, organized in the winter quarter of 1927-1928, has been incorporated in Phi Sigma Epsilon, a national fraternity for Teachers Colleges.

The purpose of the organization is to maintain a high standard of scholarship, to promote school spirit, and to cooperate actively with the college in every possible way.

The fraternity has a house in which the members may live and enjoy with one another a true feeling of fellowship.

KAPPA DELTA PI.—Beta Psi Chapter of Kappa Delta Pi, an international honor society in education, was installed on January 2, 1931. Kappa Delta Pi, founded at the University of Illinois in 1911 under the leadership of William Chandler Bagley, has chapters in seventy-one colleges and universities. Students are elected to membership primarily upon the basis of high scholarship, good character, and promise of success in teaching. Election to membership in this organization is one of the highest honors that can be bestowed upon a student.

LE CERCLE FRANCAIS.—Le Cercle Francais was organized November 6, 1930. Membership is open to students who have had two or more years of high school French or two quarters of college French.

The purpose of the club is to promote the interests of French in the school, to improve the conversational ability of the students, and to add to their information concerning French customs, life, and literature.

Meetings are held on alternate Thursday evenings. The programmes include papers prepared by the students, short plays given in French, and French games and songs.

SCIENCE CLUB.—The Science Club was organized in the fall quarter, 1930, by students in the botany, zoölogy, physics, chemistry, and geography departments in order that all may know something of the work in other scientific fields. Papers are presented and time is allowed for questions and for discussion. The membership is not limited to these departments. Anyone interested in science may belong. Meetings are held bi-monthly throughout the year.

WRITERS CLUB.—The Writers Club, now including Sigma Tau Delta, was organized in 1930-1931 for students interested in writing. Members are admitted on the basis of manuscripts submitted in "try-outs" announced from time to time. This club was installed on February 15, 1932, as Omicron Gamma Chapter of Sigma Tau Delta, the national professional writers society. Only honor students in English may become active members of this chapter, which is limited by national constitution to twelve members; but associate and local members are chosen from any candidates who show marked ability in written expression.

SIGMA DELTA.—This is a local journalistic club. Meetings are held bi-weekly. The organization is interested in stimulation of student opinion through the columns of *The Teachers College News*. Membership is elective and is limited to those on the *News* staff who have displayed an active and constructive interest in student problems.

HOME ECONOMICS CLUB.—The Home Economics Club was organized in the fall of 1932-33 and was affiliated with the State and National Home Economics Associations. Anyone whose major subject is home economics is eligible to membership. The aims of this organization are to stimulate interest in home economics, to give more opportunity for leadership, and to become acquainted with persons prominent in the field of home economics.

INDUSTRIAL ARTS CLUB.—The Industrial Arts Club was organized in the fall of 1932. Its purpose is the mutual advancement

of its members. The Club meets bi-weekly in the Practical Arts Building.

Plans are under way for having a chapter of Epsilon Pi Tau, National Industrial Arts Fraternity, installed here in the spring quarter, 1933. The highest ranking students in the Industrial Arts Club will then be elected to this honorary fraternity.

THE MEN'S UNION.—All men students of the college, upon registration, automatically become members of the Union, which was organized in the year 1930-31. Membership entitles the holder to attendance at and voting in all business meetings, privileges at the house, and attendance at any social function sponsored by the Union. After graduation a member is entitled to an alumni membership which gives him club house privileges, attendance at all social functions, and any other privileges granted by the Union.

The purposes of the Union are to create a feeling of unity among the men of the college, and to promote all activities which concern them.

The officers of the Union are the president, elected by the entire organization in a general election, and the executive board consisting of eight men of the college. The four class presidents are members of the board and the men of each class elect one member of their class to represent them on the board.

The Lair is maintained by the Men's Union and is open to all men of the college. The rules governing this club house are made by the executive board of the Men's Union and a resident house manager sees that they are observed.

THE WOMEN'S LEAGUE.—Every woman upon matriculation in the college becomes automatically a member of the Women's League, which was organized in the year 1930-31. Membership in the League entitles the holder to attendance at and voting in all business meetings and attendance at any social functions sponsored by the League.

The object of the League is to promote solidarity among the women of the college by uniting them for social purposes and for constructive effort.

The governing power of the League is vested in an executive council of nine members known as the "Council of Nine." The president is elected from the League at large and may be from any class. Each class elects two of its members to represent them in the council.

STUDENT PUBLICATIONS.—Student publications are in charge of a committee consisting of the president of the Student Council, the advisers and editors of the "Warbler" and of the "College

News" with a faculty member appointed by the president of the college as chairman.

ATHLETICS.—All athletic activities are conducted by the Athletic Council. This council is composed of two members of the faculty, appointed by the president; two students, elected by the students; and the athletic coach. An athletic fee is charged each college student and each high school student as part of the students' activities fee. This fee is payable at the beginning of each quarter. It entitles the student to free admission to all athletic contests in which Teachers College or High School teams take part on the home grounds, and also a vote for the student representative on the Athletic Council. The Teachers College and the High School have separate teams and play independent schedules. The Eastern Illinois State Teachers College is a member of the Illinois Intercollegiate Athletic Conference, and the High School is a member of the Illinois High School Athletic Association.

ATTENDANCE AT CHURCH.—Each student is expected to attend regularly the church of his choice, or that which meets the approval of his parents. The pastors and members of the different churches have made the students at home in the churches and Sunday schools. The Teachers College encourages the students to form and sustain intimate relations with the churches.

THE STUDENT COUNCIL.—The Student Council was organized in the spring quarter of the year 1919-1920 as a means of communication between the faculty and students and a way by which the students may aid in school discipline and in the general control of college affairs.

The Council consists of eleven members: four from the senior class, three from the junior class, two from the sophomore class, and two from the freshman class. The term of office is one year. Elections take place in the respective classes at the second class meeting of the regular school year. The constitution provides for a president, vice president, secretary, treasurer, and historian.

A student board of control, established in the spring quarter of the year 1925-1926, was merged with the Student Council in the fall quarter, 1928-1929.

REGULATIONS FOR STUDENT ACTIVITIES

1. No extra-curricular organization, club, sorority, or fraternity may be organized without recognition by the faculty committee on student activities.

2. All organizations must file a copy of their constitution and by-laws with the faculty committee.

3. Any organization whose activities are suspended by the president of the school must apply to the faculty committee for reinstatement.

4. No organization may have a business or social meeting or a rehearsal on the campus without a faculty adviser present.

5. No student may hold more than one of the following offices in student organizations:

Class president,
Editor of the Warbler or News,
Business Manager of Warbler or News,
President of a fraternity,
Treasurer of any student organization.

A student elected to one of these major offices in student organizations may not hold more than one other office in class or other student activity.

All officers must maintain the academic standing required for admission to student teaching.

All organizations must file a list of all officers, as soon as they are elected, with the chairman of the faculty committee.

6. Any student falling below the academic standing required of athletes may be asked to withdraw from any organization.

ALUMNI CLUB

The Charleston Club of Chicago is an organization of former students. This club meets occasionally in a very pleasant way, and all former students or teachers, living in or near Chicago, will be notified of these meetings if they send their names to the president, Mr. Oliver C. Hostetler, '09, 1726 Ridge Ave., Evanston, Illinois.

THE ALUMNI ASSOCIATION

The Saturday preceding commencement is Alumni Day with morning exercises at ten o'clock.

The officers for 1932 to 1933 are: Mr. Ralph Evans, '32, President and Chairman of the Executive Committee; Miss Emily Dowling, '26, Vice-President; Mrs. Opal Bensley Stanberry, '16, Secretary and Treasurer.

Executive Committee

Mr. Herbert Wayne Cooper (term expires in 1933).
Miss Ruby M. Harris (term expires in 1933).
Mr. Ernest N. Freeman (term expires in 1934).
Mr. Ferdinand Homann (term expires in 1934).
Mr. Luther J. Black, '31 (term expires in 1935).
Mrs. Genelle Voigt Jackson, '29 (term expires in 1935).

TEACHERS APPOINTMENT COMMITTEE

To assist school officers in securing capable teachers and to help graduates in securing desirable positions the Eastern Illinois State Teachers College has an appointment committee. Its services are free both to teachers and to school officers. It is very desirable that graduates of the college keep the committee informed of their location and position, so that the committee may make intelligent recommendations to superintendents desiring experienced teachers.

THE CERTIFICATING LAW

I. The completion of the freshman year in any curriculum admits the student to examination for a limited elementary certificate.

II. The completion of the two-year grade curriculum gives a limited elementary certificate.

III. The completion of the first two years in any curriculum gives a limited elementary certificate provided the student's credits include two quarters of work each in practice teaching, history (or social science), and mathematics (or natural science).

IV. Graduation with the degree gives a high school certificate.

If the student has taught successfully for four years he may have also a supervisory certificate.

V. Certification and graduation both require that not more than one-fourth of the student's grades shall be D.

¹ 120 hours in each subject named in certificate.

² Kindergarten-primary training.

³ 5 hours in practice teaching.

⁴ Evidence of successful teaching and professional growth are prerequisite to the renewal of all certificates.

⁵ 5 hours in education.

⁶ Life certificate may be obtained by successful examination and preparation of thesis if applicant fails in slight measure to meet hours of training required for exchange of limited certificate.

PART II

INSTRUCTION

ORGANIZATION

The Eastern Illinois State Teachers College includes:

The Teachers College—

The Senior College.

The Junior College.

The Training School—

The High School, Grades IX, X, XI, XII.

The Elementary School, Grades I-VIII.

DIVISION OF THE YEAR

The regular college year consists of three quarters of twelve weeks each. Monday is taken as the weekly holiday. This plan gives teachers who have no school on Saturday opportunity to visit the Teachers College and promotes closer relations between the college and the teachers of the districts.

A summer quarter of twelve weeks was offered 1920-1932. A six weeks term was offered in the summer of 1933 beginning June 10, and closing July 21. The summer term of 1934 begins on June 16 and closes on July 27.

The subjects offered are designed to meet the needs of:

1. Teachers of experience who wish to advance their professional or academic knowledge.
2. Supervisors and department teachers.
3. Those who are preparing to teach in schools that follow the Illinois Course of Study.
4. Those who wish to take regular work with a view to graduation from the Junior College with a diploma or from the College with a degree.

ADMISSION REQUIREMENTS

1. *To the Senior College:* Graduation from the two-year curriculum of a recognized Teachers College or of the Junior College of a recognized college or university.

2. *To the Junior College:* Graduation from a recognized four-year high school.

3. *To the High School:* Graduation from the eighth grade admits a student to the ninth year which is the first year of the high school. High school students enter the year which the units they have already earned give them the right to enter.

4. *High school records and records of work in other colleges must be sent to the Registrar. A student with high school or*

other record should have a complete copy of the record sent by the principal of the school to the Registrar of the Teachers College. This should be done at least two weeks before the date of entering. No student will be classified until his record is received.

A registration permit is filed at the office when the student's application for admission and his record have been checked and filed. Application for admission blanks are sent on request.

Township scholarships must be presented at the cashier's office on registration day.

GRADUATION

The degree of Bachelor of Education (B. Ed.) is conferred upon those who complete a four-year curriculum; a diploma is granted to those who complete the two-year curriculum for preparation of teachers for the grades. Four-year curricula prepare teachers for high school, for special grade work, and for positions as principals, supervisors, and teachers of special subjects. *A year's resident work is required for a diploma or degree.*

Ninety-six quarter hours are required for a diploma and one hundred ninety-two for a degree. Credit earned in physical education, library use, dramatics, glee club, quartette, orchestra, or band is in excess of the total required for graduation.

For the degree, one-third of the student's credit toward graduation must be in courses not open to freshmen and sophomores. This requirement is in accordance with the standard of the American Association of Teachers Colleges.

The University of Illinois admits to full graduate standing all graduates of the Teachers College who present twenty semester hours of content courses in one major academic subject in addition to education and not less than one year of college work in Greek, Latin, French, or German.

Students planning to do graduate work at the University of Illinois should see that their records satisfy the foreign language requirement.

Students planning to teach in high schools should see that their records satisfy the requirements of the Illinois Examining Board and of the North Central Association.

The records of those who expect to complete a curriculum in a current year are checked at the beginning of each quarter and on April 1. A statement of the courses necessary for the completion of his work is given to each of these students in the fall quarter and is used by him in making his programmes for suc-

ceeding quarters. The list of candidates for graduation is based on the checking of April 1. A student who is not more than eight quarter hours behind the class at that time may participate in commencement exercises with the class and receive his diploma or degree at the close of the summer term if he completes the work by that time. It is possible to earn eight quarter hours in a summer term.

SCHOLARSHIP

Grades are expressed in letters as follows:

A, Excellent	3 grade points
B, Good	2 grade points
C, Fair	1 grade point
D, Poor, but passing*...	0 grade points
E, Condition	0 grade points
(incomplete work)	
F, Failure	—1 grade point

*Passing, but not accepted toward graduation or toward admission to practice teaching if more than one-fourth of the student's courses receive a grade of D.

I. Graduation Honors. Graduation with high honors requires that a student receive a grade of A in three-fourths of his work and B average in the rest.

Graduation with honors requires a grade of A in one-half of the student's work; B or higher in one-fourth of his work; and C average in the rest.

Graduation honors are noted on the diploma, announced at commencement, and published in the next issue of the annual catalogue.

II. Scholarship Honors. Scholarship honors on the same basis as graduation honors are announced for each quarter in the month after the beginning of the next regular quarter; in December for the fall quarter; in March for the winter quarter; in October for the preceding spring quarter and year.

The announcement is posted on the bulletin board and printed in the "Teachers College News."

III. Admission to Practice Teaching. 1. For registration for practice teaching in any quarter in any curriculum not more than one-fourth of a student's credits may have a grade of D; that is, three-fourths of his grades must be C or above. This is the graduation requirement in the two-year curriculum.

2. Sophomores in four-year curricula with B average in the freshman year may be admitted to Teaching 30 before the

spring quarter if they need to fulfil requirements for the limited elementary certificate by the end of the sophomore year.

3. Sophomores in four-year curricula with C average may be admitted to Teaching 30 in the winter quarter if they plan the year's programme to include three courses from the two-year grade curriculum and need to fulfil requirements for the limited elementary certificate by the end of the sophomore year.

4. Sophomores in four-year curricula with lower than C average in the freshman year are required to postpone Teaching 30 to the junior year. See also III, 1, under "Scholarship."

IV. Certification Requirement. The institutional credit blank for certification is not sent to the Illinois Examining Board if more than one-fourth of a student's grades are D. The blank requires "faculty recommendation of ability to teach." This recommendation is withheld if more than one-fourth of a student's grades are D.

V. Graduation Requirement. C average is required for graduation from four-year curricula and not more than one-fourth of the student's grades may be D. This means that a student must have as many grade points above C (1) as he has grades of D (0). This regulation will go into effect with the class of 1935. See III for graduation requirement for the two-year curriculum.

VI. Extra Work. No freshman in a four-year curriculum may register for extra work in his first quarter.

No student may register for extra work in the first quarter in which he is taking practice teaching.

No student whose average is below B in the preceding quarter may register for extra work.

VII. Probation. 1. A student who has three grades of D, or the sum of whose grade points is less than two (C, 1; D, 0; F, —1) in any quarter is on probation in the next quarter in which he is in attendance and is reported as on probation here if he has his record sent to another school.

2. A student who has a probation record for two successive quarters is excluded from any future attendance and is reported as "Dropped on account of low scholarship" if his record is transferred to another school.

3. A student who fails in one course and has lower than C average in the three remaining courses of that quarter is not permitted to register for more than three courses in the following quarter. Exception: Failure in English 20 and 21.

VIII. Exclusion. A student failing in three courses, twelve quarter hours, in any quarter or in one-half of his work, eight

quarter hours, in each of two consecutive quarters, is dropped from the college.

The grade F (failure) is recorded against a student who drops, after the first month, a course in which he is failing; but this does not apply to a student who is taking work to the amount of twenty quarter hours.

A student whose class work is very poor or who is frequently absent may be excluded from the privilege of taking the final examination. A grade of F (failure) is recorded against him.

EXTENSION WORK

The Teachers College is glad to offer such extension work as its facilities permit. It is especially urged that such aid be sought as the college may be able to give in improving present teaching in the elementary schools. A skillful teacher in visiting schools and in talking with teachers is able to be of great assistance to those of less experience. This suggestion contemplates giving help in those subjects that make up the greater part of the elementary school curriculum, namely: reading, language and grammar, arithmetic, geography, history, drawing, and music.

No extension work is offered for credit toward graduation.

GRADUATION HONORS FOR 1932

CURRICULA

I. A Two-Year Curriculum, 96 quarter hours, leading to a diploma and planned for preparation of teachers for the grades. The diploma entitles the holder to a limited elementary school certificate without examination. The completion of the first year's work admits the student to an examination for a limited elementary certificate.

II. Four-Year Curricula, 192 quarter hours each, for preparation of the following:

1. Elementary Grade Teachers.
2. High School Teachers and Teachers of Special Subjects:
 - A. Art and Design
 - B. English
 - C. Foreign Language
 - D. Geography
 - E. History and Social Science
 - F. Home Economics (Smith-Hughes)
 - G. Industrial Arts
 - H. Mathematics
 - I. Music (Public School), First two years
 - J. Science (Biological: Botany or Zoölogy or both)
 - K. Science (Physical: Physics or Chemistry or both)

CREDIT

The unit of measure, beginning with the year 1929-30, is the quarter hour, representing one hour a week of prepared work for twelve weeks when the student load of prepared work is sixteen hours a week. It is equivalent to two-thirds of a semester hour.

A year's work is equivalent to 48 quarter hours (32 semester hours) of prepared work. A year's work in one subject is equivalent to 12 quarter hours (eight semester hours).

Instrumental music or voice work may be used for elective credit to the extent of 12 quarter hours (four years of work) in not more than two forms of applied music with a minimum of 6 quarter hours in any one form. No student may count toward graduation more than 12 quarter hours of instrumental or voice work.

Credit is allowed for physical education, and for Library 20 at the rate of one quarter hour for each quarter's work.

Credit is allowed for dramatics, glee club, quartette, orchestra, and band at the rate of one quarter hour to those reported to the office for such credit at the close of each quarter by the directors of these organizations who decide the conditions under which credit is allowed or withheld in each case.

Credit earned in required physical education, library use, dramatics, glee club, quartette, orchestra, or band is in excess of the 96 quarter hours required for a diploma and of the 192 quarter hours required for a degree. The credit is recorded on the student's permanent record card and may play an important part when he is an applicant for a position.

A statement of the amount of credit is included in the description of each course.

NUMBERING OF COURSES

Courses numbered 1-19 are for credit below the College; courses numbered 20-29 are (with a few exceptions) required in a curriculum in the Junior College; courses numbered 30-39 are elective courses for those in the Junior College; courses numbered 40 or above are Senior College courses. Courses numbered 1-19 do not count in the College.

MAJOR AND MINOR SUBJECTS

In four-year curricula for graduates of four-year high schools, a student in a special curriculum takes 48 quarter hours of work in a major subject and 24 quarter hours in a minor subject, in some cases specified by the department of the major subject and in other cases left to the student's choice, but the courses in the minor subject must constitute two years' work in some one department and the courses chosen must be satisfactory to that department and to the department of the major subject. Students will consult the department of the major subject as to choice of minor subjects and of electives.

Students taking mathematics as the minor subject take Algebra 31, 32, Trigonometry 33, Analytics 34, 35, Geometry 28.

In music only public school music may be used as the minor subject, the courses required being Music 30, 31, 32, 33, 34, 35.

In English, English 30, 31, 34, 35, 36 (or 43), 37 (or 39) may be used as the minor subject. English 46, 47, 48 may be used by juniors or seniors for credit toward the English for minor subject.

ELECTIVES

There are three groups of electives; one for those in the Senior College, numbered 43 or above; one for those in the Junior College, numbered 30-39; the third for those below the College, numbered 1-19, and not counting in the college. Students should consult the department of the major subject as to choice of electives and of minor subjects.

Four years of work in piano, violin, or voice may be used for elective credit (12 quarter hours) toward graduation but not more than 12 quarter hours.

Music 30, 31, 32 or Music 33, 34, 35 may be used for elective credit.

DESCRIPTION OF CURRICULA

I. TWO-YEAR CURRICULUM

96 quarter hours

FOR PREPARATION OF TEACHERS FOR THE GRADES

FRESHMAN YEAR

Education 20, 21, 22	Geography 20
English 20, 21, 27 or 24 or 22	Reading 24
Arithmetic 20, 21	Drawing 24
Botany 20 or Zoölogy 23	Penmanship 20
	Library 20
	Physical Education

SOPHOMORE YEAR

Education 23, 24	Geography 21 and English 26
Teaching 20, 21, 22	or English 34 and
History (two consecutive courses)	Education 25
Music 24	Hygiene 20
Industrial Arts 24 or 25	Physical Education

Notes: 1. The completion of the work of the freshman year admits to examination for a limited elementary certificate.

The completion of the sophomore year in this curriculum entitles the student to the diploma of the Junior College and to a limited elementary certificate.

2. Each subject has four fifty-minute periods a week unless otherwise indicated by a number in parenthesis; but Botany 20 and Zoology 23 have six fifty-minute periods; Art and Industrial Arts require eight periods a week for full credit.

Notes: 1. Students are advised to use their electives so as to have more than one minor subject (teaching subject).

2. Numbers identify the course in the description of courses. Numbers in parenthesis after Physical Education and Library 20 indicate the number of periods a week.

II. 1. FOR PREPARATION OF TEACHERS FOR ELEMENTARY GRADES.

JUNIOR COLLEGE

Freshman Year

Follow Sections I, II, III, IV, or V of the freshman year in the two-year curriculum for preparation of teachers for the grades.

Sophomore Year

Follow Section I (lower grades) or II or III (upper grades) of the sophomore year in the two-year curriculum for preparation of teachers for the grades.

SENIOR COLLEGE

Junior and Senior Years

Major subject	36 quarter hours
Minor subject	24 or 16*
Laboratory Science	12 or 8*
English 43, 44, 45.....	12
Education 44, 47.....	8
Practice Teaching 41G-48G.....	8 or 12
Elective	0 or 4*
<hr/>	
100 or 96*	

* If the science is botany or zoology, Botany 21 and 22 or Zoology 21 and 22 complete the requirement, but Zoology 20, 21 must be taken if the student had Zoology 23 in the Junior College.

If history is the minor subject, eight quarter hours of sophomore history count toward this requirement.

SENIOR COLLEGE

A special bulletin of a prospective curriculum for Senior College will be sent on request.

II, 2, J. SCIENCE (BIOLOGICAL)

Note: The botany and zoölogy curricula are so arranged that the student may not only have four years of work in botany or zoölogy (including one year of methods and practice teaching), but that he may also have three minor subjects (of six quarters each) which qualify him to teach four different subjects in accredited high schools. The student is also equipped to do graduate work. If one year of elective credit is used for college foreign language (Latin, Greek, French or German) he may enter the graduate school, University of Illinois, without condition.

TRAINING SCHOOL

ORGANIZATION AND ADMISSION.—The Training School consists of the Elementary School of eight grades, and the High School of four grades. Below the ninth grade the number of pupils who can be admitted is limited. Pupils desiring admission are registered, then admitted in order of registration when vacancies occur.

Pupils once admitted to the school for the regular school year retain their places until completing the course unless they are unreasonably irregular in attendance or fail to appear on the opening day of the school year without notice to the director of their intention to appear later.

In grades below the ninth, a fee of seventy-five cents is charged on the opening day of each of the three terms of the year.

THE HIGH SCHOOL.—The Teachers College High School is recognized by the State Department of Education and is accredited by the University of Illinois and by the North Central Association of Colleges and Secondary Schools. Those who have completed the eighth grade may enter the ninth grade which is the first year of a four-year high school. Full credit is allowed to students entering from other accredited high schools. Sixteen units are required for graduation. Graduates of The Teachers College High School are admitted to the freshman class of the College.

HIGH SCHOOL CURRICULUM

<i>Geography</i> 1, 2, 3	<i>Music</i> 1, 2, 3
<i>Zoology</i> 1, 2, 3; <i>Botany</i> 1, 2, 3	

Electives

The high school curriculum includes ten required and six elective units. One unit of physical science is required. Those who wish to have both physics and chemistry take one in the eleventh year and the other in the twelfth year.

Electives are in two groups. All electives may be chosen from Group I; not more than four units may be chosen from Group II.

GROUP I

Language
English (1)
French (2)
Latin (4)
Mathematics (1)
Science
Geography (1)
Physical Science (1)
Zoology (1) or Botany (1)
Social Science
Ancient History (1)
American History (1)

GROUP II

(Not more than four units may be
chosen from this group)
Agriculture (2)
Art (1)
Home Economics (2)
Industrial Arts (2)
High School Music (1)

TRAINING TEACHERS.—In the first nine grades the immediate direction of the work of each grade and the responsibility for its progress is with the training teacher of the grade. The training teachers, with the director, plan the work of their grades, discuss with the student teacher their plans for teaching the different subjects, do enough of the teaching to keep the progress of the pupils at least up to the standard of city schools of the same type, and teach special lessons for the observation of Teachers College classes in method of teaching the special subjects. The character of the work of the training teacher determines almost entirely the success of the Training School in accomplishing its purpose.

A training teacher for history has charge of that work in grades five to eight inclusive. Training teachers for geography, drawing, music, penmanship, and physical education have charge of these subjects in grades one to eight. The teachers in other departments of the Teachers College have in all cases an advisory relation to the Training School and in some cases a supervisory relation. Senior College students have two quarters

of practice teaching in the College High School which is a training school for teaching in high school.

PURPOSE.—The purpose of the Teachers College in maintaining a Training School is twofold. It needs a pedagogical laboratory in which students and members of the faculty may test the methods of instruction and the pedagogical theories taught in the Teachers College. And to develop in the students craftsmanship in teaching they must have opportunity to observe expert work and to develop skill by actual experience in teaching.

The results, however, cannot be secured unless the Training School itself is aiming at the best possible education for the boys and girls who are pupils in the school. If the Training School is not securing for its pupils results up to the standard of good schools of the usual type, it is not best adapted to its purpose as an experiment school, and if it is not at least equal to other elementary schools it is certainly not adapted to secure the best results as a school of observation and practice.

PRACTICE TEACHING.—All students graduating from the Teachers College in the two-year curriculum are required to take throughout their second year a course in practice teaching. The first quarter the student is assigned to teach in the lower four grades or in the upper four grades as he chooses; the second quarter, in the group of grades not chosen for the first quarter; and the third quarter, in the grade, if possible, in which he thinks his future teaching is to be done.

Student teachers are assigned to training teachers by the director and are assigned by the training teacher to particular teaching duties for one fifty-minute period each day. In the beginning of the first quarter the student makes plans for teaching the lessons in his assigned subject after discussing the subject matter and the procedure with the training teacher, but for one or two weeks the teaching is done by the training teacher, the student observing. Gradually the teaching is turned over to the student, the training teacher observing and discussing the lessons and lesson plans before and after the student teaches the lesson. Each training teacher holds one general meeting each week with her group of students, besides special conferences with individuals. She also does as much of the teaching as seems necessary to keep the class up to standard and to furnish the student opportunity to observe expert teaching.

* Students taking a four-year curriculum, with the exception of those in art, public school music, home economics, or industrial arts, take one quarter of practice teaching in the Elementary Training School in their third year. Two quarters of teaching, one in the major subject and one in the major or minor

subject, are required of them in the senior year and are taken in the Teachers College High School.

For special regulations as to admission to practice teaching see III under "Scholarship."

OBSERVATION AND PARTICIPATION.—In the first year students in the two-year curriculum are required to take work in observation in the Training School. The work is designed to prepare them to meet the problems of teaching which they must meet in their course in practice teaching, to enable them to see the application of their course in psychology, and to assist them in selecting the group of grades in which they wish to teach. Opportunity is given to observe both the room management and the teaching of the training teacher. Some opportunity is offered to assist in the management and in the planning of lessons.

JUNIOR COLLEGE																					
NOTES—Roman numerals preceding a subject indicate the section of the class; Arabic numerals following a dash indicate the days of the week beginning with Monday. Morning exercises at nine o'clock; but class meetings on alternate Wednesdays, beginning with the second Wednesday of each quarter. Chorus practice, Wednesday at 9:30. R. means room; T. Training School; P. Practical Arts Building; G. Gymnasium. There are three quarters of twelve weeks each. College courses have four periods a week. Laboratory sciences have six or seven periods; art, industrial arts, and home economics require eight periods a week for full credit. College courses have free periods as follows unless otherwise indicated: Tuesdays for 11:20 courses. Wednesdays for 9:30 courses. Thursdays for 10:25 courses. Fridays for 7:25 and 8:10 courses. Saturdays for afternoon courses. DESCRIPTION OF COURSES

AGRICULTURE

High School

1. FARM CROPS. A study of our principal farm crops, culture requirements and methods, harvesting, seed selection, storage, and the identification of weeds, insects, and seed.

Elective. Five hours a week. One-third of a unit. Fall quarter, even years.

2. SOILS. The classification, distribution, and productivity of the principal soil types; principles of soil management, crop rotations, fertilizers, and the maintenance of soil fertility.

Elective. Five hours a week. One-third of a unit. Winter quarter, even years.

3. HORTICULTURE. The planting, care, and management of the orchard and garden; insects and diseases of fruit, trees, and vegetables; methods of control of these diseases.

Elective. Five hours a week. One-third of a unit. Spring quarter, even years.

4. LIVESTOCK. An introductory study of types and breeds of farm animals, principles of judging, and elementary problems of livestock management.

Elective. Five hours a week. One-third of a unit. Fall quarter, odd years.

5. FEEDS AND FEEDING. An elementary study of the principles involved in animal feeding, requirements of farm animals, balanced rations, composition and value of feeds, and feeding for the economic production of livestock products.

Elective. Five hours a week. One-third of a unit. Winter quarter, odd years.

6. GENETICS. An elementary study of genetics in its relation to the improvement of plants and animals.

Elective. Five hours a week. One-third of a unit. Spring quarter, odd years.

ART AND DESIGN

High School

1, 2, 3. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color. Study of

principles of design, problems involving principles of rhythm, balance, and harmony. Application of design to pottery and other materials.

Prerequisite: Art 1 to Art 2; Art 2 to Art 3. Elective. Five hours a week with an equal amount of outside work. One unit. Art 1, fall quarter; Art 2, winter quarter; Art 3, spring quarter.

College

24. ELEMENTARY DRAWING. Lettering, perspective, composition and poster work, study and practice of color.

Eight hours a week. Four quarter hours. Every quarter.

25. ELEMENTARY WATER COLOR. Painting in water color from still life.

Eight hours a week. Four quarter hours. Spring quarter.

26. APPLIED ART. Crafts; weaving, gesso, enamel, and leather work.

Eight hours a week. Four quarter hours. Fall quarter.

27. HISTORY OF ORNAMENT AND OF ARCHITECTURE.

Four hours a week. Four quarter hours. Winter quarter, odd years.

28. HISTORY OF PAINTING. A study of the history of the different periods, the great artists and sculptors, and their work.

Four hours a week. Four quarter hours. Winter quarter, even years.

29. ADVANCED PERSPECTIVE.

Eight hours a week. Four quarter hours. Spring quarter.

30. REPRESENTATION. Section I for Art students. The study of the essentials of perspective and their application to still life groups in charcoal, crayon, water color, and ink.

PERSPECTIVE. Section II for Home Economics students. The study of the essentials of perspective and their application to simple objects. The Roman alphabet and the principles of color.

Eight hours a week. Four quarter hours. Fall quarter.

31. POSTER WORK. Section I for Art students. The study of lettering for commercial and educational uses and for application to book making, bulletins, and posters. The principles of design and color. "Art in Every Day Life" by Goldstein is the text used.

DESIGN I. Section II for Home Economics students. The study of the principles of design and their application to Home Economics. The same text is used as for Section I.

Eight hours a week. Four quarter hours. Winter quarter.

32. DESIGN I. Section I for Art students. Decorative applications of the principles of design.

DESIGN II. Section II for Home Economics students. The application of the principles of design and color to various materials.

Eight hours a week. Four quarter hours. Spring quarter.

33. DESIGN II. Plants, animals, and birds in decoration and the application of these forms to the making of patterns. Color theory, leather tooling, wood block printing, and batik work.

Eight hours a week. Four quarter hours. Fall quarter.

34. JEWELRY. Design as applied to metal work and to jewelry.

Eight hours a week. Four quarter hours. Spring quarter.

35. POTTERY. The application of the principles of design to pottery.

Eight hours a week. Four quarter hours. Winter quarter.

36. INDUSTRIAL ARTS FOR THE LOWER GRADES. See Industrial Arts 24.

Required in the freshman year of the art curriculum. Eight hours a week. Four quarter hours. Fall and spring quarters.

37. INDUSTRIAL ARTS FOR THE UPPER GRADES. See Industrial Arts 25.

Required in the freshman year of the art curriculum. Eight hours a week. Four quarter hours. Fall and spring quarters.

40. THE TEACHING OF ART. A course in method in art with special reference to art in high school.

Required in the senior year of those whose major subject is art. Four hours a week. Four quarter hours. Fall quarter.

41. PRACTICE TEACHING IN ART.

Required in the senior year. Five hours a week. Four quarter hours. Winter quarter.

42. PRACTICE TEACHING IN ART, continued.

Required in the senior year. Five hours a week. Four quarter hours. Spring quarter.

43. STILL LIFE I. Studies in charcoal, water color, and oil.

Eight hours a week. Four quarter hours. Fall quarter, even years.

44. INTERIOR DECORATION. A thorough and practical course in the fundamentals of interior decoration. Emphasis is placed on good color harmony, and the application of the principles of design. The course includes the study of periods and styles of furniture and of materials used in interiors.

Eight hours a week. Four quarter hours. Winter quarter, even years.

45. DESIGN III. The application of the principles of design and color to house plans, wall elevations and rooms in perspective.

Eight hours a week. Four quarter hours. Spring quarter, even years.

46, 47. LIFE SKETCH. Drawing from a model. Study of general anatomical facts.

Eight hours each a week. Eight quarter hours. Fall and winter quarters, odd years.

48. ILLUSTRATION. Study of applied composition in connection with work from life.

Eight hours a week. Four quarter hours. Spring quarter, odd years.

49. COMMERCIAL DESIGN. Decorative composition and lettering. Application to high school annual and to other school publications.

Eight hours a week. Four quarter hours. Fall quarter.

50. STILL LIFE II. More advanced work in still life, using oil paints and water colors.

Eight hours a week. Four quarter hours. Winter quarter.

51. ART APPRECIATION. The history of ornament, architecture, sculpture, and painting.

Elective (except in the art curriculum) for juniors and seniors; a recommended elective for juniors in the English curriculum. Four hours a week with preparation. Four quarter hours. Winter quarter.

EDUCATION AND TEACHING

I. EDUCATION

College

Note: Beginning with the fall quarter, 1933-34, a change was made in the education requirements in four-year curricula. An adjustment schedule is offered for sophomores, 1933-34. The junior year remains unchanged, 1933-35, and the senior year, 1933-36 with the exception of the requirement of Education 44 in all curricula and the regulations as to practice teaching. See III under "Scholarship."

20, 21, 22. INTRODUCTION TO EDUCATIONAL PSYCHOLOGY, EDUCATIONAL PSYCHOLOGY, PSYCHOLOGY OF ELEMENTARY EDUCATION.

Required in the freshman year of the two-year curriculum. Four hours a week. Four quarter hours for each course. Education 20, fall quarter; Education 21, winter quarter; Education 22, spring quarter.

23, 24, 25. PRINCIPLES OF ELEMENTARY EDUCATION, MANAGEMENT OF THE ELEMENTARY SCHOOL, PRIMARY EDUCATION.

Required in the sophomore year of the two-year curriculum, but students who prefer upper grade work do not take Education 25. Four hours a week. Four quarter hours for each course. Education 23 and 24, every quarter; Education 25, spring quarter.

30, 31, 32. INTRODUCTION TO EDUCATIONAL PSYCHOLOGY, EDUCATIONAL PSYCHOLOGY, PSYCHOLOGY OF SECONDARY EDUCATION.

Required in the sophomore year in four-year curricula, beginning 1934-35. Not open to students who have had Education 20, 21, 22. Four hours a week. Four quarter hours. Education 30, fall quarter; Education 31, winter quarter; Education 32, spring quarter.

43, 44, 45. PRINCIPLES OF SECONDARY EDUCATION, EDUCATIONAL MEASUREMENTS, MANAGEMENT OF THE SECONDARY SCHOOL.

Required in four-year curricula in the junior or senior years of all who have not had Education 23 and 24, the former requirement. Education 43 and 45 are required in 1933-34 of sophomores in four-year curricula who have had Education 20, 21, 22. Four hours a week. Four quarter hours for each course. No credit for Education 43 or 45 if the student has had Education 23 or 24. Education 43, fall and winter quarters; Education 44, every quarter; Education 45, every quarter.

47. SOCIAL PSYCHOLOGY.

Elective, junior or senior year. Four hours a week. Four quarter hours. Spring quarter.

48. SCHOOL ADMINISTRATION.

Elective, junior or senior year. Four hours a week. Four quarter hours. Fall quarter.

II. TEACHING

College

A detailed description of the courses in practice teaching and of the course in observation may be found under the head, Training School.

For restrictions on admission to practice teaching course, see III under "Scholarship."

20, 21, 22. PRACTICE TEACHING IN THE GRADES.

Required in the second year of the two-year curriculum for preparation of teachers for the grades. Five hours a week. Four quarter hours for each course. Every quarter.

30. FIRST QUARTER OF PRACTICE TEACHING FOR STUDENTS IN FOUR-YEAR CURRICULUM. It includes Teaching 30 (Art), Teaching 30 (English), Teaching 30 (Latin), Teaching 30 (Geography), Teaching 30 (History), Teaching 30 (Industrial Arts), Teaching

30 (Mathematics), Teaching 30 (Music), Teaching 30 (Botany), Teaching 30 (Zoölogy), Teaching 30 (Physics), Teaching 30 (Chemistry).

The word in parenthesis indicates the student's major subject and is needed to show so far as possible the subject which he should be assigned to teach.

Students in four-year curricula are not registered for Teaching 20 which is the first course for students in the two-year curriculum.

For restrictions on admission to any course in practice teaching see III, under "Scholarship."

Prerequisite: Junior classification except as specified in III, under "Scholarship." Five hours a week. Four quarter hours. Fall quarter, junior year, unless the student is admitted in the sophomore year under the regulations given in III, under "Scholarship."

41, 42. PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT.

Two quarters of practice teaching are required in the Senior College. At least one of these quarters must be in the major subject. These courses are listed under the same numbers (41, 42) in the description of courses in each department.

Required in the Senior College. Five hours a week. Four quarter hours. Winter and spring quarters.

41G to 48G. PRACTICE TEACHING AND SUPERVISION IN ELEMENTARY GRADES.

Required in the Senior College in the curriculum for preparation of elementary grade teachers. Five hours a week. Four quarter hours for each course. Fall, winter and spring quarters.

ENGLISH

High School

1, 2, 3. ELEMENTS OF ENGLISH. Elementary composition with grammar review. Emphasis on practical composition, letter-writing, oral and written recitations in other subjects, and the qualities of all good speech. Several good books are read and studied.

Prerequisite: English 1 to English 2; English 2 to English 3. Required in the ninth year. Five hours a week. One unit. English 1, fall quarter; English 2, winter quarter; English 3, spring quarter.

4, 5, 6. RHETORIC. Chiefly description, narration, and exposition, both oral and written. Grammar review continued. Several classics studied.

Prerequisite: English 4 to English 5; English 5 to English 6. Required in the tenth year. Five hours a week. One unit. English 4, fall quarter; English 5, winter quarter; English 6, spring quarter.

Students entering the High School unable to carry English 4 are required to take one or more terms of English 1, 2, 3, without credit.

7, 8, 9. ENGLISH LITERATURE FROM SHAKESPEARE TO SCOTT.

Although the students are expected to get a fair idea of the history of this period of literature, the class work is devoted mainly to the literature itself. In making the selections for study, the instructor is guided by the capacity of the class and the usual demands of an introductory course in literature. Composition and grammar work are continued.

Prerequisite: English 7 to English 8; English 8 to English 9. Required in the eleventh year. Five hours a week. One unit, English 7, fall quarter; English 8, winter quarter; English 9, spring quarter.

10, 11, 12. A STUDY OF TYPES OF LITERATURE.

This course is open to all twelfth year students, but is designed especially for those students who have done creditable work in their previous English classes and desire an additional high school course. The class spends the first half of the year with poetry, narrative, lyric, and dramatic; and the second half with prose, emphasizing the essay and the novel. Regular composition work, both oral and written, is required.

Prerequisite: English 7, 8, 9; and English 10 to English 11; English 11 to English 12. Elective in the twelfth year. Five hours a week. One unit. No credit for less than the year's work. English 10, fall quarter; English 11, winter quarter; English 12, spring quarter.

College

20, 21. COMPOSITION. A course in the fundamentals of good speaking and writing. Creditable work in English 20, 21 is a prerequisite to teaching in the Training School. Credit for English 20, 21 may be earned in one, two, or more quarters according to individual progress. Students who complete English 21 when registered for English 20 may substitute another English credit for English 20, being counted excused from English 20.

Required in the freshman year in all curricula. Four hours a week. Four quarter hours for each course. Every quarter.

22. LITERATURE IN THE GRADES. Emphasizes chiefly wide acquaintance with the great bodies of world literature—myth, legend, etc.—and with the best poetry suitable for children.

Required in the first year of the two-year curriculum unless English 24 or 27 is taken. Four hours a week. Four quarter hours. Spring and summer quarters.

24. TEACHING OF ENGLISH. The teaching of composition in the grades is covered as fully as time permits, including discussion of materials, purposes, standards, theme-topics, correcting of compositions, literature in the grades, and methods of teaching. This course is especially recommended to students interested in intermediate, upper grade, or junior high school work.

Prerequisite: English 20 and 21. Required in the first year of the two-year curriculum (unless English 22 or 27 is taken) and required instead of English 25 of students in the four-year English curriculum. Four hours a week. Four quarter hours. Spring and summer quarters.

24. READING. Designed both to improve the oral and silent reading of the pupils and to give them definite standards by which they may intelligently judge the reading of others. Some attention is given to methods of teaching reading in the grades.

Required in the two-year curriculum. Four hours a week with preparation. Four quarter hours. Every quarter.

25. INTRODUCTION TO LITERATURE. Designed to give the student an acquaintance with the most common types of English literature, including narrative and lyric poetry, biography and letters, the short story, and the essay.

Prerequisite: English 20 and 21. Required in four-year curricula, except the English curriculum. Four hours a week. Four quarter hours. Spring quarter.

26. GRAMMAR. A course for those preparing to teach in the upper grades or in junior high school.

Required in the upper grade sections, sophomore year, of the two-year curriculum. Four hours a week. Four quarter hours. Every quarter.

27. LITERATURE IN THE GRADES. This course is equivalent to English 22, except that the literature for intermediate and upper grades is emphasized.

Accepted for English 22 or 24 in the two-year grade curriculum. Four hours a week. Four quarter hours. Omitted 1933-1934.

30, 31. NINETEENTH CENTURY PROSE FICTION. The primary aim is to arouse the student's interest in the best fiction, and the secondary, to furnish him with standards of judgment.

Prerequisite: English 30 to English 31. Four hours a week. Eight quarter hours. English 30, fall quarter; English 31, winter quarter. Summer quarter.

34. AMERICAN LITERATURE. A survey of American literature from the beginning to the present.

Four hours a week. Four quarter hours. Spring and summer quarters.

35. GREEK DRAMA. Origins and development of classical drama; Aeschylus, Sophocles, Euripides.

Prerequisite: English 30, 31, 34. Four hours a week. Four quarter hours. Fall and summer quarters.

36. SHAKESPEARE AND THE ELIZABETHAN DRAMA. A study of Shakespeare's most important plays, and of their place in the development of English drama. Some attention is given to the chief dramatists contemporary with Shakespeare.

Four hours a week. Four quarter hours. Winter and summer quarters.

37. MODERN DRAMA. The purpose of this course is to familiarize the student with what is best in modern drama.

Four hours a week. Four quarter hours. Spring and summer quarters.

38. JOURNALISM. See 44J, 44J2.

39. DRAMATICS. A study of the presentation of plays, including the reading of contemporary dramas, the production of at least one play, and the dramatization of an episode or a short story. Some instruction in the coaching of plays is given. Accepted for English 37.

Four hours a week. Four quarter hours. Summer quarter.

40. THE TEACHING OF ENGLISH IN THE HIGH SCHOOL.

Important topics connected with English in the high school are covered as fully as time permits.

Required in the senior year of those whose major subject is English. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN ENGLISH IN THE HIGH SCHOOL.

Five hours a week. Four quarter hours for each course. Winter and spring quarters.

43. CONTEMPORARY LITERATURE. Extensive reading in current literature introduces the student to the best that is being written today, and provides him with some standards of judgment with the hope of stimulating his enthusiasm for good books.

Required or elective in the junior year in all curricula. Four hours a week. Four quarter hours. Fall and summer quarters.

44. ADVANCED RHETORIC. Chiefly written composition, applying the principles of organization and effective expression to somewhat more extended material than do English 20 and 21.

The course is intended to give both an introduction to the methods of research and opportunity for original work.

Prerequisite: Junior College required English. Required or elective in the junior year in all curricula. Four hours a week. Four quarter hours. Winter and summer quarters.

44J, J2. ADVANCED COMPOSITION. The course emphasizes editorial and news-writing. It is designed to train students in the effective expression of problems related to student life. *The Teachers College News* is sponsored by this class, and part of the class work appears regularly in the columns of this paper.

Prerequisite: Junior College required English. Four hours a week. Four quarter hours for each course (44J and 44J2). Every quarter.

45. ORAL ENGLISH. Through prepared talks and discussions this course gives training in the effective expression of genuine ideas and opinions. Sincerity, adequate development of thought, the proper use of facts and evidence, and also the principles and practice of good delivery are stressed.

Prerequisite: Junior College required English. Required or alternative with English 44 in the junior year in all curricula. Four hours a week. Four quarter hours. Spring and summer quarters.

46, 47, 48. MODERN ENGLISH POETRY. Appreciation of the art of poetry, and a study of some of the chief English poets, as they illustrate this art. Beowulf to Chaucer; Milton to Burns; Nineteenth Century Poetry.

Required in the English curriculum; elective in others. Four hours a week. Four quarter hours for each course. English 46, fall quarter; English 47, winter quarter; English 48, spring quarter. Summer quarter.

49. THE ESSAY. This course traces the development of the essay in English, with special attention to style.

Required in the senior year of the English curriculum and elective for juniors and seniors in any curriculum. Four hours a week. Four quarter hours. Fall quarter.

50, 51. HISTORY OF THE ENGLISH LANGUAGE AND LITERATURE. The development of the English language from Anglo-Saxon to the language of today is traced concurrently with the history of English literature.

Required in the senior year of the English curriculum. Not open as elective in other curricula except by special permission of the head of the English department. Four hours a week. Eight quarter hours for the two courses. Winter and spring quarters.

FOREIGN LANGUAGE

FRENCH

High School

1, 2, 3. FIRST YEAR FRENCH. *The Phonetic Chardenal*. A careful study of grammatical rules and of pronunciation. *Petits Contes de France: Sans Famille: La Tache du Petit Pierre*. Sight reading of easy French prose. Conversation.

Prerequisite: French 1 to French 2, French 2 to French 3. Elective. Five hours a week. One unit. French 1, fall quarter; French 2, winter quarter; French 3, spring quarter.

4, 5, 6. SECOND YEAR FRENCH. *The Phonetic Chardenal. L'Abbe Constantin. Le Voyage de M. Perrichon. Colomba*. Sight reading; conversation; oral themes; memorizing of French poems.

Prerequisite: French 1, 2, 3 or equivalent. Elective. Five hours a week. One unit. French 4, fall quarter; French 5, winter quarter; French 6, spring quarter.

College

30, 31, 32. FIRST YEAR FRENCH. A careful study of the principles of grammar. Special attention is paid to pronunciation and drill in rhythm and intonation. Study of phonetics as an aid to pronunciation. Reading of simple French texts.

Elective. Four hours a week. Twelve quarter hours, no credit toward graduation for less than a year's work. French 30, fall quarter; French 31, winter quarter; French 32, spring quarter.

33, 34, 35. ADVANCED FRENCH. Rapid review of grammatical forms and idioms. Reading of moderately difficult texts. Moliere: Reading and discussion of several of his comedies; written reports on his life, works, and influence on French literature. All recitations are, as far as possible, conducted in French.

Prerequisite: Two years of high school French or one year of college French. Elective. Four hours a week. Twelve quarter hours. French 33, fall quarter; French 34, winter quarter; French 35, spring quarter.

43, 44, 45. ADVANCED FRENCH. Dramas of Marivaux and Hugo. Modern poetry. Reading of moderately difficult texts. Frequent reports on suggested topics. Oral themes. Conversation.

Prerequisite: Two years of college French. Elective. Four hours a week. Twelve quarter hours. French 43, fall quarter; French 44, winter quarter; French 45, spring quarter.

GERMAN

College

30, 31, 32. FIRST YEAR GERMAN.

Elective. Four hours a week. Twelve quarter hours, no credit toward graduation for less than a year's work. German 30, fall quarter; German 31, winter quarter; German 32, spring quarter.

33, 34, 35. SECOND YEAR GERMAN. Review of grammar. Reading of German short story classics. Shorter German poetry and folk-songs.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. Four hours a week. Twelve quarter hours. German 33, fall quarter; German 34, winter quarter; German 35, spring quarter.

43, 44, 45. THIRD YEAR GERMAN. Longer and more advanced German stories and plays by standard authors. German 45 stresses prose composition.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. Four hours a week. Twelve quarter hours. Omitted 1933-1934.

LATIN

High School

1, 2, 3. FIRST YEAR LATIN. A careful study of inflection, syntax, vocabulary, and translation.

Prerequisite: Latin 1 to Latin 2; Latin 2 to Latin 3. Elective. Five hours a week. One unit. Latin 1, fall quarter; Latin 2, winter quarter; Latin 3, spring quarter.

4, 5, 6. SECOND YEAR LATIN. Caesar and selected readings. Latin grammar and composition.

Prerequisite: Latin 1, 2, 3. Five hours a week. One unit. Latin 4, fall quarter; Latin 5, winter quarter; Latin 6, spring quarter.

7, 8, 9. THIRD YEAR LATIN. Cicero, six orations and selections from the letters. Latin grammar and composition. The Latin element in English. Figures of speech. The reckoning of time. Sight translation. The memorizing of selected passages.

Prerequisite: Latin 4, 5, 6. Elective. Five hours a week. One unit. Fall, winter, and spring quarters, even years.

10, 11, 12. FOURTH YEAR LATIN. Virgil's Aeneid, Books I-VI. Greek and Roman mythology, poetical construction, figures, prosody, Virgil's debt to Homer, the memorizing of selected lines and passages, sight translation.

Prerequisite: Latin 4, 5, 6. Elective. Five hours a week. One unit. Fall, winter, and spring quarters, odd years.

College

30. LIVY, SELECTIONS FROM BOOKS, I, XXI, AND XXII.

Prerequisite: Four years of high school Latin. Four hours a week. Four quarter hours. Fall quarter, odd years.

31. CICERO, DE AMICITIA, DE SENECTUTE, AND DE OFFICIIS.

Prerequisite: Latin 30. Four hours a week. Four quarter hours. Winter quarter, odd years.

32. HORACE, ODES AND EPODES.

Prerequisite: Latin 31. Four hours a week. Four quarter hours. Spring quarter, odd years.

33. VIRGIL, AENEID, BOOKS VII-XII.

Prerequisite: Four years of high school Latin. Four hours a week. Four quarter hours. Fall quarter, even years.

34. HORACE, SATIRES AND EPISTLES.

Prerequisite: Latin 33. Four hours a week. Four quarter hours. Winter quarter, even years.

35. PLAUTUS, MENAECHMI, MOSTELLARIA, AND CAPTIVI.

Prerequisite: Latin 34. Four hours a week. Four quarter hours. Spring quarter, even years.

40. THE TEACHING OF LATIN.

Prerequisite: Three years of college Latin. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN LATIN.

Prerequisite: Latin 40. Five hours a week. Eight quarter hours. Winter and spring quarters.

43. OVID, METAMORPHOSES.

Four hours a week. Four quarter hours. Fall quarter, even years.

44. PLINY, LETTERS.

Four hours a week. Four quarter hours. Winter quarter, even years.

45. LATIN WRITING.

Four hours a week. Four quarter hours. Spring quarter, even years.

46. TACITUS, GERMANIA, AGRICOLA, AND SELECTIONS FROM THE ANNALS AND HISTORIES.

Four hours a week. Four quarter hours. Fall quarter, odd years.

47. LATIN POETRY. Selections from Catullus and Martial, and from Virgil's Eclogues and Georgics.

Four hours a week. Four quarter hours. Winter quarter, odd years.

48. LATIN DRAMA. Seneca, Medea; Terence, Phormio and Andria.

Four hours a week. Four quarter hours. Spring quarter, odd years.

GEOGRAPHY

High School

1. **PHYSIOGRAPHY.** Land forms and their development, atmosphere and climate, and influence of physical conditions upon modes of living, industries, institutions, and distribution of peoples.

Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit. Fall quarter.

2. **PHYSIOGRAPHY AND COMMERCIAL GEOGRAPHY.** The first half of this quarter's work is a continuation of Geography I. The second half begins the work in Commercial Geography.

Prerequisite: Course 1. Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit. Winter quarter.

3. **COMMERCIAL GEOGRAPHY, continued.**

Prerequisite: Course 2. Elective in the eleventh or twelfth year. Five hours a week. One-third of a unit. Spring quarter.

College

Note: For elementary grade or department teachers, Geography 20, 21, 36; 30, 31, 32 and 40 are recommended.

Those preparing to teach geography in high school should take Geography 20, 21, 32 (or 36); 30, 45, 44 (or 46), and 40.

20. **PRINCIPLES OF GEOGRAPHY.** A survey of the basic relationships between the natural environment and man's activities. The course is organized as a service course for those who are preparing for grade teaching and as a foundation for those who have selected geography as a major or minor subject.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades. Elective for others. Four hours a week. Four quarter hours. Every quarter.

21. **CLIMATOLOGY.** A treatment of climates and their causes. As a basis, a study is made of the form and motions of the earth as underlying influences upon the elements of weather and climate.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades. Elective for others. Four hours a week. Four quarter hours. Every quarter.

Note: Studies of the continents are made to lead to an understanding of the industrial and commercial development and the possibilities of the geographic regions.

30. GEOGRAPHY OF NORTH AMERICA.

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Fall and summer quarters.

31. GEOGRAPHY OF SOUTH AMERICA.

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Winter and summer quarters.

32. GEOGRAPHY OF EUROPE.

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Spring and summer quarters.

36. ELEMENTS OF GEOLOGY. The course presents the history of the development of the earth and life to the present form, emphasizing the explanation of the distribution and accessibility of the mineral resources of the earth. It is offered as a cultural subject and as a foundation for advanced study and reading in the fields of geography, botany, and zoology.

Four hours a week. Four quarter hours. Spring and summer quarters.

40. THE TEACHING OF GEOGRAPHY. A study of the principles involved in the selection, organization and presentation of geographic material for elementary and secondary schools according to the individual needs of the class.

Required in the senior year of those whose major subject is geography. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN GEOGRAPHY.

Required in the senior year of those whose major subject is geography. Five hours a week. Eight quarter hours. Winter and spring quarters.

43. PHYSIOGRAPHY. A study of the processes which change the surface of the earth. The course includes quite extensive work in interpreting the earth's surface through the use of topographic maps. This course should be elected by those who may teach physiography or general science in high school.

Prerequisite: Junior or senior classification. Four hours a week. Four quarter hours. Fall quarter.

44. TRADE AND TRANSPORTATION. A survey of the major trade regions of the world and the transportation facilities which have contributed to their development.

Prerequisite: Geography 20, 21. Four hours a week. Four quarter hours. Spring quarter, odd years.

45. GEOGRAPHY OF ASIA.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours. Winter quarter.

46. URBAN GEOGRAPHY. A detailed study of the location, growth, decline, and characteristics of cities as influenced by the natural environment.

Prerequisite: Geography 20, 21. Four hours a week. Four quarter hours. Spring quarter, even years.

HISTORY, SOCIOLOGY, GOVERNMENT, AND ECONOMICS

HISTORY

High School

1. ANCIENT HISTORY TO 479 B. C.
Elective in the tenth year. Five hours a week. One-third of a unit. Fall quarter.
2. ANCIENT HISTORY FROM 479-31 B. C.
Elective in the tenth year. Five hours a week. One-third of a unit. Winter quarter.
3. ANCIENT HISTORY FROM 31 B. C.-800 A. D.
Elective in the tenth year. Five hours a week. One-third of a unit. Spring quarter.
4. THE HISTORY OF ENGLAND TO 1558.
Required in the eleventh year. Five hours a week. One-third of a unit. Fall quarter.
5. THE HISTORY OF ENGLAND, 1558-1763.
Required in the eleventh year. Five hours a week. One-third of a unit. Winter quarter.
6. THE HISTORY OF ENGLAND AND THE BRITISH EMPIRE, 1763 TO THE PRESENT.
Required in the eleventh year. Five hours a week. One-third of a unit. Spring quarter.
7. AMERICAN HISTORY TO 1825.
Elective in the twelfth year. Five hours a week. One-third of a unit. Fall quarter.
8. THE HISTORY OF THE UNITED STATES, 1825-1876.
Elective in the twelfth year. Five hours a week. One-third of a unit. Winter quarter.
9. THE HISTORY OF THE UNITED STATES, 1876 TO THE PRESENT.
Elective in the twelfth year. Five hours a week. One-third of a unit. Spring quarter.

College

The history requirement in the Junior College may be fulfilled by selecting any two consecutive quarters of American history or ancient history.

33. AMERICAN POLITICAL AND INSTITUTIONAL HISTORY TO 1825.
Four hours a week. Four quarter hours. Fall quarter.
34. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES 1825-1876.
Four hours a week. Four quarter hours. Winter quarter.

35. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1876 TO THE PRESENT.

Four hours a week. Four quarter hours. Spring quarter.

37. ANCIENT HISTORY TO ABOUT 500 B. C.

Four hours a week. Four quarter hours. Fall quarter.

38. HISTORY OF GREEK CIVILIZATION.

Four hours a week. Four quarter hours. Winter quarter.

39. POLITICAL AND INSTITUTIONAL HISTORY OF ROME.

Four hours a week. Four quarter hours. Spring quarter.

40. THE TEACHING OF HISTORY.

Required in the senior year of those whose major subject is history. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HISTORY.

Required in the senior year of those whose major subject is history. Five hours a week. Eight quarter hours. Winter and spring quarters.

43, 44, 45. ENGLISH HISTORY. A fundamental course in the political and social institutions of England.

Four hours a week. Twelve quarter hours. Fall, winter, and spring quarters.

46. THE HISTORY OF WESTERN EUROPE FROM THE CLOSE OF THE FOURTH CENTURY TO 1500.

Four hours a week. Four quarter hours. Fall quarter.

47. THE HISTORY OF EUROPE, 1500-1815.

Four hours a week. Four quarter hours. Winter quarter.

48. THE HISTORY OF EUROPE, 1815 TO THE PRESENT.

Four hours a week. Four quarter hours. Spring quarter.

SOCIOLOGY

College

43, 44, 45. SOCIOLOGY.

Four hours a week. Twelve quarter hours. Summer quarter (Course 43).

GOVERNMENT

High School

1. STATE AND LOCAL CIVIL GOVERNMENT.

Required in the twelfth year. Five hours a week. One-third of a unit. Fall quarter.

2a. THE NATIONAL GOVERNMENT.

Required in the twelfth year. Five hours a week. One-sixth of a unit. First half of the winter quarter.

College

43. STATE AND LOCAL GOVERNMENT.

Four hours a week. Four quarter hours. Fall and summer quarters.

44. THE NATIONAL GOVERNMENT.

Four hours a week. Four quarter hours. Winter and summer quarters.

45. MODERN GOVERNMENTS OF EUROPE AND AMERICA.

Prerequisite: Course 44. Four hours a week. Four quarter hours. Spring and summer quarters.

ECONOMICS

High School

1a, 2. ECONOMICS. Economics 1a, second half of the winter quarter and Economics 2, spring quarter, complete the year's work of which Government 1, 2a forms the first half year's work for high school seniors.

Required in the twelfth year. One-half unit. Economics 1a, second half of the winter quarter; Economics 2, spring quarter.

College

20. THE ECONOMIC HISTORY OF THE UNITED STATES.

The natural resources, their extent, geographical distribution, and relation to industrial life; the development of agriculture, industry, commerce, and transportation; the changes in methods of production and distribution and their relation to present economic problems.

Required in the curriculum in Industrial Arts. Four hours a week. Four quarter hours. Spring quarter.

44. THE PRINCIPLES OF ECONOMICS.

Elective. Four hours a week. Four quarter hours. Fall quarter.

45. THE PRINCIPLES OF ECONOMICS AND THEIR APPLICATION TO PRESENT-DAY ECONOMIC PROBLEMS.

Prerequisite: Course 44. Elective. Four hours a week. Four quarter hours. Winter quarter.

46. MONEY AND BANKING.

Prerequisite: Courses 44 and 45. Elective. Four hours a week. Four quarter hours. Spring quarter.

HOME ECONOMICS

High School

I. CLOTHING

4. CLOTHING. Problems: Undergarments. Elementary textile study. Budgeting. Related art.

Elective. Eight hours a week. One-third of a unit. Fall quarter, odd years.

5. CLOTHING. Problems: Simple cotton dress and child's garment. Clothing selection. House planning.

Prerequisite: Clothing 4. Elective. Eight hours a week. One-third of a unit. Winter quarter, odd years.

6. CLOTHING. Problem: Afternoon dress. Care and repair of clothing. Home furnishing. Personal improvement.

Prerequisite: Clothing 5. Elective. Eight hours a week. One-third of a unit. Spring quarter, odd years.

High School

II. FOODS AND NUTRITION

4. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Health and breakfast units.

Elective. Eight hours a week. One-third of a unit. Fall quarter, even years.

5. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Luncheon and tea unit. Christmas candies.

Prerequisite: Foods 4. Elective. Eight hours a week. One-third of a unit. Winter quarter, even years.

6. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Dinner unit. Home management and child care and training units.

Prerequisite: Foods 5. Elective. Eight hours a week. One-third of a unit. Spring quarter, even years.

College

Note: The four-year curriculum in home economics (See Curriculum II, 2F) is designed to cover the needs of teachers who wish to teach home economics in high schools which receive Federal Aid under the Smith-Hughes Law. It has been approved by the State Supervisor of Home Economics.

I. CLOTHING

30 ELEMENTARY CLOTHING. Textile study. Problems: Undergarments. The developing of illustrative material for teaching.

Elective. Eight hours a week. Four quarter hours. Fall and summer quarters.

31. CLOTHING. Problem: A smock. Decorative stitches, clothing economics, study of clothing budgets.

Prerequisite: Clothing 30. Elective. Eight hours a week. Four quarter hours. Winter and summer quarters.

32. CLOTHING. Problem: Simple afternoon dress. Elementary clothing selection.

Prerequisite: Clothing 31. Elective. Eight hours a week. Four quarter hours. Spring and summer quarters.

43. CLOTHING. Problem: Wool dress or its equivalent. Advanced clothing selection.

Prerequisite: Clothing 32. Elective. Eight hours a week. Four quarter hours. Fall quarter, even years.

44. CHILDREN'S CLOTHING. Emphasis on selection, make-over, and construction.

Prerequisite: Clothing 43. Elective. Eight hours a week. Four quarter hours. Winter quarter, even years.

45. CLOTHING. Problem: A silk dress or the equivalent. Renovation, care, and repair of clothing.

Prerequisite: Clothing 44. Elective. Eight hours a week. Four quarter hours. Spring quarter, even years.

II. FOODS AND NUTRITION

30. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Relation of health to food study. Breakfast.

Prerequisite: Chemistry 30, 31, 32, unless the student is registered for Chemistry 30. Eight hours a week. Four quarter hours. Fall quarter.

31. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Luncheons. Christmas candies.

Prerequisite: Foods 30. Eight hours a week. Four quarter hours. Winter quarter.

32. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Teas. Dinners.

Prerequisite: Foods 31. Eight hours a week. Four quarter hours. Spring quarter.

43. FOODS AND NUTRITION. Experimental Cookery. Conventional methods in cookery studied experimentally. Recipes analyzed and effects of various proportions studied.

Prerequisite: Foods 32 and Chemistry 43, 44, 45, unless the student is registered for Chemistry 43. Eight hours a week. Four quarter hours. Fall quarter, odd years (1934-35 and alternate years for home economics students).

44. FOODS AND NUTRITION. Dietetics. Principles of normal human nutrition. Application of practical feeding problems to the individual. Calculation and preparation of dietaries.

Prerequisite: Foods 43. Eight hours a week. Four quarter hours. Winter quarter, odd years (1934-35 and alternate years).

45. FOODS AND NUTRITION. Meal planning and serving. Individual planning and preparation of meals for family groups including adaptation to needs of child. Aesthetic phase and social opportunities in meals emphasized.

Prerequisite: Foods 44. Eight hours a week. Four quarter hours. Spring quarter, odd years (1934-35, and alternate years).

III. HOME ECONOMICS

40. ADMINISTRATION AND METHODS IN HOME ECONOMICS.

Prerequisite: Junior standing in the home economics curriculum. Four hours a week. Fall quarter.

41C, 42C. PRACTICE TEACHING IN CLOTHING AND RELATED SUBJECTS.

Prerequisite: Home Economics 40. Five hours a week. Eight quarter hours. Winter and spring quarter, odd years (1934-35 and alternate years).

41F, 42F. PRACTICE TEACHING IN FOODS AND NUTRITION.

Prerequisite: Home Economics 40. Five hours a week. Eight quarter hours. Winter and spring quarter, even years (1933-34 and alternate years).

Note: Three of these four courses in practice teaching (Clothing 41, 42 and Foods 41, 42) are required. There is no credit toward graduation for more than three.

43. HOUSEHOLD PHYSICS. A study of labor saving devices and other equipment in the home with relation to its purchase, care and use.

Four hours a week. Four quarter hours. Fall quarter, odd years (1934-35 and alternate years).

44. HOUSE PLANNING AND FURNISHING. See Art 44.

Prerequisite: Junior standing in the home economics or art curriculum. Four hours a week. Four quarter hours. Winter quarter, even years (1933-34 and alternate years).

45. HOME MANAGEMENT. The business problems of the home are studied; budget making and ways of meeting problems of the home.

Four hours a week. Four quarter hours. Winter quarter, odd years (1934-35 and alternate years).

46. HOME NURSING. 1. Physical care and training of the infant and pre-school age child. 2. A study of the factors to be used in the training and development of children in the home.

Four hours a week. Four quarter hours. Spring quarter, odd years (1934-35 and alternate years).

47. INDUSTRIAL HISTORY. See Industrial Arts 58.

Prerequisite: Junior standing in the home economics or industrial arts curriculum. Four hours a week. Four quarter hours. Spring quarter.

INDUSTRIAL ARTS

High School

1. MECHANICAL DRAWING. This course consists of the making of seven mechanical drawing plates. The size of each plate is to be approximately ten inches by fifteen inches on the trim line. Each plate is to be finished with India ink. The work begins with plane geometrical figures and develops into one and two view working drawings. One plate of freehand lettering is made.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

2. MECHANICAL DRAWING. A continuation of Industrial Arts 1. Seven plates are considered a quarter's work. Two and three view working drawings are the emphasis in this course. Orthographic projection is used in each case. One plate of instrumental lettering is made.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

3. MECHANICAL DRAWING. Eight plates are required this quarter. These are working drawings and mechanical perspective with one plate of instrumental lettering.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

4. WOODWORK. Beginning woodwork based upon Griffith's *Essentials of Woodworking*. A choice of several problems to be made entirely with hand tools is given the pupil. A study of woods, tools, and processes is made.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

5. WOODWORK. A study of the mortise and tenon joint is made and a project is developed using this joint. Particular at-

tention is paid to the development of appreciation for pleasing lines and work which is neatly and accurately done.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

6. BENCH METAL WORK. The elements of sheet metal work are taken up in this course. Pupils make several sheet metal problems. Mild steel or wrought iron articles also are made.

Elective. Five hours a week. One-sixth of a unit. Every quarter.

7. MACHINE WOODWORK. Beginning machine woodworking processes. A simple piece of furniture is made with as little handwork as possible. A study of the machines is made with attention paid to safety in operating and care for them.

Prerequisite: Industrial Arts 3 and 6. Elective. Ten hours a week. One-third of a unit. Fall quarter.

8. MACHINE WOODWORK, continued. Some study is made of pleasing design and of wood finishes. A piece of furniture is begun which has some originality in design (approved by the teacher). Especial attention is given technique and design.

Prerequisite: Industrial Arts 7. Elective. Ten hours a week. One-third of a unit. Winter quarter.

9. MACHINE WOODWORK, continued. The piece of furniture started in the winter quarter is completed in workmanlike style. Wood turning is studied and a desk lamp developed. This includes the making of a wire shade frame.

Prerequisite: Industrial Arts 7. Elective. Ten hours a week. One-third of a unit. Spring quarter.

Courses 1, 2, and 3 with Courses 4, 5, and 6 constitute the first year's work and are taken together. Courses 7, 8, and 9 are the second year's work.

College

20. PRACTICE TEACHING IN INDUSTRIAL ARTS.

Required in the junior year in the curriculum in Industrial Arts. Five hours a week. Four quarter hours. Fall, winter, or spring quarters.

24. PRIMARY AND INTERMEDIATE GRADE HANDWORK. A course for primary teachers and for supervisors of primary schools. Paper folding, paper weaving, cardboard construction, book binding, woodwork, basketry (reed and raffia), clay work.

Required in the two-year curriculum unless Course 25 is taken. Four hours a week with outside work. Four quarter hours. Summer quarter.

25. INTERMEDIATE GRADE HANDWORK.

Required in the two-year curriculum unless Course 24 is taken. Four hours a week with outside work. Four quarter hours. Fall quarter.

26 (43). PATTERN MAKING.

Required in the freshman year beginning 1933-34. Eight hours a week. Four quarter hours. Winter quarter.

30. ELEMENTARY MECHANICAL DRAWING. A thorough and practical course in the fundamentals of mechanical drawing. Emphasis is placed on good technique, accuracy, and speed. Lettering, orthographic projection, geometrical construction, sectional views. The common conventions of commercial practice.

Industrial Arts 30 and 31 are taken for credit in Mathematics 29 (descriptive geometry). Four hours a week. Two quarter hours. Every quarter.

31, 32. MECHANICAL DRAWING. Problems in isometric, oblique, and sheet metal drawing; machine design. Lectures, demonstrations, and applications, supplemented by textbook work.

Prerequisite: Course 30, also Course 31 to Course 32. Four hours a week. Two quarter hours for each course. Every quarter.

33. ELEMENTARY WOODWORK. Instruction in the care and use of woodworking tools. Construction of tools. Lectures, demonstrations, and applications, supplemented by textbook work.

Prerequisite: Course 30, unless the student is taking Course 30. Four hours a week. Two quarter hours. Every quarter.

34. JOINERY AND ADVANCED WOODWORK. A study of various types of joints used in furniture construction. Application in type problems. Study of varieties of wood. Lectures, demonstrations, and applications.

Prerequisite: Course 33. Four hours a week. Two quarter hours. Every quarter.

35. BENCH METAL WORK. Work in wrought iron, mild steel, and sheet metal.

Prerequisite: Course 30. Four hours a week. Two quarter hours. Fall quarter.

36, 37. FURNITURE AND CABINET CONSTRUCTION. The commercial method of production. Use of power machinery. Study of periods and styles of furniture. Applied design. Pieces are designed and one or more made in the shop. Outside reading and reports in class, covering the development and distinguishing characteristics of period furniture. Students pay for material used and are allowed to take the furniture home at the end of the College year.

Prerequisite: Course 35. Eight hours a week. Eight quarter hours for the two courses. Winter, spring, and summer quarters.

39. HOUSEHOLD MECHANICS. The purpose of this course is to train teachers for Junior High Schools in all kinds of household mechanical work. The first half of it, or 39a, consists of the refinishing and repair of worn and broken furniture and simple carpentry and masonry repair. The remainder of the course consists of a study of the installation and repair of plumbing and electrical apparatus in the home and the care and use of soldering coppers.

Required of those whose major subject is Industrial Arts and accepted for Home Economics 43 in the Smith-Hughes Home Economics curriculum.

Eight hours a week. Four quarter hours. Fall and summer quarters.

40. THE TEACHING OF INDUSTRIAL ARTS.

Required in the Industrial Arts curriculum. Four hours a week. Four quarter hours. Winter quarter.

41, 42. PRACTICE TEACHING IN INDUSTRIAL ARTS.

Required in the senior year of the Industrial Arts curriculum. Five hours a week. Four quarter hours for each course. Every quarter.

43 (26). SHEET METAL WORK.

Eight hours a week. Four quarter hours. Winter quarter.

44. ELECTRICAL CONSTRUCTION.

Eight hours a week. Four quarter hours. Spring quarter.

46. PATTERN MAKING.

Eight hours a week. Four quarter hours. Fall quarter.

47. GENERAL METAL WORK, INCLUDING FORGING.

Eight hours a week. Four quarter hours. Fall and winter quarters.

48. MACHINE SHOP.

Eight hours a week. Four quarter hours. Every quarter.

49, 50. ARCHITECTURAL DRAWING.

Four hours a week. Two quarter hours for each course. Every quarter.

51, 52. ADVANCED MECHANICAL DRAWING.

Four hours a week. Two quarter hours for each course. Every quarter.

53. AUTOMOBILE INSTRUCTION AND REPAIR I.

Eight hours a week. Four quarter hours. Fall and summer quarters.

54. ADVANCED MACHINE SHOP.

Eight hours a week. Four quarter hours. Every quarter.

55, 56. CARPENTRY.

Eight hours a week. Eight quarter hours for two courses. Carpentry 55, winter quarter; Carpentry 56, spring quarter.

57. AUTOMOBILE REPAIR II.

Eight hours a week. Four quarter hours. Fall and summer quarters.

58. HISTORY OF INDUSTRIAL EDUCATION.

Four hours a week. Four quarter hours. Spring quarter.

59, 60, 61. PRINTING I, II AND III.

Eight hours a week. Four quarter hours for each course. Winter, spring, and summer quarters.

THE USE OF THE LIBRARY

Certain courses offered in the College require considerable work in the library, including reading, and looking up references, and assigned topics. To do this work with the wisest expenditure of time and effort, students should know how to use the card catalogue, magazine indexes, and some common reference books. Lessons, required of all students, are given in the eleventh year of the high school and freshman year of the college. An effort is made to have these lessons prepare for library work required of students in other courses.

XI. THE USE OF THE LIBRARY. Elementary Course.

Required in the eleventh year. One hour a week. Fall and winter quarters.

20. THE USE OF THE LIBRARY.

Freshman who have completed Library XI are excused from all but the last four lessons of Library 20. They should register for Library 20 (XI), given in the first four weeks of the winter quarter.

Required in the freshman year. One hour a week. One quarter hour. Every quarter.

MATHEMATICS

High School

1. ALGEBRA 1. This is a beginning course in algebra and covers algebraic notation, substitution and evaluation, the fundamental operations, the use of formulas, and introduction to graphs, and begins the study of equations of the first degree in one unknown.

Required in the ninth year. Five hours a week. One-third of a unit. Fall quarter.

2. ALGEBRA 2. Important type products, factoring, highest common factor, lowest common multiple; fractions; simple equations in one unknown; ratio; proportion and variation; graphs.

Prerequisite: Algebra 1. Required in the ninth year. Five hours a week. One-third of a unit. Winter quarter.

3. ALGEBRA 3. Simple equations in two or more unknowns; square root and its application; radicals and exponents; quadratic equations.

Prerequisite: Algebra 2. Required in the ninth year. Five hours a week. One-third of a unit. Spring quarter.

4. GEOMETRY 1. Plane Geometry. Stone and Millis' texts are used in all courses in geometry. Chapters I, II, III, and IV.

Prerequisite: Algebra 3. Required in the tenth year. Five hours a week. One-third of a unit. Fall quarter.

5. GEOMETRY 2. Chapters V, VI, VII and VIII.

Prerequisite: Geometry 1. Required in the tenth year. Five hours a week. One-third of a unit. Winter quarter.

6. GEOMETRY 3. Chapters IX, X, and XI.

Prerequisite: Geometry 2. Required in the tenth year. Five hours a week. One-third of a unit. Spring quarter.

7. SOLID GEOMETRY 4a, 5. Chapters XII-XVI. Solid Geometry is begun in the second half of Mathematics 9 (Algebra 5a; Geometry 4a). The year's work (Algebra 4, 5a; Geometry 4a, 5) gives credit for one-half of a unit each in algebra and solid geometry.

Prerequisite: Geometry 3 and Algebra 5a. Five hours a week. One-half of a unit. Winter quarter, second half (Geometry 4a) and spring quarter (Geometry 5).

8. ALGEBRA 4. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number systems to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Elective. Five hours a week. One-third of a unit. Fall quarter.

9. ALGEBRA 5a; GEOMETRY 4a. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability. In the second half of this quarter, Solid Geometry is begun. See Mathematics 7 (Geometry 4a, 5).

Prerequisite: Algebra 4. Elective. Five hours a week. One third of a unit. Winter quarter.

College

20. ARITHMETIC. This course includes notation and numeration, the fundamental operations with integers and with common and decimal fractions, factors and multiples, English and metric

measures, involution and evolution, and simple problems in the measurement of surfaces and solids. The course covers the topics taken up in the first six grades as outlined in the Illinois State Course of Study. Special attention is given to the teaching of these topics in the lower grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. Four quarter hours. Every quarter.

21. ARITHMETIC. The primary object of this course is to prepare for the teaching of arithmetic in the seventh and eighth grades. The principal topics discussed are percentage and its application to practical business problems, ratio and proportion, graphs, formulas, intuitive geometry, square root, and the mensuration of surfaces and solids. It is the aim of the class room instructor to familiarize the students with methods of instruction that can be readily adapted to the seventh and eighth grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. Four quarter hours. Winter, spring, and summer quarters.

28. COLLEGE GEOMETRY. The objects of this course are to improve and extend the student's knowledge of the content and methods of Euclidian geometry and to give an introduction to modern geometry.

Required in the sophomore year of those whose major subject is mathematics. Four hours a week. Four quarter hours. Spring quarter.

29. DESCRIPTIVE GEOMETRY. The course includes the line, point, and plane, and their relation to each other; the intersection of surfaces, penetration and development, and conic sections.

Students take Industrial Arts 30, 31 for credit in Mathematics 29.

Recommended for those whose major subject is mathematics. Four hours a week for two quarters. Four quarter hours for Industrial Arts 30, 31. Winter and spring quarters.

30. SOLID GEOMETRY. Chapters XII-XVI. Students who have had solid geometry in high school take Arithmetic 20, Mathematics 29, Trigonometry 33. Those who have not had Geometry 30 take Geometry 30, Arithmetic 20, and Trigonometry 33 in the freshman year.

Prerequisite: Geometry 3. Four hours a week. Four quarter hours. Fall quarter.

31. ALGEBRA. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number system to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Four hours a week. Four quarter hours. Fall quarter.

32. ALGEBRA. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 31 or the equivalent. Four hours a week. Four quarter hours. Winter quarter.

33. PLANE TRIGONOMETRY. Definitions and properties of trigonometric functions, the deduction of important trigonometric formulas, the use of tables of logarithms, the solution of plane triangles, and various practical applications.

Four hours a week. Four quarter hours. Spring quarter.

34. PLANE ANALYTIC GEOMETRY. A beginning course in analytic geometry.

Prerequisite: Trigonometry 33. Four hours a week. Four quarter hours. Fall quarter.

35. PLANE ANALYTIC GEOMETRY. Continuation of the preceding course.

Prerequisite: Analytics 34. Four hours a week. Four quarter hours. Winter quarter.

36. ALGEBRA. Theory of equations including elementary transformation, location of roots, and the solution of the cubic and biquadratic equations; limits, elementary properties of series.

Prerequisite: Algebra 32. Elective. Four hours a week. Four quarter hours. Spring quarter.

37. ELEMENTS OF THE CALCULUS. This course is planned for students whose major subject is physics. It offers an introduction to some of the elementary concepts and methods of the calculus.

Prerequisite: Analytics 35, or the equivalent. Required of students whose major subject is physics. Four hours a week. Four quarter hours (but no credit for students who take Calculus 43). Spring quarter.

40. THE TEACHING OF HIGH SCHOOL MATHEMATICS.

Required in the senior year of those whose major subject is mathematics. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL MATHEMATICS.

Required of those whose major subject is mathematics. Five hours a week. Eight quarter hours. Winter and spring quarters.

43, 44, 45. DIFFERENTIAL AND INTEGRAL CALCULUS.

Prerequisite: Analytics 35; also Calculus 43 to Calculus 44 and Calculus 44 to Calculus 45. Four hours a week. Twelve quarter hours. Calculus 43, fall quarter; Calculus 44, winter quarter; Calculus 45, spring quarter.

MUSIC

I. Musical Organizations

THE COLLEGE MEN'S GLEE CLUB. During the first weeks of the college year, college men may try for a place in this club. The club meets twice a week and appears in public several times during the year, giving the annual concert in March.

THE COLLEGE WOMEN'S GLEE CLUB. Membership in this club is open to all college women who meet the vocal and reading requirements in the preliminary rehearsals. The club meets for two one-hour rehearsals a week in the evening and makes many local appearances during the year. They present one formal concert in the spring.

RECITALS. Opportunity is given to students of voice, piano, and violin to appear in informal recitals at least once every quarter.

BAND. Three bands are organized each year, the high school band, the college band, and the concert band. The concert band membership is made up of the best players from the other two bands. There are from fifty to sixty musicians in each of these bands.

The college band plays for home football and basketball games and in the fall sometimes goes to two out-of-town games with the team. This is the marching band. One or two rehearsals are held weekly.

The concert band gives concerts during the year and plays for special occasions. Both bands are fully uniformed. There are two rehearsals weekly.

ORCHESTRA. There are two orchestras, one for beginners, or young players, and the other for advanced players. Some players practice with both organizations. Each organization rehearses once a week. The advanced orchestra numbers about thirty pieces and gives one or two concerts a year.

II. Music Lessons and Fees.

PIANO AND VOICE LESSONS. A fee of \$5.00 a quarter is paid for each. Two lessons are given each week in piano and one in voice.

INSTRUMENT WORK (Violin, Clarinet, Cornet or Other Instrument). Lessons on these instruments—one or two students in a period—are \$5.00 a quarter, two lessons a week (equivalent to one fifty-minute period).

CLASS WORK IN THESE INSTRUMENTS IS FREE. Classes meet twice a week for one period.

A maximum fee of \$5.00 a quarter is charged for the rental of an instrument.

III. High School Music

1, 2, 3. The object of this course is to train pupils inexperienced in music how to listen to and enjoy good music. The victrola and piano are used. Pupils learn to know by ear about fifty standard musical compositions—the title, the composer, and the outstanding characteristics of the form of composition. They learn the instruments of the symphony orchestra by name, sound, and sight. Half of the time is devoted to sight singing according to the ability of the class. There are daily assignments requiring forty minutes' preparation.

Elective in the tenth, eleventh, or twelfth years. Five hours a week. One unit. No credit for less than the whole year's work.

Notes.—1. The high school girls' glee club is composed of thirty-five girls chosen from the high school, and meeting twice a week.

2. Chorus, twice a week, is required in the ninth year.

3. The high school has also a mixed chorus.

IV. Public School Music

(1) *Bachelor of Education Degree in Public School Music.*—The first two years of a four-year curriculum, leading to the degree of Bachelor of Education in Public School Music, is offered toward the preparation of college students to teach music in the elementary grades and in the high school.

(2) *Entrance Requirements.*—Those choosing public school music as the major subject are required before registration to take examinations in pitch and rhythm. They should have a minimum third grade proficiency in piano. In order to meet the requirements students may register in preparatory courses,

Piano 1, 2, 3. Those who, at entrance, have completed the piano requirements in this curriculum (Piano 30, 31, 32 and 33, 34, 35) may be exempt from further study of piano. Exemption is determined by examination or presentation of twelve quarter hours of credit in piano work from a recognized institution.

(3) *Minor Subject.*—Students who wish to make music a minor subject may take Music 30, 31, 32, 33, 34, 35 (or 20).

Those registered in the public school music curriculum are advised to select, as a minor subject and for elective credit, courses in art, foreign language, English, and history. A year of foreign language is recommended as one of the electives in the music curriculum.

(4) *Description of Courses.*—

20. PRACTICE TEACHING IN MUSIC. This course is devoted to a detailed study of the material and methods of teaching music in the elementary school with practice teaching in two grades.

Prerequisite: Music 24 (or the equivalent) and recommendation of the supervisor of public school music and of the director of the Elementary Training School. Five hours a week. Four quarter hours. Fall, winter, and spring quarters.

O. THEORY AND SIGHT READING. The fundamentals of music, including ear training and sight reading for students in the two-year grade curriculum who have never studied music. Students registering for Music 24 are transferred to Music O, a non-credit course, if they have not the prerequisite for Music 24. Students are permitted to take Music O in addition to regular work without the requirement of B average. It is offered in the fall and winter quarters.

Music 24 may be taken in the winter, spring, or summer quarters after Music O has been completed.

24. PUBLIC SCHOOL MUSIC. Elementary sight singing and lower grade methods. The second half of the quarter is devoted to methods of teaching music in the first six grades with observation in the Training School.

Required in the sophomore year in the two-year curriculum for the preparation of teachers of the grades. Four hours a week. Four quarter hours. Every quarter.

30. ELEMENTARY THEORY. A course designed to give a thorough ground work in the melodic, harmonic, and rhythmic elements of music. Scales, intervals, chords, and cadences are studied in singing, writing, playing, and dictation.

Required in the freshman year of the music curriculum. Four hours a week. Four quarter hours. Fall quarter.

31. ELEMENTARY THEORY. A continuation of the work in the fall quarter, with the inclusion of key relation and modula-

tion. Sight reading of two-part music and more complicated rhythms. Emphasis is placed continually on ear training.

Required in the freshman year of the music curriculum. Prerequisite: Music 30. Four hours a week. Four quarter hours. Winter quarter.

32. ELEMENTARY THEORY. Rhythmic, melodic, harmonic dictation with thorough practice in sight reading in two, three, and four-part music. Transposition and reading of clefs.

Required in the freshman year of the music curriculum. Prerequisite: Music 31. Four hours a week. Four quarter hours. Spring quarter.

33. HARMONY. Music composition in the elementary forms with a complete study of the necessary harmonic equipment which includes primary and secondary triads with inversions.

Required in the sophomore year of the music curriculum. Prerequisite: Music 32. Four hours a week. Four quarter hours. Fall quarter.

34. HARMONY. Continued writing and playing from dictation of the chords learned in the fall quarter. Introduction and use of seventh chords. Composition and study of small forms.

Required in the sophomore year of the music curriculum. Prerequisite: Music 33. Four hours a week. Four quarter hours. Winter quarter.

35. HARMONY. Composition of a three-part song form with further use of the harmonic materials studied in the fall and winter quarters. Introduction to elementary counterpoint.

Required in the sophomore year of the music curriculum. Prerequisite: Music 34. Four hours a week. Four quarter hours. Spring quarter.

Note.—A booklet giving description of proposed courses for Senior College work in the public school music curriculum will be sent on request.

V. Instrumental Music

(1) Piano

In piano instruction two or three students are assigned to each fifty minute period.

Elective credit to the extent of twelve quarter hours in piano, voice, or violin training, or six quarter hours in any two of these, may be used for credit toward graduation.

Students must have a minimum of third grade proficiency in piano in order to be admitted to the four-year curriculum in public school music. In order to meet the requirements students

may register in the preparatory non-credit courses, Piano, 1, 2, 3.

Entering students who have completed the piano requirements of the public school music curriculum (Piano 30, 31, 32, 33, 34, 35) may be exempt from further study of piano if they so desire.

Exemption is determined by examination of the applicant or by his presentation of twelve quarter hours of credit earned in a recognized institution.

1, 2, 3. PIANO, ELEMENTARY COURSE.

Required in the public school music curriculum as preparation for Piano 30, 31, 32. Elective. Two lessons a week. Every quarter. No credit.

30, 31, 32. PIANO, FIRST YEAR. Major and minor scales in four speeds. Studies of Hanon, Czerny, and Heller, or equivalents. Easier Sonatas of Haydn and Mozart. Bach's Two-Part Inventions. A development of technique and sight-reading for an artistic interpretation of the lighter compositions of Mendelssohn, Grieg, Schumann, and MacDowell.

Prerequisite: Piano 1, 2, 3, or the equivalent. Required in the first year of the public school music curriculum. Elective in other curricula. No credit toward graduation for less than twelve quarter hours unless six quarter hours are offered with six quarter hours of another kind of applied music. Two lessons a week. One quarter hour for each course (30, 31, or 32).

33, 34, 35. PIANO, SECOND YEAR. A continuation of technical exercises, arpeggios in dominant and diminished chords; scales in thirds and sixths. Bach's Three-Part Inventions. Easier Sonatas of Beethoven. Selections by standard composers such as Chopin (Waltzes), Schumann (Romances), Debussy (Clair de Lune).

Prerequisite: Piano 30, 31, 32, or the equivalent. Required in the public school music curriculum. Elective in other curricula. No credit toward graduation for less than twelve quarter hours unless six quarter hours are offered with six quarter hours of some other kind of applied music. Two lessons a week. One quarter hour for each course (33, 34, 35).

43, 44, 45. PIANO, THIRD YEAR. Continuation of Piano 33, 34, 35.

Prerequisite: Piano 33, 34, 35, or the equivalent. Elective. No credit toward graduation for less than twelve quarter hours unless six quarter hours are offered with six quarter hours of some other kind of applied music. Two lessons a week. One quarter hour for each course (43, 44, 45).

46, 47, 48. PIANO, FOURTH YEAR. Continuation of Piano 43, 44, 45.

Prerequisite: Piano 43, 44, 45, or the equivalent. Elective. No credit toward graduation for less than twelve quarter hours unless six quarter hours are offered with six quarter hours of some other kind of applied music. Two lessons a week. One quarter hour for each course (46, 47, 48).

(2) Violin

Elective credit to the extent of twelve quarter hours in piano, violin, or voice training or six quarter hours in each of any two of these may be used for credit toward graduation.

30, 31, 32. VIOLIN, FIRST YEAR.

Elective. Two lessons a week. Three quarter hours for the year's work.

33, 34, 35. VIOLIN, SECOND YEAR.

Prerequisite: Violin 30, 31, 32, or the equivalent. Elective. Two lessons a week. Three quarter hours for the year's work.

VI. Voice Training

Elective credit to the extent of twelve quarter hours in piano, violin, or voice training or six quarter hours in each of any two of these may be used for credit toward graduation.

One student is assigned to each fifty-minute period.

30, 31, 32. VOICE, FIRST YEAR. Fundamental principles of voice building, correct posture, and proper breathing. Vocal technique, vowel articulation, Concone studies, modern English songs.

Required in the first year of the public school music curriculum. Elective in other curricula. One lesson a week. Three quarter hours for the year's work.

33, 34, 35. VOICE, SECOND YEAR. Advanced vocalization exercises for legato and staccato, studies by Concone, Bordoni, and others. Song classics.

Required or elective in the second year of the public school music curriculum. Elective in other curricula. One lesson a week. Three quarter hours for the year's work.

43, 44, 45. VOICE, THIRD YEAR. Art of vocalization, studies of Bordoni, Vacai, and Lamberti. Songs in Italian, German, and English.

Prerequisite: Voice 33, 34, 35, or the equivalent. Elective. One lesson a week. Three quarter hours for the year's work.

46, 47, 48. VOICE, FOURTH YEAR. Advanced song interpretation. Studies in technique by Lütgen and Lamberti. Songs and arias in Italian, German, French and English.

Prerequisite: Voice 43, 44, 45. Elective. One lesson a week. Three quarter hours for the year's work.

PENMANSHIP

College

20. This course aims to improve the student's writing and to make him familiar with a system of plain business writing and methods of presenting it to pupils in the grades.

The course includes correct position, muscular movement exercises, business forms of capital letters, small letters, figures, sentences, and page writing. Emphasis is placed upon blackboard writing.

Four hours a week. One quarter hour. Every quarter.

PHYSICAL EDUCATION FOR MEN

High School

First Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Free developing exercises, marching, tumbling, apparatus work, and games.

Required in the first year. Two hours a week. Every quarter.

Second Year's Work. REGULAR EXERCISES IN THE GYMNASIUM. Advanced work on the horse and parallel bars, advanced steps and games. During the spring and fall the work is on the athletic field and consists of games and track work. The course includes lectures on hygiene and kinesiology.

Required in the second year. Two hours a week. Every quarter.

College

Credit earned in the required courses in physical education is in addition to the 96 quarter hours required for a diploma and the 192 quarter hours required for a degree.

Physical education and coaching may be used as a second minor subject, but not as the only minor subject.

No student is permitted to count less than 12 nor more than 24 quarter hours in physical education and coaching for credit toward graduation.

Required Courses

Freshman and Sophomore Years

First Year's Work. REGULAR EXERCISES IN THE GYMNASIUM OR PARTICIPATION IN A SPORT.

Two hours a week. One quarter hour for each quarter's work, but not counted toward graduation total. Every quarter.

Second Year's Work. GYMNASIUM WORK OR PARTICIPATION IN A SPORT.

Two hours a week. One quarter hour for each quarter's work, but not counted toward graduation total. Every quarter.

Elective Physical Education

For Sophomores, Juniors, and Seniors

33. PHYSICAL EDUCATION FOR TEACHERS, I. Advanced work in the gymnasium, playground work and games, athletic management for junior high schools.

Prerequisite: At least sophomore classification. Two hours a week with two double periods outside. Two quarter hours. Fall quarter.

34. PHYSIOLOGY, HYGIENE, AND ANATOMY. Physiology and physical education, the care of the body, the study of muscles and bones, the treatment of sprains, bruises and wounds, massaging and bandaging.

Prerequisite: At least sophomore classification. Four hours a week with preparation. Four quarter hours. Winter quarter.

35. PHYSICAL EDUCATION FOR TEACHERS, II. The history of physical education; the physical education programme.

Prerequisite: At least sophomore classification. Two hours a week with two double periods outside. Two quarter hours. Winter quarter.

36. BASKET BALL. Study of the rules. Practice in passing, dribbling, shooting, pivoting, and teamplay. Discussion of plays and tournaments.

Prerequisite: At least sophomore classification. Two hours with two double periods outside. Two quarter hours. Fall quarter.

36C. PRACTICE COACHING IN BASKETBALL.

Prerequisite: Physical Education 36 and junior or senior classification. Ten hours a week. Four quarter hours. Winter quarter.

37. FOOTBALL. The theory and practice of the game. Fundamentals, rules, systems.

Prerequisite: At least sophomore classification. Two hours with two double periods a week. Two quarter hours. Spring quarter.

37C. PRACTICE COACHING IN FOOTBALL.

Prerequisite: Physical Education 37 and junior or senior classification. Ten hours a week. Four quarter hours. Fall quarter.

38. TRACK AND FIELD. A study of forms in starting, sprinting, hurdling, jumping, discus throwing, javelin, shot putting, pole vaulting. Study of rules, discussion of training and preparation for each event.

Prerequisite: At least sophomore standing. Two hours with two double periods a week. Two quarter hours. Spring quarter.

38C. PRACTICE COACHING IN TRACK AND FIELD.

Prerequisite: Physical Education 38 and junior or senior classification. Ten hours a week. Spring quarter.

39C. PRACTICE COACHING IN BASEBALL.

Prerequisite: Junior or senior classification with recommendation of the instructor. Ten hours a week. Four quarter hours. Spring quarter.

PHYSICAL EDUCATION FOR WOMEN

A thorough physical examination is given at the beginning of each year. Physical defects, abnormalities, and weaknesses are noted, and the examining physician prescribes exercise to fit the student's individual needs. A resident health director follows up all cases in need of medical attention.

High School

Physical education, two hours a week for two years, is required in the high school. This requirement is in addition to the 16 units required for graduation.

Hockey, archery, and baseball are offered in the fall and spring quarters. Folk dancing, games, clog dancing, and apparatus work come in the winter quarter.

College

Physical education, two hours a week for two years, is required in the college. This requirement is in addition to the 96 quarter hours required for a diploma and to the 192 quarter hours required for a degree.

The requirements may be considered under two heads:

I. Regular physical education for the physically fit.

II. Special courses.

Archery and deck tennis are offered for those who are fit for very moderate exercise.

Students who wish to improve their posture, or to overcome such detriments to health and efficiency as may be favorably influenced by advice and exercise, e. g.; fallen arches, weak and painful feet, and weak abdominal muscles may make an appointment with a member of the staff for this instruction.

1. Hockey, soccer, tennis, archery, and deck tennis are offered in the fall and spring quarters with lectures on playing and on coaching and refereeing. An interclass tournament is held in the spring quarter.

2. In the winter quarter, students in four-year curricula take clog dancing and Danish gymnastics, while students in the two-year curriculum take up methods, subject matter, and activities suitable to children in the grades.

Some opportunity of supervising playground work may be given in the fall and spring to students in the two-year curriculum who have taken the necessary preparatory work.

BIOLOGICAL SCIENCE

I. HUMAN PHYSIOLOGY

High School

1, 2. Life processes of the human body and the function of its more important organs and tissues. The minimum amount of anatomy for the understanding of these activities and functions is given. An application of the facts and principles is made to show ways of improving the body as a working machine and of keeping it in health; hence the subject of hygiene is included.

Required in the ninth year (See Science 5, 6). Five hours a week. Two-thirds of a unit. Winter and spring quarters.

20. HYGIENE AND SANITATION. The first half of the course considers health factors (environment, living habits, heredity), nutrition, the muscular, excretory, and nervous systems, and the ductless glands.

The second part takes up bacteria and the resistance of the body to them, immunity to disease, water and water purification, sewage disposal, ventilation, food preservation, and health departments.

Required in all curricula. Four hours a week. Four quarter hours. Every quarter.

43. ELEMENTARY PHYSIOLOGY. The fundamental principles of animal physiology, including the chemical and physical struc-

ture of animate matter; the reactions involved in animals, including the human body, in responding to environmental conditions; the formation, structure, and functions of blood and lymph; and the fundamental structure of the nervous system with particular emphasis on reflex actions. A survey of the conditions determining the activities of living forms.

Elective. Six hours a week. Four quarter hours. Summer quarter.

44. ELEMENTARY PHYSIOLOGY. A study of respiration, foods, digestion, metabolism, and excretion.

Prerequisite: Physiology 43. Elective. Six hours a week. Four quarter hours. Summer quarter, even years.

45. ELEMENTARY PHYSIOLOGY. A study of circulation, the organs of internal secretion, the central nervous system, and the special senses.

Prerequisite: Physiology 43. Elective. Six hours a week. Four quarter hours. Summer quarter, odd years.

II. BOTANY

The botany department is well equipped for the training of teachers of botany in high schools, general biology, nature study in the grades, and general science; and those who complete the four-year botany curriculum are equipped to do graduate work in other institutions. The sequence of courses offered by this department has been carefully arranged for the teaching of botany. These courses with the equipment of the laboratory train the student for skillful laboratory teaching and may train him to enter other occupations in the field of science such as technicians in various laboratories.

The campus affords excellent opportunity for the study of trees, shrubs and herbaceous plants. There are over two hundred different kinds of trees and shrubs on the campus and numerous herbaceous flowering plants as well as many specimens of the other groups of plants.

High School

1, 2, 3. GENERAL BOTANY. This is a course in general botany for high school students. It is organized in such a way that the students may obtain exact information about the life processes of plants that may be applied to plant culture. Students have the opportunity of learning to know a large number of plants at sight, and to understand something of their physical and chemical structure.

Required in the tenth year unless Zoölogy 1, 2, 3, is substituted. Five sixty-minute periods a week. One unit. Botany 1, fall quarter; Botany 2, winter quarter; Botany 3, spring quarter.

College

20. COLLEGE BOTANY. A course designed to give the student a knowledge of the fundamental physiological processes concerned in the growth of plants, and of the external and internal structures which are concerned in these processes in leaves, stems, and roots. It includes also the effects of environment on these processes and structures.

Required in the two-year curriculum, unless Zoölogy 23 (or 20) or Botany 21 or 22 is taken. Elective in other curricula. Six hours a week. Four quarter hours. Every quarter.

21. COLLEGE BOTANY. A study of the reproduction of flowering plants, the development of fruit and seeds from the parts of the flower, the mechanism of heredity, and a brief study of the great groups of plants.

Prerequisite: Botany 20. Elective. Six hours a week. Four quarter hours. Winter and summer quarters.

22. GENERAL LOCAL FLORA. The identification of trees in winter and summer condition, of the common fresh water algae, liverworts, mosses and ferns, and of flowering plants as the season advances; and with a study of structures which is necessary for the recognition of these forms. The course is designed especially for those who expect to teach biological science in secondary schools.

Prerequisite: Botany 20 and 21 or permission of the instructor. Elective. Six hours a week. Four quarter hours. Spring and summer quarters.

30. THE MORPHOLOGY OF GREEN PLANTS. A study of the vegetative and reproductive structures of the green plants and a comparative study of the typical life histories of the great groups. The course consists mostly of laboratory work.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Fall quarter.

31. INTRODUCTION TO FUNGI AND PLANT DISEASES. The structure, life histories, and physiology of the groups of fungi and their relation to decay, fermentation, and the important plant diseases.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Winter quarter.

32. ECONOMIC BOTANY. The relation of vegetation centers to crop centers; the effect of environmental factors on the production of carbohydrates, fats, fibers, and other plant products; the value of microörganisms in the important economic practices carried on by their use.

Prerequisite: Botany 20 and 21. Elective. Four hours a week. Four quarter hours. Spring quarter.

40. METHOD IN HIGH SCHOOL BOTANY. The course includes methods of teaching high school botany and also the collection and preparation of material for demonstration and laboratory in high school botany.

Prerequisite: Two years' work in college botany. Required in the senior year in the four-year curriculum in botany. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL BOTANY.

Prerequisite: Botany 40. Required in the senior year in the four-year curriculum in botany unless Zoölogy 41 is substituted. Five hours a week. Course 41, four quarter hours; Course 42, four quarter hours. Winter and spring quarters.

43. MICROTECHNIC. A course designed for the purpose of giving the student a knowledge of the preparation of botanical material for class use and for the making of microscopic slides. It is desirable that students in this course shall have had a year of chemistry.

Prerequisite: Botany 20, 21, 22, and 30, or the equivalent. Elective. Six hours a week. Four quarter hours. Fall quarter.

44. EXPERIMENTAL PLANT PHYSIOLOGY. A qualitative and quantitative study of the experiments demonstrating the chemical and physical processes that result in the growth of plants and the application of this knowledge in solving problems in the growth of plants.

Prerequisite: One year of chemistry and Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Winter quarter.

45. ADVANCED BOTANY. This is designed to meet the needs of individual students who wish to do advanced work in some special field of botany. The student may choose the work he wishes to do, but is required to consult the instructor before registering.

Prerequisite: Botany 20, 21, 22, 30, and 43. Elective. Six hours a week. Four quarter hours. Any quarter, by permission.

46. ADVANCED WOOD ANATOMY AND IDENTIFICATION.

Prerequisite: Botany 20. Elective. Six hours a week. Four quarter hours. Spring quarter.

III. ZOÖLOGY

High School

1. ELEMENTARY INVERTEBRATE ZOÖLOGY. Important groups of invertebrates are considered, as far as possible, in their evolutionary order. Particular emphasis is given to life processes, behavior, relation to surroundings, geographical distribution, and importance to man.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit. Fall quarter.

2. ELEMENTARY VERTEBRATE ZOÖLOGY. Classes of vertebrates are studied somewhat in detail, but special attention is given to fishes, birds and mammals. Considerable identification work is done by the use of keys. Methods of collecting and preserving material and of caring for live animals are taught.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit. Winter quarter.

3. FIELD ZOÖLOGY. Life histories, relations to surroundings, and economic importance of common animals in the principal animal habitats found in the Charleston region which are (1) the open field or prairie, (2) the forest, (3) stream or pond, and (4) household and home premises. Methods of collecting and preserving material, both living and non-living, are emphasized. The course gives a foundation for elementary science teaching in graded schools, where animal materials are used.

Elective in the eleventh and twelfth years. Six hours a week. One-third of a unit. Spring quarter.

College

20, 21, 22. ELEMENTARY ZOÖLOGY.

Elective. Six hours a week. Twelve quarter hours. Course 20, fall quarter; Course 21, winter quarter; Course 22, spring quarter; also summer quarters.

23. NATURE STUDY. This course is designed to meet the biology requirement of the two-year curriculum. Its aim is to give a background for the teaching of nature study in the grades. It replaces the former requirement of Zoölogy 20. The course includes a study of the fundamental life processes and of the identification of birds and insects. It is not accepted for Zoölogy 20 or 21 toward a laboratory science requirement.

Required in the freshman year of the two-year curriculum unless Botany 20 is taken. Six hours a week. Four quarter hours. Fall and spring quarters.

30, 31, 32. VERTEBRATE ZOÖLOGY. A study of the anatomy, classifications, and habits of various classes of vertebrates. Course 30 deals with fishes; Course 31, with amphibians and reptiles; Course 32, with birds and mammals.

Prerequisite: Zoölogy 20, 21. *Elective.* Six hours a week. Twelve quarter hours. Course 30, fall quarter; Course 31, winter quarter; Course 32, spring quarter, even years.

40. METHOD IN HIGH SCHOOL ZOÖLOGY. The course includes methods of teaching zoölogy and also the collection and preparation of material for demonstration and laboratory in high school zoölogy.

Prerequisite: Two years' work in college zoölogy. *Required in the senior year in the four-year curriculum in zoölogy.* Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL ZOÖLOGY.

Prerequisite: Zoölogy 40. *Required in the senior year in the four-year curriculum in zoölogy unless Botany 41 is substituted.* Five hours a week. Course 41, four quarter hours; Course 42, four quarter hours. Winter and spring quarters.

43, 44, 45. ADVANCED ZOÖLOGY. A study of insects. Deals with the classification and ecology of this large and important class. Methods of collection and preparation of specimens are studied. It prepares for teaching biological science in the upper grades or high school.

Prerequisite: Zoölogy 20, 21, or 1, 2. *Elective.* Six hours a week. Twelve quarter hours. Zoölogy 43, fall quarter; Zoölogy 44, winter quarter; Zoölogy 45, spring quarter, odd years.

46. MICROTECHNIC. Methods and practice in the preparation of microscopic slides of animal tissues. Some histological studies are included.

Prerequisite: Two years of zoölogy and permission of the instructor. Six hours a week. Four quarter hours.

47. ANIMAL BEHAVIOR. Theoretical and experimental studies of the reactions of animals to various stimuli.

Prerequisite: Two years of zoölogy and permission of the instructor. Six hours a week. Four quarter hours.

48. ANIMAL ECOLOGY. A study of various animal associations and of the effects of environmental conditions.

Prerequisite: Two years of zoölogy and permission of the instructor. Six hours a week. Four quarter hours.

PHYSICAL SCIENCE

GENERAL SCIENCE

High School

4. INTRODUCTION TO CHEMISTRY.

Required in the ninth year. Five periods a week. One-third of a unit. Fall quarter.

5, 6. PHYSIOLOGY AND HYGIENE. See Human Physiology, Courses 1 and 2.

PHYSICS

High School

1, 2, 3. ELEMENTARY PHYSICS. Physics 1, mechanics and heat; Physics 2, magnetism and electricity; Physics 3, sound and light.

Prerequisite: Geometry 1, 2, 3. Required or elective in the eleventh or twelfth year. Seven hours a week, One unit. Physics 1, fall quarter; Physics 2, winter quarter; Physics 3, spring quarter.

College

30, 31, 32. FIRST YEAR OF COLLEGE PHYSICS. Physics 30, mechanics and heat; Physics 31, magnetism and electricity; Physics 32, light and sound.

Seven hours a week. Four quarter hours for each course. Physics 30, fall quarter; Physics 31, winter quarter; Physics 32, spring quarter.

40, 41, 42. METHODS AND PRACTICE TEACHING IN PHYSICS.

Required in the senior year in the four-year curriculum in physics. Five hours a week (Four hours for Course 40). Four quarter hours for each course. Fall, winter, and spring quarters.

43. RADIO. A study is made of the principles underlying radio communication. The course includes a study of some typical circuits used in receiving sets and a detailed study of the function of inductance, capacitance, and resistance in electric circuits. Types of vacuum tubes are discussed.

In the laboratory, electrical measurements of parts and assembled units are made. This includes taking characteristic curves of vacuum tubes.

Prerequisite: Physics 31. Six hours a week. Four quarter hours. Summer quarter.

44. ELECTRICAL MEASUREMENTS.

Prerequisite: Physics 31. Eight hours a week. Four quarter hours. Summer quarter.

45, 46, 47. PHYSICS, LABORATORY. Physics 45, mechanics and heat; Physics 46, light; Physics 47, modern physics.

Prerequisite: Physics 30, 31, 32. Eight hours a week. Four quarter hours for each course. Physics 45, fall quarter; Physics 46, winter quarter; Physics 47, spring quarter.

48. MECHANICS. A standard elementary course in theoretical mechanics. Studies of forces acting on a body; vectors; the laws of motion as applied to physical bodies; moment of inertia; momentum; energy.

Prerequisite: Physics 30 and trigonometry. Four hours a week. Four quarter hours. Fall quarter, even years.

49. HEAT, THEORY. Thermometry, expansion of solids, liquids, and gases. The general gas laws and the kinetic theory. Introduction to thermodynamics.

Prerequisite: Physics 30. Four hours a week. Four quarter hours. Winter quarter, even years.

50. ELECTRICITY AND MAGNETISM, THEORY. Magnets and the magnetic field; the electric field; direct current and magnetic field; alternating current and phase relations; units.

Prerequisite: Physics 31 and trigonometry. Four hours a week. Four quarter hours. Spring quarter, even years.

51. LIGHT, THEORY. A brief review of geometrical optics. Phenomena of light studied in terms of physical optics (light as a wave motion). Optical instruments; spectrometry; interference; and polarized light.

Prerequisite: Physics 32 and trigonometry. Four hours a week. Four quarter hours. Fall quarter, odd years.

52, 53. MODERN PHYSICS. A survey of basic experiments and theories of modern physics. Radio-activity; discharge of electricity through gases; X-rays; photo-electricity; the structure of matter and the periodic table; matter and radiation.

Prerequisite: Physics 30, 31, 32, and trigonometry. Four hours a week. Four quarter hours. Winter and spring quarters, odd years.

CHEMISTRY

High School

1, 2, 3. ELEMENTARY INORGANIC CHEMISTRY.

Required or elective in the eleventh or twelfth year. Seven hours a week. One unit. Chemistry 1, fall quarter; Chemistry 2, winter quarter; Chemistry 3, spring quarter.

College

Note.—Four year-sequences are offered: 1. General inorganic chemistry and introduction to qualitative analysis (30, 31, 32). 2. Qualitative and quantitative analysis (33, 34, 35). 3. Organic chemistry (43, 44, 45). 4. Physical chemistry (46, 47, 48).

Those for whom chemistry is the minor subject should take Chemistry 33, 34, 35 for the second year's work if they expect to teach high school chemistry.

It is best also to have Chemistry 33, 34, 35 before Chemistry 46, 47, 48.

The student's major subject will sometimes decide which of the three year-sequences he should take after the first if he is to have but one more.

30, 31. GENERAL INORGANIC CHEMISTRY. Non-metals.

Elective. Seven hours a week. Five quarter hours for each course. Chemistry 30, fall quarter; Chemistry 31, winter quarter.

32. METALS AND INTRODUCTION TO QUALITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31. Seven hours a week. Five quarter hours. Spring quarter.

33. QUALITATIVE ANALYSIS, Continued.

Prerequisite: Chemistry 30, 31, 32. Seven hours a week. Five quarter hours. Fall quarter, even years.

34, 35. QUANTITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31, 32. Seven hours a week. Five quarter hours for each course. Chemistry 34, winter quarter; Chemistry 35, spring quarter, even years.

40. THE TEACHING OF CHEMISTRY.

Required in the senior year in the four-year curriculum in chemistry. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN CHEMISTRY.

Required in the senior year in the four-year curriculum in chemistry. Five hours a week. Four quarter hours for each course. Winter and spring quarters.

43, 44. ORGANIC CHEMISTRY.

Prerequisite: Chemistry 30, 31, 32. Six hours a week. Four quarter hours for each course. Chemistry 43, fall quarter; Chemistry 44, winter quarter, every year.

45. FOOD AND PHYSIOLOGICAL CHEMISTRY.

Prerequisite: Chemistry 43, 44. Six hours a week. Four quarter hours. Spring quarter, every year.

46. PHYSICAL CHEMISTRY. A study of the fundamental principles of chemistry. Solutions and colloids are considered.

Prerequisite: Chemistry 30, 31, 32 and Mathematics 31, 32, 36. Six hours a week. Four quarter hours. Fall quarter, odd years, alternating with Chemistry 33, 34, 35.

47, 48. PHYSICAL CHEMISTRY. Chemical crystallography, electrochemistry, chemical kinetics, and atomic structure are considered.

Prerequisite: Chemistry 46 and Chemistry 33, 34, 35 if possible. Six hours a week. Four quarter hours. Winter and spring quarters, odd years, alternating with Chemistry 33, 34, 35.

PART III

LISTS

STUDENTS

FIRST HALF SUMMER QUARTER—1932

NAME	COUNTY	POSTOFFICE
Abraham, Mary Elizabeth.....	Clark	Casey
Adams, Dorothy Ruth.....	Effingham	Dieterich
Adams, John Fred.....	Coles	Charleston

THE TEACHERS COLLEGE BULLETIN

The Teachers College Bulletin, a sixteen-page monograph, devoted to educational topics, is issued quarterly and distributed in the immediate territory of the College free of charge. The numbers issued in the past six years, exclusive of summer school bulletins and annual catalogues, are:

94. The Use of Modern Poetry with Children, *by Florence E. Gardiner.*

97. Second Printing of Bulletin No. 94.

98. The Training of Teachers at the Eastern Illinois State Teachers College, *by Fiske Allen.*

101. Arithmetic Teachers in the Making, *by E. H. Taylor.*

102. Opportunities for High School Graduates in Public School Teaching in Illinois, *by a Committee of the Illinois Schoolmasters Club.*

105. Thirtieth Anniversary Bulletin, *compiled by Grace Geddes and Anna H. Morse.*

106. Alumni Register, 1900 to 1929, *compiled by Ruth Carman.*

109. Practical Arts at the Eastern Illinois State Teachers College, *by L. F. Ashley.*

110. A Mesophytic Ravine, "Rocky Branch," *by E. L. Stover.*

113. The Junior High School, An Annotated Bibliography, *by F. A. Beu.*

114. The Training of Public School Art Teachers, *by Grace E. Messer.*

117. Trees and Shrubs of the Campus, *by E. L. Stover.*

[Note: The printing of No. 117 has been delayed.]

118. Changes in the Student Body, 1925-1930, *by Ralph Haefner, Emma Reinhardt, F. A. Beu.*

CLASS MEMORIALS

- 1909: Large boulder north of Pemberton Hall.

CORRESPONDENCE

School officials who are looking for teachers may obtain full and confidential information in regard to the qualifications, character, and experience of former students who are candidates for positions in their schools.

Former students who wish teaching positions may register their names with the chairman of the appointment committee.

Bulletins published by the college are sent upon request.

PART I

GENERAL INFORMATION

EASTERN ILLINOIS STATE TEACHERS COLLEGE

LOCATION

The Eastern Illinois State Teachers College is located at Charleston, the county seat of Coles County. Charleston is on the Big Four and Nickel Plate railroads and is connected with the Illinois Central Railroad at Mattoon and with Kansas and Paris by a motor bus line.

HISTORY

To provide more adequate facilities for the training of teachers for the public schools of the state the legislature by an act approved May 22, 1895, established the Eastern Illinois State Normal School. This by an act of legislature in 1921 became the "Eastern Illinois State Teachers College at Charleston." On September 7, 1895, the five trustees provided for in the act selected a beautiful forty-acre tract of land three-quarters of a mile south of the public square of Charleston. The citizens of Charleston bought the land and presented it to the state. The building was erected at a cost of \$180,000. The grounds have a good elevation and are shaded by many fine old trees.

December 2, 1895, the contract was made for the erection of the building. The cornerstone was laid on the afternoon of May 27, 1896. The building and grounds were dedicated August 29, 1899, and on September 12, 1899, the institution was opened to students.

During the first year there were nineteen members of the faculty and two hundred and forty students. At the end of the first year, June, 1900, four students were granted the diploma of the school upon completion of the course of study. In 1933 seventy-two students were graduated from the Junior College and sixty-five from the Senior College.

During the summer of 1901, a six weeks session was offered for teachers. From 1920-1932, the college offered a twelve weeks summer quarter. A mid-spring session of six weeks was offered from 1922 to 1929.

In 1907 the state legislature appropriated one hundred thousand dollars for a woman's building. This building was completed

and occupied in January, 1909. It has proved to be a distinct addition to the cultural value of the institution. In addition to providing a beautiful home for one hundred young women during their residence in Charleston, it has had a marked influence in establishing good standards of living, and has come to be the social center of college life.

In 1911 the state legislature appropriated seventy-five thousand dollars for a training school building which was completed in 1913 with the exception of the assembly room which it still lacks.

In 1907 the power of conferring degrees was granted to the institution by the state legislature. Courses leading to the degree of Bachelor of Education (B. Ed.) were announced in 1920.

In 1925 the state legislature appropriated one hundred seventy thousand dollars for a Practical Arts Building. This building, completed in 1929, is used for home economics (Smith-Hughes) and for industrial arts.

In 1931, a seventy-two acre tract of land was added to the campus through an appropriation of \$21,600 made by the Fifty-seventh General Assembly.

The institution has always stood for sound scholarship and has striven to inculcate in the minds of its students a sincere love for truth. One of the gratifying evidences that it is in a measure fulfilling its mission is the fact that so many of its students have gone on to higher institutions of learning the better to equip themselves for service.

PURPOSE

The function of the state in education extends of necessity to the training of teachers. A rational system of public education implies provision for securing efficiency in the teaching office. State Teachers Colleges are the natural outgrowth of a policy of public education. The state is the only agency competent to meet the demands for qualified teachers imposed by its own attitude toward the instruction of its people. The object of a State Teachers College is not to extend the earning power of one class of persons at the public charge. It is to give a culture and learning dedicated in a special way to the general welfare. It exists primarily not for the benefit of its students but for the benefit of the whole people. Such a conception is fundamental and determines questions of organization, courses of study, and methods of instruction in the State Teachers Colleges.

EQUIPMENT

GROUNDS.—The grounds comprise forty acres, including the campus proper, the forest plantation, and the athletic field. These grounds, laid out by Mr. Walter Griffin, one of the most skillful landscape gardeners in the country, are justly considered exceptionally beautiful. A natural grove and other fine trees, a pond, a wide stretch of green, many borders of shrubbery and perennials in the natural style present a succession of pictures throughout the year. In the main grounds are the tennis courts, the children's playgrounds, the athletic field for girls, and the school garden. The forest plantation, planted during the early years of the institution, now includes several acres of thrifty trees, much used in botanical and zoölogical studies. In the adjoining athletic field, one of the best among those of the small colleges of the state, are the baseball diamond, the football field, and the quarter-mile cinder track.

A seventy-two acre tract of land was added to the campus in 1931 through an appropriation of \$21,600 made by the 57th General Assembly. It is used for athletics and physical education. The house is used as a club house by the Men's Union.

MAIN BUILDING.—The main building is a three-story structure, three hundred twenty-three feet in length, built of rough Bedford stone. It is in the Norman style, with a tower which is the neighborhood landmark. In this building are offices, the library, the assembly room, music and art rooms, classrooms, and laboratories.

TRAINING SCHOOL BUILDING.—The training school building of smooth Bedford stone was completed (except the assembly room) in 1913 at a cost of seventy-five thousand dollars. It is placed conveniently near the main building, and besides the rooms for the elementary school it contains classrooms, a children's library, and a laboratory for high-school agriculture.

PEMBERTON HALL.—The legislature of 1907 appropriated one hundred thousand dollars for a woman's building and gymnasium—the first appropriation for a woman's building ever made in the state of Illinois. A fine stone structure was finished and occupied January 4, 1909. The building has met the fondest hopes of its most ardent advocates, and its value as a social center in the college and in setting good standards of living is well established.

Room, including heat and light, with table board and privileges of laundry, costs \$5.75 a week. For table board, \$4.00 a week is charged. Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. Reservation is filed at the Hall when deposit is received

and credited at the business office. Application blanks will be sent at the request of students.

The deposit is credited to the student as part of the first month's payment, but forfeited if the student cancels the reservation too late to have it used by someone else.

PRACTICAL ARTS BUILDING.—The Practical Arts Building, completed in 1929, at a cost of \$135,000 for the building and \$40,000 for new equipment, furnishes excellent facilities for students who wish to specialize in industrial arts and home economics for grade and high-school positions and for the preparation of teachers in these subjects for the Smith-Hughes Vocational Schools. Shops are provided for practice in all kinds of hand and machine woodwork, metal machine shops and automobile repair, sheet metal work, general metal, electrical construction and installation, printing and mechanical drawing. These shops are all well lighted and on the first floor of the building. The basement consists of classrooms, storage rooms, and locker rooms.

The home economics department occupies the entire second floor of this building. Here are food laboratories, sewing rooms, fitting rooms, a lecture room, a dining room, a unit kitchen, a foods classroom, offices, and reception room, all arranged for the greatest convenience and efficiency in teaching.

There is floor space of approximately 27,500 square feet in the building. The first floor occupies 12,700 square feet, the second floor 7,400 square feet, and the basement a similar amount.

MUSIC BUILDING.—The small Manual Arts building, south of the power house, is now used for the band and orchestra. Lessons are given here in band and orchestra instruments.

LIBRARY.—The library now contains about 40,000 books and pamphlets. The reference books, bound periodicals, and reserve books are shelved in the reading room. Here are also found the current numbers of almost two hundred periodicals, including, in addition to those of general interest, many devoted to special subjects. The books for general circulation are kept in the stack room. For grades lower than the seventh, schoolroom libraries are provided. The library has a dictionary card catalogue and the books are classified according to the Dewey decimal system. There is a large collection of classified pictures for use in all departments. Three librarians are in charge, giving necessary aid and instruction to students in the use of books. Lessons in the use of the library are required in all curricula as explained in the Description of Courses.

SCHOOL GARDEN AND GREENHOUSE.—An opportunity is given for seeing the work done by pupils of the Training School in

elementary agriculture. Small plots of ground are planted and cared for by the pupils under the direction of the teacher of agriculture and the teachers of the Training School. Connected with the children's garden are a model vegetable garden, a rose garden, and a garden for experimentation and exhibition purposes. All of these divisions are used for demonstrating the proper care of plants, the methods of propagation, crop rotation, and some of the principles of plant breeding.

An excellent four-room greenhouse contains many plants of unusual interest and serves as an important adjunct to the botanical laboratories.

Additional facilities for field observation and for obtaining laboratory materials are offered by a small lake and a forest plantation of six thousand trees within five minutes' walk of the biological laboratories.

LABORATORIES.—The botanical laboratories are well equipped for the training of high-school teachers.

The laboratory tables are so equipped that each student has a light at his desk. The plant collections include numerous specimens of all kinds of plants so that each student may have his own material for study and may become well acquainted with plants.

The mechanical equipment consists of about three thousand microscopic slides that are of the best workmanship; compound microscopes of modern construction; a good projection lantern with several hundred lantern slides of plants and their structures; numerous pieces of apparatus for the demonstration of the physiological processes occurring in plants; and microtomes for the cutting of sections of plant tissues for the preparation of microscopic slides.

The zoölogy and physiology laboratory has sufficient equipment so that forty-four students may work at the same time, each being supplied with a compound microscope, a simple microscope, and other equipment necessary for examining specimens. There are many preserved specimens of both local and foreign fauna, including marine animals. The accession numbers of these now run over 16,000. Most of these are preserved in formalin and alcohol, but there are nearly two hundred mounted birds and mammals and over three hundred skins of these types of animals. There are also many shells, corals, and thousands of mounted insects, and other dried specimens. There are ample facilities for keeping live animals. Many models and skeletons are used and also about sixty-five of the best charts obtainable. Over twenty-five hundred lantern slides are available for illustrative purposes.

The chemistry laboratory is well equipped with all apparatus needed for demonstration and for laboratory experiments. The tables are modern and give places for thirty-two students to work. An ample supply of analytic balances is provided.

The physics laboratory is equipped for experiments in all subjects of physics. It is well wired for electrical work. Wall galvanometers are provided for electrical measurements. Gas, water, and compressed air are available. A dark room is included for photometry and various studies in light. The equipment provides for both demonstration and laboratory work in all courses.

The high-school agriculture laboratory is supplied with tables, a set of apparatus for testing milk and its products, and apparatus for soil studies.

EXPENSES

Tuition is free to college students who are to teach in the public schools of Illinois for a period equal to the time spent in this school. Others in the college pay tuition at the rate of \$25.00 a quarter (twelve weeks).

At Pemberton Hall, room, including heat and light, with table board and privileges of laundry, costs \$5.75 a week, payable monthly in advance (\$23.00 at the beginning of each month). For table board, \$4.00 a week is charged, payable monthly in advance (\$16.00 at the beginning of each month). Students are not required to furnish anything.

Fees for each quarter (12 weeks) are \$11.50, distributed as follows:

Registration	\$5.00
Book rent	1.50
Recreation fee	1.00
Athletic Association	2.15
Warbler75
College News75
Band35

Total, College \$11.50

There is no refund of fees in case a student withdraws his registration after one week.

Fees for materials used are paid in laboratory science courses and in courses in art, home economics, and industrial arts except in theory courses. Completed projects are the property of the student.

For piano or voice lessons a fee of \$5.00 a quarter is paid. Two lessons are given each week.

Class instruction in violin, clarinet, cornet, or other instrument is free to members of the band or orchestra.

A maximum fee of \$5.00 a quarter is charged for the rental of the instrument.

Holders of Lindly Scholarships, received at the time of graduation from the eighth grade, do not pay the registration fee (\$5.00). Regular quarterly fees for valid Lindly Scholarship students are \$6.50 in the college.

The student must present the Lindly Scholarship at the time the fees are paid in order to be exempt from the payment of the registration fee.

PENALTIES

An additional fee of \$1.00 is charged if a student fails to complete his registration on the day or days appointed for registration. An additional fee of \$1.00 is charged if a change in programme is made after the third day of the quarter.

An additional fee of \$1.00 is charged if the student's record at the textbook library is not clear at the close of each quarter.

The original transcript of a student's record with one carbon copy will be mailed upon request without cost to the student; but a charge of \$1.00 is made for additional copies of this transcript sent later.

PLEDGE

"In consideration of free tuition in the Eastern Illinois State Teachers College, I pledge to teach in the public schools of Illinois for a period equal to that covered by my attendance at the Eastern Illinois State Teachers College; and I agree to report annually to the president of the college the number of months taught in Illinois until this pledge is fulfilled. If I do not teach the required time in the public schools of Illinois within five years after leaving college, I promise to pay to the Eastern Illinois State Teachers College at the end of that period tuition at the rate of \$25.00 for each quarter (twelve weeks)."

BOARD AND ROOM

Board and room can be obtained in private families for from \$5.00 to \$6.00 a week. Room without board can be obtained for from \$1.50 to \$2.25 a week for each student (two students sharing the room).

At Pemberton Hall, room, including heat and light, with table board and privileges of laundry, costs \$5.75 a week, payable

monthly in advance (\$23.00 at the beginning of each month). For table board, \$4.00 a week is charged, payable monthly in advance (\$16.00 at the beginning of each month). Students are not required to furnish anything.

A deposit of \$5.00 is required for a reservation at Pemberton Hall. Reservation is filed at the hall when deposit is received and credited at the business office. Application blanks will be sent at the request of students.

The deposit is credited to the student as part of the first month's payment, but forfeited if the student cancels the reservation too late to have it used by someone else.

The college maintains a Housing Bureau in order to assist students in finding the best rooms obtainable. Householders who have rooms to rent to students are registered with the bureau; the rooms are inspected and when approved are put on the list of available rooms. Students may obtain this list by writing to the Housing Bureau or may come for consultation on arrival at the college.

SCHOLARSHIPS

ARMY AND NAVY SCHOLARSHIPS.—Men who served in the United States Army or Navy in the Great War and who were residents of Illinois at the time of entering the service are exempt from the payment of tuition and registration fee.

LINDLY SCHOLARSHIPS.—"In order to equalize the advantages of the State Normal Schools" encourage attendance and thereby increase their usefulness, the state legislature passed the Lindly Bill in 1905. This act provides that "there shall be awarded annually to each school township or fractional township a scholarship which shall entitle the holder thereof to gratuitous instruction in any State Normal School for a period of four years."

The law provides also that "The county superintendent shall receive and register the names of all applicants for such scholarships, and shall hold an examination, or cause an examination to be held, in each township, for the benefit of graduates of the eighth grade."

Holders of Lindly Scholarships do not pay the registration fee (\$5.00). Regular quarterly fees for Lindly Scholarship students are \$6.50 in the college.

THE FLORENCE VANE SKEFFINGTON SCHOLARSHIP.—In memory of Florence Vane Skeffington, whose rare abilities and personality gave character to the English work of this school for seventeen years, the Florence Vane Skeffington Scholarship is awarded annually to a student whose gifts and attainments promise distinction in the teaching of English.

The award for 1933-34 was given to Miss Susie Phipps, a senior in the English-Latin curriculum and a high honor graduate of the Teachers College High School.

The award for 1934-35 will be announced at Commencement, June 4, 1934.

THE LIVINGSTON C. LORD MEMORIAL FUND.—The Alumni Association of the Teachers College is sponsoring the accumulation of a fund to establish a scholarship in memory of

LIVINGSTON C. LORD

President, 1899-1933

This scholarship is to be awarded annually at Commencement from the interest on the fund to a junior or senior student whose character, scholarship, and skill in teaching promise service of distinction in the field of education.

LOAN FUNDS

THE STUDENT LOAN FUND.—The Student Loan Fund of the Eastern Illinois State Teachers College makes it possible for a deserving student in the second half of the course to borrow, at a low rate of interest on a personal note, a sum of money that will help him to remain in college and complete the course. A grade point average of 1.5 (half way between C and B) is required. Students find such temporary assistance of great advantage. The foundation of this fund was secured from admission fees to the Senior Class play and to the Training School entertainment, given during commencement week.

Under the will of the late Dr. W. D. Morgan, of Charleston, there is given to the Student Loan Fund the annual income from about six thousand dollars, which is one-seventh of the estate. An additional amount will be received at the death of certain heirs.

THE ADELIA CAROTHERS FUND.—A fund known as "The Adelia Carothers Fund" has been established by Mrs. Ida Carothers Merriam and Mr. Charles G. Carothers in memory of their mother. This fund is to be loaned to young women students of high character and scholarship during the last half of their course. The student to whom this loan is made is distinctly honored.

STUDENT ACTIVITIES

ENTERTAINMENT COURSE.—For several years the college has maintained during the regular year an entertainment course in order to bring to the students entertainments of genuine interest and merit. The course is supported by the students' activities

fee and by the sale to others of single admission tickets. The presidents of the Student Council, the Men's Union, and the Women's League are *ex-officio* members of the Entertainment Course Committee.

Under the auspices of this course such attractions as the following have been presented: United States Marine Band, Minneapolis Symphony Orchestra, Cleveland Symphony Orchestra, St. Louis Symphony Orchestra, Flonzaley Quartette, Coburn Players, Ben Greet Players, Tony Sarg Marionettes, Kreutzberg Dancers, Carl Sandburg, Stuart Chase, Vienna Saenger Knaben.

The entertainment course for 1933-1934 was as follows:
Kryl's Symphonic Band.

The Jitney Players in Dion Boucicault's melodrama, *The Streets of New York*.

Dr. Gordon J. Laing of the University of Chicago, lecture, *A Liberal Education*.

An all college cast in Philip Barry's comedy, *Holiday*.

Dr. William F. Ogburn of the University of Chicago, lecture, *Social Trends in America*.

The Paris Instrumental Quintet.

Elizabeth Pierce and her company in a programme of interpretive dancing.

Utica Jubilee Singers.

DRAMATICS.—A Director of Dramatics supervises all dramatic work for public presentation. Under the plan adopted, the high school and the college constitute two dramatic organizations, with elected student officers. The college organization is called "The Players." This organization studies the drama as it appears on the modern stage and experiments with the production of plays. Try-outs for the major productions for public performance are open to all students of the college. Other programmes are presented during the year if suitable talent is available.

The ends in view under this plan are as follows:

1. To make possible the development of dramatic talent through a period of years rather than through the period of rehearsal for one play.

2. To attempt to maintain as nearly uniform standards as possible and to build up higher aims as progress is noted.

3. To encourage familiar acquaintance with the artists of the theatre of all times.

4. To establish a fund for permanent equipment.

THE TEACHERS COLLEGE NEWS.—An eight-page weekly, "The Teachers College News," published by a board of student editors

with a faculty adviser, is issued on Tuesdays. It is supported by the students' activities fee. In addition to announcements, reports of games, local news, and alumni notes, it contains editorials of high value in influencing college spirit as well as student spirit. Some class work of merit appears occasionally in this paper. It deserves the support of students, teachers, and alumni.

The class of 1924 left, as a class memorial, equipment for a room devoted to the uses of "The News" and the "Warbler."

RECREATION.—A student recreation committee has charge of student recreations which are not solely class affairs. This committee consists of the presidents of the Student Council, the Women's League, and the Men's Union, with a faculty member appointed by the president of the college on the recommendation of these presidents. Other members of the committee may be chosen by this committee as they may see fit.

Class affairs are under the supervision of the faculty advisers of each class. The students are permitted to have parties Friday or Saturday evenings in the gymnasium. In the spring and fall, there are picnics in the neighboring woods. These activities are chaperoned by members of the faculty.

MATHEMATICS CLUB.—The Mathematics Club was organized in the fall quarter of 1927-1928 to further interest in that field of knowledge and to make it possible for students to discuss some of the phases of mathematics which are not included in regular classes. Anyone who is interested and has had one year of algebra and one of geometry is eligible to membership. During the first year the club held eight meetings, one of which was an old-time ciphering contest. The club has a membership of about fifty students and teachers.

E. I. VARSITY CLUB.—The E. I. Varsity Club was organized in the fall quarter, 1927, by the letter men of the college for the purpose of promoting in all possible ways the betterment of athletics at E. I. Meetings are called by the president. Any student in the college who has earned an E. I. monogram is eligible to belong to the club as an active member and any student who has earned the E. I. monogram, but is not in college, is eligible to join the club as an associate member. All members must first be initiated into the club before becoming regular members. The initiation for new members is held during the spring quarter of each school year.

WOMEN'S ATHLETIC ASSOCIATION.—The Women's Athletic Association was organized in the spring, 1932, by the women of the college. Its motto is: "A girl for every sport and a sport for every girl." Any student in the college who has passed a satisfactory physical examination is eligible to membership in

the association. The initiation for new members is held at the beginning of each quarter. A girl may join as many clubs as her time permits. Clubs have been formed in archery, basketball, fencing, hiking, hockey, rifle, tennis, and volley ball. Very definite requirements must be met in a sport as well as in scholarship to earn the college or club insignia. Letters are awarded at the annual banquet of the association in the spring quarter.

THE FORUM.—The Forum is a discussion group of students and faculty members who are especially interested in current economic, political, and social problems. Meetings are held bi-weekly throughout the college year; active membership is limited to those who have prepared and presented a paper of merit on some related topic.

PHI SIGMA EPSILON.—The Beta Chapter of Delta Lambda Sigma, organized in the winter quarter of 1927-1928, has been incorporated in Phi Sigma Epsilon, a national fraternity for Teachers Colleges.

The purpose of the organization is to maintain a high standard of scholarship, to promote school spirit, and to cooperate actively with the college in every possible way.

The fraternity has a house in which the members may live and enjoy with one another a true feeling of fellowship.

KAPPA DELTA PI.—Beta Psi Chapter of Kappa Delta Pi, an international honor society in education, was installed on January 2, 1931. Kappa Delta Pi, founded at the University of Illinois in 1911 under the leadership of William Chandler Bagley, has chapters in ninety-one colleges and universities. Students are elected to membership primarily upon the basis of high scholarship, good character, and promise of success in teaching. Election to membership in this organization is one of the highest honors that can be bestowed upon a student.

LE CERCLE FRANCAIS.—Le Cercle Francais was organized November 6, 1930. Membership is open to students who have had two or more years of high-school French or two quarters of college French.

The purpose of the club is to promote the interests of French in the school, to improve the conversational ability of the students, and to add to their information concerning French customs, life, and literature.

Meetings are held on alternate Thursday evenings. The programmes include papers prepared by the students, short plays given in French, and French games and songs.

DER DEUTSCHE VEREIN.—The German club was organized in the fall of 1933-34. Those who have had one or more years of

German, or who have passed one semester creditably, are eligible for membership.

Meetings are held bi-monthly. The programmes are varied, consisting of German games, songs, short plays, dialogues, or talks on German life and customs.

SCIENCE CLUB.—The Science Club was organized in the fall quarter, 1930, by students in the botany, zoölogy, physics, chemistry, and geography departments in order that all may know something of the work in other scientific fields. Papers are presented and time is allowed for questions and for discussion. The membership is not limited to these departments. Anyone interested in science may belong. Meetings are held bi-monthly throughout the year.

WRITERS CLUB.—The Writers Club, now including Sigma Tau Delta, was organized in 1930-1931 for students interested in writing. Members are admitted on the basis of manuscripts submitted in "try-outs" announced from time to time. This club was installed on February 15, 1932, as Omicron Gamma Chapter of Sigma Tau Delta, the national professional writers society. Only honor students in English may become active members of this chapter, which is limited by national constitution to twelve members; but associate and local members are chosen from any candidates who show marked ability in written expression.

SIGMA DELTA.—This is a local journalistic club. Meetings are held bi-weekly. The organization is interested in stimulation of student opinion through the columns of *The Teachers College News*. Membership is elective and is limited to those on the *News* staff who have displayed an active and constructive interest in student problems.

HOME ECONOMICS CLUB.—The Home Economics Club was organized in the fall of 1932-33 and was affiliated with the State and National Home Economics Associations. Anyone whose major subject is home economics is eligible to membership. The aims of this organization are to stimulate interest in home economics, to give more opportunity for leadership, and to become acquainted with persons prominent in the field of home economics.

INDUSTRIAL ARTS CLUB.—The Industrial Arts Club was organized in the fall of 1932. Its purpose is the mutual advancement of its members. The club meets on the first and third Fridays of each month. All students in the Industrial Arts Department are eligible to membership.

EPSILON PI TAU.—The Iota Chapter of Epsilon Pi Tau, National Honorary Industrial Arts Fraternity, was established in

May, 1933, with twelve charter members. Only students ranking highest in the Industrial Arts Club and in scholarship are admitted to membership. The fraternity holds its meetings on the second Friday of each month in the Practical Arts Building. It plans to hold at least one initiation a year, usually in the spring. In 1933, at a summer initiation, eleven members were added. Membership in the fraternity is a high honor for a student whose major subject is industrial arts.

THE ILLINOIS TENTH DISTRICT ROUND TABLE.—On the fourth Friday of each month industrial arts teachers from adjoining counties meet in the Practical Arts Building for professional advancement. There are usually four speakers chosen either from the field of industrial arts or from that of public school administration. All industrial arts students are invited to these meetings where they hear at first hand the problems of the elementary and secondary school teacher.

GEOGRAPHY CLUB.—The Geography Club, organized in the year 1933-34, meets on alternate Wednesday evenings to discuss topics of interest to students of geography for which there is no place in regular class work and to keep in touch with current topics and events which have geographical significance.

THE MEN'S UNION.—All men students of the college, upon registration, automatically become members of the Union, which was organized in the year 1930-31. Membership entitles the holder to attendance at and voting in all business meetings, privileges at the house, and attendance at any social function sponsored by the Union. After graduation a member is entitled to an alumni membership which gives him club house privileges, attendance at all social functions, and any other privileges granted by the Union.

The purposes of the Union are to create a feeling of unity among the men of the college, and to promote all activities which concern them.

The officers of the Union are the president, elected by the entire organization in a general election, and the executive board consisting of eight men of the college. The four class presidents are members of the board and the men of each class elect one member of their class to represent them on the board.

The Lair is maintained by the Men's Union and is open to all men of the college. The rules governing this club house are made by the executive board of the Men's Union and a resident house manager sees that they are observed.

THE WOMEN'S LEAGUE.—Every woman upon matriculation in the college becomes automatically a member of the Women's

League, which was organized in the year 1930-31. Membership in the League entitles the holder to attendance at and voting in all business meetings and attendance at any social functions sponsored by the League.

The object of the League is to promote solidarity among the women of the college by uniting them for social purposes and for constructive effort.

The governing power of the League is vested in an executive council of nine members known as the "Council of Nine." The president is elected from the League at large and may be from any class. Each class elects two of its members to represent them in the council.

STUDENT PUBLICATIONS.—Student publications are in charge of a committee consisting of the president of the Student Council, the advisers and editors of the "Warbler" and of the "College News" with a faculty member appointed by the president of the college as chairman.

ATHLETICS.—All athletic activities are conducted by the Athletic Council. This council is composed of two members of the faculty, appointed by the president; two students, elected by the students; and the athletic coach. An athletic fee is charged each college student and each high school student as part of the students' activities fee. This fee is payable at the beginning of each quarter. It entitles the student to free admission to all athletic contests in which Teachers College or High School teams take part on the home grounds, and also a vote for the student representative on the Athletic Council. The Teachers College and the High School have separate teams and play independent schedules. The Eastern Illinois State Teachers College is a member of the Illinois Intercollegiate Athletic Conference, and the High School is a member of the Illinois High School Athletic Association.

ATTENDANCE AT CHURCH.—Each student is expected to attend regularly the church of his choice, or that which meets the approval of his parents. The pastors and members of the different churches have made the students at home in the churches and Sunday schools. The Teachers College encourages the students to form and sustain intimate relations with the churches.

THE STUDENT COUNCIL.—The Student Council was organized in the spring quarter of the year 1919-1920 as a means of communication between the faculty and students and a way by which the students may aid in school discipline and in the general control of college affairs.

The Council consists of eleven members: four from the senior class, three from the junior class, two from the sophomore

class, and two from the freshman class. The term of office is one year. Elections take place in the respective classes at the second class meeting of the regular school year. The constitution provides for a president, vice-president, secretary, treasurer, and historian.

A student board of control, established in the spring quarter of the year 1925-1926, was merged with the Student Council in the fall quarter, 1928-1929.

REGULATIONS FOR STUDENT ACTIVITIES

1. No extra-curricular organization, club, sorority, or fraternity may be organized without recognition by the faculty committee on student activities.

2. All organizations must file a copy of their constitution and by-laws with the faculty committee.

3. Any organization whose activities are suspended by the president of the school must apply to the faculty committee for reinstatement.

4. No organization may have a business or social meeting or a rehearsal on the campus without a faculty adviser present.

5. No student may hold more than one of the following offices in student organizations:

Class president,
Editor of the Warbler or News,
Business Manager of the Warbler or News,
President of a fraternity,
Treasurer of any student organization.

A student elected to one of these major offices in student organizations may not hold more than one other office in class or other student activity.

All officers must maintain the academic standing required for admission to student teaching.

All organizations must file a list of all officers, as soon as they are elected, with the chairman of the faculty committee.

6. Any student falling below the academic standing required of athletes may be asked to withdraw from any organization.

ALUMNI CLUB

The Charleston Club of Chicago is an organization of former students. This club meets occasionally in a very pleasant way, and all former students or teachers, living in or near Chicago, will be notified of these meetings if they send their names to the president, Miss Grace Reininga, 320 Home Avenue, Oak Park, Illinois.

THE ALUMNI ASSOCIATION

The Saturday preceding commencement is Alumni Day with morning exercises at ten o'clock.

The officers for 1933 to 1934 are: Mr. Ralph F. Evans, '32, President and Chairman of the Executive Committee; Miss Emily Dowling, '26, Vice-President; Mrs. Opal Bensley Stanberry, '16, Secretary and Treasurer.

Executive Committee

- Mr. Ernest N. Freeman (term expires in 1934).
- Mr. Ferdinand Homann (term expires in 1934).
- Mr. Luther J. Black, '31 (term expires in 1935).
- Mrs. Genelle Voigt Jackson, '29 (term expires in 1935).
- Miss Grace Geddes, '06 (term expires in 1936).
- Mr. Bruce Corzine, '13 (term expires in 1936).

TEACHERS APPOINTMENT COMMITTEE

To assist school officers in securing capable teachers and to help graduates in securing desirable positions the Eastern Illinois State Teachers College has an appointment committee. Its services are free both to teachers and to school officers. It is very desirable that graduates of the college keep the committee informed of their location and position, so that the committee may make intelligent recommendations to superintendents desiring experienced teachers.

THE CERTIFICATING LAW

I. The completion of the freshman year in any curriculum admits the student to examination for a limited elementary certificate.

II. The completion of the two-year grade curriculum gives a limited elementary certificate.

III. The completion of the first two years in any curriculum gives a limited elementary certificate provided the student's credits include two quarters of work each in practice teaching, history (or social science), and mathematics (or natural science).

IV. Graduation with the degree gives a high-school certificate.

If the student has taught successfully for four years he may have also a supervisory certificate.

NOTE: For certification and for graduation the Eastern Illinois State Teachers College requires that not more than one-fourth of the student's grades shall be D.

³ 5 hours in practice teaching.

⁴ Additional growth are prerequisite to the renewal of all certificates.

PART II
INSTRUCTION

ORGANIZATION

The Eastern Illinois State Teachers College is a Teachers College in the American Association of Teachers Colleges and a Senior College in the North Central Association of Colleges and Secondary Schools by which it is accredited as a degree-granting institution.

The Training School includes an accredited four-year high school (grades IX-XII) and an accredited elementary training school (grades I-VIII).

DIVISION OF THE YEAR

The regular college year consists of three quarters of twelve weeks each. Saturday is taken as the weekly holiday.

A summer quarter of twelve weeks was offered 1920-1932. A six weeks term was offered in the summer of 1933. The summer term of 1934 begins on June 11 and closes on July 20.

The subjects offered are designed to meet the needs of:

1. Teachers of experience who wish to advance their professional or academic knowledge.
2. Supervisors and department teachers.
3. Those who are preparing to teach in schools that follow the Illinois Course of Study.
4. Those who wish to take regular work with a view to graduation from the Junior College with a diploma or from the College with a degree.

ADMISSION REQUIREMENTS

1. *To the Senior College:* Graduation from the two-year curriculum of a recognized Teachers College or of the Junior College of a recognized college or university.

2. *To the Junior College:* Graduation from a recognized four-year high school.

3. *To the High School:* Graduation from the eighth grade admits a student to the ninth year which is the first year of the high school. High-school students enter the year which the units they have already earned give them the right to enter.

4. *High-school records and records of work in other colleges must be sent to the Registrar. A student with high-school or other record should have a complete copy of the record sent by the principal of the school to the Registrar of the Teachers College. This should be done at least two weeks before the date of entering. No student will be classified until his record is received.*

A registration permit is filed at the office when the student's application for admission and his record have been checked and filed. Application for admission blanks are sent on request.

Lindly scholarships must be presented at the cashier's office on registration day.

GRADUATION

The degree of Bachelor of Education (B. Ed.) is conferred upon those who complete a four-year curriculum; a diploma is granted to those who complete the two-year curriculum for preparation of teachers for the grades. Four-year curricula prepare teachers for high school, for special grade work, and for positions as principals, supervisors, and teachers of special subjects. *A year's resident work is required for a diploma or degree.*

Ninety-six quarter hours are required for a diploma and one hundred ninety-two for a degree. Credit earned in physical education, library use, dramatics, glee club, quartette, orchestra, or band is in excess of the total required for graduation.

For the degree, one-third of the student's credits toward graduation must be in courses not open to freshmen and sophomores. This requirement is in accordance with the standard of the American Association of Teachers Colleges.

The University of Illinois admits to full graduate standing all graduates of the Teachers College who present twenty semester hours of content courses in one major academic subject in addition to education.

Students planning to teach in high schools should see that their records satisfy the requirements of the Illinois Examining Board and of the North Central Association.

The records of those who expect to complete a curriculum in a current year are checked at the beginning of each quarter and on April 1. A statement of the courses necessary for the completion of his work is given to each of these students in the fall quarter and is used by him in making his programmes for succeeding quarters. The list of candidates for graduation is based on the checking of April 1. A student who is not more than eight quarter hours behind the class at that time may participate in commencement exercises with the class and receive his diploma or degree at the close of the summer term if he completes the work by that time. It is possible to earn eight quarter hours in a summer term.

SCHOLARSHIP

Grades are expressed in letters as follows:

A, Excellent	3 grade points
B, Good	2 grade points
C, Fair	1 grade point
D, Poor, but passing*...	0 grade points
E, Condition	0 grade points (incomplete work)
F, Failure	—1 grade point

*Passing, but not accepted toward graduation or toward admission to practice teaching if more than one-fourth of the student's courses receive a grade of D.

I. Graduation Honors. Graduation with high honors requires that a student receive a grade of A in three-fourths of his work and B average in the rest.

Graduation with honors requires a grade of A in one-half of the student's work; B or higher in one-fourth of his work; and C average in the rest.

Graduation honors are noted on the diploma, announced at commencement, and published in the next issue of the annual catalogue.

II. Scholarship Honors. Scholarship honors on the same basis as graduation honors are announced for each quarter in the month after the beginning of the next regular quarter; in December for the fall quarter; in March for the winter quarter; in October for the preceding spring quarter and year.

The announcement is posted on the bulletin board and printed in the "Teachers College News."

III. Admission to Practice Teaching. 1. For registration for practice teaching in any quarter in any curriculum not more than one-fourth of a student's credits may have a grade of D; that is, three-fourths of his courses must have a grade of C or above. This is the graduation requirement in the two-year curriculum.

2. Sophomores in four-year curricula with B average (two grade points) in the freshman year may be admitted to Teaching 30 before the spring quarter if they need to fulfil legal requirements for the limited elementary certificate by the end of the sophomore year.

3. Sophomores in four-year curricula with average of 1.5 to 1.9 grade points (one-half grade point or more above C) may be admitted to Teaching 30 in the winter quarter if they plan the year's programmes to include English 26, Arithmetic 20 and Geography 20, from the two-year grade curriculum and need to

fulfil legal requirements for the limited elementary certificate by the end of the sophomore year.

4. Sophomores in four-year curricula with lower than 1.5 average in the freshman year are required to postpone Teaching 30 to the junior year. See also III, 1, under "Scholarship."

IV. Certification Requirement. The institutional credit blank for certification is not sent to the Illinois Examining Board if more than one-fourth of a student's grades are D. The blank requires "faculty recommendation of ability to teach." This recommendation is withheld if more than one-fourth of a student's grades are D.

V. Graduation Requirement. C average is required for graduation from four-year curricula and not more than one-fourth of the student's grades may be D. This means that a student must have as many grade points above C (1) as he has grades of D (0). This regulation will go into effect with the class of 1935. See III for graduation requirement for the two-year curriculum.

VI. Extra Work. No freshman in a four-year curriculum may register for extra work in his first quarter.

No student may register for extra work in the first quarter in which he is taking practice teaching.

No student whose average is below B in the preceding quarter may register for extra work.

VII. Probation. 1. A student who has three grades of D, or the sum of whose grade points is less than two (C, 1; D, 0; F, -1) in any quarter is on probation in the next quarter in which he is in attendance and is reported as on probation here if he has his record sent to another school.

2. A student who has a probation record for two successive quarters is excluded from attendance in the following quarter and is reported as "Dropped on account of low scholarship" if his record is transferred to another school.

3. A student who fails in one course and has lower than C average in the three remaining courses of that quarter is not permitted to register for more than three courses in the following quarter. Exception: Failure in English 20 and 21.

VIII. Exclusion. A student failing in three courses, twelve quarter hours, in any quarter or in one-half of his work, eight quarter hours, in each of two consecutive quarters, is dropped from the college.

The grade F (failure) is recorded against a student who drops, after the first month, a course in which he is failing; but this does not apply to a student who is taking work to the amount of twenty quarter hours.

A student whose class work is very poor or who is frequently absent may be excluded from the privilege of taking the final examination. A grade of F (failure) is recorded against him.

EXTENSION WORK

The Teachers College is glad to offer such extension work as its facilities permit. It is especially urged that such aid be sought as the college may be able to give in improving present teaching in the elementary schools. A skillful teacher in visiting schools and in talking with teachers is able to be of great assistance to those of less experience. This suggestion contemplates giving help in those subjects that make up the greater part of the elementary school curriculum, namely: reading, language and grammar, arithmetic, geography, history, drawing, and music.

No extension work is offered for credit toward graduation.

CURRICULA

I. A Two-Year Curriculum, 96 quarter hours, leading to a diploma and planned for preparation of teachers for the grades. The diploma entitles the holder to a limited elementary school certificate without examination. The completion of the first year's work admits the student to an examination for a limited elementary certificate.

II. Four-Year Curricula, 192 quarter hours each, for preparation of the following:

1. Elementary Grade Teachers.
2. High-School Teachers and Teachers of Special Subjects:
 - A. Art and Design.
 - B. English.
 - C. Latin.
 - D. Geography.
 - E. History and Social Science
 - F. Home Economics (Smith-Hughes)
 - G. Industrial Arts
 - H. Mathematics
 - I. Music (Public School)
 - J. Science (Biological: Botany or Zoölogy or both)
 - K. Science (Physical: Physics or Chemistry or both)

CREDIT

The unit of measure, beginning with the year 1929-30, is the quarter hour, representing one hour a week of prepared work for twelve weeks when the student load of prepared work is sixteen hours a week. It is equivalent to two-thirds of a semester hour.

A year's work is equivalent to 48 quarter hours (32 semester hours) of prepared work. A year's work in one subject is equivalent to 12 quarter hours (eight semester hours).

Piano or voice work may be used for elective credit to the extent of 12 quarter hours (four years of work) with a minimum of 6 quarter hours in each. No student may count toward graduation more than 12 quarter hours of instrumental or voice work.

Credit is allowed for physical education, and for Library 20 at the rate of one quarter hour for each quarter's work.

Credit is allowed for dramatics, glee club, quartette, orchestra, and band at the rate of one quarter hour to those reported to the office for such credit at the close of each quarter by the directors of these organizations who decide the conditions under which credit is allowed or withheld in each case.

Credit earned in required physical education, library use, dramatics, glee club, quartette, orchestra, or band is in excess of the 96 quarter hours required for a diploma and of the 192 quarter hours required for a degree. The credit is recorded on the student's permanent record card and may play an important part when he is an applicant for a position.

A statement of the amount of credit is included in the description of each course.

NUMBERING OF COURSES

Courses numbered 20-29 are (with a few exceptions) required in a curriculum in the Junior College; courses numbered 30-39 are elective courses for those in the Junior College; courses numbered 40 or above are Senior College courses.

MAJOR AND MINOR SUBJECTS

In four-year curricula for graduates of four-year high schools, a student in a special curriculum takes 48 quarter hours of work in a major subject and 24 quarter hours in a minor subject, in some cases specified by the department of the major subject and in other cases left to the student's choice, but the courses in the minor subject must constitute two years' work

in some one department and the courses chosen must be satisfactory to that department and to the department of the major subject. Students will consult the department of the major subject as to choice of minor subjects and of electives.

Students taking mathematics as the minor subject take Algebra 31, 32, Trigonometry 33, Analytics 34, 35, Geometry 28.

In music only public school music may be used as the minor subject, the courses required being Music 30, 31, 32, 33, 34, 35.

In English, English 30, 31, 34, 35, 36 (or 43), 37 (or 39) may be used as the minor subject. English 46, 47, 48 may be used by juniors or seniors for credit toward the English for minor subject.

ELECTIVES

There are two groups of electives: one for those in the Senior College, numbered 43 or above and one for those in the Junior College, numbered 30-39. Students should consult the department of the major subject as to choice of electives and of minor subjects.

Music 30, 31, 32 or Music 33, 34, 35 may be used for elective credit.

DESCRIPTION OF CURRICULA

I. TWO-YEAR CURRICULUM

96 quarter hours

FOR PREPARATION OF TEACHERS FOR THE GRADES

FRESHMAN YEAR

Education 20, 21, 22	Reading 24
English 20, 21, 24 or 22	Drawing 24
Arithmetic 20, 21	Penmanship 20
Botany 20 or Zoölogy 23	Library 20
Geography 20	Physical Education

SOPHOMORE YEAR

Education 23, 24	Geography 21 and English 26
Teaching 20, 21, 22	or English 34 and
History (two consecutive courses)	Education 25
Music 24	Hygiene 20
Industrial Arts 24 or 25	Physical Education

Notes: 1. The completion of the work of the freshman year admits to examination for a limited elementary certificate.

The completion of the sophomore year in this curriculum entitles the student to the diploma of the Junior College and to a limited elementary certificate.

2. Each subject has four fifty-minute periods a week unless otherwise indicated by a number in parenthesis; but Botany 20 and Zoology 23 have six fifty-minute periods; Art and Industrial Arts require eight periods a week for full credit.

II. FOUR-YEAR CURRICULA

192 Quarter Hours

<i>Required</i>		<i>Elective</i>	
Education	40 to 48	Major Subject.....	48
English	16 to 24	Minor Subject.....	24
Laboratory Science.....	12	Elective	40 to 24
Social Science.....	8		
Hygiene	4	Total.....	192 quarter hours

Note: The requirement of 192 quarter hours is exclusive of credit earned in physical education, library use, music (except public school music used as the minor subject or 12 quarter hours of applied music).

Freshman Year

English 20, 21, 25
 Laboratory Science (Year)

 Elective (Year)
 Major Subject (Year)

Notes: 1. Students are advised to use their electives so as to have more than one minor subject (teaching subject).

2. Numbers identify the course in the description of courses. Numbers in parenthesis after Physical Education and Library 20 indicate the number of periods a week.

II. 1. FOR PREPARATION OF TEACHERS FOR ELEMENTARY GRADES

Freshman Year

Follow Sections I, II, III, IV, or V of the freshman year in the two-year curriculum for preparation of teachers for the grades.

Sophomore Year

Follow Section I (lower grades) or II or III (upper grades) of the sophomore year in the two-year curriculum for preparation of teachers for the grades.

Note: Programmes should be planned by the dean.

Junior and Senior Years

Major subject	36 quarter hours
Minor subject	24 or 16*
Laboratory Science	12 or 8*
English 43, 44, 45.....	12
Education 44, 47.....	8
Practice Teaching 41G-48G.....	8 or 12
Elective	0 or 4*

 100 or 96*

* If the science is botany or zoology, Botany 21 and 22 or Zoology 21 and 22 complete the requirement, but Zoology 20, 21 must be taken if the student had Zoology 23 in the Junior College.

If history is the minor subject, eight quarter hours of sophomore history count toward this requirement.

TRAINING SCHOOL

ORGANIZATION AND ADMISSION.—The Training School consists of the Elementary School of eight grades, and the High School of four grades. Below the ninth grade the number of pupils who can be admitted is limited. Pupils desiring admission are registered, then admitted in order of registration when vacancies occur.

Pupils once admitted to the school for the regular school year retain their places until completing the course unless they are unreasonably irregular in attendance or fail to appear on the opening day of the school year without notice to the director of their intention to appear later.

In grades below the ninth, a fee of seventy-five cents is charged on the opening day of each of the three terms of the year.

TRAINING TEACHERS.—In the first nine grades the immediate direction of the work of each grade and the responsibility for its progress is with the training teacher of the grade. The training teachers, with the director, plan the work of their grades, discuss with the student teacher their plans for teaching the different subjects, do enough of the teaching to keep the progress of the pupils at least up to the standard of city schools of the same type, and teach special lessons for the observation of Teachers College classes in method of teaching the special subjects. The character of the work of the training teacher determines almost entirely the success of the Training School in accomplishing its purpose.

A training teacher for history has charge of that work in grades five to eight inclusive. Training teachers for geography, drawing, music, penmanship, and physical education have charge of these subjects in grades one to eight. The teachers in other departments of the Teachers College have in all cases an advisory relation to the Training School and in some cases a

supervisory relation. Senior College students have two quarters of practice teaching in the College High School which is a training school for teaching in high school.

PURPOSE.—The purpose of the Teachers College in maintaining a Training School is twofold. It needs a pedagogical laboratory in which students and members of the faculty may test the methods of instruction and the pedagogical theories taught in the Teachers College. And to develop in the students craftsmanship in teaching they must have opportunity to observe expert work and to develop skill by actual experience in teaching.

The results, however, cannot be secured unless the Training School itself is aiming at the best possible education for the boys and girls who are pupils in the school. If the Training School is not securing for its pupils results up to the standard of good schools of the usual type, it is not best adapted to its purpose as an experiment school, and if it is not at least equal to other elementary schools it is certainly not adapted to secure the best results as a school of observation and practice.

PRACTICE TEACHING.—All students graduating from the Teachers College in the two-year curriculum are required to take throughout their second year a course in practice teaching. The first quarter the student is assigned to teach in the lower four grades or in the upper four grades as he chooses; the second quarter, in the group of grades not chosen for the first quarter; and the third quarter, in the grade, if possible, in which he thinks his future teaching is to be done.

Student teachers are assigned to training teachers by the director and are assigned by the training teacher to particular teaching duties for one fifty-minute period each day. In the beginning of the first quarter the student makes plans for teaching the lessons in his assigned subject after discussing the subject matter and the procedure with the training teacher, but for one or two weeks the teaching is done by the training teacher, the student observing. Gradually the teaching is turned over to the student, the training teacher observing and discussing the lessons and lesson plans before and after the student teaches the lesson. Each training teacher holds one general meeting each week with her group of students, besides special conferences with individuals. She also does as much of the teaching as seems necessary to keep the class up to standard and to furnish the student opportunity to observe expert teaching.

Students taking a four-year curriculum take one quarter of practice teaching in the Elementary Training School in their third year. Two quarters of teaching, one in the major subject and one in the major or minor subject, are required of them in

the senior year and are taken in the Teachers College High School.

For special regulations as to admission to practice teaching see III under "Scholarship."

OBSERVATION AND PARTICIPATION.—In the first year students in the two-year curriculum are required to take work in observation in the Training School. The work is designed to prepare them to meet the problems of teaching which they must meet in their course in practice teaching, to enable them to see the application of their course in psychology, and to assist them in selecting the group of grades in which they wish to teach. Opportunity is given to observe both the room management and the teaching of the training teacher. Some opportunity is offered to assist in the management and in the planning of lessons.

THE HIGH SCHOOL.—The Teachers College High School is recognized by the State Department of Education and is accredited by the University of Illinois and by the North Central Association of Colleges and Secondary Schools. Those who have completed the eighth grade may enter the ninth grade which is the first year of a four-year high school. Full credit is allowed to students entering from other accredited high schools. Sixteen units are required for graduation. Graduates of The Teachers College High School are admitted to the freshman class of the College. A special bulletin will be sent on request.

DESCRIPTION OF COURSES

ART AND DESIGN

24. **ELEMENTARY DRAWING.** Lettering, perspective, composition and poster work, study and practice of color.

Eight hours a week. Four quarter hours. Every quarter.

25. **ELEMENTARY WATER COLOR.** Painting in water color from still life.

Eight hours a week. Four quarter hours. Spring quarter.

26. **APPLIED ART.** Crafts; weaving, gesso, enamel, and leather work.

Eight hours a week. Four quarter hours. Fall quarter.

27. **HISTORY OF ORNAMENT AND OF ARCHITECTURE.**

Four hours a week. Four quarter hours. Winter quarter, odd years.

28. **HISTORY OF PAINTING.** A study of the history of the different periods, the great artists and sculptors, and their work.

Four hours a week. Four quarter hours. Winter quarter, even years.

29. **ADVANCED PERSPECTIVE.**

Eight hours a week. Four quarter hours. Spring quarter.

30. **REPRESENTATION.** Section I for Art students. The study of the essentials of perspective and their application to still life groups in charcoal, crayon, water color, and ink.

PERSPECTIVE. Section II for Home Economics students. The study of the essentials of perspective and their application to simple objects. The Roman alphabet and the principles of color.

Eight hours a week. Four quarter hours. Fall quarter.

31. **POSTER WORK.** Section I for Art students. The study of lettering for commercial and educational uses and for application to book making, bulletins, and posters. The principles of design and color. "Art in Every Day Life" by Goldstein is the text used.

DESIGN I. Section II for Home Economics students. The study of the principles of design and their application to Home Economics. The same text is used as for Section I.

Eight hours a week. Four quarter hours. Winter quarter.

32. **DESIGN I.** Section I for Art students. Decorative applications of the principles of design.

DESIGN II. Section II for Home Economics students. The application of the principles of design and color to various materials.

Eight hours a week. Four quarter hours. Spring quarter.

33. DESIGN II. Plants, animals, and birds in decoration and the application of these forms to the making of patterns. Color theory, leather tooling, wood block printing, and batik work.

Eight hours a week. Four quarter hours. Fall quarter.

34. JEWELRY. Design as applied to metal work and to jewelry.

Eight hours a week. Four quarter hours. Spring quarter.

35. POTTERY. The application of the principles of design to pottery.

Eight hours a week. Four quarter hours. Winter quarter.

36. INDUSTRIAL ARTS FOR THE LOWER GRADES. See Industrial Arts 24.

Required in the freshman year of the art curriculum. Eight hours a week. Four quarter hours. Fall and spring quarters.

37. INDUSTRIAL ARTS FOR THE UPPER GRADES. See Industrial Arts 25.

Required in the freshman year of the art curriculum. Eight hours a week. Four quarter hours. Fall and summer quarters.

40. THE TEACHING OF ART. A course in method in art with special reference to art in high school.

Required in the senior year of those whose major subject is art. Four hours a week. Four quarter hours. Fall quarter.

41. PRACTICE TEACHING IN ART.

Required in the senior year. Five hours a week. Four quarter hours. Winter quarter.

42. PRACTICE TEACHING IN ART, continued.

Required in the senior year. Five hours a week. Four quarter hours. Spring quarter.

43. STILL LIFE I. Studies in charcoal, water color, and oil.

Eight hours a week. Four quarter hours. Fall quarter, even years.

44. INTERIOR DECORATION. A thorough and practical course in the fundamentals of interior decoration. Emphasis is placed on good color harmony, and the application of the principles of design. The course includes the study of periods and styles of furniture and of materials used in interiors.

Eight hours a week. Four quarter hours. Winter quarter, even years.

45. DESIGN III. The application of the principles of design and color to house plans, wall elevations, and rooms in perspective.

Eight hours a week. Four quarter hours. Spring quarter, even years.

46, 47. LIFE SKETCH. Drawing from a model. Study of general anatomical facts.

Eight hours each a week. Eight quarter hours. Fall and winter quarters, odd years.

48. ILLUSTRATION. Study of applied composition in connection with work from life.

Eight hours a week. Four quarter hours. Spring quarter, odd years.

49. COMMERCIAL DESIGN. Decorative composition and lettering. Application to high-school annual and to other school publications.

Eight hours a week. Four quarter hours. Fall quarter.

50. STILL LIFE II. More advanced work in still life, using oil paints and water colors.

Eight hours a week. Four quarter hours. Winter quarter.

51. ART APPRECIATION. The history of ornament, architecture, sculpture, and painting.

Elective (except in the art curriculum) for juniors and seniors; a recommended elective for juniors in the English curriculum. Four hours a week with preparation. Four quarter hours. Spring quarter.

EDUCATION AND TEACHING

I. EDUCATION

College

Note: Beginning with the fall quarter, 1933-34, a change was made in the education requirements in four-year curricula. The junior year remains unchanged, 1934-35, and the senior year, 1934-36, with the exception of the requirement of Education 44 in all curricula and the regulations as to practice teaching. See III under "Scholarship."

20, 21, 22. INTRODUCTION TO EDUCATIONAL PSYCHOLOGY, EDUCATIONAL PSYCHOLOGY, PSYCHOLOGY OF ELEMENTARY EDUCATION.

Required in the freshman year of the two-year curriculum. Four hours a week. Four quarter hours for each course. Education 20, fall quarter; Education 21, winter quarter; Education 22, spring quarter.

23, 24, 25. PRINCIPLES OF ELEMENTARY EDUCATION, MANAGEMENT OF THE ELEMENTARY SCHOOL, PRIMARY EDUCATION.

Required in the sophomore year of the two-year curriculum, but students who prefer upper grade work do not take Education 25. Four hours a week. Four quarter hours for each course. Education 23 and 24, every quarter; Education 25, spring quarter.

30, 31, 32. INTRODUCTION TO EDUCATIONAL PSYCHOLOGY, EDUCATIONAL PSYCHOLOGY, PSYCHOLOGY OF SECONDARY EDUCATION.

Required in the sophomore year in four-year curricula, beginning 1934-35. Not open to students who have had Education 20, 21, 22. Four hours a week. Four quarter hours. Education 30, fall quarter; Education 31, winter quarter; Education 32, spring quarter.

43, 44, 45. PRINCIPLES OF SECONDARY EDUCATION, EDUCATIONAL MEASUREMENTS, MANAGEMENT OF THE SECONDARY SCHOOL.

Required in four-year curricula in the junior or senior years of all who have not had Education 23 and 24, the former requirement. Four hours a week. Four quarter hours for each course. No credit for Education 43 or 45 if the student has had Education 23 or 24. Education 43, fall and winter quarters; Education 44, every quarter; Education 45, every quarter.

47. SOCIAL PSYCHOLOGY.

Elective, junior or senior year. Four hours a week. Four quarter hours. Spring quarter.

48. SCHOOL ADMINISTRATION.

Elective, junior or senior year. Four hours a week. Four quarter hours. Summer quarter.

II. TEACHING

A detailed description of the courses in practice teaching and of the course in observation may be found under the head, Training School.

For restrictions on admission to practice teaching course, see III under "Scholarship."

20, 21, 22. PRACTICE TEACHING IN THE GRADES.

Required in the second year of the two-year curriculum for preparation of teachers for the grades. Five hours a week. Four quarter hours for each course. Every quarter.

30. FIRST QUARTER OF PRACTICE TEACHING FOR STUDENTS IN FOUR-YEAR CURRICULA. It includes Teaching 30 (Art), Teaching 30 (English), Teaching 30 (Latin), Teaching 30 (Geography), Teaching 30 (History), Teaching 30 (Industrial Arts), Teaching 30 (Mathematics), Teaching 30 (Music), Teaching 30 (Botany), Teaching 30 (Zoölogy), Teaching 30 (Physics), Teaching 30 (Chemistry).

The word in parenthesis indicates the student's major subject and is needed to show so far as possible the subject which he should be assigned to teach.

Students in four-year curricula are not registered for Teaching 20 which is the first course for students in the two-year curriculum.

For restrictions on admission to any course in practice teaching see III, under "Scholarship."

Prerequisite: Junior classification except as specified in III, under "Scholarship." Five hours a week. Four quarter hours. Fall quarter, junior year, unless the student is admitted in the sophomore year under the regulations given in III, under "Scholarship."

41, 42. PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT.

Two quarters of practice teaching are required in the Senior College. At least one of these quarters must be in the major subject. These courses are listed under the same numbers (41, 42) in the description of courses in each department.

Required in the Senior College. Five hours a week. Four quarter hours. Winter and spring quarters.

41G to 48G. PRACTICE TEACHING AND SUPERVISION IN ELEMENTARY GRADES.

Required in the Senior College in the curriculum for preparation of elementary grade teachers. Five hours a week. Four quarter hours for each course. Fall, winter, and spring quarters.

ENGLISH

20, 21. COMPOSITION. A course in the fundamentals of good speaking and writing. Creditable work in English 20, 21 is a prerequisite to teaching in the Training School. Credit for English 20, 21 may be earned in one, two, or more quarters according to individual progress. Students who complete English 21 when registered for English 20 may substitute another English credit for English 20, being counted excused from English 20.

Required in the freshman year in all curricula. Four hours a week. Four quarter hours for each course. Every quarter.

21J. JOURNALISM I. The course covers the fundamentals of news-writing and reporting. It is designed to train students to act as advisers for high-school student publications. Part of the class work appears regularly in *The Teachers College News*.

Prerequisite: English 20. Accepted for English 21. Four hours a week. Four quarter hours. Winter quarter.

22. LITERATURE IN THE GRADES. Emphasizes chiefly wide acquaintance with the great bodies of world literature—myth, legend, etc.—and with the best poetry suitable for children.

Required in the first year of the two-year curriculum unless English 24 or 27 is taken. Four hours a week. Four quarter hours. Spring and summer quarters.

24. TEACHING OF ENGLISH. The teaching of composition in the grades is covered as fully as time permits, including discussion of materials, purposes, standards, theme-topics, correcting of compositions, literature in the grades, and methods of teaching. This course is especially recommended to students interested in intermediate, upper grade, or junior high school work.

Prerequisite: English 20 and 21. Required in the first year of the two-year curriculum (unless English 22 or 27 is taken) and required instead of English 25 of students in the four-year English curriculum. Four hours a week. Four quarter hours. Spring and summer quarters.

24. READING. Designed both to improve the oral and silent reading of the pupils and to give them definite standards by which they may intelligently judge the reading of others. Some attention is given to methods of teaching reading in the grades.

Required in the two-year curriculum. Four hours a week with preparation. Four quarter hours. Every quarter.

25. INTRODUCTION TO LITERATURE. Designed to give the student an acquaintance with the most common types of English literature, including narrative and lyric poetry, biography and letters, the short story, and the essay.

Prerequisite: English 20 and 21. Required in four-year curricula, except the English curriculum. Four hours a week. Four quarter hours, Spring quarter.

26. GRAMMAR. A course for those preparing to teach in the upper grades or in junior high school.

Required in the upper grade sections, sophomore year of the two-year curriculum. Four hours a week. Four quarter hours. Every quarter.

30, 31. NINETEENTH CENTURY PROSE FICTION. The primary aim is to arouse the student's interest in the best fiction, and the secondary, to furnish him with standards of judgment.

Prerequisite: English 30 to English 31. Four hours a week. Eight quarter hours. English 30, fall quarter; English 31, winter quarter. Summer quarter.

34. AMERICAN LITERATURE. A survey of American literature from the beginning to the present.

Four hours a week. Four quarter hours. Spring and summer quarters.

35. GREEK DRAMA. Origins and development of classical drama; Aeschylus, Sophocles, Euripides.

Prerequisite: English 30, 31, 34. Four hours a week. Four quarter hours. Fall and summer quarters.

36. SHAKESPEARE AND THE ELIZABETHAN DRAMA. A study of Shakespeare's most important plays, and of their place in the development of English drama. Some attention is given to the chief dramatists contemporary with Shakespeare.

Four hours a week. Four quarter hours. Winter and summer quarters.

37. MODERN DRAMA. The purpose of this course is to familiarize the student with what is best in modern drama.

Four hours a week. Four quarter hours. Spring and summer quarters.

38. JOURNALISM. See 44J, 44J2.

39. DRAMATICS. A study of the presentation of plays, including the reading of contemporary dramas, the production of at least one play, and the dramatization of an episode or a short story. Some instruction in the coaching of plays is given. Accepted for English 37.

Four hours a week. Four quarter hours. Summer quarter.

40. THE TEACHING OF ENGLISH IN THE HIGH SCHOOL.

Important topics connected with English in the high school are covered as fully as time permits.

Required in the senior year of those whose major subject is English. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN ENGLISH IN THE HIGH SCHOOL.

Five hours a week. Four quarter hours for each course. Winter and spring quarters.

43. CONTEMPORARY LITERATURE. Extensive reading in current literature introduces the student to the best that is being written today, and provides him with some standards of judgment with the hope of stimulating his enthusiasm for good books.

Required or elective in the junior year in all curricula. Four hours a week. Four quarter hours. Fall and summer quarters.

44. ADVANCED RHETORIC. Chiefly written composition, applying the principles of organization and effective expression to somewhat more extended material than do English 20 and 21. The course is intended to give both an introduction to the methods of research and opportunity for original work.

Prerequisite: Junior College required English. Required or elective in the junior year in all curricula. Four hours a week. Four quarter hours. Winter and summer quarters.

44J. JOURNALISM II. This course is designed to train students in the effective expression of problems of student life.

Opportunity is afforded for original work. The present-day newspaper and its relation to contemporary life are discussed.

Prerequisite: English 21J or the equivalent. Four hours a week. Four quarter hours. Every quarter.

45. ORAL ENGLISH. Through prepared talks and discussions this course gives training in the effective expression of genuine ideas and opinions. Sincerity, adequate development of thought, the proper use of facts and evidence, and also the principles and practice of good delivery are stressed.

Prerequisite: Junior College required English. Required or alternative with English 44 in the junior year in all curricula. Four hours a week. Four quarter hours. Spring and summer quarters.

46, 47, 48. MODERN ENGLISH POETRY. Appreciation of the art of poetry, and a study of some of the chief English poets, as they illustrate this art. Beowulf to Chaucer; Milton to Burns; Nineteenth Century Poetry.

Required in the English curriculum; elective in others. Four hours a week. Four quarter hours for each course. English 46, fall quarter; English 47, winter quarter; English 48, spring quarter. Summer quarter.

49. THE ESSAY. This course traces the development of the essay in English, with special attention to style.

Required in the senior year of the English curriculum and elective for juniors and seniors in any curriculum. Four hours a week. Four quarter hours. Fall quarter.

50, 51. HISTORY OF THE ENGLISH LANGUAGE AND LITERATURE. The development of the English language from Anglo-Saxon to the language of today traced concurrently with the history of English literature.

Required in the senior year of the English curriculum. Not open as elective in other curricula except by special permission of the head of the English department. Four hours a week. Eight quarter hours for the two courses. Winter and spring quarters.

FOREIGN LANGUAGE

FRENCH

30, 31, 32. FIRST YEAR FRENCH. A careful study of the principles of grammar. Special attention is paid to pronunciation and drill in rhythm and intonation. Study of phonetics as an aid to pronunciation. Reading of simple French texts.

Elective. Four hours a week. Twelve quarter hours, no credit toward graduation for less than a year's work. French 30,

fall quarter; French 31, winter quarter; French 32, spring quarter.

33, 34, 35. **ADVANCED FRENCH.** Rapid review of grammatical forms and idioms. Reading of moderately difficult texts. Moliere: Reading and discussion of several of his comedies; written reports on his life, works, and influence on French literature. All recitations are, as far as possible, conducted in French.

Prerequisite: Two years of high-school French or one year of college French. Elective. Four hours a week. Twelve quarter hours. French 33, fall quarter; French 34, winter quarter; French 35, spring quarter.

43, 44, 45. **ADVANCED FRENCH.** Dramas of Marivaux and Hugo. Modern poetry. Reading of moderately difficult texts. Frequent reports on suggested topics. Oral themes. Conversation.

Prerequisite: Two years of college French. Elective. Four hours a week. Twelve quarter hours. French 43, fall quarter; French 44, winter quarter; French 45, spring quarter.

GERMAN

30, 31, 32. **FIRST YEAR GERMAN.**

Elective. Four hours a week. Twelve quarter hours, no credit toward graduation for less than a year's work. German 30, fall quarter; German 31, winter quarter; German 32, spring quarter.

33, 34, 35. **SECOND YEAR GERMAN.** Review of grammar. Reading of German short story classics. Shorter German poetry and folk-songs.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. Four hours a week. Twelve quarter hours. German 33, fall quarter; German 34, winter quarter; German 35, spring quarter.

43, 44, 45. **THIRD YEAR GERMAN.** Longer and more advanced German stories and plays by standard authors. German 45 stresses prose composition.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. Four hours a week. Twelve quarter hours. Omitted 1934-1935.

LATIN

30. **LIVY, SELECTIONS FROM BOOKS, I, XXI, AND XXII.**

Prerequisite: Four years of high-school Latin. Four hours a week. Four quarter hours. Fall quarter, odd years.

31. **CICERO, DE AMICITIA, DE SENECTUTE, AND DE OFFICIIS.**

Prerequisite: Latin 30. Four hours a week. Four quarter hours. Winter quarter, odd years.

32. HORACE, ODES AND EPODES.

Prerequisite: Latin 31. Four hours a week. Four quarter hours. Spring quarter, odd years.

33. VIRGIL, AENEID, BOOKS VII-XII.

Prerequisite: Four years of high-school Latin. Four hours a week. Four quarter hours. Fall quarter, even years.

34. HORACE, SATIRES AND EPISTLES.

Prerequisite: Latin 33. Four hours a week. Four quarter hours. Winter quarter, even years.

35. PLAUTUS, MENAECHMI, MOSTELLARIA, AND CAPTIVI.

Prerequisite: Latin 34. Four hours a week. Four quarter hours. Spring quarter, even years.

GEOGRAPHY

Note: For elementary grade or department teachers, Geography 20, 21, 30, 40, 31, 44 (or 46) are recommended.

Those preparing to teach geography in high school should take Geography 20, 21, 30, 31, 33, 36, and 40.

20. PRINCIPLES OF GEOGRAPHY. A survey of the basic relationships between the natural environment and man's activities. This course is organized as a service course for those who are preparing for grade teaching and as a foundation for those who have selected geography as a major or minor subject.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades. Elective for others. Four hours a week. Four quarter hours. Every quarter.

21. CLIMATOLOGY. A treatment of climates and their causes. As a basis, a study is made of the form and motions of the earth as underlying influences upon the elements of weather and climate.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades. Elective for others. Four hours a week. Four quarter hours. Every quarter.

Note: Studies of the continents lead to an understanding of the industrial and commercial development and possibilities of geographic regions.

30. GEOGRAPHY OF NORTH AMERICA.

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Spring and summer quarters.

31. GEOGRAPHY OF SOUTH AMERICA.

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Winter and summer quarters.

32. GEOGRAPHY OF EUROPE.

Prerequisite: Geography 20 and 21. Elective. Four hours a week. Four quarter hours. Fall and summer quarters.

33 (43). PHYSIOGRAPHY. A study of the processes which change the surface of the earth. The course includes quite extensive work in interpreting the earth's surface through the use of topographic maps. This course should be elected by those who may teach physiography or general science in high school.

Four hours a week. Four quarter hours. Fall quarter.

36. ELEMENTS OF GEOLOGY. The course presents the history of the development of the earth and life to the present form, emphasizing the explanation of the distribution and accessibility of the mineral resources of the earth. It is offered as a cultural subject and as a foundation for advanced study and reading in the fields of geography, botany, and zoölogy.

Four hours a week. Four quarter hours. Spring and summer quarters.

40. THE TEACHING OF GEOGRAPHY. A study of the principles involved in the selection, organization and presentation of geographic material for elementary and secondary schools according to the individual needs of the class.

Required in the senior year of those whose major subject is geography. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN GEOGRAPHY.

Required in the senior year of those whose major subject is geography. Five hours a week. Eight quarter hours. Winter and spring quarters.

44. TRADE AND TRANSPORTATION. A survey of the major trade regions of the world and the transportation facilities which have contributed to their development.

Prerequisite: Geography 20, 21. Four hours a week. Four quarter hours. Spring quarter, odd years.

45. GEOGRAPHY OF ASIA.

Prerequisite: Geography 30, 31, 32. Four hours a week. Four quarter hours. Winter quarter.

46. URBAN GEOGRAPHY. A detailed study of the location, growth, decline, and characteristics of cities as influenced by the natural environment.

Prerequisite: Geography 20, 21. Four hours a week. Four quarter hours. Spring quarter, even years.

HISTORY, GOVERNMENT, ECONOMICS, SOCIOLOGY

HISTORY

The history requirement in the Junior College may be fulfilled by selecting any two consecutive quarters of American history or ancient history.

33. AMERICAN POLITICAL AND INSTITUTIONAL HISTORY TO 1825.
Four hours a week. Four quarter hours. Fall quarter.

34. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1825-1876.

Four hours a week. Four quarter hours. Winter quarter.

35. THE POLITICAL AND INSTITUTIONAL HISTORY OF THE UNITED STATES, 1876 TO THE PRESENT.

Four hours a week. Four quarter hours. Spring quarter.

37. ANCIENT HISTORY TO ABOUT 500 B. C.

Four hours a week. Four quarter hours. Fall quarter.

38. HISTORY OF GREEK CIVILIZATION.

Four hours a week. Four quarter hours. Winter quarter.

39. POLITICAL AND INSTITUTIONAL HISTORY OF ROME.

Four hours a week. Four quarter hours. Spring quarter.

40. THE TEACHING OF HISTORY.

Required in the senior year of those whose major subject is history. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HISTORY.

Required in the senior year of those whose major subject is history. Five hours a week. Eight quarter hours. Winter and spring quarters.

43, 44, 45. ENGLISH HISTORY. A fundamental course in the political and social institutions of England.

Four hours a week. Twelve quarter hours. Fall, winter, and spring quarters, even years.

46. THE HISTORY OF WESTERN EUROPE FROM THE CLOSE OF THE FOURTH CENTURY TO 1500.

Four hours a week. Four quarter hours. Fall quarter, odd years.

47. THE HISTORY OF EUROPE, 1500-1815.

Four hours a week. Four quarter hours. Winter quarter, odd years.

48. THE HISTORY OF EUROPE, 1815 TO THE PRESENT.

Four hours a week. Four quarter hours. Spring quarter, odd years.

GOVERNMENT

43. STATE AND LOCAL GOVERNMENT.

Four hours a week. Four quarter hours. Fall and summer quarters.

44. THE NATIONAL GOVERNMENT.

Four hours a week. Four quarter hours. Winter and summer quarters.

45. MODERN GOVERNMENTS OF EUROPE AND AMERICA.

Prerequisite: Courses 44. Four hours a week. Four quarter hours. Spring and summer quarters.

ECONOMICS

20. THE ECONOMIC HISTORY OF THE UNITED STATES.

The natural resources, their extent, geographical distribution, and relation to industrial life; the development of agriculture, industry, commerce, and transportation; the changes in methods of production and distribution and their relation to present economic problems.

Required in the curriculum in Industrial Arts. Four hours a week. Four quarter hours. Spring quarter.

44. THE PRINCIPLES OF ECONOMICS.

Elective. Four hours a week. Four quarter hours. Fall quarter.

45. THE PRINCIPLES OF ECONOMICS AND THEIR APPLICATION TO PRESENT-DAY ECONOMIC PROBLEMS.

Prerequisite: Course 44. Elective. Four hours a week. Four quarter hours. Winter quarter.

46. MONEY AND BANKING.

Prerequisite: Courses 44 and 45. Elective. Four hours a week. Four quarter hours. Spring quarter.

SOCIOLOGY

43. INTRODUCTION TO SOCIOLOGY. The contemporary community; the bases of community life; the family and the modern home; making a living; acquiring an education; moral and religious life; government and community planning; poverty, crime, and delinquency; the community and society.

Elective. Senior College. Four hours a week. Four quarter hours. Fall quarter.

44. PRINCIPLES OF SOCIOLOGY. Social institutions and social processes; conditioning factors of social change (biological, environmental, and psycho-social); social interaction, association, accommodation, and assimilation; coöperation and the organic

nature of society; invention and social change; social sanctions and social control.

Prerequisite: Sociology 43. Four hours a week. Four quarter hours. Winter quarter.

45. CURRENT SOCIAL PROBLEMS AND TENDENCIES. Population trends; changes in rural and urban life; institutional changes—the family, the school, the church, the government.

Prerequisite: Sociology 44. Four hours a week. Four quarter hours. Spring quarter.

HOME ECONOMICS

Note: The four-year curriculum in home economics (See Curriculum II, 2F) is designed to cover the needs of teachers who wish to teach home economics in high schools which receive Federal Aid under the Smith-Hughes Law. It has been approved by the State Supervisor of Home Economics.

I. CLOTHING

30. ELEMENTARY CLOTHING. Textile study. Problem: Undergarments. The developing of illustrative material for teaching.

Elective. Eight hours a week. Four quarter hours. Fall and summer quarters.

31. CLOTHING. Problem: A smock. Decorative stitches, clothing economics, study of clothing budgets.

Prerequisite: Clothing 30. Elective. Eight hours a week. Four quarter hours. Winter and summer quarters.

32. CLOTHING. Problem: Simple afternoon dress. Elementary clothing selection.

Prerequisite: Clothing 31. Elective. Eight hours a week. Four quarter hours. Spring and summer quarters.

43. CLOTHING. Problem: Wool dress or its equivalent. Advanced clothing selection.

Prerequisite: Clothing 32. Elective. Eight hours a week. Four quarter hours. Fall quarter, even years.

44. CHILDREN'S CLOTHING. Emphasis on selection, make-over, and construction.

Prerequisite: Clothing 43. Elective. Eight hours a week. Four quarter hours. Winter quarter, even years.

45. CLOTHING. Problem: A silk dress or the equivalent. Renovation, care, and repair of clothing.

Prerequisite: Clothing 44. Elective. Eight hours a week. Four quarter hours. Spring quarter, even years.

II. FOODS AND NUTRITION

30. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Relation of health to food study. Breakfast.

Prerequisite: Chemistry 30, 31, 32, unless the student is registered for Chemistry 30. Eight hours a week. Four quarter hours. Fall quarter.

31. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Luncheons. Christmas candies.

Prerequisite: Foods 30. Eight hours a week. Four quarter hours. Winter quarter.

32. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Teas. Dinners.

Prerequisite: Foods 31. Eight hours a week. Four quarter hours. Spring quarter.

43. FOODS AND NUTRITION. Experimental Cookery. Conventional methods in cookery studied experimentally. Recipes analyzed and effects of various proportions studied.

Prerequisite: Foods 32 and Chemistry 43, 44, 45, unless the student is registered for Chemistry 43. Eight hours a week. Four quarter hours. Fall quarter, odd years (1934-35 and alternate years for home economics students).

44. FOODS AND NUTRITION. Dietetics. Principles of normal human nutrition. Application of practical feeding problems to the individual. Calculation and preparation of dietaries.

Prerequisite: Foods 43. Eight hours a week. Four quarter hours. Winter quarter, odd years (1934-35 and alternate years).

45. FOODS AND NUTRITION. Meal planning and serving. Individual planning and preparation of meals for family groups including adaptation to needs of child. Aesthetic phase and social opportunities in meals emphasized.

Prerequisite: Foods 44. Eight hours a week. Four quarter hours. Spring quarter, odd years (1934-35, and alternate years).

III. HOME ECONOMICS

40. ADMINISTRATION AND METHODS IN HOME ECONOMICS.

Prerequisite: Junior standing in the home economics curriculum. Four hours a week. Fall quarter.

41C, 42C. PRACTICE TEACHING IN CLOTHING AND RELATED SUBJECTS.

Prerequisite: Home Economics 40. Five hours a week. Eight quarter hours. Winter and spring quarter, odd years (1934-35 and alternate years).

41F, 42F. PRACTICE TEACHING IN FOODS AND NUTRITION.

Prerequisite: Home Economics 40. Five hours a week. Eight quarter hours. Winter and spring quarter, even years (1935-36 and alternate years).

Note: Three of these four courses in practice teaching (Clothing 41, 42 and Foods 41, 42) are required. There is no credit toward graduation for more than three.

43. HOUSEHOLD PHYSICS. A study of labor saving devices and other equipment in the home with relation to its purchase, care, and use.

Four hours a week. Four quarter hours. Fall quarter, odd years (1934-35 and alternate years).

44. HOUSE PLANNING AND FURNISHING. See Art 44.

Prerequisite: Junior standing in the home economics or art curriculum. Four hours a week. Four quarter hours. Winter quarter, even years (1935-36 and alternate years).

45. HOME MANAGEMENT. The business problems of the home are studied; budget making and ways of meeting problems of the home.

Four hours a week. Four quarter hours. Winter quarter, odd years (1934-35 and alternate years).

46. HOME NURSING. 1. Physical care and training of the infant and pre-school age child. 2. A study of the factors to be used in the training and development of children in the home.

Four hours a week. Four quarter hours. Spring quarter, odd years (1934-35 and alternate years).

47. INDUSTRIAL HISTORY. See Industrial Arts 58.

Prerequisite: Junior standing in the home economics or industrial arts curriculum. Four hours a week. Four quarter hours. Spring quarter.

INDUSTRIAL ARTS

20. PRACTICE TEACHING IN INDUSTRIAL ARTS.

Required in the junior year in the industrial arts curriculum. Five hours a week. Four quarter hours. Fall, winter, or spring quarters.

24. PRIMARY AND INTERMEDIATE GRADE HANDWORK. A course for teachers of intermediate and lower grades. Paper folding, paper weaving, cardboard construction, book binding, woodwork, basketry (reed and raffia), clay work. Educational values are studied.

Required in the two-year curriculum unless Course 25 is taken. Four hours a week with outside work. Four quarter hours. Fall and spring quarters.

25. INTERMEDIATE GRADE HANDWORK. The making of wooden toys. Related information. Educational values.

Required in the two-year curriculum unless Course 24 is taken. Four hours a week with outside work. Four quarter hours. Fall and summer quarters.

26. SHEET METAL. Lectures, demonstrations, and application to sheet metal problems, supplemented by textbook work.

Eight hours a week. Four quarter hours. Winter quarter.

31. ELEMENTARY MECHANICAL DRAWING. A thorough and practical course in the fundamentals of mechanical drawing. Emphasis is placed on good technique, accuracy, and speed. Lettering, orthographic projection, geometrical construction, introduction to perspective. The common conventions of commercial practice in problems in isometric, oblique, sheetmetal, machine design, and cabinet drawing. Lectures, demonstrations, and applications, supplemented by textbook work.

Eight hours a week. Four quarter hours. Fall quarter.

34. BENCH WOODWORK. Instruction in the use and care of woodworking tools. Construction of tools. Application to type problems. Study of varieties of wood. Lectures, demonstrations, and applications, supplemented by text assignments.

Eight hours a week. Four quarter hours. Winter quarter.

35. BENCH METAL WORK. Work in wrought iron, mild steel, and sheet metal.

Prerequisite: Course 31. Eight hours a week. Four quarter hours. Spring quarter.

36, 37. FURNITURE AND CABINET CONSTRUCTION. Use of power machinery. Study of periods and styles of furniture. Applied design. Pieces of furniture designed in Course 31 are made in the shop. Outside reading and reports in class, covering the development and distinguishing characteristics of period furniture. Students pay for material used and are allowed to take the furniture home at the end of the college year.

Prerequisite: Course 34. Eight hours a week. Eight quarter hours for the two courses. Winter and spring quarters.

39. HOUSEHOLD MECHANICS. The first half of the course consists of refinishing and repair of furniture, simple carpentry work, and masonry repair. The remainder of the course consists of the study, installation, and repair of household equipment.

Required of those whose major subject is industrial arts. Accepted for Home Economics 43 in the Smith-Hughes home economics curriculum.

Eight hours a week. Four quarter hours. Fall quarter.

40. THE TEACHING OF INDUSTRIAL ARTS. This is a course in special methods.

Required in the industrial arts curriculum. Four hours a week. Four quarter hours. Winter quarter.

41, 42. PRACTICE TEACHING IN INDUSTRIAL ARTS.

Required in the senior year of the industrial arts curriculum. Five hours a week. Four quarter hours for each course. Every quarter.

44. ELECTRICAL CONSTRUCTION. The course consists of the building of electrical apparatus useful to high-school students. Wiring of bell circuits, shop installations, radio, automobiles, and houses. Discussions and demonstrations, supplemented by textbook work.

Prerequisite: Physics 31. Eight hours a week. Four quarter hours. Omitted 1934-35.

46. PATTERN MAKING. Problems in wood representing the most common difficulties of the journeyman in reproducing metal castings.

Eight hours a week. Four quarter hours. Fall quarter.

47. GENERAL METAL WORK. The course includes ten weeks of practice in forging and two weeks in oxyacetylene welding.

Eight hours a week. Four quarter hours. Omitted 1934-35.

48. MACHINE SHOP. Problems on the engine lathe.

Eight hours a week. Four quarter hours. Fall and winter quarters.

50. ARCHITECTURAL DRAWING. A two-story house from original plan by the student. Copy plates of architectural conventions. Original elevations for public buildings.

Eight hours a week. Four quarter hours. Winter quarter.

52. ADVANCED ENGINEERING DRAWING. This course covers problems in intricate machine parts and original machine design.

Eight hours a week. Four quarter hours. Spring quarter.

53. AUTOMOBILE INSTRUCTION. The course consists of a study of the parts of various types of automobiles, based upon a text and supplemented by magazine articles. It is a study course, requiring preparation. There is no laboratory work.

Four hours a week. Four quarter hours. Fall quarter.

54. ADVANCED MACHINE WORK. Practice in the making of a small portable machine involving the use of milling machine, shaper, radial drill, and other machines.

Eight hours a week. Four quarter hours. Fall and winter quarters.

55, 56. CARPENTRY. Elements of building construction, based upon a text and supplemented by lectures and readings. Practice in structural work.

Eight hours a week. Eight quarter hours for the two courses. Omitted 1934-35.

57. AUTOMOBILE REPAIR. Practice in repair jobs.

Prerequisite: Industrial Arts 53. Eight hours a week. Four quarter hours. Omitted 1934-35.

58. HISTORY OF INDUSTRIAL EDUCATION.

Four hours a week. Four quarter hours. Spring quarter.

59, 60, 61. PRINTING I, II, III. Study of fundamental processes and practice in simple hand composition. Course 60 consists of advanced hand composition with press and stone work. Course 61 is a study of the linotype mechanism, operation, maintenance, and care.

Eight hours a week. Four quarter hours for each course. Courses 59 and 60, fall quarter; Courses 60 and 61, winter quarter; Course 61, spring quarter.

MATHEMATICS

20. ARITHMETIC. This course includes notation and numeration, the fundamental operations with integers and with common and decimal fractions, factors and multiples, English and metric measures, involution and evolution, and simple problems in the measurement of surfaces and solids. The course covers the topics taken up in the first six grades as outlined in the Illinois State Course of Study. Special attention is given to the teaching of these topics in the lower grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. Four hours a week. Four quarter hours. Every quarter.

21. ARITHMETIC. The primary object of this course is to prepare for the teaching of arithmetic in the seventh and eighth grades. The principal topics discussed are percentage and its application to practical business problems, ratio and proportion, graphs, formulas, intuitive geometry, square root, and the mensuration of surfaces and solids. It is the aim of the classroom instructor to familiarize the students with methods of instruction that can be readily adapted to the seventh and eighth grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and inter-

mediate grades. Four hours a week. Four quarter hours. Winter, spring, and summer quarters.

28. COLLEGE GEOMETRY. The objects of this course are to improve and extend the student's knowledge of the content and methods of Euclidian geometry and to give an introduction to modern geometry.

Required in the sophomore year of those whose major subject is mathematics. Four hours a week. Four quarter hours. Spring quarter.

29. DESCRIPTIVE GEOMETRY. The course includes the line, point, and plane, and their relation to each other; the intersection of surfaces, penetration and development, and conic sections.

Students may take Industrial Arts 31 for credit in Mathematics 29.

Recommended for those whose major subject is mathematics. Four hours a week for two quarters. Four quarter hours for Mathematics 29a and b. Winter and spring quarters.

30. SOLID GEOMETRY. Chapters XII-XVI. Students who have had solid geometry in high school take Arithmetic 20, Mathematics 29, Trigonometry 33. Those who have not had Geometry 30 take Geometry 30, Arithmetic 20, and Trigonometry 33 in the freshman year.

Prerequisite: Geometry 3. Four hours a week. Four quarter hours. Fall quarter.

31. ALGEBRA. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number system to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. Four hours a week. Four quarter hours. Fall quarter.

32. ALGEBRA. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 31 or the equivalent. Four hours a week. Four quarter hours. Winter quarter.

33. PLANE TRIGONOMETRY. Definitions and properties of trigonometric functions, the deduction of important trigonometric formulas, the use of tables of logarithms, the solution of plane triangles, and various practical applications.

Four hours a week. Four quarter hours. Spring quarter.

34. PLANE ANALYTIC GEOMETRY. A beginning course in analytic geometry.

Prerequisite: Trigonometry 33. Four hours a week. Four quarter hours. Fall quarter.

35. PLANE ANALYTIC GEOMETRY. Continuation of the preceding course.

Prerequisite: Analytics 34. Four hours a week. Four quarter hours. Winter quarter.

36. ALGEBRA. Theory of equations including elementary transformation, location of roots, and the solution of the cubic and biquadratic equations; limits, elementary properties of series.

Prerequisite: Algebra 32. Elective. Four hours a week. Four quarter hours. Spring quarter.

40. THE TEACHING OF HIGH SCHOOL MATHEMATICS.

Required in the senior year of those whose major subject is mathematics. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL MATHEMATICS.

Required of those whose major subject is mathematics. Five hours a week. Eight quarter hours. Winter and spring quarters.

43, 44, 45. DIFFERENTIAL AND INTEGRAL CALCULUS.

Prerequisite: Analytics 35; also Calculus 43 to Calculus 44 and Calculus 44 to Calculus 45. Four hours a week. Twelve quarter hours. Calculus 43, fall quarter; Calculus 44, winter quarter; Calculus 45, spring quarter.

MUSIC

I. Musical Organizations

THE COLLEGE MEN'S GLEE CLUB. During the first weeks of the college year, college men may try for a place in this club. The club meets twice a week and appears in public several times during the year, giving the annual concert in March.

THE COLLEGE WOMEN'S GLEE CLUB. Membership in this club is open to all college women who meet the vocal and reading requirements in the preliminary rehearsals. The club meets for two one-hour rehearsals a week in the evening and makes many local appearances during the year. They present one formal concert in the spring.

BAND. Three bands are organized each year, the high school band, the college band, and the concert band. The concert band membership is made up of the best players from the other two bands. There are from fifty to sixty musicians in each of these bands.

The college band plays for home football and basketball games and in the fall sometimes goes to two out-of-town games with the team. This is the marching band. One or two rehearsals are held weekly.

The concert band gives concerts during the year and plays for special occasions. Both bands are fully uniformed. There are two rehearsals weekly.

ORCHESTRA. There are two orchestras, one for beginners, or young players, and the other for advanced players. Some players practice with both organizations. Each organization rehearses once a week. The advanced orchestra numbers about thirty pieces and gives one or two concerts a year.

II. Music Lessons and Fees

PIANO AND VOICE LESSONS. A fee of \$5.00 a quarter is paid for each. Two lessons are given each week in piano and one in voice.

III. Public School Music

Note: Students who wish to make music a minor subject may take Music 30, 31, 32, 33, 34, 35 (or 20).

20. PRACTICE TEACHING IN MUSIC. This course is devoted to a detailed study of the material and methods of teaching music in the elementary school with practice teaching in two grades.

Prerequisite: Music 24 (or the equivalent) and recommendation of the supervisor of public school music and of the director of the Elementary Training School. Five hours a week. Four quarter hours. Fall, winter, and spring quarters.

O. THEORY AND SIGHT READING. The fundamentals of music, including ear training and sight reading for students in the two-year grade curriculum who have never studied music. Students registering for Music 24 are transferred to Music O, a non-credit course, if they have not the prerequisite for Music 24. Students are permitted to take Music O in addition to regular work without the requirement of B average. It is offered in the fall and winter quarters.

Music 24 may be taken in the winter, spring, or summer quarters after Music O has been completed.

24. PUBLIC SCHOOL MUSIC. Elementary sight singing and lower grade methods. The second half of the quarter is devoted to methods of teaching music in the first six grades with observation in the Training School.

Required in the sophomore year in the two-year curriculum for the preparation of teachers of the grades. Four hours a week. Four quarter hours. Every quarter.

30. ELEMENTARY THEORY. A course designed to give a thorough ground work in the melodic, harmonic, and rhythmic

elements of music. Scales, intervals, chords, and cadences are studied in singing, writing, playing, and dictation.

Required in the freshman year of the music curriculum. Four hours a week. Four quarter hours. Fall quarter.

31. **ELEMENTARY THEORY.** A continuation of the work in the fall quarter, with the inclusion of key relation and modulation. Sight reading of two-part music and more complicated rhythms. Emphasis is placed continually on ear training.

Required in the freshman year of the music curriculum. Prerequisite: Music 30. Four hours a week. Four quarter hours. Winter quarter.

32. **ELEMENTARY THEORY.** Rhythmic, melodic, harmonic dictation with thorough practice in sight reading in two-, three-, and four-part music. Transposition and reading of clefs.

Required in the freshman year of the music curriculum. Prerequisite: Music 31. Four hours a week. Four quarter hours. Spring quarter.

33. **HARMONY.** Music composition in the elementary forms with a complete study of the necessary harmonic equipment which includes primary and secondary triads with inversions.

Required in the sophomore year of the music curriculum. Prerequisite: Music 32. Four hours a week. Four quarter hours. Fall quarter.

34. **HARMONY.** Continued writing and playing from dictation of the chords learned in the fall quarter. Introduction and use of seventh chords. Composition and study of small forms.

Required in the sophomore year of the music curriculum. Prerequisite: Music 33. Four hours a week. Four quarter hours. Winter quarter.

35. **HARMONY.** Composition of a three-part song form with further use of the harmonic materials studied in the fall and winter quarters. Introduction to elementary counterpoint.

Required in the sophomore year of the music curriculum. Prerequisite: Music 34. Four hours a week. Four quarter hours. Spring quarter.

IV. Voice

30A. **CLASS INSTRUCTION.** Fundamental principles of voice building. Correct posture. Proper breathing. Modern English songs.

Elective. Four hours a week. Two quarter hours. Fall quarter.

31A. **CLASS INSTRUCTION.** Voice building. Song literature. Continuation of Voice 30A.

Elective. Prerequisite: Voice 30A. Four hours a week. Two quarter hours. Winter quarter.

32A. CLASS INSTRUCTION. Voice building. Song literature. Study of child voice.

Elective. Prerequisite: Voice 31A. Four hours a week. Two quarter hours. Spring quarter.

V. Instrumental Music

30. INSTRUMENTATION I. Study of instruments as to their range, transposition, use, peculiarities of intonation, uniting and penetrating powers; the adaptation of melodies and four-part music to various instrument combinations.

Organization of orchestras and bands in public schools; the relation of instrument classes to these organizations; the study of graded material for their use.

Elective. Four hours a week. Four quarter hours. Fall quarter.

31. INSTRUMENTATION II. Study of the instruments and choirs of the orchestra; the orchestral score; the arranging for instruments of orchestra and band from the piano score; re-scoring for small orchestras; writing a conductor's score from orchestral parts.

Prerequisite: Instrumentation I. Four hours a week. Four quarter hours. Winter quarter.

32. CONDUCTING. The technique of the baton, practice in conducting, interpretation.

Prerequisite: Instrumentation 30, 31. Elective. Four hours a week. Four quarter hours. Spring quarter.

THE USE OF THE LIBRARY

Certain courses offered in the College require considerable work in the library, including reading, and looking up references, and assigned topics. To do this work with the wisest expenditure of time and effort, students should know how to use the card catalogue, magazine indexes, and some common reference books. Lessons, required of all students, are given in the eleventh year of the high school and freshman year of the college. An effort is made to have these lessons prepare for library work required of students in other courses.

20. THE USE OF THE LIBRARY.

Freshman who have completed Library XI in the high school are excused from all but the last four lessons of Library 20.

They should register for Library 20 (XI), given in the first four weeks of the winter quarter.

Required in the freshman year. One hour a week. One quarter hour. Every quarter.

PENMANSHIP

College

20. This course aims to improve the student's writing and to make him familiar with a system of plain business writing and methods of presenting it to pupils in the grades.

The course includes correct position, muscular movement exercises, business forms of capital letters, small letters, figures, sentences, and page writing. Emphasis is placed upon blackboard writing.

Four hours a week. One quarter hour. Every quarter.

PHYSICAL EDUCATION FOR MEN

Credit earned in the required courses in physical education is in addition to the 96 quarter hours required for a diploma and the 192 quarter hours required for a degree.

Physical education and coaching may be used as a second minor subject, but not as the only minor subject.

No student is permitted to count less than 12 nor more than 24 quarter hours in physical education and coaching for credit toward graduation.

Required Courses

Freshman and Sophomore Years

First Year's Work. REGULAR EXERCISES IN THE GYMNASIUM OR PARTICIPATION IN A SPORT.

Two hours a week. One quarter hour for each quarter's work, but not counted toward graduation total. Every quarter.

Second Year's Work. GYMNASIUM WORK OR PARTICIPATION IN A SPORT.

Two hours a week. One quarter hour for each quarter's work, but not counted toward graduation total. Every quarter.

Elective Physical Education

For Sophomores, Juniors, and Seniors

33. PHYSICAL EDUCATION FOR TEACHERS, I. Advanced work in the gymnasium, playground work and games, athletic management for junior high schools.

Prerequisite: At least sophomore classification. Four hours a week with preparation. Four quarter hours. Fall quarter.

34. PHYSIOLOGY, HYGIENE, AND ANATOMY. Physiology and physical education, the care of the body, the study of muscles and bones, the treatment of sprains, bruises and wounds, massaging and bandaging.

Prerequisite: At least sophomore classification. Four hours a week with preparation. Four quarter hours. Winter quarter.

35. PHYSICAL EDUCATION FOR TEACHERS, II. The history of physical education; the physical education programme.

Prerequisite: At least sophomore classification. Four hours a week with preparation. Four quarter hours. Spring quarter.

36. BASKET BALL. Study of the rules. Practice in passing, dribbling, shooting, pivoting, and teamwork. Discussion of plays and tournaments.

Prerequisite: At least sophomore classification. Four hours a week with preparation. Four quarter hours. Fall quarter.

36C. PRACTICE COACHING IN BASKETBALL

Prerequisite: Physical Education 36 and junior or senior classification. Ten hours a week. Four quarter hours. Winter quarter.

37. FOOTBALL. The theory and practice of the game. Fundamentals, rules, systems.

Prerequisite: At least sophomore classification. Four hours a week with preparation. Four quarter hours. Spring quarter.

37C. PRACTICE COACHING IN FOOTBALL

Prerequisite: Physical Education 37 and junior or senior classification. Ten hours a week. Four quarter hours. Fall quarter.

38. TRACK AND FIELD. A study of forms in starting, sprinting, hurdling, jumping, discus throwing, javelin, shot putting, pole vaulting. Study of rules, discussion of training and preparation for each event.

Prerequisite: At least sophomore standing. Four hours a week with preparation. Four quarter hours. Spring quarter.

38C. PRACTICE COACHING IN TRACK AND FIELD

Prerequisite: Physical Education 38 and junior or senior classification. Ten hours a week. Four quarter hours. Spring quarter.

39C. PRACTICE COACHING IN BASEBALL

Prerequisite: Junior or senior classification with recommendation of the instructor. Ten hours a week. Four quarter hours. Spring quarter.

PHYSICAL EDUCATION FOR WOMEN

A thorough physical examination is given at the beginning of each year. Physical defects, abnormalities, and weaknesses are noted, and the examining physician prescribes exercise to fit the student's individual needs. A resident health director follows up all cases in need of medical attention.

Physical education, two hours a week for two years, is required in the college. This requirement is in addition to the 96 quarter hours required for a diploma and to the 192 quarter hours required for a degree.

The requirements may be considered under two heads:

I. Regular physical education for the physically fit.

II. Special courses.

Archery and deck tennis are offered for those who are fit for very moderate exercise.

Students who wish to improve their posture, or to overcome such detriments to health and efficiency as may be favorably influenced by advice and exercise, e. g.; fallen arches, weak and painful feet, and weak abdominal muscles may make an appointment with a member of the staff for this instruction.

1. Hockey, soccer, tennis, archery, and deck tennis are offered in the fall and spring quarters with lectures on playing and on coaching and refereeing. An interclass tournament is held in the spring quarter.

2. In the winter quarter, students in four-year curricula take clog dancing and Danish gymnastics, while students in the two-year curriculum take up methods, subject matter, and activities suitable to children in the grades.

Some opportunity of supervising playground work may be given in the fall and spring to students in the two-year curriculum who have taken the necessary preparatory work.

BIOLOGICAL SCIENCE

I. HUMAN PHYSIOLOGY

43. **ELEMENTARY PHYSIOLOGY.** The fundamental principles of animal physiology, including the chemical and physical structure of animate matter; the reactions involved in animals, including the human body, in responding to environmental conditions; the formation, structure, and functions of blood and lymph; and the fundamental structure of the nervous system with particular emphasis on reflex actions. A survey of the conditions determining the activities of living forms.

Elective. Six hours a week. Four quarter hours. Summer quarter.

44. ELEMENTARY PHYSIOLOGY. A study of respiration, foods, digestion, metabolism, and excretion.

Prerequisite: Physiology 43. Elective. Six hours a week. Four quarter hours. Summer quarter, even years.

45. ELEMENTARY PHYSIOLOGY. A study of circulation, the organs of internal secretion, the central nervous system, and the special senses.

Prerequisite: Physiology 43. Elective. Six hours a week. Four quarter hours. Summer quarter, odd years.

II. BOTANY

The botany department is well equipped for the training of teachers of botany in high schools, general biology, nature study in the grades, and general science; and those who complete the four-year botany curriculum are equipped to do graduate work in other institutions. The sequence of courses offered by this department has been carefully arranged for the teaching of botany. These courses with the equipment of the laboratory train the student for skillful laboratory teaching and may train him to enter other occupations in the field of science such as technicians in various laboratories.

The campus affords excellent opportunity for the study of trees, shrubs, and herbaceous plants. There are over two hundred different kinds of trees and shrubs on the campus and numerous herbaceous flowering plants as well as many specimens of the other groups of plants.

20. COLLEGE BOTANY. A course designed to give the student a knowledge of the fundamental physiological processes concerned in the growth of plants, and of the external and internal structures which are concerned in these processes in leaves, stems, and roots. It includes also the effects of environment on these processes and structures.

Required in the two-year curriculum, unless Zoölogy 23 (or 20) or Botany 21 or 22 is taken. Elective in other curricula. Six hours a week. Four quarter hours. Every quarter.

21. COLLEGE BOTANY. A study of the reproduction of flowering plants, the development of fruit and seeds from the parts of the flower, the mechanism of heredity, and a brief study of the great groups of plants.

Prerequisite: Botany 20. Elective. Six hours a week. Four quarter hours. Winter and summer quarters.

22. GENERAL LOCAL FLORA. The identification of trees in winter and summer condition, of the common fresh water algae, liverworts, mosses and ferns, and of flowering plants as the season advances; and with a study of structures which is necessary for the recognition of these forms. The course is designed especially for those who expect to teach biological science in secondary schools.

Prerequisite: Botany 20 and 21 or permission of the instructor. Elective. Six hours a week. Four quarter hours. Spring and summer quarters.

30. THE MORPHOLOGY OF GREEN PLANTS. A study of the vegetative and reproductive structures of the green plants and a comparative study of the typical life histories of the great groups. The course consists mostly of laboratory work.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Fall quarter.

31. INTRODUCTION TO FUNGI AND PLANT DISEASES. The structure, life histories, and physiology of the groups of fungi and their relation to decay, fermentation, and the important plant diseases.

Prerequisite: Botany 20 and 21. Elective. Six hours a week. Four quarter hours. Winter quarter.

32. ECONOMIC BOTANY. The relation of vegetation centers to crop centers; the effect of environment factors on the production of carbohydrates, fats, fibers, and other plant products; the value of microorganisms in the important economic practices carried on by their use.

Prerequisite: Botany 20 and 21. Elective. Four hours a week. Four quarter hours. Spring quarter.

40. METHOD IN HIGH SCHOOL BOTANY. The course includes methods of teaching high school botany and also the collection and preparation of material for demonstration and laboratory in high school botany.

Prerequisite: Two years' work in college botany. Required in the senior year in the four-year curriculum in botany. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL BOTANY.

Prerequisite: Botany 40. Required in the senior year in the four-year curriculum in botany unless Zoölogy 41 is substituted. Five hours a week. Course 41, four quarter hours; Course 42, four quarter hours. Winter and spring quarters.

43. MICROTECHNIC. A course designed for the purpose of giving the student a knowledge of the preparation of botanical material for class use and for the making of microscopic slides.

It is desirable that students in this course shall have had a year of chemistry.

Prerequisite: Botany 20, 21, 22, and 30, or the equivalent.
Elective. Six hours a week. Four quarter hours. Fall quarter.

44. EXPERIMENTAL PLANT PHYSIOLOGY. A qualitative and quantitative study of the experiments demonstrating the chemical and physical processes that result in the growth of plants and the application of this knowledge in solving problems in the growth of plants.

Prerequisite: One year of chemistry and Botany 20 and 21.
Elective. Six hours a week. Four quarter hours. Winter quarter.

45. ADVANCED BOTANY. This is designed to meet the needs of individual students who wish to do advanced work in some special field of botany. The student may choose the work he wishes to do, but is required to consult the instructor before registering.

Prerequisite: Botany 20, 21, 22, 30, and 43. *Elective.* Six hours a week. Four quarter hours. Any quarter, by permission.

46. ADVANCED WOOD ANATOMY AND IDENTIFICATION.

Prerequisite: Botany 20. *Elective.* Six hours a week. Four quarter hours. Spring quarter.

III. ZOÖLOGY

20, 21, 22. ELEMENTARY ZOÖLOGY.

Elective. Six hours a week. Twelve quarter hours. Course 20, fall quarter; Course 21, winter quarter; Course 22, spring quarter; also summer quarters.

23. NATURE STUDY. This course is designed to meet the biology requirement of the two-year curriculum. Its aim is to give a background for the teaching of nature study in the grades. It replaces the former requirement of Zoölogy 20. The course includes a study of the fundamental life processes and of the identification of birds and insects. It is not accepted for Zoölogy 20 or 21 toward a laboratory science requirement.

Required in the freshman year of the two-year curriculum unless Botany 20 is taken. Accepted for Zoölogy 22. Six hours a week. Four quarter hours. Fall and spring quarters.

30, 31, 32. VERTEBRATE ZOÖLOGY. A study of the anatomy, classification, and habits of various classes of vertebrates. Course 30 deals with fishes; Course 31, with amphibians and reptiles; Course 32, with birds and mammals.

Prerequisite: Zoölogy 20, 21. *Elective.* Six hours a week. Twelve quarter hours. Course 30, fall quarter; Course 31, winter quarter; Course 32, spring quarter.

40. **METHOD IN HIGH SCHOOL ZOÖLOGY.** The course includes methods of teaching zoölogy and also the collection and preparation of material for demonstration and laboratory in high school zoölogy.

Prerequisite: Two years' work in college zoölogy. Required in the senior year in the four-year curriculum in zoölogy. Four hours a week. Four quarter hours. Fall quarter.

41, 42. **PRACTICE TEACHING IN HIGH SCHOOL ZOÖLOGY.**

Prerequisite: Zoölogy 40. Required in the senior year in the four-year curriculum in zoölogy unless Botany 41 is substituted. Five hours a week. Course 41, four quarter hours; Course 42, four quarter hours. Winter and spring quarters.

43, 44, 45. **ADVANCED ZOÖLOGY.** A study of insects. Deals with the classification and ecology of this large and important class. Methods of collection and preparation of specimens are studied. It prepares for teaching biological science in the upper grades or high school.

Prerequisite: Zoölogy 20, 21. Elective. Six hours a week. Twelve quarter hours. Zoölogy 43, fall quarter; Zoölogy 44, winter quarter; Zoölogy 45, spring quarter.

46. **MICROTECHNIC.** Methods and practice in the preparation of microscopic slides of animal tissues. Some histological studies are included.

Prerequisite: Two years of zoölogy and permission of the instructor. Six hours a week. Four quarter hours.

47. **ANIMAL BEHAVIOR.** Theoretical and experimental studies of the reactions of animals to various stimuli.

Prerequisite: Two years of zoölogy and permission of the instructor. Six hours a week. Four quarter hours.

48. **ANIMAL ECOLOGY.** A study of various animal associations and of the effects of environmental conditions.

Prerequisite: Two years of zoölogy and permission of the instructor. Six hours a week. Four quarter hours.

PHYSICAL SCIENCE

PHYSICS

30, 31, 32. **FIRST YEAR OF COLLEGE PHYSICS.** Physics 30, mechanics and heat; Physics 31, magnetism and electricity; Physics 32, light and sound.

Six hours a week. Four quarter hours for each course. Physics 30, fall quarter; Physics 31, winter quarter; Physics 32, spring quarter.

40, 41, 42. METHODS AND PRACTICE TEACHING IN PHYSICS.

Required in the senior year in the four-year curriculum in physics. Five hours a week (Four hours for Course 40). Four quarter hours for each course. Fall, winter, and spring quarters.

43. RADIO. A study is made of the principles underlying radio communication. The course includes a study of some typical circuits used in receiving sets and a detailed study of the function of inductance, capacitance, and resistance in electric circuits. Types of vacuum tubes are discussed.

In the laboratory, electrical measurements of parts and assembled units are made. This includes taking characteristic curves of vacuum tubes.

Prerequisite: Physics 31. Six hours a week. Four quarter hours. Summer quarter.

44. ELECTRICAL MEASUREMENTS.

Prerequisite: Physics 31. Eight hours a week. Four quarter hours. Summer quarter.

45, 46, 47. PHYSICS, LABORATORY. Physics 45, mechanics and heat; Physics 46, light; Physics 47, modern physics.

Prerequisite: Physics 30, 31, 32. Eight hours a week. Four quarter hours for each course. Physics 45, fall quarter; Physics 46, winter quarter; Physics 47, spring quarter.

48. MECHANICS. A standard elementary course in theoretical mechanics. Studies of forces acting on a body; vectors; the laws of motion as applied to physical bodies; moment of inertia; momentum; energy.

Prerequisite: Physics 30 and trigonometry. Four hours a week. Four quarter hours. Fall quarter, even years.

49. HEAT, THEORY. Thermometry, expansion of solids, liquids, and gases. The general gas laws and the kinetic theory. Introduction to thermodynamics.

Prerequisite: Physics 30. Four hours a week. Four quarter hours. Winter quarter, even years.

50. ELECTRICITY AND MAGNETISM, THEORY. Magnets and the magnetic field; the electric field; direct current and magnetic field; alternating current and phase relations; units.

Prerequisite: Physics 31 and trigonometry. Four hours a week. Four quarter hours. Spring quarter, even years.

51. LIGHT, THEORY. A brief review of geometrical optics. Phenomena of light studied in terms of physical optics (light as a wave motion). Optical instruments; spectrometry; interference; and polarized light.

Prerequisite: Physics 32 and trigonometry. Four hours a week. Four quarter hours. Fall quarter, odd years.

52, 53. **MODERN PHYSICS.** A survey of basic experiments and theories of modern physics. Radio-activity; discharge of electricity through gases; X-rays; photo-electricity; the structure of matter and the periodic table; matter and radiation.

Prerequisite: Physics 30, 31, 32, and trigonometry. Four hours a week. Four quarter hours. Winter and spring quarters, odd years.

CHEMISTRY

Note.—Four year-sequences are offered: 1. General inorganic chemistry and introduction to qualitative analysis (30, 31, 32). 2. Qualitative and quantitative analysis (33, 34, 35). 3. Organic chemistry (43, 44, 45). 4. Physical chemistry (46, 47, 48).

Those for whom chemistry is the minor subject should take Chemistry 33, 34, 35 for the second year's work if they expect to teach high school chemistry.

It is best also to have Chemistry 33, 34, 35 before Chemistry 46, 47, 48.

The student's major subject will sometimes decide which of the three year-sequences he should take after the first if he is to have but one more.

30, 31. GENERAL INORGANIC CHEMISTRY. Non-metals.

Elective. Six hours a week. Four quarter hours for each course. Chemistry 30, fall quarter; Chemistry 31, winter quarter.

32. METALS AND INTRODUCTION TO QUALITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31. Six hours a week. Four quarter hours. Spring quarter.

33. QUALITATIVE ANALYSIS, Continued.

Prerequisite: Chemistry 30, 31, 32. Six hours a week. Four quarter hours. Fall quarter, even years.

34, 35. QUANTITATIVE ANALYSIS.

Prerequisite: Chemistry 30, 31, 32. Six hours a week. Four quarter hours for each course. Chemistry 34, winter quarter; Chemistry 35, spring quarter, even years.

40. THE TEACHING OF CHEMISTRY.

Required in the senior year in the four-year curriculum in chemistry. Four hours a week. Four quarter hours. Fall quarter.

41, 42. PRACTICE TEACHING IN CHEMISTRY.

Required in the senior year in the four-year curriculum in chemistry. Five hours a week. Four quarter hours for each course. Winter and spring quarters.

43, 44. ORGANIC CHEMISTRY.

Prerequisite: Chemistry 30, 31, 32. Six hours a week. Four quarter hours for each course. Chemistry 43, fall quarter; Chemistry 44, winter quarter, every year.

45. FOOD AND PHYSIOLOGICAL CHEMISTRY.

Prerequisite: Chemistry 43, 44. Six hours a week. Four quarter hours. Spring quarter, every year.

46. PHYSICAL CHEMISTRY. A study of the fundamental principles of chemistry. Solutions and colloids are considered.

Prerequisite: Chemistry 30, 31, 32 and Algebra 36. Six hours a week. Four quarter hours. Omitted 1934-35.

47, 48. PHYSICAL CHEMISTRY. Chemical crystallography, electrochemistry, chemical kinetics, and atomic structure are considered.

Prerequisite: Chemistry 46 and Chemistry 33, 34, 35 if possible. Six hours a week. Four quarter hours. Omitted 1934-35.

PART III

LISTS

EASTERN ILLINOIS STATE TEACHERS COLLEGE

SUMMER TERM, 1933

NAME	COUNTY	POSTOFFICE
Abernathy, William Raymond	Coles	Charleston
Adams, Earl Anderson	Coles	Ashmore
Adams, George Clay	Edgar	Paris
Adams, Gertrude	Edgar	Scotland
Adams, John Fred	Coles	Charleston
Adams, Muriel Pauline	Crawford	Annapolis
Adkins, Dorothy Louise	Coles	Charleston
Alexander, Bernard Ellsworth	Jasper	Willow Hill
Allen, Dorothy Jane	Edgar	Brocton
Ambrose, Julia Beatrice	Vermilion	Westville
Ammann, Margaret Elizabeth	Bond	Pocahontas
Anderson, Coral Corrine	Jasper	Montrose
Anderson, Ruth Foster	Shelby	Stewardson
Anderson, Stella May Janes	Coles	Lerna
Armantrout, Alice Pauline	Coles	Mattoon
Arndt, Loretta Beatrice	Vermilion	Clinton
Artz, Kathleen Elizabeth	Iroquois	Onarga
Austin, Ruth Vandalene	Iroquois	Del Rey
Aye, Florence Margaret	Coles	Charleston
Bailey, Ethel Maye	Shelby	Windsor
Bailey, Ivan Ernest	Crawford	Flat Rock
Bails, William Byron	Coles	Charleston
Baker, Kenneth Inglish	Shelby	Sigel
Baker, Mary Josephine	Coles	Charleston
Baker, Pauline Ethel	Coles	Charleston
Barger, Evelyn Marie	Coles	Mattoon
Barnes, Murvil	Fayette	St. Elmo
Barnfield, William Fuller	Coles	Charleston
Barrick, Paul Philip	Vermilion	Danville
Barricklow, Selma	Douglas	Arcola
Bartlett, Dorothy Minnetta	St. Clair	East St. Louis
Bartram, Juanita Eloise	Coles	Charleston
Basham, Eliza Isabelle	Coles	Mattoon
Bates, Lucille Anna	Effingham	Watson
Battiste, John Frederick	Montgomery	Irving
Baughman, Ruth	Coles	Mattoon
Beam, Nora Grace Overholser	Coles	Charleston
Beckham, Grace Lorene	Montgomery	Witt
Bennett, Della Mae	Edgar	Chrisman
Bennett, Pauline	Clark	Kansas
Bennett, Virena Mercedes	Coles	Charleston
Benoit, William Rexford	Iroquois	Onarga
Benson, Gerald Tewart		Vincennes, Indiana
Benson, Luella Carr	Lawrence	Bridgeport
Bertschinger, Walter Glenwood	Clark	Martinsville
Biava, Joan Olive	Vermilion	Westville
Blair, Berniece Zella	Clay	Louisville
Blake, William Henry	Knox	Galesburg
Blocher, Martha Bernidene	Lawrence	Lawrenceville
Boatman, Edna Irene	Richland	Claremont
Boley, Karl Raymond	Richland	Olney
Bolton, John Raymond	Crawford	Robinson
Boswell, James Benton	Madison	Troy
Bower, Myrtle Alice	DuPage	Downers Grove
Brady, Gertrude	Coles	Mattoon
Bragg, Stanley Rex	Moultrie	Sullivan
Braithwaite, Gussie Mae	Champaign	Ivesdale
Branaman, Susan Ernestine King	Coles	Charleston
Brandon, Margaret Hester	Christian	Owaneco
Brent, Harriet Louise	Greene	Roodhouse
Brewer, Mabel Helen	Coles	Charleston
Brewer, Robert Howard	Coles	Charleston

THE TEACHERS COLLEGE BULLETIN

The Teachers College Bulletin, a sixteen-page monograph, devoted to educational topics, is issued quarterly and distributed in the immediate territory of the College free of charge. The numbers issued in the past six years, exclusive of summer school bulletins and annual catalogues, are:

94. The Use of Modern Poetry with Children, *by Florence E. Gardiner.*

97. Second Printing of Bulletin No. 94.

98. The Training of Teachers at the Eastern Illinois State Teachers College, *by Fiske Allen.*

101. Arithmetic Teachers in the Making, *by E. H. Taylor.*

102. Opportunities for High School Graduates in Public School Teaching in Illinois, *by a Committee of the Illinois Schoolmasters Club.*

105. Thirtieth Anniversary Bulletin, *compiled by Grace Geddes and Anna H. Morse.*

106. Alumni Register, 1900 to 1929, *compiled by Ruth Carman.*

109. Practical Arts at the Eastern Illinois State Teachers College, *by L. F. Ashley.*

110. A Mesophytic Ravine, "Rocky Branch," *by E. L. Stover.*

113. The Junior High School, An Annotated Bibliography, *by F. A. Beu.*

114. The Training of Public School Art Teachers, *by Grace E. Messer.*

117. Trees and Shrubs of the Campus, *by E. L. Stover.*

[Note: The printing of No. 117 has been delayed.]

118. Changes in the Student Body, 1925-1930, *by Ralph Haefner, Emma Reinhardt, F. A. Beu.*

121. Number reserved for bulletin on "The Preparation of High School Teachers of Botany and Zoölogy."

122. Number reserved for "English for Elementary Grades, Part I, The First Four Grades."

125. Number reserved for bulletin of "The Teachers College High School."

126. Number reserved for "The Alumni Register, 1900-1934."

CORRESPONDENCE

PROSPECTIVE STUDENTS

Students contemplating enrollment in the Eastern Illinois State Teachers College should communicate with the Registrar concerning entrance requirements. Inquiries concerning rooms should be addressed to the Dean of Men or Dean of Women, or the Head of Pemberton Hall, respectively.

FORMER STUDENTS

Former students concerned with the completion of any curriculum or planning for continuance of study should communicate with the Dean of the College concerning credits allowed and study schedule. Pre-registration for former students is September 2 to 6 inclusive.

BUREAU OF TEACHER PLACEMENT

Former students desirous of a change of position should register with the Bureau of Teacher Placement, using blanks furnished upon request to the Bureau.

School executives and school boards looking for teachers may obtain detailed and confidential information in regard to the qualifications and teaching experience of any present or former student who is a candidate for a teaching position.

Bulletins published by the college are sent upon request.

A.B., University of Washington, 1916; A.M., Teachers College, Columbia University, 1923; Graduate student, The University of Chicago, 1927-28, 1931-32; Ph.D., University of Iowa, 1931.

Eva Pearl Mintle, B.S.

Normal Diploma, Des Moines University, 1924; B.S., Iowa State College, 1928; A.M., Teachers College, Columbia University (expected June) 1935. (on leave for study, 1934-35.)

Clara Mabel Attebery, A.M.

B.S., University of Illinois, 1914; A.M., Teachers College, Columbia University, 1929; Iowa State College, summer, 1934. (substitute instructor 1934-35.)

INDUSTRIAL ARTS

Lawrence F. Ashley, M.A.

B.S., The Stout Institute, 1921; M.A., Ohio State University, 1933; Graduate study, Ohio State University, summer, 1934. (on leave for study, 1934-35.)

Wayne P. Hughes, B.S.

Diploma, The Stout Institute, 1923; Coaching School, University of Notre Dame, summer, 1924; Iowa State College, summer, 1933; B.S., The Stout Institute, 1934; Graduate study, Teachers College, Columbia University, summer, 1934; A.M., Teachers College, Columbia University (expected August) 1935. (on leave for study, second half-year 1934-35.)

Russell Henry Landis, M.S.

B.S., The Stout Institute, 1930; M.S., Iowa State College, 1934.

Harry R. Jackson, B.Ed.

B.Ed., Eastern Illinois State Teachers College, 1931; M.S., (completed January) Indiana University, 1935. (on leave for study, first half-year 1934-35.)

Ralph Willis Sharp, M.S.

Diploma, Iowa State Teachers College, 1912; B.S., University of Wisconsin, 1923; M.S., Ohio State University, 1931. (substitute instructor 1934-35.)

LIBRARY

Mary Josephine Booth, B.L.S.

A.B., Beloit College, 1900; B.L.S., University of Illinois Library School, 1904; The University of Chicago, second summer term, 1908.

May Smith, B.S.

Diploma, Eastern Illinois State Teachers College, 1921; B.S., University of Illinois, 1924; Student, University of Illinois Library School, 1924-26 (half-time).

Harriet Love, M.S.

A.B., Vassar College, 1926; Certificate, Library School of the University of Wisconsin, 1927; M.S., School of Library Science, Western Reserve University, 1932.

Annabelle Thomson, B.S. in L.S.

B.Ed., Illinois State Normal University, 1931; Night school, University of Tulsa, 1931-32; B.S. in L.S., University of Illinois, 1933.

Hazel I. Hicks

Student, Eastern Illinois State Teachers College, six-weeks' mid-spring terms, 1923, 1924, 1927, 1931; six-weeks' summer terms, 1921, 1924, 1926, 1927, 1928, 1929, year 1927-28.

MATHEMATICS

Edson Homer Taylor, Ph.D.

B.S., National Normal University, 1896; A.M., 1905, Ph.D., Harvard University, 1909; Teachers College, Columbia University, first semester, 1912-13; Student in Germany, second semester, 1912-13.

Fiske Allen, A.M.

Diploma, Indiana State Normal School, 1895; A.B., Indiana University, 1898; A.M., Teachers College, Columbia University, 1910; Graduate study, Teachers College, Columbia University, 1910-11.

Hobart Franklin Heller, A.M.

B.S., Gettysburg College, 1924; Graduate study, The Pennsylvania State College, extension, 1926-29, summer, 1927; A.M., Teachers College, Columbia University, 1931; Graduate study, State University of Iowa, summer, 1934.

Ruth Hostetler, S.B.

Diploma, Eastern Illinois State Normal School, 1908; S.B., The University of Chicago, 1917; Graduate study, University College, The University of Chicago, 1920 and 1923.

MUSIC

Friederich Koch

Student, Conservatory of Music, Kassel; Student under Rokitansky, Vienna; Stockhausen, Frankfurt; Van Zur Muhlen, Brussels.

Richard Walter Weckel, B.M.

Diploma in Violin, Augustana College, 1928; B.M., Illinois Wesleyan University, 1931; M.Mus., Illinois Wesleyan University (expected June) 1935.

Ethel I. Hanson, B.M.

Diploma, Milwaukee State Teachers College, 1916; B.M., University of Wisconsin, 1924; Graduate study, Northwestern University, summers, 1931, 1932, 1933; A.M., University of Wisconsin (expected June) 1935. (on leave for study 1934-35.)

PENMANSHIP

Beth M. Kassabaum

Diploma, Eau Claire State Teachers College, 1924; Student, University of Wisconsin, 1926; A.N. Palmer School, Boulder, Colorado, 1928; B.S., Eau Claire State Teachers College (expected August) 1935. (on leave for study 1934-35.)

Jessie Martha Hunter, A.M.

Normal Diploma, Ferris Institute, 1917; Palmer Method Summer Schools, Cedar Rapids, 1922, Boulder, 1924; A.B., 1931, A.M., Michigan State College, 1932. (substitute instructor 1934-35.)

PHYSICAL EDUCATION

Charles P. Lantz, B.S.

B.S., Gettysburg College, 1908; Student, The Chautauqua School of Physical Education, summers, 1909, 1910; Coaching School, University of Notre Dame, summer, 1925; The Pennsylvania State College, summer, 1934; A.M., The Pennsylvania State College (expected August) 1935.

Winfield Scott Angus, M.S.

B.S., 1930, M.S., University of Illinois, 1934.

Florence McAfee, A.M.

A.B., The Pennsylvania State College, 1922; Two-year certificate, Graduate Department of Hygiene and Physical Education, Wellesley College, 1924; A.M., Teachers College, Columbia University, 1931.

Mabel J. Hupprich, M.S.

B.S., 1926, M.S., University of Wisconsin, 1930; Graduate study, University of Wisconsin, 1933-34.

PHYSICAL SCIENCE

Harris Eugene Phipps, Ph.D.

A.B., Oberlin College, 1926; Night school, University of Rochester, 1926-27; A.M., Oberlin College, 1928; Ph.D., University of Illinois, 1931.

Albert B. Crowe, A.M.

A.B., 1892, A.M., Hanover College, 1897; Summer school, University of Michigan, 1894; University of Colorado, 1928.

Ora Lee Railsback, A.M.

A.B., 1923, A.M., Indiana University, 1924; Graduate study, Indiana University, summers, 1924, 1926; The University of Chicago, summer quarters, 1928, 1929.

Frank Louis Verwiebe, Ph.D.

M.E., Cornell University, 1920; Graduate student, University of Buffalo, part-time, 1921-23; State Teachers College, Buffalo, part-time, 1923-24; M.S., 1930, Ph.D., The University of Chicago, 1933.

SOCIAL SCIENCE

Simeon E. Thomas, A.M.

Ph.B., Upper Iowa University, 1898; A.M., State University of Iowa, 1902; Graduate study, Harvard University, 1902-4.

Charles Hubert Coleman, Ph.D.

A.B., George Washington University, 1924; A.M., Teachers College, Columbia University, 1926; Ph.D., Columbia University, 1933.

Glenn Huron Seymour, Ph.D.

A.B., 1924, A.M., 1925, Ph.D., University of Illinois, 1929.

Donald Rhodes Alter, Ph.D.

B.S. in Ed., University of Missouri, 1920; A.M., Teachers College, Columbia University, 1924; Ph.D., University of Illinois, 1934.

TRAINING SCHOOL

Walter Wellman Cook, Ph.D.....Director
A.B., 1923, A.M., 1926, Ph.D., State University of Iowa, 1931.

Edith Levake, B.S.....
.....Training Teacher in 7th, 8th and 9th Grades
Diploma, State Normal School, Platteville, Wisconsin, 1910; B.S., The University of Chicago, 1927; Graduate study, The University of Chicago, summers, 1929, 1930, 1932, 1933; A.M., University of Southern California (expected June) 1935. (on leave for study 1934-35.)

Harry Louis Metter, Ph.D.....Principal and 8th Grade
Diploma, Southern Illinois State Normal University, 1921; B.S., 1924, M.S., 1925, Ph.D., University of Illinois, 1933. (substitute instructor 1934-35.)

Leah I. Stevens, S.M.....7th Grade
Diploma, Illinois State Normal University, 1917; S.B., The University of Chicago, 1924; Summer Field Trip, Clark University, 1927; S.M., The University of Chicago, 1934.

Gilberta Coffman.....6th Grade
Diploma, Indiana State Normal School, 1904; Art Institute, Chicago, Saturday classes, 1906-8.

Bernice I. Bankson, A.M.....5th Grade
Diploma, Illinois State Normal University, 1927; B.Ed., Eastern Illinois State Teachers College, 1932; A.M., Teachers College, Columbia University, 1933.

Myrtle Arnold, B.S.....4th Grade
Diploma, St. Cloud State Teachers College, 1917; B.S., University of Minnesota, 1930; Graduate study, George Peabody College for Teachers, long session, summer, 1934; A.M., George Peabody College for Teachers (expected August) 1935.

- Irene Funk Phipps, A.B., B.Ed.....4th Grade
A.B., University of Illinois, 1912; Summer school, Chicago Normal College, 1924; Winter quarter, The University of Chicago, 1927; B.Ed., Eastern Illinois State Teachers College, 1929. (substitute instructor last six weeks 1934-35.)
- ¹Margaret A. King, B.Ed.....3d Grade
Diploma, Illinois State Normal University, 1927; B.Ed., Eastern Illinois State Teachers College, 1932; Graduate study, Teachers College, Columbia University, full summer 1934. (on leave for study, second half-year, 1934-35.)
- Nannilee Saunders, A.M.....3d Grade
B.S., George Peabody College for Teachers, 1929; A.M., Teachers College, Columbia University, 1935. (substitute instructor second half-year 1934-35.)
- Grace Geddes.....2d Grade
Diploma, Eastern Illinois State Normal School, 1906; Teachers College, Columbia University, summer, 1910, years 1918-19, 1921-22.
- Anna Holden Morse.....1st Grade
Student, Illinois State Normal University, 1891-92, 1894-95; Student, Art Institute, special classes, 1896-97; Student, Teachers College, Columbia University, summer, 1907, year, 1920-21; New School for Social Research (evenings), 1920-21; Boston Clay Club (Saturdays), winter, 1917.

HIGH SCHOOL

- Donald Allen Rothschild, Ph.D.....Principal
A.B., 1924, A.M., University of Illinois, 1927; Ph.D., State University of Iowa, 1932.
- Lena Boyd Ellington, A.M.....History
A.B., Mississippi State College for Women, 1906; A.M., Teachers College, Columbia University, 1914; Graduate study, The University of Chicago, summers, 1912, 1920, 1925, 1933; University of California, summer, 1928.
- Edith E. Ragan.....English
Three-year English diploma, Indiana State Normal School, Terre Haute, 1900; Extension student, The University of Chicago, 1904-8; Student, Teachers College, Columbia University, summer, 1915.
- Ica Marks, M.S.....Biological Science
B.Ed., Eastern Illinois State Teachers College, 1927; M.S., Ohio State University, 1929; Graduate study, State University of Iowa, 1929-30.

- Ruth Carman, A.M.....Latin
Diploma, Eastern Illinois State Normal School, 1910;
Ph.B., University of Wisconsin, 1913; Graduate study,
University of California, summer, 1922; A.M., Uni-
versity of Illinois, 1925; Summer session, American
Academy in Rome, 1927; Graduate study, University
of Colorado, summer, 1928; Virgil Cruise, summer,
1930.
- Ruth E. Wilkin, A.M.....English
A.B., James Millikin University, 1918; Applied Arts Sum-
mer School, summers, 1922, 1923; A.M., University of
Illinois, 1927; Columbia University Extension Course
in Technique of Short Story, 1933-34.
- Gertrude Hendrix, M.S.....Mathematics
A.B., DePauw University, 1926; M.S. (Education), 1930;
A.M. (Mathematics), University of Illinois (expected
June) 1935. (on leave for study, 1934-35.)

SUPERVISORS

- Ruth Major, B.S.....Music
B.S. in music and diploma in voice, Kansas State Teach-
ers College, Emporia, 1918; Graduate study, Teachers
College, Columbia University, 1922-23; Graduate study,
Eastman School of Music, summers, 1931, 1932, 1933,
1934; A.M., Eastman School of Music, University of
Rochester (expected June) 1935.
- Rose Zeller, A.M.....Geography
B.Ed., Illinois State Normal University, 1926; A.M.,
Clark University, 1930; Additional graduate study,
Clark University, second semester, 1930.
- Alice McKinney, B.Ed.....Art
Student, John B. Stetson University, 1904-5; B.Ed., East-
ern Illinois State Teachers College, 1929; Student,
Chautauqua Summer School, 1928; Student, Woodbury
School of Art and Massachusetts Art School, Boston,
1930-31; A.M., Teachers College, Columbia University
(expected June) 1935. (on leave for study 1934-35.)
- James Marcus Hobbs, A.M.....Art
B.Ed., Northern Illinois State Teachers College, 1932;
A.M., Teachers College, Columbia University, 1933.
(substitute instructor 1934-35.)
- Ralph Waldo Cordier, Ph.D.....History
A.B., Manchester College, 1925; M.A., 1929, Ph.D., Ohio
State University, 1933.

OFFICE

Clara Edith Willson.....	Stenographer
Anita Rohr Field.....	Stenographer
Lola Avalon Eberly, A.B.....	Stenographer

² Resigned April 24, 1935.

PART I

GENERAL INFORMATION

Main Building

EASTERN ILLINOIS STATE TEACHERS COLLEGE

LOCATION

Charleston is a city of eight thousand population.

Charleston is on the New York Central (Big Four) Railroad running between St. Louis and Indianapolis, and on the Nickel Plate Railroad running between St. Louis and Toledo. The main line of the Illinois Central Railroad, extending south from Chicago, passes through Mattoon, twelve miles to the west of Charleston.

Charleston is on U.S. Route 40A running across Illinois through Litchfield, Hillsboro, Pana, Shelbyville, Mattoon, Charleston, and Paris, and eastward to Terre Haute, Indiana. Illinois Route 130 begins at Charleston and extends south through Greenup, Newton, and Olney to Albion, Illinois.

The Eastern Stages Bus Line runs east-west through Charleston, and a local bus-line connects west with Mattoon and Decatur, and east with Paris and Terre Haute.

Distances in miles from Charleston by paved highway:

Chicago	190	Flora	68
St. Louis.....	145	Lawrenceville	80
Terre Haute	51	Danville	63
Decatur	53	Vandalia	72
Champaign-Urbana	58	Olney	59
Salem	86	Pana	54

HISTORY

To provide more adequate facilities for the training of teachers for the public schools of the state the General Assembly of Illinois, by an act approved May 22, 1895, established the Eastern Illinois State Normal School. This by an act of 1921 became the "Eastern Illinois State Teachers College at Charleston." On September 7, 1895, the five trustees provided for in the act selected a beautiful forty-acre tract of land three-quarters of a mile south of the public square of Charleston. The citizens of Charleston bought the land and presented it to the state. The building was erected at a cost of \$180,000. The grounds are shaded by many fine old trees.

December 2, 1895, the contract was made for the erection of the building. The cornerstone was laid on the afternoon of May 27, 1896. The building and grounds were dedicated August 29, 1899, and on September 12, 1899, the institution was opened to students.

During the summer of 1901, a six weeks session was offered for teachers. From 1920 to 1932, the college offered a twelve weeks summer quarter. A mid-spring session of six weeks was offered from 1922 to 1929.

In 1907 the General Assembly appropriated one hundred thousand dollars for a woman's building. This building was completed and occupied in January, 1909. It has proved to be a distinct addition to the cultural value of the institution. In addition to providing a beautiful home for ninety-one young women during their residence in Charleston, it has had a marked influence in establishing good standards of living, and has come to be the social center of college life.

In 1911 the General Assembly appropriated seventy-five thousand dollars for a training school building which was completed in 1913 with the exception of the assembly room which it still lacks.

In 1907 the power of conferring degrees was granted to the institution by the General Assembly. Courses leading to the degree of Bachelor of Education (B. Ed.) were announced in 1920.

In 1925 the General Assembly appropriated one hundred seventy thousand dollars for a Practical Arts Building. This building, completed in 1929, is used for home economics (Smith-Hughes) and for industrial arts.

In 1931 a seventy-two acre tract of land was added to the campus through an appropriation of \$21,600 made by the Fifty-seventh General Assembly.

During the first year there were nineteen members of the faculty and two hundred and forty students. At the end of the first year, June, 1900, four students were granted the diploma of the school upon completion of the course of study. In 1934 seventy-nine students were graduated from the Junior College and seventy-four students from the Senior College.

PURPOSE

The function of the state in education extends of necessity to the training of teachers. A rational system of public education implies provision for securing efficiency in the teaching office. State teachers colleges are the natural outgrowth of a policy of

public education. The state is the only agency competent to meet the demands for qualified teachers imposed by its own attitude toward the instruction of its people. The object of a state teachers college is not to extend the earning power of one class of persons at the public charge. It is to give a culture and learning dedicated in a special way to the general welfare. It exists primarily not for the benefit of its students but for the benefit of the whole people. Such a conception is fundamental and determines questions of organization, courses of study, and methods of instruction in the state teachers colleges.

EQUIPMENT

GROUNDS.—The grounds comprise forty acres, including the campus proper, the forest plantation, and the athletic field. These grounds, laid out by Mr. Walter Griffin, one of the most skillful landscape gardeners in the country, are justly considered exceptionally beautiful. A natural grove and other fine trees, a pond, a wide stretch of green, many borders of shrubbery and perennials in the natural style present a succession of pictures throughout the year. In the main grounds are the tennis courts, the children's playgrounds, the athletic field for girls, and the school garden. The forest plantation, planted during the early years of the institution, now includes several acres of thrifty trees, much used in botanical and zoölogical studies. In the adjoining athletic field, one of the best among those of the small colleges of the state, are the baseball diamond, the football field, and the quarter-mile cinder track.

A seventy-two acre tract of land with a house on it was added to the campus in 1931 through an appropriation of \$21,600 made by the 57th General Assembly. It is used for athletics and physical education. This house is used as a dormitory by a group of men students.

MAIN BUILDING.—The main building is a three-story structure, three hundred twenty-three feet in length, built of rough Bedford stone. It is in the Norman style, with a tower which is the neighborhood landmark. In this building are offices, the library, the assembly room, music and art rooms, classrooms, and laboratories.

TRAINING SCHOOL BUILDING.—The training school building of smooth Bedford stone was completed in 1913 at a cost of seventy-five thousand dollars. It is placed conveniently near the main building. It provides a double classroom for each grade, contains a children's library, laboratory rooms for art and the social studies, and an office for the Director of Teacher Training and the Bureau of Teacher Placement.

PEMBERTON HALL.—The legislature of 1907 appropriated one hundred thousand dollars for a woman's building and gymnasium—the first appropriation for a woman's building ever made in the state of Illinois. A fine stone structure was finished and occupied January 4, 1909. The building has met the hopes of its ardent advocates, and its value as a social center in the college and in setting good standards of living is well established.

PRACTICAL ARTS BUILDING.—The Practical Arts Building, completed in 1929, at a cost of \$135,000 for the building and \$40,000 for new equipment, furnishes facilities for students who wish to specialize in industrial arts and home economics for grade and high-school positions and for the preparation of teachers in these subjects for the Smith-Hughes Vocational Schools. There is floor space of approximately 27,500 square feet in the building. The first floor occupies 12,700 square feet, the second floor 7,400 square feet, and the basement a similar amount. Shops are provided for practice in hand and machine woodwork, metal machine shops and automobile repair, sheet metal work, general metal, electrical construction and installation, printing, and mechanical drawing. These shops are well lighted and are on the first floor of the building. The basement is divided into classrooms, storage rooms, and locker rooms.

The home economics department occupies the entire second floor of this building. Here are food laboratories, sewing rooms, fitting rooms, a lecture room, a dining room, a unit kitchen, a foods classroom, offices, and reception room, all arranged for convenience and efficiency in teaching.

MUSIC BUILDING.—A three-room stucco building, south of the power house, formerly used for Industrial Arts, is now used for the band and orchestra. Lessons are given here in band and orchestra instruments.

LIBRARY.—The library contains over 41,211 books and pamphlets. The reference books, bound periodicals, and reserve books are shelved in the two reading rooms. Here are also found the current numbers of *almost two hundred* periodicals, including many devoted to special subjects. The books for general circulation are kept in the stack room. A children's library occupies a commodious room at the north end of the third floor of the training school building. A specially trained children's librarian is in charge full-time. For grades lower than the seventh, school-room libraries are provided. The library has a dictionary card catalogue and the books are classified according to the Dewey decimal system. There is a large collection of classified pictures for use in all departments. Four trained librarians are in charge, giving necessary aid and instruction to students in the

Training School

use of books. Lessons in the use of the library are required in all curricula as explained in the Description of Courses.

SCHOOL GARDEN AND GREENHOUSE.—An opportunity is given for seeing the work done by pupils of the Training School in elementary agriculture. Small plots of ground are planted and cared for by the pupils under the direction of the Superintendent of Grounds and the teachers of the Training School.

A four-room greenhouse contains many plants of unusual interest and serves as an adjunct to the botanical laboratories.

Additional facilities for field observation and for obtaining laboratory materials are offered by a small lake and a forest plantation of six thousand trees within five minutes' walk of the biological laboratories.

LABORATORIES.—The botanical laboratories are well equipped for the training of high-school teachers. The laboratory tables are so equipped that each student has a light at his desk. The plant collections include numerous specimens of all kinds of plants so that each student may have his own material for study and may become well acquainted with plants.

The mechanical equipment consists of over four thousand microscopic slides; compound microscopes of modern construction; good projection lanterns with several hundred lantern slides of plants and their structures; numerous pieces of apparatus for the demonstration of the physiological processes occurring in plants; and microtomes for the cutting of sections of plant tissues for the preparation of microscopic slides.

The zoölogy and physiology laboratory has sufficient equipment so that forty-four students may work at the same time, each being supplied with a compound microscope, a simple microscope, and other equipment necessary for examining specimens. There are many preserved specimens of both local and foreign fauna, including marine animals. The accession numbers of these now run over 16,000. Most of these are preserved in formalin and alcohol, but there are nearly two hundred mounted birds and mammals and over three hundred skins of these types of animals. There are also many shells, corals, mounted insects, and other dried specimens. There are facilities for keeping live animals and fish. Many models and skeletons are used and about sixty-five of the best charts obtainable. Over twenty-five hundred lantern slides are available for illustrative purposes.

The chemistry laboratory is equipped with the apparatus needed for demonstration and for laboratory experiments. The tables give places for thirty-two students to work. An ample supply of analytic balances is provided.

The physics laboratory is equipped for experiments in all subjects of physics. It is wired for electrical work. Wall galvanometers are provided for electrical measurements. Gas, water, and compressed air are available. A dark room is included for photometry and various studies in light. The equipment provides for both demonstration and laboratory work.

EXPENSES

Tuition is free to college students of Illinois who agree to teach in the public schools of the state for a period equal to the time spent in this school. Others in the college who do not take the required course leading toward a teachers' certificate, a diploma, or a degree must pay tuition of \$25.00 a quarter. Freshmen or sophomore students not registered for required physical education will be regarded as tuition students.

Students who have been dropped by, or who are on probation from, other colleges, desiring to enroll heré, must pay the tuition fee of \$25.00 a quarter, until satisfactory work for one quarter has been completed.

Students who are on probation for poor scholarship here for a period of two quarters must pay the tuition fee of \$25.00 if they wish to continue their work, and until one quarter of satisfactory work has been completed.

At Pemberton Hall, rooms, including heat and light, vary from \$1.75 to \$2.50 per week, with privileges of laundry, payable monthly in advance. For table board, \$4.25 a week is charged, payable monthly in advance (\$17.00 at the beginning of each month).

Fees for each quarter (12 weeks) are \$17.50, distributed as follows:

Registration	\$ 5.00
General Activity Fund.....	6.00
Library Fee	1.50
Materials Fee	1.50
Locker and Gymnasium Fee.....	1.00

\$15.00

Book Rental fee (as described on page 31)..... 2.50

Total \$17.50

There is no refund of fees in case a student withdraws his registration after the first week of the quarter. Application for this refund must be received by the Registrar by Saturday noon of the first week of the quarter.

Fees for materials used are paid in courses in art, home economics, and industrial arts except in theory courses. Completed projects are the property of the student. Fees are paid for breakage and lost equipment in laboratory science courses.

COLLEGE BOOKSTORE AND BOOK RENTAL FEE

The Eastern Illinois State Teachers College is unique in its plan of providing adequate textbooks for all classes. The college owns and operates a bookstore on a flat rental basis. At registration each college student pays a book rental fee of \$2.50, and is furnished all the textbooks needed in the courses for which he is registered. Laboratory manuals and special notebooks are secured by the student at additional cost as needed. All textbooks must be returned in satisfactory condition by a specified time at the end of each quarter or else a fine of one dollar is incurred. Books lost or damaged other than by ordinary wear must be paid for before the student's grades for that quarter are officially released. Students noting damage or markings in textbooks issued to them must report such conditions to the bookstore within the first week of the quarter or else be held liable for such damage.

Holders of Lindly Scholarships, received at the time of graduation from the eighth grade, do not pay the registration fee (\$5.00). Regular quarterly fees for valid Lindly Scholarship students are \$10.00 plus the required book rental fee of \$2.50.

The student must present the Lindly Scholarship at the time the fees are paid in order to be exempt from the payment of the registration fee.

PENALTIES

An additional fee of \$1.00 is charged if a student fails to complete his registration on the day appointed for registration as announced in this catalogue. An additional fee of \$1.00 is charged if a change in program is made after the third day of the quarter.

An additional fee of \$1.00 is charged if the student's record at the textbook library is not clear at the close of each quarter.

The original transcript of a student's record with one carbon copy will be mailed upon request without cost to the student; but a charge of \$1.00 is made for additional copies of this transcript sent later.

PLEDGE

"In consideration of free tuition in the Eastern Illinois State Teachers College, I pledge to teach in the public schools of Illinois for a period equal to that covered by my attendance at the Eastern Illinois State Teachers College; and I agree to report annually to the president of the college the number of months taught in Illinois until this pledge is fulfilled. If I do not teach the required time in the public schools of Illinois within five years after leaving college, I promise to pay to the Eastern Illinois State Teachers College at the end of that period tuition at the rate of \$25.00 for each quarter (twelve weeks)."

BOARD AND ROOM

Board and room can be obtained in private families for from \$5.00 to \$6.50 a week. Room without board can be obtained for from \$1.50 to \$2.25 a week for each student (two students sharing the room).

At Pemberton Hall, rooms for women, including heat and light, with privileges of laundry, vary from \$1.75 to \$2.50 per week, payable monthly in advance. For table board, \$4.25 a week is charged, payable monthly in advance (\$17.00 at the beginning of each month).

A deposit of \$5.00 is required for a reservation at Pemberton Hall. Reservation is filed at the hall when deposit is received and credited at the business office. Application blanks will be sent at the request of students.

The deposit is credited to the student as part of the first month's payment, but forfeited if the student cancels the reservation too late to have it used by someone else.

The college maintains a Housing Bureau in order to assist students in finding the best rooms obtainable. Householders who have rooms to rent to students are registered with the bureau; the rooms are inspected and when approved are put on the list of available rooms. Students may obtain this list by writing to the Housing Bureau or may come for consultation on arrival at the college. Approved rooming houses display cards with such announcement.

The Dean of Men is in charge of the approved list of rooms for men, and the Dean of Women is in charge of the list for women.

SCHOLARSHIPS

ARMY AND NAVY SCHOLARSHIPS.—Men who served in the United States Army or Navy in the Great War and who were

residents of Illinois at the time of entering the service are exempt from the payment of tuition and registration fee.

LINDLY SCHOLARSHIPS.—"In order to equalize the advantages of the State Normal Schools" encourage attendance and thereby increase their usefulness, the state legislature passed the Lindly Bill in 1905. This act provides that "there shall be awarded annually to each school township or fractional township a scholarship which shall entitle the holder thereof to gratuitous instruction in any State Normal School for a period of four years."

The law provides also that "The county superintendent shall receive and register the names of all applicants for such scholarships, and shall hold an examination, or cause an examination to be held, in each township, for the benefit of graduates of the eighth grade."

Holders of Lindly Scholarships do not pay the registration fee (\$5.00).

THE FLORENCE VANE SKEFFINGTON SCHOLARSHIP.—In memory of Florence Vane Skeffington, whose rare abilities and personality gave character to the English work of this school for seventeen years, the Florence Vane Skeffington Scholarship is awarded annually at Commencement to a student whose gifts and attainments promise distinction in the teaching of English.

The award for 1934-35 was given to Miss Margaret Brandon, a senior in the English curriculum.

THE LIVINGSTON C. LORD MEMORIAL FUND.—The Alumni Association of the Teachers College has established a scholarship fund in memory of Livingston C. Lord, President of the College, 1899-1933.

This scholarship is awarded annually at Commencement from the interest on the fund to a junior or senior student whose character, scholarship, and skill in teaching promise service of distinction in the field of education. The first award for 1934-35 was made to William Byron Bails.

LOAN FUNDS

THE STUDENT LOAN FUND.—The Student Loan Fund of the Eastern Illinois State Teachers College makes it possible for a deserving student in the second half of the course to borrow, at a low rate of interest on a personal note, a sum of money that will help him to remain in college and complete the course. A grade point average of 1.5 (half way between C and B) is required. Students find such temporary assistance of great advantage. The foundation of this fund was secured from admission

fees to the Senior Class play and to the Training School entertainment, given during commencement week.

Under the will of the late Dr. W. D. Morgan, of Charleston, there is given to the Student Loan Fund the annual income from about six thousand dollars, which is one-seventh of the estate. An additional amount will be received at the death of certain heirs.

THE ADELIA CAROTHERS FUND.—A fund known as "The Adelia Carothers Fund" has been established by Mrs. Ida Carothers Merriam and Mr. Charles G. Carothers in memory of their mother. This fund is to be loaned to young women students of high character and scholarship during the last half of their course. The student to whom this loan is made is distinctly honored.

STUDENT ACTIVITIES

ENTERTAINMENT COURSE.—For many years the college has maintained an entertainment course in order to bring to the college interesting and worthy entertainments in music, drama, dance, and lecture. The course is supported by the student activities fee and by the sale of single admissions. On registration day of each quarter every student is given a Recreation Ticket which entitles him to admission to all numbers on the course without charge. The committee in charge of the course is composed of four faculty members, appointed by the president, and four student members—one representing each of the four college classes.

Under the auspices of this course such notable attractions as the following have been brought to the college: United States Marine Band, Minneapolis Symphony Orchestra, St. Louis Symphony Orchestra, Russian Symphonic Choir, Paris Instrumental Quintet, Ben Greet Players, Tony Sarg Marionettes, Kreutzberg Dancers, Carl Sandburg, Stuart Chase.

The entertainment course for the year 1934-35 presented the following numbers:

Madame Borgny Hammer and her dramatic company in three plays by Henrik Ibsen — Ghosts, The Master Builder, and Hedda Gabler.

Angna Enters—dance mime.

Alberto Salvi—harpist.

Stephen Leacock—humorist.

Ted Shawn and his Men Dancers.

The entertainment course also sponsored the appearance of The Old Globe Theatre Company in two Shakespeare plays—*Macbeth* and *Midsummer Night's Dream*.

DRAMATICS.—A Director of Dramatics supervises all dramatic work for public presentation. Under the plan adopted, the college organization with elected student officers is called "The Players." This organization studies the drama as it appears on the modern stage and experiments with the production of plays. Try-outs for the major productions for public performance are open to all students of the college. Other programs are presented during the year if suitable talent is available.

The ends in view under this plan are as follows:

1. To make possible the development of dramatic talent through a period of years rather than through the period of rehearsal for one play.
2. To attempt to maintain as nearly uniform standards as possible and to build up higher aims as progress is noted.
3. To encourage familiar acquaintance with the artists of the theatre of all times.
4. To establish a fund for permanent equipment.

THE TEACHERS COLLEGE NEWS.—An eight-page weekly, "The Teachers College News," published by a board of student editors with a faculty adviser, is issued on Tuesdays. It is supported by the student activities fee. In addition to announcements, reports of games, local news, and alumni notes, it contains editorials of high value in influencing college spirit as well as student spirit. Some class work of merit appears occasionally in this paper. It deserves the support of students, teachers, and alumni.

The Teachers College News is a member of the Columbia, National, and Illinois Colleges press associations. It is also affiliated with the *Collegiate Digest*. In recent years the school paper has won high awards in contests conducted by these organizations.

The class of 1924 left, as a class memorial, equipment for a room devoted to the uses of "The News" and the "Warbler."

RECREATION.—A student recreation committee has charge of student social affairs. This committee is charged with the responsibility for arranging the social calendar, maintaining a balanced social program, and exercising general supervision over social activities. This committee consists of the Dean of Men, the Dean of Women, the presidents of the Student Council, the Women's League, and the Men's Union, with a faculty member appointed by the president of the college as chairman.

Class affairs are under the supervision of the faculty advisers of each class. Student groups are encouraged to have parties Friday and Saturday evenings in the gymnasium. The natural beauty of the country near Charleston makes picnics one of the favorite diversions of the spring and fall quarters. All student social activities are chaperoned by members of the faculty.

MATHEMATICS CLUB.—The Mathematics Club was organized in the fall quarter of 1927-28 to further interest in that field of knowledge and to make it possible for students to discuss some of the phases of mathematics which are not included in regular classes. Anyone who is interested and has had one year of algebra and one of geometry is eligible to membership. The club conducts an annual ciphering contest at which prizes are given. The club has a membership of about fifty students and teachers.

KAPPA MU EPSILON.—A chapter of the national honorary mathematical fraternity, Kappa Mu Epsilon, was installed on April 11, 1935. This is an undergraduate fraternity and has for its object the promotion of interest and scholarship in mathematics. The fraternity will be closely allied to, and will co-operate with, the Mathematics Club.

E. I. VARSITY CLUB.—The E. I. Varsity Club was organized in the fall quarter, 1927, by the letter men of the college for the purpose of promoting in all possible ways the betterment of athletics at E. I. Meetings are called by the president. Any student in the college who has earned an E. I. monogram is eligible to belong to the club as an active member and any student who has earned the E. I. monogram, but is not in college, is eligible to join the club as an associate member. All members must first be initiated into the club before becoming regular members. The initiation for new members is held during the spring quarter of each school year.

WOMEN'S ATHLETIC ASSOCIATION.—The Women's Athletic Association was organized in the spring of 1932 by the women of the college. Its motto is: "A girl for every sport and a sport for every girl." Any student in the college who has passed a satisfactory physical examination is eligible to membership in the association. The initiation for new members is held at the beginning of each quarter. A woman may join as many clubs as her time permits. Clubs have been formed in archery, basketball, fencing, hiking, hockey, rifle, tennis, and volley ball. Very definite requirements must be met in a sport as well as in scholarship to earn the college or club insignia. Letters are awarded at the annual banquet of the association in the spring quarter.

THE FORUM.—The Forum is a discussion group of students and faculty members who are especially interested in current economic, political and social problems. Meetings are held bi-weekly throughout the college year; active membership is limited to those who have prepared and presented a paper of merit on some related topic.

FIDELIS.—Fidelis was organized five years ago on the premise that E. I. needed a men's club to participate in social and extra-curricular activity. It has maintained that constitutional declaration since that time. The club holds two pledge services and banquets each year, participates in Homecoming activities, and sponsors an annual Spring Formal. No dues are demanded of members and activities are financed by means of moderate assessment. Bi-weekly meetings are held throughout the school year in the main building.

PHI SIGMA EPSILON.—Delta Chapter of Phi Sigma Epsilon, a national fraternity for Teachers Colleges, was installed on March 4, 1930. The membership numbers about twenty-five. The purpose of the organization is to maintain a high standard of scholarship, to promote social activities, and to cooperate in every way possible for the welfare of the college. The fraternity social calendar includes a number of dances, teas, and smokers held at the Chapter House, 1014 Seventh Street.

KAPPA DELTA PI.—Beta Psi Chapter of Kappa Delta Pi, an international honor society in education, was installed on January 2, 1931. Kappa Delta Pi, founded at the University of Illinois in 1911 under the leadership of William Chandler Bagley, has chapters in ninety-one colleges and universities. Students are elected to membership primarily upon the basis of high scholarship, good character, and promise of success in teaching. Election to membership in this organization is one of the highest honors that can be bestowed upon a student.

LE CERCLE FRANCAIS.—Le Cercle Francais was organized November 6, 1930. Membership is open to students who have had two or more years of high-school French or two quarters of college French.

The purpose of the club is to promote the interests of French in the school, to improve the conversational ability of the students, and to add to their information concerning French customs, life, and literature.

Meetings are held on alternate Thursday evenings. The programs include papers prepared by the students, short plays given in French, and French games and songs.

SCIENCE CLUB.—The Science Club was organized in the fall quarter, 1930, by students in the botany, zoölogy, physics, chem-

istry, and geography departments in order that all may know something of the work in other scientific fields. Papers are presented and time is allowed for questions and for discussion. The membership is not limited to these departments. Anyone interested in science may belong. Meetings are held bi-monthly throughout the year.

SIGMA TAU DELTA AND THE WRITERS CLUB.—The Writers Club was organized in 1930-31 for students interested in writing; this is a local club. The Upsilon Gamma Chapter of Sigma Tau Delta, a national professional English fraternity, was installed February 15, 1932. Sigma Tau Delta, founded at Dakota Wesleyan University in 1924, has active chapters in seventy-three colleges and universities. Hamlin Garland and Lew Sarrett are among the prominent writers who are members of Sigma Tau Delta. Only honor students in English in the Senior College may become active members of the chapter whose membership is limited by national constitution; but associate and local members are chosen from any candidates who show marked ability in written expression.

The Writers Club and Sigma Tau Delta meet together and function as one club. Members are admitted on the basis of manuscripts submitted in try-outs announced in the fall and spring quarters.

SIGMA DELTA.—This is a local journalistic club. Meetings are held bi-weekly. The organization is interested in stimulation of student opinion through the columns of *The Teachers College News*. Membership is elective and is limited to those on the *News* staff who have displayed an active and constructive interest in student problems.

HOME ECONOMICS CLUB.—The Home Economics Club was organized in the fall of 1932-33 and was affiliated with the State and National Home Economics Associations. Anyone whose major subject is home economics is eligible to membership. The aims of this organization are to stimulate interest in home economics, to give more opportunity for leadership, and to become acquainted with persons prominent in the field of home economics.

INDUSTRIAL ARTS CLUB.—The Industrial Arts Club was organized in the fall of 1932. Its purpose is the professional and social advancement of its members. All men whose major subject is Industrial Arts are eligible to membership. The club meets once a month, usually the first Monday of the month.

EPSILON PI TAU.—The Iota Chapter of Epsilon Pi Tau, a national honorary Industrial Arts fraternity, was established in May, 1933, with twelve charter members. Students with high

personal qualifications and good scholarship are admitted to membership. At least one initiation a year is held. Monthly meetings are held. Active membership in the Industrial Arts Club is considered one of the qualifications for admission to Epsilon Pi Tau.

THE ILLINOIS TENTH DISTRICT ROUND TABLE.—This organization consists of the industrial arts teachers from surrounding towns, who meet in the Practical Arts Building four times a year. Speakers are selected for each meeting and topics of professional interest to industrial arts teachers are discussed. Industrial arts students are invited to attend these meetings.

THE NEW VOTERS' LEAGUE.—This group of college women was organized in 1932 to discuss present political and social trends. Besides discussion meetings, definite projects are worked out. This year one project was the beautifying of highways in this vicinity. Trips have also been made to Springfield to visit the capitol.

Membership is limited to twenty-five members and is by invitation. Meetings are held once each month.

THE COUNTRY LIFE CLUB.—The Country Life Club was organized in the fall of 1934 to bring students from rural areas together into a fraternal group for fellowship and study of problems relative to the welfare of country people. The club sponsors two important all-college functions, one in the fall and one in the spring, and meets regularly throughout the year on the first and third Wednesdays of each month. It is affiliated with the Youth Section of the American Country Life Association with headquarters at 105 East 22nd Street, New York City.

THE COLLEGE MUSIC CLUB.—The College Music Club, organized in the spring of 1935, is intended for students and faculty members who are interested in music. Associate membership is granted to others who, though outside the college, manifest an interest in the subject. All members are required to pay a small membership fee.

Bi-monthly meetings are held, at which the programs consist chiefly of discussion of different phases of music as taught in the public schools, in colleges, and in conservatories. Although the club is young, the members, students and faculty alike, are enthusiastic for its future.

GEOGRAPHY CLUB.—The Geography Club, organized in the year 1933-34, meets on alternate Wednesday evenings to discuss topics of interest to students of geography for which there is no place in regular class work and to keep in touch with current topics and events which have geographical significance.

THE MEN'S UNION.—All men students of the college, upon registration, automatically become members of the Union, which was organized in the year 1930-31. Membership entitles the holder to attendance at and voting in all business meetings, and attendance at any social function sponsored by the Union. After graduation a member is entitled to an alumni membership which gives him privilege of attendance at all social functions, and any other privileges granted by the Union.

The purposes of the Union are to create a feeling of unity among the men of the college, and to promote all activities which concern them.

The officers of the Union are the president, elected by the entire organization in a general election, and the executive board consisting of eight men of the college. The four class presidents are members of the board and the men of each class elect one member of their class to represent them on the board.

THE WOMEN'S LEAGUE.—Every woman upon matriculation in the college becomes automatically a member of the Women's League, which was organized in the year 1930-31. Membership in the League entitles the holder to attendance at and voting in all business meetings and attendance at any social functions sponsored by the League.

The object of the League is to promote solidarity among the women of the college by uniting them for social purposes and for constructive effort.

The governing power of the League is vested in an executive council of nine members known as the "Council of Nine." The president is elected from the League at large and may be from any class. Each class elects two of its members to represent them in the council.

STUDENT PUBLICATIONS.—Student publications are in charge of a committee consisting of the president of the Student Council, the advisers and editors of the "Warbler" and of the "College News" with a faculty member appointed by the president of the college as chairman.

ATHLETICS.—All athletic activities are conducted by the Athletic Council. This council is composed of two members of the faculty, appointed by the president; two students, elected by the students; and the athletic coach. An athletic fee is charged each college student as part of the student activities fee. It entitles the student to free admission to all athletic contests in which Teachers College or High School teams take part on the home grounds, and also a vote for the student representative on the

Athletic Council. The Teachers College and the High School have separate teams and play independent schedules. The Eastern Illinois State Teachers College is a member of the Illinois Intercollegiate Athletic Conference, and the High School is a member of the Illinois High School Athletic Association.

ATTENDANCE AT CHURCH.—Each student is expected to attend regularly the church of his choice, or that which meets the approval of his parents. The pastors and members of the different churches have made the students at home in the churches and Sunday schools. The Teachers College encourages the students to form and sustain intimate relations with the churches.

THE STUDENT COUNCIL.—The Student Council was organized in the spring quarter of the year 1919-20 as a means of communication between the faculty and students and a way by which the students may aid in school discipline and in the general control of college affairs.

The Council consists of seventeen members: four from the senior class, three from the junior class, two from the sophomore class, and two from the freshman class. The other six ex-officio members are the four class presidents and the presidents of the Women's League and the Men's Union. The term of office is one year. Elections take place in the respective classes at the last class meeting in the spring quarter, at which the president for the following year is elected. The constitution provides for a president, vice-president, secretary, treasurer, and historian.

The student board of control, established in the spring quarter of the year 1925-26 was merged with the Student Council in the fall quarter, 1928-29.

REGULATIONS FOR STUDENT ACTIVITIES

1. No extra-curricular organization, club, sorority, or fraternity may be organized without recognition by the faculty committee on student activities.

2. All organizations must file a copy of their constitution and by-laws with the faculty committee.

3. Any organization whose activities are suspended by the president of the school must apply to the faculty committee for reinstatement.

4. No organization may have a business or social meeting or a rehearsal on the campus without a faculty adviser present.

5. No student may hold more than one of the following offices in student organizations:

Class president,
Editor of the Warbler or News,
Business Manager of the Warbler or News,
President of a fraternity,
Treasurer of any student organization.

A student elected to one of these major offices in student organizations may not hold more than one other office in class or other student activity.

All officers must maintain the academic standing required for admission to student teaching.

All organizations must file a list of all officers, as soon as they are elected, with the chairman of the faculty committee.

6. Any student falling below the academic standing required of athletes may be asked to withdraw from any organization.

ALUMNI CLUB

The Charleston Club of Chicago is an organization of former students. This club meets occasionally in a very pleasant way, and all former students or teachers, living in or near Chicago, will be notified of these meetings if they send their names to the president, Miss Emily R. Orcutt, Scoville Apartments, Oak Park, Illinois.

THE ALUMNI ASSOCIATION

The Saturday preceding Commencement is Alumni Day with morning chapel at nine o'clock.

The officers for 1934 to 1935 are: Mr. Luther Black, '31, President and Chairman of the Executive Committee; Miss Antha Endsley, '12, Vice-President; Miss Ruth Carman, '10, Secretary and Treasurer.

Executive Committee

Mr. Ferdinand Homann, '09 (term expires in 1935).
Mrs. Genelle Voigt Jackson, '29 (term expires in 1935).
Miss Grace Geddes, '06 (term expires in 1936).
Mr. Bruce Corzine, '13 (term expires in 1936).
Mr. William Peters, '31 (term expires in 1937).
Dr. Ciney Rich, '12 (term expires in 1937).

THE BUREAU OF TEACHER PLACEMENT

The purpose of the Bureau of Teacher Placement is to serve the public school officials of Illinois by assisting them in securing well-qualified teachers. Its purpose is also to assist any student or former student of the college in securing a teaching position provided his record merits such recommendation.

It is the aim of the Bureau of Teacher Placement to furnish the prospective employer information which is of interest to him in considering our applicants. This information is in pamphlet form and consists of the applicant's photograph, personal data, scholastic record, student-teaching record, high-school record, experience record, extra-curricular activity record, and home community references.

The bureau maintains a follow-up service by reports from supervising officers through which it keeps in touch with graduates who have been placed in teaching positions.

The services of the bureau are free to students enrolled in the college. Alumni who wish to register with the bureau are charged a \$1.00 registration fee.

THE CERTIFICATING LAW

I. The completion of the freshman year in any curriculum admits the student to examination for a limited elementary certificate.

II. The completion of the two-year grade curriculum gives a limited elementary certificate.

III. The completion of the first two years in any curriculum gives a limited elementary certificate provided the student's credits include two quarters of work each in practice teaching, history (or social science), and mathematics (or natural science).

IV. Graduation with the degree gives a high-school certificate.

If the student has taught successfully for four years he may have also a supervisory certificate.

NOTE: For certification and for graduation the Eastern Illinois State Teachers College requires that not more than one-fourth of the student's grades shall be D. No student will be recommended for a teachers certificate until the required work in physical education is successfully completed.

PART II
INSTRUCTION

ORGANIZATION

The Eastern Illinois State Teachers College is a Teachers College in the American Association of Teachers Colleges. It is an accredited college in the North Central Association of Colleges and Secondary Schools, and recognized as an institution whose degree admits to full graduate standing in a university.

The Training School includes an accredited four-year high school (grades IX-XII) and an accredited elementary training school (grades I-VIII).

DIVISION OF THE YEAR

The regular college year consists of three quarters of twelve weeks each. Saturday is taken as the weekly holiday.

A summer quarter of twelve weeks was offered 1920-32. A six weeks term was offered in the summers of 1933 and 1934. The eight weeks' summer term of 1935 begins on June 10 and closes on August 2.

The subjects offered are designed to meet the needs of:

1. Teachers of experience who wish to advance their professional or academic knowledge.
2. Supervisors and departmental teachers.
3. Those who are preparing to teach in schools that follow the Illinois Course of Study.
4. Those who wish to take regular work with a view to graduation from the Junior College with a diploma or from the College with a degree.

REGISTRATION

Upper Classmen: All upper classmen, sophomores, juniors, and seniors, are expected to register on Saturday, September 7, 1935. All such students except those taking practice teaching are excused on Monday, September 9, and Tuesday, September 10, while the freshmen are being registered. Classwork for all students starts at 8 o'clock on Wednesday morning.

Any upper classman who registers later than Saturday, September 7, will be required to pay a late registration fee of one dollar.

New Students' Orientation Program: In the fall quarter of 1935-36 a program of orientation for all freshmen and transfer students will be introduced.

All new students are requested to meet in the college auditorium at nine o'clock on Monday morning, September 9, 1935.

At that time detailed plans for both Monday and Tuesday, September 9 and 10, will be announced. Since students will be given specific suggestions for registering when they assemble for the conference at nine o'clock on Monday, it is essential that every new student be present. Any student who registers later than Monday will be required to pay a late registration fee of one dollar. Tuesday will be devoted to testing, and students are expected to have their registration completed before testing begins.

Several interesting social affairs that will enable students to become acquainted with their fellow students and with the faculty are being planned for both Monday and Tuesday.

ADMISSION REQUIREMENTS

1. *To the Senior College:* Graduation from the two-year curriculum of a recognized Teachers College or of the Junior College of a recognized college or university.

2. *To the Junior College:* Graduation from a recognized or accredited four-year high school.

3. *To the High School:* Graduation from the eighth grade admits a student to the ninth year which is the first year of the high school. High-school students enter the year which the units they have already earned give them the right to enter.

4. *High-school records and records of work in other colleges must be sent to the Registrar. A student with high-school or other record should have a complete copy of the record sent by the principal of the school to the Registrar of the Teachers College. This should be done at least two weeks before the date of entering. No student will be classified until his record is received.*

A registration permit is filed at the office when the student's application for admission and his record have been checked and filed. Application for admission blanks are sent on request.

Lindly Scholarships must be presented at the cashier's office on registration day.

GRADUATION

The degree of Bachelor of Education (B. Ed.) is conferred upon those who complete a four-year curriculum; a diploma is granted to those who complete the two-year curriculum for preparation of teachers for the grades. Four-year curricula prepare teachers for high school, for special grade work, and for positions as principals, supervisors, and teachers of special subjects. *A year's resident work is required for a diploma or degree.*

Ninety-six quarter hours are required for a diploma and one hundred and ninety-two quarter hours for a degree. Credit earned in physical education, library use, dramatics, glee club, quartette, orchestra, or band is in excess of the total required for graduation.

For the degree, one-third of the student's credits toward graduation must be in courses not open to freshmen and sophomores. This requirement is in accordance with the standard of the American Association of Teachers Colleges.

The University of Illinois admits to full graduate standing all graduates of the Teachers College who present twenty semester hours of content courses in one major academic subject in addition to education.

Students planning to teach in high schools should see that their records satisfy the requirements of the Illinois Examining Board and of the North Central Association.

The records of those who expect to complete a curriculum in a current year are checked at the beginning of each quarter and on April 1. A statement of the courses necessary for the completion of his work is given to each of these students in the fall quarter and is used by him in making his programs for succeeding quarters. The list of candidates for graduation is based on the checking of April 1. A student who is not more than twelve quarter hours behind the class at that time may participate in commencement exercises with the class and receive his diploma or degree at the close of the summer term if he completes the work by that time. It is possible to earn twelve quarter hours in the eight weeks' summer term.

SCHOLARSHIP

Grades are expressed in letters as follows:

A, Excellent	3 grade points
B, Good	2 grade points
C, Fair	1 grade point
D, Poor but passing*...	0 grade points
E, Condition	0 grade points
(incomplete work)	
F, Failure	—1 grade point

*Passing, but not accepted toward graduation or toward admission to practice teaching if more than one-fourth of the student's courses receive a grade of D.

I. Graduation Honors. Graduation with high honors requires that a student receive a grade of A in three-fourths of his work and B average in the rest.

Graduation with honors requires a grade of A in one-half of the student's work; B or higher in one-fourth of his work; and C average in the rest.

Graduation honors are noted on the diploma and announced at Commencement.

II. Scholarship Honors. Scholarship honors on the same basis as graduation honors are announced for each quarter in the month after the beginning of the next regular quarter; in December for the fall quarter; in March for the winter quarter; in October for the preceding spring quarter and year.

The announcement is posted on the bulletin board and printed in the "Teachers College News."

III. Admission to Practice Teaching. 1. For registration for practice teaching in any quarter in any curriculum not more than one-fourth of a student's credits may have a grade of D; that is, three-fourths of his courses must have a grade of C or above.

2. Sophomores in four-year curricula with B average (two grade points) in the freshman year may be admitted to Teaching 30 before the spring quarter if they need to fulfill legal requirements for the limited elementary certificate by the end of the sophomore year.

3. Sophomores in four-year curricula with average of 1.5 to 1.9 grade points (one-half grade point or more above C) may be admitted to Teaching 30 in the winter quarter if they plan the year's programs to include English 26, Arithmetic 20 and Geography 20 from the two-year grade curriculum and need to fulfill legal requirements (See page 43) for the limited elementary certificate by the end of the sophomore year.

4. Sophomores in four-year curricula with lower than 1.5 average in the freshman year are required to postpone Teaching 30 to the junior year. See also III, 1, under "Scholarship."

5. No student may be admitted to practice teaching until he has achieved full sophomore standing and has completed at least eight quarter hours in education. Therefore, the sophomores in the four-year curricula planning to qualify for the limited elementary certificate should elect Education 30, 31, 32 in the freshman year.

IV. Certification Requirement. The institutional credit blank for certification is not sent to the Illinois Examining Board if more than one-fourth of a student's grades are D. The blank requires "faculty recommendation of ability to teach." This recommendation is withheld if more than one-fourth of a student's grades are D.

V. Graduation Requirement. C average is required for graduation from the two- and four-year curricula and not more than one-fourth of the student's grades may be D. This means that a student must have as many grade points above C (1) as he has grades of D (0). This regulation went into effect with the class of 1935.

VI. Extra Work. No freshman in a four-year curriculum may register for extra work in his first quarter.

No student may register for extra work in the first quarter in which he is taking practice teaching.

No student whose average is below B in the preceding quarter may register for extra work.

VII. Probation. 1. A student whose grade points total less than two ($A=3$; $B=2$; $C=1$; $D=0$; $F=-1$) in any quarter is on probation in the next quarter in which he is in attendance and is reported as on probation here if he has his record sent to another college.

2. A student who receives three grades of D in any one quarter is on probation the following quarter.

3. A student who is on probation for two consecutive quarters is excluded from attendance in the following calendar year. He is reported as "Dropped on account of low scholarship" if his record is transferred to another college.

4. A student who fails in one course and has lower than C average in the three remaining courses of that quarter is not permitted to register for more than three courses in the following quarter. Exception: Failure in English 20 and 21.

VIII. Exclusion. A student failing in three courses, twelve quarter hours, in any quarter or in one-half of his work, eight quarter hours, in each of two consecutive quarters, is dropped from the college.

The grade F (failure) is recorded against a student who drops, after the first month, a course in which he is failing; but this does not apply to a student who is taking work to the amount of twenty quarter hours.

A student whose class work is very poor or who is frequently absent may be excluded from the privilege of taking the final examination. A grade of F (failure) is recorded against him.

EXTENSION WORK.

The Teachers College offers no extension or correspondence work.

CURRICULA

I. A Two-Year Curriculum, 96 quarter hours, leading to a diploma and planned for preparation of teachers for the grades. The diploma entitles the holder to a limited elementary school certificate without examination. The completion of the first year's work admits the student to an examination for a limited elementary certificate.

II. Four-Year Curricula, 192 quarter hours each, for preparation of the following:

1. Elementary Grade Teachers.
2. High-School Teachers and Teachers of Special Subjects:
 - A. Art.
 - B. English.
 - C. Latin.
 - D. Geography.
 - E. History and Social Science.
 - F. Home Economics (Smith-Hughes).
 - G. Industrial Arts.
 - H. Mathematics.
 - I. Music (Public School).
 - J. Science (Biological: Botany or Zoölogy or both)
 - K. Science (Physical: Physics or Chemistry or both)

CREDIT

The unit of measure, beginning with the year 1929-30, is the quarter hour, representing one hour a week of prepared work for twelve weeks when the student load of prepared work is sixteen hours a week. It is equivalent to two-thirds of a semester hour.

A year's work is equivalent to 48 quarter hours (32 semester hours) of prepared work. A year's work in one subject is equivalent to 12 quarter hours (8 semester hours).

Piano or voice work may be used for elective credit to the extent of 12 quarter hours (four years of work) with a minimum of 6 quarter hours in each. No student may count toward graduation more than 12 quarter hours of instrumental or voice work.

Credit is allowed for physical education, and for Library 20 at the rate of one quarter hour for each quarter's work.

Credit is allowed for dramatics, glee club, quartette, orchestra, and band at the rate of one quarter hour to those reported to the office for such credit at the close of each quarter by the directors of these organizations who decide the conditions under which credit is allowed or withheld in each case.

Credit earned in required physical education, library use, dramatics, glee club, quartette, orchestra, or band is in excess of the 96 quarter hours required for a diploma and of the 192 quarter hours required for a degree. The credit is recorded on the student's permanent record card and may play an important part when he is an applicant for a position.

A statement of the amount of credit is included in the description of each course.

NUMBERING OF COURSES

Courses numbered 20-29 (with a few exceptions) are required in a curriculum in the Junior College; courses numbered 30-39 are elective courses for those in the Junior College; courses numbered 40 or above are Senior College courses.

MAJOR AND MINOR SUBJECTS

In four-year curricula for high school teachers, a student takes 48 quarter hours of work in a major subject and 24 quarter hours in a minor subject, in some cases specified by the department of the major subject and in other cases left to the student's choice, but the courses in the minor subject must constitute two years' work in some one department and the courses chosen must be satisfactory to that department and to the department of the major subject. Students should consult the department of the major subject as to choice of minor subjects and of electives.

ELECTIVES

There are two groups of electives: one for those in the Senior College, numbered 43 or above and one for those in the Junior College, numbered 30-39. Students should consult the department of the major subject as to choice of electives and of minor subjects.

Practical Arts Building

DESCRIPTION OF CURRICULA

FOUR-YEAR CURRICULA

192 Quarter Hours

II. 1. FOR PREPARATION OF TEACHERS FOR THE LOWER GRADES

Freshman Year

Education 20, 21, 22
 English 20, 21, 22 or 24
 Arithmetic 20, 21, Reading 24
 Botany 20 or Zoölogy 23
 Geography 20, Art 24
 Penmanship 20 (Quarter)
 Library 20 (1) (Quarter)
 Physical Education (2) (Year)
 Manuscript Writing (Elective)

Junior Year

Education 44, Geography,
 Geography
 English, English, English 45
 Elective (Year)
 Elective (Year)

Sophomore Year

Education 23, 24, or 24R
 Teaching 20, 21 or 20R, 21R
 History 37, 38, Education 25
 Music 24, Industrial Arts 24 or
 25, Hygiene 20
 Music or Art, Elective or Teach-
 ing
 Physical Education (2) (Year)

Senior Year

Laboratory Science (Year)
 Social Science (Year)
 *Teaching 40, Teaching 41G-48G,
 Education 47
 Elective (Year)

* This course is methods of teaching in the major subject and is described under each subject.

Notes: 1. Students are advised to use their electives so as to have more than one minor subject (teaching subject).

2. Numbers identify the course in the description of courses. Numbers in parenthesis after Physical Education and Library 20 indicate the number of periods a week.

3. If the science is botany or zoölogy, Botany 21 and 22 or Zoölogy 21 and 22 complete the requirement.

If history is a minor subject, eight quarter hours of sophomore history count toward this requirement.

II. 2. FOR PREPARATION OF TEACHERS FOR THE UPPER GRADES.

The same outline of courses as above with the following exceptions:

1. In the freshman year English 26 should be substituted for English 22 or 24.
2. In the sophomore year students take History 33, 34, 35 instead of History 37 and 38. Geography 21 is substituted for Education 25.
3. In the junior year students are required to take one quarter of integrated mathematics.

Notes: 1. The completion of the sophomore year in either curriculum entitles the student to the diploma of the Junior College and to a limited elementary certificate.

2. Each subject has four fifty-minute periods a week unless otherwise indicated by a number in parenthesis; but Botany 20 and Zoölogy 23 have six fifty-minute periods; Art and Industrial Arts require eight periods a week for full credit.

II. 3. FOR PREPARATION OF HIGH SCHOOL TEACHERS

II, 3, A. ART

Freshman Year

English 20, 21, 25
 Education 30, 31, 32
 Art 30, 31, 32
 Minor Subject (1st Year)
 Physical Education (2) (Year)
 Library Use 20 (1) (Quarter)

Junior Year

Education 43, 45, 44
 English 44J or 45, Elective
 Teaching 30 (Art)
 Art 43, 44, 45
 Minor Subject (2nd Year)

Requirements for a Minor in Art:

Art 30, 31, 32

Art 35, 38, choice of 43 or 44, or 45

Sophomore Year

History 37, History 38 or 39,
 Art 39
 Laboratory Science (Year)
 Art 33, 34, 35
 Elective, Art 38, Hygiene 20
 Physical Education (2) (Year)

Senior Year

Art 40, 41, 42
 Elective (Year)
 Art 46, 47, 48
 Art 50, 49, Elective

II, 3, B. ENGLISH

Freshman Year

English 20, 21, 26
 Laboratory Science (Year)
 Elective (Year)
 English 30, 31, 34
 Physical Education (2) (Year)
 Library 20 (1) (Quarter)

Junior Year

Education 43, 44, 45
 Teaching 30, English 37, Art 51
 English 43, 44, 45
 English 46, 47, 48

Sophomore Year

Education 30, 31, 32
 Minor Subject (Year)
 Elective (Year)
 English 35, 36, Hygiene 20
 Physical Education (2) (Year)

Senior Year

English 40, 41, 42
 Minor Subject (Year)
 History 46, 47, 48 (or 43, 44, 45)
 English 49, 50, 51

Note: Students wishing to accumulate additional minors or a second teaching major may omit certain of the English courses listed above by arrangement with the head of the department. Care must always be taken to include enough Senior College courses and to plan a balanced program of English study.

In English, English 30, 31, 34, 35, 36, (or 43), 37 (or 39) may be used as the minor subject. English 46, 47, 48 may be used by juniors or seniors for credit toward the English for minor subject.

II, 3, C. LATIN

Freshman Year

Latin 20, 21, 22*
 English 20, 21, 25
 Lab. Science (Year) or Elective
 History 37, 38, Hygiene 20
 Physical Education (2) (Year)
 Library Use 20 (1) (Quarter)

Junior Year

Latin 43, 44, 45
 Teaching 30, Elective, English 45
 Education 43, 44, 45
 Minor Subject (Year)

Sophomore Year

Latin 30, 31, 32
 Education 30, 31, 32
 Minor Subject (Year)
 Elective (Year) or Lab. Science
 Physical Education (2) (Year)

Senior Year

Latin 40, 41, 42
 Latin 46, 47, 48
 Elective (Year)
 Elective (Year)

* If student has had four years of high-school Latin, one year of elective, to be approved by head of the department, may be substituted.

II, 3, D. GEOGRAPHY

Freshman Year

English 20, 21, 25
Laboratory Science (Year)
Elective (Year)
Geography 20, 21, 30
Physical Education (2) (Year)
Library 20 (1) (Quarter)

Junior Year

Education 43, 44, 45
Teaching 30, Elective, English 45
Minor Subject (Year)
Geography 43 (32), 45, 44 (or 46)

Sophomore Year

Education 30, 31, 32
History, History, Hygiene 20
Minor Subject (Year)
Geography 33 (43), 31, 36
Physical Education (2) (Year)

Senior Year

Geography 40, 41, 42
Elective (Year)
Elective (Year)
Economics 44, 45, Elective

II, 3, E. HISTORY AND THE SOCIAL SCIENCES

Requirements for a Major in the Social Sciences:

History 37, 38, 39

History 33, 34, 35

History 46, 47, 48

Economics 44, 45, 46, or Govern-
ment 43, 44, 45

History 40, 41, 42

Requirements for a Minor are two of the above courses ex-
cluding History 40, 41, 42.

Freshman Year

English 20, 21, 25
Laboratory Science (Year)
History 37, 38, 39
Elective (Year)

Teaching 30, Elective, English 45
Minor Subject
Calculus 43, 44, 45

Senior Year

Mathematics 40, 41, 42
Elective (Year)
Minor Subject (Year)
Elective (Year)

Students taking mathematics as the minor subject take Algebra 31, 32, Trigonometry 33, Analytics 34, 35, Geometry 28.

II, 3, I. MUSIC (PUBLIC SCHOOL)

Freshman Year

English 20, 21, 25
Laboratory Science (Year)
History (Year)
Music (Theory) 30, 31, 32
Physical Education (2) (Year)
Library 20 (1) (Quarter)

Sophomore Year

Education 45, 43, Hygiene 20
Education 30, 31, 32
Music (Harmony) 33, 34, 35
Elective (Year)
Physical Education (2) (Year)

II, 3, J. SCIENCE (BIOLOGICAL)

Note: The botany and zoölogy curricula are so arranged that the student may not only have four years of work in botany or zoölogy (including one year of methods and practice teaching), but that he may also have three minor subjects (of six quarters each) which qualify him to teach six different subjects in accredited high schools. The student is also equipped to do graduate work.

(1) BOTANY

Freshman Year

TRAINING SCHOOL

ORGANIZATION AND ADMISSION.—The Training School consists of the Elementary School of eight grades, and the High School of four grades. Below the ninth grade the number of pupils who can be admitted is limited. Pupils desiring admission are registered, then admitted in order of registration when vacancies occur.

Pupils once admitted to the school for the regular school year retain their places until completing the course unless they are unreasonably irregular in attendance or fail to appear on the opening day of the school year without notice to the director of their intention to appear later.

In grades below the ninth a fee of one dollar and twenty-five cents is charged on the opening day of the fall, winter, and spring quarters. Textbooks are furnished by the school. No charge is made for the summer term.

TRAINING TEACHERS.—In the first nine grades the immediate direction of the work of each grade and the responsibility for its progress is with the training teacher of the grade. The training teachers, with the director, plan the work of their grades, discuss with the student teacher their plans for teaching the different subjects, do enough of the teaching to keep the progress of the pupils at least up to the standard of city schools of the same type, and teach special lessons for the observation of Teachers College classes in method of teaching the special subjects. The character of the work of the training teacher determines almost entirely the success of the Training School in accomplishing its purpose.

A training teacher for history has charge of that work in grades five to eight inclusive. Training teachers for geography, art, music, penmanship, and physical education have charge of these subjects in grades one to eight. The teachers in other departments of the Teachers College have in all cases an ad-

visory relation to the Training School and in some cases a supervisory relation.

PURPOSE.—The purpose of the Teachers College in maintaining a Training School is twofold. It needs a laboratory school in which students and members of the faculty may test the methods of instruction and the educational theories taught in the Teachers College. And to develop in the students craftsmanship in teaching they must have opportunity to observe expert work and to develop skill by actual experience in teaching.

The results, however, cannot be secured unless the Training School itself is aiming at the best possible education for the boys and girls who are pupils in the school. If the Training School is not securing for its pupils results up to the standard of good schools of the usual type, it is not best adapted to its purpose as an experimental school, and if it is not at least equal to other elementary schools it is certainly not adapted to secure the best results as a school of observation and practice.

PRACTICE TEACHING.—All students graduating from the Teachers College in the two-year curriculum are required to take two quarters' work in practice teaching and may elect a third quarter of practice teaching. The first quarter the student is assigned to teach in the grade, if possible, in which he expects to do his future teaching; the second quarter, in the grade not chosen for the first quarter; and the third quarter, in the lower four grades or in the upper four grades as he chooses.

Student teachers are assigned to training teachers by the director and are assigned by the training teacher to particular teaching duties for one fifty-minute period each day. In the beginning of the first quarter the student makes plans for teaching the lessons in his assigned subject after discussing the subject matter and the procedure with the training teacher, but for one or two weeks the teaching is done by the training teacher, the student observing. Gradually the teaching is turned over to the student, the training teacher observing and discussing the lessons and lesson plans before and after the student teaches the lesson. Each training teacher holds one general meeting each week with her group of students, besides special conferences with individuals. She also does as much of the teaching as seems necessary to keep the class up to standard and to furnish the student opportunity to observe expert teaching.

For special regulations as to admission to practice teaching see III under "Scholarship."

OBSERVATION AND PARTICIPATION.—In the first year students in the two-year curriculum are required to take work in observation in the Training School. The work is designed to prepare them to meet the problems of teaching which they must meet in their course in practice teaching, to enable them to see the application of their course in educational psychology, and to assist them in selecting the group of grades in which they wish to teach. Opportunity is given to observe both the room management and the teaching of the training teacher. Some opportunity is offered to assist in the management and in the planning of lessons.

THE HIGH SCHOOL.—The Teachers College High School is recognized by the State Department of Education and is accredited by the University of Illinois and by the North Central Association of Colleges and Secondary Schools. Those who have completed the eighth grade may enter the ninth grade which is the first year of a four-year high school. Full credit is allowed to students entering from other accredited high schools. Sixteen units are required for graduation. Graduates of The Teachers College High School are admitted to the freshman class of the College. A special bulletin describing the Training High School will be sent on request.

DESCRIPTION OF COURSES

ART

Note: All art courses meet eight fifty-minute periods a week, except Art 33, 38, 40, 47, 50, 51, which meet four fifty-minute periods a week. Art 41 and 42 meet five periods a week.

24. INTRODUCTION TO ART. Lectures and laboratory problems in design, color, perspective, freehand drawing, and lettering.

Required in the freshman year for teachers of the elementary school. (4 hours.) Every quarter.

25. INDUSTRIAL ARTS. Applied design in weaving, clay modeling, paper and cardboard construction, basketry, puppets, toy-making, bookbinding, dyeing, and other craft work adaptable to the elementary grades.

For elementary school teachers. (4 hours.) Spring quarter.

26. TEACHERS COURSE IN PUBLIC SCHOOL ART. An introductory course in the theory and practice of teaching art in the elementary school, designed for those interested in the teaching of art in the elementary grades. The course is especially planned for teachers who are in schools where there are no supervisors of art. A graded course in public school art is presented by lectures and developed by the students in laboratory problems in design, color, freehand drawing, perspective, lettering, manuscript writing, and appreciation of pictures and other art forms. All mediums practicable in the elementary grades are used in the laboratory work of the course.

(4 hours.) Winter quarter.

27. LETTERING. A laboratory course based on a study of established styles and modern lettering. Arrangements and compositions worked out with pens and brushes, and applied to various subject matter and materials. The student should consult the head of the department as to hours.

Elective. (4 hours.) Any quarter, by permission.

30. DESIGN, I. ART STRUCTURE. The study of fundamentals in the application of color and design. The properties and qualities of color and the elements of design are demonstrated and applied in laboratory problems.

Required in the art and home economics curricula. Elective in other curricula. (4 hours.) Fall quarter.

31. DESIGN, II. A continuation of Art 30. Study and application of principles of design and color to various types of

patterns suitable for textiles and certain other materials. Designs are created by the students in several mediums. The course includes some lettering and poster design.

Required in the art and home economics curricula. Prerequisite: Art 30. (4 hours.) Winter quarter.

32. FREEHAND DRAWING, I. Application of principles of freehand perspective to representation. Drawing in pencil, charcoal, or crayon from geometric solids, casts, and other objects. Students begin outline drawing and work up to full light and shadow.

Recommended to majors in mathematics and industrial arts. Elective in other curricula. (4 hours.) Spring quarter.

33. FREEHAND DRAWING, II. A continuation of Art 32. More advanced study of the application of the principles of perspective and representation. Life drawing is introduced in the study of proportions and attitudes of the human figure, with emphasis on methods of denoting action. Sketching in short poses and the technique used in finished drawings in longer poses are demonstrated.

Prerequisites: Art 30 and Art 32. (4 hours.) Fall quarter.

34. DESIGN, III. APPLIED DESIGN. The study of decoration applied to woodblock and linoleum printing, leather tooling and weaving of textiles.

Prerequisite: Art 33. (4 hours.) Winter quarter.

35. DRAWING AND PAINTING, I. Still life and outdoor sketching. Practice in composition and values in monochrome, leading to use of full color in crayons, pastels, or water colors.

Elective in other curricula. (4 hours.) Spring quarter.

36. INDUSTRIAL ARTS. A continuation of Art 25. This advanced course in applied design will be offered any quarter in which there is sufficient demand for it. The student should consult the head of the department as to hours.

Elective. (4 hours.) Any quarter, by permission.

37. JEWELRY AND METAL WORK. Application of design principles to the making of rings, pendants, bracelets, plates, trays, etc.; embossing and chasing. A study of fine line and proportion in design in the gold and silversmith's craft.

Elective in any curriculum. (4 hours.) Winter quarter.

38. ART HISTORY, I. The background of the space arts. A consideration of the social and aesthetic significances of present-day art forms as expressed in architecture, painting, sculpture, and the crafts, such as furniture, metal work, textiles, records, and ceramics. Lectures illustrated by lantern slides.

Recommended to students of the social sciences. Elective in other curricula. (4 hours.) Spring quarter.

39. POTTERY. The application of design principles to clay modeling.

Elective in other curricula. (4 hours.) Winter quarter.

40. THE TEACHING OF ART. A methods course in art education with reference to the high school.

(4 hours.) Fall quarter.

41, 42. PRACTICE TEACHING IN ART IN THE HIGH SCHOOL. *(4 hours for each course.) Winter and spring quarters.*

43. DESIGN, III. Advanced work in pictorial and decorative compositions for easel and mural paintings. The course includes illustration work, beginning with composition of one figure with simple background in flat tones in three values and advancing to full light and shadow with several figures. A draped model will be used.

Open only to students who have had one or more years of design and freehand drawing. (4 hours.) Fall quarter.

44. INTERIOR DECORATION. A practical course in the fundamentals of interior decoration from the fine arts point of view. A study of the various color theories with reference to interior architecture. The course includes the study and analysis of the aesthetic qualities of different periods and styles of furniture and of fabrics used in connection with furniture. The course is designed to develop discrimination and taste in the selection of materials used in interiors.

Elective in other curricula. (4 hours.) Winter quarter.

45. DRAWING AND PAINTING, II. Life drawing from a model. Study of anatomical facts. Mediums: charcoal, pencil, and crayon.

Prerequisite: Art 43. (4 hours.) Spring quarter.

46. DRAWING AND PAINTING, III. A continuation of Art 45. Work in life drawing and portrait painting, with especial emphasis on the form and structure of the head in various positions and lights. Any medium may be used.

(4 hours.) Fall quarter.

47. ART HISTORY, II. The subject of painting is treated from the historical and appreciation point of view in the study of many of the acknowledged masterpieces in this field. Lectures illustrated with lantern slides.

Elective in other curricula. (4 hours.) Winter quarter.

48. DESIGN, IV. Advanced work in the application of pictorial and decorative design. Mediums: oils, water colors, pen and ink, etching, lithograph and block printing.

Open only to students who have had at least three years of design and freehand drawing. (4 hours.) Spring quarter.

49. COMMERCIAL DESIGN. Problems in lettering, poster and advertising design. Study of the various means and processes of applying and reproducing commercial and industrial designs, with especial emphasis on the application to the high-school annual and to other school publications.

Elective in other curricula on consultation with the head of the department. (4 hours.) Winter quarter.

50. ART HISTORY, III. The history of ornament, architecture, and sculpture with reference to present-day art forms in each field.

Elective for juniors and seniors in other curricula. (4 hours.) Fall quarter.

51. APPRECIATION OF ART. Lectures illustrated by lantern slides and other illustrative material. The course aims to increase the understanding of visual art forms through the study and interpretation of masterpieces of the space arts according to the principles of design.

The course is designed for juniors and seniors in the English curriculum. Elective in other curricula. (4 hours.) Spring quarter.

EDUCATION AND TEACHING

I. EDUCATION

20. AN INTRODUCTION TO EDUCATION. A comprehensive survey of the field of education. Especial attention is given to the development of the American school system, aims and curricula of the various administrative units, cost, support, and administration of our schools, qualifications for teachers, the duties and the relationships of teachers, professionalizing teaching, and opportunities in teaching.

Required of freshmen in the two-year course and in the four-year course for the preparation of elementary teachers. (4 hours.) Fall quarter.

21. INTRODUCTION TO EDUCATIONAL PSYCHOLOGY. This is a beginning course and does not assume previous study of psychology. The major topics dealt with are the methods of educational psychology, the physical basis of behavior, inherited and acquired responses, and the nature of the learning process.

Required of freshmen in the two-year course and in the four-year course for the preparation of elementary teachers. (4 hours.) Winter quarter.

22. EDUCATIONAL PSYCHOLOGY. A continuation of Education 21. The major topics dealt with are the nature of the thinking

process, transfer of training, individual differences and their measurement, and mental hygiene.

Required of freshmen in the two-year course and in the four-year course for the preparation of elementary teachers. Prerequisite: Education 21. (4 hours.) Spring quarter.

23. PRINCIPLES OF EDUCATION WITH SPECIAL REFERENCE TO THE ELEMENTARY SCHOOL. The course deals with properties of the human organism that make education possible, properties of society that make education necessary, historical concepts that have dominated organized education, the place of education in a democratic society, and the aims of education in a democratic society. Emphasis is placed upon a study of recent social trends and their implications for education.

Required in the sophomore year of the two-year curriculum. (4 hours.) Every quarter.

24. DIRECTED STUDY AND OBSERVATION OF TEACHING. Extra-instructional and instructional duties of the teacher are discussed. Problems pertaining to classroom management, such as establishing classroom routine, maintaining good discipline, teaching pupils to control themselves, providing a favorable physical environment, supervising the physical welfare of pupils, caring for materials and apparatus, keeping records and making reports, encouraging regular and punctual attendance, and directing extra-curricular activities, are taken up. Problems pertaining to instruction, such as planning lessons, directing study, directing the recitation, and evaluating the results of teaching, are also considered. Numerous observations in the Training School are an integral part of the course.

Required in the sophomore year of the two-year curriculum. (4 hours.) Every quarter.

24R. DIRECTED STUDY OF RURAL TEACHING. An opportunity is offered the student to study instructional and extra-instructional teaching and learning activities. The course is organized into the following illustrative units of work: lesson planning, the assignment, questioning, directed study, socialized recitation, diagnostic teaching, remedial teaching, drill, review, examination, routine discipline and control, professional relationships and growth, and school records.

(4 hours.) Every quarter.

25. PRIMARY EDUCATION. A course devoted primarily to a study of problems pertaining to teaching in the first three grades. The principal topics taken up are the mental and the physical growth of the child during the pre-school and the primary periods; the aims and the curricula of the nursery school and the kindergarten; the aims, the curricula, the equipment and the

materials of the primary school; teaching the various subjects in the curriculum of the primary grades; and personal characteristics and professional preparation of the primary teacher.

Required in the sophomore year of those preparing to teach in the lower grades. (4 hours.) Spring quarter.

26R. LEADERSHIP EDUCATION FOR COUNTRY AND VILLAGE. The purpose of this course is to aid teachers in planning and directing rural community programs. There is an opportunity to direct and participate in games, stunts, dances, and songs for many occasions. A brief biographical study of some outstanding rural leaders and of their contributions to rural life, a survey of rural literature, and an analysis of some outstanding rural agencies which are playing an important part in the development of rural leadership are made.

(4 hours.) Fall and spring quarters.

30. AN INTRODUCTION TO EDUCATION. The topics taken up are the same as in Education 20, but special attention is given to topics pertaining to the secondary school.

Required of sophomores in the four-year course for the preparation of secondary school teachers. (4 hours.) Fall quarter.

31. INTRODUCTION TO EDUCATIONAL PSYCHOLOGY. The topics covered are the same as in Education 21.

Required of sophomores in the four-year course for the preparation of secondary school teachers. (4 hours.) Winter quarter.

32. EDUCATIONAL PSYCHOLOGY. The topics included are the same as in Education 22.

Required of sophomores in the four-year course for the preparation of secondary school teachers. Prerequisite: Education 31. (4 hours.) Spring quarter.

43. PRINCIPLES OF EDUCATION WITH SPECIAL REFERENCE TO THE SECONDARY SCHOOL. The topics dealt with are the same as in Education 23, but special attention is given to their implications for the secondary school.

Required of juniors in the four-year course for the preparation of secondary school teachers. (4 hours.) Fall and winter quarters.

44. TESTS AND MEASUREMENTS. About one third of the time is devoted to educational statistics, with emphasis upon the applications of the various techniques that are presented. The remainder of the time is devoted to a brief study of the testing movement, advantages and limitations of various types of tests, criteria for the selection of tests, examination of numerous

standardized tests, and the construction of tests in the student's major field.

Required of all students in either their junior or senior years. (4 hours.) Every quarter.

45. DIRECTED STUDY AND OBSERVATION OF TEACHING. Problems pertaining to the extra-instructional and the instructional activities of the secondary teacher are discussed. Observations in the Training School are an integral part of the course.

Required of juniors in the four-year course for the preparation of secondary school teachers. (4 hours.) Every quarter.

47. SOCIAL PSYCHOLOGY. This course deals with the various phases of social behavior. Specifically, some of the problems dealt with are instinctive adaptation to social situations; group and individual reactions to social phenomena; customs; fashions; fads; conventions; national and racial attitudes; occupations; institutions; and the social self in the present-day world.

(4 hours.) Spring and summer quarters.

48. SCHOOL ORGANIZATION AND ADMINISTRATION. This is an introductory course for students who desire a knowledge of problems in educational organization, administration, and supervision in the nation, the state, and local units. The first half of the course gives an understanding of the problems of administration to enable all members of an organization to cooperate with those in final administrative authority in the formulation of policies. The second half of the course presents the problems of the elementary and high-school principal in organizing and administering schools. School law and finance as well as current educational problems receive attention in this course.

Elective, junior or senior year. (4 hours.) Summer term.

49R. CURRENT RURAL PROBLEMS. An analysis of current social, economic and political issues as they affect the welfare of country people. Examples: our shifting community centers; back to the land movement; agricultural adjustment act; land reclamation; national, state and regional planning; taxation, tariff; and farmers' political parties.

Elective for Senior College students in the Four-Year Rural Curriculum. (4 hours.) Winter quarter.

CURRICULA FOR RURAL SCHOOL TEACHERS

Lower Grades

Follow the regular Four-Year Curriculum for the Lower Grades with the following changes: (1) If the student wishes to teach in the lower grades of the rural school at the end of

the sophomore year, Teaching 20LR and 21LR should be substituted for Teaching 20 and 21. (2) Substitute Education 24R, Directed Study and Observation of Rural Teaching, for Directed Study and Observation of Teaching in the regular curricula. (3) If possible, elect Education 26R, Leadership Education for Country and Village. (4) In the senior year substitute Teaching 41LR for Teaching 41. Students who take any of the LR courses will do their practice teaching in the lower grades of an affiliated village school. (5) Education 49R, Current Rural Problems, may be elected in the senior year.

Upper Grades

Follow the regular Four-Year Curriculum for Upper Grades with changes similar to those suggested for the lower grades. (1) In the sophomore year, substitute Teaching 20UR and 21UR for Teaching 20 and 21. (2) In the senior year, substitute Teaching 41UR for Teaching 41. (3) Students who take the UR courses will do their practice teaching in the upper grades of an affiliated village school.

Eight Grades (one-room school)

Follow the regular Four-Year Curricula for Lower or Upper Grades with changes similar to those suggested for the Lower Grades Rural Curriculum. (1) Substitute Teaching 20R and 21R for Teaching 20 and 21 in the sophomore year. (2) In the senior year, substitute Teaching 41R for Teaching 41. (3) Students taking the R courses will do their practice teaching in a nearby affiliated one-room school.

High School

Follow the regular Four-Year Curriculum for the Training of High School Teachers, with the following suggested changes:

1. Elect Education 26R, Leadership Education for Country and Village.
2. In the senior year elect Education 49R, Current Rural Problems.
3. In the senior year substitute Teaching 41HR and 42HR for Teaching 41 and 42. Students who take the HR courses will do their practice teaching in an affiliated village high school.

The practice teaching requirement in the Curricula for Rural Teachers will be met by one half day of teaching for a period

of one quarter. Those who take the observation course in the fall quarter can be taken care of in the rural schools during any one successive term of practice teaching.

II. TEACHING

A detailed description of the courses in practice teaching and of the course in observation may be found under the head, Training School.

All assignments for practice teaching are made by the director of teacher training. Students should arrange for their practice teaching assignment before registering for other subjects.

For restrictions on admission to practice teaching course, see III, under "Scholarship."

20, 21, 22. PRACTICE TEACHING IN THE GRADES.

Required in the second year of the two-year curriculum for preparation of teachers for the grades. (4 hours for each course.) Every quarter.

30. FIRST QUARTER OF PRACTICE TEACHING FOR STUDENTS IN FOUR-YEAR CURRICULA. It includes Teaching 30 (Art), Teaching 30 (English), Teaching 30 (Latin), Teaching 30 (Geography), Teaching 30 (History), Teaching 30 (Industrial Arts), Teaching 30 (Mathematics), Teaching 30 (Music), Teaching 30 (Botany), Teaching 30 (Zoölogy), Teaching 30 (Physics), Teaching 30 (Chemistry).

The word in parenthesis indicates the student's major subject and is needed to show so far as possible the subject which he should be assigned to teach.

Students in four-year curricula are not registered for Teaching 20 which is the first course for students in the two-year curriculum.

For restrictions on admission to any course in practice teaching see III, under "Scholarship."

Prerequisite: Junior classification except as specified in III, under "Scholarship." (4 hours.) Fall quarter, junior year, unless the student is admitted in the sophomore year under the regulations given in III, under "Scholarship."

41, 42. PRACTICE TEACHING IN THE MAJOR OR MINOR SUBJECT. Two quarters of practice teaching are required in the Senior College. At least one of these quarters must be in the major subject. These courses are listed under the same numbers (41, 42) in the description of courses in each department.

Required in the Senior College. (4 hours.) Winter and spring quarters.

41G to 48G. PRACTICE TEACHING AND SUPERVISION IN ELEMENTARY GRADES.

Required in the Senior College in the curriculum for preparation of elementary grade teachers. (4 hours for each course.) Every quarter.

ENGLISH

Note: Any student entering the Teachers College with a deficiency in the basic skills in English—reading, writing, spelling, elements of grammar and good usage—may be required to take work in remedial English in addition to the required freshman composition courses.

Any student teacher found deficient in English may be remanded to English 20 or to remedial work in speech or grammar or oral and written usage, as the case may require.

20, 21. COMPOSITION. A course in the fundamentals of good speaking and writing. Creditable work in English 20, 21 is a prerequisite to teaching in the Training School. Credit for English 20, 21 may be earned in one, two, or more quarters according to individual progress. Students who complete English 21 when registered for English 20 may substitute another English credit for English 20, being counted excused from English 20.

Required in the freshman year in all curricula. (4 hours for each course.) English 20, every quarter; English 21, winter, spring, and summer quarters.

21J. JOURNALISM I. The course covers the fundamentals of news-writing and reporting. It is designed to train students to act as advisers for high-school student publications. Part of the class work appears regularly in *The Teachers College News*.

Prerequisite: English 20. Accepted for English 21. (4 hours.) Winter quarter.

22. LITERATURE IN THE GRADES. Emphasizes chiefly wide acquaintance with the great bodies of world literature—myth, legend, etc.—and with the best poetry suitable for children.

Required in the first year of the two-year curriculum unless English 24 is taken. (4 hours.) Spring and summer quarters.

24. TEACHING OF ENGLISH. The teaching of composition in the grades is covered as fully as time permits, including discussion of materials, purposes, standards, theme-topics, correcting of compositions, literature in the grades, and methods of teaching. This course is especially recommended to students interested in intermediate, upper grade, or junior high school work.

Prerequisite: English 20 and 21. Required in the first year of the two-year curriculum unless English 22 is taken. (4 hours.) Spring and summer quarters.

24. READING. Designed both to improve the oral and silent reading of the pupils and to give them definite standards by

which they may intelligently judge the reading of others. Some attention is given to methods of teaching reading in the grades.

Required in the two-year curriculum. (4 hours.) Every quarter.

25. INTRODUCTION TO LITERATURE. Designed to give the student an acquaintance with the most common types of English literature, including narrative and lyric poetry, biography and letters, the short story, and the essay.

Prerequisite: English 20 and 21. Freshmen who have taken English 10, 11, 12 in the Teachers College High School must substitute English 34 or English 26 for English 25 to avoid duplication; or English 24 or English 22 may be substituted by these students if they wish to teach at the end of two years. Required in four-year curricula, except the English curriculum. (4 hours.) Spring quarter.

26. GRAMMAR. A study of the English sentence, with some attention to the parts of speech. Methods are illustrated and stressed. This is primarily a course for those preparing to teach in the upper grades or in junior or senior high school English, but is open to any student who feels the need of grammatical insight.

Required in the upper grade sections, sophomore year of the two-year curriculum, and in the freshman year of the English curriculum. (4 hours.) Every quarter.

30. SPEECH. Preparation and delivery of original speeches; practical English phonetics; interpretative reading.

Elective. (4 hours.) Fall quarter.

31. SPEECH. Argumentation and debate; principles, and participation in class debates on subjects of current interest.

Elective. (4 hours.) Winter quarter.

30, 31. NINETEENTH CENTURY PROSE FICTION. The primary aim is to arouse the student's interest in the best fiction, and the secondary, to furnish him with standards of judgment.

Prerequisite: English 30 to English 31. (4 hours for each course.) English 30, fall quarter; English 31, winter quarter. Summer quarter.

34. AMERICAN LITERATURE. A survey of American literature from the beginning to the present, stressing trends and major writers, with as much reading in the originals as possible. (4 hours.) Spring and summer quarters.

35. GREEK DRAMA. Origins and development of classical drama: Aeschylus, Sophocles, Euripides, with a study of Greek life and thought, and their contribution to our culture.

Prerequisite: English 30, 31, 34. (4 hours.) Fall and summer quarters.

36. SHAKESPEARE AND THE ELIZABETHAN DRAMA. A study of Shakespeare's most important plays, and of their place in the development of English drama. Some attention is given to the chief dramatists contemporary with Shakespeare.

(4 hours.) Winter and summer quarters.

37. MODERN DRAMA. The purpose of this course is to familiarize the student with what is best in modern drama.

(4 hours.) Winter and summer quarters.

39. DRAMATICS. A study of the presentation of plays, including the reading of contemporary dramas, the production of at least one play, and the dramatization of an episode or a short story. Some instruction in the coaching of plays is given. Accepted for English 37.

(4 hours.) Summer quarter.

40. THE TEACHING OF ENGLISH IN THE HIGH SCHOOL. Important topics connected with English in the high school are covered as fully as time permits.

Required in the senior year of those whose major subject is English. (4 hours.) Fall quarter.

41, 42. PRACTICE TEACHING IN ENGLISH IN THE HIGH SCHOOL.

(4 hours for each course.) Winter and spring quarters.

43. CONTEMPORARY LITERATURE. Extensive reading in current literature introduces the student to the best that is being written today, and provides him with some standards of judgment with the hope of stimulating his enthusiasm for good books.

Required or elective in the junior year in all curricula. (4 hours.) Fall and summer quarters.

44. ADVANCED RHETORIC. Chiefly written composition, applying the principles of organization and effective expression to somewhat more extended material than do English 20 and 21. The course is intended to give both an introduction to the methods of research and opportunity for original work.

Prerequisite: Junior College required English. Required or elective in the junior year in all curricula. (4 hours.) Winter and summer quarters.

44J. JOURNALISM II. This course is designed to train students in the effective expression of problems of student life. Opportunity is afforded for original work. The present-day newspaper and its relation to contemporary life are discussed.

Prerequisite: English 21J or the equivalent. (4 hours.) Every quarter.

45. ORAL ENGLISH. Through prepared talks and discussions this course gives training in the effective expression of genuine ideas and opinions. Sincerity, adequate development of thought,

the proper use of facts and evidence, and also the principles and practice of good delivery are stressed.

Prerequisite: Junior College required English. Required or alternative with English 44 in the junior year in all curricula. (4 hours). Fall, spring, and summer quarters.

46, 47, 48. MODERN ENGLISH POETRY. Appreciation of the art of poetry, and a study of some of the chief English poets, as they illustrate this art. Beowulf to Chaucer; Milton to Burns; Nineteenth Century Poetry.

Required in the English curriculum; elective in others. (4 hours for each course.) English 46, fall quarter; English 47, winter quarter; English 48, spring quarter. Summer quarter.

49. THE ESSAY. This course traces the development of the essay in English, with special attention to style. Eighteenth and nineteenth century essays are stressed most.

Required in the senior year of the English curriculum and elective for juniors and seniors in any curriculum. (4 hours.) Fall quarter.

50, 51. HISTORY OF THE ENGLISH LANGUAGE AND LITERATURE. The development of the English language from Anglo-Saxon to the language of today traced concurrently with the history of English literature.

Prerequisite: English 26 or its equivalent. Required in the senior year of the English curriculum. Not open as elective in other curricula except by special permission of the head of the English department. (4 hours for each course.) Winter and spring quarters.

FOREIGN LANGUAGE

LATIN

20. SELECTED ORATIONS OF CICERO. Rapid review of grammar, sight translation.

Prerequisite: Two years of high-school Latin. (4 hours.) Fall quarter.

21. SELECTED ORATIONS OF CICERO. In the middle of the quarter the *Aeneid* of Virgil is begun.

Prerequisite: Latin 20. (4 hours.) Winter quarter.

22. VIRGIL'S AENEID, CONTINUED. Greek and Roman mythology, prosody, sight translation.

Prerequisite: Latin 21. (4 hours.) Spring quarter.

30. CICERO'S ESSAYS, DE AMICITIA, DE SENECTUTE, AND DE OFFICIIS.

Prerequisite: Four years of high-school Latin or two years of high-school Latin and Latin 20, 21, 22. (4 hours.) Fall quarter.

31. HORACE, SELECTIONS FROM THE ODES, SATIRES, AND EPISTLES.

Prerequisite: Latin 30. (4 hours.) Winter quarter.

32. LIVY, SELECTIONS FROM BOOKS I, XXI, AND XXII.

Prerequisite: Latin 31. (4 hours.) Spring quarter.

37. LATIN LITERATURE IN TRANSLATION. Students who have had no Latin are given an opportunity to survey the field of Latin literature in English translations made by noteworthy authors. Lectures supply the background for the masterpieces read. The English Department recognizes this as a substitute for English 35 (Greek Drama in translation) and, by special arrangement with the head of the English Department, for certain other courses.

Elective. (4 hours.) Summer quarter.

40. THE TEACHING OF LATIN.

Prerequisite: Three years of college Latin. Required in the senior year of those whose major subject is Latin. (4 hours.) Fall quarter.

40 S. THE TEACHING OF LATIN. This course is offered for those who are already teaching Latin in high school or who plan to do so next year, but who feel that they would benefit by a thorough review of the content of the first two years of high-school Latin. An attempt is made to serve the individual needs of those who enroll. An especial emphasis is placed upon methods of arousing the students' interest in Latin.

(4 hours.) Summer quarter.

41, 42. PRACTICE TEACHING IN LATIN.

Required in the senior year of those whose major subject is Latin. (4 hours.) Winter and spring quarters.

43. OVID, METAMORPHOSES.

(4 hours.) Fall quarter.

44. LATIN COMPOSITION. This course is based upon a review of the authors usually read in high school.

(4 hours.) Winter quarter.

45. MEDIEVAL LATIN. Selections from Boethius to Erasmus.
(4 hours.) Spring quarter.

46. ROMAN COMEDY. The Menaechmi and Captivi of Plautus; the Phormio and Andria of Terence.

(4 hours.) Omitted 1935-36.

47. SELECTIONS FROM MARTIAL AND CATULLUS.

(4 hours.) Omitted 1935-36.

48. OUR DEBT TO GREECE AND ROME. The classical background of civilization is considered—the language, law, philosophy, ethics and religion of the Greeks and the Romans. No knowledge of Latin is required.

(4 hours.) Omitted 1935-36.

49. ORAL LATIN. This course is designed solely for those who are or aim to be *teachers* of Latin. Practice in understanding simple, spoken Latin and in writing elementary composition receives the major portion of class consideration.

Prerequisite: One year of college Latin. Students who have read Virgil may enter the class with the permission of the instructor. (4 hours.) Summer quarter.

FRENCH

30, 31, 32. FIRST YEAR FRENCH. A careful study of the principles of grammar. Special attention is paid to pronunciation and drill in rhythm and intonation. Study of phonetics as an aid to pronunciation. Reading of simple French texts.

Elective. (4 hours for each course.) No credit toward graduation for less than a year's work. French 30, fall quarter; French 31, winter quarter; French 32, spring quarter.

33, 34, 35. ADVANCED FRENCH. This sequence is conducted with the primary end in view of advancing the student's reading ability. Specific texts by Hemon, Bazin, Anatole France, Dumas Pere, and Balzac are read. Outside reading reports are made every two weeks. The classes are conducted in French.

Prerequisite: Two years of high-school French or one year of college French. *Elective.* (4 hours for each course.) French 33, fall quarter; French 34, winter quarter; French 35, spring quarter.

43, 44, 45. ADVANCED FRENCH. Dramas of Marivaux and Hugo. Modern poetry. Reading of moderately difficult texts. Frequent reports on suggested topics. Oral themes. Conversation.

Prerequisite: Two years of college French. *Elective.* (4 hours for each course.) French 43, fall quarter; French 44, winter quarter; French 45, spring quarter.

GERMAN

30, 31, 32. FIRST YEAR GERMAN. Much time is given during the first few weeks to careful practice in pronunciation. Grammatical forms are studied and easy prose based on the grammar lessons is read. A careful study of grammatical forms is kept up all through the year. Hagboldt's *Graded Texts* are used in

the first and second quarters, and in the third quarter *Immensee* is read. Idiomatic expressions and short poems are studied.

Elective. (4 hours for each course.) No credit toward graduation for less than a year's work. German 30, fall quarter; German 31, winter quarter; German 32, spring quarter.

33, 34, 35. SECOND YEAR GERMAN. The first quarter is a rapid review of the grammar and a careful study of the subjunctive. When that is completed, Bacon's *German Composition* is taken up. During the year *Germelshausen*, by Gerstäcker, *Der Schwiegersohn*, by Baumbach, and *Wilhelm Tell*, by Schiller, are studied. Outside reading of German books is required each quarter, on which a written report has to be given. Some poems are learned.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. (4 hours for each course.) German 33, fall quarter; German 34, winter quarter; German 35, spring quarter.

43, 44, 45. THIRD YEAR GERMAN. Longer and more advanced German stories and plays by standard authors. German 45 stresses prose composition.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. (4 hours for each course.) Omitted 1935-36.

GEOGRAPHY

Note: For elementary grade or department teachers, Geography 20, 21, 30, 33, 36, and 40 are recommended.

Those preparing to teach geography in high school should take Geography 20, 21, 30, 33, 36, and 47 (or 44 or 46).

20. PRINCIPLES OF GEOGRAPHY. A survey of the basic relationships between the natural environment and man's activities. This course is organized as a service course for those who are preparing for grade teaching and as a foundation for those who have selected geography as a major or minor subject.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades. Elective for others. (4 hours.) Every quarter.

21. CLIMATOLOGY. A treatment of climates and their causes. As a basis, a study is made of the form and motions of the earth as underlying influences upon the elements of weather and climate.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades. Elective for others. (4 hours.) Every quarter.

Note: Studies of the continents lead to an understanding of the industrial and commercial development and possibilities of geographic regions.

30. GEOGRAPHY OF NORTH AMERICA. A study of the countries of North America, showing the geographic basis for their stages of development and commercial relations.

Prerequisite: Geography 20 and 21. Elective. (4 hours.) Spring and summer quarters.

31. GEOGRAPHY OF SOUTH AMERICA. A study of the countries of South America, showing the geographic basis for their stages of development and commercial relations.

Prerequisite: Geography 20 and 21. Elective. (4 hours.) Winter and summer quarters.

33. PHYSIOGRAPHY. A study of the processes which change the surface of the earth. The course includes quite extensive work in interpreting the earth's surface through the use of topographic maps. This course should be elected by those who may teach physiography or general science in high school.

(4 hours.) Fall quarter.

36. ELEMENTS OF GEOLOGY. The course presents the history of the development of the earth and life to the present form, emphasizing the explanation of the distribution and accessibility of the mineral resources of the earth. It is offered as a cultural subject and as a foundation for advanced study and reading in the fields of geography, botany, and zoölogy.

(4 hours.) Spring and summer quarters.

40. THE TEACHING OF GEOGRAPHY. A study of the principles involved in the selection, organization and presentation of geographic material for elementary and secondary schools according to the individual needs of the class.

Required in the senior year of those whose major subject is geography. (4 hours.) Fall quarter.

41, 42. PRACTICE TEACHING IN GEOGRAPHY.

Required in the senior year of those whose major subject is geography. (4 hours for each course.) Winter and spring quarters.

43 (32). GEOGRAPHY OF EUROPE. A study of the countries of Europe showing the geographic basis for their stages of development and commercial relations.

Prerequisite: Geography 20 and 21. Elective. (4 hours.) Summer quarter.

44. TRADE AND TRANSPORTATION. A survey of the major trade regions of the world and the transportation facilities which have contributed to their development.

Prerequisite: Geography 20, 21. (4 hours.) Omitted 1935-36.

45. GEOGRAPHY OF ASIA. An advanced course dealing chiefly with China, Japan, and India after a general survey of the continent.

Prerequisite: Geography 30, 31, 32. (4 hours.) Winter quarter.

46. URBAN GEOGRAPHY. A detailed study of the location, growth, decline, and characteristics of cities as influenced by the natural environment.

Prerequisite: Geography 20, 21. (4 hours.) Spring quarter.

47. ECONOMIC GEOGRAPHY. An advanced course for teachers of commercial geography in high school and for Senior College students.

No prerequisite. (4 hours.) Summer term.

HISTORY AND SOCIAL SCIENCE

Requirements for a major: History 37, 38, 39; History 33, 34, 35; History 46, 47, 48; and Economics 44, 45, 46 or Government 43, 44, 45; and History 40, 41, 42.

Requirements for a minor: Two of the above year sequences excluding History 40, 41, 42.

HISTORY

33. HISTORY OF THE UNITED STATES, 1492-1824. A brief survey of American exploration and colonization against the European background, with a more intensive study of the formation of the Union and the foundations of traditional American policies.

(4 hours.) Fall quarter.

34. HISTORY OF THE UNITED STATES, 1824-1876. Jacksonian Democracy and the beginnings of the modern pattern of political action; sectionalism and the westward movement; the Civil War and its aftermath.

(4 hours.) Winter quarter.

35. HISTORY OF THE UNITED STATES, 1876 TO THE PRESENT. Development of industrial America and origins of present-day social and economic problems; movements for liberal reform; the World War and post-war problems, ending with an attempt to evaluate the New Deal.

(4 hours.) Spring quarter.

37. GREEK CIVILIZATION. This course includes a brief survey of the civilizations of the Nile, Tigris and the Euphrates valleys. The chief emphasis is on the early Greek settlements, their colonial expansion, the development of their economic and

political institutions, their cultural life, and their contributions to the development of civilization.

(4 hours.) Fall quarter.

38. ROMAN HISTORY. The early life of the Romans and the development of the institutions of the republic. The expansion of the Roman power, the development of the empire. Special attention is given to the development of political institutions and of the Roman law.

(4 hours.) Winter quarter.

39. MEDIEVAL EUROPE, 500 TO 1500 A. D. The break-up of the Roman Empire and the Barbarian Invasions. The development and significance of the Church; the development of the feudal organization of society; the crusading movement; the development of town life; the development of strong states; the Renaissance.

(4 hours.) Spring quarter.

40. METHODS. The characteristics of the social sciences and their place in the public school curriculum. Training in methods of study; kinds and use of illustrative material; selection and use of collateral reading; critical examination of representative textbooks, examination and appraisal of classroom procedures.

Required in the senior year of those whose major subject is the social sciences. (4 hours.) Fall quarter.

41, 42. PRACTICE TEACHING IN THE HIGH SCHOOL UNDER CRITICAL SUPERVISION.

Required in the senior year of those whose major subject is the social sciences. (4 hours for each course.) Winter and spring quarters.

43. THE HISTORY OF ENGLAND TO 1603. Early settlement of the British Isles; Roman occupation; Anglo-Saxon civilization; the early Church; the Norman Conquest and relations with France; the development of the common law and Parliament; the development of the Church and the separation of the Anglican Church; English art and literature.

Elective. (4 hours.) Fall quarter.

44. THE HISTORY OF ENGLAND, 1603-1830. Discovery and colonial expansion and the founding of the British Empire; the constitutional struggles and the supremacy of Parliament; the commercial, agricultural and industrial revolutions; the literature and science of the period; the long struggle with France for colonial supremacy.

Elective. (4 hours.) Winter quarter.

45. THE HISTORY OF THE BRITISH EMPIRE, 1830 TO THE PRESENT. The reformation of Parliament; the development of

industry and commerce and trade rivalry; development of scientific thought; the World War and its consequences.

Elective. (4 hours.) Spring quarter.

46. HISTORY OF EUROPE, 1500 TO 1789. The New World, colonization and trade rivalry; the Reformation and revolt from the Church; the predominance of Spain; the rise of France and the long struggle between France and the Hapsburgs and between France and England; the development of the British Empire; the rise of Prussia and Russia; the Intellectual Revolution.

(4 hours.) Fall quarter.

47. HISTORY OF EUROPE, 1789-1871. The French Revolution and the era of Napoleon; the Industrial Revolution; the Revolutionary movements in Europe; the unification of Italy and of Germany; the rapid expansion of commerce; the increasing prominence of India, China, and Japan; the development of science and education.

(4 hours.) Winter quarter.

48. HISTORY OF EUROPE, 1871 TO THE PRESENT. The development of nationalism; commercial and colonial rivalry and military and naval rivalry; the Triple Alliance, the Triple Entente; the causes of the World War, and the revolution in the methods of warfare; the treaties of peace and the League of Nations; the revolutionary movements since the World War.

(4 hours.) Spring quarter.

ECONOMICS

20. ECONOMIC HISTORY OF THE UNITED STATES. A brief sketch of our economic development to 1860 with more intensive analysis of the growth of modern business, industry, and finance. The course intends to give an historical basis for the understanding of present economic problems.

Required of Industrial Arts majors in the freshman year. (4 hours.) Spring quarter.

44. PRINCIPLES OF ECONOMICS. Basic characteristics of the economic order; free private enterprise and capitalistic organization of industry; the operation of the existing economic order; price as influenced by competition, cost of production, monopoly, and public authority.

Elective. (4 hours.) Fall quarter.

45. PRINCIPLES OF ECONOMICS, CONTINUED. The business cycle, determination of the price level; position of the consumer; the labor bargain and the labor problem; the reward of capital

and of business enterprise; the support of the state; international economic policies; monetary and financial problems.

Prerequisite: Economics 44. (4 hours.) Winter quarter.

46. MONEY AND BANKING. Money, currency and credit; functions and qualities of money; banks, kinds of banks, their organization and functions; the Federal Reserve system and its functions; bank credit, the problem of its control; theories of value and prices; international connection of prices; the problem of the control of the price level.

Prerequisite: Economics 44 and 45. (4 hours.) Spring quarter.

GOVERNMENT

43. STATE GOVERNMENT. A study of the structure and functions of the government of the state. The course directs attention particularly to the government of Illinois. The obligations of good citizenship are stressed. The Constitution of Illinois is examined in detail. Suggestions concerning the technique of teaching government in high school are included in all the government courses offered in the college. Students are made familiar with desirable illustrative material and choice collateral reading.

(4 hours.) Fall and summer quarters.

44. LOCAL GOVERNMENT. A study of the structure and functions of the government of the political subdivisions of the State. About one half of the course is devoted to city government, and one half to the government of the county, township, and other local units. The governments of typical cities, townships, and counties of Illinois are studied in detail. The obligations of good citizenship are stressed, with particular attention to the responsibilities of the teacher to his community.

(4 hours.) Winter and summer quarters.

45. THE NATIONAL GOVERNMENT. A study of the structure and functions of the national government of the United States, with particular attention paid to federal-state relationships. The development of federal institutions is traced. The Constitution of the United States is examined in detail. The obligations of federal citizenship are stressed.

(4 hours.) Spring and summer quarters.

46. POLITICAL PARTIES AND POLITICS. A study of the development, organization, and functions of political parties in the United States. The significance of the political party, from local community to nation, is examined. The practical workings of political groups are studied, together with suggestions for de-

sirable reforms and an examination of the part the individual citizen can play in securing these reforms.

(4 hours.) *Omitted 1935-36.*

47. INTERNATIONAL RELATIONS OF THE UNITED STATES. A study of the place of the United States in the world community with particular attention to the methods and policies of the United States in dealing with foreign nations. The development of the machinery and spirit of international cooperation is traced.

(4 hours.) *Omitted 1935-36.*

SOCIOLOGY

43. THE COMMUNITY AND SOCIETY. The contemporary community as the unit of social study, the bases of community life, types of communities, of activities, of organization, of government, and of maladjustments. Community planning. Relations of the community to society as a whole.

(4 hours.) *Fall quarter.*

44. PRINCIPLES OF SOCIOLOGY. Social relations and institutions, society as communication, competitive cooperation and functional patterns, spatial structure of society, social change, social disorganization, the person in relation to culture and the social organization, social control, and social reform.

Prerequisite: Sociology 43. (4 hours.) Winter quarter.

45. SOCIAL PROBLEMS AND SOCIAL TRENDS. The nature of social problems; the problem of adjustment to external nature; population problems; problem of the distribution of wealth and income; health and physical welfare; control and care of defectives; the family and child welfare; crime; the meaning and agencies of social control.

Prerequisite: Sociology 43 and 44. (4 hours.) Spring quarter.

HOME ECONOMICS

Note: The four-year curriculum in home economics (See Curriculum II, 2 F) is designed to cover the needs of teachers who wish to teach home economics in high schools which receive Federal Aid under the Smith-Hughes Law. It has been approved by the State Supervisor of Home Economics.

I. CLOTHING

30. CLOTHING. Textile study. A study of textile fibers, their production, nature and manufacture into fabrics, and an analysis of fabrics by means of various tests.

(4 hours.) *Fall quarter.*

31. CLOTHING. Elementary Clothing. A study of the fundamentals of clothing construction and selection. Stress is placed on the use of the commercial pattern, and cotton or linen garments are made.

Prerequisite: Clothing 31. (4 hours.) Winter quarter.

32. CLOTHING. A study of various methods of making garments, such as pattern making and draping. These are applied in the making of garments.

Prerequisite: Clothing 31 (4 hours.) Spring quarter.

34. CLOTHING. Costume Design. A study of beauty in costume through the application of art principles. The application is made in the selection and designing of costumes for various types and occasions.

Prerequisite: Art 30 (HE), 31 (HE). (4 hours.) Spring quarter.

44. CLOTHING. An evaluation, selection, and construction of clothing for infants, and children of various ages.

Prerequisite: Clothing 31. (4 hours.) Fall quarter.

45. CLOTHING. A study of the consumer's problem—the selection, care, and repair of clothing.

Prerequisite: Clothing 30, 31. (4 hours.) Winter quarter.

Note: One of the two advanced clothing courses, Clothing 44 or 45, is required.

II. FOODS AND NUTRITION.

30. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Relation of health to food study. Breakfast.

Prerequisite: Chemistry 30, 31, 32. (4 hours.) Fall quarter.

31. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Luncheons. Christmas candies.

Prerequisite: Foods 30. (4 hours.) Winter quarter.

32. FOODS AND NUTRITION. Study and preparation of foods on meal basis plan. Teas, dinners.

Prerequisite: Foods 31. (4 hours.) Spring quarter.

43. FOODS AND NUTRITION. Experimental cookery. Conventional methods in cookery studied experimentally. Recipes analyzed and effects of various proportions studied.

Prerequisite: Foods 32 and Chemistry 30, 31, 32, 43. (4 hours.) Omitted 1935-36.

44. FOODS AND NUTRITION. Dietetics. Principles of normal human nutrition. Application of practical feeding problems to the individual. Calculation and preparation of dietaries.

Prerequisite: Foods 43. (4 hours.) Omitted 1935-36.

45. FOODS AND NUTRITION. Meal planning and serving. Individual planning and preparation of meals for family groups including adaptation to needs of child. Aesthetic phase and social opportunities in meals emphasized.

Prerequisite: Foods 44. (4 hours.) Omitted 1935-36.

III. HOME ECONOMICS

40. ADMINISTRATION AND METHODS IN HOME ECONOMICS.

Prerequisite: Junior standing in the home economics curriculum. (4 hours.) Fall quarter.

41C. PRACTICE TEACHING IN CLOTHING AND RELATED SUBJECTS.

Prerequisite: Home Economics 40. (4 hours.) Omitted 1935-36.

41F. PRACTICE TEACHING IN FOODS AND NUTRITION.

Prerequisite: Home Economics 40. (4 hours.) Winter and spring quarters.

Note: In addition to Home Economics 41C and 41F, four quarter hours of practice teaching in a minor subject are required.

43. HOUSEHOLD PHYSICS. A study of labor-saving devices and other equipment in the home with relation to their purchase, care, and use.

(4 hours.) Omitted 1935-36.

44. HOUSE PLANNING AND FURNISHING. See Art 44.

Prerequisite: Junior standing in the home economics or art curriculum. (4 hours.) Spring quarter.

45. HOME MANAGEMENT. The business problems of the home are studied; budget making and ways of meeting problems of the home. Four weeks' practice in the Home Management House.
(4 hours.) Spring quarter.

46. HOME NURSING AND CHILD CARE. 1. Physical care and training of the infant and pre-school age child. 2. A study of the factors to be used in the training and development of children in the home.

(4 hours.) Omitted 1935-36.

58. INDUSTRIAL HISTORY. See Education 58.

Prerequisite: Junior standing in the home economics or industrial arts curriculum. (4 hours.) Spring quarter.

INDUSTRIAL ARTS

24. PRIMARY AND INTERMEDIATE GRADE HANDWORK. A course for teachers of intermediate and lower grades. Paper folding, paper weaving, cardboard construction, bookbinding, woodwork, basketry (reed and raffia), cord and yarn work, clay work. Educational values of handwork activities.

Required in the two-year curriculum unless Industrial Arts 25 is taken. Required in the four-year elementary curriculum for the lower grades. (4 hours.) Winter, spring, and summer quarters.

25. INTERMEDIATE GRADE WORK. The making of wooden toys and games. Related information on tools, materials, and processes. Educational values of industrial arts activities. Some work in metal and other media of industrial arts.

Required in the two-year curriculum unless Industrial Arts 24 is taken. Required in the four-year elementary curriculum for the upper grades. Elective for Industrial Arts majors. (4 hours.) Winter quarter.

26 (43). SHEET METAL. The construction of simple sheet metal problems, including pipe intersections. Practice in surface development as applied to the sheet metal worker's trade. Related information.

(4 hours.) Spring quarter.

27 (50). ARCHITECTURAL DRAWING. Drawings of plans of a two-story house, designed by students. Types of architectural design. Architectural details. Related information.

Required in the Industrial Arts curriculum. Prerequisite: Industrial Arts 31. (4 hours.) Spring quarter.

28 (48). MACHINE SHOP. Problems on the engine lathe. A beginning course in the principles underlying machine shop work.

Required in the Industrial Arts curriculum. (4 hours.) Winter quarter.

29 (59). ELEMENTARY PRINTING. The study of the fundamental processes of hand composition and presswork. Methods of teaching printing in secondary schools. Practice in typical problems of typesetting and press feeding.

Required in the Industrial Arts curriculum. (4 hours.) Spring quarter.

31. ELEMENTARY MECHANICAL DRAWING. A course in the fundamentals of mechanical drawing. Orthographic projection, isometric, oblique, and mechanical perspective are taken up, as well as lettering and elementary machine design and cabinet drawing. Related information, stressing the uses of drafting. Free-hand sketches and drawing are also taught.

Required in the Industrial Arts curriculum. (4 hours.) Fall quarter.

34. BENCH WOODWORK. Construction of problems involving a variety of tools and processes. Instruction in the use and care of tools. Study of woods, hardware, and materials used in woodwork.

Required in the Industrial Arts curriculum. (4 hours.) Winter quarter.

35. BENCH METAL WORK. The construction of problems in mild steel, wrought iron, and sheet metal by means of hammering, bending, and shaping of the cold metal. Practice in the design of ornamental metal problems. Instruction in the uses of metals, composition of metals, and related information. Some practice is given in oxy-acetylene welding and forge work.

Required in the Industrial Arts curriculum. (4 hours.) Fall quarter.

36. FURNITURE AND CABINET CONSTRUCTION. Practice in the use and care of power woodworking machinery. Study of periods and styles of furniture. Study of furniture design. The construction of a piece of furniture designed in Industrial Arts 31. Problems in woodturning.

Required in the Industrial Arts curriculum. Prerequisite: Industrial Arts 34. (4 hours.) Fall quarter.

37. ADVANCED FURNITURE AND CABINET CONSTRUCTION. A continuation of Industrial Arts 36. Production methods are studied. Shop and machine maintenance are stressed.

Prerequisite: Industrial Arts 36. Elective. (4 hours.) Fall quarter.

39. HOUSEHOLD MECHANICS. The first half of the course consists of refinishing and repairing furniture, simple carpentry work, and concrete work. The remainder of the course consists of study, installation, and repair of household equipment.

Elective. (4 hours.) Omitted 1935-36.

40. THE TEACHING OF INDUSTRIAL ARTS. A course in the special methods of teaching the industrial arts subjects.

(4 hours.) Fall quarter.

41, 42. SUPERVISED TEACHING IN INDUSTRIAL ARTS.

Required in the senior year of the industrial arts curriculum. (4 hours for each course.) Every quarter.

44. ELECTRICAL CONSTRUCTION. The construction of various circuits required in bell circuits, shop installations, radio, automobiles, and house wiring. The practical application of electricity for high-school pupils is discussed.

Elective. (4 hours.) Winter quarter.

46. PATTERN MAKING. The construction of wood patterns representing typical problems encountered in reproducing metal castings.

Elective. (4 hours.) Omitted 1935-36.

52. ADVANCED ENGINEERING DRAWING. Study of machine parts, cams and gears. Original design of a small machine.

Elective. (4 hours.) Omitted 1935-36.

53. AUTO MECHANICS. Mechanical principles employed in the automobile; study and comparison of standard commercial cars. Repair work is done on various types of automobiles.

(4 hours.) Fall and winter quarters.

54. ADVANCED MACHINE SHOP. The construction of a small portable machine, requiring the use of milling machine, shaper, radial drill, etc.

Elective. (4 hours.) Winter quarter.

55. ELEMENTARY CARPENTRY. Elements of building construction. Practice in structural work.

Required in the Industrial Arts curriculum. (4 hours.) Winter and spring quarters.

56. ADVANCED CARPENTRY. A continuation of Industrial Arts

55. Roof design, house planning, practice in structural work.

Prerequisite: Industrial Arts 55. Elective. (4 hours.)

Winter and spring quarters.

57. AUTOMOBILE ELECTRICITY. Electrical principles as employed in the automobile; study of every electrical unit for mechanical construction and electrical principles. Repair of electrical units on standard commercial cars.

Elective. (4 hours.) Fall and winter quarters.

58. HISTORY OF INDUSTRIAL EDUCATION. The development of industrial education; changes in content and viewpoint are brought out. The relation of industrial arts education to general education is stressed.

Required in the Industrial Arts curriculum. (4 hours.) Fall quarter.

60. ADVANCED PRINTING. Advanced problems in hand composition; business forms; fundamentals of design. Make ready on platen and cylinder presses. Press feeding. Practice on type problems or school work.

Prerequisite: Industrial Arts 29 (59). Elective. (4 hours.) Winter and spring quarters.

61. LINOTYPE OPERATION AND MAINTENANCE. A course in the care and maintenance of the linotype and a study of its parts and their functions. Half the time available is given to operation of the machine when the proper type problems or school jobs are composed on the machine.

Prerequisite: Industrial Arts 29 (59). Elective. (4 hours.) Winter and spring quarters.

THE USE OF THE LIBRARY

Certain courses offered in the College require considerable work in the library, including reading, and looking up refer-

ences, and assigned topics. To do this work with the wisest expenditure of time and effort, students should know how to use the card catalogue, magazine indexes, and some common reference books. Lessons, required of all students, are given in the freshman year of all curricula. An effort is made to have these lessons prepare for library work required of students in other courses.

20. THE USE OF THE LIBRARY. Freshmen who have completed Library XI in the Teachers College High School are excused from all but the last four lessons of Library 20. They should register for Library 20 (XI), given in the first four weeks of the winter quarter.

Required in the freshman year of all curricula. One hour a week. (1 hour.) Every quarter.

MATHEMATICS

20. ARITHMETIC. This course includes notation and numeration, the fundamental operations with integers and with common and decimal fractions, factors and multiples, English and metric measures, involution and evolution, and simple problems in the measurement of surfaces and solids. The course covers the topics taken up in the first six grades as outlined in the Illinois State Course of Study. Special attention is given to the teaching of these topics in the lower grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. (4 hours.) Every quarter.

21. ARITHMETIC. The primary object of this course is to prepare for the teaching of arithmetic in the seventh and eighth grades. The principal topics discussed are percentage and its application to practical business problems, ratio and proportion, graphs, formulas, intuitive geometry, square root, and the mensuration of surfaces and solids. It is the aim of the classroom instructor to familiarize the students with methods of instruction that can be readily adapted to the seventh and eighth grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. (4 hours.) Winter, spring, and summer quarters.

22. COLLEGE GEOMETRY. The objects of this course are to improve and extend the student's knowledge of the content and methods of Euclidian geometry and to give an introduction to modern geometry.

Required in the sophomore year of those whose major subject is mathematics. (4 hours.) Spring quarter.

29. **DESCRIPTIVE GEOMETRY.** The course includes the line, point, and plane, and their relation to each other; the intersection of surfaces, penetration and development, and conic sections.

Students may take Industrial Arts 31 for credit in Mathematics 29.

Recommended for those whose major subject is mathematics. (4 hours for Mathematics 29.) Winter and spring quarters.

30. **SOLID GEOMETRY.** Chapters XII–XVI. Students who have had solid geometry in high school take Arithmetic 20, Mathematics 29, Trigonometry 33. Those who have not had Geometry 30 take Geometry 30, Arithmetic 20, and Trigonometry 33 in the freshman year.

Prerequisite: Geometry 3. (4 hours.) Fall quarter.

31. **ALGEBRA.** Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number system to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. (4 hours.) Fall quarter.

32. **ALGEBRA.** Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 31 or the equivalent. (4 hours.) Winter quarter.

33. **PLANE TRIGONOMETRY.** Definitions and properties of trigonometric functions, the deduction of important trigonometric formulas, the use of tables of logarithms, the solution of plane triangles, and various practical applications.

(4 hours.) Spring quarter.

34. **PLANE ANALYTIC GEOMETRY.** A beginning course in analytic geometry.

Prerequisite: Trigonometry 33. (4 hours.) Fall quarter.

35. **PLANE ANALYTIC GEOMETRY.** Continuation of the preceding course.

Prerequisite: Analytics 34. (4 hours.) Winter quarter.

36. **ALGEBRA.** Theory of equations including elementary transformation, location of roots, and the solution of the cubic and biquadratic equations; limits, elementary properties of series.

Prerequisite: Algebra 32. Elective. (4 hours.) Spring quarter.

37. **DESCRIPTIVE ASTRONOMY.** This is a non-mathematical course for the general student. The object of the course is to open up the fields of solar and stellar astronomy so that the student may have some appreciation of the structure of the uni-

verse and of the problems and progress of modern astronomy, and may gain knowledge and ability to read the literature of the subject with pleasure and profit. The course is of especial interest to teachers of geography and general science. The work of the course includes lectures, recitations, and field work with the four-inch telescope.

Elective. (4 hours.) Spring quarter.

40. THE TEACHING OF HIGH SCHOOL MATHEMATICS.

Required in the senior year of those whose major subject is mathematics. (4 hours.) Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH SCHOOL MATHEMATICS.

Required of those whose major subject is mathematics. (4 hours for each course.) Winter and spring quarters.

43, 44, 45. DIFFERENTIAL AND INTEGRAL CALCULUS.

Prerequisite: Analytics 35; also Calculus 43 to Calculus 44 and Calculus 44 to Calculus 45. (4 hours for each course.) Calculus 43, fall quarter; Calculus 44, winter quarter; Calculus 45, spring quarter.

46, 47, 48. DIFFERENTIAL EQUATIONS. Advanced Calculus.

I. DIFFERENTIAL EQUATIONS. An introduction to the study of ordinary and partial differential equations with applications to geometry and mechanics. First half year.

II. ADVANCED CALCULUS. Second half year.

Prerequisite: Calculus 43, 44, 45. (4 hours for each course.) Calculus 46, fall quarter; Calculus 47, winter quarter; Calculus 48, spring quarter.

MUSIC

I. MUSICAL ORGANIZATIONS

THE COLLEGE MEN'S GLEE CLUB. During the first weeks of the college year, college men may try for a place in this club. The club meets twice a week and appears in public several times during the year, giving the annual concert in March.

THE COLLEGE WOMEN'S GLEE CLUB. Membership in this club is open to all college women who meet the vocal and reading requirements in the preliminary rehearsals. The club meets for two one-hour rehearsals a week in the evening and makes many local appearances during the year. They present one formal concert in the spring.

BAND. Two bands are organized each year, the marching band and the concert band. There are from fifty to sixty musicians in each band.

The marching band plays for home football and basketball games and in the fall sometimes goes to out-of-town games with the team. One or two rehearsals are held weekly.

The concert band gives concerts during the year and plays for special occasions. Both bands are fully uniformed. There are two rehearsals weekly.

ORCHESTRA. The orchestra numbers about thirty pieces, gives two concerts a year and plays for other occasions.

Instruments are furnished without cost to the members of the band and orchestra.

II. PUBLIC SCHOOL MUSIC

Note: Students who wish to make music a minor subject may take Music 30, 31, 32, 33, 34, 35 (or 20).

20. PRACTICE TEACHING IN MUSIC. This course is devoted to a detailed study of the material and methods of teaching music in the elementary school with practice teaching in two grades.

Prerequisite: Music 24 (or the equivalent) and recommendation of the supervisor of public school music and of the director of the Elementary Training School. (4 hours.) Fall, winter, and spring quarters.

O. THEORY AND SIGHT READING. The fundamentals of music, including ear training and sight reading for students in the two-year grade curriculum who have never studied music. Students registering for Music 24 are transferred to Music O, a non-credit course, if they have not the prerequisite for Music 24. Students are permitted to take Music O in addition to regular work without the requirement of B average. It is offered in every quarter.

Music 24 may be taken in the winter, spring, or summer quarters after Music O has been completed.

24. PUBLIC SCHOOL MUSIC. Elementary sight singing and lower grade methods. The second half of the quarter is devoted to methods of teaching music in the first six grades with observation in the Training School.

Required in the sophomore year in the two-year curriculum for the preparation of teachers of the grades. (4 hours.) Every quarter.

25. MUSIC. The study of standard musical compositions for solo voice, instruments, and various ensembles through listening to musical programs, phonograph records and through certain assigned readings. A small part of the course is devoted to the teaching of music appreciation.

No prerequisite. Elective in the four-year elementary curriculum. (4 hours.) Fall quarter.

30. ELEMENTARY THEORY. A course designed to give a thorough ground work in the melodic, harmonic, and rhythmic ele-

ments of music. Scales, intervals, chords, and cadences are studied in singing, writing, playing, and dictation.

Required in the freshman year of the music curriculum. (4 hours.) Fall quarter.

31. **ELEMENTARY THEORY.** A continuation of the work in the fall quarter, with the inclusion of key relation and modulation. Sight reading of two-part music and more complicated rhythms. Emphasis is placed continually on ear training.

Required in the freshman year of the music curriculum. Prerequisite: Music 30. (4 hours.) Winter quarter.

32. **ELEMENTARY THEORY.** Rhythmic, melodic, harmonic dictation with thorough practice in sight reading in two-, three-, and four-part music. Transposition and reading of clefs.

Required in the freshman year of the music curriculum. Prerequisite: Music 31. (4 hours.) Spring quarter.

33. **HARMONY.** Music composition in the elementary forms with a complete study of the necessary harmonic equipment which includes primary and secondary triads with inversions.

Required in the sophomore year of the music curriculum. Prerequisite: Music 32. (4 hours.) Fall quarter.

34. **HARMONY.** Continued writing and playing from dictation of the chords learned in the fall quarter. Introduction and use of seventh chords. Composition and study of small forms.

Required in the sophomore year of the music curriculum. Prerequisite: Music 33. (4 hours.) Winter quarter.

35. **HARMONY.** Composition of a three-part song form with further use of the harmonic materials studied in the fall and winter quarters. Introduction to elementary counterpoint.

Required in the sophomore year of the music curriculum. Prerequisite: Music 34. (4 hours.) Spring quarter.

III. PIANO

30. **CLASS INSTRUCTION.** Finger exercises, major scales in different form and rhythm. Burgmüller Etudes Op. 100 and easy solo pieces.

Elective. (2 hours.) Fall quarter.

31. **CLASS INSTRUCTION.** Major and minor scales in different form and rhythm. Burgmüller Op. 109; Octave Studies by Loeshhorn; sonatas and solos.

Elective. (2 hours.) Winter quarter.

32. **CLASS INSTRUCTION.** Major and minor scales. Burgmüller Op. 105; School of Velocity by Czerny; Bach, Mozart, and Beethoven studies.

Elective. (2 hours.) Spring quarter.

33, 34, 35. CLASS INSTRUCTION (ADVANCED). Finger technique; school for artists by Czerny; Two- and Three-part Inventions by Bach; solo pieces and concertos for two pianos.

Elective. (2 hours for each quarter's work.) Fall, winter, and spring quarters.

IV. VOICE

30. CLASS INSTRUCTION. Position of body, correct breathing, tone and vowel placement. Concone Solfeggios and easy songs.

Elective. (2 hours.) Fall quarter.

31. CLASS INSTRUCTION. Tone development; the study of falsetto to be used in teaching children. Concone and Lamberti studies. Songs, duets, trios and quartets.

Prerequisite: Voice 30. Elective. (2 hours.) Winter quarter.

32. CLASS INSTRUCTION. Tone development, perfect vowel placement, the falsetto voice. Lamberti and Marchesi studies; songs in English, German, French and Italian.

Elective. (2 hours.) Spring quarter.

33, 34, 35. CLASS INSTRUCTION (ADVANCED). Continuation of Voice 32 and anthology of old Italian masters.

Elective. (2 hours for each quarter's work.) Fall, winter, and spring quarters.

V. INSTRUMENTAL MUSIC

36. INSTRUMENTATION I. Study of instruments as to their range, transposition, use, peculiarities of intonation, uniting and penetrating powers; the adaptation of melodies and four-part music to various instrument combinations.

Organization of orchestras and bands in public schools; the relation of instrument classes to these organizations; the study of graded material for their use.

Elective. (4 hours.) Fall quarter.

37. INSTRUMENTATION II. Study of the instruments and choirs of the orchestra; the orchestral score; the arranging for instruments of orchestra and band from the piano score; re-scoring for small orchestras; writing a conductor's score from orchestral parts.

Prerequisite: Instrumentation 36. Elective. (4 hours.) Winter quarter.

38. CONDUCTING. The technique of the baton, practice in conducting, interpretation.

Prerequisite: Instrumentation 36, 37. Elective. (4 hours.) Spring quarter.

PENMANSHIP

20. PENMANSHIP. The course in penmanship is designed to give the students an opportunity to improve their own handwriting, both at the desk and at the blackboard, and at the same time they are given methods of teaching for each grade. The students make individual progress charts and learn how to grade their own handwriting as well as that of the children's from various standard handwriting scales. The students who have made satisfactory progress at the end of the first six weeks may start writing for their teachers certificates. During the last six weeks, these students are given a chance to observe and to teach handwriting in the Training School. This course not only enables the students to acquire a thorough knowledge of the subject, but gives them an opportunity to complete all requirements for the teachers certificate in handwriting.

Required in the two- and four-year elementary curricula. (1 hour.) Every quarter.

PHYSICAL EDUCATION FOR MEN

Illinois law requires two hours of physical education per week for two years. A thorough physical examination is required.

Credit earned in the required courses in physical education is in addition to the 96 quarter hours required for a diploma and the 192 quarter hours required for a degree.

Physical education and coaching may be used as a second minor subject, but not as the only minor subject.

No student is permitted to count less than 12 nor more than 24 quarter hours in physical education and coaching for credit toward graduation.

EQUIPMENT. Each student taking physical education is required to have a gymnasium suit. This suit consists of a regulation sleeveless jersey and running pants (both white), sweat shirt and pants, and soft-soled shoes. These cost about \$2.75, and should be bought in Charleston. The student is required to keep these clean and in good condition.

REQUIRED COURSES

Freshman and Sophomore Years

First Year's Work. REGULAR EXERCISES IN THE GYMNASIUM OR PARTICIPATION IN A VARSITY SPORT.

(1 hour for each quarter's work, but not counted toward graduation total.) Every quarter.

Second Year's Work. GYMNASIUM WORK OR PARTICIPATION IN A VARSITY SPORT.

(1 hour for each quarter's work, but not counted toward graduation total.) Every quarter.

ELECTIVE PHYSICAL EDUCATION

For Sophomores, Juniors, and Seniors

33. PHYSICAL EDUCATION FOR TEACHERS, I. The history of physical education; the physical education program.

Prerequisite: At least sophomore classification. (4 hours.)
Fall quarter.

34. PHYSICAL EDUCATION FOR TEACHERS, II. Advanced work in the gymnasium, playground work and games, athletic management for junior high schools.

Prerequisite: At least sophomore classification. (4 hours.)
Winter quarter.

35. PHYSIOLOGY, HYGIENE, AND ANATOMY. Physiology and physical education, the care of the body, the study of muscles and bones, the treatment of sprains, bruises and wounds, massaging and bandaging.

Prerequisite: At least sophomore classification. (4 hours.)
Spring quarter.

36. BASKETBALL. Study of the rules. Practice in passing, dribbling, shooting, pivoting, and teamwork. Discussion of plays and tournaments.

Prerequisite: At least sophomore classification. (4 hours.)
Fall quarter.

37. TRACK AND FIELD. A study of forms in starting, sprinting, hurdling, jumping, discus throwing, javelin, shot putting, pole vaulting. Study of rules, discussion of training and preparation for each event.

Prerequisite: At least sophomore standing. (4 hours.)
Winter quarter.

38. FOOTBALL. The theory and practice of the game. Fundamentals, rules, systems.

Prerequisite: At least sophomore classification. (4 hours.)
Spring quarter.

41. PRACTICE TEACHING IN GYMNASIUM AND PLAYGROUND WORK.

Prerequisite: Senior College classification. (4 hours.)
Every quarter.

44. THE ORGANIZATION AND ADMINISTRATION OF PHYSICAL EDUCATION. Program, curriculum, the physical education plant,

finances, the gymnasium, locker room, shower room, equipment, records, interschool relations.

Prerequisite: Senior College classification. (4 hours.) Winter quarter.

46. PRACTICE COACHING IN BASKETBALL.

Prerequisite: Physical Education 36 and junior or senior classification. (4 hours.) Winter quarter.

47. PRACTICE COACHING IN FOOTBALL.

Prerequisite: Physical Education 38 and junior or senior classification. (4 hours.) Fall quarter.

48. PRACTICE COACHING IN TRACK AND FIELD.

Prerequisite: Physical Education 37 and junior or senior classification. (4 hours.) Spring quarter.

49. PRACTICE COACHING IN BASEBALL.

Prerequisite: Junior or senior classification with recommendation of the instructor. (4 hours.) Spring quarter.

PHYSICAL EDUCATION FOR WOMEN

Physical Education, two hours a week for two years, is required in the college. This is a law for all students in state supported institutions. This is in addition to the 96 quarter hours required for a diploma and to the 192 quarter hours required for a degree.

A thorough physical examination is given at the beginning of the year to all students registered for physical education and to all new students. The examining physician notes all defects, abnormalities and weaknesses and prescribes exercise to fit the needs of the individual. A resident health director follows up all cases in need of medical attention.

Regulation costumes are required. The approximate cost of the suit is \$2.25. The gymnasium suit should not be purchased until notified by the instructor.

REQUIRED COURSES

The required work in Physical Education is also offered in the summer term.

Freshmen

SPORTS. Hockey, soccer, tennis. For those permitted only moderate exercise—archery, deck tennis.

(1 hour.) Fall quarter.

GAMES. To provide college women with recreation and healthful activity by means of games, such as basketball, volley ball and stunts.

(1 hour.) Winter quarter.

RHYTHM. To provide opportunity for expression and satisfaction of bodily movement through rhythmical activities, such as folk dancing, clogging and rhythm.

(1 hour.) Winter quarter.

SPORTS. Baseball, tennis, hockey. For those permitted only moderate exercise—archery or deck tennis.

(1 hour.) Spring quarter.

Sophomores

SPORTS. Hockey, soccer, tennis. For those permitted only moderate exercise—archery or deck tennis.

(1 hour.) Fall quarter.

RHYTHM WORK FOR THE LOWER GRADES. This course is required of all students planning to teach in the lower grades. The purpose of the course is to give instruction in the choice, use, and presentation of rhythmic activities used in the lower grades and to provide opportunity to teach the same.

(1 hour.) Winter and spring quarters.

GAMES FOR THE LOWER GRADES. This course is required of all students planning to teach in the lower grades. The purpose of the course is to give instruction in the choice, use, and presentation of games used in the lower grades and to provide opportunity to teach the same.

(1 hour.) Winter and spring quarters.

RHYTHM FOR THE UPPER GRADES. This course is required of all students planning to teach in the upper grades. The purpose is to give instruction in the choice, use, and presentation of folk dances and rhythmic activities used in the upper grades and to give opportunity to teach the same.

(1 hour.) Winter and spring quarters.

GAMES FOR THE UPPER GRADES. This course is required of all students planning to teach in the upper grades. The purpose is to give instruction in the choice, use, and presentation of games for the upper grades and to give opportunity to teach the same.

(1 hour.) Winter and spring quarters.

ELECTIVE COURSE

30. PRINCIPLES OF PHYSICAL EDUCATION. A theory course considering the place of physical education in society in America; relation of physical education to general education; the aims and objectives of physical education; principles guiding the choice of material; and methods of judging results. This course may be substituted for any of the above courses with the approval of the instructor. A notebook is required.

Elective. (4 hours.) Summer term.

BIOLOGICAL SCIENCE

I. HUMAN PHYSIOLOGY

20. **HYGIENE AND SANITATION.** The first half of the course considers health factors (environment, living habits, heredity), nutrition, the muscular, excretory, and nervous systems, and the ductless glands.

The second part takes up bacteria and the resistance of the body to them, immunity to disease, water and water purification, sewage disposal, ventilation, food preservation, and health departments.

Required in all curricula. (4 hours.) Every quarter.

43. **ELEMENTARY PHYSIOLOGY.** The fundamental principles of animal physiology, including the chemical and physical structure of animate matter; the reactions involved in animals, including the human body, in responding to environmental conditions; the formation, structure, and functions of blood and lymph; and the fundamental structure of the nervous system with particular emphasis on reflex actions. A survey of the conditions determining the activities of living forms.

Elective. (4 hours.) Summer term.

44. **ELEMENTARY PHYSIOLOGY.** A study of respiration, foods, digestion, metabolism, and excretion.

Prerequisite: Physiology 43. Elective. (4 hours.) Summer term.

45. **ELEMENTARY PHYSIOLOGY.** A study of circulation, the organs of internal secretion, the central nervous system, and the special senses.

Prerequisite: Physiology 43. Elective. (4 hours.) Omitted 1935-36.

II. BOTANY

20. **COLLEGE BOTANY.** A course designed to give the student a knowledge of the fundamental physiological processes concerned in the growth of plants, and of the external and internal structures which are concerned in these processes in leaves, stems, and roots. It includes also the effects of environment on these processes and structures.

Required in the two-year curriculum, unless Zoölogy 23 (or 20) or Botany 21 or 22 is taken. Elective in other curricula. (4 hours.) Every quarter.

21. **COLLEGE BOTANY.** A study of the reproduction of flowering plants, the development of fruit and seeds from the parts of the flower, the mechanism of heredity, and a brief study of the great groups of plants.

Prerequisite: Botany 20. Elective. (4 hours.) Winter and summer quarters.

22. GENERAL LOCAL FLORA. The identification of trees in winter and summer condition, of the common fresh water algae, liverworts, mosses and ferns, and of flowering plants as the season advances; and with a study of structures which is necessary for the recognition of these forms. The course is designed especially for those who expect to teach biological science in secondary schools.

Prerequisite: Botany 20 and 21 or permission of the instructor. Elective. (4 hours.) Spring and summer quarters.

23. DENDROLOGY AND WOOD ANATOMY. This course includes a study of the chemical and physical processes concerned in the formation of cell walls in plants; the development of various types of stems; the distribution of commercial woods; trees in winter and summer condition; the microscopic study of the woods used in the industrial arts.

Required in the freshman year of the Industrial Arts curriculum. (4 hours.) Winter quarter.

30. THE MORPHOLOGY OF GREEN PLANTS. A study of the vegetative and reproductive structures of the green plants and a comparative study of the typical life histories of the great groups. The course consists mostly of laboratory work.

Prerequisite: Botany 20 and 21. Elective. (4 hours.) Fall quarter.

31. INTRODUCTION TO FUNGI AND PLANT DISEASES. The structure, life histories, and physiology of the groups of fungi and their relation to decay, fermentation, and the important plant diseases.

Prerequisite: Botany 20 and 21. Elective. (4 hours.) Winter quarter.

32. ECONOMIC BOTANY. The relation of vegetation centers to crop centers; the effect of environment factors on the production of carbohydrates, fats, fibers, and other plant products; the value of micro-organisms in the important economic practices carried on by their use; the control of the life processes of plants with special reference to the cultural practices in the arts of agriculture and in industry.

Prerequisite: Botany 20 and 21. Elective. (4 hours.) Spring quarter.

40. METHOD IN HIGH-SCHOOL BOTANY. The course includes methods of teaching high-school botany and also the collection and preparation of material for demonstration and laboratory in high-school botany.

Prerequisite: Two years' work in college botany. Required in the senior year in the four-year curriculum in botany. (4 hours.) Fall quarter.

41, 42. PRACTICE TEACHING IN HIGH-SCHOOL BOTANY.

Prerequisite: Botany 40. Required in the senior year in the four-year curriculum in botany unless Zoölogy 41 is substituted. (4 hours for each course.) Winter and spring quarters.

43. MICROTECHNIC. A course designed for the purpose of giving the student a knowledge of the preparation of botanical material for class use and for the making of microscopic slides. It is desirable that students in this course shall have had a year of chemistry.

Prerequisite: Botany 20, 21, 22, and 30, or the equivalent. Elective. (4 hours.) Fall quarter.

44. EXPERIMENTAL PLANT PHYSIOLOGY. A qualitative and quantitative study of the experiments demonstrating the chemical and physical processes that result in the growth of plants and the application of this knowledge in solving problems in the growth of plants.

Prerequisite: One year of chemistry and Botany 20 and 21. Elective. (4 hours.) Winter quarter.

45. ADVANCED BOTANY. This is designed to meet the needs of individual students who wish to do advanced work in some special field of botany. The student may choose the work he wishes to do, but is required to consult the instructor before registering.

Prerequisite: Botany 20, 21, 22, 30, and 43. Elective. (4 hours.) Any quarter, by permission.

46. ADVANCED WOOD ANATOMY AND IDENTIFICATION. A critical study of the development of the tissues of the leaves, stems, and roots of the seed plants; their common ecological variations and hereditary types. A study is made of the structure of the wood of trees with special reference to the anatomy necessary for wood identification.

Prerequisite: Botany 20, 21, 22. (4 hours.) Spring quarter.

III. ZOÖLOGY

20. ANIMAL BIOLOGY. A consideration of fundamental biological principles based upon animal material. This course forms the first quarter of the first year course in zoölogy. The structure of cells, tissues, and organs, together with their functions, are considered.

Elective. (4 hours.) Fall and summer quarters.

21. **ANIMAL BIOLOGY.** This course is concerned with the various types of reproduction in animals and with genetics and eugenics.

Prerequisite: Zoölogy 20 or equivalent. Elective. (4 hours.) Winter and alternate summer quarters.

22. **ANIMAL BIOLOGY.** A study of the structure and habits of the animals of the various divisions of the animal kingdom. Their ecology, geographic distribution, and evolution are considered.

Elective. (4 hours.) Spring and summer quarters.

Students enrolled in this course must either buy or rent a set of dissecting instruments.

23. **NATURE STUDY.** This course is designed to meet the biology requirement of the two-year curriculum. Its aim is to give a background for the teaching of nature study in the grades. It replaces the former requirement of Zoölogy 20. The course includes a study of the fundamental life processes and of the identification of birds and insects. It is not accepted for Zoölogy 21 or 22 toward a laboratory science requirement.

Required in the freshman year of the two-year curriculum unless Botany 20 is taken. Accepted for Zoölogy 20. (4 hours.) Every quarter.

30, 31, 32. **VERTEBRATE ZOÖLOGY.** A study of the anatomy, classification, and habits of various classes of vertebrates. Zoölogy 30 deals with fishes; Zoölogy 31, with amphibians and reptiles; Zoölogy 32, with birds and mammals.

Prerequisite: Zoölogy 20, 21. Elective. (4 hours for each course.) Zoölogy 30, fall quarter; Zoölogy 31, winter quarter; Zoölogy 32, spring quarter.

40. **METHOD IN HIGH-SCHOOL ZOÖLOGY.** The course includes methods of teaching zoölogy and also the collection and preparation of material for demonstration and laboratory in high-school zoölogy.

Prerequisite: Two years' work in college zoölogy. Required in the senior year in the four-year curriculum in zoölogy. (4 hours.) Fall quarter.

41, 42. **PRACTICE TEACHING IN HIGH-SCHOOL ZOÖLOGY.**

Prerequisite: Zoölogy 40. Required in the senior year in the four-year curriculum in zoölogy unless Botany 41 is substituted. (4 hours for each course.) Winter and spring quarters.

43, 44, 45. **ADVANCED ZOÖLOGY.** A study of insects. Deals with the classification and ecology of this large and important class. Methods of collection and preparation of specimens are studied. It prepares for teaching biological science in the upper grades or high school.

Prerequisite: Zoölogy 20, 21. *Elective.* (4 hours for each course.) Zoölogy 43, fall quarter; Zoölogy 44, winter quarter; Zoölogy 45, spring quarter.

46. MICROTECHNIC. Methods and practice in the preparation of microscopic slides of animal tissues. Some histological studies are included.

Prerequisite: Two years of zoölogy and permission of the instructor. (4 hours.) Omitted 1935-36.

47. ANIMAL BEHAVIOR. Theoretical and experimental studies of the reactions of animals to various stimuli.

Prerequisite: Two years of zoölogy and permission of the instructor. (4 hours.) Omitted 1935-36.

48. ANIMAL ECOLOGY. A study of various animal associations and of the effects of environmental conditions.

Prerequisite: Two years of zoölogy and permission of the instructor. (4 hours.) Omitted 1935-36.

49. SPECIAL PROBLEMS IN ZOÖLOGY. Students who have had three years' work in zoölogy may elect this course. With the consent of the instructor a problem which is of interest to the student is selected to give training in original work in the field of zoölogy. Weekly conferences with the instructor guide the student and a written report of the work is required at the end of the quarter.

Prerequisite: Three years of work in zoölogy. May be elected only with the consent of the instructor. Omitted 1935-36.

PHYSICAL SCIENCE

CHEMISTRY

Note: Four year-sequences are offered: 1. General inorganic chemistry and introduction to qualitative analysis (30, 31, 32). 2. Qualitative and quantitative analysis (33, 34, 35). 3. Organic chemistry (43, 44, 45). 4. Physical chemistry (46, 47, 48).

Those for whom chemistry is the minor subject should take Chemistry 33, 34, and 35 for the second year's work if they expect to teach high-school chemistry. Chemistry 50, or 51, or 52 (one quarter) is required of chemistry majors. Chemistry 43 is required for those majoring in home economics and recommended along with 44 and 45 for those majoring in the biological sciences.

30. GENERAL INORGANIC CHEMISTRY. Matter and energy; elements, compounds and mixtures; studies of oxygen, hydrogen, water; fundamental laws and theories of chemistry; symbols, formulas, equations, equilibrium; solutions, ionization, chlorine

and its compounds; the balancing of equations in metathetic reactions and in oxidation-reduction reactions.

(4 hours.) Fall quarter.

31. INORGANIC CHEMISTRY. The halogens, structure of atoms and the periodic law, isotopes; determination of molecular and atomic weights; nitrogen and its compounds; sulfur and its compounds; phosphorus, arsenic, antimony; carbon and its oxides.

Prerequisite: Chemistry 30. (4 hours.) Winter quarter.

32. INORGANIC CHEMISTRY. A continuation of Chemistry 31. The metals and an introduction to the qualitative analysis of the metals.

Prerequisite: Chemistry 30, 31. (4 hours.) Spring quarter.

33. QUALITATIVE ANALYSIS. The chemistry of the metals and the principles involved in their separation and determination.

Prerequisite: Chemistry 30, 31, 32, and Physics 30 (or simultaneous registration for the latter.) (4 hours.) Fall quarter.

34a. QUALITATIVE ANALYSIS. The non-metals.

34b. QUANTITATIVE ANALYSIS. Calibration of apparatus and an introduction to volumetric analysis.

Prerequisite: Chemistry 33. (4 hours.) Winter quarter.

35. QUANTITATIVE ANALYSIS. Continuation of Chemistry 34b and gravimetric analysis.

Prerequisite: Chemistry 34a and 34b. (4 hours.) Spring quarter.

40. THE TEACHING OF CHEMISTRY.

Required in the senior year in the four-year curriculum in chemistry. (4 hours.) Fall quarter.

41, 42. PRACTICE TEACHING IN CHEMISTRY.

Required in the senior year in the four-year curriculum in chemistry. (4 hours for each course.) Winter and spring quarters.

43. ORGANIC CHEMISTRY. An outline of the field of organic chemistry. Some emphasis is laid upon foods and allied substances because of their importance to those majoring in the biological sciences and home economics.

Prerequisite: Chemistry 30, 31, 32. (4 hours.) Fall quarter.

44, 45. ORGANIC CHEMISTRY. The aliphatic and aromatic compounds are studied in some detail.

Prerequisite: Chemistry 43. (4 hours.) Winter and spring quarters.

46, 47, 48. PHYSICAL CHEMISTRY. A study of fundamental physical properties governing chemical reaction.

Prerequisite: Chemistry 33, 34, 35. Physics 30, 31, 32. Trigonometry 33. (Calculus 43, 44, 45 is desirable.) Chemistry 43, 44, 45 is desirable but not necessary. (4 hours for each course.) Omitted 1935-36.

50, 51, 52. **ADVANCED CHEMISTRY.** Laboratory technique, maintenance and repair of apparatus such as that found in the average high-school laboratory, and use of the literature of chemistry are developed in the student by means of a simple research problem. The student is expected to choose the type of work in which he is most interested after consulting with the instructor. One quarter's work is required of all chemistry majors.

Prerequisites: Senior College classification and Physics 30, 31, 32. (4 hours for each course.) Any quarter by permission.

PHYSICS

30, 31, 32. **FIRST YEAR OF COLLEGE PHYSICS.** Physics 30, mechanics and heat; Physics 31, magnetism and electricity; Physics 32, light and sound.

(4 hours for each course.) Physics 30, fall quarter; Physics 31, winter quarter; Physics 32, spring quarter.

35. **MECHANICS AND HEAT.** Second year experiments with Atwood's machine, elastic and inelastic impact, simple harmonic motion; Boyle's and Charles's Law, vapor pressure, mechanical equivalent of heat.

36. **LIGHT.** Second year experiments with lenses and mirrors, prism and grating spectroscopy, Michelson interferometer and polarization phenomena.

37. **MODERN PHYSICS.** Second year experiments with radioactivity, discharge tubes, vacuum tubes, photo-electricity, thermocouples, X-rays.

Prerequisite: Physics 30, 31, 32. (4 hours for each course.) Physics 35, winter quarter; Physics 36, fall quarter; Physics 37, spring quarter.

40, 41, 42. **METHODS AND PRACTICE TEACHING IN PHYSICS.**

Required in the senior year in the four-year curriculum in physics. (4 hours for each course.) Fall, winter, and spring quarters.

43. **RADIO.** A study is made of the principles underlying radio communication. The course includes a study of some typical circuits used in receiving sets and a detailed study of the function of inductance, capacitance, and resistance in electric circuits. Types of vacuum tubes are discussed.

In the laboratory, electrical measurements of parts and assembled units are made. This includes taking characteristic curves of vacuum tubes.

Prerequisite: Physics 31. (4 hours.) Summer term.

44. ELECTRICAL MEASUREMENTS. A laboratory course with experiments on high precision measurements. Potentiometer measurement of potential, current and resistance. Ballistic galvanometer measurements of quantity and capacity. Alternating current bridge. Electro-chemical measurements. Magnetization and hysteresis measurement. Insulation resistance measurement.

Prerequisite: Physics 31. (4 hours.) Summer term.

48. MECHANICS, THEORY. A standard elementary course in theoretical mechanics. Studies of forces acting on a body; vectors; the laws of motion as applied to physical bodies; moment of inertia; momentum; energy.

Prerequisite: Physics 30 and trigonometry. (4 hours.) Spring quarter.

49. HEAT, THEORY. Thermometry, expansion of solids, liquids, and gases. The general gas laws and the kinetic theory. Introduction to thermodynamics.

Prerequisite: Physics 30. (4 hours.) Fall quarter.

50. ELECTRICITY AND MAGNETISM, THEORY. Magnets and the magnetic field; the electric field; direct current and magnetic field; alternating current and phase relations; units.

Prerequisite: Physics 31 and trigonometry. (4 hours.) Winter quarter.

51. LIGHT, THEORY. A brief review of geometrical optics. Phenomena of light studied in terms of physical optics (light as a wave motion). Optical instruments; spectrometry; interference; and polarized light.

Prerequisite: Physics 32 and trigonometry. (4 hours.) Omitted 1935-36.

52, 53. MODERN PHYSICS. A survey of basic experiments and theories of modern physics. Radio-activity; discharge of electricity through gases; X-rays; photo-electricity; the structure of matter and the periodic table; matter and radiation.

Prerequisite: Physics 30, 31, 32, and trigonometry. (4 hours for each course.) Omitted 1935-36.

THE TEACHERS COLLEGE BULLETIN

The Teachers College Bulletin, a sixteen-page monograph, devoted to educational topics, is issued quarterly and distributed in the immediate territory of the College free of charge. The numbers issued in the past six years, exclusive of summer school bulletins and annual catalogues, are:

105. Thirtieth Anniversary Bulletin, *compiled by Grace Geddes and Anna H. Morse.*

106. Alumni Register, 1900 to 1929, *compiled by Ruth Carman.*

109. Practical Arts at the Eastern Illinois State Teachers College, *by L. F. Ashley.*

110. A Mesophytic Ravine, "Rocky Branch," *by E. L. Stover.*

113. The Junior High School, An Annotated Bibliography, *by F. A. Beu.*

114. The Training of Public School Art Teachers, *by Grace E. Messer.*

117. Trees and Shrubs of the Campus, *by E. L. Stover.*

118. Changes in the Student Body, 1925-1930, *by Ralph Haefner, Emma Reinhardt, F. A. Beu.*

121. Number reserved for bulletin on "The Preparation of High School Teachers of Botany and Zoölogy."

122. Number reserved for "English for Elementary Grades, Part I, The First Four Grades."

125. Bulletin of "The Teachers College High School," 1933-34.

ANNOUNCEMENTS FOR 1936-1937

CORRESPONDENCE

Prospective Students

Students contemplating enrollment in the Eastern Illinois State Teachers College should communicate with the Registrar concerning the filing of high school credentials. Inquiries concerning rooms should be addressed to the Dean of Men or Dean of Women, or the Head of Pemberton Hall, respectively.

Students with Advanced Standing

Former students or students from other institutions with advanced standing should communicate with the Dean of the Faculty concerning credits allowed and the completion of any curriculum. Pre-registration for these students is September 1 to 4 inclusive.

Bureau of Teacher Placement

Former students desirous of a change of position should register with the Bureau of Teacher Placement. Blanks will be furnished by the Bureau upon request.

School executives and school boards looking for teachers may obtain detailed and confidential information in regard to the qualifications and teaching experience of any present or former student who is a candidate for a teaching position.

PLEDGE TO TEACH

Eastern Illinois State Teachers College is maintained by the State of Illinois only as an institution for the training of teachers for the public schools of the State. There is no tuition charge except to those persons not expecting to teach. Consequently each student is obligated by the statements of the annual catalogue and by signature to a "Pledge to Teach," which is a part of the student's record on file with the College Registrar. This pledge is considered fully as binding as the signing of a promissory note. Annual report on teaching by the student and cancellation of obligation by the college are provided for on the permanent record card. This pledge reads:

"In consideration of free tuition in the Eastern Illinois State Teachers College, I pledge to teach in the public schools of Illinois for a period equal to that covered by my attendance at the Eastern Illinois State Teachers College; and I agree to report annually to the president of the college the number of months taught in Illinois until this pledge is fulfilled. If I do not teach the required time in the public schools of Illinois within five years after leaving college, I promise to pay to the Eastern Illinois State Teachers College at the end of that period tuition at the rate of \$25.00 for each quarter (twelve weeks) of attendance for which I have not taught an equal time."

(Signed).....

Students not legal residents of Illinois or students not preparing to teach may choose a desired program of study under the direction of the Dean of the College, by paying tuition of twenty-five dollars per quarter in addition to the fees prescribed for regular students.

Students dropped from other colleges because of poor scholarship, or on probation at other colleges because of poor scholarship, are not admitted except as tuition students, until they have successfully completed one quarter's work with a graduation requirement average.

Under the provisions of the Civil Administrative Code for the consolidation of State Agencies under the direction of the Governor, the five State Normal Schools of Illinois are controlled by a single board consisting of eleven members: The Director of Registration and Education, who is ex officio chairman, the Superintendent of Public Instruction, who is ex officio secretary, and nine members appointed by the Governor for terms of six years.

OBJECTIVE

OF THE

EASTERN ILLINOIS STATE TEACHERS COLLEGE

The general objective of this college is to provide students who wish to teach with an integrated general and professional education in both the junior and the senior colleges. This objective is fourfold:

- I. **Scholarship:** The need for a liberal education, for the integration of the work of the various departments, and for the stimulation of a desire for further study is kept steadily in mind. To answer this need, the student is required to specialize in one major field and one minor field, and is encouraged to engage in additional minors.
- II. **Skill in Teaching** is developed through the following practices:
 1. The professionalization of subject matter with a view to the student's ultimate use of his academic subjects in elementary and secondary curricula.
 2. Practice teaching in the elementary and secondary training schools.
 3. The observation of good teaching throughout the institution.
 4. Assistance to teachers outside the institution through visiting, counselling, conferences, addresses, and the observation of their work.
 5. The study and discussion of educational techniques.
- III. **Personal Fitness** is developed by encouraging the formation of habits of work and play which foster intelligence in the care of the mind and body. These habits are fostered through:
 1. Emphasis upon sound character and attractive personality.
 2. Instruction in hygiene and supervision of living conditions.
 3. Opportunity to develop the qualities of leadership through extra-curricular activities.
 4. Definition of the teacher's place in the community.
 5. Educational and vocational guidance.
 6. Preparation for the use of leisure time.
- IV. **Integration** of all these aims into an understanding of the debt of every generation to the past, and its obligation to the future in the common enterprise of civilization.

EASTERN ILLINOIS STATE TEACHERS COLLEGE, CHARLESTON

FACULTY, 1935-36

Asterisk (*) indicates Head of Department.

Date of joining staff in parentheses.

ADMINISTRATION

Robert Guy Buzzard, Ph.D.....President
Diploma, Illinois State Normal University, 1914; S.B.,
1916; S.M., The University of Chicago, 1917; Ph.D.,
Clark University, 1925; Graduate study, University
of Illinois, part-time 1931-32, 1932-33. (1933)

Frank Andrew Beu, A.M...Professor of Education and Dean
A.B., 1920, A.M., Northwestern University, 1923;
Graduate study, The University of Chicago, summers.

1935. (1927)

Ellen A. Ford, A.M.....Dean Emerita
A.B., 1885, A.M., Syracuse University, 1894; The Uni-
versity of Chicago, summer, 1897. (1899)

Hobart Franklin Heller, A.M.....Assistant
Professor of Mathematics and Dean of Men
B.S., Gettysburg College, 1924; A.M., Columbia Uni-
versity, 1931; State University of Iowa, summer,
1934; On leave for study, 1935-36, Columbia Univer-
sity. (1932)

Nathile McKay, M.A.....Head of
Pemberton Hall and Dean of Women
B.A., Howard-Payne College, 1925; M.A., University of
Texas, 1932; Graduate study, University of Texas,
summer, 1932; Columbia University, summer, 1935.
(1932)

Walter Wellman Cook, Ph.D.....Professor
of Education and Director of Teacher Training
A.B., 1923, A.M., 1926, Ph.D., State University of Iowa,
1931. (1931)

- Donald Allen Rothschild, Ph.D.....Associate
Professor of Education and Principal of High School
A.B., 1924, A.M., University of Illinois, 1927; Ph.D., State
University of Iowa, 1932. (1934)
- Blanche Claire Thomas.....Registrar, (1922)
- Raymond Roscoe Gregg, A.M.....Business Manager
Diploma, Southern Illinois State Normal University,
1917; Ph.B., 1922, A.M., The University of Chicago,
1923; Graduate study, The University of Chicago,
summers, 1926, 1927, 1929, 1930, 1933, and 1934. (1934)
- Mary Ellen Thompson, R.N.....Health Director
Student, North Dakota Agricultural College, 1903-4;
Student, State Normal School, Moorhead, Minnesota,
1905-6; Graduate, St. John's Training School for
Nurses, Fargo, North Dakota, 1916. (1930)
- Camille F. Monier.....Superintendent of Grounds, (1935)
- Granvil Shafer.....Superintendent of Buildings (1910)
- Edson B. Clodfelter.....Superintendent of Heating, (1918)
- Clara Edith Willson.....Stenographer, (1923)
- Violet Bird Taylor, B.A.....Stenographer
B.A., Wooster College, 1927. (1935)
- Lola Avalon Eberly, A.B.....Stenographer
A.B., University of Nebraska, 1927. (1932)
- Lucille Mills Schaudt, A.B.....Stenographer
A.B., University of Illinois, 1933. (1934)
- Henry J. Arnold, A.M.....Manager, Textbook Library
A.B., De Pauw University, 1923; A.M., University of
Illinois, 1928. (1935)

ART

- Maude Lillian Chambers, Ph.D.*.....Assistant Professor
B.S., Wesleyan College (Macon, Georgia), 1899; Certifi-
cate, Colarossi Academie, Paris, 1912; M.A., Univer-
sity of Colorado, 1923; Ph.D., Columbia University,
1935. (1934)
- Nelle Field Cooke, A.M.....Instructor
Diploma, Eastern Illinois State Normal School, 1919;
Diploma, College of Applied Art (Chicago), 1923;
B.S., 1929, A.M., University of Illinois, 1934. (1934)
- Alice McKinney, A.M.....Instructor
Student, John B. Stetson University, 1904-5; B.Ed.,
Eastern Illinois State Teachers College, 1929; Stu-
dent, Chautauqua Summer School, 1928; Student,
Woodbury School of Art and Massachusetts Art
School, Boston, 1930-31; A.M., Columbia University,
1935. (1928)

BIOLOGICAL SCIENCE

- Ernest Lincoln Stover, Ph.D.*.....Professor
B.S., 1917, M.S., Ohio State University, 1919; Ph.D., The
University of Chicago, 1924. (1923)
- Hiram Frederick Thut, Ph.D.....Assistant Professor
A.B., Bluffton College, 1925; A.M., 1926, Ph.D., Ohio
State University, 1930. (1932)
- Charles Stockman Spooner, A.M.....Associate Professor
A.B., Cornell University, 1907; Part-time graduate stu-
dent, Cornell University, 1911-12; A.M., University of
Illinois, 1918; Part-time graduate student, University
of Illinois, 1919-20; Graduate study, The University
of Chicago, summer, 1918; On leave for study, 1935-36,
University of Illinois (Ph.D., University of Illinois,
expected June, 1936). (1919)
- Willard Marion Gersbacher, Ph.D.....Instructor
B.Ed., Southern Illinois Normal University, 1926; A.M.,
1928, Ph.D., University of Illinois, 1932. (Substitute
instructor in Zoology, 1935-36) (1935)
- Harold Maxon Cavins, M.S.....Instructor
B.S., University of Illinois, 1924; M.S., The Pennsylvania
State College, 1928; Graduate study, Michigan State
College, summer, 1930; Iowa State College, summer,
1934. (1928)
- Walter Merritt Scruggs, M.S.....Instructor
B.Ed., Eastern Illinois State Teachers College, 1928;
M.S., University of Illinois, 1935. (1929)

EDUCATION

- Emma Reinhardt, Ph.D.*.....Professor
Diploma, Illinois State Normal University, 1921; A.B.,
1924, A.M., 1925, Ph.D., University of Illinois, 1927.
(1927)
- Jay B. MacGregor, Ph.D.....Assistant Professor
A.B., Grinnell College, 1917; M.A., 1925, Ph.D., State
University of Iowa, 1931. (1934)
- Wesley Coburn Eastman, Ph.D.....Assistant Professor
Diploma, West Chester State Normal School (Pennsy-
vania), 1920; B.S., The Pennsylvania State College,
1924; A.M., Columbia University, 1927; Ph.D., Cornell
University, 1934. (1934)
- Paul W. Sloan, Ph.D.....Assistant Professor
A.B., Defiance College, 1924; M.A., 1927, Ph.D., Ohio
State University, 1933. (1934)

ENGLISH

- Isabel McKinney, A.M.*.....Professor
A.B., The University of Chicago, 1901; A.M., Columbia
University, 1904; Graduate study, Teachers College,
Columbia University, summer, 1916. (1904)
- Howard DeForest Widger, A.M.....Professor
A.B., Yale University, 1910; Student, Columbia Univer-
sity Law School, 1910-11; A.M., University of Illinois,
1930; Part-time graduate study, University of Illinois,
1935-36. (1912)
- Eugene M. Waffle, A.M.....Assistant Professor
A.B., Indiana State Teachers College, 1925; Graduate
study, The University of Chicago, 1925-26; A.M.,
Columbia University, 1932; On leave for study, 1934-36,
George Peabody College for Teachers. (1926)
- Robert Armand Shiley, A.M.....Instructor
A.B., 1925, A.M., State University of Iowa, 1926; Part-
time graduate student, The University of Chicago,
1926-31; Graduate study, State University of Iowa,
summers, 1929, 1930; The Sorbonne, University of
Paris, summer, 1933. (1931)
- Franklyn Lehman Andrews, A.M.....Associate Professor
Ph.B., The University of Chicago, 1922; A.M., Univer-
sity of Illinois, 1929. (1929)
- Quincy Guy Burris, Ph.D.....Assistant Professor
A.B., 1924, A.M., 1927, Ph.D., University of Illinois, 1930.
(1932)
- James Glenn Ross, Ph.D.....Assistant Professor
B.A., 1925, M.A., 1928, Ph.D., Ohio State University,
1933. (1934)
- Winnie Davis Neely, M.A.....Instructor
Diploma, Alabama Girls Technical Institute, 1912; B.S.,
1924, M.A., George Peabody College for Teachers,
1928; Graduate study, University of Wisconsin,
1930-33, summer, 1934. (1934)
- Florence LeDuc Litchfield, Ph.D.....Instructor
B.A., 1930, M.A., 1931, Ph.D., University of Minnesota,
1935. (Substitute instructor, 1934-36) (1934)

FOREIGN LANGUAGE

- Kevin Joseph Guinagh, Ph.D.*.....Associate Professor
A.B., 1919, A.M., St. Vincent College, 1921; Graduate
study, Catholic University of America, 1921-23; Ph.D.,
University of Pittsburgh, 1931. (1931)

- Anabel Johnson, A.M.....Instructor
 A.B., Elmira College, 1891; Student with Frau Dr. Hempel in Berlin, 1891-92 and 1894-95; A.M., Columbia University, 1907; Graduate study, Harvard University, summer school, 1908; Student in Berlin, September to December, 1911; Teachers College, Columbia University, second semester, 1912, summer school, 1918; School of Language, Middlebury College, Vt., summer, 1919; The University of Chicago, summer (6 weeks), 1920; The Sorbonne, University of Paris, March to July, 1924. (1907)
- Ellen Elizabeth Michael, A.M.....Instructor
 A.B., Coe College, 1928; A.M., The University of Chicago, 1929; Graduate study, The University of Chicago, summer, 1934; Columbia University, summer, 1935. (1930)

GEOGRAPHY

- Annie Laura Weller, A.B., S.B.*.....Professor
 A.B., Drury College, 1896; S.B., The University of Chicago, 1902; Graduate study, The University of Chicago, 1902-3, summers, 1902, 1903, 1904, 1908. (1903)
- Ruby Mildred Harris, S.M.....Assistant Professor
 Diploma, Eastern Illinois State Normal School, 1912; S.B., 1922, S.M., The University of Chicago, 1932. (1923)
- Rose Zeller, A.M.....Instructor
 B.Ed., Illinois State Normal University, 1926; A.M., Clark University, 1930; Additional graduate study, Clark University, second semester, 1930; Clark University Carribean cruise, summer, 1935. (1930)

HOME ECONOMICS

- Vivla Viola Russell, A.M.*.....Assistant Professor
 B.S., East Central State Teachers College, Ada, Oklahoma, 1927; A.M., Colorado State Teachers College, 1930; Ed.D., University of Oklahoma, to be conferred June, 1936. (1935)
- Clara Mabel Attebery, A.M.....Instructor
 B.S., University of Illinois, 1914; A.M., Columbia University, 1929; Iowa State College, summer, 1934. (1934)

INDUSTRIAL ARTS

- Lawrence F. Ashley, M.A.*.....Professor
B.S., The Stout Institute, 1921; M.A., Ohio State University, 1933; Graduate study, Ohio State University, 1934-35, summers 1934, 1935. (1918)
- Wayne P. Hughes, A.M.....Instructor
Diploma, The Stout Institute, 1923; Coaching School, University of Notre Dame, summer, 1924; B.S., The Stout Institute, 1934; A.M., Columbia University, 1935. (1923)
- Russell Henry Landis, M.S.....Assistant Professor
B.S., The Stout Institute, 1930; M.S., Iowa State College, 1934. (1930)
- Harry R. Jackson, M.S.....Instructor
B.Ed., Eastern Illinois State Teachers College, 1931; M.S., Indiana University, 1935. (1932)

LIBRARY

- Mary Josephine Booth, B.L.S.*.....Associate Professor
A.B., Beloit College, 1900; B.L.S., University of Illinois Library School, 1904; The University of Chicago, second summer term, 1908. (1904)
- May Smith, B.S.....Instructor
Diploma, Eastern Illinois State Teachers College, 1921; B.S., University of Illinois, 1924; Student, University of Illinois Library School, 1924-26 (half-time); On leave for study, 1935-36, University of Illinois Library School. (1931)
- Lucille Zeda Crosby, B.S. in L.S.....Instructor
B.A., Friends University, 1925; B.S. in L.S., University of Illinois, 1930. (1935)
- Esther Duggleby, B.S. in L.S.....Instructor
A.B., University of Denver, 1926; Library School, University of Iowa, summer session, 1929; B.S. in L.S., University of Illinois, 1931; Graduate study, University of Illinois Library School, 1934-35. (Substitute assistant librarian, 1935-36) (1935)
- Harriet Love, M.S.....Instructor
A.B., Vassar College, 1926; Certificate, Library School of the University of Wisconsin, 1927; M.S., School of Library Science, Western Reserve University, 1932. (1932)
- Annabelle Thomson, B.S. in L.S.....Instructor
B.Ed., Illinois State Normal University, 1931; Night school, University of Tulsa, 1931-32; B.S. in L.S., University of Illinois, 1933. (1934)

MATHEMATICS

- Edson Homer Taylor, Ph.D.*.....Professor
 B.S., National Normal University, 1896; A.M., 1905,
 Ph.D., Harvard University, 1909; Teachers College,
 Columbia University, first semester, 1912-13; Student
 in Germany, second semester, 1912-13. (1899)
- Fiske Allen, A.M.....Professor
 Diploma, Indiana State Normal School, 1895; A.B., Indi-
 ana University, 1898; A.M., Columbia University,
 1910. (1913)
- Hobart Franklin Heller, A.M.....Assistant Professor
 B.S., Gettysburg College, 1924; Graduate study, The
 Pennsylvania State College, extension, 1926-29, sum-
 mer, 1927; A.M., Columbia University, 1931; Gradu-
 ate study, State University of Iowa, summer, 1934;
 On leave for study, 1935-36, Columbia University.
 (1931)
- Ruth Hostetler, S.B.....Instructor
 Diploma, Eastern Illinois State Normal School, 1908;
 S.B., The University of Chicago, 1917; Graduate
 study, University College, The University of Chicago,
 1920 and 1923; On leave for study, 1935-36, Columbia
 University. A.M., Columbia University, expected June
 1936. (1930)
- Harry Louis Metter, Ph.D.....Assistant Professor
 Diploma, Southern Illinois State Normal University,
 1921; B.S., 1924, M.S., 1925, Ph.D., University of Illi-
 nois, 1933. (Substitute instructor in Education and
 Mathematics, 1934-36) (1934)
- Lloyd R. Wylie, Ph.D.....Instructor
 A.B., Park College, Missouri, 1914; M.A., 1922, Ph.D.,
 Northwestern University, 1932. (Substitute instruc-
 tor, 1935-36) (1935)

MUSIC

- Friederich Koch.....Associate Professor
 Student, Conservatory of Music, Kassel; Student under
 Rokitsansky, Vienna; Stockhausen, Frankfurt; Van
 Zur Muhlen, Brussels. (1899)
- Lloyd Frederick Sunderman, M.Mus.*...Assistant Professor
 Voice Diploma, 1927, B.Mus., MacPhail School of Music,
 1928; A.B., Western Union College, 1933; M.Mus.,
 Syracuse University, 1934; Graduate study, Univer-
 sity of Minnesota, 1933-35 and summer, 1935; Part-
 time graduate study, University of Illinois, 1935-36.
 (1935)

- Richard Walter Weckel, M.Mus.....Instructor
 Diploma in Violin, Augustana College, 1928; B.M., 1931,
 M.Mus., Illinois Wesleyan University, 1935. (1931)
- Ethel I. Hanson, A.M.....Instructor
 Diploma, Milwaukee State Teachers College, 1916; B.M.,
 University of Wisconsin, 1924; Graduate study, North-
 western University, summers, 1931, 1932, 1933; A.M.,
 University of Wisconsin, 1935. (1927)

PENMANSHIP

- Beth M. Kassabaum, B.S.....Instructor
 Diploma, Eau Claire State Teachers College, 1924; Stu-
 dent, University of Wisconsin, 1926; A. N. Palmer
 School, Boulder, Colorado, 1928; B.S., Eau Claire State
 Teachers College, 1935. (1931)

PHYSICAL EDUCATION

- Charles P. Lantz, B.S.*.....Associate Professor
 B.S., Gettysburg College, 1908; Student, The Chautau-
 qua School of Physical Education, summers, 1909,
 1910; Coaching School of University of Notre Dame,
 summer, 1925; The Pennsylvania State College, sum-
 mers, 1934, 1935; A.M., The Pennsylvania State Col-
 lege, expected August 1936. (1911)
- Winfield Scott Angus, M.S.....Instructor
 B.S., 1930, M.S., University of Illinois, 1934. (1932)
- Florence McAfee, A.M.....Assistant Professor
 A.B., The Pennsylvania State College, 1922; Two-year
 certificate, Graduate Department of Hygiene and
 Physical Education, Wellesley College, 1924; A.M.,
 Columbia University, 1931. (1924)
- Mabel J. Hupprich, M.S.....Instructor
 B.S., 1926, M.S., University of Wisconsin, 1930; Gradu-
 ate study, University of Wisconsin, 1933-34. (1934)

PHYSICAL SCIENCE

- Harris Eugene Phipps, Ph.D.*.....Associate Professor
 A.B., Oberlin College, 1926; Night school, University of
 Rochester, 1926-27; A.M., Oberlin College, 1928;
 Ph.D., University of Illinois, 1931. (1931)

- Frank Louis Verwiebe, Ph.D.....Assistant Professor
M.E., Cornell University, 1920; Graduate student, University of Buffalo, part-time, 1921-23; State Teachers College, Buffalo, part-time, 1923-24; M.S., 1930, Ph.D., The University of Chicago, 1933. (1934)
- Earland Ritchie, Ph.D.....Instructor
B.S., Ball State Teachers College, 1925; A.M., Columbia University, 1926; Ph.D., Indiana University, 1931. (Substitute instructor in Physics, 1935-36) (1935)

SOCIAL SCIENCE

- Simeon E. Thomas, A.M.*.....Professor
Ph.B., Upper Iowa University, 1898; A.M., State University of Iowa, 1902; Graduate study, Harvard University, 1902-4. (1906)
- Charles Hubert Coleman, Ph.D.....Associate Professor
A.B., George Washington University, 1924; A.M., 1926, Ph.D., Columbia University, 1933. (1926)
- Glenn Huron Seymour, Ph.D.....Associate Professor
A.B., 1924, A.M., 1925, Ph.D., University of Illinois, 1929. (1929)
- Donald Rhodes Alter, Ph.D.....Assistant Professor
B.S. in Ed., University of Missouri, 1920; A.M., Columbia University, 1924; Ph.D., University of Illinois, 1934. (1934)
- Ralph Waldo Cordier, Ph.D.....Assistant Professor
A.B., Manchester College, 1925; M.A., 1929, Ph.D., Ohio State University, 1933. (1934)

TRAINING SCHOOL

- Walter Wellman Cook, Ph.D....Professor of Education and Director of Teacher Training and Placement Bureau
A.B., 1923, A.M., 1926, Ph.D., State University of Iowa, 1931. (1931)
- Edith Levake, A.M...Instructor and 8th and 9th Grade Critic
Diploma, State Normal School, Platteville, Wisconsin, 1910; B.S., The University of Chicago, 1927; Graduate study, The University of Chicago, summers, 1929, 1930, 1932, 1933; A.M., University of Southern California, 1935. (1924)

- Leah I. Stevens, S.M.....Instructor and 7th Grade Critic
Diploma, Illinois State Normal University, 1917; S.B.,
The University of Chicago, 1924; Summer Field Trip,
Clark University, 1927; S.M., The University of Chi-
cago, 1934. (1920)
- Emily Veronica Baker, A.M...Instructor and 6th Grade Critic
B.Ed., Illinois State Normal University, 1929; A.M.,
George Peabody College for Teachers, 1933. (1935)
- Bernice I. Bankson, A.M....Instructor and 5th Grade Critic
Diploma, Illinois State Normal University, 1927; B.Ed.,
Eastern Illinois State Teachers College, 1932; A.M.,
Columbia University, 1933. (1933)
- Myrtle Arnold, A.M.....Instructor and 4th Grade Critic
Diploma, St. Cloud State Teachers College, 1917; B.S.,
University of Minnesota, 1930; A.M., George Peabody
College for Teachers, 1935. (1930)
- Nannilee Saunders, A.M.....Instructor and 3d Grade Critic
B.S., George Peabody College for Teachers, 1929; A.M.,
Columbia University, 1935. (1935)
- Grade Geddes.....Assistant Professor and 2d Grade Critic
Diploma, Eastern Illinois State Normal School, 1906;
Teachers College Columbia University, summer, 1910,
years 1918-19, 1921-22. (1915)
- Margaret B. Donley, A.M....Instructor and 1st Grade Critic
B.S., Kansas State Teachers College, Emporia, 1927;
A.M., Columbia University, 1932. (1935)

HIGH SCHOOL

- Donald Allen Rothschild, Ph.D.....Associate
Professor and Principal of High School
A.B., 1924, A.M., University of Illinois, 1927; Ph.D.,
State University of Iowa, 1932. (1934)
- Lena Boyd Ellington, A.M.....Instructor in History
A.B., Mississippi State College for Women, 1906; A.M.,
Columbia University, 1914; Graduate study, The Uni-
versity of Chicago, summers, 1912, 1920, 1925, 1933,
1935; University of California, summer, 1928. (1920)
- Edith E. Ragan.....Assistant Professor in English
Three-year English diploma, Indiana State Normal
School, Terre Haute, 1900; Extension student, The
University of Chicago, 1904-8; Student, Teachers Col-
lege, Columbia University, summer, 1915; Student,
Harvard University, summer, 1935. (1909)

- Ica Marks, M.S.....Instructor in Biological Science
B.Ed., Eastern Illinois State Teachers College, 1927;
M.S., Ohio State University, 1929; Graduate study,
State University of Iowa, 1929-30. (1932)
- Ruth Carman, A.M.....Instructor in Latin
Diploma, Eastern Illinois State Normal School, 1910;
Ph.B., University of Wisconsin, 1913; Graduate study,
University of California, summer, 1922; A.M., Univer-
sity of Illinois, 1925; Summer session, American
Academy in Rome, 1927; Graduate study, University
of Colorado, summer, 1928; Virgil Cruise, summer,
1930; Graduate study, University of Maine, summer,
1935. (1914)
- Gertrude Hendrix, M.S., A.M.....Instructor in Mathematics
A.B., DePauw University, 1926; M.S. (Education), 1930;
A.M. (Mathematics), University of Illinois, 1935.
(1930)
- Robert Lee Poos, A.M.....Instructor in English
B.Ed., Illinois State Normal University, 1927; A.M., Uni-
versity of Illinois, 1935. (1935)
- Paris John Van Horn, M.S.....Instructor in Science
B.S., Indiana State Teachers College, 1926; M.S., Indi-
ana University, 1935. (1935)
- Earl Samuel Dickerson, M.S.....Instructor
in Commercial Work
B.S., Indiana State Teachers College, 1930; M.S., Uni-
versity of Illinois, 1934. (1935)

A MESSAGE FROM THE AMERICAN COUNCIL ON EDUCATION

All of us want to make teaching a profession. It is in the public interest that we should do so. In the realization of this objective the teachers college is the most important single agency.

For this great responsibility the teachers college will first of all select individuals of superior ability and zealous purpose. To these young people it will give sound preparation and proper guidance. A good teacher is both leader and scholar.

It is no less important that the teachers college should keep those who preside over our school rooms informed and alert relative to the rapid developments in school practice and school philosophy. Complacency is a subtle disease which never ceases its devastation. The teachers college should be a constant source of inspiration and revitalization for those who are engaged in training our future citizens. The teachers college is, therefore, performing functions which are basic to American life and American democracy. The public not only respects the task but, realizing its significance, will make generous provision for its support.

GEORGE FREDERICK ZOOK,
Director.

THE CERTIFICATING LAW

A MESSAGE FROM THE SOUTH

In the United States the teacher-preparing institution is the vestibule to the public profession of teaching. Its standards, its ideals and its practices today will determine the standards, the ideals and the practices of our public school service tomorrow. It follows that all thoughtful men and women who believe that the public school should be more than the mere conservator of our social heritage—that it should become a powerful agency for social reconstruction—will naturally have a real concern lest our normal schools, teachers colleges and university schools of education should fall short of the excellent equipment, the adequate financial resources and the inspiring leadership which they need if they are to be the builders of a great public-service profession.

These institutions have in large measure made the public school what it is today. Are they equipped, in a material and in a spiritual sense, to play their full part in making the public school what it ought to be tomorrow? The answer to this question should be a matter of real concern to every good citizen for upon it hangs the safety of this Republic.

JOHN JAMES TIGERT,
United States Commissioner of
Education, 1921-1928.

Campus Picnic Ground

EASTERN ILLINOIS STATE TEACHERS COLLEGE

LOCATION

Charleston is a city of eight thousand population, and is the county seat of Coles County.

Charleston is on the New York Central (Big Four) Railroad running between St. Louis and Indianapolis, and on the Nickel Plate Railroad running between St. Louis and Toledo. The main line of the Illinois Central Railroad, extending south from Chicago, passes through Mattoon, twelve miles to the west of Charleston.

Charleston is on U. S. Route 40A and Illinois Route 16, west-east running across Illinois through Litchfield, Hillsboro, Pana, Shelbyville, Mattoon, Charleston, and Paris, and eastward to Terre Haute, Indiana. Illinois Route 130 begins at Charleston and extends south through Greenup, Newton, and Olney to Albion, Illinois.

The Eastern Stages Bus Line runs east-west through Charleston and a local bus-line connects west with Mattoon, Decatur and Springfield and east with Paris and Terre Haute.

Distances in miles from Charleston by paved highway:

Chicago	190	Flora	68
St. Louis	145	Lawrenceville	80
Terre Haute	51	Danville	63
Decatur	53	Vandalia	72
Champaign-Urbana	58	Olney	59
Salem	86	Pana	54

HISTORY

To provide more adequate facilities for the training of teachers for the public schools of the state the General Assembly of Illinois, by an act approved May 22, 1895, established the Eastern Illinois State Normal School. This by an act of 1921 became the "Eastern Illinois State Teachers College at Charleston." On September 7, 1895, the five trustees provided for in the act selected a beautiful forty-acre tract of land three-quarters of a mile south of the public square of Charleston. The citizens of Charleston bought the land and presented it to the state. The building was erected at a cost of \$180,000. The grounds are shaded by many fine old trees.

December 2, 1895, the contract was made for the erection of the building. The cornerstone was laid on the afternoon of May 27, 1896. The building and grounds were dedicated August 29, 1899, and on September 12, 1899, the institution was opened to students.

During the summer of 1901, a six weeks session was offered for teachers. From 1920 to 1932, the college offered a twelve weeks summer quarter. In 1933 and 1934 a six weeks summer term was offered. In 1935 an eight weeks summer term was offered. A mid-spring session of six weeks was offered from 1922 to 1929.

In 1907 the General Assembly appropriated one hundred thousand dollars for a woman's building. This building was completed and occupied in January, 1909. It has proved to be a distinct addition to the cultural value of the institution. In addition to providing a beautiful home for ninety-one young women during their residence in Charleston, it has had a marked influence in establishing good standards of living, and has come to be the social center of college life.

In 1911 the General Assembly appropriated seventy-five thousand dollars for a training school building which was completed in 1913 with the exception of the assembly room which it still lacks.

In 1907 the power of conferring degrees was granted to the institution by the General Assembly. Courses leading to the degree of Bachelor of Education (B. Ed.) were announced in 1920.

In 1925 the General Assembly appropriated one hundred seventy-five thousand dollars for a Practical Arts Building. This building, completed in 1929, is used for home economics (Smith-Hughes) and for industrial arts.

In 1931 a seventy-two acre tract of land was added to the campus through an appropriation of \$21,600 made by the Fifty-seventh General Assembly.

In 1935 the General Assembly appropriated \$350,000 for a physical education building.

During the first year there were nineteen members of the faculty and two hundred and forty students. At the end of the first year, June, 1900, four students were granted the diploma of the school upon completion of the course of study. In 1935 sixty-seven students were graduated from the Junior College and sixty-six students from the Senior College.

Student's Room in Pemberton Hall

EQUIPMENT

Grounds.—The grounds comprise forty acres, including the campus proper, the forest plantation, and the athletic field. These grounds are justly considered exceptionally beautiful. A natural grove and other fine trees, a pond, a wide stretch of green, many borders of shrubbery and perennials, and a formal garden present a succession of pictures throughout the year. In the main grounds are the tennis courts, the children's playgrounds, the athletic field for girls, and the school garden. The forest plantation, planted during the early years of the institution, now includes several acres of trees, much used in botanical and zoölogical studies, a picnic ground and a rock garden. In the adjoining athletic field, one of the best among those of the small colleges of the state, are the football field and a quarter-mile cinder track.

A seventy-two acre tract of land with a house on it was added to the campus in 1931 through an appropriation of \$21,600 made by the 57th General Assembly. This tract of land contains a baseball diamond, several football practice fields, and a nine-hole golf course. The house is used as a co-operative dormitory by a group of men students.

Main Building.—The main building is a three-story structure, three hundred twenty-three feet in length, built of rough Bedford stone. It is in the Norman style, with a tower which is the neighborhood landmark. In this building are offices, the library, the assembly room, music and art rooms, classrooms, and laboratories.

Training School Building.—The training school building of smooth Bedford stone was completed in 1913 at a cost of seventy-five thousand dollars. It is placed conveniently near the main building. It provides a double classroom for each grade, contains a children's library, laboratory rooms for art and the social studies, and offices for the Director of Teacher Training, the Bureau of Teacher Placement, and the Department of Education.

Pemberton Hall.—The legislature of 1907 appropriated one hundred thousand dollars for a woman's building and gymnasium—the first appropriation for a woman's building ever made in the state of Illinois. A fine stone structure was finished and occupied January 4, 1909. The building has been refurnished and remodeled within the past year and is now in excellent condition to serve as a dormitory for ninety-one students and as a social center for all the students in the college.

Practical Arts Building.—The Practical Arts Building, completed in 1929, at a cost of \$135,000 for the building and \$40,000 for new equipment, furnishes facilities for students who wish to specialize in industrial arts and home economics for grade and high-school positions and for the preparation of teachers in these subjects for the Smith-Hughes Vocational Schools. There is floor space of approximately 27,500 square feet in the building. The first floor occupies 12,700 square feet, the second floor 7,400 square feet, and the basement a similar amount. Shops are provided for practice in hand and machine woodworking, metal machine shops and automobile repair, sheet metal work, general metal, electrical construction and installation, printing, and mechanical drawing. These shops are well lighted and are on the first floor of the building. The basement is divided into classrooms, storage rooms, and locker rooms.

The home economics department occupies the entire second floor of this building. Here are food laboratories, sewing rooms, fitting rooms, a lecture room, a dining room, a unit kitchen, a foods classroom, offices, and reception room, all arranged for the preparation of Smith-Hughes teachers.

Music Building.—A three-room stucco building, south of the power house, formerly used for Industrial Arts, is now used for the band and orchestra. Lessons are given here in band and orchestra instruments.

Library.—The library contains over 43,168 books and pamphlets. The reference books, bound periodicals, and reserve books are shelved in the two reading rooms. Here are also found the current numbers of 253 periodicals, including many devoted to special subjects. The books for general circulation are kept in the stack room. A children's library occupies a commodious room at the north end of the third floor of the training school building. A specially trained children's librarian is in charge full-time. For grades lower than the seventh, schoolroom libraries are provided. The library has a dictionary card catalogue and the books are classified according to the Dewey decimal system. There is a large collection of classified pictures for use in all departments. Four trained librarians are in charge, giving necessary aid and instruction to students in the use of books. *Lessons in the use of the library* are required in all curricula as explained in the Description of Courses.

School Garden and Greenhouse.—An opportunity is given for seeing the work done by pupils of the Training School in elementary agriculture. Small plots of ground are planted and

cared for by the pupils under the direction of the Superintendent of Grounds and the teachers of the Training School.

A four-room greenhouse contains many plants of unusual interest and serves as an adjunct to the botanical laboratories.

Additional facilities for field observation and for obtaining laboratory materials are offered by a small lake and a forest plantation within five minutes' walk of the biological laboratories.

Laboratories.—The botanical laboratories are well equipped for the training of high-school teachers. The laboratory tables are so equipped that each student has a light at his desk. The plant collections include numerous specimens of all kinds of plants so that each student may have his own material for study and may become well acquainted with plants.

The mechanical equipment consists of over four thousand microscopic slides; compound microscopes of modern construction; good projection lanterns with several hundred lantern slides of plants and their structures; numerous pieces of apparatus for the demonstration of the physiological processes occurring in plants; and microtomes for the cutting of sections of plant tissues for the preparation of microscopic slides.

The zoölogy and physiology laboratory has sufficient equipment so that forty-four students may work at the same time, each being supplied with a compound microscope, a simple microscope, and other equipment necessary for examining specimens. There are many preserved specimens of both local and foreign fauna, including marine animals. The accession numbers of these now run over 16,000. Most of these are preserved in formalin and alcohol, but there are nearly two hundred mounted birds and mammals and over three hundred skins of these types of animals. There are also many shells, corals, mounted insects, and other dried specimens. There are facilities for keeping live animals and fish. Many models and skeletons are used and about sixty-five of the best charts obtainable. Over twenty-five hundred lantern slides are available for illustrative purposes.

The chemistry laboratory is equipped with the apparatus needed for demonstration and for laboratory experiments. The tables give places for thirty-two students to work. An ample supply of analytic balances is provided.

The physics laboratory is equipped for experiments in all subjects of physics. It is wired for electrical work. Wall galvanometers are provided for electrical measurements. Gas, water, and compressed air are available. A dark room is included for photometry and various studies in light. The equipment provides for both demonstration and laboratory work.

EXPENSES

Tuition is free to legal residents of Illinois who agree to teach in the public schools of the State for a period equal to the time spent in this school. Others in the college who do not take a required course leading toward a teacher's certificate, a diploma, or a degree must pay tuition of \$25.00 a quarter in addition to all fees described below. Freshmen or sophomore students not registered for required physical education or library use will be regarded as tuition students.

Students who have been dropped by other colleges, or who are on probation from other colleges, desiring to enroll here must pay the tuition fee of \$25.00 a quarter, until satisfactory work for one quarter has been completed.

Students who are on probation for poor scholarship here for a period of two quarters must pay the tuition fee of \$25.00 if they wish to continue their work, and until one quarter of satisfactory work has been completed.

At Pemberton Hall, rooms, including heat and light, vary from \$1.75 to \$2.50 per week, with privileges of laundry, payable monthly in advance. For table board, \$4.50 a week is charged, payable monthly in advance (\$18.00 at the beginning of each month).

Fees for each quarter (12 weeks) are \$18.50, distributed as follows:

Registration	\$ 5.00
Student Activity Fee.....	6.00
Library Fee	1.50
Supplies	1.50
Locker and Gymnasium Fee.....	1.00
	<hr/>
	\$15.00
Book Rental Fee (as described on page 31).....	3.50
	<hr/>
Total	\$18.50

There is no refund of fees in case a student withdraws his registration after the first week of the quarter. Application for this refund must be received by the Registrar by Saturday noon of the first week of the quarter.

Fees for materials used are paid in courses in art, home economics, and industrial arts except in theory courses. Completed projects are the property of the student. A fee of one dollar per quarter is required of students taking laboratory science courses to cover supplies used and breakage.

Women's Dormitory—Pemberton Hall

COLLEGE BOOKSTORE AND BOOK RENTAL FEE

The Eastern Illinois State Teachers College offers a plan of providing adequate textbooks for all classes at unusually low cost. The college owns and operates a bookstore on a flat rental basis. At registration each college student pays a book rental fee of \$3.50, and is furnished all the textbooks need in the courses for which he is registered. Laboratory manuals and special notebooks are secured by the student at additional cost as needed. All textbooks must be returned in satisfactory condition by a specified time at the end of each quarter or a fine of one dollar is incurred. Books lost or damaged other than by ordinary wear must be paid for before the student's grades for that quarter are officially released. Students noting damage or markings in textbooks issued to them must report such conditions to the bookstore within the first two weeks of the quarter or be held liable for such damage.

PENALTIES

An additional fee of \$1.00 is charged if a student fails to complete his registration on the day appointed for registration as announced in this catalogue. An additional fee of \$1.00 is charged if a change in program is made after the third day of the quarter.

An additional fee of \$1.00 is charged if the student's record at the textbook library is not clear at the close of each quarter.

The original transcript of a student's record with one carbon copy will be mailed upon request without cost to the student; but a charge of \$1.00 is made for additional copies of this transcript sent later.

BOARD AND ROOM

Board and room can be obtained in private families for from \$5.00 to \$6.50 a week. Room without board can be obtained for from \$1.50 to \$2.25 a week for each student (two students sharing the room).

At Pemberton Hall, rooms for women, including heat and light, with privileges of laundry, vary from \$1.75 to \$2.50 per week, payable monthly in advance. For table board, \$4.50 a week is charged, payable monthly in advance (\$18.00 at the beginning of each month).

A deposit of \$5.00 is required for a reservation at Pemberton Hall. Reservation is filed at the hall when deposit is received and credited at the business office. Application blanks will be sent at the request of students.

The deposit is credited to the student as part of the first month's payment but forfeited if the student cancels the reservation too late to have it used by someone else.

The college maintains a Housing Bureau in order to assist students in finding the best rooms obtainable. Householders who have rooms to rent to students are registered with the bureau; the rooms are inspected and when approved are put on the list of available rooms. Students may obtain this list by writing to the Housing Bureau or may come for consultation on arrival at the college. Approved rooming houses display cards with such announcement.

The Dean of Men is in charge of the approved list of rooms for men, and the Dean of Women is in charge of the list for women.

SCHOLARSHIPS

Army and Navy Scholarships.—Men who served in the United States Army or Navy in the Great War and who were residents of Illinois at the time of entering the service are exempt from the payment of tuition and registration fee.

Normal School Scholarships.—The state legislature passed an act in 1935 stating that:

There shall be awarded annually to each recognized four-year high school with an enrollment of less than five hundred (500) students one (1) scholarship; to each recognized four-year high school with an enrollment of five hundred (500) to one thousand (1,000) students, inclusive, two (2) scholarships; and to each recognized four-year high school with an enrollment of more than one thousand (1,000) students, three (3) scholarships. Each scholarship shall entitle the holder thereof to gratuitous instruction in any state normal school, or teachers college for a period of four years.

The county superintendent of schools will certify the names and addresses of such students so certified to him to the Superintendent of Public Instruction, who shall issue to each student a certificate of scholarship which shall be accepted by the authorities of any state normal school or teachers college in lieu of any entrance examination, and shall exempt the holder thereof from the payment of any tuition, matriculation, or incidental fees whatsoever, which are remitted to the State Treasurer.

Holders of Normal School Scholarships pay only the student activity fee of \$6.00 a quarter, and the book rental fee of \$3.50. The scholarship must be presented on registration day.

Lindly Scholarships.—Holders of Lindly Scholarships, issued before 1936 and received at the time of graduation from the eighth grade, do not pay the registration fee (\$5.00). Regular quarterly fees for valid Lindly Scholarship students are \$10.00 plus the required book rental fee of \$3.50.

The student must present the Lindly Scholarship at the time the fees are paid in order to be exempt from the payment of the registration fee.

The Florence Vane Skeffington Scholarship.—In memory of Florence Vane Skeffington, whose rare abilities and personality gave character to the English work of this school for seventeen years, the Florence Vane Skeffington Scholarship is awarded annually at Commencement to a student whose gifts and attainments promise distinction in the teaching of English.

The award for 1934-35 was given to Margaret Brandon, and to Florence Elizabeth Wood for 1935-36.

The Livingston C. Lord Memorial Fund.—The Alumni Association of the Teachers College has established a scholarship fund in memory of Livingston C. Lord, President of the College, 1899-1933.

This scholarship is awarded annually at Commencement from the interest on the fund to a junior or senior student whose character, scholarship, and skill in teaching promise service of distinction in the field of education. The first award in 1934-35 was made to William Byron Bails. The award for 1935-36 was made to Thomas Wilson Chamberlin.

LOAN FUNDS

The Student Loan Fund.—The Student Loan Fund of the Eastern Illinois State Teachers College makes it possible for a deserving student in the second half of the course to borrow, at a low rate of interest on a personal note, a sum of money that will help him to remain in college and complete the course. A grade point average of 1.5 (half way between C and B) is required. Students find such temporary assistance of great advantage. The foundation of this fund was secured from admission fees to the Senior Class play and to the Training School entertainment, given during commencement week.

Under the will of the late Dr. W. D. Morgan, of Charleston, there is given to the Student Loan Fund the annual income from about six thousand dollars, which is one-seventh of the estate. An additional amount will be received at the death of certain heirs.

The Adelia Carothers Fund.—A fund known as "The Adelia Carothers Fund" has been established by Mrs. Ida Carothers Merriam and Mr. Charles G. Carothers in memory of their mother. This fund is to be loaned to young women students of high character and scholarship during the last half of their course. The student to whom this loan is made is distinctly honored.

STUDENT ACTIVITIES

In the belief that the extra-curricular activities of a college are an important agency for developing initiative, and for organizing ability and teamwork on the part of prospective teachers, the administration makes an effort to induce every student to participate. Activities that increase interest in departmental or subject-matter fields, in music, in dramatics and public speaking, in journalism, in organized social life, in current affairs, and in recreation and athletics form the college program. A Student Council has general supervision over student welfare, and consists of seventeen members: four elected from the senior class, three from the junior class, two from the sophomore class, and two from the freshman class. The remaining six, who are ex-officio members, are the four class presidents, the president of the Women's League, and the president of the Men's Union.

Extra-curricular activities are financed by a self-imposed Student Activity Fee paid at the time of registration. This fee covers admission to the numbers of the Entertainment Course, to athletic events, to the all-school parties, to the musical programs, to college debates and oratorical contests, and entitles the student to a copy of the weekly paper, *The Teachers College News*, and if in attendance the three quarters of the regular year, to a copy of the college annual, *The Warbler*. This fee is divided among the various activities by an Apportionment Board of faculty and students on which student representation is in majority. The major activities are in turn governed by groups of faculty and students, with student representation in majority, such as the Entertainment Board, Athletic Board, the Forensics Board, the Music Board, the Publication Board. Each organization receiving funds from the Student Activity Fee presents an annual accounting of receipts and disbursements through the President of the college to the State Normal School Board.

ENTERTAINMENT COURSE

The Entertainment Course for the year 1935-36 presented the following program:

November 15—The Don Cossack Russian Chorus.

December 3—The Miriam Winslow Dancers.

January 8—Lew Sarrett, poet of the North Woods.

February 14—John Mason Brown, dramatic critic of the *New York Evening Post*.

February 18—The Players in *Riddle Me This*, a mystery play.

March 16—Sidney Thompson, monologist.

April 15—Herbert Petrie and his White Hussars.

DRAMATICS AND FORENSICS

The college dramatic organization is known as "The Players." This group presents the annual Home-coming play in October and a second production late in the winter quarter. Try-outs for parts in these plays are open to the student body. A system of regular meetings covers the activities connected with the amateur stage, and participation in a series of one-act plays. College forensics include a program of intramural speech events, and intercollegiate oratorical and debate competition for both men and women. Team membership is gained by try-out, and is open to all students.

STUDENT PUBLICATIONS

An eight-page newspaper, *The Teachers College News*, is published weekly by a student staff under a faculty adviser, with Tuesday as date of issue. Special issues are devoted to various occasions of the college year. Staff membership is open to all students, and is usually achieved through completing the courses in journalism offered by the Department of English. For the last five years *The Teachers College News* has held first place in competitive ranking of the college newspapers of Illinois, and for the same period, the enviable position of "first class" in the ranking of the School of Journalism of Columbia University. In 1935 the high position of medallist was achieved in the Columbia rating. *The Teachers College News* is a member of the National, the Columbia University, and the Illinois Colleges press associations, and is affiliated with the *Collegiate Digest*.

The college yearbook, *The Warbler*, is issued annually as a pictorial and achievement record of the college year. An editorial and business staff entirely of students, supervised by a faculty adviser, is responsible for the publication. Staff membership is open to any student in college.

SOCIAL ACTIVITIES

Recreation Committee.—This committee, composed of students and faculty, has charge of student social affairs and is responsible for arranging the social calendar, for maintaining a balanced social program, and for exercising general supervision of all social activities of the college. All social functions are scheduled by the school calendar, and supervision by committees and chaperons arranged two weeks in advance. No social affair may continue after midnight on Saturday night.

The Dean of Women and the Dean of Men are the faculty members charged with directing the social welfare of the student body, and are members ex-officio of the Recreation Committee.

The general social life of the college is carried on by The Men's Union and The Women's League, working in cooperation with the Dean of Men and the Dean of Women. Funds allotted from the Student Activity Fee cover the cost of the all-school parties and similar functions.

Men's Union.—All men students are, by right of registration, members of the Men's Union. Organized during 1930-31, the group endeavors to create a feeling of unity among the men and to promote all-school activities.

Women's League.—Every woman upon registration becomes automatically a member of the Women's League. Organized during 1930-31, the League promotes solidarity of social life and service among the women students. The women are organized into groups called Units, and government is vested in a Council of Nine, elected from the membership at large.

ATHLETIC ACTIVITIES

The college is a member of the Illinois Intercollegiate Athletic Association, generally known as the "Little Nineteen Conference," and maintains athletic teams for intercollegiate competition in football, basketball, baseball, track, tennis, golf and cross-country running. "B" team schedules are arranged in football and basketball. A well-organized program of intramural games for men is also carried out. The 59th session of the General Assembly appropriated funds for buildings needed by the state teachers colleges. Governor Henry Horner and the State Normal School Board allotted \$350,000 for a health and physical education building at Charleston. When completed, this building will afford unusually complete and ample facilities for men and women. Wearers of the varsity monogram achieved through athletic competition are organized into the Varsity Club. This group of men endeavors to promote the various phases of college athletics.

The women's athletic program is under the direction of the Women's Athletic Association. Participation in various "play days" among the Illinois colleges is a part of the year's program.

SPEECH ACTIVITIES

The college is a member of the Illinois Intercollegiate Debate League and maintains a regular schedule for both men's and women's debate teams. Regular non-decision debates have been held for the last two years with teams from the University of Illinois. The college won second place in the 1935 state peace oratorical contest held at Northwestern University, with Miss Juanita Brown as the winning orator. The combined debate teams won a percentage of .625 in the season of 1935-36.

MUSIC ACTIVITIES

The college maintains a uniformed marching band for playing at athletic events, a concert band, and an orchestra for playing in chapel and on other occasions. Men and women are admitted on equal terms of try-out. There is likewise a first women's glee club, a second women's glee club, and a men's glee club. Plans are also begun for a college mixed chorus for use as a choir in chapel singing. Glee club trips for broadcasting and for concerts are a regular part of the year's program.

DEPARTMENTAL CLUBS

Clubs with regularly scheduled meetings are maintained by several departments and by student-faculty groups with common interests. Off-campus speakers often appear on the programs of these clubs, thus adding to their value. Clubs under present recognition are:

Country Life Club, sponsored by students expecting to teach in rural schools.

The Forum, a discussion group of faculty and students interested in current economic, political, and social problems.

French Club, organized for improving conversation in French and the study of French life.

Geography Club, sponsored by students using geography as a major or minor teaching subject.

Home Economics Club, maintained by young women enrolled in the home economics curriculum, and affiliated with the Illinois State and the National Home Economics Associations.

Industrial Arts Club, organized for the professional and social advancement of young men expecting to teach in this field, and serving as campus hosts for the Illinois Tenth District Round Table of industrial arts teachers which comes to the campus four times a year.

Mathematics Club, formed by students desiring to discuss phases of mathematics not included in regular courses in that subject.

Music Club, a joint club for students, faculty and others interested in music. The giving of an oratorio at the Easter season is an outgrowth of the work of this club.

New Voters' League, a group of faculty and student women organized for discussion of political and social service.

Science Club, organized by students majoring in botany, zoölogy, physics, chemistry, or geography, so that an exchange of knowledge in other scientific fields may be mutually made.

Writers Club, sponsored by the Department of English to encourage attempts at creative writing. Joint meetings are held with the Sigma Tau Delta fraternity, and the club functions as preliminary training for membership in the fraternity.

HONORARY FRATERNITIES

Kappa Delta Pi—Beta Psi Chapter of Kappa Delta Pi, international honor society in education, was installed January 2, 1931. Students are elected to membership primarily upon the basis of high scholarship, good character, and promise of success in teaching. Election to membership is held twice each year.

Sigma Tau Delta—Upsilon Gamma Chapter of Sigma Tau Delta, a national professional English fraternity, was installed February 15, 1932. Only honor students in English in the senior college are eligible and the number initiated is limited by the national constitution. Associate and local members are chosen from among students who show marked ability in written expression.

Epsilon Pi Tau—Iota Chapter of Epsilon Pi Tau, a national honorary fraternity in Industrial Arts, was installed May 25, 1933. Membership is limited to students with high scholarship in Industrial Arts and with personal qualifications that promise success in teaching. Active membership in the Industrial Arts Club is a qualification for membership.

Kappa Mu Epsilon—Illinois Beta Chapter of Kappa Mu Epsilon, national professional fraternity in Mathematics, was installed April 11, 1935. This fraternity promotes interest and stimulates scholastic achievement in mathematics, and works in close alliance with the Mathematics Club.

Sigma Delta, a local journalistic club, was formed in 1930 to stimulate the expression of student opinion through the college newspaper. Membership is limited to persons on the staff of *The Teachers College News* who display an active and constructive interest in student problems.

SOCIAL FRATERNITIES

There are no social fraternities for women at the Eastern Illinois State Teachers College.

Fidelis, a local fraternity established in 1929, invites to membership a group of men who are prominent in student activities. This fraternity promotes good fellowship without maintaining a house, through bi-weekly meetings and a moderate financial program.

Phi Sigma Epsilon—Delta Chapter of Phi Sigma Epsilon, a national social fraternity in teachers colleges, was installed March 4, 1930. The membership numbers about twenty-five, and a fraternity house without table is maintained. The organization selects members on basis of scholarship, social activities and cooperation in promoting college life.

REGULATIONS FOR STUDENT ACTIVITIES

1. No extra-curricular organization, club, sorority, or fraternity may be organized without recognition by the faculty committee on student activities.
2. All organizations must file a copy of their constitution and by-laws with the faculty committee.
3. Any organization whose activities are suspended by the president of the school must apply to the faculty committee for reinstatement.
4. No organization may have a business or social meeting or a rehearsal on the campus without a faculty adviser present.
5. No student may hold more than one of the following offices in student organizations:
 - Class president,
 - Editor of the Warbler or News,
 - Business Manager of the Warbler or News,
 - President of a fraternity,
 - Treasurer of any student organization.

A student elected to one of these major offices in student organizations may not hold more than one other office in class or other student activity.

All officers must maintain the academic standing required for admission to student teaching.

All organizations must file a list of all officers, as soon as they are elected, with the chairman of the faculty committee.

6. Any student falling below the academic standing required of athletes may be asked to withdraw from any organization.

ALUMNI CLUB

The Charleston Club of Chicago is an organization of former students. This club meets occasionally in a very pleasant way, and all former students or teachers, living in or near Chicago, will be notified of these meetings if they send their names to the president, Miss Emily R. Orcutt, 432 N. Grove Avenue, Oak Park, Illinois.

THE ALUMNI ASSOCIATION

The second Saturday in May is Alumni Day with a dinner and dance in the evening.

The officers for 1935 to 1936 are: Miss Emily Orcutt, '08, President and Chairman of the Executive Committee; Mr. Harold Robbins, '31, Vice-President; Miss Christina Dearnbarger, '20, Secretary and Treasurer.

EXECUTIVE COMMITTEE

Miss Grace Geddes, '06 (term expires in 1936).
Mr. Bruce Corzine, '13 (term expires in 1936).
Mr. Ferdinand Homann, '09 (term expires in 1937).
Dr. Ciney Rich, '12 (term expires in 1937).
Miss Carrie Jordan, '12 (term expires in 1938).
Mr. William Peters, '31 (term expires in 1938).

THE BUREAU OF TEACHER PLACEMENT

The purpose of the Bureau of Teacher Placement is to serve the public school officials of Illinois by assisting them in securing well-qualified teachers. Its purpose is also to assist any student or former student of the college in securing a teaching position provided his record merits such recommendation.

It is the aim of the Bureau of Teacher Placement to furnish the prospective employer information which is of interest to him

A Corner of the Rock Garden

in considering our applicants. This information is in pamphlet form and consists of the applicant's photograph, personal data, scholastic record, student-teaching record, high-school record, experience record, extra-curricular activity record, and home community references.

The bureau maintains a follow-up service by reports from supervising officers through which it keeps in touch with graduates who have been placed in teaching positions.

Registration with the bureau is a prerequisite to graduation from the college.

The services of the bureau are free to students enrolled in the college. Alumni who wish to register with the bureau are charged a \$1.00 registration fee.

THE CERTIFICATING LAW

I. The completion of the freshman year in any curriculum admits the student to examination for a limited elementary certificate.

II. The completion of the two-year grade curriculum gives a limited elementary certificate.

III. The completion of the first two years in any curriculum gives a limited elementary certificate provided the student's credits include two quarters of work each in practice teaching, history (or social science), and mathematics (or natural science). (See note below.)

IV. Graduation with the degree gives a high-school certificate.

If the student has taught successfully for four years he may have also a supervisory certificate.

Note: For certification and graduation requirements relative to scholarship see pages 47-49. No student will be recommended for a teachers certificate until the required work in physical education, Penmanship 20, and Library 20, has been successfully completed, and the student has shown evidence of possessing sufficient fundamentals to pass a departmental examination in arithmetic, grammar, and geography, unless courses covering these subjects are taken in the various departments.

ESSENTIAL FEATURES PERTAINING TO LIMITED CERTIFICATES PROVIDED FOR IN THE CERTIFICATING LAW
ENACTED BY THE FIFTY-SIXTH GENERAL ASSEMBLY, 1929

INSTRUCTION

ORGANIZATION

The Eastern Illinois State Teachers College is a Teachers College in the American Association of Teachers Colleges. It is an accredited college in the North Central Association of Colleges and Secondary Schools, and is recognized as an institution whose degree admits to full graduate standing in a university.

The Training School includes an accredited four-year high school (grades IX-XII) and an accredited elementary training school (grades I-VIII). In 1935-36 two affiliated rural schools and a village school were added.

DIVISION OF THE YEAR

The regular college year consists of three quarters of twelve weeks each. Saturday is taken as the weekly holiday.

A summer quarter of twelve weeks was offered 1920-32. A six weeks' term was offered in the summers of 1933 and 1934.

An eight weeks' term was offered in 1935, and will be repeated in 1936, beginning June 8 and closing July 31.

REGISTRATION

Upper Classmen: All upper classmen, sophomores, juniors, and seniors, are expected to register on Saturday, September 5, 1936. All such students except those taking practice teaching are excused on Monday, September 7, and Tuesday, September 8, while the freshmen are being registered. Classwork for all students starts at 8 o'clock on Wednesday morning.

Any upper classman who registers later than Saturday, September 5, is required to pay a late registration fee of one dollar.

New Students' Orientation Program: In the fall quarter a program of orientation for all freshmen and transfer students is given.

All new students are requested to meet in the college auditorium at nine o'clock on Monday morning, September 7, 1936. At that time detailed plans for both Monday and Tuesday, September 7 and 8, will be announced. Since students are given specific suggestions for registering when they assemble for the conference at nine o'clock on Monday, it is essential that every new student be present. Any new student who registers later than Monday is required to pay a late registration fee of one

dollar. Tuesday is devoted to testing, and students are expected to have their registration completed before testing begins.

Several social affairs that will enable students to become acquainted with their fellow students and with the faculty are planned for both Monday and Tuesday.

ADMISSION REQUIREMENTS

1. *To the Senior College:* Graduation from the two-year curriculum of a recognized Teachers College or of the Junior College of a recognized college or university.

2. *To the Junior College:* Graduation from a recognized or accredited four-year high school.

3. *To the High School:* Graduation from the eighth grade admits a student to the ninth year which is the first year of the high school. High school students enter the year which the units they have already earned give them the right to enter.

4. *High school records and records of work in other colleges must be sent to the Registrar. A student with high-school or other record should have a complete copy of the record sent by the principal of the school to the Registrar of the Teachers College. This should be done at least two weeks before the date of entering. No student will be classified until his record is received.*

A registration permit is filed at the office when the student's application for admission and his record have been checked and filed. Application for admission blanks are sent on request.

Lindly Scholarships and Normal School Scholarships must be presented at the cashier's office on registration day.

GRADUATION

The degree of Bachelor of Education (B. Ed.) is conferred upon those who complete a four-year curriculum; a diploma is granted to those who complete the two-year curriculum for preparation of teachers for the grades. Four-year curricula prepare teachers for high school, for special grade work, and for positions as principals, supervisors, and teachers of special subjects. *A year's resident work is required for a diploma or degree.*

Ninety-six quarter hours are required for a diploma and one hundred and ninety-two quarter hours for a degree. Credit earned in physical education, library use, dramatics, glee club, quartette, chorus, orchestra, or band is in excess of the total required for graduation.

Correspondence or extension work is accepted from accredited colleges to the extent of twelve quarter hours in the two-year curriculum and twenty-four quarter hours in a four-year curriculum.

For the degree, one-third of the student's credits toward graduation must be in courses not open to freshmen and sophomores. This requirement is in accordance with the standard of the American Association of Teachers Colleges.

The University of Illinois admits to full graduate standing all graduates of the Teachers College who present twenty semester hours of content courses in one major academic subject in addition to education.

Students planning to teach in high schools should see that their records satisfy the requirements of the Illinois Examining Board and the North Central Association.

The records of those who expect to complete a curriculum in a current year are checked at the beginning of each quarter and on April 1. A statement of the courses necessary for the completion of his work is given to each of these students in the fall quarter and is used by him in making his programs for succeeding quarters. The list of candidates for graduation is based on the checking of April 1. A student who is not more than twelve quarter hours behind the class at that time may participate in commencement exercises with the class and receive his diploma or degree at the close of the summer term if he completes the work by that time. It is possible to earn twelve quarter hours in the eight weeks' summer term.

SCHOLARSHIP

Grades are expressed in letters as follows:

A, Excellent	3 grade points
B, Good	2 grade points
C, Average	1 grade point
D, Passing*	0 grade points
Inc., Incomplete work	0 grade points
F, Failure	—1 grade point

*Passing, but not accepted toward graduation or toward admission to practice teaching if more than one-fourth of the student's courses receive a grade of D.

I. *Graduation Honors.* Graduation with high honors requires that a student receive a grade of A in three-fourths of his work and B average in the rest.

Graduation with honors requires a grade of A in one-half of the student's work; B or higher in one-fourth of his work; and C average in the rest.

Graduation honors are noted on the diploma and announced at Commencement.

II. *Scholarship Honors.* Scholarship honors on the same basis as graduation honors are announced for each quarter in the month after the beginning of the next regular quarter; in December for the fall quarter; in March for the winter quarter; in October for the preceding spring quarter and year.

The announcement is posted on the bulletin board and printed in the "Teachers College News."

III. *Admission to Practice Teaching.* 1. For registration for practice teaching in any quarter in any curriculum not more than one-fourth of a student's credits may have a grade of D; that is, three-fourths of his courses must have a grade of C or above.

2. Students transferring from other colleges must be in attendance at least one eight weeks' summer term during which they earn twelve quarter hours of credit with a C grade or higher before they are eligible for practice teaching.

3. Sophomores in four-year curricula with B average (two grade points) in the freshman year may be admitted to Teaching 30 before the spring quarter if they need to fulfill legal requirements for the limited elementary certificate by the end of the sophomore year.

4. Sophomores in four-year curricula with average of 1.5 to 1.9 grade points (one-half grade point or more above C) may be admitted to Teaching 30 in the winter quarter if they plan the year's programs to include English 26, Arithmetic 20 and Geography 20 from the two-year grade curriculum and need to fulfill legal requirements (See page 41) for the limited elementary certificate by the end of the sophomore year.

5. Sophomores in four-year curricula with lower than 1.5 average in the freshman year are required to postpone Teaching 30 to the junior year. See also III, 1, under "Scholarship."

6. No student may be admitted to practice teaching until he has achieved full sophomore standing and has completed at least eight quarter hours in education. Therefore, the sophomores in the four-year curricula planning to qualify for the limited elementary certificate should elect Education 30, 31, 32 in the freshman year.

IV. *Certification and Graduation Requirements.* C average is required for graduation from the two-and four-year curricula and not more than one-fourth of the student's grades may be D. This means that a student must have as many grade points above C (1) as he has grades of D (0).

V. *Extra Work.* No freshman in a four-year curriculum may register for extra work in his first quarter.

No student may register for extra work in the first quarter in which he is taking practice teaching.

No student whose average is below B in the preceding quarter may register for extra work.

VI. *Probation.* 1. A student whose grade points total less than two (A=3; B=2; C=1; D=0; F=—1) in any quarter is on probation in the next quarter in which he is in attendance and is reported as on probation here if he has his record sent to another college.

2. A student who receives three grades of D in any one quarter is on probation the following quarter.

3. A student who is on probation for two consecutive quarters is excluded from attendance in the following calendar year unless given special permission by the Dean to remain. He is reported as "Dropped on account of low scholarship" if his record is transferred to another college.

4. A student who fails in one course and has lower than C average in the three remaining courses of that quarter is not permitted to register for more than three courses in the following quarter.

VII. *Exclusion.* A student failing in three courses, twelve quarter hours, in any quarter or in one-half of his work, eight quarter hours, in each of two consecutive quarters, is dropped from the college.

The grade F (failure) is recorded against a student who drops, after the first month, a course in which he is failing; but this does not apply to a student who is taking work to the amount of twenty quarter hours.

A student whose class work is very poor or who is frequently absent may be excluded from the privilege of taking the final examination. A grade of F (failure) is recorded against him.

EXTENSION WORK

The Teachers College offers no extension or correspondence work.

CURRICULA

I. A Two-Year Curriculum, 96 quarter hours, leading to a diploma and planned for preparation of teachers for the grades. The diploma entitles the holder to a limited elementary school certificate without examination. The completion of the first year's work admits the student to an examination for a limited elementary certificate.

II. Four-Year Curricula, 192 quarter hours each, for preparation of the following:

1. Elementary Grade Teachers.
2. Rural Elementary School Teachers.
3. High-School Teachers and Teachers of Special Subjects:
 - A. Art.
 - B. English.
 - C. Latin.
 - D. Geography.
 - E. History and Social Science.
 - F. Home Economics (Smith-Hughes).
 - G. Industrial Arts.
 - H. Mathematics.
 - I. Music (Education).
 - J. Science (Biological: Botany or Zoölogy or both).
 - K. Science (Physical: Physics or Chemistry or both).

CREDIT

The unit of measure, beginning with the year 1929-30, is the quarter hour, representing one hour a week of prepared work for twelve weeks when the student load of prepared work is sixteen hours a week. It is equivalent to two-thirds of a semester hour.

A year's work is equivalent to 48 quarter hours (32 semester hours) of prepared work. A year's work in one subject is equivalent to 12 quarter hours (8 semester hours).

Piano or voice work may be used for elective credit to the extent of 12 quarter hours (two years of work) with a minimum of 6 quarter hours in each. No student may count toward graduation more than 12 quarter hours of piano or voice work.

Credit is allowed for physical education, and for Library 20 at the rate of one quarter hour for each quarter's work.

Credit is allowed for dramatics, glee club, quartette, chorus, orchestra, and band at the rate of one quarter hour to those reported to the office for such credit at the close of each quarter

by the directors of these organizations who decide the conditions under which credit is allowed or withheld in each case.

Credit earned in required physical education, library use, dramatics, glee club, quartette, chorus, orchestra, or band is in excess of the 96 quarter hours required for a diploma and of the 192 quarter hours required for a degree. The credit is recorded on the student's permanent record card and may play an important part when he is an applicant for a position.

A statement of the amount of credit is included in the description of each course.

NUMBERING OF COURSES

Courses numbered 20-29 (with a few exceptions) are required in a curriculum in the Junior College; courses numbered 30-39 are elective courses for those in the Junior College; courses numbered 40 or above are Senior College courses.

MAJOR AND MINOR SUBJECTS

In four-year curricula for high school teachers, a student takes 48 quarter hours of work in a major subject and 24 quarter hours in a minor subject, in some cases specified by the department of the major subject and in other cases left to the student's choice, but the courses in the minor subject must constitute two years' work in some one department and the courses chosen must be satisfactory to that department and to the department of the major subject. Students should consult the department of the major subject as to choice of minor subjects and of electives.

ELECTIVES

There are two groups of electives; one for those in the Senior College, numbered 40 or above and one for those in the Junior College, numbered 30-39. Students should consult the department of the major subject as to choice of electives and of minor subjects.

Seniors electing freshman courses are allowed only eight quarter hours credit for twelve quarter hours work. This regulation goes into effect with the class of 1938.

DESCRIPTION OF CURRICULA

FOUR-YEAR CURRICULA

192 Quarter Hours

II. 1. For Preparation of Teachers for the Lower Grades

Freshman Year

Education 20, 21, 22
English 20, 21, 22 or 24
Arithmetic 20, 21, Reading 24
Botany 20 or Zoölogy 23
Geography 20, Art 24
Penmanship 20 (Quarter)
Library 20 (1) (Quarter)
Physical Education (2) (Year)

Sophomore Year

Education 23, 24 or 24R
Teaching 20, 21 or 20LR, 21LR
History 37, 38, Education 25
Music 28 (24), Industrial Arts 24
or 25, Hygiene 20
Music or Art, Elective or Teaching
Physical Education (2) (Year)

Junior Year

Education 44, Geography,
Geography
English, English, English 45
Elective (Year)
Laboratory Science (Year)

Senior Year

Elective (Year)
Social Science (Year)
*Teaching 40, Teaching 41G-48G or
41R-48R, Education 47
Elective (Year)

* This course is methods of teaching in the major subject and is described under each subject.

Notes: 1. Students are advised to use their electives so as to have more than one minor subject (teaching subject).

2. Numbers identify the course in the description of courses. Numbers in parenthesis after Physical Education and Library 20 indicate the number of periods a week.

3. If the science is botany or zoölogy, Botany 21 and 22 or Zoölogy 21 and 22 complete the requirement.

If history is a minor subject, eight quarter hours of sophomore history count toward this requirement.

II. 2. For Preparation of Teachers for the Upper Grades

The same outline of courses as above with the following exceptions:

1. In the freshman year English 26 should be substituted for English 22 or 24.
2. In the sophomore year students take History 33, 34, (or 34, 35) instead of History 37 and 38. Geography 21 is substituted for Education 25.
3. In the junior year students are required to take one quarter of integrated mathematics (Mathematics 39).

Notes: 1. The completion of the sophomore year in either curriculum entitles the student to the diploma of the Junior College and to a limited elementary certificate.

2. Each subject has four fifty-minute periods a week unless otherwise indicated by a number in parenthesis; but Botany 20 and Zoölogy 23 have six fifty-minute periods; Art and Industrial Arts require eight periods a week for full credit.

General Metal Shop

Print Shop

II. 3. For Preparation of High School Teachers

II, 3, A. Art

Freshman Year

English 20, 21, 25
Education 30, 31, 32
Art 30, 31, 32
Minor Subject (Year)
Physical Education (2) (Year)
Library Use 20 (1) (Quarter)

Junior Year

Education 43, 45, 44
English 44J or 45, Elective,
Teaching 30 (Art)
Art 43, 44, 45
Minor Subject (Year)

Sophomore Year

History 37, History 38 or 39,
Elective
Laboratory Science (Year)
Art 33, 34, 35
Elective, Hygiene 20, Art 38
Physical Education (2) (Year)

Senior Year

Art 40, 41, 42
Elective (Year)
Art 46, 47 or Elective, 48
Art 50, 49, Elective (Advanced)

Requirements for a Minor in Art:

Art 30, 31, 32; Art 35, 38, choice of 43 or 44 or 45.

II, 2, B. English

An examination in English, covering the elements of good form and of organization, is required of all juniors, and will be given during the fall quarter, 1936. Students who do not pass this examination must take remedial work in English before they will be admitted to any teaching course.

Students wishing to accumulate additional minors or a second teaching major may omit certain of the English courses listed below by arrangement with the head of the department. Care must always be taken to include enough Senior College courses and to plan a balanced program of English study.

Freshman Year

English 21, 26, Hygiene 20
Laboratory Science (Year)
Elective (Year)
Education 30, 31, 32
Physical Education (2) (Year)
Library 20 (1) (Quarter)

Junior Year

Education 43, 44, 45
Teaching 30, Elective, Art 51
English 43, 44, 45
English 46, 47, 48

Sophomore Year

English 35, 31, 37 (or Elective)
Minor Subject (Year)
Elective (Year)
English 30, 36, 34
Physical Education (2) (Year)

Senior Year

English 40, 41, 42
Minor Subject (Year)
History 46, 47, 48 (or 43, 44, 45)
English 49, 50, 51

Notes: 1. Any student entering the Teachers College with a deficiency in the basic skills in English—reading, writing, spelling, elements of grammar and good usage—may be required to take work in remedial English in addition to the required freshman composition courses.

2. Any student teacher found deficient in English may be remanded to English 20 or to remedial work in speech or grammar or oral and written usage, as the case may require.

3. English majors are expected to be able to omit English 20. Those unable to carry English 21 will be remanded to 20.

4. Eighteen English courses are required for graduation in the English curriculum. English majors who omit English 20 will take English 35 in the sophomore year.

5. English majors who are able to pass English 26 by examination will take either English 31 or English 37 in the sophomore year.

6. Students with from two to four years of high-school Latin may arrange for a Latin minor or for a joint major in English and Latin, by consulting the heads of these departments.

Requirements for a Minor in English:

English 30, 31, 34, 35, 36 (or 43), 37 (or 39) may be used as the minor subject. English 46, 47, 48 may be used by juniors or seniors for credit toward English for minor subject.

II, 3, C. Latin

Freshman Year

Latin 20, 21, 22*
English 20, 21, 25
Lab. Science (Year) or Elective
History 37, 38, Hygiene 20
Physical Education (2) (Year)
Library Use 20 (1) (Quarter)

Sophomore Year

Latin 30, 31, 32
Education 30, 31, 32
Minor Subject (Year)
Elective (Year) or Lab. Science
Physical Education (2) (Year)

Junior Year

Latin 43, 44, 45
Teaching 30, Elective, English 45
Education 43, 44, 45
Minor Subject (Year)

Senior Year

Latin 40, 41, 42
Latin 46, 47, 48
Elective (Year)
Elective (Year)

Requirements for a Minor in Latin:

Latin 20, 21, 22; Latin 30, 31, 32.

* If student has had four years of high-school Latin, one year of elective, to be approved by head of the department, may be substituted.

II, 3, D. Geography

Freshman Year

English 20, 21, 25
Laboratory Science (Year)
Elective (Year)
Geography 20, 21, 30
Physical Education (2) (Year)
Library 20 (1) (Quarter)

Sophomore Year

Education 30, 31, 32
History, History, Hygiene 20
Minor Subject (Year)
Geography 33 (43), 31, 36
Physical Education (2) (Year)

Junior Year

Education 43, 44, 45
Teaching 30, Elective, English 45
Minor Subject (Year)
Geography 43 (32), 45, 44 (or 46)

Senior Year

Geography 40, 41, 42
Elective (Year)
Elective (Year)
Economics 44, 45, Elective

Requirements for a Minor in Geography:

For the elementary grades or department teachers, Geography 20, 21, 30, 33, 36, and 40; For high school teachers, Geography 20, 21, 30, 33, 36, and 44, or 46 or 47.

II, 3, E. History and the Social Sciences

Freshman Year

English 20, 21, 25
Laboratory Science (Year)
History 37, 38, 39
Elective (Year)
Physical Education (2) (Year)
Library 20 (1) (Quarter)

Sophomore Year

Education 30, 31, 32
History 33, 34, 35
Elective (Year)
Elective (2 terms), Hygiene 20
Physical Education (2) (Year)

Junior Year

Education 43, 44, 45
Teaching 30, Elective, English 45
History 46, 47, 48 (or History
43, 44, 45)
Elective (Year)

Senior Year

History 40, 41, 42
Economics 44, 45, 46 or
Government 43, 44, 45
Elective (Year)
Elective (Year)

Requirements for a Major in the Social Sciences:

History 37, 38, 39; History 46, 47, 48; History 40, 41, 42;
History 33, 34, 35; Economics 44, 45, 46, or Government 43, 44, 45.

Requirements for a Minor are two of the above courses excluding History 40, 41, 42.

II, 3, F. Home Economics (Smith-Hughes)

Note: This curriculum is designed to cover the needs of teachers who wish to prepare to teach home economics in high schools which receive Federal Aid under the Smith-Hughes Law. This curriculum has been approved by the State Supervisor of Home Economics.

Freshman Year

Art 30, 31, 32
Chemistry 30, 31, 32
Clothing 30, 31, 32
English 20, 21, 25
Physical Education (2) (Year)
Library 20 (1) (Quarter)

Sophomore Year

Botany 20, 21, Hygiene 20
Elective, History, History
Education 30, 31, 32
Foods 30, 31, 32
Physical Education (2) (Year)

Junior Year (1936-37 and 1938-39)

lish 45
Sociology 43, Education 43,
Economics 44

Senior Year (1937-38 and 1939-40)

Clothing 43 and 45, Art 44
Home Economics 45, Teaching 42,
Home Economics 41F
Education 43, 45, Education 58
Elective (Year)

Requirements for a Minor in Home Economics:

Foods: Foods 30, 31, 32; 43, 44, Home Economics 40

Clothing: Clothing 30, 31, 32; Clothing 43, 44 or 45, Home
Economics 40

Appreciation: Foods 30, 31, 32; Clothing 30, 31, 32. (This
is not a teaching minor.)

II, 3, G. Industrial Arts

Notes: 1. An academic minor subject is required. This may be:
English, foreign language, geography, history, mathematics (Algebra
31, 32, Trigonometry 33; Analytics 34, 35, Geometry 28), or science
(botany, zoology, physics or chemistry).

2. Some substitution of academic courses for industrial arts courses
will continue to be allowed to seniors.

Freshman Year

English 20 21, 25
History 33, 34, Economics 20
Industrial Arts 25, 31, 34
Industrial Arts 35, Botany 23,
Hygiene 20

Music Education 43, 44,
Teaching 30
Adv. Academic Elective (Year)
Chorus 43, 44, 45
Band 43, 44, 45
Orchestra 43, 44, 45*Senior Year*(This year's work will be offered
1937-38)

Note: Chorus, Band, or Orchestra is required each quarter of all students who major or minor in this field. 1 quarter hour for each quarter's work. No credit is allowed toward graduation.

Requirements for a Minor in Music:

Two years' work in Music Education as advised by the head
of the Music Department.

II, 3, J. Science (Biological)

Note: The botany and zoölogy curricula are so arranged that the student may not only have four years of work in botany or zoölogy (including one year of methods and practice teaching), but that he may also have three minor subjects (of six quarters each) which qualify him to teach six different subjects in accredited high schools. The student is also equipped to do graduate work.

(1) BOTANY

Freshman Year

English 20, 21, 25
Elective (Year)
Chemistry 30, 31, 32
Botany 20, 21, 22
Physical Education (2) (Year)

 Physics 36, 35, 37
 Analytics 34, Hygiene 20, Teaching
 30
 Elective (Year)
 Physical Education (2) (Year)

Junior Year

Physics 48, 49, 50, or 51, 52, 53
 History, History, English 45
 Adv. Elective (Year) (Preferably
 Calculus)
 Elective (Year)

Senior Year

Education 45, 44, 43
 Physics 40, 41, 42
 Adv. Elective (Year) (Preferably
 Physics 51, 52, 53, or 48, 49, 50)
 Elective (Year)

Requirements for a Minor in Physics:

Physics 30, 31, 32; one year of advanced physics, preferably with one or two quarters of work from Physics 35, 36, 37, 43, 44.

Possible Minors: Mathematics (24 quarter hrs.), Chemistry (24 quarter hrs.), General Science (1 year of Botany or Zoölogy), Biological Science (1 year Botany and 1 year Zoölogy), Language (24 quarter hours, preferably German).

TRAINING SCHOOLS

Campus Training School.

Purpose.—The purpose of the Teachers College in maintaining a campus Training School is twofold: to provide a laboratory school in which students and members of the faculty may test the methods of instruction and the educational theories taught in the college; and to furnish a school wherein students may develop craftsmanship in teaching by observing expert teaching and by actual teaching under supervision.

Organization and Admission.—The Campus Training School consists of the Elementary School of eight grades, and the High School of four grades. The number of students who can be admitted is limited. Pupils desiring admission are registered, and admitted in order of registration when vacancies occur.

Pupils once admitted to the school for the regular school year retain their places until completing the course unless they are unreasonably irregular in attendance or fail to appear on the opening day of the school year without notice to the training school office of their intention to appear later.

Fees for each quarter for grades one to eight inclusive:

Registration	\$0.75
Training School Pupils' Activity and Supplies Fund50
	<hr/>
	\$1.25

Fees for each quarter for grades nine to twelve inclusive:

Registration	\$1.00
Book rent	1.00
Recreation fee50
Athletic Association	1.00
	<hr/>
	\$3.50

Textbooks are furnished by the school.

Training School pupils do not pay fees for the summer term.

Elementary Department.—In the first eight grades the immediate direction of the work of each grade and the responsibility for its progress is with the training teacher of the grade. The training teachers, with the director of teacher training, plan the work of their grades, discuss with the student teachers their plans for teaching and do enough of the teaching to keep the progress of the pupils at a high standard. Training teachers for art, music, penmanship, and physical education have charge of these subjects in all grades. The teachers in other departments of the Teachers College have in all cases an advisory relation to the training school.

High School Department.—The Teachers College High School is recognized by the State Department of Education and is accredited by the University of Illinois and by the North Central Association of Colleges and Secondary Schools. Those who have completed the eight grades may enter the ninth grade which is the first year of a four-year high school. Full credit is allowed students entering from other accredited high schools. Sixteen units are required for graduation. A special bulletin describing the Training High School will be sent on request.

Affiliated Rural Training Schools.

Purpose.—In order that supervised student teaching may be carried on under circumstances more typical of rural school conditions the Teachers College has affiliated with two one-room rural school districts and one village school, consisting of an eight-grade elementary department and a four-year high school.

Administrative and Supervisory Relationships.—Supervised student teaching in the affiliated schools is under the direct supervision of the Director of Rural Education. Teachers selected for the affiliated schools must be approved by both the district and the college. A part of each rural school training teacher's salary is paid by the college.

Observation, Participation and Supervised Student Teaching.

Observation.—The facilities of all training schools are available at all times to all college classes for directed observation. Persons wishing to do undirected observation must consult the director of teacher training. First year students in the two-year curriculum are required to do directed observation in connection with several of their courses. The work is designed to prepare them to meet the problems of teaching which they must meet in their course in supervised student teaching, and to enable them to see the application of their courses in educational psychology, reading, arithmetic, handwriting, and science. In the main the observation of a lesson is preceded by a discussion of the aims, materials and methods to be employed in the lesson and is followed by a discussion in which the teacher of the lesson as well as the director of the observation participates.

Participation.—The gradual introduction of the student to the problem of teaching logically takes the form of the sequence: observation—participation—teaching. In practice gradual participation in teaching as an independent course is considered a wasteful procedure. It is usually combined with either an observation course or a teaching course. At Eastern Illinois State Teachers College gradual participation is a part of and a guiding principle in the student teaching courses.

Supervised Student Teaching.—All students graduating from the two-year curriculum are required to take 100 clock hours of supervised student teaching. If the student does not receive an average grade of B in this teaching an additional 50 clock hours of teaching is required. All students graduating from four-year curricula are required to take 150 clock hours of supervised student teaching.

Student teachers are assigned to training teachers by the Director of Teacher Training. For special regulations governing admission to practice teaching see III under "Scholarship."

DESCRIPTION OF COURSES

ART

Note: All art courses meet eight fifty-minute periods a week, except Art 38, 40, 47, 50, 51, which meet four fifty-minute periods a week. Art 41 and 42 meet five periods a week.

24. Introduction to Art. Lectures and laboratory problems in design, color, perspective, freehand drawing, and lettering.

Required in the freshman year for teachers of the elementary school. (4 hours.) Every quarter.

25. Industrial Arts. Applied design in weaving, clay modeling, paper and cardboard construction, basketry, puppets, toy-making, bookbinding, dyeing, and other craft work adaptable to the elementary grades.

For elementary school teachers. (4 hours.) Spring quarter.

26. Teachers Course in Public School Art. An introductory course in the theory and practice of teaching art in the elementary school, designed for those interested in the teaching of art in the elementary grades. The course is especially planned for teachers who are in schools where there are no supervisors of art. A graded course in public school art is presented by lectures and developed by the students in laboratory problems in design, color, freehand drawing, perspective, lettering, manuscript writing, and appreciation of pictures and other art forms. All mediums practicable in the elementary grades are used in the laboratory work of the course.

Elective. (4 hours.) Winter and summer quarters.

27. Lettering. A laboratory course based on a study of established styles and modern lettering. Arrangements and compositions worked out with pens and brushes, and applied to various subject matter and materials. The student should consult the head of the department as to hours.

Elective. (4 hours.) Any quarter, by permission.

30. Design, I. Art Structure. The study of fundamentals in the application of color and design. The properties and qualities of color and the elements of design are demonstrated and applied in laboratory problems.

Required in the art and home economics curricula. Elective in other curricula. (4 hours.) Fall quarter.

31. Design, II. A continuation of Art 30. Study and application of principles of design and color to various types of patterns suitable for textiles and certain other materials. Designs are created by the students in several mediums. The course includes some lettering and poster design.

Required in the art and home economics curricula. Prerequisite: Art 30. (4 hours.) Winter quarter.

32. Freehand Drawing, I. Application of principles of freehand perspective to representation. Drawing in pencil, charcoal, or crayon from geometric solids, casts, and other objects. Students begin outline drawing and work up to full light and shadow.

Required in the art and home economics curricula. Recommended to majors in mathematics and industrial arts. Elective in other curricula. (4 hours.) Spring quarter.

33. Freehand Drawing, II. A continuation of Art 32. More advanced study of the application of the principles of perspective and representation. Life drawing is introduced in the study of proportions and attitudes of the human figure, with emphasis on methods of denoting action. Sketching in short poses and the technique used in finished drawings in longer poses are demonstrated.

Required in the art curriculum. Prerequisites: Art 30 and Art 32. (4 hours.) Fall quarter.

34. Design, III. Applied Design. The study of decoration applied to woodblock and linoleum printing, leather tooling and weaving of textiles.

Required in the art curriculum. Prerequisite: Art 33. (4 hours.) Winter quarter.

35. Drawing and Painting, I. Still life and outdoor sketching. Practice in composition and values in monochrome, leading to use of full color in crayons, pastels, or water colors.

Required in the art curriculum. Elective in other curricula. (4 hours.) Spring and summer quarters.

36. Industrial Arts. A continuation of Art 25. This advanced course in applied design will be offered any quarter in which there is sufficient demand for it. The student should consult the head of the department as to hours.

Elective. (4 hours.) Any quarter, by permission.

37. Jewelry and Metal Work. Application of design principles to the making of rings, pendants, bracelets, plates, trays, etc.; embossing and chasing. A study of fine line and proportion in design in the gold and silversmith's craft.

Elective in any curriculum. (4 hours.) Omitted 1936-37.

38. Art History, I. The background of the space arts. A consideration of the social and aesthetic significances of present-day art forms as expressed in architecture, painting, sculpture, and the crafts, such as furniture, metal work, textiles, records, and ceramics. Lectures illustrated by lantern slides.

Required in the art curriculum. Recommended to students of the social sciences. Elective in other curricula. (4 hours.) Spring quarter.

39. Pottery. The application of design principles to clay modeling.

Elective. (4 hours.) Winter quarter.

40. The Teaching of Art. A methods course in art education with reference to the high school.

(4 hours.) Fall quarter.

41, 42. Practice Teaching in Art in the High School.

(4 hours for each course.) Winter and spring quarters.

43. Design, IV. Advanced work in pictorial and decorative compositions for easel and mural paintings. The course includes illustration work, beginning with composition of one figure with simple background in flat tones in three values and advancing to full light and shadow with several figures. A draped model will be used.

Required in the art curriculum. Open only to students who have had one or more years of design and freehand drawing. (4 hours.) Fall quarter.

44. Interior Decoration. A practical course in the fundamentals of interior decoration from the fine arts point of view. A study of the various color theories with reference to interior architecture. The course includes the study and analysis of the aesthetic qualities of different periods and styles of furniture and of fabrics used in connection with furniture. The course is designed to develop discrimination and taste in the selection of materials used in interiors.

Required in the art and home economics curricula. Elective in other curricula. (4 hours.) Winter quarter.

45. Drawing and Painting, II. Life drawing from a model. Study of anatomical facts. Mediums: charcoal, pencil, and crayon.

Required in the art curriculum. Prerequisite: Art 43. (4 hours.) Spring quarter.

46. Drawing and Painting, III. A continuation of Art 45. Work in life drawing and portrait painting, with especial emphasis on the form and structure of the head in various positions and lights. Any medium may be used.

Required in the art curriculum. (4 hours.) Fall and summer quarters.

47. Art History, II. The subject of painting is treated from the historical and appreciation point of view in the study of many of the acknowledged masterpieces in this field. Lectures illustrated with lantern slides.

Elective. (4 hours.) Winter quarter.

48. Design, V. Advanced work in the application of pictorial and decorative design. Mediums: oils, water colors, pen and ink, etching, lithograph and block printing.

Required in the art curriculum. Open only to students who have had at least three years of design and freehand drawing. (4 hours.) Spring quarter.

49. Commercial Design. Problems in lettering, poster and advertising design. Study of the various means and processes of applying and reproducing commercial and industrial designs, with especial emphasis on the application to the high-school annual and to other school publications.

Elective in other curricula on consultation with the head of the department. (4 hours.) Winter quarter.

50. Art History, III. The history of ornament, architecture, and sculpture with reference to present-day art forms in each field.

Elective for juniors and seniors in other curricula. (4 hours.) Omitted 1936-37.

51. Appreciation of Art. Lectures illustrated by lantern slides and other illustrative material. The course aims to increase the understanding of visual art forms through the study and interpretation of masterpieces of the space arts according to the principles of design.

The course is designed for juniors and seniors in the English curriculum. Elective in other curricula. (4 hours.) Spring and summer quarters.

EDUCATION AND TEACHING

I. EDUCATION

20. An Introduction to Education. A comprehensive survey of the field of education. Especial attention is given to the development of the American school system, aims and curricula of the various administrative units, cost, support, and administration of our schools, qualifications for teachers, the duties and the relationships of teachers, professionalizing teaching, and opportunities in teaching.

Required of freshmen in the two-year curriculum and in the four-year curriculum for the preparation of elementary teachers. (4 hours.) Fall quarter.

21. Introduction to Educational Psychology. This is a beginning course and does not assume previous study of psychology. The major topics dealt with are the methods of educational psychology, the physical basis of behavior, inherited and acquired responses, and the nature of the learning process.

Required of freshmen in the two-year curriculum and in the four-year curriculum for the preparation of elementary teachers. (4 hours.) Winter quarter.

22. Educational Psychology. A continuation of Education 21. The major topics dealt with are the nature of the thinking process, transfer of training, individual differences and their measurement, and mental hygiene.

Required of freshmen in the two-year curriculum and in the four-year curriculum for the preparation of elementary teachers. Prerequisite: Education 21. (4 hours.) Spring quarter.

23. Principles of Education with Special Reference to the Elementary School. The course deals with properties of the human organism that make education possible, properties of society that make education necessary, historical concepts that have dominated organized education, the place of education in a democratic society, and the aims of education in a democratic society. Emphasis is placed upon a study of recent social trends and their implications for education.

Required in the sophomore year of the two-year curriculum. Prerequisite: eight quarter hours in education. (4 hours.) Every quarter.

24. Directed Study and Observation of Teaching. Extra-instructional and instructional duties of the teacher are dis-

cussed. Problems pertaining to classroom management, such as establishing classroom routine, maintaining good discipline, teaching pupils to control themselves, providing a favorable physical environment, supervising the physical welfare of pupils, caring for materials and apparatus, keeping records and making reports, encouraging regular and punctual attendance, and directing extra-curricular activities, are taken up. Problems pertaining to instruction, such as planning lessons, directing study, directing the recitation, and evaluating the results of teaching, are also considered. Numerous observations in the Training School are an integral part of the course.

Required in the sophomore year of the two-year curriculum. Prerequisite: eight quarter hours in education. (4 hours.) Every quarter.

24R. Directed Study of Rural Teaching. An opportunity is offered the student to study instructional and extra-instructional teaching and learning activities. The course is organized into the following illustrative units of work: lesson planning, the assignment, questioning, directed study, socialized recitation, diagnostic teaching, remedial teaching, drill, review, examination, routine discipline and control, professional relationships and growth, and school records.

Required in the sophomore year of the two-year rural school curriculum. Prerequisite: eight quarter hours in education. (4 hours.) Every quarter.

25. Primary Education. A course devoted primarily to a study of problems pertaining to teaching in the first three grades. The principal topics taken up are the mental and the physical growth of the child during the pre-school and the primary periods; the aims and the curricula of the nursery school and the kindergarten; the aims, the curricula, the equipment and the materials of the primary school; teaching the various subjects in the curriculum of the primary grades; and personal characteristics and professional preparation of the primary teacher.

Required in the sophomore year of students preparing to teach in the lower grades. Prerequisite: twelve hours in education. (4 hours.) Spring quarter.

26R. Leadership Education for Country and Village. The purpose of this course is to aid teachers in the development of the personal qualities and abilities characteristic of effective community leaders. A brief biographical study of some outstanding rural leaders and their contributions to rural life, and

an analysis of the work of some rural organizations is made. A knowledge of games and other forms of recreation is assumed. Effort is directed toward the acquisition of functioning of abilities in directing social recreation, organization and management of playground activities, and parliamentary procedure.

Elective in the sophomore year. Prerequisite: eight quarter hours in education. (4 hours.) Spring quarter.

30. An Introduction to Education. The topics taken up are the same as in Education 20, but special attention is given to topics pertaining to the secondary school.

Required of sophomores in the four-year curriculum for the preparation of secondary school teachers. (4 hours.) Fall quarter.

31. Introduction to Educational Psychology. The topics covered are the same as in Education 21.

Required of sophomores in the four-year curriculum for the preparation of secondary school teachers. (4 hours.) Winter quarter.

32. Educational Psychology. The topics included are the same as in Education 22.

Required of sophomores in the four-year curriculum for the preparation of secondary school teachers. Prerequisite: Education 31. (4 hours.) Spring quarter.

43. Principles of Education with Special Reference to the Secondary School. The topics dealt with are the same as in Education 23, but special attention is given to their implications for the secondary school.

Required of juniors in the four-year curriculum for the preparation of secondary school teachers. Prerequisite: eight quarter hours in education. (4 hours.) Every quarter.

44. Tests and Measurements. About one third of the time is devoted to educational statistics, with emphasis upon the applications of the various techniques that are presented. The remainder of the time is devoted to a brief study of the testing movement, advantages and limitations of various types of tests, criteria for the selection of tests, examination of numerous standardized tests, and the construction of tests in the student's major field.

Required of all students in either their junior or senior year. Prerequisite: sixteen quarter hours in education. (4 hours.) Every quarter.

45. Directed Study and Observation of Teaching. Problems pertaining to the extra-instructional and the instructional activities of the secondary teacher are discussed. Observations in the Training School are an integral part of the course.

Required of juniors in the four-year curriculum for the preparation of secondary school teachers. Prerequisite: eight quarter hours in education. (4 hours.) Every quarter.

46. Modern Trends in Education. The topics discussed vary from year to year. Each student is expected to choose for detailed study one problem in which he is especially interested. Topics such as the following are illustrative of the kind that may be taken up: curriculum building; progressive education; the guidance movement; financing education; educational research in special fields, such as reading, academic freedom, visual education, radio in education.

Elective in junior or senior year. Prerequisite: sixteen quarter hours in education. (4 hours.) Fall and summer quarters.

47. Social Psychology. This course deals with the various phases of social behavior. Specifically, some of the problems dealt with are instinctive adaptation to social situations; group and individual reactions to social phenomena; customs; fashions; fads; conventions; national and racial attitudes; occupations; institutions; and the social self in the present-day world.

Elective in junior or senior year. Prerequisite: sixteen quarter hours in education. (4 hours.) Spring and summer quarters.

48. School Organization and Administration. This is an introductory course for students who desire a knowledge of problems in educational organization, administration, and supervision in the nation, the state, and local units. The first half of the course gives an understanding of the problems of administration to enable all members of an organization to cooperate with those in final administrative authority in the formulation of policies. The second half of the course presents the problems of the elementary and high-school principal in organizing and administering schools. School law and finance as well as current educational problems receive attention in this course.

Elective in junior or senior year. Prerequisite: sixteen quarter hours in education. (4 hours.) Winter quarter.

49R. Current Rural Problems. An analysis of current social issues as they affect the welfare of country and village people. The approach of these issues is made through the medium of

current farm periodicals and two books: "A Study of Rural Society" by Kolb and Brumer, and "Readings Related to Agriculture" by Hamlin. Agricultural planning is discussed. Typical problems to be discussed are: How may rural people modify habits and institutions to advance the common welfare? What is the function of the rural teacher in the process of social change in rural America?

Elective in junior or senior year in the four-year rural curriculum. Prerequisite: sixteen quarter hours in education (4 hours.) Winter and summer quarters.

51. Abnormal Psychology. Points of view as regards the nature and varieties of personality. The significance of certain facts of normal and abnormal psychology, and their bearing upon the individual. Development of practical tests for use in detecting and diagnosing abnormalities.

Elective. Prerequisite: twelve quarter hours in education. (4 hours.) Summer term.

52. School Law. This course takes up the principles of case law applicable to practical problems of school administration. It is intended for school superintendents, principals, and supervisors concerned with the administration of public schools.

Elective. Prerequisite: twelve quarter hours in education. (4 hours.) Summer term.

53. Extra-Curricular Activities. The aim of this course is to discover and set up guiding principles for pupil participation in the life of the school. The following activities are considered: Home room and class organization, student council, school clubs, athletic association, state contests, school publications, music clubs, dramatics, social parties, extra-curricular finances. Special consideration is given to two important supplementary school agencies, Boy Scouts and Girl Scouts. In a laboratory period following the class hour, the men of the class are taken through the "Elements of Scoutmastership" to qualify as scoutmasters. For this work they will be awarded the training certificate of the Boy Scouts of America. A similar laboratory period is offered for the women of the class. Students are invited to bring all material available in their own school that bears on the topics of the course.

Elective. Prerequisite: twelve quarter hours in education. (4 hours.) Summer term.

CURRICULA FOR RURAL SCHOOL TEACHERS

Lower Grades

Follow the regular Four-Year Curriculum for the lower grades with the following changes: (1) If the student wishes to teach in the lower grades of a village at the end of the sophomore year, Teaching 20LR and 21LR should be substituted for Teaching 20 and 21. (2) Substitute Education 24R, Directed Study and Observation of Rural Teaching, for Education 24, Directed Study and Observation of Teaching in the regular curricula. (3) If possible, elect Education 26R, Leadership Education for Country and Village. (4) In the senior year substitute Teaching 41LR for Teaching 41. Students who take any of the LR courses will do their practice teaching in the lower grades of an affiliated village school. (5) Education 49R, Current Rural Problems, may be elected in the senior year.

Upper Grades

Follow the regular Four-Year Curriculum for Upper Grades with changes similar to those suggested for the lower grades. (1) In the sophomore year, substitute Teaching 20UR and 21UR for Teaching 20 and 21. (2) In the senior year, substitute Teaching 41UR for Teaching 41. (3) Students who take the UR courses will do their practice teaching in the upper grades of an affiliated village school.

Eight Grades (one-room school)

Follow the regular Four-Year Curricula for Lower or Upper Grades with changes similar to those suggested for the Lower Grades Rural Curriculum. (1) Substitute Teaching 20R and 21R for Teaching 20 and 21 in the sophomore year. (2) In the senior year, substitute Teaching 41R for Teaching 41. (3) Students taking the R course will do their practice teaching in a nearby affiliated one-room school.

High School

Follow the regular Four-Year Curriculum for the Training of High School Teachers, with the following suggested changes:

1. Elect Education 26R, Leadership Education for Country and Village.
2. In the junior or senior year elect Education 49R, Current Rural Problems.
3. In the junior or senior year substitute Teaching 30R, 41R and 42R for Teaching 30, 41 and 42. Students who take the R courses will do their practice teaching in an affiliated village high school.

The practice teaching requirement in the Curricula for Rural Teachers will be met by one half day of teaching for a period of one quarter.

II. TEACHING

A detailed description of the courses in supervised student teaching may be found under the head, Training Schools.

All assignments for supervised student teaching are made by the director of teacher training. Students should arrange for their teaching assignment before registering for other subjects.

Students registered for teaching must leave the 3:40-4:35 period open for group conferences.

For restrictions on admission to supervised student teaching course, see III, under "Scholarship."

20, 21, 22. Supervised Student Teaching in the Grades.

Required in the second year of the two-year curriculum for preparation of teachers for the grades. Teaching 22 elective if B average is made in Teaching 20 and 21. (4 hours for each course.) Every quarter.

30. First Quarter of Supervised Student Teaching for Students in Four-Year Curricula. It includes Teaching 30 (Art), Teaching 30 (English), Teaching 30 (Latin), Teaching 30 (Geography), Teaching 30 (History), Teaching 30 (Industrial Arts), Teaching 30 (Mathematics), Teaching 30 (Music), Teaching 30 (Botany), Teaching 30 (Zoology), Teaching 30 (Physics), Teaching 30, (Chemistry).

The word in parenthesis indicates the student's major subject and is needed to show so far as possible the subject which he should be assigned to teach.

Students in four-year curricula are not registered for Teaching 20 which is the first course for students in the two-year curriculum.

For restrictions on admission to any course in supervised student teaching see III, under "Scholarship."

Prerequisite: Junior classification except as specified in III, under "Scholarship." (4 hours.) Fall quarter, junior year, unless the student is admitted in the sophomore year under the regulations given in III, under "Scholarship."

41, 42. Supervised Student Teaching in the Major or Minor Subject. Two quarters of teaching are required in the Senior College. At least one of these quarters must be in the major

subject. These courses are listed under the same numbers (41, 42) in the description of courses in each department.

Required in the Senior College. (4 hours.) Winter and spring quarters.

41G to 48G. Supervised Student Teaching and Supervision in Elementary Grades.

Required in the Senior College in the curriculum for preparation of elementary grade teachers. (4 hours for each course.) Every quarter.

ENGLISH

Note: 1. Any student entering the Teachers College with a deficiency in the basic skills in English—reading, writing, spelling, elements of grammar and good usage—may be required to take work in remedial English in addition to the required freshman composition courses.

2. Any student teacher found deficient in English may be remanded to English 20 or to remedial work in speech or grammar or oral and written usage, as the case may require.

20, 21. Composition. A course in the fundamentals of good speaking and writing. Creditable work in English 20, 21 is a prerequisite to teaching in the Training School. Credit for English 20, 21 may be earned in one, two, or more quarters according to individual progress. Students who complete English 21 when registered for English 20 may substitute another English credit for English 20, being counted excused from English 20.

Required in the freshman year in all curricula. (4 hours for each course.) English 20, fall, winter and summer quarters; English 21, fall, winter, spring, and summer quarters.

21J. Journalism I. The course covers the fundamentals of news-writing and reporting. It is designed to train students to act as advisers for high-school student publications. Part of the class work appears regularly in *The Teachers College News*.

Prerequisite: English 20. Accepted for English 21. (4 hours.) Winter quarter.

22. Literature in the Grades. Emphasizes chiefly wide acquaintance with the great bodies of world literature—myth, legend, etc.—and with the best poetry suitable for children.

Required in the first year of the two-year curriculum unless English 24 is taken. (4 hours.) Spring and summer quarters.

23. Story-Telling. Theory and practice in telling stories to children of different ages.

Elective. The course may be substituted for English 22 or 24 in the two-year curriculum. (4 hours.) Summer term.

24. Teaching of English. The teacher of composition in the grades is covered as fully as time permits, including discussion of materials, purposes, standards, theme-topics, correcting of compositions, literature in the grades, and methods of teaching. This course is especially recommended to students interested in intermediate, upper grade, or junior high school work.

Prerequisite: English 20 and 21. Required in the first year of the two-year curriculum unless English 22 is taken. (4 hours.) Spring and summer quarters.

24. Reading. Designed both to improve the oral and silent reading of the pupils and to give them definite standards by which they may intelligently judge the reading of others. Some attention is given to methods of teaching reading in the grades.

Required in the two-year curriculum. (4 hours.) Every quarter.

25. Introduction to Literature. Designed to give the student an acquaintance with the most common types of English literature, including narrative and lyric poetry, biography and letters, the short story, and the essay.

Prerequisite: English 20 and 21. Freshmen who have taken English 10, 11, 12 in the Teachers College High School must substitute English 34 or English 26 for English 25 to avoid duplication; or English 24 or English 22 may be substituted by these students if they wish to teach at the end of two years. Required in four-year curricula, except the English curriculum. (4 hours.) Spring quarter.

26. Grammar. A study of the English sentence, with some attention to the parts of speech. Methods are illustrated and stressed. This is primarily a course for those preparing to teach in the upper grades or in junior or senior high school English, but is open to any student who feels the need of grammatical insight.

Required in the upper grade sections, sophomore year of the two-year curriculum, and in the freshman year of the English curriculum. (4 hours.) Every quarter.

30. Speech. Preparation and delivery of original speeches; practical English phonetics; interpretative reading.

Elective. (4 hours.) Fall quarter.

31. Speech. Argumentation and debate; principles, and participation in class debates on subjects of current interest.

Elective. (4 hours.) Winter quarter.

32. Speech. Voice and diction. Instruction and practice in breathing, tone production, and enunciation. Training in perception and mastery of speech differences.

Elective. (4 hours.) Spring quarter.

30, 31. Nineteenth Century Prose Fiction. The primary aim is to arouse the student's interest in the best fiction, and the secondary, to furnish him with standards of judgment.

Prerequisite: English 30 to English 31. (4 hours for each course.) English 30, fall quarter; English 31, winter quarter. Summer term.

34. American Literature. A survey of American literature from the beginning to the present, stressing trends and major writers, with as much reading in the originals as possible.

(4 hours.) Spring and summer quarters.

35. Greek Drama. Origins and development of classical drama: Aeschylus, Sophocles, Euripides, with a study of Greek life and thought, and their contribution to our culture.

Prerequisite: English 30, 31, 34. (4 hours.) Fall and summer quarters.

36. Shakespeare and the Elizabethan Drama. A study of Shakespeare's most important plays, and of their place in the development of English drama. Some attention is given to the chief dramatists contemporary with Shakespeare.

(4 hours.) Winter and summer quarters.

37. Modern Drama. The purpose of this course is to familiarize the student with what is best in modern drama.

(4 hours.) Spring and summer quarters.

39. Dramatics. A study of the presentation of plays including the reading of contemporary dramas, the production of at least one play, and the dramatization of an episode or a short story. Some instruction in the coaching of plays is given. Accepted for English 37.

(4 hours.) Summer term.

40. The Teaching of English in the High School. Important topics connected with English in the high school are covered as fully as time permits.

Required in the senior year of those whose major subject is English. (4 hours.) Fall quarter.

41, 42. Practice Teaching in English in the High School.
(4 hours for each course.) Winter and spring quarters.

43. Contemporary Literature. Extensive reading in current literature introduces the student to the best that is being written today, and provides him with some standards of judgment with the hope of stimulating his enthusiasm for good books.

Required or elective in the junior year in all curricula. (4 hours.) Fall and summer quarters.

44. Advanced Rhetoric. Chiefly written composition, applying the principles of organization and effective expression to somewhat more extended material than do English 20 and 21. The course is intended to give both an introduction to the methods of research and opportunity for original work.

Prerequisite: Junior College required English. Required or elective in the junior year in all curricula. (4 hours.) Winter and summer quarters.

44J. Journalism II. This course is designed to train students in the effective expression of problems of student life. Opportunity is afforded for original work. The present-day newspaper and its relation to contemporary life are discussed.

Prerequisite: English 21J or the equivalent. (4 hours.) Every quarter.

45. Oral English. Through prepared talks and discussions this course gives training in the effective expression of genuine ideas and opinions. Sincerity, adequate development of thought, the proper use of facts and evidence, and also the principles and practice of good delivery are stressed.

Prerequisite: Junior College required English. Required or alternative with English 44 in the junior year in all curricula. (4 hours.) Fall, spring, and summer quarters.

46, 47, 48. Modern English Poetry. Appreciation of the art of poetry, and a study of some of the chief English poets, as they illustrate the art. Beowulf to Chaucer; Milton to Burns; Nineteenth Century Poetry.

Required in the English curriculum; elective in others. (4 hours for each course.) English 46, fall quarter; English 47, winter quarter; English 48, spring quarter. Summer term.

49. The Essay. This course traces the development of the essay in English, with special attention to style. Eighteenth and nineteenth century essays are stressed most.

Required in the senior year of the English curriculum and elective for juniors and seniors in any curriculum. (4 hours.) Fall quarter.

50, 51. History of the English Language and Literature. The development of the English language from Anglo-Saxon to the language of today traced concurrently with the history of English literature.

Prerequisite: English 26 or its equivalent. Required in the senior year of the English curriculum. Not open as elective in other curricula except by special permission of the head of the English department. (4 hours for each course.) Winter and spring quarters.

FOREIGN LANGUAGE

LATIN

20. Selected Orations of Cicero. Rapid review of grammar, sight translation.

Prerequisite: Two years of high-school Latin. (4 hours.) Fall quarter.

21. Selected Orations of Cicero. In the middle of the quarter the Aeneid of Virgil is begun.

Prerequisite: Latin 20. (4 hours.) Winter quarter.

22. Virgil's Aeneid, Continued. Greek and Roman mythology, prosody, sight translation.

Prerequisite: Latin 21. (4 hours.) Spring quarter.

23S. Selections from Pliny's Letters. Students who have had two years of Latin in high school are permitted to register for this course. The work begins with a review of the fundamentals of Latin grammar for the benefit of those who have not studied the language for some time. It is intended that this course be of help to teachers of Latin interested in acquiring more credits in the subject.

(4 hours.) Summer term.

30. Cicero's Essays, De Amicitia, De Senectute, and De Officiis.

Prerequisite: Four years of high-school Latin or two years of high-school Latin and Latin 20, 21, 22. (4 hours.) Fall quarter.

31. Horace, Selections from the Odes, Satires, and Epistles.

Prerequisite: Latin 30. (4 hours.) Winter quarter.

32. Livy, Selections from Books I, XXI, and XXII.

Prerequisite: Latin 31. (4 hours.) Spring quarter.

37. Latin Literature in Translation. Students who have had no Latin are given an opportunity to survey the field of Latin literature in English translations made by noteworthy authors. Lectures supply the background for the masterpieces read. The English Department recognizes this as a substitute for English 35 (Greek Drama in translation) and, by special arrangement with the head of the English Department, for certain other courses.

Elective. (4 hours.) Summer term.

40. The Teaching of Latin.

Prerequisite: Three years of college Latin. Required in the senior year of those whose major subject is Latin. (4 hours.) Fall quarter.

40 S. The Teaching of Latin. This course is offered for those who are already teaching Latin in high school or who plan to do so later, but who feel that they would benefit by a thorough review of the content of the first two years of high-school Latin. An attempt is made to serve the individual needs of those who enroll. An especial emphasis is placed upon methods of arousing the students' interest in Latin.

(4 hours.) Omitted 1936-37.

41, 42. Practice Teaching in Latin.

Required in the senior year of those whose major subject is Latin. (4 hours.) Winter and spring quarters.

43. Ovid, Metamorphoses.

(4 hours.) Omitted 1936-37.

44. Latin Composition. This course is based upon a review of the authors usually read in high school.

(4 hours.) Omitted 1936-37.

45. Medieval Latin. Selections from Boethius to Erasmus.

(4 hours.) Omitted 1936-37.

46. Roman Comedy. The Menaechmi and Captivi of Plautus; the Phormio and Andria of Terence.

(4 hours.) Fall quarter.

47. Selections from Martial and Catullus.

(4 hours.) Winter quarter.

48. Our Debt to Greece and Rome. The classical background of civilization is considered—the language, law, philosophy, ethics and religion of the Greeks and the Romans. No knowledge of Latin is required.

(4 hours.) Spring quarter.

49. Oral Latin. This course is designed solely for those who are or aim to be *teachers* of Latin. Practice in understanding simple, spoken Latin and in writing elementary composition receives the major portion of class consideration.

Prerequisite: One year of college Latin. Students who have read Virgil may enter the class with the permission of the instructor. (4 hours.) Omitted 1936-37.

50. The Satires of Juvenal. Students who have studied one year beyond Virgil may enter this course with the permission of the instructor.

(4 hours.) Summer term.

FRENCH

30, 31, 32. First Year French. A careful study of the principles of grammar. Special attention is paid to pronunciation and drill in rhythm and intonation. Study of phonetics as an aid to pronunciation. Reading of simple French texts.

Elective. (4 hours for each course.) No credit toward graduation for less than a year's work. French 30, fall quarter; French 31, winter quarter; French 32, spring quarter.

33, 34, 35. Advanced French. This sequence is conducted with the primary end in view of advancing the student's reading ability. Specific texts by Hemon, Bazin, Anatole France, Dumas Pere, and Balzac are read. Outside reading reports are made every two weeks. The classes are conducted in French.

Prerequisite: Two years of high-school French or one year of college French. Elective. (4 hours for each course.) French 33, fall quarter; French 34, winter quarter; French 35, spring quarter.

43, 44, 45. Advanced French. Dramas of Marivaux and Hugo. Modern poetry. Reading of moderately difficult texts. Frequent reports on suggested topics. Oral themes. Conversation.

Prerequisite: Two years of college French. Elective. (4 hours for each course.) French 43, fall quarter; French 44, winter quarter; French 45, spring quarter.

GERMAN

30, 31, 32. First Year German. Much time is given during the first few weeks to careful practice in pronunciation. Grammatical forms are studied and easy prose based on the grammar lessons is read. A careful study of grammatical forms is kept up all through the year. Hagboldt's *Graded Texts* are used in

the first and second quarters, and in the third quarter *Immensee* is read. Idiomatic expressions and short poems are studied.

Elective. (4 hours for each course.) No credit toward graduation for less than a year's work. German 30, fall quarter; German 31, winter quarter; German 32, spring quarter.

33, 34, 35. Second Year German. The first quarter is a rapid review of the grammar and a careful study of the subjunctive. When that is completed, Bacon's *German Composition* is taken up. During the year *Germelshausen*, by Gerstäcker, *Der Schwiegersohn*, by Baumbach, and *Wilhelm Tell*, by Schiller, are studied. Outside reading of German books is required each quarter, on which a written report has to be given. Some poems are learned.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. (4 hours for each course.) German 33, fall quarter; German 34, winter quarter; German 35, spring quarter.

43, 44, 45. Third Year German. Longer and more advanced German stories and plays by standard authors. German 45 stresses prose composition.

Prerequisite: German 30, 31, 32, or the equivalent. Elective. (4 hours for each course.) Fall, winter, and spring quarters.

GEOGRAPHY

Note: For elementary grade or department teachers, Geography 20, 21, 30, 33, 36, and 40 are recommended.

Those preparing to teach geography in high school should take Geography 20, 21, 30, 33, 36, and 47 (or 44 or 46).

20. Principles of Geography. A survey of the basic relationships between the natural environment and man's activities. This course is organized as a service course for those who are preparing for grade teaching and as a foundation for those who have selected geography as a major or minor subject.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades. Elective for others. (4 hours.) Every quarter.

21. Climatology. A treatment of climates and their causes. As a basis, a study is made of the form and motions of the earth as underlying influences upon the elements of weather and climate.

Required in the Junior College of those in the two-year curriculum for preparation of teachers for the grades. Elective for others. (4 hours.) Every quarter.

Note: Studies of the continents lead to an understanding of the industrial and commercial development and possibilities of geographic regions.

30. Geography of North America. A study of the countries of North America, showing the geographic basis for their stages of development and commercial relations.

Prerequisite: Geography 20 and 21. Elective. (4 hours.) Spring and summer quarters.

31. Geography of South America. A study of the countries of South America, showing the geographic basis for their stages of development and commercial relations.

Prerequisite: Geography 20 and 21. Elective. (4 hours.) Winter quarter.

33. Physiography. A study of the processes which change the surface of the earth. The course includes quite extensive work in interpreting the earth's surface through the use of topographic maps. This course should be elected by those who may teach physiography or general science in high school.

(4 hours.) Fall and summer quarters.

36. Elements of Geology. The course presents the history of the development of the earth and life to the present form, emphasizing the explanation of the distribution and accessibility of the mineral resources of the earth. It is offered as a cultural subject and as a foundation for advanced study and reading in the fields of geography, botany, and zoölogy.

(4 hours.) Spring quarter.

40. The Teaching of Geography. A study of the principles involved in the selection, organization and presentation of geographic material for elementary and secondary schools according to the individual needs of the class.

Required in the senior year of those whose major subject is geography. (4 hours.) Fall quarter.

41, 42. Practice Teaching in Geography.

Required in the senior year of those whose major subject is geography. (4 hours for each course.) Winter and spring quarters.

43 (32). Geography of Europe. A study of the countries of Europe showing the geographic basis for their stages of development and commercial relations.

Prerequisite: Geography 20 and 21. Elective. (4 hours.) Fall and summer quarters.

44. Trade and Transportation. A survey of the major trade regions of the world and the transportation facilities which have contributed to their development.

Prerequisite: Geography 20, 21. (4 hours.) Spring quarter.

45. Geography of Asia. An advanced course dealing chiefly with China, Japan, and India after a general survey of the continent.

Prerequisite: Geography 30, 31, 43. (4 hours.) Winter quarter.

46. Urban Geography. A detailed study of the location, growth, decline and characteristics of cities as influenced by the natural environment.

Prerequisite: Geography 20, 21. (4 hours.) Summer term.

47. Economic Geography. An advanced course for teachers of commercial geography in high school and for Senior College students.

No prerequisite. (4 hours.) Every quarter.

HISTORY AND SOCIAL SCIENCE

Requirements for a major: History 37, 38, 39; History 33, 34, 35; History 46, 47, 48; and Economics 44, 45, 46 or Government 43, 44, 45; and History 40, 41, 42.

Requirements for a minor: Two of the above year sequences excluding History 40, 41, 42.

HISTORY

33. History of the United States, 1492-1824. A brief survey of American exploration and colonization against the European background, with a more intensive study of the formation of the Union and the foundations of traditional American policies.

(4 hours.) Fall quarter.

34. History of the United States, 1824-1876. Jacksonian Democracy and the beginnings of the modern pattern of political action; sectionalism and the westward movement; the Civil War and its aftermath.

(4 hours.) Winter quarter.

35. History of the United States, 1876 to the Present. Development of industrial America and origins of present-day social and economic problems; movements for liberal reform; the

World War and post-war problems, ending with an attempt to evaluate the New Deal.

(4 hours.) Spring quarter.

37. Greek Civilization. This course includes a brief survey of the civilizations of the Nile, Tigris and the Euphrates valleys. The chief emphasis is on the early Greek settlements, their colonial expansion, the development of their economic and political institutions, their cultural life, and their contributions to the development of civilization.

(4 hours.) Fall quarter.

38. Roman History. The early life of the Romans and the development of the institutions of the republic; the expansion of the Roman power; the development of the empire. Special attention is given to the development of political institutions and of the Roman law.

(4 hours.) Winter quarter.

39. Medieval Europe, 500 to 1500 A. D. The break-up of the Roman Empire and the Barbarian Invasions; the development and significance of the Church; the development of the feudal organization of society; the crusading movement; the development of town life; the development of strong states; the Renaissance.

(4 hours.) Spring quarter.

40. Methods. The characteristics of the social sciences and their place in the public school curriculum; training in methods of study; kinds and use of illustrative material; selection and use of collateral reading; critical examination of representative textbooks, examination and appraisal of classroom procedures.

Required in the senior year of those whose major subject is the social sciences. (4 hours.) Fall quarter.

41, 42. Practice Teaching in the High School under Critical Supervision.

Required in the senior year of those whose major subject is the social sciences. (4 hours for each course.) Winter and spring quarters.

43. The History of England to 1603. Early settlement of the British Isles; Roman occupation; Anglo-Saxon civilization; the early Church; the Norman Conquest and relations with France; the development of the common law and Parliament; the development of the Church and the separation of the Anglican Church; English art and literature.

Elective. (4 hours.) Fall quarter.

44. The History of England, 1603-1830. Discovery and colonial expansion and the founding of the British Empire; the constitutional struggles and the supremacy of Parliament; the commercial, agricultural and industrial revolutions; the literature and science of the period; the long struggle with France for colonial supremacy.

Elective. (4 hours.) Winter quarter.

45. The History of the British Empire, 1830 to the Present. The reformation of Parliament; the development of industry and commerce and trade rivalry; development of scientific thought; the World War and its consequences.

Elective. (4 hours.) Spring quarter.

46. History of Europe, 1500-1789. The New World, colonization and trade rivalry; the Reformation and revolt from the Church; the predominance of Spain; the rise of France and the long struggle between France and the Hapsburgs and between France and England; the development of the British Empire; the rise of Prussia and Russia; the Intellectual Revolution.

(4 hours.) Fall quarter.

47. History of Europe, 1789-1871. The French Revolution and the era of Napoleon; the Industrial Revolution; the revolutionary movements in Europe; the unification of Italy and of Germany; the rapid expansion of commerce; the increasing prominence of India, China, and Japan; the development of science and education.

(4 hours.) Winter quarter.

48. History of Europe, 1871 to the Present. The development of nationalism; commercial and colonial rivalry and military and naval rivalry; the Triple Alliance, the Triple Entente; the causes of the World War, and the revolution in the methods of warfare; the treaties of peace and the League of Nations; the revolutionary movements since the World War.

(4 hours.) Spring quarter.

ECONOMICS

20. Economic History of the United States. A brief sketch of our economic development to 1860 with more intensive analysis of the growth of modern business, industry, and finance. The course intends to give an historical basis for the understanding of present economic problems.

Required of Industrial Arts majors in the freshman year. (4 hours.) Spring quarter.

44. Principles of Economics. Basic characteristics of the economic order; free private enterprise and capitalistic organization of industry; the operation of the existing economic order; price as influenced by competition, cost of production, monopoly, and public authority.

Elective. (4 hours.) Fall quarter.

45. Principles of Economics, Continued. The business cycle, determination of the price level; position of the consumer; the labor bargain and the labor problem; the reward of capital and of business enterprise; the support of the state; international economic policies; monetary and financial problems.

Prerequisite: Economics 44. (4 hours.) Winter quarter.

46. Money and Banking. Money, currency and credit; functions and qualities of money; banks, kinds of banks, their organization and functions; the Federal Reserve system and its functions; bank credit, the problem of its control; theories of value and prices; international connection of prices; the problem of the control of the price level.

Prerequisite: Economics 44 and 45. (4 hours.) Spring quarter.

GOVERNMENT

43. State Government. A study of the structure and functions of the government of the state. The course directs attention particularly to the government of Illinois. The obligations of good citizenship are stressed. The Constitution of Illinois is examined in detail. Suggestions concerning the technique of teaching government in high school are included in all the government courses offered in the college. Students are made familiar with desirable illustrative material and choice collateral reading.

(4 hours.) Fall and summer quarters.

44. Local Government. A study of the structure and functions of the government of the political subdivisions of the State. About one half of the course is devoted to city government, and one half to the government of the county, township, and other local units. The governments of typical cities, townships, and counties of Illinois are studied in detail. The obligations of good citizenship are stressed, with particular attention to the responsibilities of the teacher to his community.

(4 hours.) Winter and summer quarters.

45. The National Government. A study of the structure and functions of the national government of the United States,

with particular attention paid to federal-state relationships. The development of federal institutions is traced. The Constitution of the United States is examined in detail. The obligations of federal citizenship are stressed.

(4 hours.) Spring and summer quarters.

46. Political Parties and Politics. A study of the development, organization, and functions of political parties in the United States. The significance of the political party, from local community to nation, is examined. The practical workings of political groups are studied, together with suggestions for desirable reforms and an examination of the part the individual citizen can play in securing these reforms.

(4 hours.) Omitted 1936-37.

47. International Relations of the United States. A study of the place of the United States in the world community with particular attention to the methods and policies of the United States in dealing with foreign nations. The development of the machinery and spirit of international cooperation is traced.

(4 hours.) Omitted 1936-37.

SOCIOLOGY

43. The Community and Society. The contemporary community as the unit of social study, the bases of community life, types of communities, of activities, of organization, of government, and of maladjustments; community planning; relations of the community to society as a whole.

(4 hours.) Fall quarter.

44. Principles of Sociology. Social relations and institutions, society as communication, competitive cooperation and functional patterns, spatial structure of society, social change, social disorganization, the person in relation to culture and the social organization, social control, and social reform.

Prerequisite: Sociology 43. (4 hours.) Winter quarter.

45. Social Problems and Social Trends. The nature of social problems; the problem of adjustment to external nature; population problems; problem of the distribution of wealth and income; health and physical welfare; control and care of defectives; the family and child welfare; crime; the meaning and agencies of social control.

Prerequisite: Sociology 43 and 44. (4 hours.) Spring quarter.

HOME ECONOMICS

Note: The four-year curriculum in home economics (See Curriculum II, 3, F) is designed to cover the needs of teachers who wish to teach home economics in high schools which receive Federal aid under the Smith-Hughes Law. It has been approved by the State Supervisor of Home Economics.

I. CLOTHING

30. Clothing. Textile Study. A study of textile fibers, their production, nature and manufacture into fabrics. Microscopic and physical identification of fibers is made. The hygienic importance of clothing is given consideration.

Prerequisite: Art 30. (4 hours.) Fall quarter.

31. Clothing. Elementary Clothing. A study of the fundamentals of clothing construction and selection. Stress is placed on the use of the commercial pattern.

Prerequisite: Clothing 30. (4 hours.) Winter quarter.

32. Clothing. Dress Design. This course emphasizes the design phases of the clothing problems of individuals. Practical application is made of the principles studied.

Prerequisite: Clothing 31. (4 hours.) Spring quarter.

43. Advanced Clothing. A study of the proper selection and construction of garments. Much emphasis is placed on the suitability of different types of dresses. Construction techniques are stressed.

Prerequisite: Clothing 31. (4 hours.) Omitted 1936-37.

44. Children's Clothing. A study of the planning, purchasing and construction of clothing for infants, and children of various ages. Such factors as hygiene, comfort, beauty, and practicability are considered.

Elective. Prerequisite: Clothing 31. (4 hours.) Omitted 1936-37.

45. Clothing Problems. This course provides opportunity for further study of various clothing problems. Special emphasis is placed on consumer problems.

Prerequisite: Clothing 32. (4 hours.) Omitted 1936-37.

II. FOODS

30. Foods. The study of the production, composition, preservation, selection and preparation of foods, considering nutritive and health values. Breakfasts and luncheons.

Prerequisite: Chemistry 30, 31, 32. (4 hours.) Fall quarter.

31. Foods. A further study of facts and principles involved in food preparation with emphasis on buying and utilization to meet varied interests, needs and activities. Holiday cookery, luncheons and simple dinners.

Prerequisite: Foods 30. (4 hours.) Winter quarter.

32. Foods. More complex problems of meal planning and serving with economic and social principles involved in the use of food. Dinners, special meals, and teas.

Prerequisite: Foods 31. (4 hours.) Spring quarter.

43. Foods. Experimental Cookery. A study of food preparation and cookery processes from a chemical and physical basis. Recipes analyzed and effects of various proportions studied.

Prerequisite: Foods 32 and Chemistry 43. (4 hours.) Fall quarter.

44. Foods. Dietetics. Principles of normal human nutrition. Application of practical feeding problems to individuals and to groups. Calculation and preparation of dietaries.

Prerequisite: Foods 43. (4 hours.) Winter quarter.

45. Foods. Advanced food problems. A further intensive study of the aesthetic, economic and dietetic phases of the processes of cooking and serving meals. Application is made to specific needs.

Elective. Prerequisite: Foods 44. (4 hours.) Spring quarter.

III. HOME ECONOMICS

40. Administration and Methods in Home Economics. A practical interpretation and application of the principles of modern education to home-making subjects.

Prerequisite: Junior standing in the Home Economics curriculum. (4 hours.) Fall quarter.

41C. Practice Teaching in Clothing.

Prerequisite: Home Economics 40. (4 hours.) Fall, winter, and spring quarters.

41F. Practice Teaching in Foods.

Prerequisite: Home Economics 40. (4 hours.) Fall, winter, and spring quarters.

43. Household Equipment. Special training in selection, methods of operation, and care of household appliances.

Prerequisite: Junior standing in the Home Economics curriculum. (4 hours.) Fall quarter.

44. Interior Decoration. See Art 44.

Prerequisite: Junior standing in the Home Economics or Art curriculum. (4 hours.) Winter quarter.

45. Home Management. The study and practice of all managerial problems connected with living in an average home. Four weeks' residence in a home management house required.

Prerequisite: Senior standing in the Home Economics curriculum. (4 hours.) Winter quarter.

46. Child Development and Home Nursing. A study of the child and his development from the physical, psychological, social, and recreational standpoints. A study of the principles governing the location, furnishings, and care of the sick room; care of the patient; and first aid.

Prerequisite: Junior standing in the Home Economics curriculum. (4 hours.) Spring quarter.

47. Home Relationships. The study of relationships in the family. The causes and effects of present-day trends in family life.

Prerequisite: Junior standing in the Home Economics curriculum. (4 hours.) Winter quarter.

58. Industrial History. See History of Industrial Education 58.

Prerequisite: Junior standing in the Home Economics or Industrial Arts curriculum. (4 hours.) Fall quarter.

INDUSTRIAL ARTS

23 (53). Auto Mechanics. Mechanical principles employed in the automobile; study and comparison of standard commercial cars. Repair work is done on various types of automobiles.

Required. (4 hours.) Spring quarter.

24. Primary and Intermediate Grade Handwork. A course for teachers of intermediate and lower grades. Paper folding, paper weaving, cardboard construction, bookbinding, woodwork, basketry (reed and raffia), cord and yarn work, clay work. Educational values of handwork activities.

Required in the two-year curriculum unless Industrial Arts 25 is taken. Required in the four-year elementary curriculum for the lower grades. (4 hours.) Winter, spring and summer quarters.

25. Intermediate Grade Work. The making of wooden toys and games. Related information on tools, materials, and pro-

cesses. Educational values of industrial arts activities. Some work in metal and other media of industrial arts.

Required in the two-year curriculum unless Industrial Arts 24 is taken. Required in the four-year elementary curriculum for the upper grades. Required for Industrial Arts majors. (4 hours.) Fall quarter.

26 (43). Sheet Metal. The construction of simple sheet metal problems, including pipe intersections. Practice in surface development as applied to the sheet metal worker's trade. Related information.

Required. (4 hours.) Spring quarter.

28 (48). Machine Shop. Problems on the engine lathe. A beginning course in the principles underlying machine shop work.

Required in the Industrial Arts curriculum. (4 hours.) Winter quarter.

31. Elementary Mechanical Drawing. A course in the fundamentals of mechanical drawing. Orthographic projection, isometric, oblique, and mechanical perspective are taken up, as well as lettering and elementary machine design and cabinet drawing. Related information, stressing the uses of drafting. Free-hand sketches and drawing are also taught.

Required in the Industrial Arts curriculum. (4 hours.) Winter quarter.

34. Bench Woodwork. Construction of problems involving a variety of tools and processes. Instruction in the use and care of tools. Study of woods, hardware, and materials used in woodwork.

Required in the Industrial Arts curriculum. (4 hours.) Spring quarter.

35. Bench Metal Work. The construction of problems in mild steel, wrought iron, and sheet metal by means of hammering, bending, and shaping of the cold metal. Practice in the design of ornamental metal problems. Instruction in the uses of metals, composition of metals, and related information. Some practice is given in oxy-acetylene welding and forge work.

Required in the Industrial Arts curriculum. (4 hours.) Fall quarter.

36. Furniture and Cabinet Construction. Practice in the use and care of power woodworking machinery. Study of periods and styles of furniture. Study of furniture design. The con-

struction of a piece of furniture designed in Industrial Arts 31. Problems in woodturning.

Required in the Industrial Arts curriculum. Prerequisite: Industrial Arts 34. (4 hours.) Fall quarter.

37. Advanced Furniture and Cabinet Construction. A continuation of Industrial Arts 36. Production methods are studied. Shop and machine maintenance are stressed.

Prerequisite: Industrial Arts 36. Elective. (4 hours.) Winter quarter.

39. Household Mechanics. The first half of the course consists of refinishing and repairing furniture, simple carpentry work, and concrete work. The remainder of the course consists of study, installation, and repair of household equipment.

Elective. (4 hours.) Fall quarter.

40. The Teaching of Industrial Arts. A course in the special methods of teaching the industrial arts subjects.

(4 hours.) Winter quarter.

41, 42. Supervised Teaching in Industrial Arts.

Required in the senior year of the Industrial Arts curriculum. (4 hours for each course.) Every quarter.

44. Electrical Construction. The construction of various circuits required in bell circuits, shop installations, radio, automobiles, and house wiring. The practical application of electricity for high-school pupils is discussed.

Elective. (4 hours.) Omitted 1936-37.

46. Pattern Making. The construction of wood patterns representing typical problems encountered in reproducing metal castings.

Elective. (4 hours.) Spring quarter.

50 (27). Architectural Drawing. Drawings of plans of a two-story house, designed by students. Types of architectural design. Architectural details. Related information.

Required in the Industrial Arts curriculum. Prerequisite: Industrial Arts 31. (4 hours.) Fall quarter.

52. Advanced Engineering Drawing. Study of machine parts, cams and gears. Original design of a small machine.

Elective. (4 hours.) Omitted 1936-37.

54. Advanced Machine Shop. The construction of a small portable machine, requiring the use of milling machine, shaper, radial drill, etc.

Elective. (4 hours.) Omitted 1936-37.

55. Elementary Carpentry. Elements of building construction. Practice in structural work.

Required in the Industrial Arts curriculum. (4 hours.) Winter quarter.

56. Advanced Carpentry. A continuation of Industrial Arts 55. Roof design, house planning, practice in structural work.

Required. Prerequisite: Industrial Arts 55. (4 hours.) Spring quarter.

57. Automobile Electricity. Electrical principles as employed in the automobile; study of every electrical unit for mechanical construction and electrical principles. Repair of electrical units on standard commercial cars.

Elective. (4 hours.) Omitted 1936-37.

58. History of Industrial Education. The development of industrial education; changes in content and viewpoint are brought out. The relation of industrial arts education to general education is stressed.

Required in the Industrial Arts curriculum. (4 hours.) Fall quarter.

59 (29). Elementary Printing. The study of the fundamental processes of hand composition and presswork. Methods of teaching printing in secondary schools. Practice in typical problems of typesetting and press feeding.

Required in the Industrial Arts curriculum. (4 hours.) Fall and spring quarters.

60. Advanced Printing. Advanced problems in hand composition; business forms; fundamentals of design. Make ready on platen and cylinder presses. Press feeding. Practice on type problems or school work.

Prerequisite: Industrial Arts 59 (29). Elective. (4 hours.) Winter quarter.

61. Linotype Operation and Maintenance. A course in the care and maintenance of the linotype and a study of its parts and their functions. Half the time available is given to operation of the machine when the proper type problems or school jobs are composed on the machine.

Prerequisite: Industrial Arts 59 (29). Elective. (4 hours.) Fall, winter, and spring quarters.

THE USE OF THE LIBRARY

Certain courses offered in the College require considerable work in the library, including reading, and looking up references, and assigned topics. To do this work with the wisest expenditure of time and effort, students should know how to use the card catalogue, magazine indexes, and some common reference books. Lessons, required of all students, are given in the freshman year of all curricula. An effort is made to have these lessons prepare for library work required of students in other courses.

20. The Use of the Library. Freshmen who have completed Library XI in the Teachers College High School are excused from all but the last four lessons of Library 20. They should register for Library 20 (XI), given in the first four weeks of the winter quarter.

Required in the freshman year of all curricula. One hour a week. (1 hour.) Every quarter.

MATHEMATICS

20. Arithmetic. This course includes notation and numeration, the fundamental operations with integers and with common and decimal fractions, factors and multiples, English and metric measures, involution and evolution, and simple problems in the measurement of surfaces and solids. The course covers the topics taken up in the first six grades as outlined in the Illinois State Course of Study. Special attention is given to the teaching of these topics in the lower grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. (4 hours.) Every quarter.

21. Arithmetic. The primary object of this course is to prepare for the teaching of arithmetic in the seventh and eighth grades. The principal topics discussed are percentage and its application to practical business problems, ratio and proportion, graphs, formulas, intuitive geometry, square root, and the mensuration of surfaces and solids. It is the aim of the classroom instructor to familiarize the students with methods of instruction that can be readily adapted to the seventh and eighth grades.

Required in the two-year curriculum and in the four-year curriculum for preparation of teachers of primary and intermediate grades. (4 hours.) Winter, spring, and summer quarters.

28. College Geometry. The objects of this course are to improve and extend the student's knowledge of the content and methods of Euclidian geometry and to give an introduction to modern geometry.

Required in the sophomore year of those whose major subject is mathematics. (4 hours.) Spring quarter.

29. Descriptive Geometry. The course includes the line, point, and plane, and their relation to each other; the intersection of surfaces, penetration and development, and conic sections.

Students may take Industrial Arts 31 for credit in Mathematics 29.

Recommended for those whose major subject is mathematics. (4 hours.) Winter and spring quarters.

30. Solid Geometry. Chapters XII-XVI. Students who have had solid geometry in high school take Arithmetic 20, Mathematics 29, Trigonometry 33. Those who have not had Geometry 30 take Geometry 30, Arithmetic 20, and Trigonometry 33 in the freshman year.

Prerequisite: Geometry 3. (4 hours.) Fall quarter.

31. Algebra. Review of Algebra 1, 2, 3. Graphs; functions; determinants of second and third orders applied to simultaneous linear equations; variation; extension of the number system to include complex numbers; theory of quadratic equations; simultaneous quadratics.

Prerequisite: Geometry 3. (4 hours.) Fall and summer quarters.

32. Algebra. Exponents and radicals; logarithms; mathematical induction; binomial theorem; progressions; permutations and combinations, probability.

Prerequisite: Algebra 31 or the equivalent. (4 hours.) Winter and summer quarters.

33. Plane Trigonometry. Definitions and properties of trigonometric functions, the deduction of important trigonometric formulas, the use of tables of logarithms, the solution of plane triangles, and various practical applications.

(4 hours.) Spring quarter.

34. Plane Analytic Geometry. A beginning course in analytic geometry.

Prerequisite: Trigonometry 33. (4 hours.) Fall and summer quarters.

35. Plane Analytic Geometry. Continuation of the preceding course.

Prerequisite: Analytics 34. (4 hours.) Winter quarter.

36. Algebra. Theory of equations including elementary transformation, location of roots, and the solution of the cubic and biquadratic equations; limits, elementary properties of series.

Elective. Prerequisite: Algebra 32. (4 hours.) Spring quarter.

37. Descriptive Astronomy. This is a non-mathematical course for the general student. The object of the course is to open up the fields of solar and stellar astronomy so that the student may have some appreciation of the structure of the universe and of the problems and progress of modern astronomy, and may gain knowledge of the ability to read the literature of the subject with pleasure and profit. The course is of especial interest to teachers of geography and general science. The work of the course includes lectures, recitations, and field work with the four-inch telescope.

Elective. (4 hours.) Spring quarter.

39. Junior High School Mathematics. This course organizes the related elements of arithmetic, elementary algebra and geometry, and numerical trigonometry, and applies them to the solution of problems in science and business that are within the experience of junior high school pupils.

Prerequisite: Arithmetic 20 and 21. Required in the four-year curriculum for teachers in the upper grades. (4 hours.) Spring quarter.

40. The Teaching of High School Mathematics.

Required in the senior year of those whose major subject is mathematics. (4 hours.) Fall quarter.

41, 42. Practice Teaching in High School Mathematics.

Required of those whose major subject is mathematics. (4 hours for each course.) Winter and spring quarters.

43, 44, 45. Differential and Integral Calculus.

Prerequisite: Analytics 35; also Calculus 43 to Calculus 44 and Calculus 44 to Calculus 45. (4 hours for each course.) Calculus 43, fall quarter; Calculus 44, winter quarter; Calculus 45, spring quarter.

46, 47, 48. Differential Equations; Advanced Calculus.

I. Differential Equations. An introduction to the study of

ordinary and partial differential equations with applications to geometry and mechanics. First half year.

II. Advanced Calculus. Second half year.

Prerequisite: Calculus 43, 44, 45. (4 hours for each course.)

Omitted 1936-37.

MUSIC

I. MUSICAL ORGANIZATIONS

The College Men's Glee Club. This club is composed of men who are interested in the performance of good choral literature. Admission is based on ear, vocal and sight-reading requirements. This group makes several public appearances during the year. Rehearsals are one hour in length and are held twice each week. (1 hour for each quarter's work.) Not counted toward graduation.

The College Women's A Cappella Choir. This group makes a spring tour each year through east central and southern Illinois. The club meets for two one-hour rehearsals a week. (1 hour for each quarter's work.) Not counted toward graduation.

The College Band. The concert band gives concerts during the year. During the fall quarter the marching band, which is composed of members in the concert band, plays for all home and some out-of-town football games. Two rehearsals are held each week. (1 hour for each quarter's work.) Not counted toward graduation.

The College Orchestra. This organization numbers about thirty-five players. Many concert appearances are made each year. Two rehearsals a week. (1 hour for each quarter's work.) Not counted toward graduation.

The Charleston Oratorio Society. A choral organization was organized in 1936 for all lovers of music represented under such a title. Two works are presented each year. Open to all who have had some choral experience.

The Music Department furnishes some musical instruments to both band and orchestra members.

II. MUSIC EDUCATION

(Public School Music)

The department is devoted to the development of music educators. Emphasis is placed upon teacher-training in the field of Music Education and not on fostering the conservatory

objective, which is, development of performers. Candidates for admission to the department should have a background in the field of music. No one is encouraged to major in the department if his musical experience prior to admission has been limited.

Advanced Standing Examinations

Students desirous of majoring in Music Education must submit to departmental examination and evince sophomore collegiate ability in both piano and voice. If this examination does not reveal such performance ability, the candidate must take an equivalent to make up his deficiency in piano or voice, or both. Deficiency in these fields may be made up by taking class instruction courses provided without cost to the student.

If, upon matriculation in the department, or at any stage of his training, the candidate meets voice and piano requirement standards set up by the department, further requirements will be waived.

Every Music Education major must meet all department examinations before being officially accepted.

Advanced standing examinations are given the first week of each quarter. Records relative to progress made are maintained in the office of the music department.

O. Music Fundamentals. All students in the two-year grade curriculum must register for this course unless they successfully pass the comprehensive examination offered by the department the first day of classes of each quarter. Those successfully completing the test may then register for Music 28, which is offered each quarter. No one may register for Music 28 unless he has successfully completed the comprehensive examination or course requirements set up by the Music Department.

No credit. Every quarter.

20, 21, 22. Ear-Training and Sight-Singing.

(4 hours.) Fall, winter, and spring quarters.

23, 24. Theory. An intensive course open to those who have had Music O. Scales, intervals, chords, and cadences are studied in singing, writing, playing and dictation.

(4 hours.) Fall and winter quarters.

25. Choral Literature and Conducting. Conducting is studied both as a science and an art; skills involved in manipulating the baton, mechanics of the beat, leadership, musicianship. The class will be organized into a class for actual student

participation in a conducting situation. Vocal materials for usage at intermediate, junior and senior high school levels are thoroughly surveyed and studied.

(4 hours.) Spring quarter.

26, 27. History of Music. A systematic study of composers of all forms of music covering ancient, classic, romantic and modern periods. Representative music performed and analyzed.

(4 hours.) Fall and winter quarters.

28. Primary and Intermediate Grade Methods and Materials. Systematized study is made of modern teaching practices of vocal music in the first six grades. Topics studied: monotones and how to handle them; how to teach rote songs; methods for effectively conducting group singing; musical standards to be obtained; rhythm bands; materials for all the six grades; physiological and psychological factors involved in the transition from one- to two- and three-part song work.

This course is required of all teachers preparing for elementary school work. (4 hours.) Fall, winter, and spring quarters.

29. Music Appreciation and the Listener. This course is open to all college students. Lecture and laboratory method employed. Designed to make intelligent music appreciation possible for those who have had little musical background. The following subjects are discussed: monophony and polyphony; folk songs and art songs and how they are to be distinguished and evaluated; sonata, concerto, and the symphony; classic, romantic, and modern vocal and instrumental forms; music and its philosophy.

Elective. (4 hours.) Fall, winter, and spring quarters.

30, 31. Harmony. An advanced study of harmony including the harmonization of melodies, chord progressions, modulations, chromatic alterations, and transposition. Original exercises in two- and three-part harmony.

(4 hours.) Fall and winter quarters.

32. High-School Music Education. Problems of procedure, materials and related subjects pertaining to vocal music at the junior and senior high school levels. Correlation with academic subjects studied; philosophy and psychology of music education; choruses and related problems; survey of representative courses of study; the high-school music program; music and academic credit; a cappella choir work; adolescent and post-adolescent voices.

(4 hours.) Spring quarter.

43, 44. Brass, Wind, and String Instrument Technique. Comprehensive survey of materials for both band and orchestra; laboratory method stressed; class instruction methods employed to give students actual playing knowledge of all brass, wind and string instruments; technique of modern class instruction methods demonstrated.

(4 hours.) Fall and winter quarters.

III. PIANO

20, 21, 22. Class Piano Instruction. Finger exercises, major scales in different form and rhythm. Burgmuller Etudes Op. 100 and easy solo pieces. Major and minor scales in different rhythms and form. Burgmuller Etudes Op. 109; Octave Studies by Loeshhorn; sonatas and solos. Burgmuller Op. 105; School of Velocity by Czerny; Bach, Mozart, and Beethoven studies.

30, 31, 32. Class Piano Instruction. Finger technique; school for artists by Czerny; Two- and Three-part Inventions by Bach; solo pieces and concertos for two pianos.

Either year's work elective. (2 hours for each course.) Fall, winter, and spring quarters.

Note: Students majoring in Music Education should take the amount of piano recommended by advanced standing committee upon entrance to department. This also applies to the vocal requirements.

IV. VOICE

20, 21, 22. Class Voice Instruction. Position of body, correct breathing, tone and vowel formation. Concone Solfeggios and easy songs, Lamberti studies. Songs, duets, trios and quartets formed and sung. Lamberti and Marchesi studies; songs in English, German, French and Italian.

30, 31, 32. Class Voice Instruction. Continuation of Voice 20, 21, 22, and anthology of old Italian masters.

Either year's work elective. (2 hours for each course.) Fall, winter, and spring quarters. See note under Piano.

PENMANSHIP

20. Penmanship. The course in penmanship is designed to give the students an opportunity to improve their own handwriting, both at the desk and at the blackboard, and at the same time they are given methods of teaching for each grade. The students make individual progress charts and learn how to grade their own handwriting as well as that of the children's from

various standard handwriting scales. The students who have made satisfactory progress at the end of the first six weeks may start writing for their teachers certificates. During the last six weeks, these students are given a chance to observe and to teach handwriting in the Training School. This course not only enables the students to acquire a thorough knowledge of the subject, but gives them an opportunity to complete all requirements for the teachers certificate in handwriting.

Required in the two- and four-year elementary curricula. (1 hour.) Every quarter.

PHYSICAL EDUCATION FOR MEN

Illinois law requires two hours of physical education per week for two years. A thorough physical examination is required.

Credit earned in the required courses in physical education is in addition to the 96 quarter hours required for a diploma and the 192 quarter hours required for a degree.

Physical education and coaching may be used as a second minor subject, but not as the only minor subject.

No student is permitted to count less than 12 nor more than 24 quarter hours in physical education and coaching for credit toward graduation.

Equipment. Each student taking physical education is required to have a gymnasium suit. This suit consists of a regulation sleeveless jersey and running pants (both white), gray sweat shirt and pants, and soft-soled shoes. The student is required to keep these clean and in good condition.

REQUIRED COURSES

Freshman and Sophomore Years

First Year's Work. Regular exercises in the gymnasium or participation in a varsity sport.

(1 hour for each quarter's work, but not counted toward graduation total.) Every quarter.

Second Year's Work. Gymnasium work or participation in a varsity sport.

(1 hour for each quarter's work, but not counted toward graduation total.) Every quarter.

ELECTIVE PHYSICAL EDUCATION

For Sophomores, Juniors and Seniors

33. Physical Education for Teachers, I. The history of physical education; the physical education program.

Prerequisite: At least sophomore classification. (4 hours.)
Fall quarter.

34. Physical Education for Teachers, II. Advanced work in the gymnasium, playground work and games, athletic management for junior high schools.

Prerequisite: At least sophomore classification. (4 hours.)
Winter quarter.

35. Physiology, Hygiene, and Anatomy. Physiology and physical education, the care of the body, the study of muscles and bones, the treatment of sprains, bruises and wounds, massaging and bandaging.

Prerequisite: At least sophomore classification. (4 hours.)
Winter quarter.

36. Basketball. Study of the rules. Practice in passing, dribbling, shooting, pivoting, and teamplay. Discussion of plays and tournaments.

Prerequisite: At least sophomore classification. (4 hours.)
Fall and summer quarters.

37. Track and Field. A study of forms in starting, sprinting, hurdling, jumping, discus throwing, javelin, shot putting, pole vaulting. Study of rules, discussion of training and preparation for each event.

Prerequisite: At least sophomore classification. (4 hours.)
Spring quarter.

38. Football. The theory and practice of the game. Fundamentals, rules, systems.

Prerequisite: At least sophomore classification. (4 hours.)
Spring quarter.

41. Practice Teaching in Gymnasium and Playground Work.

Prerequisite: Senior College classification. (4 hours.) Every quarter.

44. The Organization and Administration of Physical Education. Program, curriculum, the physical education plant, finances, the gymnasium, locker room, shower room, equipment, records, interschool relations.

Prerequisite: Senior College classification. (4 hours.) Winter quarter.

46. Practice Coaching in Basketball.

Prerequisite: Physical Education 36 and junior or senior classification. (4 hours.) Winter quarter.

47. Practice Coaching in Football.

Prerequisite: Physical Education 38 and junior or senior classification. (4 hours.) Fall quarter.

48. Practice Coaching in Track and Field.

Prerequisite: Physical Education 37 and junior or senior classification. (4 hours.) Spring quarter.

49. Practice Coaching in Baseball.

Prerequisite: Junior or senior classification with recommendation of the instructor. (4 hours.) Omitted 1936-37.

PHYSICAL EDUCATION FOR WOMEN

Physical Education, two hours a week for two years, is required in the college. This is a law for all students in state-supported institutions. This is in addition to the 96 quarter hours required for a diploma and to the 192 quarter hours required for a degree.

A thorough physical examination is given at the beginning of the year to all students registered for physical education. The examining physician notes all defects, abnormalities and weaknesses and prescribes exercise to fit the needs of the individual. A resident health director follows up all cases in need of medical attention.

Regulation costumes are required. The gymnasium suit should not be purchased until notified by the instructor.

REQUIRED COURSES

The required work in Physical Education is also offered in the summer term.

Freshmen

Sports. Hockey, soccer, tennis. For those permitted only moderate exercise—archery, deck tennis.

(1 hour.) Fall quarter.

Games. To provide college women with recreation and healthful activity by means of games, such as basketball, volley ball and stunts.

(1 hour.) Winter quarter.

Rhythm. To provide opportunity for expression and satisfaction of bodily movement through rhythmical activities, such as folk dancing, clogging and rhythm.

(1 hour.) Winter quarter.

Sports. Baseball, tennis, hockey. For those permitted only moderate exercise—archery or deck tennis.

(1 hour.) Spring quarter.

Sophomores

Sports. Hockey, soccer, tennis. For those permitted only moderate exercise—archery or deck tennis.

(1 hour.) Fall quarter.

Rhythm Work for the Lower Grades. This course is required of all students planning to teach in the lower grades. The purpose of the course is to give instruction in the choice, use, and presentation of rhythmic activities used in the lower grades and to provide opportunity to teach the same.

(1 hour.) Winter and spring quarters.

Games for the Lower Grades. This course is required of all students planning to teach in the lower grades. The purpose of the course is to give instruction in the choice, use, and presentation of games used in the lower grades and to provide opportunity to teach the same.

(1 hour.) Winter and spring quarters.

Rhythm for the Upper Grades. This course is required of all students planning to teach in the upper grades. The purpose is to give instruction in the choice, use, and presentation of folk dances and rhythmic activities used in the upper grades and to give opportunity to teach the same.

(1 hour.) Winter and spring quarters.

Games for the Upper Grades. This course is required of all students planning to teach in the upper grades. The purpose is to give instruction in the choice, use, and presentation of games for the upper grades and to give opportunity to teach the same.

(1 hour.) Winter and spring quarters.

ELECTIVE COURSES

30. Principles of Physical Education. A theory course considering the place of physical education in society in America; relation of physical education to general education; the aims and objectives of physical education; principles guiding the

choice of material; and methods of judging results. This course may be substituted for any of the above courses with the approval of the instructor. A notebook is required.

Elective. (1 hour.) Omitted summer term, 1936.

31. Physical Education. A theory course in physical education. History, aims, and objectives; relation to general education; principles; and programs for elementary grade schools. A notebook is required.

Elective. (1 hour.) Summer term.

BIOLOGICAL SCIENCE

I. HUMAN PHYSIOLOGY

20. Hygiene and Sanitation. The first half of the course considers health factors (environment, living habits, heredity), nutrition, the muscular, excretory, and nervous systems, and the ductless glands.

The second part takes up bacteria and the resistance of the body to them, immunity to disease, water and water purification, sewage disposal, ventilation, food preservation, and health departments.

Required in all curricula. (4 hours.) Every quarter.

II. BOTANY

20. College Botany. A course designed to give the student a knowledge of the fundamental physiological processes concerned in the growth of plants, and of the external and internal structures which are concerned in these processes in leaves, stems, and roots. It includes also the effects of environment on these processes and structures.

Required in the two-year curriculum, unless Zoölogy 23 (or 20) or Botany 21 or 22 is taken. Elective in other curricula. (4 hours.) Every quarter.

21. College Botany. A study of the reproduction of flowering plants, the development of fruit and seeds from the parts of the flower, the mechanism of heredity, and a brief study of the great groups of plants.

Prerequisite: Botany 20. Elective. (4 hours.) Winter and summer quarters.

22. General Local Flora. The identification of trees in winter and summer condition, of the common fresh water algae, liverworts, mosses and ferns, and of flowering plants as the

season advances; and with a study of structures which is necessary for the recognition of these forms. The course is designed especially for those who expect to teach biological science in secondary schools.

Prerequisite: Botany 20 and 21 or permission of the instructor. Elective. (4 hours.) Spring and summer quarters.

23. Dendrology and Wood Anatomy. This course includes a student of the chemical and physical processes concerned in the formation of cell walls in plants; the development of various types of stems; the distribution of commercial woods; trees in winter and summer condition; the microscopic study of the woods used in the industrial arts.

Required in the freshman year of the Industrial Arts curriculum. (4 hours.) Winter quarter.

30. The Morphology of Green Plants. A study of the vegetative and reproductive structures of the green plants and a comparative study of the typical life histories of the great groups. The course consists mostly of laboratory work.

Prerequisite: Botany 20 and 21. Elective. (4 hours.) Fall quarter.

31. Introduction to Fungi and Plant Diseases. The structure, life histories, and physiology of the groups of fungi and their relation to decay, fermentation, and the important plant diseases.

Prerequisite: Botany 20 and 21. Elective. (4 hours.) Winter quarter.

32. Economic Botany. The relation of vegetation centers to crop centers; the effect of environment factors on the production of carbohydrates, fats, fibers, and other plant products; the value of micro-organisms in the important economic practices carried on by their use; the control of the life processes of plants with special reference to the cultural practices in the arts of agriculture and in industry.

Prerequisite: Botany 20 and 21. Elective. (4 hours.) Spring quarter.

40. Methods in High-School Botany. The course includes methods of teaching high-school botany and also the collection and preparation of material for demonstration and laboratory in high-school botany.

Prerequisite: Two years' work in college botany. Required in the senior year in the four-year curriculum in Botany. (4 hours.) Fall quarter.

41, 42. Practice Teaching in High-School Botany.

Prerequisite: Botany 40. Required in the senior year in the four-year curriculum in botany unless Zoölogy 41 is substituted. (4 hours for each course.) Winter and spring quarters.

43. Microtechnic. A course designed for the purpose of giving the student a knowledge of the preparation of botanical material for class use and for the making of microscopic slides. It is desirable that students in this course shall have had a year of chemistry.

Prerequisite: Botany 20, 21, 22, and 30, or the equivalent. Elective. (4 hours.) Fall quarter.

44. Experimental Plant Physiology. A qualitative and quantitative study of the experiments demonstrating the chemical and physical processes that result in the growth of plants and the application of this knowledge in solving problems in the growth of plants.

Prerequisite: One year of chemistry and Botany 20 and 21. Elective. (4 hours.) Winter quarter.

45. Advanced Botany. This is designed to meet the needs of individual students who wish to do advanced work in some special field of botany. The student may choose the work he wishes to do, but is required to consult the instructor before registering.

Prerequisite: Botany 20, 21, 22, 30, and 43. Elective. (4 hours.) Any quarter, by permission.

46. Advanced Wood Anatomy and Identification. A critical study of the development of the tissues of the leaves, stems, and roots of the seed plants; their common ecological variations and hereditary types. A study is made of the structure of the wood of trees with special reference to the anatomy necessary for wood identification.

Prerequisite: Botany 20, 21, 22. (4 hours.) Spring quarter.

III. ZOÖLOGY

20. Animal Biology. A consideration of fundamental biological principles based upon animal material. This course forms the first quarter of the first year course in zoölogy. The structure of cells, tissues, and organs, together with their functions, are considered.

Elective. (4 hours.) Fall and summer quarters.

21. Animal Biology. This course is concerned with the various types of reproduction in animals and with genetics and eugenics.

Prerequisite: Zoölogy 20 or equivalent. Elective. (4 hours.) Winter and alternate summer quarters.

22. Animal Biology. A study of the structure and habits of the animals of the various divisions of the animal kingdom. Their ecology, geographic distribution, and evolution are considered.

Elective. (4 hours.) Spring and summer quarters.

Students enrolled in this course must either buy or rent a set of dissecting instruments.

23. Nature Study. This course is designed to meet the biology requirement of the two-year curriculum. Its aim is to give a background for the teaching of nature study in the grades. It replaces the former requirement of Zoölogy 20. The course includes a study of the fundamental life processes and of the identification of birds and insects. It is not accepted for Zoölogy 21 or 22 toward a laboratory science requirement.

Required in the freshman year of the two-year curriculum unless Botany 20 is taken. Accepted for Zoölogy 20. (4 hours.) Every quarter.

30, 31, 32. Vertebrate Zoölogy. A study of the anatomy, classification, and habits of various classes of vertebrates. Zoölogy 30 deals with fishes; Zoölogy 31, with amphibians and reptiles; Zoölogy 32, with birds and mammals.

Prerequisite: Zoölogy 20, 21. Elective. (4 hours for each course.) Zoölogy 30, fall quarter; Zoölogy 31, winter quarter; Zoölogy 32, spring quarter.

40. Methods in High-School Zoölogy. The course includes methods of teaching zoölogy and also the collection and preparation of material for demonstration and laboratory in high-school zoölogy.

Prerequisite: Two years' work in college zoölogy. Required in the senior year in the four-year curriculum in zoölogy. (4 hours.) Fall quarter.

41, 42. Practice Teaching in High-School Zoölogy.

Prerequisite: Zoölogy 40. Required in the senior year in the four-year curriculum in zoölogy unless Botany 41 is substituted. (4 hours for each course.) Winter and spring quarters.

43, 44, 45. **Advanced Zoölogy.** A study of insects. Deals with the classification and ecology of this large and important class. Methods of collection and preparation of specimens are studied. It prepares for teaching biological science in the upper grades or high school.

Prerequisite: Zoölogy 20, 21. *Elective.* (4 hours for each course.) Zoölogy 43, fall quarter; Zoölogy 44, winter quarter; Zoölogy 45, spring quarter.

46. **Microtechnic.** Methods and practice in the preparation of microscopic slides of animal tissues. Some histological studies are included.

Prerequisite: Two years of zoölogy and permission of the instructor. (4 hours.) Omitted 1936-37.

47. **Animal Behavior.** Theoretical and experimental studies of the reactions of animals to various stimuli.

Prerequisite: Two years of zoölogy and permission of the instructor. (4 hours.) Omitted 1936-37.

48. **Animal Ecology.** A study of various animal associations and the effects of environmental conditions.

Prerequisite: Two years of zoölogy and permission of the instructor. (4 hours.) Omitted 1936-37.

49. **Special Problems in Zoölogy.** Students who have had three years' work in zoölogy may elect this course. With the consent of the instructor a problem which is of interest to the student is selected to give training in original work in the field of zoölogy. Weekly conferences with the instructor guide the student and a written report of the work is required at the end of the quarter.

Prerequisite: Three years of work in zoölogy. Any quarter, with the consent of the instructor.

PHYSICAL SCIENCE

CHEMISTRY

Note: Four year-sequences are offered: 1. General inorganic chemistry and introduction to qualitative analysis (30, 31, 32). 2. Qualitative and quantitative analysis (33, 34, 35). 3. Organic chemistry (43, 44, 45). 4. Physical chemistry (46, 47, 48).

Those for whom chemistry is the minor subject should take Chemistry 33, 34, and 35 for the second year's work if they expect to teach high-school chemistry. Chemistry 50, or 51, or 52 (one quarter) is required of chemistry majors. Chemistry 43

is required for those majoring in home economics and recommended along with 44 and 45 for those majoring in the biological sciences.

30. General Inorganic Chemistry. Matter and energy; elements, compounds and mixtures; studies of oxygen, hydrogen, water; fundamental laws and theories of chemistry; symbols, formulas, equations, equilibrium; solutions, ionization, chlorine and its compounds; the balancing of equations in metathetic reactions and in oxidation-reduction reactions.

(4 hours.) Fall quarter.

31. Inorganic Chemistry. The halogens, structure of atoms and the periodic law, isotopes; determination of molecular and atomic weights; nitrogen and its compounds; sulfur and its compounds; phosphorus, arsenic, antimony; carbon and its oxides.

Prerequisite: Chemistry 30. (4 hours.) Winter quarter.

32. Inorganic Chemistry. A continuation of Chemistry 31. The metals and an introduction to the qualitative analysis of the metals.

Prerequisite: Chemistry 30, 31. (4 hours.) Spring quarter.

33. Qualitative Analysis. The chemistry of the metals and the principles involved in their separation and determination.

Prerequisite: Chemistry 30, 31, 32, and Physics 30 (or simultaneous registration for the latter.) (4 hours.) Fall quarter.

34a. Qualitative Analysis. The non-metals.

34b. Quantitative Analysis. Calibration of apparatus and an introduction to volumetric analysis.

Prerequisite: Chemistry 33. (4 hours.) Winter quarter.

35. Quantitative Analysis. Continuation of Chemistry 34b and gravimetric analysis.

Prerequisite: Chemistry 34a and 34b. (4 hours.) Spring quarter.

40. The Teaching of Chemistry.

Required in the senior year in the four-year curriculum in chemistry. (4 hours.) Fall quarter.

41, 42. Practice Teaching in Chemistry.

Required in the senior year in the four-year curriculum in chemistry. (4 hours for each course.) Winter and spring quarters.

43. Organic Chemistry. An outline of the field of organic chemistry. Some emphasis is laid upon foods and allied substances because of their importance to those majoring in the biological sciences and home economics.

Prerequisite: Chemistry 30, 31, 32. (4 hours.) Fall quarter.

44, 45. Organic Chemistry. The aliphatic and aromatic compounds are studied in some detail.

Prerequisite: Chemistry 43. (4 hours.) Winter and spring quarters.

46, 47, 48. Physical Chemistry. A study of fundamental physical properties governing chemical reaction.

Prerequisite: Chemistry 33, 34, 35. Physics 30, 31, 32. Trigonometry 33. (Calculus 43, 44, 45 is desirable.) Chemistry 43, 44, 45 is desirable but not necessary. (4 hours for each course.) Omitted 1936-37.

50, 51, 52. Advanced Chemistry. Laboratory technique, maintenance and repair of apparatus such as that found in the average high-school laboratory, and use of the literature of chemistry are developed in the student by means of a simple research problem. The student is expected to choose the type of work in which he is most interested after consulting with the instructor. One quarter's work is required of all chemistry majors.

Prerequisites: Senior College classification and Physics 30, 31, 32. (4 hours for each course.) Any quarter, by permission.

PHYSICS

30, 31, 32. First Year of College Physics. Physics 30, mechanics and heat; Physics 31, magnetism and electricity; Physics 32, light and sound.

(4 hours for each course.) Physics 30, fall quarter; Physics 31, winter quarter; Physics 32, spring quarter.

35. Mechanics and Heat. Second year experiments with Atwood's machine, elastic and inelastic impact, simple harmonic motion; Boyle's and Charles's Law, vapor pressure, mechanical equivalent of heat.

36. Light. Second year experiments with lenses and mirrors, prism and grating spectroscopy, Michelson interferometer and polarization phenomena.

37. Modern Physics. Second year experiments with radio-activity, discharge tubes, vacuum tubes, photo-electricity, thermocouples, X-rays.

Prerequisite: Physics 30, 31, 32. (4 hours for each course.) Physics 35, winter quarter; Physics 36, fall quarter; Physics 37, spring quarter.

38. Sound. Physical principles of production and control of sound. The applications of principles to music and musical instruments. Hearing. A brief introduction to architectural acoustics. A summary of modern methods of analysis. Class and laboratory. Most of the laboratory time will be devoted to demonstrations and group projects.

Prerequisite: General Physics or Music. (4 hours.) Summer term.

40, 41, 42. Methods and Practice Teaching in Physics.

Required in the senior year in the four-year curriculum in physics. (4 hours for each course.) Fall, winter, and spring quarters.

43. Radio. A study is made of the principles underlying radio communication. The course includes a study of some typical circuits used in receiving sets and a detailed study of the function of inductance, capacitance, and resistance in electric circuits. Types of vacuum tubes are discussed.

In the laboratory, electrical measurements of parts and assembled units are made. This includes taking characteristic curves of vacuum tubes.

Prerequisite: Physics 31. (4 hours.) Summer term.

44. Electrical Measurements. A laboratory course with experiments on high precision measurements. Potentiometer measurement of potential, current and resistance. Ballistic galvanometer measurements of quantity and capacity. Alternating current bridge. Electro-chemical measurements. Magnetization and hysteresis measurement. Insulation resistance measurement.

Prerequisite: Physics 31. (4 hours.) Summer term.

48. Mechanics, Theory. A standard elementary course in theoretical mechanics. Studies of forces acting on a body; vectors; the laws of motion as applied to physical bodies; moment of inertia; momentum; energy.

Prerequisite: Physics 30 and trigonometry. (4 hours.) Omitted 1936-37.

49. Heat, Theory. Thermometry, expansion of solids, liquids, and gases. The general gas laws and the kinetic theory. Introduction to thermodynamics.

Prerequisite: Physics 30. (4 hours.) Omitted 1936-37.

50. Electricity and Magnetism, Theory. Magnets and the magnetic field; the electric field; direct current and magnetic field; alternating current and phase relations; units.

Prerequisite: Physics 31 and trigonometry. (4 hours.) Omitted 1936-37.

51. Light, Theory. A brief review of geometrical optics. Phenomena of light studied in terms of physical optics (light as a wave motion). Optical instruments; spectrometry; interference; and polarized light.

Prerequisite: Physics 32 and trigonometry. (4 hours.) Fall quarter.

52, 53. Modern Physics. A survey of basic experiments and theories of modern physics. Radio-activity; discharge of electricity through gases; X-rays; photo-electricity; the structure of matter and the periodic table; matter and radiation.

Prerequisite: Physics 30, 31, 32, and trigonometry. (4 hours for each course.) Winter and spring quarters.

PART III: LISTS

THE TEACHERS COLLEGE BULLETIN

The Teachers College Bulletin, a sixteen-page monograph, devoted to educational topics, is issued quarterly and distributed in the immediate territory of the College free of charge. The numbers issued in the past six years, exclusive of summer school bulletins and annual catalogues, are:

109. Practical Arts at the Eastern Illinois State Teachers College, *by L. F. Ashley.*

110. A Mesophytic Ravine, "Rocky Branch," *by E. L. Stover.*

113. The Junior High School, An Annotated Bibliography, *by F. A. Beu.*

114. The Training of Public School Art Teachers, *by Grace E. Messer.*

117. Trees and Shrubs of the Campus, *by E. L. Stover.*

118. Changes in the Student Body, 1925-1930, *by Ralph Haefner, Emma Reinhardt, F. A. Beu.*

121. Number reserved for future bulletin.

122. Number reserved for future bulletin.

129. Bulletin of The Teachers College High School, 1934-35.

130. Creative Work in English with Fourth Grade Children, *by Myrtle Arnold.*
